

2021-2022 GENERAL CATALOG

2550 US Hwy 70 SE • Hickory, North Carolina 28602

General Catalog • Volume 50 • Number 1 • 2021-2022

Main Campus Telephone Number: 828-327-7000 • College Website: www.cvcc.edu

The *Catawba Valley Community College 2021-2022 General Catalog* (hereby referred to as the "*Catalog*") is the official source of the College's academic programs and courses. The *Catalog* should be used as a guide, in conjunction with an academic advisor, in planning a program of study and in meeting requirements for graduation.

The requirements specified in this *Catalog* apply to students who commence their studies at Catawba Valley Community College during the 2021-2022 academic year and who remain in continuous enrollment at the institution until they graduate.

The present online catalog represents the most current annual version of the holistic college catalog. Revisions of respective curricular standards and expectations necessitated by state or local updates may be found under the programing evaluation (EVAL) link in the student's individual Portal.

The catalog of record is the catalog that is current at the time a student enrolls at CVCC in his/her program of study. If a student changes his/her program of study, then the catalog of record becomes the catalog that is current at the time of that program change. To graduate under a program of study, a student must meet the requirements of his/her catalog of record or any catalog in effect within the next five years as long as the student has been continuously enrolled. A break in enrollment occurs when a student is not enrolled for two consecutive semesters (i.e. fall and spring or spring and fall). Students are not required to be enrolled during the summer semesters to maintain continuous enrollment. If a student breaks enrollment, the catalog of record will become the catalog that is current at the time of reentry. From that point of reentry, the rule of continuous enrollment will apply. The Chief Student Services Officer or designee has the authority to choose a catalog within a five-year period of continuous enrollment that best suits the student's needs for his/her particular program of study at the time of graduation. Exceptions to this policy must be approved by Chief Academic Officer.

See additional Requirements for Graduation.

Although course offerings and academic requirements at Catawba Valley Community College are continually under examination and revision, the *Catalog* is updated only once per year. This annual revision procedure helps ensure that users of the *Catalog* will not find unexpected changes during their academic planning processes.

Catawba Valley Community College publishes this catalog for the purpose of providing students and other interested persons with information about the College and its programs. The provisions of the catalog are not to be regarded as an irrevocable contract between students and Catawba Valley Community College. The College reserves the right to change any provisions, policies, requirements, or schedules at any time or to add or withdraw course or program offerings. Every effort will be made to minimize the inconvenience such changes might create for students. Revisions are available on the CVCC website at www.cvcc.edu.

Since opening its doors to students in 1960, Catawba Valley Community College has existed as an "open-door" institution to persons of both sexes and all racial and ethnic groups. This admissions policy has been followed in all other spheres of student life ranging from activities to placement. Similarly, Catawba Valley Community College has made all personnel decisions including hiring, compensation, benefits and promotion on a nondiscriminatory basis.

The Board of Trustees of Catawba Valley Community College does hereby reaffirm this past stance by making a formal commitment to provide equal opportunity for employees and students. Catawba Valley Community College does not discriminate on the basis of race, color, national origin, sex/gender identity, religion, creed, age, disability, veteran or active military status, genetic characteristics, or any other category protected by law under Title VII and/or Title IX. We recognize this obligation to be a moral as well as legal responsibility because of its intrinsic worth in a country in which all should have an equal chance to let their ability guide their life choices.

An Equal Opportunity/Affirmative Action Institution

Accreditations

Catawba Valley Community College is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award certificates, diplomas, and associate degrees. Questions about the accreditation of Catawba Valley Community College may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404)679-4500, or by using the information available on SACSCOC's website (www.sacscoc.org).

Catawba Valley Community College is Approved for Veteran Enrollment by the North Carolina State Approving Agency (NCSAA) for VA Education Benefits. To contact: NCSAA, PO Box 13628, TW Alexander Drive, Research Triangle Park, NC 27709, (919) 237-7932, saainquiry@northcarolina.edu.

Catawba Valley Community College is also a member of the North Carolina Community College System; American Association of Community Colleges; North Carolina Citizens for Business and Industry; and Charlotte Regional Workforce Development Partnership.

Dry Creek Circle, Suite #110, Littleton, CO 80120.

The Welding Technology Program is an Educational Institution Member designated by the American Welding Society (www.aws.org).

Message From The President

We began serving the Catawba Valley in 1960 as the Catawba County Industrial Education Center. Today, Catawba Valley Community College continues to evolve with campus expansion and off-campus centers such as the Alexander Center for Education, the Furniture Academy, the Catawba Valley Manufacturing Academy, the Manufacturing Solutions Center, the Corporate Development Center, and the Cosmetology Center.

The one core value on our campuses that remains consistent, despite the global impacts of the historical COVID-19 Pandemic on our students, our college, and our community, is our passion and commitment to improve the lives of the people we serve.

Our college workforce graduates are prepared for the workforce, and our college transfer students are ready for their next step to a four-year college or university. Our students have demonstrated amazing resiliency to continue their pursuit of credentials, and our faculty and staff have been committed to serving our students in innovative ways to assure that our mission continues even through the worst of times.

CVCC graduates approximately 1100 students each year in curriculum degrees and general education development diplomas. Our efforts to provide the best educational experience for our students is evident in the college's 95% student satisfaction rating. We have the honor of serving close to approximately 12,000 individuals each year and the awesome responsibility of providing them with the best chance for success in achieving credentials that are valued for a lifetime.

Our students set the bar each year, winning local, state, and national competitions and that commitment to excellence will never wane in Red Hawk Nation! All of this is made possible by our employees through their dedication to innovative instructional methods and their commitment to focusing on our primary goal - student success. We are committed to valuing every person who walks onto our campuses looking for a better future.

It is an honor to serve as President of Catawba Valley Community College. We welcome you to our college and appreciate the opportunity to assist you in achieving your goals and dreams the "Valley Way."

Dr. Garrett D. Hinshaw, President

2021-2022 Institutional Calendar

Fall Semester 2021

Faculty/Staff Professional Development Activities (No Curriculum Classes).....	August 12
Curriculum Instructional Work Days.....	August 10-12; October 18-19
*Fall Curriculum Semester Begins	August 16
Institutional Holiday.....	September 6
Fall Fling/Student Appreciation Day	September 15
Constitution Day Activities	September 16
Mid-Semester Break for Curriculum Students.....	October 18-19
Last Day to Withdraw from Curriculum Classes without Academic Penalty	60% Date of Class
Institutional Holiday.....	November 11
Flip Day (Curriculum Classes operating a Thursday schedule)	November 23
Break for Curriculum Students (No Curriculum Classes).....	November 24-27
Institutional Holiday.....	November 25
Spring Registration.....	November/December
*Fall Curriculum Semester Ends.....	December 14
*Snow Make Up Days (If Necessary Due to Inclement Weather).....	December 15-16
Institutional Holidays.....	December 21-23

* While many classes begin during the first week of the semester, there are also classes, which begin later in the semester.

Also, some classes do end before the last week of the semester.

Please refer to the fall semester curriculum class schedule for specific class start and end dates.

Spring Semester 2022

Institutional Holiday.....	December 30
CVCC Open	January 3
Curriculum Instructional Work Days.....	January 11-13
Institutional Holiday.....	January 17
*Spring Curriculum Semester Begins	January 18
Last Day to Withdraw from Curriculum Classes without Academic Penalty	60% Date of Class
Break for Curriculum Students (No Curriculum Classes).....	March 16-17
Institutional Holiday.....	April 18
Flip Day (Curriculum Classes operating a Monday schedule).....	April 19
Summer Registration Activities	March/April
Spring Fling/Student Appreciation Day	April TBD
Awards Day	April TBD
*Spring Curriculum Semester Ends	May 12
Commencement Activities	May 13-14

* While many classes begin during the first week of the semester, there are also classes, which begin later in the semester.

Also, some classes do end before the last week of the semester.

Please refer to the spring semester curriculum class schedule for specific class start and end dates.

Summer Semester 2022

*Summer Curriculum Semester Begins.....	May 31
Institutional Holiday.....	May 30
Last Day to Withdraw from Curriculum Classes without Academic Penalty	60% Date of Class
Adult Secondary Credentials Recognition Ceremony	TBD
Institutional Holiday.....	July 4
Flip Day (Curriculum Classes operating a Monday schedule).....	July 5
Fall Registration Activities	July/August
*Summer Curriculum Semester Ends	July 26

* While many classes begin during the first week of the semester, there are also classes, which begin later in the semester.

Also, some classes do end before the last week of the semester.

Please refer to the summer semester curriculum class schedule for specific class start and end dates.

Note: Please check the CVCC website (www.cvcc.edu) for calendar and registration updates.

General Information

Charge Statement

CVCC empowers the courageous to become champions, the bold to become lifelong learners and tomorrow's leaders.

College Mission

Catawba Valley Community College is a comprehensive learning community that provides a multitude of collegiate, industrial/vocational, and life skills/personal enrichment experiences, empowering all of its constituents to:

1. identify and champion higher purposes in their lives and in their communities,
2. value teamwork with a global community by respecting the power of diversity and inclusively, and
3. live as a contributing member and leader within society.

College Vision

The vision of Catawba Valley Community College is to be validated and recognized in the achievement of its mission as the statewide, regional, and national standard of excellence for programs, services, and facilities.

Statement of Core Values

Catawba Valley Community College champions student success and quality stakeholder engagement by demonstrating excellence in teaching, instilling a passion for life-long learning, and creating premier economic and workforce development. All CVCC employees are committed to and accountable for a college environment built on a foundation of professionalism, integrity, and ethics, to foster global and diverse perspectives within a safe, secure, and inclusive college community.

History

Through the concerted efforts of concerned and united Catawba County citizens and North Carolina educational leaders, on April 3, 1958, Catawba Valley Community College was established by the North Carolina Department of Public Instruction as the ninth school of its kind in the state. Construction of the original facilities began in 1959. The 40,000 square foot building costing approximately \$500,000 was completed in August 1960. An initial enrollment of seventy-seven (77) students began classes in September of the same year. From 1960 to 1963, the College operated under the jurisdiction of the Catawba County Board of Education. During this time the College was known as the Catawba County Industrial Education Center.

In July 1963 the General Assembly of North Carolina enacted into law G.S. 115A which provided for the establishment of the present North Carolina System of Community Colleges. On January 9, 1964, Catawba Valley Technical Institute was among the original seven institutes chartered by the Department. At that time, CVTI established its own Board of Trustees and began operation as a member

of the Department of Community Colleges. Thus, it was in August 1964, that the College awarded its first Associate Degree in Applied Science.

It was during the transition from an Industrial Education Center to Technical Institute that great strides began in expanding educational programs, increasing student enrollment, developing quality instruction, adding facilities, and increasing community acceptance and service. On September 1, 1979, the name of the institution was changed to Catawba Valley Technical College by the Trustees and commissioners of Catawba County. On December 1, 1987, the State Board of Community Colleges officially approved CVTC to become Catawba Valley Community College and the College Transfer program was approved.

The addition of the CVCC Alexander Center for Education was approved by the State Board in November 2000, and again we expanded programs and services to better serve our community. We have moved the Alexander Center twice to meet growing community needs. The most recent move was into a facility purchased by the Alexander County Commissioners. In addition to the 15,000 sq. foot facility on 4.72 acres located at 345 Industrial Boulevard in Taylorsville, the Alexander Commissioners have purchased a second facility adjacent to the original purchase, and in October 2016, we expanded the Alexander Center for Education to include an Alexander Technologies Center. The Technology Center offers skills programs in furniture, welding and will continue to offer additional workforce programming based on the needs of the county.

Today (January 2021), the campus now covers approximately 162 acres and includes 16 buildings for an approximate 735,000 sq. feet of floor space. In addition, there is a CVCC Cosmetology Center located across Startown Road adjacent to the main campus, the CVCC Corporate Development Center located on U.S. Highway 70, the Catawba Valley Furniture Academy also located on U. S. Highway 70, and the Manufacturing Solutions Center located in Conover. In December of 2019, classes begin at the CVCC Workforce Solutions Complex (located on main campus). The expanded programming opportunities and academy style training are growth opportunities for local economic development and our community workforce. The college also opened the Public Safety Training Center located on 36 acres off of Sweetwater Road in October 2019. Our public service areas have been offering training at the new facility on a regular basis. We are proud to serve our community and region.

Catawba Valley Community college celebrated its 63rd anniversary in 2021. The faculty and staff have touched the lives of hundreds of thousands of people. In recent years, the college has had a growing role in workforce development and community leadership. Our business continues to focus on changing lives and still today, we are about empowering people to achieve their dreams. During this time span, we have had only three presidents; founding president Robert Paap, Dr. Cuylar A. Dunbar, and the current president is Dr. Garrett D. Hinshaw who came on board August 1, 2006. Catawba Valley Community College continues as a publicly supported coeducational institution.

Location

Catawba Valley Community College is located in Hickory on U.S. Highways 70 and 321-B, in Catawba County, North Carolina. Situated in the heart of the Piedmont some 1,175 feet above sea level, CVCC is easily accessible over Interstate 40, Highways 321, 70, 16 and 127. It is within seven miles of a commercial airport and approximately 50 miles from metropolitan Charlotte.

The campus covers approximately 162 acres and includes 16 buildings for an approximate total of 735,000 square feet of floor space. In addition, there is the CVCC Alexander Center for Education, CVCC East Campus, the Corporate Development Center, the Manufacturing Solutions Center, the Catawba Valley Furniture Academy also located on U. S. Highway 70, and the Cosmetology Center located off Startown Road, adjacent to the main campus. The facilities consist of modern brick buildings. Included is a 30,000 volume library for the use of both students and public, a student center and food service area for leisure relaxation and entertainment, and numerous classrooms and laboratories.

CVCC Policies and Procedures

CVCC policies and procedures regarding students are available for reference on the CVCC website (www.cvcc.edu) under the About Us Link. Following are the direct links, CVCC Policies - http://www.cvcc.edu/About_Us/Policies/ and CVCC Procedures - http://www.cvcc.edu/About_Us/Procedures/. These web pages include, but are not limited to, information regarding admissions, course grading, student conduct, student due process, privacy of students, visitors on campus, sexual offense/assault protocol, campus safety and security, and reporting a crime. Printed copies of a policy/policies, or procedure/procedures are available upon request in Student Services.

Transfer of CVCC Credits to Other Colleges

Technical, vocational, and certificate programs of study at Catawba Valley Community College have been established primarily to prepare individuals for employment upon completion of studies. The College Transfer program has been developed at CVCC to provide opportunities for students to transfer two years of academic credit to four-year colleges and universities. Numerous differences exist in the transfer policies of four-year institutions, but the North Carolina Comprehensive Articulation Agreement provides general guidelines and guarantees for students transferring to the University of North Carolina System institutions. Specific details regarding a four-year institution's transfer policies should be obtained directly from the institution to which transfer is being considered.

Air Force ROTC Program

To prepare themselves to serve as commissioned officers in the Air Force, students in college transfer programs to pursue a bachelor's degree may participate in the Air Force Reserve Officer Training Corps (ROTC) offered by the UNC-Charlotte Department of Aerospace Studies. Information is

available in Student Services or on the UNCC webpage at the following address: <http://afrotc.uncc.edu/>.

Appalachian Center at Hickory

The Appalachian Center in Hickory is an educational consortium of colleges and universities that offer community college students and other adults opportunities to finish their bachelors degrees from one of the participating colleges and universities. Graduate degrees are also available. A wide variety of degree programs are offered with flexible part-time and full-time schedules and face-to-face and on-line formats to meet the needs of adult learners with busy schedules, families, and work commitments. For more information on degree programs available through the Appalachian State University Center in Hickory, call 828-327-7000, ext. 4106.

Alexander Early College High School

Alexander Early College opened its doors in August 2016. Designated a Cooperative Innovative High School, it serves the residents of Alexander County. An application only, selective-enrollment high school, their rigorous, Honors level curriculum is student-centered and emphasizes problem solving, collaboration and college-level reading, writing and mathematical skills. Students have the ability to earn a high school diploma and have access to an Associate in Arts or Associate in Science degree (or other transferable credits) on a four-year plan. Alexander Early College seeks students who are First Generation College (no parent with a Bachelor's Degree), have documented financial hardship, and are from a single parent household, or those seeking a non-traditional high school environment. The School models the national school reform model designed through research from the Bill and Melinda Gates Foundation, Jobs for the Future, the NC Dept. of Public Instruction and NC Community College System. The goal of Alexander Early College is to build lifelong learners who provide further growth to their community by their academic and personal achievements.

Challenger Early College High School

Challenger Early College High School is a non-traditional, selective enrollment, application-only Cooperative Innovative High School which began in 2005. At least 80% of its students must qualify for enrollment based on first-generation college (neither parent has a Bachelor's degree), be economically disadvantaged according to federal guidelines, live in a single-parent household, and English is their second language. Students must reside in Catawba County. All high school classes are taught at Honors level, with CVCC courses beginning in the freshmen year. Graduates earn a Future Ready Core Diploma with the required UNC System university admissions courses and have access to earn either an Associate in Arts or Associate in Science degree from CVCC. Supported by the NC Department of Public Instruction, NC Community College System and the Catawba Valley Education Consortium, the school is designed around research, and follows the national early college model by offering students a personalized environment, powerful teaching and learning in classrooms and a pervasive ready-for-college culture that provides opportunities for life in the 21st century.

Challenger Early College consistently ranks among one of the top high schools in North Carolina based on academic achievement and standardized testing criteria.

The Center for Workforce Connectivity and Talent Development

The Center for Workforce Connectivity and Talent Development provides CVCC students comprehensive resources focused on career and professional development that educates and empowers our graduates to be widely recognized for their work-ready skills and sought after by recruiters and employers.

The Center for Workforce Connectivity and Talent Development emphasizes collaboration with our faculty and business partners to shape our programs to ensure industry is embedded in everything we do.

CVCC students may use the Center's services any time during their academic journey and benefit from the professional services and resources provided. The offerings include work-based-learning, internships, job-placement assistance, job-searching platforms, resume preparation, mock interviews and other work-ready services.

The Center for Workforce Connectivity and Talent Development is located in the Student Center, across from the campus bookstore. For individual appointments and/or weekly walk-in hours, please contact 828-327-7000, ext. 4690.

North Carolina Community College System's Performance Measures for Student Success

In 1993, the State Board of Community Colleges began monitoring performance data on specific measures to ensure public accountability for programs and services. In 1998, the General Assembly directed the State Board to review past performance measures and define standards to ensure programs and services offered by community colleges in North Carolina were of sufficient quality.

"In 2010, a review process was established to ensure the measures and methods for evaluating colleges were current and remained focused on improving student success. Every three years, a committee that is inclusive of college leaders; subject matter experts; and research and assessment professional are appointed to review the measures and recommended deletions, revisions, and additions [sic]. Recommendations from the most recent review were approved in 2018 . . ." (North Carolina Community College System, *NC Community Colleges Creating Success: 2020 Performance Measures for Student Success*, July 2020).

Admissions

General Admission to CVCC

CVCC follows "open door" admissions policies as established by the North Carolina Community College System. Admission is open to all applicants who are legal residents of the United States and who are either high school graduates or are at least 18 years of age. Minors are admitted under provisions and rules established by the State Board of Community Colleges.

View (PDF) document -1D SBCCC 400.2 (a) Admissions to Colleges at State Board of Community College (SBCCC) <http://www.nccommunitycolleges.edu/sbcccode>

A person is classified as a student when admission requirements are met and registration for class has occurred that cause

1. tuition and fees to be paid (or encumbered by waiver, financial aid, third party payment, etc.) and
2. the person enters and attends the class(es).

A person continues to be a student by attending class and making progress toward completion of the course objectives.

A person is no longer a student in a particular class when the person is no longer attending the class in accordance with the attendance expectations of the class and/or is graded with a WP or a WF. Should this occur in all classes during a particular semester, the person is no longer a student for that semester at the point in time when the last transaction has occurred.

A person is a visitor when not a student. Students are entitled to due process. Visitors are not afforded due process.

A student is considered to be in good standing if the student has cumulative CVCC grade point average (GPA) of 2.000 or higher, the student is eligible to re-enroll at CVCC (no disciplinary action or missing transcripts), and the student has met all financial obligations to CVCC.

The specific processes for general admission to CVCC include

1. Plan a career path using [Focus 2](#) or [Career Coach](#).
2. Select a [Program of Study](#).
3. Complete and submit the [NC Residency Interview](#).
4. Complete and submit the [CVCC Application](#).
5. Complete and submit the [FAFSA](#) and [CVCC Scholarship](#) Forms.
6. Submit ALL [official transcripts](#) to CVCC Records.
7. To activate the Application by Distance: Send an email to admissions@cvcc.edu which includes a cell phone photo of applicant's valid government issued photo ID and a request to activate the Application by distance. To activate the Application by visit when normal operations have resumed on campus that allow students to visit the service areas, visit [Student Services](#) to activate the Application. Bring a valid government-issued photo ID to the visit.

Additional information on general admission to CVCC may be found at <http://www.cvcc.edu/Admissions/how-to-enroll.cfm>.

Questions about this process are to be directed to the Chief Student Services Officer or designee.

International Students

CVCC is authorized by the U.S. Department of Naturalization and Immigration to admit international students with a valid F-1 Visa or valid Permanent Resident Card. International students must complete additional admission procedures by published deadlines.

The specific processes for International Students to be admitted to CVCC include

1. Select a [Program of Study](#). To ensure SEVIS compliance, International Students must choose one of the following Programs of Study: Associate in Arts, Associate in Engineering, or Associate in Science.
2. Complete and submit the [NC Residency Interview](#).
3. Complete and submit the [CVCC Application](#).
4. Complete all financial statements as outlined on the CVCC website at http://www.cvcc.edu/Admissions/Admission_Type/International-Students/Admission-Packet.cfm.
5. Request translation and evaluation of high school/adult secondary credential transcripts into English language by any agency associated with National Association of Credential Evaluation Services (NACES) be sent to CVCC Records.
6. Submit a photograph.
7. Submit [Verification of Home Country Address Form](#).
8. Submit an official TOEFL (Test of English as a Foreign Language) test score less than five (5) years old.
9. Visit [Student Services](#) upon arrival to campus and bring a valid government-issued photo ID to the visit.

International Students may transfer to CVCC from another United States institution of higher learning or from a public/private high school provided the students submits a [VISA CLEARANCE FORM](#) and satisfactorily completes the CVCC admissions process for International Students. Students.

Additional information on general admission to CVCC may be found at http://www.cvcc.edu/Admissions/Admission_Type/International-Students/index.cfm.

To fulfill the college's general admission requirements, students who have attended foreign schools at the secondary level (high school) and/or post-secondary level (college/university) must submit transcripts according to the following process:

Foreign secondary or post-secondary transcripts must be written in the English language or translated literally (word for word) into the English language and evaluated by a member of the National Association of Credential Evaluation Services (NACES). Foreign secondary level transcripts must indicate US high school equivalency.

Foreign post-secondary transcripts must indicate potential transfer credit for courses at CVCC.

The student must request official documents be sent to the NACES evaluating agency from their educational institutions. Once the report has been completed, the NACES evaluating agency must send an official report directly to CVCC Student Records that includes a copy of the official document(s) submitted to the agency and the official evaluation and/or translation report performed by the agency. The report must include the student's name as issued on the original document(s) and date of birth. The report must be signed by the evaluator and include the evaluator's credentials.

Student copies of the report are not accepted.

If the student name is not consistent on all documents, students may be required to submit legal documentation with proof of their name change. Legal documents accepted for proof of name changes are legible certified copies that have a raised seal and certification by a US government official. These documents include Marriage Certificate, Divorce Decree, Certificate of US Naturalization, or US Court Order approving the name change.

Questions about this process are to be directed to the Chief Student Services Officer or designee.

High School Students

Session Law 2011-145, the Appropriations Act of 2011, authorized the State Board of Education and the State Board of Community Colleges to establish the Career and College Promise program, effective January 1, 2012. The purpose of Career and College Promise is to offer structured opportunities for qualified high school students to dually enroll in community college courses that provide pathways that lead to a certificate, diploma, degree, or State or industry-recognized credential as well as provide entry-level jobs skills.

Career and College Promise

Eligible North Carolina high school students may be admitted to CVCC through the Career and College Promise Program (CCP). The purpose of CCP is to offer structured opportunities for qualified high school students to dually enroll in community college courses that provide pathways that lead to a certificate, diploma, degree, or State- or industry-recognized credentials as well as provide entry-level job skills.

CCP offers North Carolina high school students a clear path to success in college or in a career. The program is tuition-free to all students who maintain a "B" average and meet other eligibility requirements. Through a partnership of the Department of Public Instruction, the North Carolina Community College System, the University of North Carolina system and many independent colleges and universities, North Carolina is helping eligible high school students to begin earning college credit at a community college campus at no tuition cost to them or their families.

The three pathways include:

1. College Transfer Pathways (CTP) which require the completion of at least 30 semester hours of transfer courses including English and mathematics.

2. Career and Technical Education Pathways (CTE):

a) a curriculum Career and Technical Education Pathway leading to a certificate or diploma aligned with a high school career cluster.

b) a Workforce Continuing Education Pathway (WCEP) leading to a state or industry recognized credential aligned with a high school career cluster.

3. Cooperative Innovative High School Programs (CIHSP) which are located on college campuses (unless a waiver was provided) and provide opportunities for students to complete an associate degree program or earn up to two years of college credit within five years. Examples include Early and Middle College High Schools.

Admission information is available at Career and College Promise.

Questions about this process are to be directed to the CCP Programming Administrator.

Challenger Early College High School

Challenger ECHS is a non-traditional, selective enrollment, application only Cooperative Innovative High School serving the residents of Catawba County. The School accepts freshmen only and enrollment is limited to 400 students in grades 9-12. All high school courses are taught at Honors Level and College classes begin in the freshmen year. Applications are invited from students who may benefit from a non-traditional school setting; at least 80% of students must meet one or more of the following criteria:

1. First generation college (neither parent has earned a Bachelor's degree)
2. Documented financial hardship according to federal guidelines
3. Single-parent household
4. English is their second language
5. No discipline or attendance issues
6. Be academically qualified (middle 60% or better based on middle school grades, EOG, EOC or other standardized testing).

Challenger students earn a Future Ready Core High School Diploma and have access to earn either an Associate in Arts or Associate in Science degree in four years. The application process begins in January each year. Questions about the Challenger program may be directed to the Challenger office or CVCC Early College Programs Administrator.

Alexander Early College High School

Established in 2016, Alexander Early College is a non-traditional, selective enrollment, application only, Cooperative Innovative High School serving the residents of Alexander County. Entry is preferred for Freshman; however, certain unique situations do allow for Sophomores and even Juniors to be admitted to the school. All high school courses are taught at an honors level and college classes begin in the 9th grade. Students have the ability to earn a high school diploma and have access to earn credits for an Associate in Arts Degree or an Associate

in Science Degree (or other transferrable credits) in just four years. Applications are accepted from all interested students who meet the criteria or desire a non-traditional high school setting. Application packets are available in January each year on the AEC website. Prospective students may click the Apply Now option on the homepage of the Alexander Early College website. A hard copy of the application can be obtained in the main office of the Alexander Center on the CVCC- Taylorsville campus. Questions about the Alexander Early College program may be directed to the CVCC Early College Program Administrator or Principal Jason Evans via email at jevans@alexander.k12.nc.us.

Undocumented Immigrants

CVCC may admit undocumented immigrants under the following conditions as specified in 1D SBCCC 400.2(b) Admission to Colleges at <http://www.nccommunitycolleges.edu/sbcccode>

For the purposes of this Section, "undocumented immigrant" means any immigrant who is not lawfully present in the United States. Community colleges shall admit undocumented immigrants under the following conditions:

1. Community colleges shall admit an undocumented immigrant only if the undocumented immigrant attended and graduated from a United States public high school, private high school, or home school that operates in compliance with State or local law;
2. When determining who is an undocumented immigrant, community colleges shall use federal immigration classifications;
3. Undocumented immigrants admitted under Subparagraph (b)(1) of this Rule must comply with all federal and state laws concerning financial aid;
4. An undocumented immigrant admitted under Subparagraph (b)(1) of this Rule shall not be considered a North Carolina resident for tuition purposes. All undocumented immigrants admitted under Subparagraph (b)(1) of this Rule must be charged out of state tuition whether or not they reside in North Carolina;
5. When considering whether to admit an undocumented immigrant into a specific program of study, community colleges shall take into account that federal law prohibits states from granting professional licenses to undocumented immigrants; and
6. Students lawfully present in the United States shall have priority over any undocumented immigrant in any class or program of study when capacity limitations exist.

Note: An Adult Secondary Credential (also referred to as a General Education Diploma, General Equivalency Diploma, or Graduate Equivalency Degree) does not satisfy condition (1) above.

Undocumented immigrants follow these specific processes for general admission to CVCC:

1. Plan a career path using [Focus 2](#) or [Career Coach](#).
2. Select a [Program of Study](#).
3. Complete and submit the [NC Residency Interview](#).
4. Complete and submit the [CVCC Application](#).
5. Submit ALL [official transcripts](#) to CVCC Records.
6. To activate the Application by Distance: Send an email to admissions@cvcc.edu which includes a cell phone photo of applicant's valid government issued photo ID and a request to activate the Application by distance. To activate the Application by visit when normal operations have resumed on campus that allow students to visit the service areas, visit [Student Services](#) to activate the Application.

Under current state code, undocumented immigrants do not qualify for federal and state financial aid or for in state residency for tuition purposes. Students lawfully present in the United States shall have priority over any undocumented immigrant in a class or program of study when capacity limitations exist.

Questions about this process are to be directed to the Chief Student Services Officer or designee. More information is available at <http://www.cvcc.edu/Admissions/how-to-enroll.cfm>

Safety Exceptions

CVCC may refuse admission to any applicant in accordance with the following conditions as specified in State Board of Community Colleges Code 23SBCCC 02C.301(e) and (f) entitled "Admission to Colleges"

View (PDF) document - 1D SBCCC 400.2 (e) Admissions to Colleges at <http://www.nccommunitycolleges.edu/sbcccode>

CVCC may refuse admission to an applicant when there is an articulable, imminent, and significant safety threat to the applicant or other individuals. If CVCC refuses admission on the basis of a safety threat, the following shall be documented:

1. Detailed facts supporting the rationale for denying admission;
2. The time period within which the refusal to admit shall be applicable and the supporting rationale for the designated time period; and
3. The conditions upon which the applicant who is refused would be eligible to be admitted.

An applicant denied admission on the basis of a safety threat may appeal (within 15 working days) the denial to the Executive Board of the CVCC Safety and Security Committee (It will not be a full Safety and Security Committee) by submitting a written request for appeal to the Office of the President. The Committee shall promptly conduct a review/hearing of the appeal, providing results to

the applicant within 15 working days. Such review/hearing will have the following procedural safeguards for the applicant and for CVCC:

- The opportunity to confront and cross-examine witnesses;
- The opportunity to present arguments and evidence orally, as well as in writing;
- The right to retain an attorney (the other party shall be informed of intent);
- The maintenance of a complete record of the hearing (although tape recordings may not occur without knowledge and consent of all parties); and
- A recommendation resting solely on the rules and evidence advanced at the hearing.

The Executive Board's decision regarding an admissions appeal shall be determined by majority vote and is final.

Admission to Curriculum Programs of Study

Admission to CVCC does not guarantee admission to the curriculum program of study desired by the applicant. An applicant must satisfy the admissions requirements for the intended program of study. Applicants will be admitted to programs as admissions requirements are completed except for programs with limited enrollment (discussed further below). The Chief Student Services Officer or designee will maintain appropriate documentation of the specific admissions requirements for each curriculum program and will provide appropriate communication of those admissions requirements.

Completion of high school or equivalent (Adult Secondary Credential Program) is required for admission to all associate degree and diploma programs and certain certificate programs. If completion of high school or equivalent is a requirement for the intended program, applicants must provide official transcripts (from high school or Adult Secondary Credential program) evidencing completion.

Limited Enrollment Programs

Enrollment in certain programs is limited, and admission is competitive. The admissions committee for each limited enrollment program will select the most academically qualified applicants.

Healthcare Programs

Applicants to healthcare programs must first complete general admissions requirements to CVCC as stated in Procedure 3.2 or on the CVCC website at <http://www.cvcc.edu/Admissions/how-to-enroll.cfm>.

Applicants will complete additional admission requirements and submit a Minimum Admission Requirement (MAR) Checklist for the healthcare program of interest. This information is posted on the CVCC website at http://www.cvcc.edu/Health_Public_Services/Health-Services-Application-Deadlines.cfm.

Please note that certain healthcare programs require completion of educational experiences in clinical/lab

settings. These clinical/lab settings may require students to undergo criminal background checks and/or drug screenings at the student's expense. Some facilities may also require additional vaccinations and/or health examinations. Acceptance in a specific healthcare program is contingent upon receipt of the appropriate medical/mental health forms which document an applicant's satisfactory fitness for the program.

Students may apply to only one (1) healthcare program at a time. Should acceptance to that program be denied, the student may apply to another healthcare program whose application deadline has not yet occurred. An "alternate" status is not a "denied" status. Students selected as Alternates who wish to apply to another program must forfeit their spot on the Alternate list.

Students lawfully present in the United States shall have priority over any undocumented immigrant in a class or program of study when capacity limitations exist.

Early Childhood Education Program

Applicants for the Early Childhood Education Program must first complete general admissions requirements to CVCC as stated in Procedure 3.2 or on the CVCC website at <http://www.cvcc.edu/Admissions/how-to-enroll.cfm>. In addition to the general admissions requirements, applicants for the Early Childhood Education program must complete other procedures. CVCC's Early Childhood Education program requires completion of educational experiences in childcare facilities and/or public school settings. These settings require students to undergo criminal background checks and/or health assessments. If a student is excluded from an educational setting as a result of one of these requirements, the student may be asked to withdraw from the program. Some settings may also require additional vaccinations and/or health examinations. Completion of CVCC's Early Childhood Education program may be contingent upon receipt of a CVCC medical form documenting that the applicant possesses satisfactory physical and mental health. Facilities for providing health care services are not available on campus.

Basic Law Enforcement Training Program (BLET)

Applicants for the Basic Law Enforcement Training (BLET) certificate must first complete general admissions requirements to CVCC as stated in Procedure 3.2 or on the CVCC website at <http://www.cvcc.edu/Admissions/how-to-enroll.cfm>. In addition to the general admissions requirements, BLET applicants must complete additional requirements posted on the CVCC website at http://www.cvcc.edu/Health_Public_Services/Public_Services/Basic-Law-Enforcement/index.cfm.

Special Credit Program

Applicants who wish to enroll without pursuing a degree, diploma or certificate are classified as Special Credit students. Applicants must complete the [NC Residency Interview](#) and the [CVCC Application](#). To activate the Application by Distance: Send an email to admissions@cvcc.edu which includes a cell phone photo of applicant's valid government-issued photo ID and a request to activate the Application by distance.

To activate the Application by visit when normal operations have resumed on campus that allow students to visit the service areas, visit Student Services to activate the Application. A valid government-issued photo ID is necessary to complete the enrollment process.

Special Credit students must meet course prerequisites by either satisfying RISE placement conditions, placement testing or by providing unofficial transcripts from a regionally-accredited college/university showing courses with a grade of "C-" or better.

Special credit students are not eligible for federal/state financial aid or Veterans' benefits.

Accelerated Associate in Arts or Associate in Science Plan

The Accelerated Associate in Arts or Associate in Science Plans are designed to allow highly motivated students to complete a college transfer degree in 12-15 months. Enrollment is limited to high-achieving students who are college ready as determined by GPA or prior credits and plan to transfer to a university. These plans include courses taken during summer and winter intersession terms and a heavy course load of 18 credits or more in fall and spring semester. Classes include many of the general education classes that are commonly required for a bachelor's degree from the UNC System universities delivered online or by other traditional methods. Students must indicate interest in this program when applying to CVCC or during the advising process. Former Career and College Promise students who wish to complete their degree may benefit from this program. For more information on these accelerated plans, please contact Debbie Austin, Center for Student Excellence and Leadership daustin@cvcc.edu or calling 828-327-7000, ext.4715.

Online Degree Completion Plan

The Online Degree Completion Plan is designed for students who have two consecutive semesters of non-enrollment and need less than 18 credits to finish their Associate in Arts or Associate in Science degree. This plan allows students to finish the degree they once started, accomplish an educational goal and advance their career through online classes. For more information, please contact Debbie Austin, Center for Student Excellence and Leadership, daustin@cvcc.edu or by calling 828-327-7000, ext. 4715.

Admission to Distance Education Courses

Catawba Valley Community College is not authorized to provide distance education courses outside of North Carolina, unless state authorization has been granted from the state in which the applicant resides. State Authorization requires colleges to seek and secure authorization to offer instruction in that state. Compliance with individual state requirements is now part of the Higher Education Opportunity Act of 2008, Amended 2010.

Admission of applicants residing outside of North Carolina to an online degree, diploma, certificate program, or individual online courses offered by Catawba Valley Community College is dependent on the college's ability to secure authorization from the applicant's state of residence.

A list of states in which Catawba Valley Community College is currently authorized to offer distance education courses is maintained on the institution's website: www.cvcc.edu/Distance_Education/not-a-nc-resident.cfm.

The State Authorization Coordinator will be the single point of contact to coordinate, assist, and secure authorization from states that require educational institutions to be legally authorized in their state prior to offering online/distance education programs/courses to students residing in that state.

The Educational Technology department will maintain information needed to determine eligibility in states and to complete authorization requests as necessary. The Educational Technology department will maintain a database of out-of-state students enrolled in Catawba Valley Community College distance learning programs/courses and of instructors living out of state.

Please note that state authorization does not affect the cost of attending college at CVCC. Tuition requirements, including those for out-of-state students, still apply.

Fees, Scholarships, and Financial Aid

CVCC charges tuition in accordance with policies established by the North Carolina Community College System. Tuition rates are subject to change. Certain fees have been established in accordance with guidelines and ranges established by the North Carolina Community College System. Fees are subject to change. Due dates for tuition and fees are established by the Chief Financial Officer or designee. Students will forfeit their seat in a class if they fail to pay the applicable tuition/fees by the established due date.

Tuition

(Subject to change depending on action of General Assembly.) Tuition Per Semester:

North Carolina Residents

16 hrs. or more.....\$1,216.00
 15 hrs. or less (per semester hr.).....\$76.00

Out-of-State Residents

16 hrs. or more.....\$4,288.00
 15 hrs. or less (per semester hr.).....\$268.00

Determinations of North Carolina Residency for tuition purposes are processed by the NC Residency Determination Service (RDS). All students, parents, faculty, staff and constituents of the North Carolina Community College System should refer to www.ncresidency.org for details regarding the North Carolina Residency Determination Service, processes and required residency guidelines for tuition purposes.

Specific documents used to establish residency can be found on the CVCC Student Services Admissions website at [NC Residency](#).

Tuition for students enrolling in Occupational Extension courses are mandated by the NC Legislature per the

schedule below. Fees for self-supporting courses are based on actual costs and both types of courses may also include the cost of instructional materials and/or textbooks required in such classes. Each course offered will list the appropriate fee to be charged.

Continuing Education Occupational Extension (per course)

0-24 hours.....	\$70.00
25-50 hours.....	\$125.00
50+ hours.....	\$180.00

Fees and Insurance

Student Activity Fee.....\$35.00
(Curriculum Students per semester)

Student Accident Insurance (per semester)\$1.25

Computer Use and Technology Fee.....\$48.00
(Curriculum Students per semester)

Campus Access and Security Fee\$35.00
(Curriculum Students per semester)

Computer Use and Technology Fee.....\$5.00
(Continuing Education Students per designated technology-related course)

Graduation Fee\$25.00

Certificate Fee.....\$10.00

Liability/Malpractice\$18.00
[Curriculum Students per semester]
(Nursing, Surgical Technology, Respiratory Therapy, EMS, Dental Hygiene, Polysomnography, Radiography, and Electroneurodiagnostic Students)

Liability/Malpractice.....\$18.00
[Continuing Education Students per class]
(CNA, CT, EMS, Healthcare, and Phlebotomy Students)

Service Charge for Returned Checks.....\$35.00

Lab Fees..... Varies

Replacement Fee for Library/ID Card.....\$10.00

Transcript Fee\$5.00

- To view a copy of CVCC's Student Accident Insurance Brochure visit (http://www.cvcc.edu/Services/Business_Office/student-accident-insurance.cfm)

Accident insurance must be purchased by students registering for curriculum classes. The premium must be paid at the time of registration at the beginning of each semester.

Students enrolled in certain health programs/courses are required to purchase liability/malpractice insurance. The premium for this insurance must be paid at the time of registration.

Certain fees have been approved for testing services. These include fees for TEAS test, test proctoring, or other special circumstances.

Fee Waivers

In compliance with North Carolina Statutes and regulations of the North Carolina Community College System, tuition

and fees may be waived under the following circumstances: No extension registration fee shall be charged of individuals enrolling in special extension training programs for emergency telecommunication personnel, fire department personnel, volunteer rescue and life saving personnel, local law enforcement officers, or members of auxiliaries of such groups, providing the individual is a member of the group for which training is being provided.

High school students taking college credit classes through the Career and College Promise program, as well as Challenger and Alexander Early College High School students are exempt from tuition. Applicable fees will be charged.

Other Expenses

The cost of books, supplies, and equipment varies from one program of study to another.

Collection Notice

The College reserves the right to use all means necessary to collect any outstanding balances. This may include but is not limited to the use of NC Set-off Debt.

Other Actions Regarding Past Due Accounts

All previously incurred expenses and accounts, including payments made to Nelnet (a third party payment plan provider) for tuition, generally must be fully paid before a student may re-enter at the beginning of any semester and before transcript, diploma, or certificate will be furnished.

Refunds

Curriculum Classes

The College follows the refund policies established by the North Carolina Community College System. A copy of the current refund policies may be obtained from the Business Office. Specific guidelines and processes to ensure compliance with these policies shall be established by the Chief Financial Officer or designee. The following are specific guidelines which have been established in accordance with these policies. Refunds for less than \$5.00 will not be made.

A full (100 %) tuition refund shall be made if the student officially withdraws prior to the start date of the class. Example – If the start date of the class as indicated on the student's schedule is September 1, the student must withdraw from that class on or before August 31 to receive a full (100%) tuition refund.

A 75% tuition refund shall be made if the student withdraws on or before the census date of the class. The census date for a class is the 10% point of the class.

No tuition refund shall be made if the student withdraws from a class after the census date of that class.

The student fees, accident insurance premium, and some program specific fees (i.e., mal-practice insurance fees, processing fees, etc.) are not refundable unless the student officially withdraws prior to the start of his/her classes, a student's class is canceled, or the College determines an institutional error has occurred.

Continuing Education Classes

This policy includes occupational extension classes. A full refund will be given if the student officially withdraws from class prior to the first class meeting. Allow a minimum of two (2) weeks for processing of refund requests. Refunds for less than \$5.00 will not be made. After the class begins, a 75% refund of registration only will be made if the student officially withdraws from the class prior to or on the 10% point of scheduled hours. The student fees, accident insurance premium, and some program specific fees (i.e., mal-practice insurance fees, processing fees, etc.) are not refundable unless the student officially withdraws prior to the start of classes, a student's class is canceled, or the College determines an institutional error has occurred. Continuing Education students who are a no show for a course will still be charged for the course they were to attend.

Financial Aid

Students who enroll are encouraged to submit the Free Application for Federal Student Aid (FAFSA) available at www.fafsa.gov. The student's financial need is determined through an analysis of the FAFSA application and is granted on an annual basis. Financial assistance for educational expenses may be available in the form of grants, scholarships, private loans, or work programs.

Student financial aid programs require that the student: demonstrate financial need, provide an official high school transcript or High School Equivalency diploma (such as GED), be enrolled as a regular student working toward a degree, diploma, or certificate in an eligible program, be a U.S. Citizen or eligible non-citizen, have a valid Social Security Number, make satisfactory academic progress, and register with the Selective Service, if required.

I. Federal Aid Programs

Federal Pell Grant

This grant is a source of federal student aid which provides eligible students with financial assistance to help defray the cost of post-secondary education. Student eligibility is primarily based on financial need.

Federal Supplemental Educational Opportunity Grant

This is a federal grant which is a "supplement" to the Pell Grant for students demonstrating the greatest financial need.

Federal Work-Study

This federal program provides jobs at the College for students who have financial need.

VA Educational Benefits

Students desiring to use VA Educational benefits should contact Student Services for CVCC program information and admissions requirements. Students must be accepted in a VA approved program of study and meet all institutional and VA requirements before certification can be made to the Veterans Administration. For additional information regarding benefits, eligibility, policies, and procedures, please refer to the Veterans Affairs section. (See <http://www.cvcc.edu/veterans>)

Direct Loan Program

Catawba Valley Community College does not participate in the William D. Ford Federal Direct Loan program.

II. State Supported Aid Programs

North Carolina Community College Grant

This is a need based grant established by the NC Legislature to provide funds to help meet the educational costs of NC residents attending community colleges. To apply, the student must complete the Free Application for Federal Student Aid (FAFSA). Eligibility is based on the student being a NC resident, enrolled at least half time in an eligible curriculum program, maintaining satisfactory progress, meeting the federal Pell Grant eligibility requirements, and demonstrating financial need. A student must be enrolled in 15 credit hours per semester to receive the maximum Full Time Plus award amount. Potential recipients are selected by the College Foundation of North Carolina, with each community college certifying the student meets all eligibility requirements.

North Carolina Education Lottery Scholarship

The Education Lottery Scholarship was created by the 2005 General Assembly to provide financial assistance to needy North Carolina residents. To apply, the student must complete the FAFSA. Eligibility is based on the student being a NC resident, enrolled at least half time in an eligible curriculum program, maintaining satisfactory progress, meeting the federal Pell Grant eligibility requirements, and demonstrating financial need. Potential recipients are selected by College Foundation of North Carolina, with each community college certifying the student meets all eligibility requirements.

North Carolina Community College Grant For Less Than Half-Time

The North Carolina Community College Grant for Less Than Half-Time Students is a grant offered by the state to residents of North Carolina who are enrolled in five or less credit hours. Students must complete the FAFSA to be considered. Students enrolled in certificate programs that are ineligible for federal student assistance may qualify for these funds. Possible recipients are selected by College Foundation of North Carolina, with each community college certifying that the student meets all eligibility requirements.

NC Reach

NC Reach is a state-funded scholarship program for foster youth and adoptees administered by the Orphan Foundation of America (OFA). NC Reach funds up to a given institution's full cost of attendance after all other public funds and scholarships have been applied. In addition, the program provides comprehensive student support including case management services, mentoring, internship opportunities, professional workshops, and care packages. Applicants must complete the FAFSA every year to determine their eligibility for other federal and state grants. Eligible students may go online at www.NCReach.org to apply.

North Carolina Community Colleges Foundation - Scholarship for Health Careers

This scholarship was created to provide assistance to students interested in earning an associate degree in fields of high demand that will allow them to join the health care field. The student must be enrolled in one of the following programs: Associate Degree Nursing, Dental Hygiene, Emergency Medical Science, Health Information Technology, or Respiratory Therapy. See the Office of Scholarships and Financial Aid for more information.

National Guard Tuition Assistance Program

The North Carolina National Guard Tuition Assistance Program provides tuition assistance for active members of the North Carolina Army or National Guard. A recipient must be an active member of the North Carolina Army or Air National Guard, remain a member of the National Guard for two years following the end of the academic period for which tuition assistance is provided, must enroll in an eligible business or trade school, private or state educational institution in NC and must satisfactorily complete courses in which tuition assistance is provided. Students may apply through College Foundation of North Carolina.

State Employee Credit Union Foundation Scholarship

The SECU Foundation established this two-year scholarship program to assist North Carolina Community College students achieve academic success. Preference will be given to students whose parents or guardians and family members are public sector employees who live and work in North Carolina. To apply, students must have completed the FAFSA. See the Office of Scholarships and Financial Aid for more information.

Golden LEAF Foundation

This scholarship provides assistance for both Curriculum and Continuing Education students. The scholarship is designed to assist students with tuition, fees, books, supplies, childcare, and transportation expense. See the Office of Scholarships and Financial Aid for more information.

Wells Fargo Technical Scholarship

This scholarship was created by Wells Fargo Bank and administered through a grant to the North Carolina Community College System. One scholarship is available annually to students in the second year of a two-year technical program. Selection is based upon need and scholastic performance during the first year of studies. See the Office of Scholarships and Financial Aid for more information.

Veterans' Children Scholarship

Children of certain veterans who were either killed in action, disabled while in the armed forces, a prisoner of war or missing in action for a certain period of time may be entitled to financial aid from the North Carolina Division of Veterans Affairs to attend CVCC. Students may apply through the local NC Division of Veterans Affairs Office.

Vocational Rehabilitation Aid

By action of the United States Congress, any physically, mentally, or emotionally disabled student may be eligible for financial aid and for scholarship assistance. If a prospective student has any of these limitations, the nearest

office of the North Carolina Department of Vocational Rehabilitation should be contacted.

Forgivable Education Loans for Service

The Forgivable Education Loans for Service (FELS) was established by the NC General Assembly in 2011. FELS provides financial assistance in the form of forgivable loans to qualified students who are committed to working in NC to lessen identified critical employment shortages. The North Carolina State Education Assistance Authority provides administration for the program. Students may apply through College Foundation of North Carolina.

Other Aid

In addition to the above programs, various companies and civic organizations provide scholarships to deserving students.

III. Satisfactory Academic Progress Standards for Financial Aid

Satisfactory Academic Progress (SAP) is a set of standards for financial aid progress to insure that all students receiving federal (Title IV) or state aid are making progress toward completion of a degree. The policy requires the measurement of satisfactory academic progress to include all periods of enrollment at the institution, including those periods for which the student did not receive any financial aid.

New federal regulations effective July 1, 2011, affect Satisfactory Academic Progress policies and procedures. The rules limit the length of time that students not making progress can continue to receive Title IV aid and require a more structured, comprehensive, and consistent approach to the development and implementation of institutional financial aid satisfactory academic progress policies.

Purpose, Procedures, Monitoring, Financial Aid Statuses, Appeals

Purpose

Institutions of higher education are required by federal regulations to establish minimum requirements of Satisfactory Academic Progress (SAP) for students receiving financial aid. It is the expectation that students are to achieve minimum levels of progress toward completion of a degree. The progress is measured both qualitatively and quantitatively. The maximum time frame for an academic program is divided into increments to ensure that the student is making sufficient progress toward completion of the degree. The institution will determine at the end of each increment (semester) if the student has completed a minimum of percentage of work toward completion of the degree. All transfer and attempted credit hours at the institution will calculate in this determination, regardless of whether or not the student has received financial aid in the past. The Requirements will apply to all students applying for or receiving federal or state aid.

The student is responsible for understanding the SAP policy and for maintaining compliance. The student is also responsible for understanding the consequences for noncompliance. All financial aid recipients are required to meet SAP guidelines established by CVCC and financial

aid requirements of progress, pursuant to Federal regulations.

Procedures

To be eligible for financial aid, students must meet the following minimum guidelines:

Qualitative Standard Maintain a minimum cumulative GPA of 2.000 each semester as computed by the Office of Scholarships and Financial Aid's requirements – this may be different than the transcript GPA. Developmental courses are not included in the semester or cumulative GPA.

Quantitative Standard Complete 67% of all credit hours attempted from the beginning date of enrollment at the college. Developmental course hours are included in this measurement. Cumulative credit hours attempted will include all hours for which the student was enrolled as of the census date of the class (10% point of the class). Transfer credit hours that are accepted toward the student's educational program will count as both attempted and completed hours.

Maximum Time frame Complete the program of study within the maximum time frame. Federal regulations specify that the time frame may not exceed 150% of the published length of the program as measured in credit hours. (If the academic program length is 60 hours, the maximum time frame for the program cannot exceed 90 credit hours attempted.) Developmental and Transfer credits that apply toward the student's program of study are included in the maximum time frame.

Monitoring

The Office of Scholarships and Financial Aid will monitor satisfactory academic progress (SAP) for all students receiving or applying for federal or state aid to ensure that they are making progress toward program completion. SAP will be evaluated at the end of each semester. Students will be notified by email regarding their status. Failure to receive notification will not change the student's status. Not enrolling for one or more semesters does not change the student's status.

Cumulative Credit Hours Attempted Cumulative credit hours attempted are defined as all credit hours attempted at CVCC, and all credit hours transferred from other institutions. Attempted credits include courses with grades of A, B, C, D, F, or P (pass), R (repeat), WP (withdrew passing), WF (withdrew failing), or I (incomplete).

Repeated Courses Repeated courses will be counted as hours attempted, hours completed, and also toward maximum credits allowable for each type of program for financial aid. Only one repetition of a previously passed course may be counted in the enrollment status. A course that has not been passed may count in the enrollment status until the course has been successfully completed.

Cumulative Credit Hours Completed Credit hours successfully completed are defined as grades of A, B, C, D or P. Credit hours with a grade of F, WP, WF, I, or R do not count as successfully completed credit hours.

Audit Courses Credit hours taken for a grade of "audit" do not apply toward a degree program. The grade of "audit" is

not included in determining status for financial aid and does not count in the calculation of SAP.

Incomplete Grades Courses with grades of "I" (Incomplete) will be considered as credit hours attempted and not completed. If the "incomplete" grade resulted in a student being placed on financial aid suspension, once completed, the student must notify the Office of Scholarships and Financial Aid to have the academic progress reevaluated.

Cumulative Grade Point Average The minimum cumulative GPA for graduation at CVCC is 2.000. The student receiving financial aid must meet the minimum standard of the school.

Course Withdrawals A withdrawal will count as attempted, but not completed credit hours. A grade of WP will affect the quantitative measure, but not the qualitative measure, as it will not count in the GPA calculation. A grade of WF will affect both the quantitative and qualitative measure, as it will count in the GPA. Any student who withdraws from a class, either officially or unofficially, should know how the withdrawal could affect the eligibility for financial aid as determined by the SAP requirements.

Developmental Courses Developmental courses do not count toward the student's degree requirements; however, they are calculated in the quantitative and maximum time frame measures, with the exception of the first 30 developmental credit hours. The grade received for the developmental class is not included in the GPA. To remain in good standing, students enrolled in developmental courses must receive a grade of P.

Transfer Credits All transfer credit hours granted to the student will be included in the maximum time frame measure. Transfer credit hours that are accepted toward the student's educational program will count as both attempted and completed hours.

Program of Study Frequent changing of programs without graduating could result in the loss of federal or state eligibility. Students who change programs should be aware that all credit hours attempted, regardless of the program, will count toward satisfactory progress, unless the student graduates. Students who graduate from one program at CVCC and wish to earn another degree, diploma, or certificate from CVCC will be allowed to complete a new program within a new 150 percent time frame any earned hours from the previous program of study that are also required in the new program.

Two Programs of Study Students who choose two programs of study (pursue multiple programs at the same time) will assume the maximum time frame of only one academic program.

Summer Session Credit hours attempted and earned during the summer session are included in the calculation of SAP. Full-time status is the same for summer session as it is for the fall and spring semesters (12 credit hours).

Enrollment Status Full time: 12 credit hours or more, 3/4 time: 9-11 credit hours, Half-time: 6-8 credit hours, less than 1/2 time: less than 6 credit hours.

Financial Aid Statuses

Satisfactory If a student has a 2.000 cumulative grade point average (GPA) AND has completed at least 67% of the credit hours on a cumulative basis, AND is completing the program of study within the maximum time frame, the student will receive the SATISFACTORY status.

Warning If a student does not have a 2.000 cumulative grade point average (GPA) AND/OR pass at least 67% of the credit hours on a cumulative basis, the student is placed on WARNING for the next semester attended. A student will be granted only one semester to regain SAP. The student can receive financial aid for the semester on warning.

For students in clock hour programs, the review of progress will be completed at the point the scheduled clock hours for that payment period are successfully calculated. In order for the student to be eligible for the next payment period, the student must have successfully completed both the clock hours and the weeks of instructional time for the required period.

Suspension At the end of the WARNING period, students whose cumulative completion rate AND/OR GPA do not meet SAP requirements (67% completion of all hours attempted and a 2.000 cumulative GPA) will be on SUSPENSION. Students who are suspended will no longer be eligible to receive state or federal financial aid. During this time, the student must pay for college expenses each semester until the SAP requirements are met or may submit a SAP Appeal if documentation can be provided to indicate extenuating circumstances that impacted academic performance.

Maximum Time Frame The student's maximum time frame to complete a program of study is 150% of the published length of the program. For example, if 64 credit hours are required to complete a degree, the student may attempt a maximum of 96 credit hours before exceeding eligibility for financial aid ($64 \times 1.50 = 96$). The student's entire academic history, including transfer hours accepted from other institutions, is considered when evaluating SAP within the established time frame. Developmental classes (up to 30 hours) are excluded from this calculation. Once the student reaches the maximum number of attempted hours allowed for the program of study, the student will receive the MAXIMUM TIME FRAME status. During this time, the student must pay for college expenses each semester until the SAP requirements are met or submit a SAP Appeal if documentation can be provided to indicate extenuating circumstances that impacted academic performance.

Probation on Appeal When a student has been reinstated by an approved appeal by the SAP Committee, the student will be placed on PROBATION ON APPEAL. This status will hold the student to a higher semester-based standard for SAP evaluation. PROBATION ON APPEAL students MUST follow their academic plan and successfully complete 100% of all attempted credits moving forward to complete the degree (no withdrawals, repeats, or incompletes) and must earn a minimum semester-based GPA of 2.500. The student can receive financial aid for the semester the student is on probation.

Suspension of Appeal When a student placed on PROBATION ON APPEAL does not meet the requirements

of his/her Academic Plan, the student will be placed on SUSPENSION OF APPEAL. During this time, the student is no longer eligible for state or federal financial aid and must pay for college expenses each semester until the SAP requirements are met.

Appeals

A student may appeal SUSPENSION or MAXIMUM TIME FRAME statuses by submitting a Satisfactory Academic Progress Appeal and Academic Plan to the Office of Scholarships and Financial Aid. As part of the appeal process, students must submit in writing along with supporting documentation, (a) the extenuating circumstance(s) and how it directly contributed to the student's inability to meet SAP, (b) what has changed in the student's situation that will allow the student to make SAP at the next evaluation, and (c) an Academic Plan completed by an academic advisor detailing courses remaining toward graduation.

Students with SUSPENSION or MAXIMUM TIME FRAME statuses who are seeking to regain eligibility for financial aid through the appeal process will remain ineligible for financial aid until the appeal process is completed and a decision has been made. Students with SUSPENSION and MAXIMUM TIME FRAME statuses CANNOT depend on financial aid to pay for costs of tuition, books, and other fees, and should be prepared to pay from their own resources pending the outcome of their SAP Appeal.

The Satisfactory Academic Progress Appeal and Academic Plan Forms, along with all supporting documentation, MUST be submitted to the Office of Scholarships and Financial Aid BEFORE the FIRST DAY OF CLASS for the enrolled semester. The SAP Committee will review submitted appeals and determine if justifiable evidence or extenuating circumstances exist and if the student may receive financial aid for a specified probationary semester. All decisions are made on a case by case basis. The Committee may have up to 7 days to make a determination and the decision will be final. The student will be notified by email of the decision.

Federal regulations give some examples where allowances might be made for mitigating circumstances. Mitigating circumstances are defined as (but not limited to) (1) death of an immediate relative (spouse, parent/legal guardian, brother/sister, child, grandparent) of the student, (2) an injury or extended illness or hospitalization of the student (documented by a doctor) or immediate family member (documented by a doctor or documentation to show the student's assistance was needed to provide care for the family member) (3) other special circumstances such as involuntary call to active military duty, unanticipated/serious medical or psychological difficulty causing undue hardship to the student and beyond reasonable control of the student. The extenuating circumstances must have occurred during the semester the student received failing grades and/or withdrew from classes.

Circumstances related to the typical adjustment to college life, such as voluntary pause, lapse or termination of employment, pregnancy/childbirth, taking too many classes, frequently changing programs of study, working while attending school, financial issues related to paying

bills, childcare issues, incarceration resulting from a guilty verdict, or car maintenance/travel to and from campus are not considered extenuating circumstances. Chronic conditions such as (but not limited to) diabetes, migraines, asthma, hypertension, previously diagnosed learning, physical or psychological disabilities and other similar conditions are expected to be managed by the student appropriately to meet SAP requirements.

A SAP Appeal cannot be based on the student's lack of knowledge regarding the policy or simply the need for financial aid. A student may not submit an appeal because the student does not agree with the final decision of the SAP Committee. A SAP Appeal without sufficient explanation and documentation will be DENIED and incomplete forms will not be reviewed.

If a SAP Appeal is approved, the student will be placed on PROBATION ON APPEAL. This status will hold the student to a higher semester-based standard for SAP evaluation. PROBATION ON APPEAL students MUST follow their academic plan and successfully complete 100% of all attempted credits moving forward to complete the degree (no withdrawals, repeats, or incompletes) and must earn a minimum semester-based GPA of 2.500. If the student fails to meet these requirements, the student is no longer eligible for state or federal financial aid and must pay for college expenses each semester until SAP requirements are met. On a case-by-case basis, a second appeal may be considered. However, the student will not be allowed to submit an appeal for the same issue that led to the first appeal, such as (but not limited to) the same medical condition. A student must have very unusual circumstances to warrant a second appeal. Accordingly, very few second appeals are approved.

If a SAP Appeal is denied, the student must pay for college expenses each semester and earn the deficiency either in the hours, GPA or both (the student cannot make up a deficiency if the appeal was due to exceeding the maximum time frame to earn a degree). If the student did not maintain SAP due to a deficiency in credit hours, the student may take the credit hours at another institution as long as CVCC accepts the transfer hours. Once the student believes the SAP requirements have been met, the student must make a request to have the SAP status reevaluated.

Academic Plans

Academic Plans should demonstrate how the student will meet the SAP requirements by a specific point in time. It is important to note that the academic plan developed by the Advising Center and student should reflect realistic and attainable goals for the student. Only in special circumstances, beyond the student's control, can an academic plan be changed. Before submitting a new academic plan, you must meet with the Office of Scholarships and Financial Aid to ensure your changes can be approved. Submitting a new plan without approval will result with the student receiving a suspension of appeal status. SAP students must follow the academic plan and successfully complete 100% of all attempted credits (no withdrawals, repeats, or incompletes) and earn a 2.500 GPA until degree completion or the student has met the qualitative, quantitative, and time frame standards.

IV. Local Scholarships and Financial Aid

CVCC Foundation Scholarships

The Catawba Valley Community College Foundation, Inc., is a nonprofit organization that provides the community a vehicle through which investments may be made in the education of CVCC students through scholarship funds. These scholarship funds provide an opportunity for each student to compete for funds to pay for his/her education. Scholarships are provided through tax-deductible gifts from individuals, businesses, community organizations, and CVCC alumni. All CVCC students are invited to submit a scholarship application. One scholarship application initiates the application/eligibility process for all Foundation scholarships. When the CVCC student application is activated, an invitation to apply for a CVCC Foundation Scholarship is sent via the email address or home address found on the application. The CVCC Foundation Scholarship selection is a continuous process. Each student is encouraged to return the scholarship application as soon as possible for access to the scholarship process.

Student Life

Services for Students

Academic Advising

Each curriculum student enrolled in a degree, diploma or certificate program will have access to academic advising through an assigned advisor or through the Advising Center. This determination is made during the Admission interview and will be communicated to the student as appropriate for the program of study. The purpose of academic advising is to assist the student with planning a course schedule, registration, program sequence and completion, academic probation, graduation review, and general academic advising.

Advising Center

Academic Advising is provided on a regular daily schedule by trained professional staff in the Advising Center in the Student Services Building. All new students are required to meet with Advising Center staff for academic advising and planning for their first registration. At this first meeting staff will assist students with program requirements, course planning, long range goals, explain various college processes, and answer any questions. Students can also complete the registration process with Advising Staff during the periods of registration. Other services provided include class schedule adjustments, academic probation advising, and program completion and graduation progress.

Students can make appointments for advising during registration periods, but drop-in service is also available.

Alumni Affairs

The CVCC Alumni Association was founded in 2014 to connect, enrich, and serve a growing body of alumni. The Association celebrates the achievements of CVCC alumni and the opportunities that community college education provides. It also seeks to provide alumni opportunities to give back to students, the college, and the community it serves. Individuals who finished a degree, certificate,

diploma, or earned job skills through CVCC are invited to join. For more information, visit www.cvcc.edu/alumni.

Annual Disclosure of Crime Statistics

The CVCC Campus Safety and Security Office prepares this report to comply with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act. The full text of this report can be located on our web site Annual Security Report Table of Contents.

This report is prepared in cooperation with the law enforcement agencies in Catawba County and Alexander County. Campus crime, arrest and referral statistics include those reported to the Campus Safety and Security Office and to local law enforcement agencies. Each year, notice regarding the availability of this report is provided to employees, students, prospective employees, and prospective students in the following manner:

To currently enrolled curriculum students by e-mail to their CVCC student e-mail account

To current employees by e-mail to their CVCC e-mail account

To currently enrolled students in non-credit courses by postcard through the US Postal Service except for those non-credit students who are also currently enrolled curriculum students and who are notified by e-mail to their CVCC student e-mail account

To prospective employees during the hiring process

To prospective students when they apply for admission to a curriculum program or when they register for a non-credit course.

The notice includes a brief summary of the report's content, instructions to request a paper copy, and the direct web address (URL) of the report.

The Annual Security Report can be viewed at <http://www.cvcc.edu/Campus-Resources/Safety-and-Security/annual-security-report.cfm>.

Business Operating Hours

The CVCC normal business hours of operation are 8:00 AM – 5:00 PM Monday – Thursday. The CVCC campus buildings are open to students from 7:30 AM until 10:00 PM Monday – Thursday. Buildings and the campus are closed at all other times except for scheduled events. The Campus will close on Institutional Holidays.

Campus Store

The College operates a well-stocked, walk-in, self-service college store, where most required books, supplies, and tools are available. In addition, other items of student interest may be purchased. While operating primarily for the students, the Campus Store is open to the general public and is located in the Student Center. campusstore@cvcc.edu.

Career Advising

Individual career advising is available to all students who are interested in discussing their career interests, choice of program, and career goals. Career assessment and career reference information are used to assist students in

examining their interests, values, and skills to explore career options. Available career assessments include The Focus 2 Career Planning System, Career Coach, The Self Directed Search, Strong Interest Inventory, and Myers-Briggs Type Indicator.

Center for Student Excellence and Leadership

The Center for Student Excellence and Leadership began in January 2021. It exists to help students better prepare themselves for leadership in their profession and in the community by providing rigorous academic programs, extended opportunities for study, service-learning and leadership training. Guided by CVCC core values of student success, excellence in teaching and global, diverse perspectives, the Center strives to promote academic excellence, development of leadership, and cultivation of service so students develop the skills and strategies that enhance personal achievement, professional growth and the pursuit of life-long learning.

Current initiatives include the Accelerated Associate in Arts or Associate in Science programs, the Online Degree Completion Program and oversight of the Beta Eta Delta Chapter of Phi Theta Kappa.

Projected to begin in Spring 2022 is the CVCC Honor's Program for traditional students who show academic excellence, are highly motivated and desire expanded learning opportunities in selected college transfer classes. Enrollment is limited and students must apply for the program after completing 12 credits hours and obtaining a cumulative 3.2 GPA. In addition to more rigorous academics, students will be required to complete HUM 230 – Leadership Development, participate in community service activities, attend professional seminars and participate in a Capstone presentation their final semester.

Tentatively scheduled for Fall 2022, the Tech to the Top program for Associate in Applied Science students will provide opportunities for students in leadership and project management skills, extended service learning, job shadowing and expanded networking opportunities with local employers.

Future initiatives also include a professional learning community for entry-level or mid-career workers to obtain the necessary communication, leadership and project management skills to increase their qualifications for promotions and supervisory positions with their current employer.

Challenged Materials

CVCC supports the position of the American Library Association on the subject of censorship. The right of the librarian and faculty to select books and other materials representing all sides of controversial issues must be safeguarded by the college.

Counseling

CVCC does not offer mental health/personal counseling services. Admission staff members are available to assist students with academic or vocational issues. Career advising is available through the Director of Career Advising located in the Advising Center. The Center for Workforce Connectivity and Talent Development located in

the Student Center offers work-based learning for students in eligible programs and job placement services. If at any point an admissions representative determines a student's ability to benefit from campus services is limited, the staff member will recommend appropriate resources and suggest alternatives to the student.

CVCC Alert

The CVCC Alert App can be downloaded at the Apple Store or Google Play. The app is provided by the Office of Safety, Security and Health, so that you may be provided with timely information and warnings to help keep you safe in the event of an emergency on or near campus. Should you have questions about CVCC Alert please contact the Office of Safety, Security and Health.

CVCC Foundation, Inc.

The Catawba Valley Community College Foundation, Inc., is a non-profit organization with the mission to foster and promote growth, progress, and the general welfare of Catawba Valley Community College. It is the vehicle through which the community may invest in education.

CVCC GO App

The CVCC Go app is a student oriented mobile application for iOS and Android that allows users to view campus information like: maps, important phone numbers, or even take a virtual tour! Current students can login to see final grades, register for classes, and even pay for classes through the app.

InformaCast/Red Hawk Alert

The InformaCast/Red Hawk Alert is Catawba Valley Community College's emergency alert system, which is used to send emergency messages within minutes of a critical incident affecting the campus community. The InformaCast/Red Hawk alert will also be used to notify you of campus closing due to weather or other issues that might arise. Students, faculty, and staff are automatically enrolled in the InformaCast/Red Hawk Alert system with the contact information registered with the college.

If you are a new employee or student and want to register your mobile device prior to the system updating with your contact information, from your mobile device you need to text #MNAalerts to 828-392-7410.

Alerts sent via the InformaCast/Red Hawk Alert may also include other methods of notification that include:

- Email Messages
- Phone Calls
- Text Messages
- Messages via VoIP Phones
- External and Internal Speakers
- Digital Signs
- Social Media

The college will also perform periodic tests of the Red Hawk Alert system.

Electronic Mail Services

CVCC creates a college e-mail address for students when the online application is entered into the CVCC database. This e-mail address is communicated to the student during the Admission interview visit in the Student Services office. Students are expected to read the CVCC email daily. The College shares critical information regarding financial aid, academic issues, grades, registration, campus safety alerts, and general news through e-mail. It is the preferred method of communication with students to ensure timeliness of information, safety, and security. It is the student's responsibility to learn how to login and read CVCC e-mail and follow specialized requests from various campus departments.

CVCC e-mail is a technology resource. Users are subject to all other policies regarding CVCC technology resources. Students may expect reasonable access to CVCC e-mail. However, access cannot be guaranteed to be available at all times or in all circumstances

CVCC e-mail may be accessed for routine management or maintenance purposes.

CVCC e-mail users must accurately identify themselves in their electronic correspondence.

Users may be required to manage their CVCC e-mail storage space due to the limitations of storage resources.

CVCC e-mail accounts established for students may be terminated at the end of the enrollment period.

Electronic Signature

Catawba Valley Community College (CVCC) recognizes an electronic signature as a valid signature from faculty, staff, and students. An electronic signature is defined as any electronic process signifying an approval to terms, and/or ensuring the integrity of the document, presented in electronic format.

Students use electronic signatures to register, check financial aid awards, pay student bills, obtain unofficial transcripts, update contact information, log into campus computers, complete forms, submission of class work, tests, etc.

Faculty and staff use electronic signatures for submitting grades, viewing personal payroll data, logging into campus computers, accessing protected data through the administrative computing system and custom web applications provided by the college, etc.

An electronic signature is considered valid when the following is met:

Condition: Campus Network Username and Password

- Institution provides student or employee with a unique username
- Student or employee sets his or her own password
- Student or employee logs into the campus network and secure site using both the username and the password

It is the responsibility and obligation of each individual to keep their PIN and/or their password private so others cannot use their credentials.

Once logged in, the student or employee is responsible for any information they provide, update, or remove. CVCC will take steps to ensure both the PIN and password are protected and kept confidential. Furthermore, users are responsible for logging out of all systems and exercising the necessary precautions when using publicly accessible computers.

This policy is in addition to all applicable federal and state statutes, policies, guidelines, and standards.

Emergency Response and Evacuation Procedures

All Campuses

CVCC has established procedures to immediately notify the campus community upon the confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or employees occurring on campus. These procedures provide for rapid notice to local law enforcement and senior administration to evaluate and confirm an emergency or dangerous situation and if confirmed, for same persons to determine the appropriate segment or segments of campus to be notified and the content of the notification.

CVCC will, without delay, and taking into account the safety of the community, determine the content of emergency/dangerous situation notifications and initiate the notification system, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

CVCC Main Campus (including the East Campus and the Corporate Development Center)

If an emergency or dangerous situation is confirmed, the Main Campus procedures provide for any one of several CVCC administrators, Campus Safety and Security Office staff, or law enforcement officers to authorize a mass notice to the appropriate segment(s) of the campus using a campus emergency notification system. Such notice can also be followed (if deemed appropriate) by notice via faculty/staff e-mail, internal TV system, the CVCC web page, and the Blackboard course management system.

CVCC Alexander Center for Education

This campus consists of two one-story buildings. Procedures provide for faculty/staff on site to evaluate and confirm an emergency or dangerous situation and if confirmed, to verbally provide notice to the campus, local law enforcement, and senior CVCC administration.

CVCC Newton Center

This campus consists of a relatively small single one-story building. Procedures provide for faculty/staff on site to evaluate and confirm an emergency or dangerous situation and if confirmed, to verbally provide notice to the campus, local law enforcement, and senior CVCC administration.

CVCC Manufacturing Solutions Center

This campus consists of a relatively small single one-story building. Procedures provide for faculty/staff on site to evaluate and confirm an emergency or dangerous situation and if confirmed, to verbally provide notice to the campus, local law enforcement, and senior CVCC administration.

Catawba Valley Furniture Academy

This campus consists of a 38,000 square foot single one-story building. Procedures provide for faculty/staff on site to evaluate and confirm an emergency or dangerous situation and if confirmed, to verbally provide notice to the campus, local law enforcement, and senior CVCC administration.

All Campuses (except as noted)

Fire alarm systems are present and active in all campus facilities.

Following are the titles of the persons responsible for carrying out the actions/procedures described in the above paragraphs. President, Vice President, Executive Officer of Academic Services, Office of Safety, Security, and Health, Local Law Enforcement Officer, Administrative Assistant, Receptionist.

At the CVCC Alexander Center, the persons responsible also include the Director of the Alexander Center for Education and other CVCC faculty/staff on site. At the CVCC Newton Center, the persons responsible also include CVCC faculty/staff on site. At the CVCC Manufacturing Solution Center, the persons responsible also include the Executive Director and other CVCC faculty/staff on site. At the Catawba Valley Furniture Academy, the persons responsible also include CVCC faculty/staff on site.

The dissemination of emergency information to the larger community shall be coordinated by the Office of the President and the Public Information Officer.

The Campus Safety and Security Office is responsible for testing the emergency response and evacuation procedures on at least an annual (calendar year) basis and for documenting such testing. Documentation for each test shall include a description of the exercise, the date, the time, and whether the test was announced or unannounced. Such testing may include a review of procedures by the Campus Safety and Security staff and local law enforcement officers, meetings with responsible persons to review and walk-through procedures, and tests of communication equipment. The Campus Safety and Security Office shall also ensure that the emergency and evacuation procedures are publicized in conjunction with at least one test per calendar year.

The Annual Security Report can be viewed at <http://www.cvcc.edu/Campus-Resources/Safety-and-Security/annual-security-report.cfm>.

Financial Assistance

Consistent with the open door admissions policy, it is the intent of the college administration that no person be denied the opportunity to pursue financial assistance. Therefore, scholarship and financial assistance information is available during the enrollment process. The Office of Scholarships and Financial Aid is available to assist

students and potential students in planning for the financial support of their education.

Food Services

CVCC offers several options for grabbing meals or snacks that are tasty, affordable and convenient.

Freshly Prepared Meals

During the Fall and Spring Semesters, we provide a variety of local food trucks that prepare fresh meals for breakfast and lunch. Available Monday through Thursday, head to the Quad to order from your favorite vendor. Seating is available at any of our outdoor picnic tables or next door in the Student Center. Please review CVCC's schedule and offerings online at <https://cvcc.edu/Campus-Resources/Food-Services/>.

Vending

Vending machines, located across campus in each of our buildings, offer cold drinks and a variety of snacks.

Health Services/Information

There is no formal healthcare program/clinic available for students. The Student Government Association (SGA) supports other CVCC Departments and/or community agencies as they offer workshops/events on whole person health topics. These activities are posted on the MyCVCC Portal Calendar.

Any students, faculty, or staff health-related emergencies are referred to area healthcare providers/agencies. CVCC has developed procedures designed to protect all student and employees in the workplace from exposure to harmful agents, including blood borne pathogens. A copy of these procedures is on file in the Human Resources Office.

Helpdesk

Students may get technology help for CVCC services by accessing the CVCC Helpdesk by calling 828-327-7000, ext. 4444.

Hours and Delivery Methods of Curriculum Classes

Students may attend Catawba Valley Community College on either a full-time or part-time basis. Day classes are normally scheduled between 8:00 a.m. and 5:00 p.m., Monday through Thursday. Evening classes are normally scheduled between 5:00 p.m. and 10:00 p.m., Monday through Thursday. Some classes are also scheduled on weekends, Friday evening and Saturday daytime.

During the COVID-19 pandemic, guided by the health and safety of our campus community, and understanding the need for operational enhancements to promote the use of masks, social distancing, and other health and safety measures as recommended by public health officials, CVCC realizes that it will be necessary to provide options for instructional delivery.

Therefore, CVCC will use multiple instructional delivery methods based on nationally-recognized models of instructional delivery. We are focusing on three primary options, recognizing that a shift to another delivery method

later in the semester may be necessary. There will be on-campus instruction and off-campus instruction. Off-campus instruction will be provided via the Blackboard Learning Management System (BB) and video-conferencing software such as WebEx, or Microsoft Teams—both synchronously and asynchronously. Decisions about which methods will be used for specific classes will be made locally by deans and department chairs, with input from the respective faculty members regarding how to create the right balance of course offerings using these different instructional delivery models.

These different methods may still be in use when students are allowed to return to campus after the COVID-19 pandemic ends.

- Seated/Hybrid. A course designed for on-campus in person learners only. These courses will have online components through BB in addition to scheduled seated class meetings. In some cases, students who are attending in person may rotate by day of the week to give on-campus students equal opportunity to be in the classroom in person.
- Virtual – Classes are synchronous, technology-enhanced and fully interactive remote learning using live lectures via WebEx. These classes will meet on scheduled days/times, similar to a seated class. Your instructor will project live instruction at the scheduled class time. Virtual classes offer the benefits of face-to-face instruction in an interactive, online group-learning environment. Students may be required to come to campus at designated times for tests or labs if stated in the schedule.
- Online Only. An online course is taught asynchronously. The class is available fully online 24 hours a day/ 7 days a week. There are no scheduled meeting days/times. Class assignments are completed based on an instructional class calendar provided by faculty.

Housing

Catawba Valley Community College primarily serves students within commuting distance of the campus. CVCC has no dormitory or housing facilities.

Inclement Weather Closings

Catawba Valley Community College will cancel classes only when the weather is considered too hazardous for safe travel to and from the college. The decision will be made as soon as possible by the President or designee, in order to inform students and staff. An official announcement stating that classes are delayed or the College is closed will be made by the automated attendant (updated college closing information option), on the telephone system 828-327-7000, CVCC's web page (www.cvcc.edu), or by CVCC's text alert option.

Intercollegiate Athletics

The CVCC mascot is the Red Hawk. CVCC is authorized to operate an intercollegiate athletic program and is a member in good standing with the National Junior College

Athletic Association (NJCAA). CVCC is member of the National Junior College Athletic Association, Region 10, which includes two-year colleges in Virginia, South Carolina and North Carolina. Within this region, CVCC competes in the Division II Carolinas-Virginia Conference.

CVCC, NJCAA teams include Men's Baseball, Men's and Women's Basketball, Women's Softball, Women's Beach Volleyball and Women's Court Volleyball.

CVCC also sponsors a collegiate coeducational team in Bass Fishing and Esports. The Bass Fishing team is a member of Bassmaster (BASS) and Fishing League Worldwide (FLW) collegiate competition. The Esports program participates in multiple collegiate Esport competitions as well as NJCAA.

Job Placement

CVCC shall make job placement services available to students and alumni. CVCC also partners with other agencies in the local NCWorks Career Center to provide these services. Students have access to jobs listed by employers who call the Center for Workforce Connectivity and Talent Development for assistance. The office has listings for full-time, part-time and temporary jobs. Current students, former students, and graduates of curriculum programs are eligible for placement services. Services include job preparation (job search, resume writing, applications, interviewing, etc.) job fairs, workshops, and on-campus interviews.

Learning Assistance Center

The Learning Assistance Center is an academic support center offering walk-in tutorial assistance to Catawba Valley Community College students who are experiencing academic difficulties or wanting to improve their academic performance. Individual assistance is available in all levels of mathematics, chemistry, physics, programming, writing, and study skills. Computer-assisted instruction, video instruction, and Internet access are also available. This service provides students assistance Monday through Thursday. Link to Learning Assistance Center: <https://www.cvcc.edu/LAC>

Library

The Library is open to all CVCC students, CVCC employees, and to the general public.

The Library is located on the second floor of the Cuyler A. Dunbar Building. Its primary function is to support instruction and provide necessary resources to the students in each of the curricula areas. The Library has a capacity of 201 persons with a collection of 35,000 volumes. Eight individual study rooms and two group study rooms are available for use.

Library patrons are subject to all library fees and fines (e.g. for damage or loss of materials and equipment, library card replacement).

The confidentiality of library user records shall be maintained in accordance with the General Statutes of NC, Chapter 125-19 and all other regulatory requirements.

Lost and Found

The College Switchboard, located on the first floor of the Student Services Building, serves as the central location for items that have been found on campus. Do not leave items unattended on campus. It is a good idea to mark your name on all items you bring to campus.

MyCVCC Portal

The MyCVCC portal facilitates communication among Catawba Valley Community College employees and students. Beyond meeting the complex needs of CVCC employees and students to communicate, it encourages engagement within our community with access to register for classes, email, Blackboard, as well as paying for classes.

New Student Orientation

Each new student is expected to complete New Student Orientation and is offered in an online format. This orientation introduces individuals to information about how to navigate on campus, explore career options, and register for upcoming courses. Students will also be instructed on how to access online classes, student accounts, grade information, and payment options. New Student Orientation is available at <https://www.cvcc.edu/NSO>.

Office of Multicultural Affairs

The Office of Multicultural Affairs is located on the first floor of the Cuyler A. Dunbar building. Its function is for all students, staff, and faculty to embrace and value diversity. This office promotes a creative climate offering a series of Multicultural Days on CVCC's campuses for a positive educational experience for all students.

Office of Safety, Security, and Health of the College

The Office of Safety Security and Health is located on the first floor of the Cuyler A. Dunbar Building. The function of this office is to provide a safe working and learning environment for all students, staff and visitors to our campus. Should there be a safety or security concern please contact the Office of Safety, Security and Health.

The Annual Security Report can be viewed at <http://www.cvcc.edu/Campus-Resources/Safety-and-Security/annual-security-report.cfm>.

Parking Hang Tags

Applications for parking hang tags may be picked up from the College Switchboard, located on the first floor of the Student Services Building. These hang tags enable the Office of Safety, Security and Health to locate you in the event that there is an issue with your vehicle while you are on campus.

Placement Testing Services

CVCC utilizes a placement testing program to assess certain academic competencies in reading, writing, and mathematics. Test results are used by academic advisors to place students in appropriate courses and thereby maximize their opportunities for success. Placement test scores are not a requirement for general admission to CVCC, but may be a factor in the admission decision for certain programs and/or the determination of course

requisite competencies. Appropriate skills may be evidenced by one of the following measures.

- RISE placement measures may be used for those students who have graduated from high school within 10 years and have an unweighted GPA;
- RISE placement testing is available for students who graduated more than 10 years ago or who do not have an unweighted high school GPA;
- Sufficient scores on the ACT or SAT tests taken within 10 years of entry to CVCC;
- Appropriate coursework completed with satisfactory grades at another regionally accredited educational institution.

RISE placement testing is available by appointment in the CVCC Testing Center. Appointments may be made when the student meets with Admission staff to activate his/her application. There is no fee for this first-time placement testing. More specific information can be found www.cvcc.edu/Services/Testing_Center/index.cfm

Re-testing Procedure

Generally, re-testing on RISE placement tests is not considered to be productive. However, students may re-test one time in each tier.

Testing Center information is available at www.cvcc.edu/Services/Testing_Center/index.cfm.

Phi Theta Kappa

Phi Theta Kappa - Beta Eta Delta Chapter is the College's academic honor society for students who meet high academic standing and degree requirements for membership based on the national PTK model. Recognizing and encouraging integrity, academic excellence, campus and community leadership, service and fellowship, Phi Theta Kappa is not a club. Membership is by invitation only to qualifying students at the end of each semester, and a one-time joining fee provides lifetime enrollment, scholarship opportunities, professional benefits and career services. Upon graduation, members transition to the Alpha Omega alumni chapter of PTK. The Center for Student Excellence and Leadership oversees the functions and activities of Phi Theta Kappa.

For more information about the programs and activities of the CSEL, please contact Debbie Austin, Executive Director, the Center for Student Excellence and Leadership, daustin@cvcc.edu, VSL 218E, 828-327-7000, ext. 4715.

Program for Students with Disabilities

A program of services is provided for students with disabilities. Individuals with disabilities (as defined in the Americans with Disabilities Act of 1990 and the ADA Amended Act 2008) wishing to make a request for reasonable accommodation or wishing to file a complaint of alleged discrimination on the basis of disability should contact the CVCC Program for Students with Disabilities Office. It is the student's responsibility to request these services. Current documentation of the disability by an appropriate professional may be required. All information is kept confidential. Students will be required to sign a

release of information form before any special contact is made to arrange accommodations. Please request accommodations at least three (3) weeks before class as some accommodations take time to arrange. If it is less than this, we will accommodate to the extent we feasibly can. You may request accommodations at accommodations@cvcc.edu. You may also contact the Counselor for students with Disabilities in the Learning Assistance Center, CAD 157.

Reporting a Crime, Emergency or Safety Concern

Community members, students, faculty, staff, and visitors are encouraged to report all crimes, emergencies, and safety concerns to the Campus Safety and Security Office in a timely manner.

Serious crimes, emergencies and safety concerns should be reported immediately to 911. Other reports may be made by calling extension 711 from phones on the Main Campus and East Campus phone network, by calling (828) 327-7000, ext. 711 from other phones including those at the Manufacturing Solutions Center, the CVCC Alexander Center for Education, the Catawba Valley Furniture Academy and the CVCC Newton Center, or in person at the Campus Safety and Security Office located on the Student Service Building Office 864.

Crimes, emergencies, and safety concerns at the CVCC Newton Center and the Catawba Valley Furniture Academy should also be reported to the Newton Police Department at (828) 695-4308.

Crimes, emergencies, and safety concerns at the CVCC Manufacturing Solutions Center should also be reported to Conover Police Department at (828) 464-4698

Crimes, emergencies, and safety concerns at the CVCC Alexander Center for Education should also be reported to the Taylorsville Police Department at (828) 632-2218.

A crime, emergency, or safety concern may also be reported to the following CVCC officials. CVCC Switchboard – Phone (828) 327-7000, ext. 0 – Student Service Building, 1st floor.

To report a non-emergency security or safety concern, send an e-mail to the Campus Safety and Security Office at security@cvcc.edu, call the Campus Safety and Security Office at (828) 327-7000, ext. 0, or report in person at Student Service Building, Office 864.

All incident reports involving students are forwarded to the Chief Student Services Officer for review and potential CVCC disciplinary action.

If assistance is required from other law enforcement, local fire departments, or other emergency agencies, 911 officials and/or the, Campus Safety and Security Office will contact the appropriate unit.

If a sexual assault or rape should occur, CVCC will offer the victim a wide variety of services. CVCC is a partner with a local Sexual Assault Response Team (SART) and has trained members who are available to assist a victim.

CVCC operates no off-campus housing and does not have off-campus student organizations. On-campus student organizations that engage in off-campus activities should

report crime incidents to the local law enforcement agency where the incident occurred and also to the Campus Safety and Security Office.

Employees participating in CVCC sponsored off-campus activities should report crime incidents to the local law enforcement agency where the crime occurred and also to the Campus Safety and Security Office.

Crimes should be reported to the Campus Safety and Security Office to ensure inclusion in the CVCC's annual crime statistics and to aid in providing timely warning notices to the community when appropriate. For example, a campus crime that was reported only to a local rape crisis center would not be included in CVCC's crime statistics.

Confidential Reporting Procedures

If you are the victim of a crime and do not want to pursue action through CVCC or the criminal justice system, you may still want to consider making a confidential report. With your permission, the Campus Safety and Security Office can file a report on the details of the incident without revealing your identity. The purpose of a confidential report is to comply with your wish to keep the matter confidential, while taking steps to ensure the future safety of yourself and others. With such information, CVCC can keep an accurate record of the number of incidents involving students, faculty, staff, and visitors; determine where there is a pattern of crime with regard to a particular location, method, or assailant; and alert the campus community to potential danger. Reports filed in this manner are counted and disclosed in the annual crime statistics for CVCC. CVCC does not have counselors who are not required to report crimes for inclusion in CVCC crime statistics. Students may contact the Chief Student Services Officer for information on local agencies and counseling services who may provide confidential counseling services. Faculty/staff may contact the CVCC Personnel Department for information regarding confidential counseling services.

Timely Warnings

A timely warning will be issued by the Campus Safety and Security Office when a situation arises that in the judgment of the Campus Safety and Security Office constitutes an ongoing or continuing threat. The warning will be issued in the following manner:

By notice on the Main Campus and East Campus internal television network

By notice on the CVCC main web page – www.cvcc.edu

By notice on bulletin boards at the CVCC Alexander Center for Education, at the Manufacturing Solutions Center, and at the Newton Center.

By e-mail to curriculum students at their CVCC student e-mail account

By e-mail to faculty and staff at their CVCC e-mail account

By the Emergency Notification System

A timely warning will include the reported offense, the location of the reported offense, the date of the reported offense if known, a description of suspects if available, and any other information that would promote safety. Anyone with information which may warrant a timely warning

should report that information to the CVCC Campus Safety and Security Office. Reports may be made by calling extension 711 from phones on the Main Campus and East Campus phone network, by calling (828) 327-7000, ext. 711 from other phones including those at the CVCC Alexander Center for Education, the Manufacturing Solutions Center, the Newton Center, or in person at the CVCC Campus Safety and Security Office located on the Main Campus in the Student Services Building, Office 864.

The Annual Security Report can be found at www.cvcc.edu/Services/Safety_And_Security/annual-security-report.cfm.

Safety and Security

The Chief Security Officer shall establish procedures and programs which promote the safety and security of the CVCC community and which provide the CVCC community with accurate, complete, and timely information about safety/security at CVCC.

CVCC encourages accurate and prompt reporting of all crimes and safety/security concerns to the CVCC Safety and Security Office. The Chief Student Services Officer shall establish procedures for students and others to report crimes and safety/security concerns, including procedures for voluntary, confidential reporting.

The Chief Security Officer shall establish procedures for the CVCC community to follow in the event of emergencies. CVCC encourages students, employees, and others to be responsible for their own safety/security and the safety/security of others. CVCC shall comply with the requirements of the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics.

The Annual Security Report can be found at www.cvcc.edu/Services/Safety_And_Security/annual-security-report.cfm.

Safety with Skateboards, Scooters, Roller Skates, Hover Boards, and Roller Blades on Campus

To minimize the risk and personal injury and property damage upon the campus of CVCC, all skateboards, scooters, roller skates, hover boards, and roller blades are prohibited within all buildings upon the campus. Additionally, skateboards, scooters, roller skates, hover boards, and roller blades are not permitted anywhere on campus or at any time unless approved by the Office of Chief of Staff, Safety, Security and Health.

Single Point of Contact (SPOC) for Homeless and Unaccompanied Youth

In accordance with the McKinney-Vento Homeless Assistance Act, services are provided to help smooth the transition to college for unaccompanied students who are experiencing homelessness. The Single Point of Contact (SPOC) helps to create an awareness on campus of homeless students, expedite the process of determining eligibility for independent student status for the FAFSA, North Carolina Residency Determination, and supports school access and success by facilitating campus discussions to develop a system of support for homeless and unaccompanied youth, and linking youth with campus resources and community assistance. The CVCC SPOC can

be reached at the Learning Assistance Center at 828-327-7000 ext. 4408, rneal@cvcc.edu, or by mail at 2550 US Hwy. 70 SE, Hickory, NC 28602.

Special Programs

Students needing assistance with childcare funding or other supportive services such as temporary funding of tuition, books, supplies, or transportation should contact the Director for Special Programs in the Learning Assistance Center (LAC). Each year special grant applications are made, and there may be funds for financial assistance. Applications are available in the Learning Assistance Center (LAC) and Student Services and are distributed to the "most in need" as long as funds last. "Most in need" is determined by information submitted on the Free Application for Federal Student Aid (FAFSA).

ST.A.R.T. (STudent Advocacy Response Team)

CVCC recognizes that students sometimes experience barriers interfering with the ability to stay in school or achieve and maintain academic and/or personal success. As a result, the College has created a *STudent Advocacy Response Team (ST.A.R.T.)* to provide immediate assistance and guidance in an effort to help students overcome these barriers. *ST.A.R.T.* will also provide workshops and other educational / awareness opportunities throughout the academic year on relevant topics such as domestic violence, homelessness, rape and sexual assault, mental health, substance abuse, etc. For more information, contact Renee Neal at (828) 327-7000 ext. 4408 or rneal@cvcc.edu.

Student Activities

A student's experience at Catawba Valley Community College does not begin and end in the classroom. Various activities, opportunities, and functions of a social and professional nature are offered by Student Government in order to provide a well-rounded campus atmosphere. Each student is assessed activity fees when registering for curriculum classes. Each student is a member of the Student Government Association (SGA) by being enrolled in classes. SGA is intended to be a vehicle through which students have input into CVCC decisions and into the general welfare of students. The SGA President is a nonvoting member of the Board of Trustees.

CVCC encourages student co-curricular activities and student organizations that promote student growth, except for campus organizations commonly referred to as social fraternities and/or sororities. Procedures for organizing student activities and for establishing student organizations shall be established by the Chief Student Services Officer or designee.

On-campus fund-raising activities and other on-campus solicitation activities by students and/or student groups must be approved in accordance with guidelines established by the Executive Council.

Student Organization Non-Discrimination

CVCC is committed to ensuring equal opportunity for all students in all aspects of the educational process. In order to uphold CVCC's principles regarding equal opportunity and non-discrimination, while respecting the First Amendment

rights of students to freedom of association, CVCC has adopted the following:

To be eligible for official recognition from the College and the privileges and benefits thereof a student organization must comply with the following requirements:

- a. Membership and participation in the organization must be open to all students without regard to age, race, color, national origin, disability, religious status or affiliation, creed, veteran status, sex or gender (unless exempt under Title IX), or other protected groups or classes as defined by law.
- b. Student organizations that select their members on the basis of commitment to a set of beliefs, including religious or political beliefs, may limit membership and participation in the organization to students who, upon individual inquiry, affirm that they support the organization's goals and agree with its beliefs, so long as no student is excluded from membership or participation based on any of the criteria listed in subsection (s) above.

The College encourages participation in student organizations and activities. Programs sponsored may include Fall and Spring Flings; Interclub Council; "Have a Dog with the Big Dawg;" N4C SGA conferences; co-curricular activities; NJCAA Women's Court Volleyball, Women's Beach Volleyball, Men's and Women's Basketball, Men's Baseball, and Women's Softball. The collegiate coeducational Bass Fishing team is a member of Bassmaster (BASS) and Fishing League Worldwide (FLW). The collegiate coed Esports team participates in multiple collegiate Esports competitions as well as NJCAA. The links provided below give access to these and other related topics.

Student Center

The Student Center, a place to meet and eat, is one of the focal points of campus social life. A dining area, outdoor patio, wi-fi access, and television help fill leisure moments and relieve study pressures. The Student Center is also available to provide a relatively quiet but relaxed atmosphere in which students may constructively use time for academic preparation. The Campus Store and Center for Workforce Connectivity and Talent Development are also located here.

Behavior Expectations for the Student Center as Approved by Student Government Association (SGA)

1. Respect the rights of others to study and learn.

2. Vulgar language, shouting across the room, horseplay, loud music or engaging other users in unwanted interactions are examples of disruptive behaviors that will not be tolerated in the Student Center. Students come to school for an education. No one has the right to interfere with the education of others.
3. Use courteous and polite behavior at all times.
4. Respect the authority of all faculty and staff to enforce these guidelines.
5. Pick up your trash when you leave the Student Center.
6. Sagging or unbelted pants are prohibited.
7. Students may not rearrange the furniture. Leave the tables, chairs and couches as they are arranged.

Student Clubs

CVCC encourages student co-curricular activities and student organizations that promote student growth. Organizations and activities shall be open to all students regardless of race, color, national origin, sex/gender identity, religion, creed, age, disability, veteran or active military status, genetic characteristics, or any other category protected by law under Title VII and/or Title IX.

Students are encouraged to participate in student organizations to promote student growth and to enhance the classroom learning environment. A variety of available clubs is listed below:

- Accounting and Business Club designed to assist students in becoming better informed about the accounting and business professions and introduce them to the opportunities available in the private and public sectors. Advisor: Christy Lefevers, clefevers@cvcc.edu, 327-7000 ext. 4308.
- Art Guild Club is an all-inclusive club for students interested in the Visual Arts. Members will support and engage with the community as a whole. The Art Guild will actively work toward establishing and maintaining arts resources on the campus. Advisor: Jeff Keifer, jkeifer@cvcc.edu, ext. 4373.
- Association of Respiratory Therapy Students promotes professionalism in respiratory care students. Members are involved in promoting healthy lifestyles and providing assistance at an asthma camp for children. Advisor: Jason Elder, jelder@cvcc.edu, ext. 4083.
- Automotive Systems Technology Club includes all automotive systems technology students. Members tour assembly plants, go to races, and volunteer with many campus events. Advisor: Eddie Roane, jroane@cvcc.edu, 327-7000 ext. 4234.
- CKI (Circle K, affiliated with Kiwanis International) is the largest collegiate community service, leadership development, and friendship organization in the world. Members work on

campus and community service projects throughout the year. Advisor: Elizabeth Braun, ebraun@cvcc.edu, 327-7000 ext. 4007.

- Collegiate Music Educators Club helps students become aware of employment in music education and performance. Members are exposed to professional learning opportunities in music and receive material about continuing music education at four-year institutions. Advisor: Caroline Simyon, csimyon@cvcc.edu, 327-7000 ext. 4305.
- Communications Club promotes critical thinking across the disciplines and engages people in the art of communication. This includes debate, interpreting and deriving meaning from nonverbal communication, improving interpersonal communication and relationships, training for job interviews, resume and cover letter writing, and intercultural communications. Students will have speaking competitions and showcases each semester. Advisor: Jason Earnhardt, jearnhardt@cvcc.edu, 327-7000 ext. 4078.
- Computer Information Systems Security Club keeps members current on the latest security issues and fixes, promotes the CVCC information security program to high schools and in the community, and provides a scholarship for a student in the curriculum program. Advisor: Rick Barnes, rbarnes@cvcc.edu, 327-7000 ext. 4312.
- Cosmetology Club (The Cutting Edge) fosters the development of skills necessary to become successful cosmetologists. Members have a variety of activities and field trips. Advisor: Donna Vann, dvann@cvcc.edu, 327-7000 ext. 4108.
- Creative Writing Club promotes writing and writing workshops, sharing writings, entering writing contests and participating in writing challenges. Advisor: Jane Meekins Lucas, jlucas118@cvcc.edu, 327-7000 ext. 4822.
- Criminal Justice Club designed to give students in the Criminal Justice and Latent Evidence program the opportunity for open exchange of ideas and knowledge pertaining to issues in the criminal justice field. Advisor: Sherry Herman, sherman@cvcc.edu, 327-7000 ext. 4050.
- CVANS gives nursing students an opportunity to complete service projects in the community. Advisor: Robin Caldwell, rcaldwell@cvcc.edu, 327-7000 ext. 4299.
- CVCC Campus Crusade for Christ (CRU) is an international organization that seeks to develop tomorrow's leaders by embracing the purpose, love and forgiveness that God offers them in a relationship with Jesus Christ. Advisor: Jeff Kautz, jkautz@cvcc.edu, 327-7000 ext. 4832.
- CVCC HMT/MOA works to network with local practice administrators and business managers.

They also tour and learn about career opportunities and participate in healthcare service events. Club members will be active on campus and host a variety of speaker forums. Advisors: Kim Ford, kford@cvcc.edu, 327-7000, ext. 4267, and Laura Richard, lrichard@cvcc.edu, ext. 4523.

- CVCC Student Diplomat Program The CVCC Student Diplomat Program launched in the fall of 2019 with the primary purpose of service --- to the College and its students, faculty, and staff. Student Diplomats function as official representatives of CVCC at both on-campus and off-campus events, conducting tours, assisting with registration, helping with recruitment, serving as graduation marshals, preparing presentations for civic and business organizations, etc. As CVCC representatives, Diplomats must have strong interpersonal and leadership skills; and they must be able to communicate effectively with a variety of audiences concerning the college's mission, vision, and programs. In addition, they must be willing to devote the necessary time to attending assigned events and serving as official college spokespersons as needed or requested. CVCC Student Diplomats receive numerous benefits from their service. Those benefits include tuition assistance, recognition at Awards Day, special Diplomat attire, letters of reference, graduation regalia, and training in customer service, leadership, and the history, programs, and services of the College. Advisor: Robin Cornett, rcornett@cvcc.edu, 327-7000 ext. 4074.
- Early Childhood Club encourages students working in or seeking careers in the Early Childhood field. Advisor: Aden Cranford, acranford@cvcc.edu, 327-7000 ext. 4575.
- Emerging Entrepreneur Club fosters the use of entrepreneurial thinking and helps develop the skills necessary to become successful business owners or managers. Members have a variety of activities during the school year, including speakers' forums, field trips and special projects. Advisor: Gary Muller, gmuller@cvcc.edu, 327-7000 ext. 4672.
- Engineering and Technology Club provides experiential learning opportunities for students and encourages collaboration among students from various engineering and technical disciplines. Advisor: Jamie Hill, jhill378@cvcc.edu, 327-7000, ext. 4321.
- Epsilon Sigma Pi-EMS Club encourages awareness, concern, and interest in the emergency medical care profession. The society shall promote services and fellowship through community improvement and awareness. Advisor: Paul Badgley, pbadgely@cvcc.edu, 327-7000 ext. 4331.
- Get Fit Club offers members an opportunity to share their experience and active lifestyle with

other like-minded students. Participating members share trending fitness activities, guidance as well as discuss opportunities within the fitness field. Advisor: Jeff Moore, jmoore@cvcc.edu, 327-7000 ext. 4625.

- Health Information Technology Club encourages HIT students to network with area Health Information Management professionals, mentor HIT students and provides a forum for student questions and concerns. Advisor: Debby Cook, dcook@cvcc.edu, ext. 327-7000 ext. 4342.
- Machining Club promotes student leadership development, supports student activities on campus, supports our local community, has fun outside the classroom and gets others excited about the area of machining. Advisor: John Witlock, jwitlock@cvcc.edu, 327-7000 ext. 4561.
- Math Club promotes students' level of Math skills and knowledge. The Club will support classroom learning, enrich their skills with higher order thinking, and prepare students for future Math Competitions. Advisor: Michael Boone, mboone@cvcc.edu, 327-7000 ext. 4537.
- Minority Males on the Move encourages minority males to attend and graduate from CVCC. Members explore employment opportunities and seek to prepare minority males with the right college courses. Advisor: Ron Carson, rcarson@cvcc.edu, 327-7000 ext. 4571.
- Radiography Club promotes communication among radiography students. Members attend a conference each year where they network with radiography professionals. Advisor: Scott Vandevander, svandevander@cvcc.edu, 327-7000 ext. 4075.
- Rotaract (affiliated with Rotary International) is a service club that gives members an opportunity to work on campus and community projects. Advisors: Teresa Biggs, tbiggs@cvcc.edu, 327-7000 ext. 4288; Steve Hunt, shunt@cvcc.edu, 327-7000 ext. 4570; Mary Beth Wilson, mwilson@cvcc.edu, ext. 4282.
- S.A.G.A. Sexuality and Gender Alliance Club is open to all students. The purpose is to create a "safe zone" where all students can find help and support while promoting school spirit and equality. Advisor: David Zealy, dzealy@cvcc.edu, 327-7000 ext. 4013.
- Science Club combines interests in chemistry, biology and geology. Anyone interested in science is welcome to join this exciting club. Advisor: Emily Whiteley, ewhiteley@cvcc.edu, 327-7000 ext. 4361.
- Skills USA unites students in industrial, technical, health occupations and vocational trades. Club members acquire leadership skills, learn about and promote high professional standards and

share in establishing career goals. Advisor: Gary Muller, gmuller@cvcc.edu, 327-7000 ext. 4672.

- Spanish Club offers the unique opportunity to practice speaking Spanish by conversational activities. The club is open to all students. The club will promote cultural activities, which will enrich the understanding of Hispanic culture and help to increase the performance and proficiency of students in the Spanish language. Advisors: Tim Lee, tlee@cvcc.edu, 327-7000 ext. 4482 and Dr. Mirelly Buitrago-Gonzalez mbuitrago598@cvcc.edu, 327-7000, ext. 4079.
- Student American Dental Hygiene Association gives dental hygiene students a chance to volunteer for and participate in community events. Guest speakers regularly present lively topics. Club members attend statewide scientific meetings. Advisors: Crystal Adams, cadams@cvcc.edu, ext. 4158 and Lisa Campbell, lcampbell@cvcc.edu, ext. 4157.
- Student Government Association (SGA) sponsors activities open to all currently enrolled curriculum students. SGA activities promote cultural, social, physical, and academic growth. Programs sponsored include Fall and Spring Fling, N4C SGA conferences, co-curricular activities, and much more! Advisors: Bo Glenn, bglenn@cvcc.edu, 327-7000 ext. 4388; Debby Cook, dcook@cvcc.edu, ext. 4342; Erryn deBlois, edeblois@cvcc.edu, 327-7000 ext. 4435.
- Student Photographic Society is a chapter of the national group sponsored by Professional Photographers of America. The club is involved in many campus and community events photographing and displaying their works. Advisor: Clayton Joe Young, jyoung@cvcc.edu, 327-7000 ext. 4467.
- Students Striving for Success Club works to support the educational and vocational efforts of all students attending CVCC. They support academic advising and encourage all students to graduate. Service learning and college transfer initiatives are promoted. Advisor: Steve Hunt, shunt@cvcc.edu, 327-7000 ext. 4573, Ron Carson, rcarson@cvcc.edu, ext. 4571.
- Student Veteran's Organization fosters support of Veterans and their dependents as well as current service members attending CVCC. Advisor: Laura Montgomery, lmontgomery209@cvcc.edu, 327-7000 ext. 4213; and/or Bryan McLain bmclain361@cvcc.edu, 327-7000, ext. 4615.
- Surgical Technology Club members participate in campus blood drives, walk-in community walk-a-thons, and raise funds for surgical technology "extras," like a very special pinning ceremony. Advisor: Kimberly Holman, kholman@cvcc.edu, 327-7000 ext. 4332.
- Theater Arts Club gives all students a chance to be involved in theatrical events like dramatic

readings, one-act plays, and storytelling. Follow on Facebook:

<http://www.facebook.com/cvcctheatreartsclub>.

Advisor: Kim Stinson, kstinson@cvcc.edu, 327-7000 ext. 4406.

- Welding Club promotes community involvement and education related to welding and fabrication technology. Advisor: Mark Sigmon, msigmon@cvcc.edu, 327-7000 ext. 4358.

Student Development

Student Services provides entry, support, and transition services to curriculum students. A definitive program of services is offered to assist students in satisfactorily selecting, entering, progressing within, and completing a program of study. In addition, students are provided with numerous opportunities for personal development and social growth through a variety of planned activities.

Student Government Association (SGA)

Each curriculum student enrolled at CVCC is automatically a member of the Student Government Association (SGA). SGA is intended to be a vehicle through which students have input into CVCC decisions and into the general welfare of students. The goals of this organization are to encourage student-faculty cooperation; provide democratic action in school activities; coordinate student activities; and maintain high standards for the school by upholding high personal standards of conduct. The SGA President is a nonvoting member of the Board of Trustees.

A student's experience at Catawba Valley Community College does not begin and end in the classroom. Various activities, opportunities, and functions of a social and professional nature are offered by Student Government in order to provide a well-rounded campus atmosphere.

Student Resource Guide 2021-2022

College policies and procedures are applicable to all students enrolled at CVCC, whether full-time, part-time, auditing, special credit, non-credit, or Career & College Promise. Information contained in this document is subject to change without notice. CVCC is an equal opportunity/affirmative action institution. The 2021-2022 Student Resource Guide is found at <https://www.cvcc.edu/student-resource-guide> on the CVCC website. The Student Resource Guide is a quick guide to CVCC Policies, Procedures, and other information that may be useful to students.

Technology Resources

Technology resources include, but are not necessarily limited to, computers, software, networks, Internet access, telephones, voice mail, printers, scanners, copiers, and electronic (e-mail) services provided by CVCC. Technology resources also include CVCC web pages, social media sites sponsored by CVCC, and other online resources provided or sponsored by CVCC. This policy applies to all users of technology resources provided by CVCC. Compliance is critical to the security and integrity of technology resources and is mandatory.

CVCC is committed to moving students, faculty, and staff forward in an ever-changing technology rich learning environment. As part of this plan, CVCC will allow students and employees to bring their own mobile devices (BYOMD) during the teaching and learning day.

Use of technology resources shall be in compliance with local, state, and federal law. Use of technology resources shall comply with any contractual or professional obligations of CVCC. All users are responsible for using technology resources in an efficient, responsible, considerate, ethical, and lawful manner. Any information distributed by a user must accurately identify the creator, distributor, and recipient of that information.

The college relies on email to communicate officially with its employees and students asynchronously, and as such, it is required that all employees and students check their email in a timely manner and should use only official CVCC accounts when conducting any CVCC academic and/or operational communications.

Access to technology resources is a privilege rather than a right. Access may be withdrawn from those who use it inappropriately or irresponsibly. Users who violate any of the technology resource policies may be subject to disciplinary action and/or legal action.

Technology resources are to be used to fulfill CVCC's mission. Acceptable uses by faculty and staff include:

- a. Use to complete the official work of the CVCC (including instruction and administration);
- b. Use directly related to academic research activities approved by CVCC;
- c. Use directly related to service on behalf of CVCC;
- d. Use directly related to professional development activities approved by CVCC; or
- e. Very limited non-commercial personal use as long as that use does not interfere with the work of the CVCC and does not create additional cost for CVCC.

Acceptable uses by students include:

- a. Use directly related to classes in which the student is officially enrolled;
- b. Use directly related to service activities approved by the College; or
- c. Very limited non-commercial personal use as long as that use does not interfere with the work of the CVCC and does not create additional cost for CVCC.

Technology resources may not be used for any purpose which is illegal, immoral, unethical, dishonest, damaging to the reputation of CVCC, inconsistent with the mission of CVCC, or which may subject CVCC to liability. Unacceptable uses of technology resources include, but are not limited to, the following:

- a. Harassment;
- b. Libel or slander;
- c. Fraud or misrepresentation;

- d. Destruction of or damage to equipment, software, or data belonging to the College or to others;
- e. Disruption or unauthorized monitoring of electronic communications;
- f. Unauthorized access of electronically stored information;
- g. Infringement of copyrights, trademarks, or the rights of others;
- h. Use of the CVCC logo without prior approval from the Director of Community Relations for the CVCC;
- i. Violation of computer system security;
- j. Unauthorized use of computer accounts, access codes (including passwords), or network identification numbers (including e-mail accounts) assigned to others;
- k. Unauthorized access to the CVCC's information systems, Internet or other networked computers;
- l. Use of computer communications resources in ways that disrupt or impede the computing activities of others;
- m. Use of technology resources for commercial business purposes unrelated to CVCC, for personal profit, or for solicitation of resources for non-CVCC sponsored activities;
- n. Academic dishonesty;
- o. Violation of software license agreements;
- p. Violation of network usage policies and regulations;
- q. Violation of privacy;
- r. Posting, sending, or intentionally accessing pornographic, sexually explicit, or offensive material;
- s. Posting, sending, or intentionally accessing material that is contrary to the mission of CVCC;
- t. Intentional distribution of computer viruses, trojan horses, timebombs, worms, or other rogue programming; or
- u. Use of electronic mail (e-mail) for chain letters, pyramid schemes, unsolicited mass mailings (spamming).

All installations, modifications, and/or repairs of technology resources must be authorized by the Executive Officer of Technology Services Chief Operations Officer or designees. Unauthorized resources are subject to seizure by CVCC. The usage of CVCC technology resources may be monitored as authorized by the Executive Officer of Technology Services Chief Operations Officer or designee. CVCC personnel or designees will generally not access the content of user files except as follows: a. The user gives prior consent; b. CVCC needs to ensure the security or operating performance of its systems or networks; c. There is reasonable concern that a violation of CVCC policy or law has occurred; d. CVCC is complying with a valid subpoena

or search warrant issued by a court of competent jurisdiction; or e. Other reasons as determined necessary by the President. Therefore, CVCC does not guarantee privacy regarding the use of its technology resources. Any questions as to the appropriate use of technology resources should be directed to the Executive Officer of Technology Services Chief Operations Officer.

The President or designee shall establish guidelines and procedures for the use of social media sites sponsored by CVCC.

CVCC supports the appropriate use of BYOMD devices in accordance with section 4.18 of the CVCC Policies.

Devices

Devices include, but are not limited to, smart phones, tablets, and other wireless communication devices.

Device Support

The owner is responsible for the support and maintenance of their device. The Offices of Information Technology and Information Services may provide consultation on the type of smart-phone equipment to purchase, especially as it relates to applications that enable email and calendar support, but it is not responsible for ensuring (nor can it guarantee) compatibility between all makes and models of phones and CVCC systems. Most Internet capable devices will be able to access CVCC's web-based platforms.

If you wish to purchase a smart-phone with "native" support for synchronizing with the CVCC's email system, ask your service provider for options that support "over-the-air" connectivity to Microsoft Exchange and Google Apps. Examples include the Apple iPhone, most Android-based smart-phones, and Windows-based smart-phones. Please note that CVCC does not operate a Blackberry Enterprise Server and cannot guarantee compatibility between Blackberry devices and CVCC's information systems.

Information is provided to mobile device owners for the purposes of supporting themselves or providing the carrier with necessary information to setup accounts linking a mobile device to a CVCC user's account via CVCC's Webpage. IT Staff may not be able to give any additional information beyond that which is published.

Disclaimer

CVCC is not responsible for any data charges that might be incurred while using any CVCC electronic services. This includes CVCC Web Applications, the MyCVCC Portal or the CVCC Go Application.

Conduct and Misuse

Users shall be responsible for any unauthorized and/or inappropriate access to college information that occurs from the misuse, loss or theft of mobile devices. If a user's mobile device is configured to synchronize with email or other CVCC resources, the CVCC Technical Support HelpDesk (Ext. 4444) shall be notified if the device is lost or stolen so unauthorized and/or inappropriate access can be minimized.

Transportation

Students are requested to be especially alert and careful in entering and leaving the school grounds. The maximum on-campus speed is 10 miles per hour. Employees, students, and visitors are expected to park in designated parking spaces only. Handicapped parking spaces and fire lanes are designated and are regulated by NC General Statutes. Restricted use parking spaces include Wounded Warrior, Promise Scholar Faculty, and Dental Clinic spaces. Contact the Office of Safety and Security for information related to restricted use parking spaces.

Vehicles parked in areas not designated for parking may be ticketed and/or towed at vehicle owner expense. CVCC will not be responsible for vehicles damaged while parked on the school premises, during towage, or while being stored.

In order to maintain open fire lanes and clear roadways in case of emergency, the Board of Trustees of CVCC has established parking regulations. Student and visitor parking shall be in the lots so designated. Students, faculty and staff parking will be unreserved and will require a parking hang tag which will be issued during registration.

Tutoring

Students who are making grades of 80 or below or who are retaking a class are eligible for free tutorial help. Students interested in either using the Learning Assistance Center or receiving a tutor should contact the Learning Assistance Center for additional information. [Https://www.cvcc.edu/LAC](https://www.cvcc.edu/LAC)

Veterans Affairs

Special needs and information about policies and procedures for student veterans and dependents using VA benefits are provided by the School Certifying Official (SCO) in the Financial Aid Department and the local county VA offices. Students desiring to use VA Educational benefits should come to Student Services for CVCC program information and admissions requirements. Students must be accepted in a VA approved program of study and meet all institutional and VA requirements before certification can be made to the Veterans Administration. The specific application for benefits can be made on line at <https://www.cvcc.edu/veterans>. Contact the SCO in Financial Aid for additional information regarding benefits, eligibility, policies, and procedures.

Military Veterans, currently enrolled as students and utilizing VA education benefits, may receive the earliest Priority Date based on their official course registration date and class availability. These students must contact the SCO for their eligibility for priority enrollment. Most VA students will be responsible for the payment of all tuition, fees, and books at registration. Recipients of Chapter 33, Post 9/11 GI Bill, benefits may have tuition and fees deferred, but must contact the SCO directly and submit the necessary paperwork. Tuition and fee payments for Chapter 33 recipients are paid by the VA directly to the institution. All other types of VA payments are paid directly to the student after classes have begun. It may take sixty days or more for payments to arrive. Students are encouraged to contact the SCO early to help avoid delays with payments.

Only courses required in one specific program of study are eligible to be certified for VA educational benefits.

The SCO in Financial Aid is responsible for (1) maintaining the appropriate records regarding veteran enrollment and progress within an educational program, and (2) notifying the Veterans Administration of any change affecting the recipient's enrollment status. Students receiving VA benefits must immediately notify the SCO in Financial Aid of any change in their status to include dropping or adding classes, program changes, or new names and addresses. CVCC Student Services representatives are not employees of the Veterans Administration and are not responsible for VA policies, rules, or public laws which determine eligibility or payments. Failure to comply with requests for documentation from the SCO(s) at CVCC may result in processing delays for benefits. Students using VA benefits must comply with all college satisfactory academic progress guidelines and remain in good academic standing to continue receiving benefits. For additional information, see the VA web page at: <https://www.cvcc.edu/veterans>.

3.14.A VA Educational Benefits

CVCC provides VA educational benefit services in accordance with guidelines established by the United States Veterans Administration. Official high school or adult secondary credentials and transcripts from all previously attended post-secondary institutions are required to be on file before the student's schedule can be certified to the VA for benefit payments. No veteran may be certified for VA educational benefits until all admissions requirements have been met and an unconditional acceptance to a program of study has been granted.

In accordance with Title 38 United States Code, section 3679(e): Covered individuals under the Chapter 31-Vocational Rehabilitation and Chapter 33-Post 9/11 GI Bill programs will be permitted to attend or participate in their course of education during the period beginning on the date the individual provides to CVCC a VA Certificate of Eligibility (for Chapter 33) for entitlement to educational assistance or a VA Form 28-1905 (for Vocational Rehabilitation). Attendance or class participation will end on the earlier of the following dates: 1) the date on which payment is made from the VA to the institution, or 2) 90 days after the date the institution certified tuition and fees following receipt of the Certificate of Eligibility or VA Form 28-1905. The Certificate of Eligibility or VA Form 28-1905 must be received by the School Certifying Official (SCO) no later than the first day of a course of education for the above statements to be in effect.

CVCC will not impose any penalty or late fees, deny access to classes, libraries, or other institutional facilities, or require covered individuals to borrow funds to cover financial obligations owed to the institution due to the delayed disbursement of funding from the VA under Chapter 31 or 33.

Failure on the student's part to pay for any difference between the amount of the student's financial obligation and the actual amount of the VA education benefit disbursement may incur penalties and/or deny access to classes or other institutional facilities. The student is responsible for covering expenses beyond what the VA will cover.

Students receiving Chapter 31-Veterans readiness & Employment (VR&E) benefits or Chapter 33-Post 9/11 benefits are to work with the SCO on campus to ensure that all proper documentation has been received. Students must also submit a request to the SCO to utilize VA educational benefits.

3.14 Scholarships, Financial Aid, and VA Educational Benefits Procedure can be viewed at: www.cvcc.edu/About_Us/Procedures/Student-Services.cfm#3.14

Work Based Learning (WBL)

The work-based learning studies shall be integrated with the credit/curriculum programs of studies under the supervision of the Chief Academic Officer or designee. Operation of the program shall be in accordance with the policies and procedures stipulated by the North Carolina Community College System.

Work Based Learning (WBL) is a curriculum (credit) course that can provide on-the-job work experience for students enrolled in eligible programs. Students work in jobs related to their program of study and receive course credit for the learning that takes place on the job. Not all programs have WBL as an option and there are requirements that students must meet prior to enrolling in a WBL course. WBL options for eligible programs are listed in each program of study. Interested students may contact the Center for Workforce Connectivity and Talent Development at 828-327-7000, ext. 4812, or their advisor.

Recipients of VA Education Benefits may participate in the work-based learning program if otherwise eligible. Educational benefits will be paid by the Veterans Administration for work-based learning courses if all requirements are met.

Writing Center

Learning Skills Specialists are available in the Writing Center located in the Cuyler A. Dunbar Building, Room 234, to assist students with sentence structure, paragraph development, grammar problems, and organization. Computers are available for student use for composing or revising papers. The resources for research are conveniently located nearby in the library. Also, the Writing Center offers an online writing assistance program called E-Help for distance learners. This service provides students the opportunity to submit written assignments for review by an online tutor Monday through Thursday. Link to Writing Center: <https://www.cvcc.edu/writing-center>

Student Code of Conduct

Policy 1.1: Compliance with CVCC Policies

Students and employees of Catawba Valley Community College (CVCC) are expected to comply with all CVCC policies. Failure to comply may result in disciplinary action. CVCC Policies will be published in appropriate documents and formats, and will be made available to students, faculty, staff, and administration.

Policy 3.18: Student Conduct

Policy 3.18: Student Code of Conduct applies to all student behavior issues other than issues covered by Policy 3.18.2: Title IX Violations: Sexual Violence, Sexual or Gender-based Harassment, and Other Sexual Misconduct

Catawba Valley Community College (CVCC) students are expected to conduct themselves in accordance with the values of the Valley Way:

- Student Success
- Accountability
- Inclusivity
- Lifelong Learning
- Respect
- Integrity
- Teamwork

At CVCC, these values inform accepted standards of scholarship and conduct. All CVCC students and staff, regardless of the location or delivery method of their services and classes, have the right to a safe, peaceful, and honest educational environment. Therefore, when in the judgment of CVCC college personnel, a student's conduct disrupts or threatens to disrupt the College community, appropriate disciplinary action will be taken to restore and protect the safety, peace, and integrity of the community.

The purpose of the Student Code of Conduct is not to restrict student freedom, but to protect the rights of all students in their academic pursuits. All College employees have the authority to take immediate actions and begin disciplinary proceedings for violations of the Student Code of Conduct.

As stated in Policy 1.1: Compliance with CVCC Policies, CVCC students are expected to comply with all CVCC policies. Failure to comply may result in disciplinary action. Students are prohibited from engaging in any conduct which materially and adversely affects the educational process, including, but not limited to, the following:

1. Interruption or in any manner interfering with normal CVCC operations. Examples of violations to normal CVCC operations include, but are not limited to, the following:
 - a. Disruption or obstruction of teaching, research, administration, disciplinary proceedings, or other on- or off-campus college-authorized activities;
 - b. Mental or physical abuse of any person on College premises or at College-sponsored or College-supervised functions, including verbal or physical actions which threaten or endanger the health or safety of any such persons or which promote hatred or racial prejudice;
 - c. Participating in conduct that disturbs peace and order of the College. This includes, but is not limited to, yelling, screaming, or talking in an unnecessary or unreasonably loud voice, or using any device which produces loud and/or disruptive noises.
 - d. The use of defamatory speech or like expressive behavior; or the use of any speech or behavior implying a physical threat or likely

to provoke violence or retaliation in person or via electronic means;

- e. Violation of state or College regulations regarding the operation and parking of motor vehicles. See Policy 4.9: Parking Policy;
 - f. Fiscal irresponsibility, such as failure to pay College charges, fees, defaulted payments, levied fines, failure to repay college-funded loans, or fraudulent financial transactions with the College;
 - g. Forgery, altering, or misusing College documents, records, or instruments of identification with intent to deceive;
 - h. Tampering with a fire alarm or other safety equipment belonging to the College, except with reasonable belief in the need for such alarm or equipment;
 - i. Gambling on the College campus or at College-sponsored functions off-campus;
 - j. Participation in gatherings or demonstrations that interfere with another's ability to freely access College facilities or property. Students shall not disrupt or interfere with the College's educational processes or College functions. Students shall comply with any instruction of a College employee to leave the scene of a disruptive gathering or demonstration;
 - k. Violating the terms of any disciplinary sanction or violating any College regulation during the period of disciplinary sanction;
 - l. Trespassing, including unauthorized entry or presence on the property of the College or in a College facility or any portion thereof to which entry or presence has been restricted; unauthorized presence in a College facility during closed hours;
 - m. Violation of any College policy, prohibited behavior, local, state, or federal criminal law on College premises adversely affecting the College community's pursuit of its proper educational purposes.
 - n. Failure to comply with lawful instructions of College officials acting in performance of their duties.
2. Destruction, damage, or misuse of CVCC equipment, facilities, or property. This includes, but is not limited to, the acceptable use of technology. See Policy 4.18: Technology Resources (Acceptable Use) at http://www.cvcc.edu/About_Us/Policies/cvcc-operations-part-2.cfm
 3. Physical abuse of another person in the CVCC community;
 4. Attempted or actual theft of, misuse of, or intentional damage to College property; or theft of or damage to property of a member of the College community or a campus visitor on college premises or at college functions;

5. Participation in hazing-defined as an act which endangers the mental or physical health or safety of a student, or which destroys or removes public or private property, for the purpose of initiation, admission into, affiliation with or as a condition for continued membership in a group or organization. The express implied consent of the victim is not a defense. Apathy or acquiescence in the presence of hazing are not neutral acts; they are a violation of this rule.
6. Plagiarism and other forms of academic cheating. See Policy 2.16: Academic Honesty at <https://cvcc.acalogadmin.com/preview/content.php?cattoid=10&navoid=437&preview#policy-2-16-academic-honesty>.
7. Sexual harassment or Unlawful Discrimination. See Policy 3.18.2: Discrimination and Harassment Policy. (Need a link)
8. Violation of CVCC policies including those regarding the use and/or possession of
 - a. firearms or other weapons as described in Policy 4.10: Firearms/Weapons Possession;
 - b. alcoholic beverages as described in Policy 4.11: Alcoholic Beverages;
 - c. illegal drugs or controlled substances as described in Policy 4.12: Illegal Drugs/Controlled Substances; and/or
 - d. tobacco products as described in Policy 4.13: Tobacco Products.
9. Making a threat to the safety of the CVCC community; or
10. Commission of any other action which, in the opinion of the administration or faculty, may be contrary to the best interest of the CVCC community.

Policy 3.18.1: Student Behavior Sanctions Policy outlines the sanctions that may be imposed on a student who violates Policy 3.18: Student Code of Conduct.

Policy 3.18.1 Student Behavior Sanctions

Policy 3.18.1 applies to student behavior sanctions that may be imposed for violations of Policy 3.18: Student Code of Conduct. Violations of Policy 3.18.2: Sexual Violence, Sexual Harassment, and Other Sexual Misconduct (Title IX Violations) are governed by that policy and handled under Procedure 3.18.2: Reporting and Response to Sexual Violence, Sexual or Gender-based Harassment, and Other Sexual Misconduct (Title IX Violations).

Student behavior sanctions are designed to educate students, guide future decision-making and deter further inappropriate behavior. Students found in violation of the Student Code of Conduct will be challenged to evaluate their behavior and reflect on their actions and the effects on the campus community. The following behavior sanctions are examples of those that may be imposed for violation of the Student Code of Conduct.

Any faculty or staff may use discretion to give a sanction of Warning, General Probation, or Interim (Emergency)

Suspension to any student in violation of the Student Code of Conduct and who is disrupting the educational process.

Warning: A written communication which gives official notice to the student that a violation of the Student Code of Conduct has occurred and that any subsequent violation of the Student Code of Conduct will carry heavier penalties because of this prior infraction.

General Probation: An individual may be placed on General Probation when involved in a minor disciplinary offense. General Probation has two (2) important implications: the individual is given a chance to show capability and willingness to observe the Student Code of Conduct without further penalty, and if the student errs again, further action will be taken.

Interim (Emergency) Suspension: Exclusion from class and/or other privileges or activities for conduct that poses a threat to the health or well-being of any member of the academic community or activities of the College as set forth in the notice, until a final decision has been made concerning the alleged violation.

Faculty will submit the "Warning, General Probation, Interim (Emergency) Suspension Form" to their immediate supervisor to document this behavior sanction. This Form is found on the Portal or in the Office of the Dean of Access, Development, and Success.

Faculty have the authority to impose the Loss of Academic Credit or Grade Sanction in accordance with Policy 2.16: Academic Honesty Policy.

Loss of Academic Credit or Grade: Imposed as a result of violating Policy 2.16: Academic Honesty. Sanctions may include the requirement to redo the assignment, loss of credit for the assignment, or loss of credit for the class.

The President, Vice Presidents, and the Dean of the School of Access, Development, and Success (ADS) have the authority to impose the following sanctions:

Restrictive Probation: Restrictive Probation results in loss of good standing and becomes a matter of record. Restrictive conditions may limit activity in the College community. Generally, the student will not be eligible for initiation into any local or national organization, and may not receive any College award or other honorary recognition. The student may not occupy a position of leadership or responsibility with any College or student organization, publications, or activity.

Suspension: Exclusion from class(es), and/or all privileges or activities of the College for a specific period of time. This sanction is reserved for those offenses warranting discipline more severe than probation, or for repeated misconduct. Students who receive this sanction must get specific written permission from the Dean of ADS before returning to campus. This sanction shall be recorded on the student transcript in accordance with the State Board of Community Colleges Code 1D SBCCC 400.2 (d).

Restitution: Paying for damaging, misusing, destroying, or losing property belonging to the College, College personnel, or students.

Withholding transcript, diploma, or right to register or participate in commencement ceremonies: Imposed when financial obligations are not met. (Students will not be allowed to register until all financial obligations are met.)

Campus Service: Assigning a specific campus service project and number of contact work hours to be completed for a designated department on the College campus.

Group Probation: This is given to a College club or other organized group for a specific period of time. If group violations are repeated during the term of the sanction, the charter may be revoked or activities restricted.

Group Restriction: Removing College recognition during the semester in which the violation occurred or for a longer period (usually not more than one additional semester). While under restriction, the group may not seek or add members, hold or sponsor events in the College community, or engage in other activities as specified.

Group Charter Revocation: Removal of College recognition for a group, club, society, or other organizations for a minimum of two years. Re-charter after that time must be approved by the College President.

Permanent expulsion of a student from CVCC must be authorized by the President.

Expulsion: Permanently dismissing a student from campus. Expulsion is the most severe disciplinary sanction and must be authorized by the College President. The student loses his/her student status and may not return to campus unless authorized by the College President. Expelled students are liable for all tuition and fees. This sanction shall be recorded on the student transcript in accordance with the [State Board of Community Colleges Code 1D SBCCC 400.2 \(d\)](#).

Suspensions and expulsions for disciplinary reasons shall be recorded in the student's permanent record and on the transcript in accordance with the [State Board of Community Colleges Code 1D SBCCC 400.2 \(d\)](#).

Students are entitled to appeal any disciplinary action in accordance with CVCC's [Policy 3.19: Student Due Process](#).

Procedure 3.18.1: Student Behavior Sanctions

Students who violate [Policy 3.18: Student Code of Conduct](#) at Catawba Valley Community College (CVCC) are subject to the disciplinary sanctions of the College. If the student's behavior violates both the law and College regulations, the College may take disciplinary action independent of that taken by legal authorities. Any student, faculty, or staff may file charges against any student or student organization for violations of [Policy 3.18: Student Code of Conduct](#).

1. Charges/Notification

Complete the Student Conduct Violation Report found on the Portal, or a printed form may be obtained in the Office of the Dean of the School of Access, Development, and Success (ADS) in the Student Services Building.

Submit the completed Student Conduct Violation Report to the Office of the Dean of the School of ADS within two (2) working days of the incident. This report shall contain the following information:

Name of the student(s) being charged

The alleged specific violation(s) of the Code of Conduct

The time, place, and date of the violation

Names of any person(s) directly involved and/or witness(es) to the alleged violation

Any action taken that relates to the alleged violation

Desired solutions to the violation

The Dean of the School of ADS will notify the student(s) of the charge(s) in writing within two (2) working days of receipt of the Student Conduct Violation Report. Notification will be via CVCC student email, certified mail to the address in the student database, or in person. Notification will include the following:

Name of the student(s) being charged

The alleged specific violation(s) of the Code of Conduct

The time, place, and date of the violation

Names of any person(s) directly involved and/or witness(es) to the alleged violation

Any action taken that relates to the alleged violation

The student(s) may meet with the Dean of the School of ADS and/or provide a written statement regarding the alleged violation within two (2) working days after receiving notification of the charge(s). If no communication is made with the Dean of the School of ADS within the time limit, the sanction decision will be based on information available. Any request for a reasonable extension must be made to the Dean of the School of ADS in writing. If an extension is granted, the time frame for the Investigation/Decision will be adjusted accordingly.

2. Investigation and Decision

Within five (5) working days after the notification to the student(s) about the alleged violation, the Dean of the School of ADS will complete an investigation of the charge(s). The investigation may include interviewing witnesses, reviewing written statements, consulting other College officials, and other appropriate methods to make an informed decision. The decision may be to:

Drop the charge(s)

Impose a disciplinary sanction consistent with those listed in Policy 3.18.1: Student Behavior Sanctions

Refer the student to a College office or community agency for services

3. Sanction

Within two (2) working days after the decision has been made, the Dean of the School of ADS will notify the student(s) with the decision about the behavior sanction along with instructions to appeal the decision (Procedure 3.19: Student Due Process) in writing. Notification will be via CVCC student email, certified mail to the address in the student database, or in person.

4. Appeals

Any student who disagrees with the decision of the disciplinary sanction may appeal this decision according to Policy 3.19: Student Due Process.

Student Advocate: Upon the student's request, the Director of Admission or designee will assist the student with the steps required to follow the process, including providing the CVCC Student Grievance Form and the Student Grievance Committee Review Form.

Policy 3.18.2: Sexual Harassment or Unlawful Discrimination

Catawba Valley Community College is fully committed to providing a learning and working environment that is free from prohibited discrimination. The College does not practice or condone discrimination based on race, color, national origin, religion, sex, sexual orientation, gender, gender identity or expression, pregnancy, disability, genetic information, age, political affiliation or veterans' status in the administration or in any of its education programs and activities and employment practices.

For issues related to sexual harassment, assault and violence, see Procedure 3.18.2: Sexual Harassment Procedure.

For issues related to all other types of unlawful discrimination and harassment, see Procedure 3.18.3: Unlawful Discrimination and Harassment Procedure.

Adopted:

Legal Reference: Title VII of the Civil Rights Act of 1964; The Americans with Disabilities Act of 1990; Section 504 of the Rehabilitation Act of 1973; The Age Discrimination in Employment Act of 1967; Equal Pay Act of 1963; Title II of the Genetic Information Nondiscrimination Act of 2008; Title IX of the Higher Education Amendments of 1972; Lily Ledbetter Act; NC Equal Employment Practices Act; NC Retaliatory Employment Discrimination Act; Jeanne Clery Disclosure Act of Campus Security Policy and Campus Statistic Act of 1990; Campus Sexual Assault Victim's Bill of Rights of 1992; Violence Against Women Act of 1994; Campus Sexual Violence Elimination Act of 2013.

Updated June 2020

3.18.2: Sexual Harassment Procedure

Catawba Valley Community College strives to make its campuses inclusive and a safe and welcoming learning environment for all members of the College community. Pursuant to multiple federal and state laws and administrative regulations and pursuant to College policy, the College prohibits discrimination in its education programs and activities based on sex.

Title IX is a comprehensive federal law that prohibits discrimination on the basis of sex in any federally funded education program or activity. Under Title IX, discrimination on the basis of sex includes quid pro quo harassment; sexual harassment; and sexual assault, stalking, dating or domestic violence (collectively referred to as "sexual harassment"). The College's Title IX Coordinator has oversight responsibility for handling sexual harassment complaints and for identifying and addressing any patterns and/or systemic problems involving sexual discrimination or harassment.

All allegations involving sexual harassment should be directed to the College's Title IX Coordinator and addressed under these procedures. For other complaints of discrimination and harassment not related to sexual harassment, refer to Discrimination and Harassment Procedure 3.18.3

1. DEFINITIONS

The following definitions shall apply to this procedure. The definitions are not intended to operate as speech codes, promote content and viewpoint discrimination or suppress minority viewpoints in the academic setting. Indeed, just because a student's speech or expression is deemed offensive by others does not mean it constitutes discrimination or harassment.

In applying these definitions, College administrators shall view the speech or expression in its context and totality and shall apply the following standard: the alleged victim subjectively views the conduct as discrimination or harassment and that the conduct is objectively severe or pervasive enough that a reasonable person would agree that the conduct is discriminatory or harassing.

1. **Actual Knowledge** – notice of sexual harassment or allegations of sexual harassment by the Title IX Coordinator or any College official who has authority to institute corrective measures on behalf of the College. Actual knowledge is not met when the only College official with actual knowledge is a Respondent.
2. **Complainant** – an individual who is alleged to be the victim of conduct that could constitute sexual harassment.
3. **Consent** – explicit approval to engage in sexual activity demonstrated by clear actions or words. This decision must be made freely and actively by all participants. Non-verbal communication, silence, passivity or lack of active resistance does not imply consent. In addition, previous participation in sexual activity does not indicate current consent to participate and consent to one

- form of sexual activity does not imply consent to other forms of sexual activity. Consent has not been obtained in situations where the individual: i) is forced, pressured, manipulated or has reasonable fear that they will be injured if they do not submit to the act; ii) is incapable of giving consent or is prevented from resisting due to physical or mental incapacity (including being under the influence of drugs or alcohol); or iii) has a mental or physical disability which inhibits his/her ability to give consent to sexual activity.
4. **Dating Violence** – crimes of violence against a person with whom the person has or had a social relationship or a romantic or intimate relationship.
 5. **Domestic Violence** – crimes of violence against a current or former spouse or intimate partner; a person with whom the individual shares a child in common; a person with whom the individual cohabitates or has cohabitated as a spouse or intimate partner; a person similarly situated to the individual as a spouse under local domestic laws; or any other person who is protected under local domestic laws of the jurisdiction.
 6. **Education Program or Activity** – for purposes of these Procedures, this means any locations, events, or circumstances over which the College exercised substantial control over both the Respondent(s) and the context in which the alleged sexual harassment occurs. It also means any building owned or controlled by a student organization that is officially recognized by the College.
 7. **Formal Complaint** – a document filed by a Complainant or signed by the Title IX Coordinator alleging sexual harassment against a Respondent and requesting the College investigate the allegation(s). A Formal Complaint initiates a formal grievance process in which parties are entitled to due process protections.
 8. **Informal Resolution** – a resolution reached regarding an allegation of sexual harassment without the filing of a Formal Complaint. Informal Resolution may include mediation, facilitated dialogue, conflict coaching, restorative justice, or other models of alternative dispute resolution. Informal Resolution cannot be used for a student's allegation of sexual harassment against a College employee.
 9. **Respondent** – an individual who has been reported to be the perpetrator of conduct that could constitute sexual harassment.
 10. **Retaliation** – to intimidate, threaten, coerce, or discriminate against any individual for the purpose of interfering with any right or privilege secured by Title IX or because the individual has made a report or complaint, testified, assisted, participated, or refused to participate in any manner in an investigation, proceeding, or hearing under these Procedures.
 11. **Sexual Assault** – an offense that meets the definition of rape, fondling, incest, or statutory rape as used in the FBI's Uniform Crime Reporting system.
 12. **Sexual Harassment** – *quid pro quo* harassment; unwelcome conduct that a reasonable person would find so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the College's education program or activity, including conduct based on sex stereotyping; or any instance of sexual assault, dating violence, domestic violence, or stalking. Quid pro quo harassment is a person having power or authority over another and conditioning an educational or employment benefit or service or access to receiving the educational or employment benefit or service upon a person's participation in unwelcome sexual conduct.
 13. **Stalking** – engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for his/her safety or the safety of others or suffer substantial emotional distress.
 14. **Standard of Evidence** – the College uses the preponderance of the evidence as the standard for proof of whether a violation of this policy has occurred. In the student due process hearing and employee grievance process, legal terms like "guilt", "innocence" and "burden of proof" are not applicable. Student and employee due process hearings are conducted to take into account the totality of all evidence available from all relevant sources. The College will find the Respondent either "responsible" or "not responsible" for violating these Procedures.
 15. **Supportive Measures** – individualized services reasonably available that are nonpunitive, non-disciplinary, and not unreasonably burdensome to the other party that are designed to ensure equal educational access, protect safety, or deter sexual harassment. Examples of support measures are counseling, extensions of deadlines or other course related adjustments, modifications of work or class schedules, campus escort services, mutual restrictions on contact between the parties, leaves of absences, increased security and monitoring of certain areas of the College, and other similar measures.
 16. **Title IX Coordinator** – for purposes of these Procedures, the Title IX Coordinator refers to Cynthia L. Coulter, Dean of the School of Access, Development, and Success. The Title IX Coordinator's office is in Student Services. The phone number is (828) 327.7000 extension 4143 and the email is ccoulter@cvcc.edu.
1. **SCOPE OF APPLICABILITY**
 1. These Procedures apply to the conduct of and protect:
 1. College students and applicants for admission into the College

2. College employees and applicants for employment
 3. College student organizations
 4. Third parties participating in a College education program or activity
2. These Procedures apply to conduct that occurs in a College Education Program or Activity located within the United States and of which the College has actual knowledge.

2. REPORTING

1. **Reporting to Local Law Enforcement**

Individuals may report sexual harassment directly to local law enforcement agencies by dialing 911. Individuals who make a criminal allegation may also choose to pursue the College's grievance procedure simultaneously. A criminal investigation into the matter does not release the College from its obligation to conduct its own investigation (nor is a criminal investigation determinative of whether sexual harassment has occurred). However, the College's investigation may be delayed temporarily while the criminal investigators are gathering evidence. In the event of such a delay, the College must make available supportive measures when necessary to protect the alleged Complainant and/or the College community.

Individuals may choose not to report alleged sexual harassment to law enforcement authorities. The College respects and supports individuals' decisions regarding reporting; nevertheless, the College may notify appropriate law enforcement authorities if legally required or warranted by the nature of the allegations.

2. **Reporting to College Officials**

The College's Title IX Coordinator oversees compliance with these Procedures and Title IX regulations. Questions about these Procedures should be directed to the Title IX Coordinator. Anyone wishing to make a report relating to sexual harassment may do so by reporting the concern to the College's Title IX Coordinator in person, by mail, by telephone, by email, or by any other means that results in the Title IX Coordinator receiving the person's verbal or written report of alleged sexual harassment.

3. GRIEVANCE PROCEDURES

1. Scope

1. Use of these grievance procedures applies to reports alleging sexual harassment carried out by employees, students, or third parties.
2. All reports of sexual harassment are taken seriously. At the same time, those accused of sexual harassment are presumed "not responsible" throughout this grievance procedure.

2. Initial College Response and Assessment

1. After receiving a report of sexual harassment, the Title IX Coordinator takes immediate and appropriate steps to:
 - a. Communicate with the individual who reported the alleged conduct;
 - b. Implement supportive measures to eliminate and prevent the recurrence of sex harassment, deter retaliation, remedy the effects of sex harassment, and provide due process rights during a College investigation;
 - c. Provide the individual with a copy of this Policy and Procedure; and
 - d. Determine whether the alleged conduct, as described by the reporting party, falls within the scope of this policy and if so, initiate the investigation and resolution procedures outlined below.
 - e. The Title IX Coordinator may delegate the authority to take some or all of these steps to a Deputy Title IX Coordinator. The President has the authority to designate the Title IX Coordinator and the Deputy Title IX Coordinator(s).
2. The Title IX Coordinator must administratively close a report or complaint of sexual harassment if after an initial assessment:
 - a. The allegations as stated do not constitute a violation of the Policy and Procedure, even if proven; or
 - b. The alleged sexual harassment did not occur in the College's Education Program or Activity or did not occur in the United States.

- c. The Title IX Coordinator will notify the parties if a report or complaint of sexual harassment is closed under this section, including the reason(s) for closure, and direct the parties to the appropriate College office or department to resolve the report or complaint. All parties may appeal the Title IX Coordinator's dismissal of a Formal Complaint under this section by using the appeal procedures in Section VI, below.
 - 3. The Title IX Coordinator may administratively close a report or complaint of sexual harassment if:
 - a. The Complainant, at any time, requests withdrawal of the report or complaint;
 - b. The Respondent is no longer enrolled or employed by the College; or
 - c. The College is prevented from gathering evidence sufficient to reach a determination of responsibility.
 - d. The Title IX Coordinator will notify the parties if a report or complaint of sexual harassment is closed under this section, including the reason(s) for closure, and direct the parties to the appropriate College office or department to resolve the report or complaint. All parties may appeal the Title IX Coordinator's dismissal of a Formal Complaint under this section by using the appeal procedures in Section VI, below.
 - 4. Regardless of when alleged sexual harassment is reported, a Complainant must be participating in or attempting to participate in the College's education program or activity for a Formal Complaint to be filed.
3. Informal Resolution
- 1. Any party may request the College facilitate an informal resolution to a sexual harassment complaint at any time after the filing of a Formal Complaint. The Title IX Coordinator may offer the parties the opportunity for informal resolution, too.
 - a. Upon a request for informal resolution, the Title IX Coordinator determines whether informal resolution is appropriate based on the facts and circumstances of the case. The Title IX Coordinator ensures that any proposed informal resolution is consistent with the College's obligations to prevent and redress sexual harassment.
 - b. A student's allegations of sexual harassment against a College employee are not eligible for informal resolution.
 - c. The Title IX Coordinator provides the parties with written notice of proceeding with an informal resolution, including the allegations of sexual harassment, the requirements of the informal resolution process, and potential outcomes resulting from participating in the informal resolution process.
 - d. The Title IX Coordinator also designates an independent, neutral person to facilitate the informal resolution.
2. Informal resolution is voluntary.
- a. The Complainant and Respondent must provide written consent for informal resolution to take place.
 - b. Any party has a right to end the informal resolution process at any time prior to agreeing to a resolution and begin or continue the formal investigation and grievance process.
3. Informal resolution concludes the matter only when all parties have signed a written agreement that confirms resolution of the allegations.
- a. The resolution agreement must include a waiver of the parties' right to have a formal hearing on the allegations that have been informally resolved.
 - b. Parties are prohibited from revoking or appealing a resolution agreement. Should the Respondent violate the terms of an informal resolution agreement, such violation will subject the Respondent to an investigation and the formal grievance process contained in this procedure.

4. If a resolution agreement is not reached, the College will continue with a formal investigation.

4. Investigations

1. The goal of a formal investigation is to reach a determination as to whether a Respondent has violated one or more College policies prohibiting sexual harassment and if so, remedy the effects of a violation.
 - a. The Title IX Coordinator may include possible violations of other College policies that contributed to, arose from, or are otherwise related to alleged violations of this Policy and Procedure in the scope of an investigation.
 - b. The Title IX Coordinator gives written notice to the Complainant and Respondent of the investigation, providing sufficient details to allow the parties to respond and prepare for initial interviews, including the identity of the parties involved (if known), the conduct alleged to be sexual harassment, the date and location of alleged incidents (if known), a statement that the Respondent is presumed not responsible and a determination of responsibility is made at the conclusion of the process, information regarding the parties' right to an advisor and the right to review evidence, and notice that the College prohibits knowingly making false statements or submitting false information during the grievance process.
 - c. The Title IX Coordinator designates an investigator to investigate the allegations of sexual harassment.
2. Parties to an investigation can expect a prompt, thorough, and equitable investigation of complaints, including the opportunity for parties to ask questions, present witnesses and provide information regarding the allegations.
3. Parties and witnesses should cooperate in the investigation process to the extent required by law and this policy.
4. The standard of proof used in investigations is the preponderance of the evidence. It is the College's responsibility to establish the

standard of proof and gather evidence during investigations.

5. The College aims to bring all investigations to a resolution within thirty (30) business days from the date the Title IX Coordinator determines an investigation will commence.
 - a. Extensions of timeframe for good cause are allowed, so long as written notice and the reason for the delay is provided to the parties. Good cause includes:
 1. The complexity and/or number of the allegations;
 2. The severity and extent of the alleged misconduct;
 3. The number of parties, witnesses, and other types of evidence involved;
 4. The availability of the parties, witnesses, and evidence;
 5. A request by a party to delay an investigation;
 6. The effect of a concurrent criminal investigation or proceeding;
 7. Intervening holidays, College breaks, or other closures;
 8. Good faith efforts to reach a resolution; or
 9. Other unforeseen circumstances.
 - b. Investigations typically include interviews with the Complainant, the Respondent, and any witnesses, and the objective evaluation of any physical, documentary, or other evidence as appropriate and available. The College will give the Complainant and the Respondent written notice of any interview, meeting, or hearing at which a party is invited or expected to participate.
 - c. The Title IX Coordinator will inform the Complainant and Respondent at regular intervals of the status of its investigation.
 - d. The College may suspend or place on administrative leave a student or employee, pending the completion of an investigation and resolution, when the College performs an individualized safety and risk analysis and determines the person poses an immediate threat to the physical health or safety of any member(s) of the College community.
 1. The Title IX Coordinator may recommend to the appropriate College official to implement or stay an interim suspension of a student or employee and the conditions and duration of such suspension or leave.
 2. In all cases in which an interim suspension or administrative leave is imposed, the student or employee shall be given notice and an opportunity to challenge the removal decision immediately following the removal.
 3. Violation of an interim suspension under this Procedure is grounds for expulsion or termination.
6. Interviews conducted as part of an investigation under this Procedure may be recorded by the College. Recordings not authorized by the College are prohibited.
7. The Complainant and Respondent have the right to be accompanied by an advisor of their choosing during all stages of an investigation.
 - a. A party may elect to change advisors during the process.
 - b. All advisors are subject to the same rules:
 1. During the investigation, the advisor's role is limited to providing advice, guidance, and support to the Complainant or Respondent. An advisor is not permitted to act as a participant or advocate during the investigative process.
 2. Advisors are expected to maintain the privacy of the records shared with them.

3. Advisors are expected to refrain from interfering with investigations.
 4. Any advisor who oversteps their role or interferes during an investigation process will be warned once. If the advisor continues to disrupt or otherwise fails to respect the limits of the advisor role, the advisor will be asked to leave. The Title IX Coordinator determines whether the advisor may return or should be replaced by a different advisor.
8. Prior to finalizing a report, the investigator provides all parties an equal opportunity to review any evidence obtained as part of the investigation that is directly related to the allegations raised in the Formal Complaint, including evidence upon which the College does not intend to rely.
- a. The Complainant and Respondent may submit a written response to the evidence within ten days after receipt of the evidence.
 1. Responses must be submitted to the investigator via email, mail, or hand delivery by 5:00 p.m. eastern standard time on the date responses are due.
 2. Responses may not exceed 10 double-spaced pages on 8.5x11 paper with one-inch margins and 12-point font.
 - b. The investigator considers any responses received from the parties and conducts any further investigation necessary or appropriate.
9. Following an investigation and at least 10 days prior to a grievance hearing, the investigator submits an investigative report to the parties that fairly summarizes relevant evidence. The report includes a summary of the allegations; a summary of the response; a summary of the investigative steps taken to verify the allegations and response; and a summary of the evidence relevant to a determination of responsibility.

4. GRIEVANCE HEARINGS

At least 10 days after the issuance of an investigation report, the College must hold a live hearing in front of a decision-maker to determine responsibility of a Respondent. The decision-maker may not be the Title IX Coordinator or the investigator(s). A "live hearing" means either in person or virtually. The following hearing rules apply:

1. All parties must be able to see and hear the questioning of parties and witnesses.
2. Any party may request a virtual hearing. If requested, the College will provide a virtual hearing.
3. All parties have an equal opportunity to present witnesses, including fact and expert witnesses.
4. The parties' advisors are permitted to cross-examine the parties and any witnesses.
 1. The parties are prohibited from directly conducting cross-examination. Cross examination must be conducted by a party's advisor.
 2. The decision-maker determines whether questions asked during cross examination are relevant to the determination of responsibility. If the decisionmaker disallows a question, they will explain the basis for their decision at the hearing. Parties and advisors may not challenge a decision-maker's relevancy determinations during the hearing.
 3. Evidence or questions that inquire about the Complainant's sexual predisposition or prior sexual history are prohibited (i.e. rape-shield protections) unless such questions and evidence are offered to prove that someone other than the Respondent committed the conduct alleged by the Complainant, or if the questions and evidence concern specific incidents of the Complainant's prior sexual behavior with respect to the Respondent and are offered to prove consent.
 4. The decision-maker may not consider statements of individuals who do not submit to cross-examination in reaching a determination of responsibility
 5. Records with a legally recognized privilege, such as medical treatment records, may not be used unless the individual or entity who holds the privilege waives the privilege. Any waiver must be written and made in advance of a hearing.
 6. If a party does not have an advisor, the College will provide an advisor at no cost

to the party. The advisor may, or may not, be an attorney.

7. Other standard Rules of Evidence do not apply in grievance hearings under these Procedures.
5. The College will provide either an audio recording, audiovisual recording, or transcript of the hearing to all parties.
6. The decision-maker evaluates all relevant evidence and reaches a determination regarding responsibility. The decision-maker issues their final written determination to all parties within ten (10) days of the hearing. The final written determination includes a summary of the allegations; a description of the procedural steps taken by the College to investigate and reach a determination of responsibility; findings of fact supporting the determination; conclusions regarding the application of College policies to the facts; a statement of and rationale for the result as to each allegation, including a determination of responsibility; any disciplinary sanctions the College recommends or imposes; whether remedies designed to restore or preserve equal access to an education program or activity will be provided to the Complainant; and the College's appeal procedures.
7. The following sanctions may be imposed for those who have violated these Procedures:
 1. Students
 - a. Verbal or Written Warning
 - b. Probation
 - c. Administrative withdrawal from a course without refund
 - d. Required Counseling
 - e. No Contact Directive
 - f. Suspension
 - g. Recommendation of Expulsion
 - h. Other consequences deemed appropriate
 2. Employees
 - a. Verbal or Written Warning
 - b. Performance Improvement Plan
 - c. Required Counseling
 - d. Required Training or Education
 - e. Recommendation of Demotion
 - f. Recommendation to Suspend with or without Pay
 - g. Recommendation of Dismissal
 - h. Other consequences deemed appropriate to the specific violation

If the decision-maker is required to make a recommendation for student expulsion or employee suspension, demotion or dismissal, such recommendation will be made to the appropriate College official after the time for appeal has expired. If the decision-maker recommends the Respondent be expelled, suspended, demoted, or dismissed, during the time in which either party has to appeal, the Respondent shall remain on suspension unless otherwise determined by the decision-maker.

1. **APPEALS**

After the decision-maker submits their determination of responsibility to the Complainant and Respondent, all parties are given an equal opportunity to appeal the determination. Appeals may be based only on these grounds:

1. Procedural irregularity that affected the outcome;
2. New evidence that was not reasonably available at the time of the hearing that could affect the outcome; and/or
3. The Title IX Coordinator, investigator, or decision-maker had a bias or conflict of interest that affected the outcome.

Parties must submit any appeal to the President of the College by 5:00 p.m. eastern standard time via email or mail, within ten (10) days of receiving the decision-maker's written determination of responsibility. Appeals may not exceed ten (10) double-spaced pages on 8.5x11 paper with one-inch margins and 12-point font.

The College notifies all parties when an appeal is filed and provides all parties a copy of the appeal and a chance to submit a written statement supporting or challenging the outcome. Parties must submit written statements supporting or challenging the outcome to the President of the College by 5:00 p.m. eastern standard time via email or mail, within two (2) days of receiving a copy of an appeal.

The President shall conduct a review of the record, including the appeal(s) received, any written statements supporting or challenging the outcome, the investigation report, the decision-maker's written determination of responsibility, and any accompanying

evidence prior to issuing a written decision to the Complainant and Respondent that describes the result of the appeal and the rationale for the result.

The President's written decision is final.

2. PROTECTION AGAINST RETALIATION

The College will not in any way retaliate against an individual for the purpose of interfering with any right or privilege secured by Title IX or because the individual has made a report or complaint, testified, assisted, participated, or refused to participate in any manner in an investigation, proceeding, or hearing under these Procedures.

Retaliation is a violation of College policy regardless of whether the underlying allegations are ultimately found to have merit. Reports of retaliation are treated separately from reports or complaints of sexual harassment.

3. PROVIDING FALSE INFORMATION

Any individual who knowingly files a false report or complaint, who knowingly provides false information to College officials or who knowingly misleads College officials involved in the investigation or resolution of a complaint may be subject to disciplinary action, including but not limited to expulsion or employment termination. The College recognizes a determination regarding responsibility alone is not sufficient to conclude a false report or complaint was made.

4. LIMITED IMMUNITY

The College community encourages the reporting of misconduct and crimes. Sometimes, complainants or witnesses are hesitant to report to College officials or participate in resolution processes because they fear they themselves may be accused of various policy violations. It is in the best interest of this College that as many complainants as possible choose to report to College officials and that witnesses come forward to share what they know. To encourage reporting, the College offers sexual harassment complainants and witnesses amnesty from minor policy violations.

5. FERPA (Family Educational Rights and Privacy Act)

A student's personally identifiable information found in a student's education records will be shared only with College employees who need to know to assist with the College's response to sexual harassment.

A student's personally identifiable information found in a student's education records will not be disclosed to third parties unaffiliated with the College unless:

1. The student gives consent;
2. The College must respond to a lawfully issued subpoena or court order; or
3. The College is otherwise required by law to disclose.

6. SUSPENDED PROCEDURES

In cases of emergency or serious misconduct, the College reserves the right to suspend this process and may enact appropriate action for the welfare and safety of the College community.

7. STUDENT AND EMPLOYEE EDUCATION AND ANNUAL TRAINING

The Title IX Coordinator, investigators, decision-makers, and those involved in any informal resolution process shall receive annual trainings on topics including:

1. The definition of sexual harassment for Title IX purposes;
2. The scope of the College's education programs and activities under Title IX;
3. How to conduct an investigation and grievance process including hearings, appeals, and informal resolution processes;
4. How to serve impartially, including avoiding prejudgment of facts at issue, conflicts of interest, and bias;
5. Technology to be used at live hearings;
6. Issues of relevance of questions and evidence, including rape-shield limitations; and
7. Issues of relevance to create an investigative report that fairly summarizes relevant evidence.

All training materials are posted on the College's website.

At the beginning of each semester, the college will inform all new students about a primary prevention and awareness program that promotes awareness of sexual harassment. Students are strongly encouraged to take advantage of this training.

All employees shall be required to participate in a primary prevention and awareness program that promotes awareness of sexual harassment. This program will be held annually at the beginning of each fall semester.

At this annual training, students and employees must receive training in the following areas:

- Information about safe and positive options for bystander intervention skills;
8. What "consent" means with reference to sexual activities;
 9. Risk reduction programs so students recognize and can avoid abusive behaviors or potential attacks;
 10. How and to whom to report an incident regarding discrimination, harassment and sex-based violence;
 11. The importance of preserving physical evidence in a sex-based violent crime; and
 12. Options about the involvement of law enforcement and campus authorities, including the alleged victim's option to: i) notify law enforcement; ii) be assisted by campus authorities in notifying law enforcement; iii) decline to notify law enforcement; and iv) obtain "nocontact" or restraining orders.

Each year, all students and employees will receive an electronic copy of these Procedures sent to their College email address of record. These Procedures will be maintained online in the College's website and a hard copy will be kept on file in the Title IX Coordinator's office.

8. RECORDKEEPING

The College maintains all records of Title IX proceedings and all materials used to train Title IX personnel for seven years.

Adopted:

Legal Reference: Title IX of the Education Amendments Act of 1972, as amended, 20 U.S.C. 1681 et seq. and its implementing regulations; Office for Civil Rights, Q&A on Campus Sexual Misconduct (September 2017); Office for Civil Rights, Dear Colleague Letter on Sexual Harassment (Jan. 25, 2006); Office for Civil Right Office for Civil Rights, Revised Sexual Harassment Guidance (66 Fed. Reg. 5512, Jan. 19, 2001)

Procedure 3.18.3: Unlawful Discrimination and Harassment

Catawba Valley Community College strives to make its campuses inclusive and a safe and welcoming learning environment for all members of the College community. Pursuant to multiple federal and state laws and administrative regulations and pursuant to College policy, the College prohibits discrimination in its activities, services and programs based on race, color, national origin, sex, religion, pregnancy, disability, genetic information, age, political affiliation or veterans' status.

For complaints related to allegations of sexual harassment, sexual assault, or sexual violence, please see Procedure 3.18.2.

I. DEFINITIONS

The following definitions shall apply to this Procedure and shall be collectively referred to herein as "Unlawful Discrimination".

The definitions are not intended to operate as speech codes, promote content and viewpoint discrimination or suppress minority viewpoints in the academic setting. Indeed, just because a student's speech or expression is deemed offensive by others does not mean it constitutes discrimination or harassment.

In applying these definitions, College administrators shall view the speech or expression in its context and totality and shall apply the following standard: the alleged victim subjectively views the conduct as discrimination or harassment and that the conduct is objectively severe or pervasive enough that a reasonable person would agree that the conduct is discriminatory or harassing.

A. Discrimination: any act or failure to act that unreasonably differentiates treatment of others based solely on their Protected Status and is sufficiently serious, based on the perspective of a reasonable person, to unreasonably interfere with or limit the ability of that individual to participate in, access or benefit from the College's programs and activities. Discrimination may be intentional or unintentional.

B. Harassment: a type of Discrimination that happens when verbal, physical, electronic or other behavior based on a person's Protected Status interferes with a person's participation in the College's programs and activities and it either creates an environment that a reasonable person would find hostile, intimidated or abusive or where submitting to or rejecting the conduct is used as the basis for decisions that affect the person's participation in the College's programs and activities. Harassment may include but is not limited to: threatening or intimidating conduct directed at another because of the individual's Protected Status; ethnic slurs, negative stereotypes and hostile acts based on an individual's Protected Status.

C. Protected Status: race, color, national origin, sex, religion, pregnancy, disability, genetic information, age, political affiliation or veterans' status.

D. Standard of Evidence - the College uses the preponderance of the evidence as the standard for proof of whether a violation occurred. In the student due process hearing and employee grievance process, legal terms like "guilt,

"innocence" and "burden of proof" are not applicable. Student and employee due process hearings are conducted to take into account the totality of all evidence available from all relevant sources. The College will find the alleged Perpetrator either "responsible" or "not responsible" for violating these Procedures.

II. STATEMENTS OF PROHIBITION

A. Prohibition of Retaliation.

The College strictly prohibits punishing students or employees for asserting their rights to be free from Unlawful Discrimination. Retaliation against any person participating in connection with a complaint of Unlawful Discrimination is strictly prohibited. Reports of retaliation will be addressed through this procedure and/or other applicable College procedures. Retaliation includes, but is not limited to, any form of intimidation, punitive actions from authority figures or peers, reprisal (acts of vengeance) or harassment. Retaliation is a serious violation and should be reported immediately. The College will take appropriate disciplinary action against any employee or student found to have retaliated against another.

B. Prohibition of Providing False Information.

Any individual who knowingly files a false report or complaint, who knowingly provides false information to College officials, or who intentionally misleads College officials involved in the investigation or resolution of a complaint may be subject to disciplinary action including, but not limited to expulsion or employment termination. The College recognizes that an allegation made in good faith will not be considered false when the evidence does not confirm the allegation(s) of Unlawful Discrimination.

III. REQUESTING ACCOMMODATIONS

A. Students.

Students with disabilities wishing to make a request for reasonable accommodations, auxiliary communication aids or services, or materials in alternative accessible formats should contact the College's Office of Disability Services located in the Learning Assistance Center. Information provided by students is voluntary and strict confidentiality is maintained. All requests for accommodations will be considered following the appropriate federal and state laws.

The College will also provide reasonable accommodation of a student's religious beliefs/practices provided such expression/practice does not create a hostile environment for other students and employees and/or the accommodation does not cause an undue hardship for the College.

B. Employees.

Employees with disabilities wishing to make a request for reasonable accommodations, auxiliary communication aids or services, or materials in alternative accessible formats should contact the College's Office of Human Resources located at VSL 201. Information provided by employees is voluntary and strict confidentiality is maintained.

The College will also provide reasonable accommodation of an employee's religious beliefs/practices provided such expression/practice does not create a hostile environment for other employees and students and/or the accommodation does not cause an undue hardship for the College.

IV. REPORTING OPTIONS

A. Student Complaints.

Any student wishing to make a report relating to Unlawful Discrimination may do so by reporting the concern to the Dean of Access, Development, and Success located at the Student Services Building SS 808.

For Unlawful Discrimination incidents between students and employees, the Dean of Access, Development, and Success will work in partnership with the Director of Human Resources to investigate and resolve the allegations.

B. Employee Complaints.

Any employee wishing to make a report related to Unlawful Discrimination may do so by reported the concern to the College's Director of Human Resources located at VSL 201.

V. INITIAL INVESTIGATION

As these Procedures apply to both students and employees as either the Complainant or the Respondent, the administrator receiving the incident report will determine if the case should be handled by: 1) the Dean of Access, Development, and Success, or designee (student/student); 2) the Director of Human

Resources, or designee (employee/employee); or 3) both (student/employee). For incidents involving students and employees, the College will utilize the process for both the student investigation and the employee investigation sections as applicable.

A. Student Investigation.

1. Students filing complaints ("Complainants") are urged to do so in writing as soon as possible but no later than thirty (30) days after disclosure or discovery of the facts giving rise to the complaint. Complaints submitted after the thirty (30) day period will still be investigated; however, Complainants should recognize that delays in reporting may significantly impair the ability of College officials to investigate and respond to such complaints. The Dean of the School of Access, Development, and Success shall fully investigate any complaints and will, as needed and if the complaint also involves an employee, collaborate with the College's Director of Human Resources. During the course of the investigation, the Dean may consult with other relevant College administrators and the College Attorney.

2. During the investigation, and if applicable to the complaint, the Dean shall meet with the Complainant and the alleged Perpetrator ("Respondent") separately and give each party an equal opportunity to provide evidence, including informing the Dean of any potential witnesses. Both parties will be given access to any information provided by the other in accordance with any federal or state confidentiality laws.

3. During the investigation process, the Dean may implement temporary measures in order to facilitate an efficient and thorough investigation process as well as to protect the rights of all parties involved. The temporary actions include, but are not limited to: reassignment of class schedules; temporary suspension from campus (but be allowed to complete coursework); or the directives that include no contact between the involved parties.

4. A confidential file regarding the complaint shall be maintained by the Dean. To the extent possible, the College will keep all information relating to the complaint and investigations confidential; however, to maintain compliance with the Clery Act, both parties will be informed of the outcome of any institutional proceedings under these Procedures.

5. The Dean shall make every effort to conclude the investigation as soon as possible but no later than thirty (30) calendar days. If the nature of the investigation requires additional time, the Dean may have an additional ten (10) calendar days to complete the investigation. The Dean shall notify the parties of this extension.

6. Complainants will be notified of available counseling services and their options of changing academic situations and other interim protective measures.

B. Employee Investigations.

1. Employees filing complaints ("Complainants") are urged to do so in writing as soon as possible but no later than thirty (30) days after disclosure or discovery of the facts giving rise to the complaint. Complaints submitted after the thirty (30) day period will still be investigated; however, Complainants should recognize that delays in reporting may significantly impair the ability of College officials to investigate and respond to such complaints. The Director of Human Resources shall fully investigate any complaints. During the course of the investigation, the Director of Human Resources may consult with other relevant College administrators and the College Attorney.

2. During the investigation, and if applicable to the complaint, the Director of Human Resources shall meet with the Complainant and the alleged Perpetrator ("Respondent") separately and give each party an equal opportunity to provide evidence, including informing the Director of Human Resources of any potential witnesses. Both parties will be given access to any information provided by the other in accordance with any federal or state confidentiality laws.

3. During the investigation process, the Director of Human Resources may implement temporary measures in order to facilitate an efficient and thorough investigation process as well as to protect the rights of all parties involved. The Director of Human Resources may suspend an employee with pay pending an investigation if such action is in the College's best interest.

4. A confidential file regarding the complaint shall be maintained by the Director of Human Resources. To the extent possible, the College will keep all information relating to the complaint and investigations confidential; however, to maintain compliance with the Clery Act,

both parties will be informed of the outcome of any institutional proceedings under this Procedures.

5. The Director of Human Resources shall make every effort to conclude the investigation as soon as possible but no later than thirty (30) calendar days. If the nature of the investigation requires additional time, the Director of Human Resources may have an additional ten (10) calendar days to complete the investigation and shall notify the parties of this extension.

6. Complainants will be notified of available counseling services and other interim protective measures.

VI. RECOMMENDATION AND APPEAL

A. Students.

1. After the investigation is complete, the Dean of Access, Development, and Success will put forward a recommendation of finding, based on the Standard of Evidence, and sanction(s) to both the Complainant and Respondent. If the recommendation is accepted by both parties involved, the recommendation and sanction(s) will become effective. The Dean will submit to each party a final outcome letter that will include, but not limited to, the following:

- a. Determination if the Respondent is responsible or not responsible for violating these Procedures;
- b. Sanction;
- c. Whether monitoring of academic schedules is needed between the parties to ensure that the individuals involved are not in classes together (the Dean will assist in this process).
- d. Short-term College counseling services available to each party.

2. If the Dean's recommendations are not accepted by either the Complainant or the Respondent, both may appeal and request a formal hearing. If the Dean recommends sanctions that s/he cannot impose (i.e., expulsion), the matter shall automatically be set for a hearing. A Vice President will preside over the hearing as the Presiding Officer. The process for the hearing is outlined below:

- a. Prior to the hearing, the Complainant and the Respondent have the right to review all evidence, including written statements by the Respondent, the Complainant, or witnesses. Strict rules of evidence do

not apply. The Standard of Evidence shall apply for the hearing.

b. Written notice including the date, time, and location of the hearing will be sent to all parties.

c. At the hearing, all pertinent parties have a right to speak and be questioned by the Presiding Officer. Cross-examination between parties is not permitted. The College will provide options for questioning without confrontation. Each phase of the hearing will be heard by both parties in separate rooms by use of a speaker phone.

d. The Complainant and the Respondent are allowed to be accompanied by an advocate. The advocate may not present on behalf of either party unless otherwise instructed to do so by the Presiding Officer. If the Complainant or the Respondent chooses to have an advocate who is an attorney, notification must be provided to the Presiding Officer at least three (3) College business days prior to the hearing date. In this case, the College Attorney will also be present.

e. Both parties have a right to a written notice of the hearing outcome.

B. Employees

1. After the investigation is complete, the Director of Human Resources will put forward a recommendation of finding, based on the Standard of Evidence, and sanctions to both the Complainant and Respondent. If the recommendation is accepted by both parties involved, the recommendation and sanctions will become effective. A final outcome letter will be submitted to the Complainant and Respondent that may include, but not limited to, the following:

- a. Determination if the Respondent is responsible, not responsible, or if the decision is deemed inconclusive, or shared responsibility.
- b. Sanction, if appropriate.
- c. Monitoring of academic schedules or workplace schedule if needed.
- d. Short-term counseling services will be offered to each party.

2. If the Director of Human Resources' recommendations are not accepted by either the Complainant or the Respondent, both may appeal and request a formal hearing. If the Director of

Human Resources recommends sanctions that s/he cannot impose (i.e., termination) the matter will automatically be set for a hearing. A Vice President will preside over the hearing as the Presiding Officer. The process for the hearing is outlined below:

a. Prior to the hearing, the Complainant and the Respondent have the right to review all evidence, including written statements by the Respondent, the Complainant, or witnesses. Strict rules of evidence do not apply. The Standard of Evidence shall apply for the hearing.

b. Written notice including the date, time, and location of the hearing will be sent to all parties.

c. At the hearing, all pertinent parties have a right to speak and be questioned by the Presiding Officer. Cross-examination between parties is not permitted. The College will provide options for questioning without confrontation. Each phase of the hearing will be heard by both parties in separate rooms by use of a speaker phone.

d. The Complainant and the Respondent are allowed to be accompanied by an advocate. The advocate may not present on behalf of either party unless otherwise instructed to do so by the Presiding Officer. If the Complainant or the Respondent chooses to have an advocate who is an attorney, notification must be provided to the Presiding Officer at least three (3) College business days prior to the hearing date. In this case, the College Attorney will also be present.

e. Both parties have a right to a written notice of the hearing outcome.

C. Sanctioning.

The following sanctions may be imposed for those who have violated these Procedures.

1. Students.

- a. Verbal or Written Warning
- b. Probation
- c. Administrative withdrawal from a course without refund
- d. Required Counseling
- e. No Contact Directive
- f. Suspension

g. Expulsion (President must impose)

h. Other consequences deemed appropriate

2. Employees.

- a. Verbal or Written Warning
- b. Performance Improvement Plan
- c. Required Counseling
- d. Required Training or Education
- e. Demotion (President may impose)
- f. Suspend with or without Pay (President must impose)
- g. Termination (President must impose)
- h. Other consequences deemed appropriate to the specific violation

Adopted: Updated June 2020

Student Due Process 3.19

Each person is afforded an opportunity to appeal what is perceived to be unfair treatment when classified as a student (See 3: Student Services-Student Definition) at Catawba Valley Community College (CVCC). The intent of the Due Process Policy is to ensure a fair and just resolution of any issue at the lowest possible level. Violations of Policy 3.18: Student Code of Conduct will be heard through Due Process procedures.

Student Advocate:

Upon the student's request, the Director of Admission or designee will assist the student with the steps required to follow the process, including providing the CVCC Student Grievance Form and the Student Grievance Committee Review Form.

Procedure 3.19: Student Due Process

Students who have a grievance with Catawba Valley Community College (CVCC) may have their grievance reviewed in accordance with Policy 3.19: Student Due Process. A grievance for purposes of this policy is

- a grievance regarding a final course grade received;
- a grievance regarding a disciplinary action imposed; or
- a grievance of other unjust treatment.

Grievances concerning Policy 3.18.2: Sexual Violence, Sexual or Gender-based Harassment, and Other Sexual Misconduct (Title IX Violations) are addressed by using Procedure 3.18.2: Reporting and Resolving Sexual Violence, Sexual or Gender-based Harassment, and Other Sexual Misconduct (Title IX Violations).

The "event date" for purposes of this policy is as follows:

- for a grievance regarding a final course grade received, the date on which the grade was mailed

to the student, made available to the student through an online portal or other electronic means, or otherwise made available to the student;

- for a grievance regarding disciplinary action imposed, the date on which written notice of the disciplinary action was mailed or otherwise provided to the student; or
- for a grievance of other unjust treatment, the date on which the alleged unjust treatment occurred.

Steps that students must take to have their grievance reviewed are listed below. The student is not required in any step to confront alone the person who is allegedly responsible for the unjust or discriminatory treatment

Student Advocate: Upon the student's request, the Director of Admission or designee will assist the student with the steps required to follow the process, including providing the CVCC Student Grievance Form and the Student Grievance Committee Review Form.

It is expected that all parties will adhere as strictly as possible to the time lines outlined in the steps below. However, there may be occasions when the time lines cannot be upheld as outlined. In the rare occurrence that a time line must be extended, agreement must be reached by all parties concerned. Extensions must be approved by the Executive Vice President of the College or designee. If no extension has been granted and if the college employee does not meet the processing time line, the grievance will be forwarded to the next level supervisor for action. If no extension has been granted and if the student does not meet the processing time line, the process will be terminated and the grievance cannot be resubmitted.

Student vs. Student Grievance

A student vs. student grievance may occur about alleged unjust treatment of one student(s) to another student(s).

Step 1: Student Resolution

The aggrieved student(s) should submit the completed "Student Grievance Form about Another Student" to the CVCC Student Advocate or designee within ten (10) college business days of the "event date" of the incident. The CVCC Student Advocate or designee will facilitate and attend a meeting with the aggrieved student and the student where the alleged grievance event originated within five (5) college business days of the receipt of this form. An attempt will be made to resolve the matter equitably and informally at this level.

Step 2: Dean Resolution

If the grievance is not resolved at the informal meeting in Step 1, the student(s) may initiate a Dean Resolution review by completing the student part of the Student Grievance Form and submitting it to the Dean of the School of Access, Development, and Success (ADS) within five (5) college business days of the conclusion of the Step 1 meeting. The Dean of the School of ADS will conduct an investigation into the alleged charge(s). The investigation may include interviewing the aggrieved student(s), interviewing the student(s) who is (are) perceived to have committed the alleged problem, interviewing witnesses, reviewing written

statements, consulting other College officials, and other appropriate methods to make an informed decision. The Dean of ADS will respond in writing to the aggrieved student(s) and to the student(s) who allegedly caused the problem within five (5) working days of receipt of the Student Grievance Form with the decision. The Dean will also complete the Dean's part of the Student Grievance Form and submit it to the Office of the President at the same time.

Step 3: Student Grievance Committee Resolution

If the grievance is not resolved at the Dean Resolution in Step 2, the student(s) may initiate a Student Grievance Committee review by completing the student part of the Student Grievance Committee Review Form and submitting it to the Office of the President within five (5) college business days of the receipt of the Step 2 written decision.

Following receipt of a Student Grievance Committee Review Form, a Student Grievance Committee ("the Committee") shall be selected. The Committee membership (5 voting members and a non-voting chair) shall be as follows and shall not include any members who have had any involvement in the grievance to date:

- Committee Chair (a non-voting member): A Vice President selected by the President
- Two (2) voting representatives selected by the Committee Chair from a group of nine (9) faculty or non-credit professional staff representatives (3 from each academic school) appointed by the President
- One (1) voting representative selected by the Committee Chair from a group of two (2) Student Services counselors or admissions representatives appointed by the President
- Two (2) voting student representatives selected by the Committee Chair from the group of five (5) current SGA officers

Student vs. Faculty or Staff Grievance

Step 1: Student Resolution

The aggrieved student(s) should submit the completed "Student Grievance Form about Faculty or Staff" to the Supervisor of the Faculty or Staff within ten (10) college business days of the "event Date" of the incident. The Supervisor will facilitate and attend a meeting with the aggrieved student and the Faculty or Staff where the alleged grievance event originated within five (5) college business days of the receipt of this form. An attempt will be made to resolve the matter equitably and informally at this level.

Step 2: Supervisor Resolution

If the grievance is not resolved at the informal meeting in Step 1, the student may initiate a Supervisor Resolution review by completing the student part of the Student Grievance Form and submitting it to the Dean of the faculty or staff involved in Step 1 within five (5) college business days of the conclusion of the Step 1 meeting. The Dean will respond in writing to the student within five (5) college

business days of receipt of the Student Grievance Form. The Dean will also complete the supervisor part of the Student Grievance Form and submit it to the Office of the President at the same time.

Step 3: Student Grievance Committee Resolution

If the grievance is not resolved at the Supervisor Resolution in Step 2, the student may initiate a Student Grievance Committee review by completing the student part of the Student Grievance Committee Review Form and submitting it to the Office of the President within five (5) college business days of the receipt of the Step 2 written decision.

Following receipt of a Student Grievance Committee Review Form, a Student Grievance Committee ("the Committee") shall be selected. The Committee membership (5 voting members and a non-voting chair) shall be as follows and shall not include any members who have had any involvement in the grievance to date:

- Committee Chair (a non-voting member): A Vice President selected by the President
- Two (2) voting representatives selected by the Committee Chair from a group of nine (9) faculty or non-credit professional staff representatives (3 from each academic school) appointed by the President
- One (1) voting representative selected by the Committee Chair from a group of two (2) Student Services counselors or admissions representatives appointed by the President
- Two (2) voting student representatives selected by the Committee Chair from the group of five (5) current SGA officers

Student Group vs. Student/Faculty/Staff Grievance

Step 1: Student Resolution

The Student Group should submit the completed "Student Group Grievance Form" to the CVCC Student Advocate or designee within ten (10) college business days of the "event date" of the incident. The CVCC Student Advocate or designee will facilitate and attend a meeting with the *Student Group and the student(s), faculty, and/or staff where the alleged grievance event originated within five (5) college business days of the receipt of this form. An attempt will be made to resolve the matter equitably and informally at this level.

*The Student Group, in collaboration with the Advisor/Supervisor for the group, will select at most three (3) members in good standing to represent the grievance for the group. The group Advisor/Supervisor may be included in any meeting with others to resolve the grievance. If the grievance is about a faculty or staff member, the supervisor of the faculty or staff member may be present.

Step 2: Dean/Supervisor Resolution

If the grievance is not resolved at the informal meeting in Step 1 and the grievance is against a student(s), the group may initiate a Dean Resolution review by completing the student part of the Student Grievance Form and submitting

it to the Dean of the School of ADS within five (5) college business days of the conclusion of the Step 1 meeting. The Dean of the School of ADS will conduct an investigation into the alleged charge(s). The investigation may include interviewing the aggrieved student(s), interviewing the student(s) who is (are) perceived to have committed the alleged problem, interviewing witnesses, reviewing written statements, consulting with other College officials, and other appropriate methods to make an informed decision. The Dean of ADS will respond in writing to the aggrieved student(s) and to the student(s) who allegedly caused the problem within five (5) college business days of receipt of the Student Grievance Form with the decision. The Dean will also complete the Dean's part of the Student Grievance Form and submit it to the Office of the President at the same time.

If the grievance is not resolved at the informal meeting in Step 1 and if the grievance is against a faculty or staff, the group may initiate a Supervisor Resolution review by completing the student part of the Student Grievance Form and submitting it to the Dean of the faculty or staff involved in Step 1 within five (5) college business days of the conclusion of the Step 1 meeting. The Dean will respond in writing to the student within five (5) college business days of receipt of the Student Grievance Form. The Dean will also complete the supervisor part of the Student Grievance Form and submit it to the Office of the President at the same time.

Step 3: Student Grievance Committee Resolution

If the grievance is not resolved at the Dean/Supervisor Resolution in Step 2, the group may initiate a Student Grievance Committee review by completing the student part of the Student Grievance Committee Review Form and submitting it to the Office of the President within five (5) college business days of the receipt of the Step 2 written decision.

Following receipt of a Student Grievance Committee Review Form, a Student Grievance Committee ("the Committee") shall be selected. The Committee membership (5 voting members and a non-voting chair) shall be as follows and shall not include any members who have had any involvement in the grievance to date:

- Committee Chair (a non-voting member): A Vice President selected by the President
- Two (2) voting representatives selected by the Committee Chair from a group of nine (9) faculty or non-credit professional staff representatives (3 from each academic school) appointed by the President
- One (1) voting representative selected by the Committee Chair from a group of two (2) Student Services counselors or admissions representatives appointed by the President
- Two (2) voting student representatives selected by the Committee Chair from the group of five (5) current SGA officers

Procedural Responsibilities for the Committee Chair

The Committee Chair shall schedule a Review/Hearing by the Committee within five (5) working days following the

receipt of the Student Grievance Committee Review Form by the Office of the President. The Chair shall inform the student with the following information:

- Restatement of the charge(s).
- Notice of the day, time, and location of the meeting.
- Statement of the student's basic procedural rights.

Procedural Rights for the Student include the following:

- The right to counsel. The role of the person acting as counsel is solely to advise the student. The counsel shall not address the Committee nor examine or cross-examine any persons. If the counsel is an attorney, the Committee Chair must be informed to allow the College attorney to be present.
- The right to produce witnesses on one's behalf.
- The right to present evidence.

Procedural Conduct of the Student Grievance Committee Review/Hearing:

- The Committee Review/Hearing shall be confidential and shall be closed to all persons except the following:
 - The student;
 - Counsel (if any); and/or
 - Witnesses who shall
- Give testimony singularly and in the absence of other witnesses.
- Leave the Review/Hearing room immediately upon the completion of the testimony.
- The Review/Hearing will be recorded by the College in an audio format.
- Recordings will become the property of the College, and access to them will be determined by the Committee Chair. All recordings will be filed in the Office of the President.
- Upon completion of a Review/Hearing, the Committee shall meet in executive session to decide if the student has been treated unjustly, and if so, must recommend corrective action. Committee decisions shall be determined by a majority vote of the Committee members and are final. Decisions made by the Committee shall be provided in writing to the student by the Committee Chair within two (2) college business days following the completion of the Review/Hearing. Copies of the written decision shall be provided to the Dean of the School of ADS, to the Office of the President, and to the CVCC employees involved in Steps 1 and 2 of the grievance process. The decision rendered by the Committee will be the final decision of the institution, and all due process opportunities will be exhausted.

The following exception applies if the CVCC employee who is allegedly responsible for the unjust treatment is a Dean: In Step 2, the supervisor shall be the Executive Vice President.

The following exception applies if the CVCC employee who is allegedly responsible for the unjust treatment is a Vice President: In Step 2, the supervisor shall be another Vice President appointed by the President. In Step 3, the Committee Chair shall be the CVCC President.

The following exception applies if the CVCC employee who is allegedly responsible for the unjust treatment is the CVCC President: In Step 2, the supervisor shall be the Chair of the Board of Trustees. In Step 3, the Committee Chair shall be the Chair of the Board of Trustees.

Policy 2.16: Academic Honesty

Students at CVCC are expected to be honest in all academic pursuits, whether class, lab, shop, or clinical. Acts of academic dishonesty are considered unethical and subject to behavior sanctions. Examples of academic dishonesty include, but are not limited to, the following:

1. Sharing information about the content of quizzes, exams, classroom/lab/shop/clinical assignments (scheduled or make-up) without approval of the instructor. Sharing includes, but is not limited to, unauthorized copying, collaboration, or use of notes, books, or other materials when preparing for or completing examinations or other academic assignments (scheduled or make-up);
2. Buying, selling, or otherwise obtaining a copy of a quiz, exam, project, term paper, or like document, without approval of the faculty member;
3. Plagiarism, which is defined as the intentional representation of another person's work, words, thoughts, or ideas (from any source) as one's own;
4. Failing to follow approved test taking procedures by performing such acts as the following:
 1. Looking on another student's test;
 2. Use of unauthorized notes; (written, electronic, or otherwise);
 3. Changing answers after exam is scored; and
 4. Verbal, non-verbal, or electronic communication with another student during an exam.

Additionally, students have an obligation to report any acts of academic dishonesty to the relevant faculty member or appropriate campus authority when reasonable grounds exist for such a report. Students also have a responsibility to cooperate in the investigation of any alleged acts of academic dishonesty. Failure to report acts of academic dishonesty could result in a behavior sanction as outlined in [Policy 3.18: Student Code of Conduct](#).

Faculty members are authorized by [Policy 3.18.1: Student Behavior Sanctions](#) to impose Loss of Credit or a Grade Sanction for acts of academic dishonesty relative to classes under their supervision.

Procedure 2.16: Academic Honesty

In accordance with Policy 3.18.1: Student Behavior Sanctions, faculty have the authority to impose any of the following sanctions when it is determined that a student has violated the Academic Honesty Policy.

- Warning
- General Probation
- Interim (Emergency) Suspension
- Loss of Academic Credit or Grade

As a classroom management tool, faculty should complete the "Warning, General Probation, Interim (Emergency) Suspension, Loss of Academic Credit or Grade Form" found in the Student Forms section of the CVCC Portal. Completed forms should be submitted to the faculty supervisor

Policy 4.11: Alcoholic Beverages

The possession, sale, distribution, and/or use of alcohol on CVCC campuses/sites are prohibited. The CVCC Safety and Security Office enforces federal, state, and local laws regulating the possession, use, sale, and distribution of alcohol. North Carolina law makes it unlawful to sell, furnish, or provide alcohol to a person under the age of 21. North Carolina law also makes the possession or use of alcohol by anyone under the age of 21 illegal. Violators are subject to criminal prosecution. Legal sanctions may include fines and/or imprisonment. Student violators are subject to disciplinary action under provisions of the Student Conduct Policy. CVCC employees are subject to disciplinary action under personnel disciplinary policies. (See Policy 6.6: Regulation of Service of Alcohol)

For more information, please see CVCC Drug Free Schools and Communities Act at http://www.cvcc.edu/Services/Safety_And_Security/index.cfm

Policy 4.4: Animals On Campus

Animals are not permitted on campus, with the exception of service animals.

Policy 4.4: Children on Campus

For the purposes of this policy, a child is defined as any youth under the age of 16 who is not officially registered in a CVCC class or Early College High School class.

Children accompanying employees, students, or visitors of CVCC must be under the constant supervision of a responsible adult while on CVCC property, or on the site of any approved off-campus class or other CVCC event. Employees of CVCC have assigned duties and cannot take supervisory responsibility for any unattended children of employees, students, or visitors. Children should not be unattended in any CVCC facility at any time.

CVCC assumes no responsibility or liability for children, or for any accidents or injuries to children.

Students, faculty, and staff are expected to arrange for their personal childcare away from the work site. An employee must have the approval of the supervisor to bring a child to the workplace during working hours due to an emergency

situation at home. Sick children should not be brought to campus.

Children accompanying employees, students, or visitors are not permitted in classes, labs, or other learning environments.

Persons receiving CVCC services may be refused service if accompanied by a child who will be unattended during the time the patron is receiving services, or if accompanied by a child who is disruptive to CVCC operations. CVCC personnel are not expected to provide supervision of such children.

If children are left unattended, CVCC may notify law enforcement personnel and/or the Department of Social Services.

Policy 4.14: Communicable Diseases

Employees, employees of contractors or contracted services, and students who are infected with a communicable disease or who have a reasonable basis for believing they might be infected have the responsibility of reporting the infection to the personnel officer (in the case of employees and employees of contractors) or to the Dean of the School of Access, Development, and Success (in the case of students). All such information reported shall remain confidential. Only persons with a need to know will be informed.

The college will support a program of educating and informing employees and students about communicable diseases, warning signs, and protective measures through publications, seminars, and other appropriate means.

Procedure 4.14: Communicable Diseases

Persons who know, or have a reasonable basis for believing, that they are infected with a communicable disease have an ethical and legal obligation to conduct themselves in accordance with such knowledge, to protect themselves and others. Faculty and staff are urged to report information to the personnel officer and students are urged to report this information to the dean of student services.

All information shall remain confidential. Only persons with a need to know will be informed, and only with the direct knowledge of the employee or student.

1. Persons infected with a communicable disease shall not be excluded from enrollment or employment, or restricted in their access to Catawba Valley Community College's services or facilities, unless medically based judgments in individual cases establish that exclusion or restriction is necessary to assure the protection and welfare of the individual or other members of the college community.
2. The assessment of an employee or employees of a contractor or contracted service with a suspected communicable disease and the final determination of that employee's ability to remain on the job shall be made by the president, after consultation with the vice president of academic and student affairs, director of human resources, and based on recommendations from the local health authorities. If an employee or employee of

a contractor or contracted service is found to have a communicable disease, the president may prohibit attendance or participating in work at the college until a letter or certificate is obtained from one or more licensed physicians and/or public health officials stating that the attendance of the employee or employee of a contractor or contracted service no longer constitutes a health risk to other employees and students at the college.

3. The assessment of a student with a suspected communicable disease and the final determination of that student's ability to remain in college shall be made by the Dean of the School of Access, Development, and Success or designee, based upon recommendations from local health authorities. If a student is found to have a communicable disease, the Dean of the School of Access, Development, and Success or designee may prohibit attendance at the college until a letter or certificate is obtained from one or more licensed physicians and/or public health officials stating that the attendance of the student no longer constitutes a health risk to employees and other students at the college.
4. Education about communicable diseases is contained in the CVCC Hazard Communication Program which includes Blood Borne Pathogens information. This is required training for all CVCC employees and is located on the CVCC Human Resources web page and in written form in the H.R. office.

CVCC CAMPUS HEALTH PROCEDURE

Purpose

This health procedure will serve as a guide to making decisions, plans, and actions that are undertaken to achieve specific health care goals within the CVCC campus community. This procedure will outline priorities and the expected roles of different groups; and it builds consensus and informs people.

Scope

This procedure will be put into practice when an individual displaying a physical illness or mental illness causes a concern that the campus community could be placed at risk. Any CVCC employee or volunteer who becomes aware of a circumstance that could place the campus community at risk should immediately report the situation to the Office of Safety, Security and Health.

Procedure Objectives

1. To establish and maintain a committee to focus on plans and actions to achieve the desired health care goals within the CVCC Community. The committee will be appointed by the Chief of Staff, Safety, Security and Health or designee and approved by the President of the college. It is suggested that the committee consist of the following: Chief of Staff, Safety Security and Health or designee. Dean, School of Access, Development and Success, Public Information

Officer or designee, Counselor for Students with Disabilities and Special Programs or designee, a member of the CVCC Crisis Intervention Team, Department Head School of Nursing or designee and the HR Director or designee.

2. The committee shall be tasked with providing a standard of best practice(s) as it pertains to prevention and control of health related issues that affect the campus community.
3. The committee shall ensure that all necessary/required information is gathered and provided to the campus community in a timely manner.
4. The committee will abide by the mandatory standards set forth by government regulatory agencies such as but not limited to OSHA and CDC.
5. The committee will be tasked with making a recommendation to the employee or employee of a contractor to remain on campus while the health issue is being addressed. If the person is an employee or an employee of a contractor the recommendation shall be forwarded to the college president or designee, who will make the final determination if the individual can remain on campus while the health related issue(s) is being addressed. If the individual is a student, the recommendation will be provided to the Chief of Staff, Safety, Security and Health or his designee, who will make the final determination if the individual can remain on campus while the health related issue(s) is being addressed.

Every effort will be made to keep the individual employed/enrolled on campus. However, the welfare of the campus community must take precedence.

Every effort will be made to allow a student to continue attending courses on campus. If this is not possible, efforts will be made to allow the student to access courses through a web-based learning platform.

The Dean of the School of Access, Development and Success may decide not to allow the student to return to campus until a letter or certificate is obtained from a licensed physician and/ or public health official stating the student no longer poses a risk to the campus community.

Policy 4.20: Copyright

As an institute of higher education, Catawba Valley Community College supports an environment which fosters inquiry through the creation and dissemination of knowledge. All CVCC employees and students shall comply with the U.S. Copyright Law (<https://www.copyright.gov/title17/>).

Fair Use Guidelines

In compliance with Title 17, college employees and students are permitted to copy and disseminate copyrighted work if it meets the following factors as outlined in U.S. Copyright Law, Title 17 § 107:

1. The purpose and character of the use, including whether such use is of a commercial nature or is for nonprofit educational purposes;"
 - o Note: In general, nonprofit or educational uses of copyrighted works are protected under the fair use policy. However, simply because a work is being used within an educational setting does not automatically deem it to be fair use.
2. "The nature of the copyrighted work;"
 - o Note: Fair use is more apt to be applied to informational work (including facts) rather than creative works (fictional works, plays, or art).
3. "The amount and substantiality of the portion used in relation to the copyrighted work as a whole; and"
 - o Note: As the percentage use of a copyrighted work increases, the likelihood that the use will be considered fair use decreases.
4. "The effect of the use upon the potential market for or value of the copyrighted work."
 - o Note: The dissemination of copyrighted works must not infringe upon the copyright owner's right to proprietary benefits.

In accordance with U.S. Copyright Law, Title 17, college employees and students are bound by this policy and federal law to seek the approval of the copyright owner prior to reproducing, displaying, disseminating, performing, or digitally transmitting any copyrighted work, unless exempt by fair use law.

Face-to-Face Instruction

In accordance with U.S. Copyright Law, Title 17, §110(1), college faculty and students (within a traditional classroom setting) are permitted to perform (movies, plays, music, etc.) and to display (art, images, photographs, text, etc.) from legally made (non-pirated) sources.

On-line Teaching

Due to the ubiquitous nature of the online teaching environment, there are three options to using copyrighted material in an online environment legally:

1. The information that is being posted on-line complies with the U.S. Copyright Law, Title 17, §110(2).
2. the use of the copyrighted material qualifies as fair use, and
3. the user has obtained permission from the copyright owner.

Computer Software

Except for open source software, it is illegal to copy any computer software without purchasing the rights to that software.

Policy 4.10: Firearms

Except for law enforcement officers duly authorized to carry a firearm and/or weapon, the possession of a firearm and/or other weapon on any CVCC campus/site is illegal under North Carolina law and is prohibited except as follows:

Under a provision effective October 1, 2013 enacted by the North Carolina General Assembly, a firearm is permissible on a CVCC campus/site only under the following limited circumstances:

1. The firearm is a handgun; AND
2. The individual has a valid concealed handgun permit or is exempt from the law requiring a permit; AND
3. The handgun remains in either: a closed compartment or container within the individual with the permit's locked vehicle; or a locked container securely affixed to the individual with the permit's locked vehicle; AND
4. The vehicle is only unlocked when the individual with the permit is entering or exiting the vehicle; AND
5. The firearm remains in the closed compartment at all times.
6. A weapon used solely for educational or school sanctioned ceremonial purposes, or used in a school approved program conducted under the supervision of an adult, whose supervision has been approved by the school authority may be allowed (for example, gunsmith class).

A weapon used solely for educational or school sanctioned ceremonial purposes, or used in a school approved program conducted under the supervision of an adult, whose supervision has been approved by the school authority may be allowed.

Policy 4.4: Free Speech, Public Assembly, and Distribution/Petitioning

Consistent with its educational mission, CVCC encourages the free exchange of ideas on campus, while assuring that other important CVCC interests and activities are not infringed upon or disrupted. CVCC recognizes the value of providing students, faculty, staff and others the opportunity to assemble and communicate with one another, as well as to distribute informative printed material to members of the CVCC community. CVCC is committed to protecting First Amendment rights of individuals and supports reasonable opportunity for people to distribute printed materials and to engage in other forms of expression and assembly on campus (collectively termed "expression activities" for purposes of this policy). CVCC will not make decisions or take action based on the content of expressive activities on campus. Except with respect to commercial expression, and expression constituting obscenity, defamation, fighting words, or incitements to violence or other lawless action which are reasonably likely to produce such lawless action imminently, which the Supreme Court has held constitute content which can be proscribed. However, the President shall establish restrictions, unrelated to the content of noncommercial expression, on the time, place and manner of use of CVCC facilities for expression activities so that other important CVCC interests and activities are not infringed upon or disrupted. Such restrictions shall be

published as part of the procedures for obtaining authorization to use CVCC facilities for expression activities. All persons engaging in expression activities must observe such restrictions. Failure to comply with established restrictions may result in sanctions including, but not limited to, charges of trespass and forfeit of the right to use CVCC facilities for further expression activities.

Unlawful conduct is not permitted. Unlawful conduct is conduct that is prohibited by Federal, State, or local law or regulation, or that violates one or more rights of a person or entity under the common law of North Carolina.

In order to provide opportunity for access to multiple and diverse persons/groups, the President (or designee) may establish procedures and/or guidelines to regulate use by a single person/group.

Individuals have the right to dissent to the expression activities of another. However, such right to dissent shall not interfere with the authorized expression activities of another and need not occupy the same forum at the same time.

Use of public address systems or amplified sound is not permitted.

Duly authorized persons/groups may distribute printed materials by hand within designated areas on the condition that such material is for informational (not commercial) purposes. Such persons/groups shall be responsible for any clean-up costs associated with the distribution of such materials. Printed materials may not be distributed through CVCC's internal mail system.

Persons/groups utilizing CVCC facilities must comply with CVCC Policy 6.2 (Use of CVCC Facilities, Approval, Fees, Appropriate Use).

CVCC reserves the right to immediately terminate any expression activities otherwise permitted by this policy if in the judgment of CVCC officials, continuation of such activities will result in: (a) danger to participants or others; (b) unlawful conduct by participants or others; or (c) interference with disruption or disturbance of the CVCC's educational mission, operations, business, or functions.

Procedures for Obtaining Authorization to Use CVCC Facilities for Non-Commercial Expression Activities

These procedures have been established in accordance with the CVCC Policy titled Free Speech, Public Assembly, and Distribution/Petitioning.

Authorization for Expression Activities must be obtained from the Chief of Staff (the office of Safety/Security). The Chief of Staff shall document such authorization on a Non-Commercial Expression Activities Authorization Form ("Form") and provide such Form to person(s) authorized. Persons engaging in Expression Activities must have such Form available for verification upon request by CVCC Officials or law enforcement officers.

A written request for authorization must be received by the Vice President sufficiently in advance of the requested activities to permit appropriate planning on the part of CVCC. Such planning at a minimum would include an assessment of the impact on normal CVCC operations and previously scheduled activities, the need for additional security, and the availability of locations requested for the

expression activities. The length of time required for such planning by CVCC will vary depending on the complexity of the expression activities requested, the number of persons involved, the number of locations involved, and the potential for such activities to create a disruptive and/or dangerous environment. Such request must include the following information.

- Date(s) and times for Expression Activities
- Person or persons to be engaging in Expression Activities
- A brief description of the subject matter of the intended expression for the sole purpose of identifying any parties who request an authorization for use of the CVCC facilities for dissenting Expression Activities and appropriately planning for any potential interaction among multiple groups engaged in Expression Activities and a statement that the Expression Activities are not intended to include any commercial expression or any expression constituting obscenity, defamation, fighting words, or incitements to violence or other lawless action which are reasonable likely to produce such lawless action imminently, which the Supreme Court has held constitute content which can be prescribed.
- A statement agreeing to comply with the CVCC Policy titled Free Speech, Public Assembly, and Distribution/Petitioning (Policy 4.4)

The President has established the following restrictions regarding Expression Activities.

1. Expression Activities may only be conducted in locations that will not disrupt the normal operations of CVCC or activities previously scheduled by CVCC.
2. Expression Activities may not be conducted at times when CVCC is closed. These closed times at a minimum would normally include 10 p.m. to 7 a.m. Monday through Saturday, all day on Sundays, and days identified in the CVCC institutional calendar as institutional holidays.

If in CVCC's planning for requested expression activities it is determined that additional security or other resources will be needed, then authorization may be contingent upon those requesting agreeing to bear the costs incurred for those additional resources.

Policy 4.12: Illegal Drugs

Catawba Valley Community College fully complies with The Drug-Free Schools and Communities Act Amendments of 1989 that amends the Higher Education Act (34 CFR 86). The possession, sale, manufacture, or distribution of controlled substances on CVCC campuses/sites is prohibited. The CVCC Safety and Security Office enforces federal, state, and local laws making the possession, use, sale, and distribution of controlled substances illegal. Violators are subject to criminal prosecution. Legal sanctions may include fines and/or imprisonment. Student violators are subject to disciplinary action under provisions

of the Student Conduct Policy. CVCC employees are subject to disciplinary action under the personnel disciplinary policies.

For more information, please see [CVCC Drug Free Schools and Communities Act](#).

Policy 4.21: Intellectual Property Rights and Students

CVCC owns all rights to its logo, seal, and other related materials.

CVCC retains the right to use student work produced as a part of class assignments for non-profit educational purposes.

Policy 4.9: Parking

Employees, students, and visitors are expected to park in designated parking spaces only. Handicapped parking spaces and fire lanes are designated and are regulated by NC General Statutes. Student and visitor parking shall be in lots so designated. Students, faculty, and staff parking will be unreserved and will require a parking hang tag. Restricted use parking spaces are marked with permanent signage and include Wounded Warrior, Promise Scholar Faculty, Dental Clinic, Maintenance, and Security. Other specifically restricted use parking spaces are marked with a traffic cone and are designated on a temporary basis. Vehicles parked in areas not designated for parking may be ticketed and/or towed at vehicle owner expense. CVCC will not be responsible for vehicles damaged while parked on the school premises, during towage, or while being stored.

Employees, students, and visitors who need access to restricted use parking spaces should contact the Office of Safety and Security for information related to these spaces.

Unauthorized vehicles parked in restricted use parking spaces may be ticketed and/or towed at vehicle owner expense. CVCC will not be responsible for vehicles damaged while parked on the school premises, during towage, or while being stored.

Policy 4.4: Solicitation

For purposes of this policy, solicitation is an oral or written request/notice for, or effort to achieve, a contribution, a donation, or a sale/purchase of goods or services on any property owned, leased, or under the jurisdiction of CVCC.

Solicitation for commercial (for profit) purposes that is not a routine and necessary part of CVCC's normal operations, activities, or functions is restricted as to time, place, and manner and must be approved in accordance with procedures established by the President (or designee). Such solicitation may not utilize state property. Such solicitation must not interfere or disrupt the normal operating and learning environment at CVCC. Fees for use of building or grounds space may be assessed. Specifically prohibited is the distribution of printed solicitation material on parked vehicles and on CVCC bulletin boards.

CVCC students and employees may utilize certain bulletin boards designated by the President (or designee) to advertise the sale of used personal items. The President (or designee) shall establish procedures and guidelines for such usage.

Solicitation for charitable, community service, not-for-profit, or civic purposes must be approved in accordance with procedures and guidelines established by the President (or designee). Such solicitation must not interfere or disrupt the normal operating and learning environment at CVCC.

Policy 4.13: Tobacco Products

The use of tobacco products (including cigarettes, e-cigarettes, cigars, pipes, smokeless tobacco) is prohibited on all CVCC campuses (including CVCC buildings, grounds, and parking lots). The prohibition applies to all individuals including staff, students, employees, visitors, patrons, vendors, and/or their agents. (effective August 1, 2009)

Policy 4.15: Self-Administered Prescription Medicines

CVCC personnel and students who are diabetic or who have other health problems may be required to self-administer insulin or other medications while on campus. In this process, materials may be generated that are contaminated with blood and body fluid. Improper disposal of this waste can place employees and students at risk of contracting blood borne diseases.

All employees and students who self-administer prescription medications are required to keep all used and/or contaminated materials in their possession while on campus and transport these materials to their home or other locations for proper disposal. Individuals who fail to follow these procedures will be subject to appropriate disciplinary action.

Policy 4.4: Visitors on Campus

Visitors are defined as anyone other than CVCC personnel, officially enrolled students, members of the Board of Trustees, and members of the CVCC Foundation Board.

Visitors are permitted (and welcomed) on CVCC property for participation in or attendance at CVCC sponsored or approved activities/events and for use of the CVCC library facility. Visitors may be granted permission to visit a class(es) on a limited basis for a specific purpose. These visits must be authorized in advance of the class according to Class Visit Procedures.

Employers wishing to recruit on campus must coordinate their visit with the Director of Career Services or the Director of the Alexander Center for Education.

Media representatives are encouraged to inquire with the Public Information Officer prior to interviewing, photographing or videotaping employees or students on the various CVCC campuses. See also CVCC [policy 4.2 \(Authorized Spokesperson\)](#).

Visitors must comply with all other CVCC policies including the CVCC policy on free speech, public assembly, distribution/petitioning, and the CVCC policy on solicitation.

Visitors may be required to provide personal identification to CVCC officials or campus security. Visitors who do not comply with requests for identification, or who interfere with the normal operations, functions, or learning environment of CVCC, will be asked to leave. Individuals who refuse to leave will be considered trespassing and will be subject to

arrest. CVCC shall not be held responsible for accidents or injuries to visitors who are in violation of CVCC policies.

Academic and Instructional Standards

Academic Standards

Degrees, Diplomas, and Certificates

Catawba Valley Community College awards the Associate in Applied Science Degree (A.A.S.) upon the successful completion of a two-year program of study in the School of Academics and Educational Opportunities; the School of Workforce Development and the Arts; and the School of Health and Public Services.

The Associate in Arts, Associate in Arts in Teacher Preparation, Associate in Engineering, Associate in Fine Arts, Associate in General Education-Nursing, Associate in Science, and Associate in Science in Teacher Preparation Degrees are awarded graduates of college transfer curricula.

The College also awards the Associate in General Education and General Occupational Technology degrees.

Upon completion of an industrial program of study one or more years in length, CVCC awards a Diploma in the major area of training.

Program Certificates are awarded in curricula where the curriculum provides for skill-training subjects only. Certificates of course completion are also awarded for non-credit short courses and special programs.

High School Equivalency Diplomas are awarded by the North Carolina Department of Community Colleges to individuals who make satisfactory scores on the General Educational Development (GED), HiSet, Tasc, or the Adult High School Diploma.

Classification/Enrollment Status

CVCC considers 12 credit hours to be a full time load for a curriculum student in the fall and spring semesters. CVCC considers 9 credit hours to be a full time load for a curriculum student in the summer semester. See below for policy regarding classification for financial aid.

CVCC follows guidelines established by the State of North Carolina for purposes of classification as a full time student for tuition payment. These guidelines can be found in 1G SBCCC 100.1 of the State Board of Community College Code at State Board of Community Colleges Code (SBCC Code) www.nccommunitycolleges.edu/sbcccode.

CVCC follows guidelines/regulations established by the appropriate federal and state agencies for purposes of determining classification of students as full time or part time for federal financial aid (determined by the US Department of Education found at www.studentaid.ed.gov/), state financial aid (determined by the State of North Carolina and found at www.cfnc.org/index.jsp), and veteran's benefits (determined by the US Department of Veterans Affairs found at www.benefits.va.gov/gibill/).

A freshman is any student who has earned fewer than 32 semester credit hours. A sophomore is any student who has earned 32 or more semester credit hours.

Advising and Registration

Career Advising

Individual career advising is available to all students and prospective students who are interested in discussing their career interests, choice of program/training, and career goals. Career assessments and career information are used to assist students in examining their interests, values, and skills to explore career options. Available career assessments include The Focus 2 Career Planning System, Career Coach, The Self Directed Search, Strong Interest Inventory, and Myers-Briggs Type Indicator.

Placement Testing Services

CVCC utilizes a placement testing program to assess certain academic competencies in reading, writing, and mathematics. Test results are used by academic advisors to place students in appropriate courses and thereby maximize their opportunities for success. Placement test scores are not a requirement for general admission to CVCC, but may be a factor in the admission decision for certain programs and/or the determination of course requisite competencies.

CVCC uses the Reinforced Instruction for Student Excellence (RISE) placement test for those students who do not have an unweighted high school GPA or who have completed high school more than ten (10) years before the date of entrance into CVCC.

Re-testing Procedure

Retesting is allowed one time for each tier in mathematics and one time for each tier in English.

Testing Center can be accessed at the following url address: www.cvcc.edu/Services/Testing_Center/index.cfm

Academic Advising Services

Academic Advising is provided on a regular daily schedule by trained professional staff in the Advising Center in the Student Services Building. All new students are required to meet with Advising Center staff for academic advising and planning for their first registration. At this first meeting staff will assist students with program requirements, course planning, long range goals, explain various college processes, and answer any questions. Students can also complete the registration process with Advising Staff during the periods of registration. Other services provided include class schedule adjustments, academic probation advising, and program completion and graduation progress.

Students can make appointments for advising during registration periods, but drop-in service is also available.

Advising Services can be accessed at the following url address: www.cvcc.edu/Admissions/Advising/index.cfm.

Registration

The Chief Student Services Officer or designee is responsible for establishing and communicating the dates,

times, locations, and processes for registration in curriculum courses.

Registration activities occur for each fall, spring, and summer semester. Students must have been admitted to CVCC, be enrolled in an active curriculum program of study, must have met all financial obligations to CVCC, and have no holds on their accounts to participate in registration.

Current students (those who have been enrolled in curriculum courses during the previous semester) will have priority registration dates. Current students will be advised of their specific priority registration date via their secure CVCC-issued email and/or through the CVCC Portal, and they will also be able to register throughout the registration period either online or by appointment in the Advising Center. Military Veterans, currently enrolled as students and utilizing VA education benefits, may receive the earliest Priority Date based on their official course registration date and class availability. These students must contact the School Certifying Official for their eligibility for priority enrollment.

New and returning students (those who have not been enrolled in curriculum courses during the previous semester) will be able to register after the priority registration period for Current Students.

Registration in certain courses may be restricted to students meeting certain criteria established by the North Carolina Community College System or by the CVCC Chief Academic Officer.

Registration is generally not permitted in a class on or after the start date of the class. Approval for registration in a class on or after the start date of the class must be based on extenuating circumstances and be educationally sound as determined by the Chief Academic Officer or designees.

Registration activities for curriculum classes can be found at the Registration page at the following url address:
www.cvcc.edu/Academic-Resources/Admissions/registration.cfm

Course Load

Unless required by suggested curriculum sequence, students are strongly encouraged not to enroll for more than 18 credit hours per semester.

Course Information

Course Prerequisites and Co-requisites

CVCC and each student are responsible for ensuring that prerequisite and co-requisite requirements have been satisfied.

If requisite competencies are not documented in the student's CVCC transcript but are evidenced by completion of academic experiences at other regionally-accredited institutions or completion of certain testing administered by other institutions, then satisfaction of the requisite shall be documented in the student's record on the student database following processes specified by the Chief Student Services Officer or designee.

If requisite competencies are not documented in the student's CVCC transcript and are not evidenced by academic experiences completed elsewhere as outlined above, the Dean of the School that houses the course may authorize enrollment in the course if the requisite competencies are evidenced by other life experiences such as work experience or industry recognized certifications. Such authorization shall be documented in the student's record on the student database following processes specified by the Chief Student Services Officer or designee.

1. For requisite competencies evidenced by completion of academic experiences at other regionally accredited institutions:

Students must submit all official transcripts from other regionally accredited institutions to complete the Admissions process. It is the student's responsibility to request all official transcripts and it is preferred that transcripts be mailed directly to the Student Records Office from the institution(s) attended or submitted electronically through a third party vendor directly to the Student Records Office. Official sealed transcripts may also be submitted at the Student Records Office. Official transcripts will be evaluated and credit appropriate to the student's program of study will be documented in the student's academic record. Students are sent an email regarding credits awarded (or not awarded) from other post-secondary transcripts to their secure CVCC student email account. This information can also be found as a Transfer Summary in their My CVCC Portal.

Student access to transcripts received from other educational institutions is limited to visual access. CVCC does not provide students with file copies or photocopies of transcripts received from other educational institutions.

Transfer Credits can be viewed at the following site:
www.cvcc.edu/Services/Student_Records/transfer-credit.cfm.

2. For requisite competencies evidenced by completion of certain testing administered by other institutions:

Copies of test scores that originate from another institution must be obtained from the originating institution and mailed or submitted electronically directly to the Student Records Office. It is the student's responsibility to request test scores.

Student access to test scores received from other educational institutions is limited to visual access. CVCC does not provide students with file copies or photocopies of test scores received from other educational institutions.

Request Test Scores are available at the following site:
www.cvcc.edu/Academic-Resources/Testing-Center/request-test-scores.cfm

3. For requisite competencies not evidenced by completions of academic experiences at other regionally accredited institutions or by completion of certain testing administered by other institutions:

Experiences such as work experience, an earned industry-recognized credential, etc. may allow consideration for documentation of requisite competencies. The student should contact the Dean of the School that offers the course to determine any requisite competencies that these

experiences may satisfy. Students may request the name of the appropriate Dean at the Student Records Office.

Waiver of Developmental Courses

Developmental courses may be waived by meeting one of the following requirements:

- Achieving eligibility through appropriate NCCCS Reinforced Instruction for Student Excellence (RISE) guidelines;
- Achieving eligible scores by completing placement testing with NCCCS-approved testing instrument(s);
- Completing appropriate developmental coursework with a grade of P or C- or better at another regionally-accredited institution; or
- Completing a college-level course at another regionally-accredited institution with a grade of C- or better that is equivalent to a course listed in the NCCCS Combined Course Library that has the appropriate developmental requisite.

Using Reinforced Instruction for Student Excellence (RISE) guidelines, students will be placed into curriculum courses by using their unweighted high school GPA (must have completed high school within the previous ten (10) years) according to the following categories:

Students with a GPA of 2.800+ may register for any class without mandatory additional supports.

Students with a GPA of 2.200-2.799 may enroll in a gateway course with a mandatory corequisite.

Students with a GPA < 2.200 must enroll in a one semester transition course.

Students may also use a combination of standardized tests (such as ACT or SAT) to show evidence of college readiness.

Students who do not have an unweighted high school GPA or those who completed high school more than ten (10) years previously, can test with the RISE placement test.

Placement test scores will be entered into the student's record by CVCC staff when the student takes placement tests at CVCC. Students who test with NCCCS-approved placement tests should request that their test scores be sent by USPS mail or electronically to CVCC Student Records.

Request Test Scores are available at the following site: www.cvcc.edu/Academic-Resources/Testing-Center/request-test-scores.cfm

Students must submit all official transcripts from other regionally accredited institutions to complete the Admissions process. It is the student's responsibility to request all official transcripts and it is preferred that transcripts be mailed directly to the Student Records Office from the institution(s) attended or submitted electronically through a third party vendor directly to the Student Records Office. Official sealed transcripts may also be submitted at the Student Records Office. Official transcripts will be evaluated and credit appropriate to the student's program of study will be documented in the student's academic record. This evaluation includes the appropriate awarding of credit or waiver(s) for developmental courses. Students are sent an email regarding credits awarded (or not

awarded) from other post-secondary transcripts to their secure CVCC student email account. This information can also be found as a Transfer Summary in their My CVCC Portal.

Student access to transcripts received from other educational institutions is limited to visual access. CVCC does not provide students with file copies or photocopies of transcripts received from other educational institutions.

Access Transfer Credits information at the following url address: www.cvcc.edu/Services/Student_Records/transfer-credit.cfm.

Academic Credit

The Chief Academic Officer or designee will ensure appropriate procedures and guidelines exist for the granting and recording of academic credit.

CVCC shall award credit for all curriculum courses completed at CVCC with a final grade of D or higher.

Additionally, credit may be awarded as a result of the following processes. Credits awarded through these processes shall not exceed seventy-five percent (75%) of the total credit hours required for graduation in a student's program of study.

- a. CVCC will review official transcripts for possible transfer credit for any course(s) completed at a regionally-accredited institution that is (1) relevant to the student's program of study, (2) evidences competencies that are equivalent to those required for successful completion of the equivalent CVCC course, and (3) when the course was completed with a final grade of "C-minus" or higher.

CVCC will not accept or evaluate transfer credit that was earned on the quarter system unless the regionally-accredited institution is currently operating on the quarter system. CVCC will not allow transfer credit earned on the quarter system to be used as a sufficient pre-requisite to gain entrance into a higher level course. Students may petition for credit of these courses to be granted through a credit by exam assessment with the appropriate Department Head or Director. (See section d). Any exceptions to this procedure must be approved by the Chief Student Services Officer or designee.

Students must submit all official transcripts from other regionally accredited institutions to complete the Admissions process. It is the student's responsibility to request all official transcripts and it is preferred that transcripts be mailed directly to the Student Records Office from the institution(s) attended or submitted electronically through a third party vendor directly to the Student Records Office. Official sealed transcripts may also be submitted at the Student Records Office. Official transcripts will be evaluated and credit appropriate to the student's program of study will be documented in the student's academic record.

For any course(s) not in CVCC's approved program of study, Student Records will review the NCCCS Combined Course Library (CCL), General Education Matrix, and CAA Approved Transfer Course List to determine if the course(s)

are eligible for transfer. If eligible, Student Records will seek approval from the appropriate Dean to transfer the course(s). This transcript evaluation includes the appropriate awarding of waiver(s) for developmental courses.

Students are sent an email regarding credits awarded (or not awarded) from other post-secondary transcripts to their secure CVCC student email account. This information can also be found as a Transfer Summary in their My CVCC Portal.

Student access to transcripts received from other educational institutions is limited to visual access. CVCC does not provide students with file copies or photocopies of transcripts received from other educational institutions.

- b. CVCC will grant transfer credit for a course completed at a foreign (outside the United States) institution provided that the coursework is (1) relevant to the student's program of study, (2) the competencies required for successful completion are at least equivalent to those required for successful completion of the equivalent CVCC course, and (3) the course was completed with a final grade of "C-minus" or higher. The Chief Academic Officer or designees will determine relevance to the program of study and equivalence of competencies.

Foreign secondary or post-secondary transcripts must be written in the English language or translated literally (word for word) into the English language and evaluated by a member of the National Association of Credential Evaluation Services (NACES). Foreign secondary level transcripts must indicate US high school equivalency. Foreign post-secondary transcripts must indicate potential transfer credit for courses at CVCC.

The student must request official documents be sent to the NACES evaluating agency from their educational institutions. Once the report has been completed, the NACES evaluating agency must send an official report directly to CVCC Student Records that includes a copy of the official document(s) submitted to the agency and the official evaluation and/or translation report performed by the agency. The report must include the student's name as issued on the original document(s) and date of birth. The report must be signed by the evaluator and include the evaluator's credentials.

Student copies of the report are not accepted.

If the student name is not consistent on all documents, students may be required to submit legal documentation with proof of their name change. Legal documents accepted for proof of name changes are legible certified copies that have a raised seal and certification by a US government official. These documents include Marriage Certificate, Divorce Decree, Certificate of US Naturalization, or US Court Order approving the name change.

- c. CVCC participates in the awarding of community college articulated credit for high school Career and Technical Education courses.
- d. Students enrolled in degree, diploma, or certificate programs and special credit students may petition for credit by exam. To be eligible for

credit by exam, the student must provide evidence of prior education and/or experience which would likely have provided skills, knowledge, and/or abilities similar to those provided in the CVCC course. The Dean for the school in which the course is housed will determine the credit to be allowed, if any. Credit will be based upon the minimum attainment of a grade of "B" on oral, written, and/or manipulative tests and the credit hours indicated for the appropriate course in the current catalog.

- e. Students may earn credit by successfully completing (score of 3 or better) Advanced Placement (AP) exams sponsored by the College Entrance Examination Board and/or by successfully completing (scores per ACE guide) College Level Examination Program (CLEP) exams.

Transfer credits, credits granted based on advanced placement assessments, and credits earned by successful completion of AP/CLEP exams may be used to satisfy program of study requirements but will not be included in the calculation of semester or cumulative grade point averages (GPAs).

Transfer credits, credits granted based on advanced placement assessments, and credits earned by successful completion of AP/CLEP exams may not be used to obtain VA educational benefits or federal financial aid.

Tuition and/or charges may apply for certain non-credit course assessments.

Auditing a Course

Students may attempt a course as an audit student one time. Students may not audit a course for which they have received credit unless justified by a clear benefit connected to a current program of study at CVCC.

Students who audit a course must satisfy all requisite requirements for the course just as do students taking the course for credit. These requirements include complying with class attendance expectations, assignments, and participating in class activities. Students who audit a course are not required to take examinations unless specified by the academic department.

Students who audit a course will not receive a grade (other than AU or SR) or credit for the course. Grades earned for audited courses (AU or SR) do not satisfy prerequisite requirements to enroll in additional courses that have prerequisite requirements. Credit will not be granted under advanced placement procedures after enrolling in a course as an audit student.

Tuition and fees for auditing a course are the same as those for enrolling in a course for credit. According to Special Provisions for Senior Citizens cited in the State Board of Community College Code 1E SBCCC 1000.2, a senior citizen may audit a course without payment of any required tuition, but shall pay the applicable self-support fee for registration into a self-supporting course section and shall pay any applicable local fees.

Students should be aware that audited credit hours do not qualify for federal financial aid, VA education benefits, and certain other grants and/or scholarships.

Students should make the request to audit a course at the time of registration in the Advising Center or send an email to advising@cvcc.edu from the student's secure CVCC-issued email account. Audit requests will be considered on a space-available basis and auditing students may not displace students who are taking a course for credit. Audit registrations will be completed on the last business day before the start date of the course. Any applicable tuition and/or fees are payable upon registration confirmation.

Grades earned for audited courses (AU or SR) do not satisfy prerequisite requirements to enroll in additional courses that have prerequisite requirements.

The request to change course status from Credit to Audit or from Audit to Credit after the course begins must be approved by the faculty member of the course and the Chief Student Services Officer or designee. This request must be made prior to testing and/or project submission in the course.

Course Attendance Expectations

Catawba Valley Community College does not have a college-wide institutional attendance policy. However, best practices indicate that successful course completion is correlated to attendance. Therefore, each academic school may have an attendance expectation. Each faculty member is required to communicate attendance expectations to students. These attendance expectations should be included in the course document and faculty members' syllabi for each course.

Faculty members are required to maintain and submit accurate attendance and/or membership reports for their classes in accordance with 1G SBCCC 200.93 and according to instructions provided by the Chief Student Services Officer or designee. Attendance and/or membership records shall comply with all federal and state guidelines related to the disbursement of financial aid and Veterans' benefits. Procedures to ensure the recording and reporting of attendance and/or membership in accordance with the above policies shall be monitored by the Chief Financial Officer.

If an unplanned and/or unexpected event causes a faculty member to be late to class, every effort should be made to communicate the arrival time to the students in the class.

Religious Observance Absences

Students shall be permitted excused absences from all classes two days per academic year for religious observances as recognized by the faith of a student. Students shall be provided reasonable opportunity to make up any tests or other work missed due to an excused absence for a religious observance. Specific procedures that students must follow to obtain authorization for an excused absence for a religious observance shall be established by the Chief Academic Officer. These procedures shall, at a minimum, require the student to submit a written request for the absence sufficiently in advance to permit the faculty member and student to develop a sound plan for making up any missed class work.

All students must plan absences from a class so that their total absences, including any absences authorized in accordance with this policy, do not violate the attendance expectations specified by the faculty member, a certifying board, or an accrediting agency. For purposes of this policy, an academic year begins on the first day of the fall semester and ends on the last day of the summer semester in the following calendar year.

Withdrawals

Faculty do not have the responsibility to withdraw students from their classes. This is a student responsibility.

Students are encouraged to complete each class for which they register to advance toward program completion. CVCC provides various resources to assist students with successful class completion. These resources are listed in the Portal under Student Resources.

However, it may become necessary in some cases for students to withdraw from a class.

On or before the 60% point of a class:

- Students may initiate the withdrawal process in the Advising Center on campus or by sending an email to advising@cvcc.edu from their secure CVCC-issued email account.
- The email must contain the following information for the withdrawal to be processed:
 - Student First/Last Name
 - CVCC Student ID number
 - Course and Section number (Example: PSY 150 101)
 - Last Date of Attendance in the Course. If the course is online only, the last date that you worked in the course (took a quiz, completed an assignment, etc.). If you took the Mandatory Course Entry Quiz only, use the date you completed the Quiz. The last date you put in the email must match the last date that the faculty has for your attendance.
 - Reason for Withdrawal.
- All information is required. Incomplete emails will not be processed.
- This process is time sensitive and must be completed on or before the 60% point of the class.
- A complete listing of the 60% point of all classes can be accessed at Semester Schedules on the CVCC website.
- A grade of WP (Withdrew Passing) will be earned.
- A grade of WP will not affect the student's GPA in a negative manner.
- A grade of WP will affect the student's completion rate. Program completion will be delayed and financial aid may be impacted in a negative manner.

After the 60% point of a class:

- Students will not be allowed to withdraw from a class after the 60% point of the class.
- All student work will continue to be graded through the end of the semester, and students will

earn the appropriate grade of A, B, C, D, F, or in some instances, the temporary grade of I.

Extenuating Circumstances beyond the Student's Control:

Occasionally extenuating circumstances beyond the student's control may occur that prevent the student from successfully completing the class and the 60% point of the class has already occurred. Should one of these extenuating circumstances occur, the student should consult the appropriate faculty member(s) and submit the "Request for Withdrawal After the 60% Point of the Class."

- Appropriate documentation must be submitted.
- The "Request for Withdrawal After the 60% Point of the Class" form can be found in the Portal under Forms.
- If the "Request for Withdrawal After the 60% Point of the Class" is approved, the grade will be WP.

Curriculum Course Repeat Policy

A student may attempt a course a maximum of two times. A course is considered attempted when any one of the following grades is recorded on the student's transcript: A, B, C, D, F, WP, WF, AU, CS, P, P1, P2, P3 or R. The highest grade received will be used in the computation of the student's academic grade point average. An academic program may have a more restrictive policy regarding the number of permissible attempts to fulfill a program requirement. Students should be aware that satisfactory academic progress requirements exist for students applying for or receiving financial aid and that repeated attempts of a course may have an undesirable effect on these satisfactory progress measures. Exception to the 2-attempt maximum may be granted if the student has not completed the course with a grade of A, B, C, P, P1, P2, or P3 and if the student provides documented evidence of extenuating circumstances, academic intervention which increases the likelihood of success in the course, or three-year break in enrollment. Petition for exceptions should be directed to the Chief Student Services Officer or designee.

Students may request the opportunity to repeat a course that has been attempted more than two (2) times in the office of the Director of the Advising Center. This request must be made during a period of curriculum registration.

Academic Sanctions and Due Process

When a student's cumulative grade point average is based upon 12 or more credit hours at the 100 level or above (for Career and College Promise students who have completed two (2) or more courses-see the procedure below) and is less than a 2.000, the student shall be placed on academic probation. The Chief Student Services Officer or designee shall be responsible for notifying the student and for establishing procedures to ensure the student receives academic counseling. Certain programs may establish additional academic progress requirements and impose sanctions for failure to meet those requirements. The Chief Academic Officer shall ensure any additional academic requirements and potential sanctions for failure to meet those requirements are communicated to students in those programs.

Student academic progress is monitored each semester and the GPA will be calculated when all requirements have been completed and verified for the semester. Each student who has earned a GPA eligible for Academic Probation will be notified by the Student Records Office through the student's secure CVCC-issued email account. This notification email will direct the student to visit the Advising Center by a specific date to receive academic counseling designed to improve academic performance. The Academic Probation notation will be recorded in the database and will prevent the student from future registration until the student has met with an Advisor in the Advising Center. Depending on the actual GPA and subsequent academic progress, it is possible for a student to be on Academic Probation for multiple semesters. The student will repeat this process until the earned GPA is 2.000 or higher and the student is no longer eligible for Academic Probation.

Academic Sanctions Procedure - Career and College Promise Students

College Academic Progress: When a Career and College Promise (CCP) student has taken two or more courses in the selected CCP pathway(s) and has less than a 2.000 cumulative GPA in college coursework, the student will not be able to continue in the CCP Program at CVCC.

Student academic progress in CVCC coursework is monitored each semester by the CCP Administrator and/or Facilitator. The cumulative GPA must be 2.000 or higher for the student to continue full participation in the CCP Program. If this required GPA is not maintained, the CCP Administrator or Facilitator will communicate this information with (1) the student's high school administrator/designee via email, and (2) to the student via the secure CVCC-issued email account.

The student, in collaboration with the parent/guardian and the high school, can then choose one of the following options: (1) the student does not continue in the CCP Program, OR (2) the student, with the high school's approval, may repeat one previously taken course with an earned "D" or "F," pending seat availability, in an attempt to improve the college GPA.

High School Academic Progress: A CCP student who is not making adequate progress toward high school graduation (credit completion/promotion standards), will not be able to continue in the CCP Program at CVCC. This academic progress is directly related to the student's high school graduation plan.

Student academic progress is monitored each semester and is recorded on the CCP Verification Form. This information is provided and verified by the student's high school administrator or designee and communicated to the CCP Administrator and/or Facilitator through the CCP Verification Form. The high school also provides a current high school transcript for each student.

Graduation Information

Requirements for Graduation

The student is responsible for applying officially to Student Services for the degree, diploma or certificate according to guidelines established by the Chief Student Services

Officer. Students who apply for graduation and then fail to graduate must reapply.

The student is responsible for determining and fulfilling all requirements for the program of study from which the student expects to graduate. Minimum credit hours and the required courses for each program have been established and are listed in the Program Listings section of the CVCC General Catalog. A minimum graduation requirement of all curriculum programs is a cumulative grade point average of 2.000. Certain programs may have additional requirements. Students should consult the Advising Center for information on program and graduation requirements

The catalog of record is the catalog that is current at the time a student enrolls at CVCC in the program of study. If a student changes the program of study, then the catalog of record becomes the catalog that is current at the time of that program change. To graduate under a program of study, a student must meet the requirements of the catalog of record or any catalog in effect within the next five years as long as the student has been continuously enrolled. A break in enrollment occurs when a student is not enrolled for two consecutive semesters (i.e. fall and spring or spring and fall). Students are not required to be enrolled during the summer semesters to maintain continuous enrollment. If a student breaks enrollment, the catalog of record will be become the catalog that is current at the time of reentry. From that point of reentry, the rule of continuous enrollment will apply. The Chief Student Services Officer or designee has the authority to choose a catalog within a five-year period of continuous enrollment that best suits the student's needs for the particular program of study at the time of graduation. Exceptions to this policy must be approved by Chief Academic Officer.

To be eligible for graduation, the student must fulfill all financial obligations to the College.

Graduates are required to complete an exit survey prior to receipt of their diploma or certificate.

The student is responsible for officially applying for the degree, diploma, or certificate. A student can apply for and graduate from a program at the conclusion of the semester in which all requirements have been met.

1. CVCC will attempt to graduate the student by the CVCC-approved program of study first.
2. If the student does not meet the CVCC-approved program of study, Student Records will seek approval from the appropriate Dean to consider graduation by the approved state standard.
3. The Associate in General Education and General Occupational Technology degrees are reserved for students who have completed appropriate coursework and credit hours, but who do not meet all the requirements and/or have enough hours for any of the AA, AS, AE, AFA, AGE-Nursing, or AAS programs at CVCC.

Residence Requirement

Beginning fall 2019, students graduating from CVCC must enroll in and complete at CVCC a minimum of twenty-five percent (25%) of the semester hours required for their program of study (credits granted through transfer credit and advanced placement credit processes may not be used

to satisfy this requirement). The final fifteen (15) credit hours of study prior to graduation must be completed at CVCC unless special permission is obtained from the Chief Student Services Officer or designee.

Effective March 29, 2019, the Department of Defense retired the Servicemembers Opportunity Colleges (SOC) network. CVCC has signed the Department of Defense Memorandum of Understanding (DoD MOU). See Policy 2.27 Graduation (residency requirement).

Last Fifteen (15) Credit Hours Requirement

CVCC requires that students complete the last 15 hours of coursework at CVCC unless a waiver is requested and approved. Students should work with the Advising Center for assistance with this requirement, including obtaining a copy of the Waiver Form. This requirement will be checked by Admissions Staff when the student begins the graduation application process.

Commencement Ceremony

The college celebrates the achievement of graduation once an academic year at a Commencement Ceremony in the spring semester. Students who have completed requirements within the academic year cycle (Fall, Spring, Summer) are encouraged to participate in the Commencement Ceremony. Students begin the graduation application process with Admissions Staff in Student Services. Specific priority deadlines have been established and are published on the Student Records web page under Graduation.

Graduation Information can be viewed at the following url address:

www.cvcc.edu/Academic-Resources/Admissions/Advising-Center/index.cfm

Graduating with Honors or High Honors

Honors/High Honors Designation for Graduation

Students graduating from a degree or diploma program of study with a final cumulative grade point average (GPA) greater than or equal to 3.500 and less than 3.800 will receive recognition in their permanent student record as graduating with "Honors." This calculation is performed when all program requirements are complete and grades are verified. The "Honors" distinction will be denoted on the official transcript and on the diploma.

Students graduating from a degree or diploma program of study with a final cumulative GPA greater than or equal to 3.800 will receive recognition in their permanent student record as graduating with "High Honors." This calculation is performed when all program requirements are complete and grades are verified. The "High Honors" distinction will be denoted on the official transcript and on the diploma.

Honors/High Honors Designation for Commencement Program

Cumulative grade point averages (GPA) will be determined at the conclusion of each fall semester for the purpose of recognition in the Commencement Program produced for the CVCC Commencement Ceremony that is held in the spring semester. The Student Records Office will calculate this GPA for students who submit the Graduation

Application by the required priority deadline. This GPA may be different than the GPA calculated at the conclusion of the program of study.

Questions should be directed to the Student Records Office.

Graduate Guarantee

Catawba Valley Community College offers a graduate guarantee that covers all students who have earned associate degrees at CVCC. Catawba Valley Community College guarantees that associate degree graduates will function productively in the areas of critical thinking, problem-solving, and communication, and also makes the degree-specific guarantees as outlined below.

Graduate Guarantee - College Transfer Degrees

CVCC guarantees that its Associate in Arts, Associate in Science, Associate in Engineering and Associate in Fine Arts graduates will be able to transfer courses taken to fulfill the requirements for a bachelor's degree to four-year universities as provided in the North Carolina Comprehensive Articulation Agreement and the North Carolina Independent Colleges Articulation Agreement.

Graduate Guarantee - Career Degrees

CVCC guarantees that its Associate in Applied Sciences graduates are proficient in the areas of knowledge and basic skills covered by their educational programs. If a graduate is found deficient by an employer, the student will be retrained with no tuition charged to the employer or student. The Graduate Guarantee consists of the following

1. The graduate must be employed full-time in an area directly related to the graduate's area of study within 12 months of graduation.
2. Should the employer deem that a CVCC graduate is lacking in an entry-level skill, the employer must certify the deficiency in writing to the Chief Academic Officer within 90 days of the graduate's initial employment. The employer's entry-level expectations must be consistent with those skills and competencies routinely taught in the CVCC program from which the student graduated.
3. A written educational plan for retraining will be developed and approved by the employer, graduate, department head, and dean.
4. The educational plan will limit retraining to 12 tuition-free semester hours directly related to the identified skill deficiency.
5. All retraining must be regularly-scheduled courses on CVCC's normal class schedule.
6. Retraining specified by the educational plan will be provided with no tuition charged to the employer or student. Books, fees, uniforms, insurance, supplies, and other items are the responsibility of the student or employer.
7. All retraining must be completed within 12 months from the time the educational plan is approved.
8. Courses may be repeated only once under the terms of this graduate guarantee.
9. This guarantee does not imply that a graduate will pass any third-party or governmental licensing, certification, or qualifying exam, and failure to pass such an exam does not qualify a

graduate to retrain under the terms of this guarantee.

10. Employers who wish to make claims under the terms of this guarantee should contact the Chief Academic Officer.
11. This graduate guarantee is effective for students who begin their course work in Fall of 2012 and does not apply retroactively to prior graduates.
12. The exclusive remedy under this guarantee is as provided above and is intended solely as a statement of educational commitment to graduates and employers. It is not intended to create any specific legal rights or causes of action.

Student Records and Transcripts

Privacy of Students (FERPA)

CVCC protects the privacy of students in accordance with the Family Educational Rights and Privacy Act (FERPA) of 1974 (the "Act"), as amended, enacted as section 444 of the General Education Provisions Act. A copy of the Federal Regulations setting out the requirements for the protection of the privacy of students under the act is available at Federal FERPA Regulations (see Title 34 - Education, Subtitle A, Part 99), or in Student Services.

Under this Act, students have the right to:

- Inspect and review their education records;
- Seek amendment of their education records that they believe to be inaccurate, misleading, or otherwise in violation of their privacy rights;
- Consent to disclosures of personally identifiable information contained in their record, except to the extent that the Act (and in particular section 99.31) authorizes disclosure without consent; or
- File with the U.S. Department of Education a complaint under Sections 99.63 and 99.64 concerning alleged failures by the College to comply with the requirements of the Act.

A student may exercise the right to inspect and review the student's own education record by making written request to the Director of Student Records.

A student may request amendment(s) to the student's own education record under section 99.20 of the Act by contacting the Director of Student Records. The Director of Student Records will attempt to resolve the issue. If the student is not satisfied with the resolution offered by the Director of Student Records, then the student may commence formal student due process procedures according to Policy 3.19: Student Due Process.

Education Records

Education records are records that are directly related to a student and that are maintained by an educational institution. These records contain both directory information and personally identifiable information about the student. The information may be recorded in any way, including, but not limited to, handwriting, print, computer media, videotape, audiotape, film, microfilm, microfiche, and email. Some examples of education records are grades, transcripts, class rosters, student course schedules, student financial information, student discipline files, health records, and disabilities education act records.

In accordance with 34 CFR 99.31 of FERPA CVCC does disclose education records to CVCC officials, including faculty and/or staff, who are determined to have a legitimate educational interest. Faculty/staff are considered to have a legitimate educational interest if they might reasonably need to access information to academically advise a student or assist the student in a transaction with CVCC. All full-time faculty/staff have access to the student database through their secure user name and login.

Directory Information

Directory Information is information contained in a student's education record that would not generally be considered harmful or an invasion of privacy if disclosed. In accordance with 34 CFR 99.3 (a) of FERPA, each institution is required to define its directory items.

At CVCC, the following information is defined to be directory information:

- Name
- Student identification number
- Photograph
- Major field of study
- Participation in officially recognized activities and sports
- Weight and height of members of athletic teams
- Date(s) of attendance
- Enrollment status (full-time, part-time, or not enrolled)
- Degrees, honors, and awards received
- Class level (Freshman or Sophomore)
- Most recent previous educational agency or institution attended

Post-secondary institutions are required by the Solomon Amendment to comply with requests for directory information about students enrolled in programs of study at the college. CVCC provides the following directory information to comply with the [Solomon Amendment](#).

- Name
- Address
- Institutionally assigned email address
- Telephone numbers
- Degree(s) awarded
- Major field of study
- Class level (Freshman or Sophomore)
- Date of birth

In accordance with 34 CFR 99.37(d) of FERPA, the institution is NOT required to release directory information-it is at the discretion of the institution. It is not CVCC's practice to release directory information to third parties except for those that CVCC deems to have a legitimate educational interest in the information or who provide a service on behalf of CVCC.

Process to Opt Out

Notice is made each semester to inform students that they may opt out of having their directory information made available by submitting a completed "Request to Withhold Directory Information Form" found on the CVCC Portal under Forms. Requests will be processed in a timely manner as they are received and shall be effective at the

date/time of processing. A request to withhold directory information is in effect permanently, even if the student is no longer enrolled at CVCC, and can only be removed by the student in writing by submitting a completed "Request to Release Directory Information Form" found on the CVCC Portal under Forms.

Students should be aware that a request to withhold directory information results in the following:

- Student name/address is excluded from printed/electronic material such as media releases for honors/high honors announcements or awards/scholarships received, commencement programs, awards programs, etc.
- Enrollment and degree-awarded inquiries from third parties, such as potential employers, insurance companies, and others will neither receive a confirmation of enrollment nor graduation.
- No information will be released to any person(s) on the telephone or via email.
- No information will be included in sports information programs.
- Personal information changes must be made only by the student in person at Student Records with a valid, government-issued photo ID.
- It is important to note that a student's request for confidentiality does not permit the student to be anonymous in class (including an online class) nor to impede or be excluded from class communication.

Personally Identifiable Information

Personally identifiable information is information that directly identifies the student or information that a reasonable person in the school community would use to identify the student with reasonable certainty. This information could be requested by a person who CVCC reasonably believes knows the identity of the student to whom the education record relates. Under the Act, disclosure of personally identifiable information can be disclosed if CVCC obtains the signature of the student on a document specifically identifying the information to be disclosed, the reason for the disclosure, and the parties to whom the disclosure will be made. Oral consent for disclosure does not meet FERPA requirements.

In accordance with 34 CFR 99.31(8) of FERPA, CVCC may not disclose personally identifiable information to the parents of an "eligible student" without the written consent of the student unless the disclosure is to parents of a dependent student as defined in section 152 of the Internal Revenue Code of 1986. An "eligible student" means a student who is 18 years of age or is attending an institution of postsecondary education. Parents must provide appropriate tax return information documenting the dependent status of the student before disclosure will be made without his/her written consent. Policy 3.17 is applicable for all students, regardless of the mode of instructional delivery for the courses in which the students are enrolled.

In accordance with 34 CFR 99.31 of FERPA, CVCC is also allowed to disclose personally identifiable information from

the education record of a student without consent when the disclosure is made to one of the following:

- School officials with legitimate educational interest
- Other postsecondary institutions to which the student seeks to or intends to enroll or is already enrolled for purposes related to the enrollment or transfer
- Specified officials for audit or evaluation purposes
- Appropriate parties in connection with financial aid to a student
- State and/or local officials or authorities to whom this information is specifically allowed to be reported or disclosed
- Organizations conducting certain studies for or on behalf of CVCC
- Accrediting organizations to carry out their accrediting functions
- To comply with a judicial order or lawfully issued subpoena
- Appropriate officials in cases of health and safety emergencies
- The parent of a student who is not an eligible student or to the student
- Disclosure in connection with a disciplinary proceeding
- The final results of the disciplinary proceeding conducted to the victim of an alleged perpetrator of a crime of violence or a non-forcible sex offense
- Disclosure to a parent of a student regarding the student's violation of any Federal, State, or local law or any rule or policy of CVCC governing the use or possession of alcohol or a controlled substance
- Disclosure concerning sex offenders and other individuals required to register under section 170101 of the Violent Crime Control and Law Enforcement Act of 1994

FERPA protection of personally identifiable information in a student's education record ends at the time of death.

Copies of Academic Records

CVCC will provide students with official copies of their CVCC transcript and/or results of placement testing and other testing administered by CVCC Testing Services. Proof of identity is required to obtain an official transcript and/or test score report. There is a fee for an official copy of the CVCC transcript.

For an official copy of the CVCC transcript, the process is detailed on the Student Records page at <https://www.cvcc.edu/Academic-Resources/Student-Records/transcript-request.cfm>

For an official copy of test scores that have been taken at CVCC, the process is detailed on the Testing Center page at <https://www.cvcc.edu/Academic-Resources/Testing-Center/index.cfm>.

Student access to transcripts received from other educational institutions is limited to visual access. CVCC does not provide students with file copies or photocopies of

transcripts and/or test reports received from other institutions.

Students have access to unofficial copies of their CVCC transcript at their secure Student Self Service account on the CVCC Portal.

Student Record Retention

CVCC maintains student records in accordance with North Carolina General Statutes 121-5(c) and 132-8. The CVCC Records Retention and Disposition Schedule was developed by CVCC Administration and has been approved by the State Archives of North Carolina and the North Carolina Community College System.

Any officially submitted document that supports information posted on the student's transcript will be scanned into the secure CVCC database and retained in support of the transcript.

CVCC Records Retention and Disposition Schedule is located at the following page: <https://archives.ncdcr.gov/government/retention-schedules>

Grading System

The measure of a student's overall academic performance for curriculum courses attempted at CVCC and with a course number greater than or equal to 100 shall be a per credit hour grade point average (GPA) based on a 4.000 scale. A student shall receive 4 grade points per credit hour for excellent performance (letter grade A), 3 grade points per credit hour for above average performance (letter grade B), 2 grade points per hour for average performance (letter grade C), 1 grade point per hour for below average performance (letter grade D), and 0 grade points per hour for failing performance (letter grade F or WF).

Valid grades for developmental courses (All DMA, All DRE, CTS 080, OST 080) are P (indicates satisfactory completion), R (unsatisfactory completion-student must retake the course), and WP (indicates withdrew passing). Developmental courses shall be included in the computation of attempted credits and earned credits but shall be excluded from all GPA computations.

Valid grades for transition courses (ENG 002 and MAT 003) are P1, P2, and P3 (indicates satisfactory completion), R (unsatisfactory completion-student must retake the course), and WP (indicates withdrew passing). Transition courses shall be included in the computation of attempted credits and earned credits but shall be excluded from all GPA computations.

Valid grades for supplemental courses (ENG 011, MAT 010, MAT 021, MAT 043, MAT 052, and MAT 071) are P (indicates satisfactory completion), F (unsatisfactory completion-student must retake the course), and WP (indicates withdrew passing). Supplemental courses shall be included in the computation of attempted credits and earned credits but shall be excluded from all GPA computations.

The Administrative Instructional Council (AIC) shall establish the numerical averages (numerical scale) to be used to assign the letter grades specified above. Such numerical averages shall be used by all curriculum instructors when assigning letter grades.

Students are encouraged to complete each class for which they register to advance toward program completion. CVCC provides various resources to assist students with successful course completion. These resources are listed in the Portal under Student Resources. However, it may become necessary in some cases for students to withdraw from a course.

On or before the 60% point of a class:

Students may initiate the withdrawal process in the Advising Center on campus or by sending an email to advising@cvcc.edu from their secure CVCC-issued email account. An advisor will assist the student with the process.

This process is time sensitive and must be completed on or before the 60% point of the class.

A complete listing of the 60% point of all classes can be accessed at Semester Schedules on the CVCC website.

A grade of WP (Withdrew Passing) will be earned.

A grade of WP will not affect the student's GPA in a negative manner.

A grade of WP will affect the student's completion rate. Program completion will be delayed and financial aid may be impacted in a negative manner.

After the 60% point of a class:

Students will not be allowed to withdraw from a class after the 60% point of the class.

All student work will continue to be graded through the end of the semester, and students will earn the appropriate grade of A, B, C, D, F, or in some instances, the temporary grade of I.

Extenuating Circumstances beyond the Student's Control:

Occasionally extenuating circumstances beyond the student's control may occur that prevent the student from successfully completing the class, and the 60% point of the class has already occurred. Should one of these extenuating circumstances occur, the student should consult the appropriate faculty member(s) and submit the "Request for Withdrawal After the 60% Point of the Class."

Appropriate documentation must be submitted.

The "Request for Withdrawal After the 60% Point of the Class" form can be found in the Portal under Forms.

If the "Request for Withdrawal After the 60% Point of the Class" is approved, the grade will be WP.

A temporary grade of I (Incomplete) may be recorded if, in the judgment of the faculty member of the class, extenuating circumstances exist. A temporary grade of I indicates that the course has not been completed satisfactorily, and any course with this grade will not satisfy prerequisite requirements for additional coursework. The course must be completed, and the temporary grade of I replaced with the final course grade before the begin date of the next semester. If a passing grade is not earned, the temporary grade of I will be replaced with an F. Exceptions are at the discretions of the Chief Academic Officer.

The Chief Student Services Officer or designee shall ensure that the grade system and the processes used for record-keeping purposes comply with the above policy.

Valid grades other than those discussed above may appear on transcripts due to enrollment activity recorded under previous grading systems at the College. As a matter of academic continuity, CVCC reserves the right to impose special provisions during unforeseen crisis or periods of operational interruption. For example, during the Spring 2020 COVID-19 crisis, special consideration was afforded to students who may have been impacted by the COVID-19 virus. Students could request the grade of WE (Withdraw Emergency) through the last day of the semester. As with a normal withdraw, students repeat the course following normal enrollment policies and procedures. For classes that could not be completed during the normal length of the Spring 2020 semester, a temporary grade of IE (Incomplete Emergency) could be issued with a completion date of no more than one year.

Further details regarding the current grading system is available on the CVCC Procedures webpage titled Grading Procedure. These details include the numerical averages (numerical scale) established by the Administrative Instructional Council to be used to assign the letter grades outlined in this policy.

Table 1 provides the numerical scale established by the Administrative Instructional Council (AIC) for the determination of the final letter grade in a course beginning with Spring 2019 semester.

Final Letter Grade	Numerical Average	Grade Points Earned Per Credit Hour	Other Comments
A	90 - 100	4.0	Excellent Not a valid grade for Developmental/Transition /Supplemental Courses
B	80 - 89	3.0	Above Average Not a valid grade for Developmental/Transition /Supplemental Courses
C	70 - 79	2.0	Average Not a valid grade for Developmental/Transition /Supplemental Courses
D	60 - 69	1.0	Below Average Not a valid grade for Developmental/Transition /Supplemental Courses
F	Below 60	0.0	Failed Not a valid grade for Developmental/Transition /Supplemental Courses
WF	Below 60	0.0	Withdrew Failing Not a valid grade for Developmental/Transition /Supplemental Courses

P	80 -100	Not Applicable	Passed Valid grade for all Developmental Courses (All DMA, All DRE, CTS 080, OST 080)
R	Below 80	Not Applicable	Re-enroll Valid grade for all Developmental Courses (All DMA, All DRE, CTS 080, OST 080)
P1, P2, P3	85-100	Not Applicable	Passed Valid grade for Transition Courses (ENG 002, MAT 003)
R	Below 85	Not Applicable	Re-enroll Valid grade for Transition Courses (ENG 002, MAT 003)
P	70-100	Not Applicable	Passed Valid grade for Supplemental Courses (ENG 011, MAT 010, MAT 020, MAT 043, MAT 052, MAT 071)
F	Below 70	Not Applicable	Failed Valid grade for Supplemental Courses (ENG 011, MAT 010, MAT 020, MAT 043, MAT 052, MAT 071)
WP	Not applicable	Not Applicable	Withdrew Passing Valid grade for all Courses
AU	Not applicable	Not Applicable	Audit Valid grade for all Courses
SR	Not applicable	Not applicable	Senior Audit Valid grade for specific courses (*Effective 2017FA)
WE	Not applicable	Not applicable	Withdraw Emergency due to COVID-19 (Spring Semester 2020 Only)
IE	Not applicable	Not applicable	Incomplete Emergency due to COVID-19 (Spring Semester 2020 Only)

How To Calculate GPA

The measure of a student's overall academic performance at the college shall be a grade point average (GPA) based on a 4.0 scale. The computation of GPA includes only those courses completed at CVCC numbered 100 or higher and for which a grade of A, B, C, D, F, or WF is received. (See also Repeat Policy).

The GPA may be calculated in the following manner:

1. Determine Total Hours Attempted. (Hours attempted are equal to the number of credit hours assigned to a course as shown on your CVCC transcript.)

2. Determine Total Grade Points Earned. The grade point value for a course is multiplied by the number of attempted credit hours for the course.

For Example: A grade of "A" is earned in ENG 111. A grade of "A" carries a value of 4 credit hours. ENG 111 is a 3 credit hour course: $4 \times 3 = 12$. In this example, 12 grade points were earned for ENG 111.

3. Divide the Total Grade Points Earned by the Total Hours attempted to determine Cumulative GPA.

Example:

Course/Hours Attempted/Grade Earned/Grade Points Earned
 BIO 168: 4 credit hours and student earned an A: $4 \times 4 = 16$
 ART 111: 3 credit hours and student earned a C: $3 \times 2 = 6$
 ACA 111: 1 credit hour and student earned a B: $1 \times 3 = 3$

Total Grade Points Earned = 25

Total Hours Attempted = 8

GPA = 25 divided by 8 = 3.125

Grades and Grade Changes

A student's final grade for a course is determined by the faculty member for the course and submitted to Student Records. Student Records is responsible for making the grade available to the student through a web/internet portal or some other means. Subsequent changes to a grade submitted by a faculty member generally must be authorized by the same faculty member, by the Chief Academic Officer in extenuating circumstances, or by the Chief Academic Officer upon recommendation by a Student Grievance Committee.

A student who has a grievance regarding a final course grade may have his/her grievance reviewed in accordance with Policy 3.19: Student Due Process.

President's List and Dean's List

At the conclusion of the fall and spring semesters, the Chief Academic Officer shall recognize those students who meet the following requirements for inclusion on the President's List or the Dean's List.

- Dean's List: students who complete 6 or more credit hours (included in the computation of GPA) during the completed semester while earning a semester GPA greater than or equal to 3.500 and less than 3.800 on a 4.000 scale.
- President's List: students who complete 6 or more credit hours (included in the computation of GPA) during the completed semester while earning a semester GPA greater than or equal to 3.800 on a 4.00 scale.

The Student Records Office will determine the eligibility of each student to be included on the President's List or the Dean's List at the conclusion of each fall and spring semester. Eligibility will be determined when all requirements for the semester have been processed and verified.

Once the President's List and Dean's List students have been determined, the Student Records Office will make the

list available to the Chief Academic Officer. Each honored student will receive a congratulatory letter through his or her secure CVCC-issued email. The lists will also be published through local media outlets.

Instructional Standards

Academic Freedom

Catawba Valley Community College is committed to the provision of and protection of academic freedom. The college seeks to foster an academic learning environment that allows for the advancement of knowledge and critical thinking on the part of faculty, staff, and students through ethical teaching and research practices. Faculty, staff, and students are expected to use reasonable judgment as they exercise their academic freedom.

The college and its instructional personnel share a unique employer/employee relationship. The relationship must be both mutually beneficial and protective; moreover, the relationship between employee and employer must equally benefit and protect students and trainees. As an employer, the college reserves specific employer rights, as established by state and federal law and the North Carolina Community College System. Such rights include the following:

1. The right to determine initial employment, employment status, continued employment, and dismissal processes for institutional positions;
2. The right to determine appropriate descriptions and academic content of programs and courses (as dictated by the North Carolina Community College System);
3. The right to assign section numbers, delivery formats, scheduling, and supplemental materials (including textbooks and other required tools and/or equipment) to instructional personnel;
4. The right to determine which students may be registered for specific courses and trainings;
5. The right to develop class specifications, to assign titles and salary ranges, and to require specific employment responsibilities (including committee membership and certain restrictions on secondary external employment) for each position of employment; and
6. The right to make administrative decisions that reflect, in the judgment of upper administrative personnel, the best interest in the college's continued operation.

In regard to the concept of Academic Freedom (<https://www.aaup.org/report/1940-statement-principles-academic-freedom-and-tenure>), the institution accepts and promotes the 1940 Statement of Principles on Academic Freedom published by the American Association of University Professors:

1. Teachers are entitled to full freedom in research and in the publication of the results, subject to the adequate performance of their other academic duties; but research for pecuniary return should be based upon an understanding with the authorities of the institution.
2. Teachers are entitled to freedom in the classroom in discussing their subject, but they should be

careful not to introduce into their teaching controversial matter which has no relation to their subject. [see AAUP 1970 Interpretive Comments #2 and #3 contained in Endnotes #4 and #5].

3. College and university teachers are citizens, members of a learned profession, and officers of an educational institution. When they speak or write as citizens, they should be free from institutional censorship or discipline, but their special position in the community imposes special obligations. As scholars and educational officers, they should remember that the public may judge their profession and their institution by their utterances. Hence they should at all times be accurate, should exercise appropriate restraint, should show respect for the opinions of others, and should make every effort to indicate that they are not speaking for the institution.
(<https://www.aaup.org/file/1940%20Statement.pdf>)

Internal Audits

The Chief Academic Officer shall ensure that internal audits are conducted in accordance with North Carolina Community College System guidelines and that the results of those audits reported to the Board of Trustees.

Course Documents and Faculty Syllabi

At the beginning of each course, faculty members will provide students with two sources of information concerning each curriculum course – a course document and a faculty syllabus. These documents are defined below.

Course documents provide general course information that changes little from semester to semester. For instance, the course document will give the course title, course description, and number of hours specified for the lecture, for laboratory, for clinical, and for total semester credit hours – all information mandated by the State Board of Community Colleges. In addition, prerequisites and co-requisites are given as well as the student learning outcomes. Other information that varies little from semester to semester includes the course grading policy, attendance expectations, disability statement, religious observance statement, the academic honest policy, and the CVCC emergency procedures.

The course document provides essential information about each course and communicates basic course information with consistency and accuracy. Course documents are housed on a server and maintained by the Educational Technology Department.

A link to the appropriate course document is automatically loaded into the Blackboard account for each individual course. Thus, students constantly have access to critical information about the course.

Course Documents can be found at:
www.cvvccoursedocs.com/CourseDocIndex.php

The Faculty Syllabus for a course may contain some or all of the information listed in the Course Document. However, the faculty syllabus differs from the course document in that it lists those components of the course that change

frequently such as the course calendar with assignment due dates and the required textbook(s).

The faculty syllabus outlines course requirements and assignments in greater detail than does the Course Document. While individual faculty members will approach their teaching responsibilities with differing techniques, all faculty must guide student learning to reach the same student learning outcomes published in both the course document and the faculty syllabus.

Course documents and faculty syllabi shall be maintained in accordance with the procedures established by the Chief Academic Officer.

Off Campus Instructional Activities

Field trips and other off campus instructional activities must be planned well in advance and approved in accordance with procedures established by the Chief Academic Officer.

Extra-curricular activities engage students and enrich their lives. The entire community takes pride when our athletic teams win championships, when our students travel and learn in distant places, and when our students excel in state, regional, and national competitions. To maintain academic progress and to provide extensive extra-curricular opportunities for students, the following guidelines have been established.

Guidelines for Club Advisers, Coaches, Faculty, and Other Extra-Curricular Leaders

1. To the degree possible, extra-curricular events such as ballgames, field trips, and concerts should be scheduled when the least possible amount of instructional time will be missed.
2. When scheduling athletic competitions, coaches should be aware that requiring student athletes to miss class may cause the student to encounter greater difficulty in passing the class. Effort should be exercised to honor attendance expectations.
3. Coaches should publish the schedule of athletic competitions to the entire college community as well as the team membership roster. These may be found on the CVCC Athletics web site. <http://govcc.com/>
4. When scheduling extra-curricular events such as a field trip or an academic competition that conflict with attendance expectations, the extra-curricular faculty/staff person should email to faculty a description of the upcoming off-campus activity along with a list of student names involved one week in advance of the planned activity. The communication about the activity should clearly indicate the date(s) and times that students involved will be away from campus.
5. At least one week in advance of the date of the off-campus event, the CVCC faculty/staff person responsible for the event will send the "Waiver of Liability and Hold harmless Agreement" form for each student to the CVCC Business Office. This form can be found on the Portal under Forms.
6. Faculty who plan a field trip need to have an alternative assignment for students whose personal circumstances (job, child care, etc.) make

it impossible for the student to participate in the field trip experience.

7. Club advisers, coaches, and other extra-curricular leaders will give a copy of the "Guidelines for Students Involved in Extra Curricular Activities" to all students involved in the activity well in advance of the event.

Guidelines for Faculty of Students Involved in Extra-Curricular Activities

1. Faculty members should maintain the same academic rigor for students involved in extra-curricular activities as with students who are not involved.
2. Faculty members should maintain the same attendance expectations for students involved in extra-curricular activities as with students who are not involved in such events. At CVCC, there are no "excused" absences. A student is present for class instruction or a student is not present.
3. Faculty members should support the excellent learning opportunities that occur outside the formal classroom setting. Therefore, faculty members are encouraged to avoid classroom policies that discourage extra-curricular activities such as "No make-up work is allowed" or "Missed tests may not be made up." Instead, faculty members are asked to work in partnership with students to support learning outside the classroom. As an institution, we can never discuss the art of teaching and learning too excessively. As professionals, we have the power to rethink classroom management policies – balancing student needs with curriculum and faculty needs.
4. To the degree possible, any student officially representing the school in an academic, cultural, or athletic event should be allowed to make up work missed while officially representing the college. For instance, in some cases, assignments or tests may be turned in early, prior to the event or turned in late, after the event. A student should not be penalized for representing the college in an official capacity; however, it is the student's responsibility to be proactive to inform the faculty member of extra-curricular events that conflict with attendance expectations and to make arrangements with the faculty member for making up missed work.
5. Suggested methods for faculty to allow students to make-up missed work include:
 - o Allow students to turn in assignments early, prior to the absence.
 - o Allow students to turn in assignments late.
 - o Allow students to complete alternative assignments if the original assignment would be compromised by early or late submission.
 - o Encourage students to establish a study partner – a classmate who will share class notes and other information when an absence occurs

- o Encourage students to form study groups and to secure a tutor

Guidelines for Students Involved in Extra-Curricular Activities

1. Students involved in officially-sanctioned extra-curricular activities such as field trips, athletic competitions, educational travel, and academic competitions should understand that these extra-curricular activities are secondary to the major goal of completing a course of study and graduating with a degree.
2. Students should clearly understand that at Catawba Valley Community College, there are no excused absences. College students are either present in class to receive instruction, or they are not present. Therefore, absences related to extra-curricular activities should be considered as part of the attendance expectations for each course.
3. Students who must miss classes to participate in school-sanctioned activities are responsible for discussing the absences and work that will be missed in advance of the absence with each faculty member involved. The burden for getting permission to make-up missed work and then for making up that work falls entirely upon the student.
4. Students involved in extra-curricular activities should respectfully approach faculty members during their office hours to inquire about educationally sound ways to cope with missed classes well in advance of the absence. The solution reached will vary from faculty member to faculty member and from discipline to discipline.
5. Students who have to miss classes to participate in extra-curricular activities should understand that important material will be missed with every absence. Many class activities such as lectures, demonstrations, and class discussions are impossible to "make up." Therefore, class attendance is of highest priority.

Food and Drink in the Classroom

The allowance of food and/or drink in classrooms, the Library, and Learning Assistance Center is a decision to be made by class instructors or appropriate supervisors. If allowed, drinks must be in closed containers. If the instructor allows food or drink in the classroom, the room must be left clean for the next instructor. Food and/or drink shall not be permitted in laboratories or classrooms if such permission presents a safety concern or might result in damage to college equipment.

Classroom Safety

Faculty shall promote a safe class environment and shall establish appropriate safety guidelines and procedures for their classes.

Emergency Response and Evacuation Procedures
www.cvcc.edu/About_Us/Procedures/Safety-and-Security.cfm#1A (this document is posted throughout the campus.)

Equipment and Furniture

Employees, students, and visitors are expected to use CVCC equipment and furniture properly, carefully, and safely. Improper or unsafe use of equipment should be reported to an appropriate CVCC administrator. Any damage to or loss of equipment should be reported to the Chief Financial Officer or designee.

Laboratories containing expensive equipment should be locked at all times when an instructor or other designated CVCC representative is not present.

CVCC equipment may be used at an off-campus location when such use is an integral part of a CVCC-sponsored activity. Otherwise, equipment shall not leave CVCC premises unless approved in accordance with procedures established by the Chief Financial Officer. Equipment may not be loaned or removed from CVCC premises for personal use by either students or employees.

Cancellation of Classes

Class cancellations must be approved in accordance with guidelines established by the Chief Academic Officer.

Adverse Weather (campus closings)

The College President or designee will make a decision concerning changes in schedules during all adverse weather conditions. Every effort will be made to make decisions prior to 6:00 AM for daytime operations and by 4:00 PM for evening operations. When the decision is made to "Close", no students, faculty, or staff will be required to report except for essential personnel as determined by the college President.

When a late opening is announced due to weather, all classes and activities scheduled prior to the announced opening time are cancelled. Faculty, staff and students are not expected to arrive on campus until the published opening time. The class schedule resumes at the published opening time. If a class or activity for that day includes time before and after the published opening time, then that class or activity should begin at the published opening time. For example (applies to all Virtual and Seated courses), in a situation where a late opening is announced at 10:00 AM on a Thursday:

- A seated or virtual class scheduled to begin at 9:00 AM and end at 9:50 AM on Thursday would not meet.
- A seated or virtual class scheduled to begin at 9:00 AM and end at 10:20 AM on Thursday would meet for 20 minutes (10:00 AM to 10:20 AM)
- A seated or virtual class scheduled to begin at 10:00 AM and end at 10:50 AM on Thursday would meet for the regularly scheduled 50 minutes.

In situations where the campus is "Closed" or operates under a late opening, Virtual courses are courses that meet online at a designated, synchronous time and will follow the same procedures as those listed above for seated classes. For Virtual and Seated courses that are affected by a closing or a delayed opening for that day, make-up assignments will be posted on Blackboard to be completed.

In some situations, Continuing Education classes may be canceled completely when the college operates under a late opening. Contact the East Campus front office for information regarding class cancellations due to adverse weather.

Work-based Learning

The work-based learning studies shall be integrated with the credit/curriculum programs of studies under the supervision of the Chief Academic Officer or designee. Operation of the program shall be in accordance with the policies and procedures stipulated by the North Carolina Community College System.

Recipients of VA Education Benefits may participate in the work-based learning program if otherwise eligible. Educational benefits will be paid by the Veterans Administration for work-based learning courses if all requirements are met.

Continuing Education

General Information

An important function of the College is to provide quality courses of continuing education for adults. The development of these courses is based upon community needs and interests.

Continuing Education provides life-long learning experiences that will help adults fulfill occupational, social and personal needs. It allows adults to achieve their fullest potential and effectiveness in a rapidly changing world of increasing knowledge, skill and understanding. Courses offered are helpful in achieving occupational goals, as well as increasing the quality of life. The diversity of these programs ranges from basic reading and writing skills to vocational and technical upgrading to cultural and personal enrichment.

CVCC also offers specialized services to the business, corporate, and industrial community.

Admission

Admission to classes in the division is open to individuals 18 years of age or older. Individuals less than 18 years old who are high school graduates or whose high school class has graduated may also enroll in continuing education courses. High school juniors and seniors, sixteen years of age and older, may enroll with permission from high school officials. See general college admissions requirements for further details.

Attendance

Students are expected to attend class regularly. Individual attendance records are maintained and retained. Students must meet attendance requirements to receive recognition for the course. Some classes are offered in accordance with state guidelines which may require stricter attendance policies.

This policy also applies to continuing education courses for which CEUs or certifications are issued. Minimum

attendance requirements are communicated to students. Failure to meet these requirements will result in a grade of U (unsatisfactory). Make-up of missed class time is not guaranteed but may be permitted, within a specified timeline, in documented emergency situations with approval of the faculty, program director, and within state auditing guidelines.

Class Locations

While a number of classes are held on CVCC East and Main campuses, as well as the Alexander Center for Education in Taylorsville, others are conducted at various locations in surrounding communities or within a particular business or industry throughout the area served by CVCC.

Class Schedule

Classes are scheduled continuously throughout each semester. Special business seminars and industrial courses may be scheduled to begin at any time period appropriate to a company and CVCC. For specific announcements of course offerings, registration dates, and locations, check the website: <http://www.cvcc.edu/CCE/schedules.cfm>.

Course Completion

Certificates are given for the satisfactory completion. Requests for enrollment verification or course transcript should be directed to the Continuing Education Business Office located at the East Campus.

Fees

Occupational Extension course fees are on a graduated scale as outlined in the fee schedule on page 14. Other Self-Supporting course fees vary. Fees may be waived in compliance with North Carolina Statutes, as specified under fee waivers. There are no registration fees for enrollees in Basic Skills Education. Other costs in continuing education classes may include textbooks, equipment, tools, or other specific fees.

Intellectual Property Rights

Ownership Of Materials

The College retains the right to use student work produced as a part of class assignments for non-profit educational purposes.

Minimum Enrollment Required

Normally, a course may be offered when a minimum of 10-15 persons enroll for the subject. The College reserves the right to cancel any course when an insufficient number of people register.

To Enroll

Individuals interested in enrolling must register and prepay by mail, telephone, fax, or visiting the CVCC East Campus or Alexander Center for Education. Applicants are registered on a first-come, first-served basis.

Continuing Education (Program Offerings/Centers)

Health & Public Service Innovation Center

Occupational Extension Courses

The College offers many vocational, technical, and business courses. The primary objectives of these courses are to (1) provide adults additional skills and/or knowledge applicable to the present occupation; (2) provide training for occupations in which skill and knowledge requirements are undergoing transition due to technological advances in equipment, materials, and machines; and (3) provide area businesses and industries assistance in meeting manpower needs through other specialized courses.

Occupational upgrading courses are available in each of the following areas:

BUSINESS courses are available to a wide variety of business organizations, administration, management, sales, and secretarial occupations.

COMPUTER courses are also available in popular software applications currently used by local employers. Courses are also available to prepare students to take certification exams in networking such as PC Repair A+.

FIRE, RESCUE, & EMS training is offered for members of municipal, volunteer, industrial fire brigades, and rescue squads. EMT courses are available to the public. Entrance tests are required for certain courses.

Healthcare Training

Healthcare Occupation programs have been established for persons seeking initial or additional training in the medical field. All level courses from entry level to para-professional to professional are offered. Entrance tests are required for certain classes.

- Some programs require criminal background checks and/or drug testing.

Healthcare course offerings include CNA, Phlebotomy, Medical Front Office, Medication Aid, Healthcare Activities director, EKG, and Pharmacy Tech.

LAW ENFORCEMENT courses have been designed for law enforcement personnel in cooperation with training departments of agencies.

Additional information regarding occupational upgrading courses may be obtained by contacting the Continuing Education Office at the CVCC East Campus.

Adult Learning & Personal Enrichment Innovation Center

College and Career Readiness (CCR)

College and Career Readiness covers the main program area of Adult Basic Skills, English as a Second Language, and Adult Secondary Credentials. College and Career Readiness is an instructional program designed to assist adults 16 years of age or older who need academic remediation. Emphasis is placed on assisting the adult in obtaining a higher education level with the ultimate goal of transitioning to college and employment opportunities.

Classes are organized and designed to assist individual student's efforts of reaching a level where individualized study is possible. As the student gains competency in subject areas, a greater scope of subjects is introduced. Each person receives assistance in selecting the correct level from which to begin his/her studies. Several career pathways are also available.

After gaining competency in subject areas, the adult will be encouraged to enroll in the Adult Secondary Credential Program. This includes the Adult High School Diploma and High School Equivalency such as GED. Currently, College and Career Readiness classes are available on campus, on-line, and at various locations throughout Catawba and Alexander counties. Additional information may be obtained by contacting the CCR office at 828-327-7000, ext. 4353.

Adult Basic Education (ABE)

The Adult Basic Education program teaches basic skills to help adults survive in an adult world. Instruction is designed to assist individuals with learning to read, improving reading skills, math, and writing skills. Classes are available both on campus and at a number of off-campus locations for all program areas. Please call the CCR Office for further information at 828-327-7000, ext. 4353.

ABE Academy

Under the ABE Academy program, a 2 to 4-year literacy-based vocational training program available to adults who function below high school level. The ABE Academy serves as a transitional class between high school and vocation specific classes.

English As A Second Language (ESL)

English as a Second Language is a program of instruction designed for adults with limited English skills. Information covered throughout the course will include survival language, health and safety information, dealing with cultural differences, occupational language, U.S. history and legal information, and citizenship requirements. Emphasis is placed on conversational skills and career pathway opportunities. Additional information may be obtained by contacting the CCR Office at 828-327-7000, extension 4353. Classes are offered on and off campus.

Adult Secondary Credential Program

The Adult Secondary Credential Program allows students two options to complete a secondary credential: the Adult High School Diploma Program or the High School Equivalency Program (such as GED).

Adult High School Diploma classes offer students the opportunity to earn a high school diploma sanctioned by the Board of Education of Catawba and Alexander Counties. Students are given full credit for any units they have completed in high school. Classes are free. Please contact the CCR Office at 828-327-7000, ext. 4353 for more information.

The High School Equivalency Program (HSE), (such as GED) focuses on the areas of mathematics, literature, writing, social studies, and science. Catawba Valley Community College offers classes in a variety of locations and on-line. Classes are free; however there is a cost for the HSE exam.

Please contact the CCR Office at 828-327-7000, ext. 4353, if you are in need of financial assistance for the HSE exam fee and would like to apply for a scholarship.

Personal Enrichment Programs

These programs are offered to individuals 16 years of age and older. These are short-term courses for self-improvement, cultural enrichment, and academic achievement. The program is intended to meet the growing needs and interests of the community. The purpose is to give an individual a chance to pursue special interests and to fill his/her leisure time with worthwhile educational projects. Some of these include conversational foreign languages, economics, government, consumer education, cake decorating, sign language, guitar, needlepoint, quilting, landscaping, dancing and personal development. Normally, a course may be offered when a minimum of 10-15 individuals indicate interest. Additional information regarding these classes may be obtained by contacting the Continuing Education Office at 828-327-7037.

Workforce Development Innovation Center

Catawba Valley Furniture Academy

Catawba Valley Furniture Academy is an industry-driven training program designed by local furniture manufacturers that prepares students for skilled positions in high demand. The Catawba Valley Furniture Academy covers furniture fundamentals, pattern making, manual cutting, automated cutting, sewing, introduction to upholstery, spring up, inside upholstery, and outside upholstery. This program provides career path exploration and assessment, plant tours, and career previews. The CVCC Furniture Academy is in partnership with Century Furniture, Lee Industries, Lexington Home Brands, Sherrill Furniture, and Vanguard Furniture. To find out more about the program, register for the class, and learn about scholarship opportunities, please contact us at 828-327-7000 ext. 4294 or jeverson@cvcc.edu.

Computrain

CVCC's Corporate Computer Training Center provides professional development courses in the most current versions of software applications used by area businesses. These short, one-day, six-hour-per-day courses are designed for employees who need to become more productive in the shortest time possible with practical hands-on experience in a Windows and LAN environment. COMPUTRAIN will also design short courses to meet a company's specific personal computer application needs, to be held on CVCC's campuses or at a company's computer lab. For more information, contact the Director of COMPUTRAIN at 828-327-7000, Ext. 4330 or e-mail sblake@cvcc.edu.

Construction Careers Academy

The Construction Careers Academy is a cooperative partnership between area construction companies and Catawba Valley Community College. Its goal is to actively promote and develop a skilled construction workforce. The Academy works with young adults ages 16-20 to explore a challenging new career in one of the many construction trades; coupling instruction in Construction Fundamentals with summer employment with a local construction firm.

Interested individuals wishing to enter the Construction Careers Academy should contact our offices at 828-327-7000 ext. 4294.

Corporate Development Center

The Corporate Development Center at CVCC was designed to meet the needs of business, industry, entrepreneurs, and job seekers. Its mission is to help individuals and businesses attain profitability/prosperity in a global economy. The Center works collaboratively with the Manufacturing Solutions Center. The Center includes the Small Business Center, Advanced Manufacturing Labs, flexible corporate training rooms, a computer lab, and a teleconferencing meeting room. Courses/Training offered at the Center include Mechatronics/Robotics, SolidWorks, Lean/ISO, Professional in Human Resources/PHR, Senior Professional in Human Resources/SPHR Certifications, Project Management Certification, Certified Production Technician, Certified Logistics Technician, Six Sigma Green & Black Belt, and the Catawba Valley Furniture Academy. For more information, call 828-327-7000, ext. 4294. Or visit the Workforce Development Innovation Center website: http://www.cvcc.edu/CCE/Workforce_Development/index.cfm.

Customized Training

The Customized Training Program supports the economic development efforts of North Carolina by providing education and training services to ensure the presence of a well-trained workforce for new and existing business and industry to remain productive and profitable within the State. This Customized Training assistance supports full-time production and direct customer service positions created in the State of North Carolina, thereby enhancing the growth potential of companies located in the state while simultaneously preparing North Carolina's workforce with the skills essential to successful employment in emerging industries. Call 828-327-7000, ext. 4294.

CVCC's Manufacturing Academy

The Manufacturing Academy is a 11-week program at Catawba Valley Community College. It is designed to prepare students for a career in the manufacturing industry. Companies are looking for qualified job candidates who demonstrate a commitment to develop the skills necessary for a career in manufacturing. Training includes manufacturing fundamentals, problem solving, teamwork and communication, lean manufacturing, math and measurements. In addition, students will complete the OSHA 10 course and MSSC Safety Awareness credential requirements. Students will tour manufacturing sites as well as multiple opportunities to interact with local employer representatives.

Human Resources Development

The Human Resources Development Program (HRD) is designed to provide skill assessment services, employability skills training, and career development counseling to unemployed and underemployed adults. The courses shall address six core components as follows: assessment of an individual's assets and limitations, positive self-concept, employability skills, communication skills, problem-solving skills, and an awareness of the impact on information technology in the workplace. Students enrolling in HRD

classes may be eligible for a fee waiver if they meet any of the following criteria: unemployed, received notice of lay-off, working and eligible for Federal Earned Income Tax Credit (EITC), or working and earning at or below 200% of federal poverty guidelines. For information about the HRD program call 828-327-7000, ext. 4819. Or visit the HRD website:

http://www.cvcc.edu/CCE/Workforce_Development/HRD/index.cfm

Leadership & Management Academy

Our Leadership and Management academy provides professional and career development training in the areas of (a) Continuous Improvement (b) Supervisory, Management & Executive Leadership (c) Project Management and (d) Human Resource Management. Programs are available for all levels of professionals, supervision and continuous improvement specialists. Please contact our offices at 828-327-7000 ext. 4294 to find a course for you.

Manufacturing Solutions Center

The mission of the Manufacturing Solutions Center (MSC) is to help US Manufacturer's increase sales, improve quality and improve efficiency to create or retain jobs. This is accomplished by

- enhancing and improving products through research and development.
- assisting in creating prototypes for new, innovative offerings.
- analyzing new materials to enhance structure and programs.
- testing products for reliable content and quality.
- training personnel for lean manufacturing processes and supply chain efficiencies.
- providing a forum for roll-out of new 21st century technologies.
- providing hands-on guidance for international marketing and sales and military procurement.
- industry advocacy.

Professional Development For Educators

Courses are offered to assist teachers in meeting re-certification requirements.

Small Business Center

The Small Business Center (SBC) is dedicated to increasing the success rate of all businesses in Alexander and Catawba counties. The Small Business Center offers Start-It seminars for budding entrepreneurs, as well as Grow-It seminars for more seasoned business owners. Seminar topics range from feasibility to product/service analysis to marketing, operations, management, and business finances. For help with business planning, the SBC director is available by appointment for one-on-one, confidential counseling. The SBC also maintains a resource library of print and electronic media for use in exploring business ownership. In keeping with its economic development mission, many services are delivered in conjunction with

chambers of commerce, economic development offices, local business and merchant associations. The SBC also works closely with CVCC career instructors to help students learn how to start and operate a business once they have mastered the subject matter of their trade. To register for a seminar, contact the SBC Support Team at dsawyer@cvcc.edu or call 828-327-7000, extension 4117. For a counseling appointment, contact the SBC Director at jneville@cvcc.edu or call 828-327-7000, extension 4102. Funded annually by grant with tax dollars, the SBC is one of 58 centers comprising the North Carolina Community College Small Business Center Network (SBCN).

Program Listings 2021-2022

The following pages list alphabetically by discipline area the curriculum programs to be offered by Catawba Valley Community College during the 2021-2022 academic year. Programs in addition to those shown are being planned and may be implemented prior to or during the year. Catawba Valley Community College reserves the right to delete or change programs and courses as may be required; however, this general catalog represents the most accurate information available concerning the CVCC curriculum at the time of its publication.

How to use the Listings

Each curriculum offered for credit is listed along with course numbers, titles, and semester hours of credit required for graduation. The credit hours shown in each curriculum are classified as follows: class hours per week; lab hours per week; clinical/work experience hours per week (where applicable); and credit hours. Some courses entail both lab hours and clinical/work experience, and in these courses the number of hours for each is listed. A complete course syllabus for each credit course is on file in the offices of the respective department heads and is available for review by interested persons.

Program Sequences

Program Sequences are suggestions only. The College retains the right to alter Program Sequences as it deems necessary.

Work-Based Learning Courses

Work-Based Learning (WBL) is designed to give students enrolled in many programs within the College a chance to work on a job while completing their degree. This combination of classroom instruction with practical/related work experience provides numerous benefits to participating students.

WBL students work one or more semesters in part-time or full-time jobs related to their major. Academic credit is given for the knowledge gained during the work period. Students are assigned to a WBL faculty advisor and receive on-the-job training and supervision by the employers.

Admission to the Work-Based Learning program is based on academic performance and interest, not financial need. Employers select the students and determine salaries to be offered for their position; therefore, the college does not guarantee placement or pay for students eligible.

Eligibility. Students who are enrolled in programs offering WBL for academic credit and who have completed a minimum of 12 credit hours at the college (unless otherwise specified by the Dean of each school) are eligible to participate if they meet the following conditions:

- Have a minimum 2.0 GPA;
- Obtain approval from the WBL Coordinator;
- Have approval of WBL Faculty Advisor;
- Follow program guidelines; and
- Abide by additional conditions specified in certain curriculum programs.

Application Procedure. Interested students should schedule an interview with the Work-Based Learning Coordinator. Students are selected on the basis of information obtained from their resume, college transcripts, and an interview regarding career goals. After students have been accepted into the program, the WBL Program Coordinator or Faculty Advisor will be responsible for locating and/or approving an appropriate work assignment.

Academic Credit. WBL students may earn one or more semester hours of work-based learning credit toward completion of diploma or degree requirements in approved curriculums. One credit hour equals 160 work hours during the semester.

Registration. Registration for WBL courses is restricted. Students will meet with the Work-Based Learning Coordinator to register for these courses. Students will be registered for WBL courses with the suffix (A-Z) that corresponds to the program of study the student is registered in.

Students interested in Work-Based Learning are invited to contact the WBL Office, located in the Center for Workforce Connectivity and Talent Development. Information is also available through faculty advisors.

NOTE: WBL options are listed under each participating curriculum course schedule. The Work-Based Learning Coordinator must enroll students in WBL classes (one exception WBL 110).

Work-Based Learning Courses

- WBL 111A-Z - Work-Based Learning I Credit Hours: 1
- WBL 112A-Z - Work-Based Learning I Credit Hours: 2
- WBL 115 - Work-Based Learning Seminar I Credit Hours: 1
- WBL 121A-Z - Work-Based Learning II Credit Hours: 1
- WBL 122A-Z - Work-Based Learning II Credit Hours: 2
- WBL 125 - Work-Based Learning Seminar II Credit Hours: 1
- WBL 131A-Z - Work-Based Learning III Credit Hours: 1
- WBL 132A-Z - Work-Based Learning III Credit Hours: 2

College Transfer

The College Transfer program is designed to parallel the freshman and sophomore years of study of a four-year college or university. In the first two years of college, students pursue a program of general education in the area of humanities, communications, social and behavioral sciences, mathematics, and sciences.

Catawba Valley Community College provides advising to help students plan their program for transfer to the college of their choice. Students should structure their programs of study in conference with academic advisors, and admissions personnel at the college or university to which they wish to transfer. The structure of each student's program should be based on high school records, occupational goals, and choice of college to which the student plans to transfer.

Comprehensive Articulation Agreement (CAA)

The North Carolina Comprehensive Articulation Agreement (CAA) is a statewide agreement governing the transfer of credits between NC community colleges and NC public universities and has as its objective the smooth transfer of students. The CAA provides certain assurances to the transferring student; for example:

Assures admission to one of the 16 UNC institutions (Transfer Assured Admissions Policy)

Enables NC community college graduates of two-year Associate in Arts and Associate in Science degree programs who are admitted to constituent institutions of the university of NC to transfer with junior status.

Transfer Credit Appeal Procedure

If a transfer student perceives that the terms of the CAA have not been honored, he or she may follow the Transfer Credit Appeal Procedure. (*Appendix E of the Comprehensive Articulation Agreement*)

Associate in Arts and Associate in Science

The Associate in Arts (A10100) (AA) degree is designed for students who want to pursue a four-year degree in one of the liberal arts disciplines or training at a professional school that requires a strong liberal arts background.

The Associate in Science (A10400) (AS) degree is designed for students who want to pursue a four-year degree in areas of study such as computer science, engineering, mathematics, the sciences or professional programs that require strong mathematics and science backgrounds.

Transfer Course List

The Transfer Course List contains a list of courses accepted for transfer between the NC Community College System and the University of North Carolina.

Associate in Arts (A.A.), Associate in Science (A.S.), Associate in Engineering (A.E.), and Associate in Fine Arts (A.F.A.)

Associate degrees are offered in the arts (A.A.), science (A.S.), engineering, (A.E.), and fine arts (A.F.A.) for students who aspire to transfer to a four-year college or university. The 60/61 semester hours credit for an A.A., A.E., A.F.A in Theatre, A.F.A in Visual Arts, or A.F.A in Music are designed to parallel the freshman and sophomore years of study at four-year colleges and universities.

Goals and Competencies of General Education Courses:

The student will gain proficiency in reading, writing, speaking and comprehending Standard English. The student will be able to communicate effectively in all four areas.

The student will gain proficiency in basic computational skills, fundamental algebraic concepts, and interpretational skills of numerical and graphical data as these skills apply to real world situations.

The student will gain an appreciation of the aesthetic aspect of human existence and how human expression in this area gives insight into the foundations of the basic questions of value in human life.

The student will gain an understanding of the dynamics of the physiological and psychological self, group and societal interaction, and have an introduction to the influences of past events on the present. Further, the student will gain the necessary application and communication skills to utilize this knowledge in future academic and vocational pursuits.

The student will be introduced to the methods, concepts, and principles of science; will be exposed to representative applications of science and how these affect our society; and will experience the gathering, organization and interpretation of data

The student will gain an understanding of foreign culture, cultural diversity, and language skills necessary for reading and speaking the language.

The Associate in Arts and Associate in Science Degrees

The Associate in Arts Degree is for students desiring to pursue liberal arts and pre-professional programs in areas other than the fine arts and the sciences. The Associate in Science Degree is for students desiring to enter science and/or mathematics related fields. The Associate in Engineering Degree is for students desiring to pursue a baccalaureate degree in engineering.

The Associate in Arts and Science programs are part of the Comprehensive Articulation Agreement (CAA) which addresses the transfer of students between institutions in the North Carolina Community College System and the constituent institutions of the University of North Carolina. The CAA enables North Carolina community college graduates of two-year associate in arts and science degree programs who are admitted to constituent institutions of the University of North Carolina to transfer with junior status. The CAA does not guarantee admission to a university; admission to a university does not constitute admission to a professional school or a specific program.

The Associate in Engineering Degree

The Associate in Engineering Degree is for students desiring to pursue a baccalaureate degree in engineering. The Associate in Engineering Degree is part of the Uniform Articulation Agreement between the University of North Carolina Baccalaureate Engineering Programs and the North Carolina Community College System. This agreement ensures that a student who completes the Associate in Engineering Degree with a GPA of at least 2.5 and a grade of "C" or better in the required courses will have fulfilled the entrance requirements at all of the North Carolina public Bachelor of Science in Engineering programs. Associate in Engineering graduates may then apply to any of these programs without taking additional and sometimes duplicative courses. However, because engineering program admissions are competitive, no student is guaranteed admission to an engineering program.

The Associate in Fine Arts Degree

The Associate in Fine Arts Degree is for students desiring to pursue studies in Music, Theatre or Visual Arts. Upon admission to another public two-year institution or to a public university, a community college student who was enrolled in an Associate in Fine Arts Degree program and who satisfactorily completed with a grade of "C" or better in all courses that are designated for college transfer (general education, elective, or pre-major), will receive credit for those courses. The receiving institution will determine whether the course will count as general education, major, or elective credit. Each degree program has additional requirements for coursework in liberal arts, fine arts, and sciences. The two-year associate degree program prepares students for professional practice or the pursuit of a bachelor's degree.

The Uniform Articulation Agreement between the University of North Carolina Baccalaureate of Music (BM) Programs and the North Carolina Community College System Associate in Fine Arts in Music (AFAM) Programs focuses on seamless transfer for students who begin music studies at a community college and then transfer to one of the University of North Carolina Bachelor of Music programs.

The Associate in Fine Arts in Music to Bachelor of Music (AFAM to BM) agreement is made between the State Board of the North Carolina Community College System and The University of North Carolina Board of Governors.

The Uniform Articulation Agreement between the University of North Carolina Baccalaureate of Arts (BA) Programs and the North Carolina Community College System Associate in Fine Arts in Theatre (AFAT) Programs focuses on seamless transfer for students who begin theatre studies at a community college and then transfer to one of the University of North Carolina Bachelor of Arts/Theatre programs.

The Associate in Fine Arts in Theatre to Bachelor of Arts (AFAT to BA) agreement is made between the State Board of the North Carolina Community College System and The University of North Carolina Board of Governors.

The Uniform Articulation Agreement between the University of North Carolina Baccalaureate of Fine Arts (BFA) Programs and the North Carolina Community College System Associate in Fine Arts in Visual Arts (AFAVA) Programs focuses on seamless transfer for students who begin visual arts studies at a community college and then transfer to one of the University of North Carolina Bachelor of Fine Arts/Visual Arts programs.

The Associate in Fine Arts in Visual Arts to Bachelor of Fine Arts (AFAVA to BFA) agreement is made between the State Board of the North Carolina Community College System and The University of North Carolina Board of Governors.

The Uniform Articulation Agreement between the North Carolina Independent Colleges and Universities Baccalaureate of Music (BM) Programs and the North Carolina Community College System Associate in Fine Arts in Music (AFAM) Programs focuses on seamless transfer for

students who begin music studies at a community college and then transfer to one of the North Carolina Independent Colleges and Universities Bachelor of Music programs.

The Associate in Fine Arts in Music to Bachelor of Music (AFAM to BM) agreement is made between the State Board of the North Carolina Community College System and North Carolina Independent Colleges and Universities Board of Governors.

The Uniform Articulation Agreement between the North Carolina Independent Colleges and Universities Baccalaureate of Arts (BA) Programs and the North Carolina Community College System Associate in Fine Arts in Theatre (AFAT) Programs focuses on seamless transfer for students who begin theatre studies at a community college and then transfer to one of the North Carolina Independent Colleges and Universities Bachelor of Arts/Theatre programs.

The Associate in Fine Arts in Theatre to Bachelor of Arts (AFAT to BA) agreement is made between the State Board of the North Carolina Community College System and North Carolina Independent Colleges and Universities Board of Governors.

The Uniform Articulation Agreement between the North Carolina Independent Colleges and Universities Baccalaureate of Fine Arts (BFA) Programs and the North Carolina Community College System Associate in Fine Arts in Visual Arts (FAVA) Programs focuses on seamless transfer for students who begin visual arts studies at a community college and then transfer to one of the North Carolina Independent Colleges and Universities Bachelor of Fine Arts/Visual Arts programs.

The Associate in Fine Arts in Visual Arts to Bachelor of Fine Arts (FAVA to BFA) agreement is made between the State Board of the North Carolina Community College System and North Carolina Independent Colleges and Universities Board of Governors.

Associate in Arts (A10100)

The Associate in Arts degree shall be granted for a planned program of study consisting of a minimum of 60 semester hours of credit (SHC) of college transfer courses. Within the degree program, the institution shall include opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and basic computer use.

The Comprehensive Articulation Agreement (CAA) and the Independent Comprehensive Articulation Agreement (ICAA) enables North Carolina community college graduates of two-year associate in arts programs who are admitted to constituent institutions of The University of North Carolina and to Signatory Institutions of North Carolina Independent Colleges and Universities to transfer with junior status.

Community college graduates must obtain a grade of "C" or better in each course and an overall GPA of at least 2.0 on a 4.0 scale in order to transfer with a junior status. Courses may also transfer through bilateral agreements between institutions.

General Education Courses (Total of 45 SHC):

UNIVERSAL GENERAL EDUCATION TRANSFER COMPONENT (UGETC)

Students will select the first 31-32 hours of the 45-hour General Education Requirement from the classes listed below. All of these courses are classified by the Comprehensive Articulation Agreement as Universal General Education Transfer Component courses (UGETC), and they will transfer to UNC institutions for equivalency credit.

English Composition (6 SHC):

- ENG 111 - Writing and Inquiry Credit Hours: 3
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3

Humanities/Fine Arts/Communications (9 SHC):

Select three (3) courses below from at least two (2) different disciplines:

Communications:

- COM 120 - Intro Interpersonal Com Credit Hours: 3
- COM 231 - Public Speaking Credit Hours: 3

Humanities/Fine Arts:

- ART 111 - Art Appreciation Credit Hours: 3
- ART 114 - Art History Survey I Credit Hours: 3
- ART 115 - Art History Survey II Credit Hours: 3
- DRA 111 - Theatre Appreciation Credit Hours: 3
- ENG 231 - American Literature I Credit Hours: 3
- ENG 232 - American Literature II Credit Hours: 3
- ENG 241 - British Literature I Credit Hours: 3
- ENG 242 - British Literature II Credit Hours: 3
- MUS 110 - Music Appreciation Credit Hours: 3
- MUS 112 - Introduction to Jazz Credit Hours: 3
- PHI 215 - Philosophical Issues Credit Hours: 3
- PHI 240 - Introduction to Ethics Credit Hours: 3

Social/Behavioral Sciences (9 SHC):

Select three (3) courses below from at least two (2) different disciplines:

- ECO 251 - Prin of Microeconomics Credit Hours: 3
- ECO 252 - Prin of Macroeconomics Credit Hours: 3
- HIS 111 - World Civilizations I Credit Hours: 3
- HIS 112 - World Civilizations II Credit Hours: 3
- HIS 131 - American History I Credit Hours: 3
- HIS 132 - American History II Credit Hours: 3
- POL 120 - American Government Credit Hours: 3

- PSY 150 - General Psychology Credit Hours: 3
- SOC 210 - Introduction to Sociology Credit Hours: 3

Mathematics (3/4 SHC):

Select one (1) course from the following:

- MAT 143 - Quantitative Literacy Credit Hours: 3
- MAT 152 - Statistical Methods I Credit Hours: 4
- MAT 171 - Precalculus Algebra Credit Hours: 4

Natural/Physical Sciences (4 SHC):

Select one (1) course or (1) course and lab that equal four (4) SHC from the following course(s):

- AST 151 - General Astronomy I Credit Hours: 3
- **AND**
- AST 151A - General Astronomy I Lab Credit Hours: 1
- BIO 111 - General Biology I Credit Hours: 4
- CHM 151 - General Chemistry I Credit Hours: 4
- GEL 111 - Geology Credit Hours: 4
- PHY 110 - Conceptual Physics Credit Hours: 3
- **AND**
- PHY 110A - Conceptual Physics Lab Credit Hours: 1

Additional General Education Hours (13/14 SHC):

An additional 13-14 SHC of courses should be selected from one of the following lists:

- from the UGETC courses the student did not select for the first 31-32 hours of General Education requirements above.
- from the list of courses classified as general education in the Comprehensive Articulation Agreement General Education Course Listing below:

- ANT 220 - Cultural Anthropology Credit Hours: 3
- ANT 221 - Comparative Cultures Credit Hours: 3
- ARA 111 - Elementary Arabic I Credit Hours: 3
- ARA 112 - Elementary Arabic II Credit Hours: 3
- ASL 111 - Elementary ASL I Credit Hours: 3
- ASL 112 - Elementary ASL II Credit Hours: 3
- AST 152 - General Astronomy II Credit Hours: 3
- AST 152A - General Astronomy II Lab Credit Hours: 1
- BIO 112 - General Biology II Credit Hours: 4
- BIO 120 - Introductory Botany Credit Hours: 4
- BIO 130 - Introductory Zoology Credit Hours: 4
- BIO 140 - Environmental Biology Credit Hours: 3
- BIO 140A - Environmental Biology Lab Credit Hours: 1
- CHI 111 - Elementary Chinese I Credit Hours: 3
- CHI 112 - Elementary Chinese II Credit Hours: 3
- CHM 131 - Introduction to Chemistry Credit Hours: 3
- CHM 131A - Intro to Chemistry Lab Credit Hours: 1
- CHM 132 - Organic and Biochemistry Credit Hours: 4
- CHM 152 - General Chemistry II Credit Hours: 4
- CIS 110 - Introduction to Computers Credit Hours: 3
- CIS 115 - Intro to Prog & Logic Credit Hours: 3
- COM 110 - Introduction to Communication Credit Hours: 3
- DAN 110 - Dance Appreciation Credit Hours: 3
- DRA 112 - Literature of the Theatre Credit Hours: 3
- DRA 115 - Theatre Criticism Credit Hours: 3
- DRA 122 - Oral Interpretation Credit Hours: 3
- DRA 126 - Storytelling Credit Hours: 3
- DRA 211 - Theatre History I Credit Hours: 3
- DRA 212 - Theatre History II Credit Hours: 3
- ENG 113 - Literature-Based Research Credit Hours: 3
- ENG 114 - Prof Research & Reporting Credit Hours: 3
- ENG 131 - Introduction to Literature Credit Hours: 3
- ENG 134 - Introduction to Poetry Credit Hours: 3
- ENG 251 - Western World Literature I Credit Hours: 3
- ENG 252 - Western World Literature II Credit Hours: 3
- ENG 272 - Southern Literature Credit Hours: 3
- ENG 274 - Literature by Women Credit Hours: 3

Total Semester Hours Credit (SHC) in Program: 59/61

One semester hour of credit may be included in a 61 SHC Associate in Arts program of study. The transfer of this hour is not guaranteed.

Students must meet the receiving university's foreign language and/or health and physical education requirements, if applicable, prior to or after transfer to the senior institution.

Developmental Course Requirements:

Developmental coursework (both prerequisite and corequisite) will be required of students whose placement test measures indicate a need for greater proficiency in the areas of English and/or mathematics. Please refer to the Course Description section for prerequisite and corequisite course information.

- ENG 002 - Transition English Credit Hours: 3
- ENG 011 - Writing and Inquiry Support Credit Hours: 2

Associate in Arts in Teacher Preparation (A1010T)

The Associate in Arts in Teacher Preparation degree shall be granted for a planned program of study consisting of a minimum of 60 semester hours of credit (SHC) of college transfer courses. Within the degree program, the institution shall include opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and basic computer use.

The Comprehensive Articulation Agreement (CAA) and the Independent Comprehensive Articulation Agreement (ICAA) enables North Carolina community college graduates of two-year associate in arts programs who are admitted to constituent institutions of The University of North Carolina and to Signatory Institutions of North Carolina Independent Colleges and Universities to transfer with junior status.

Community college graduates must obtain a grade of "C" or better in each course and an overall GPA of at least 2.7 on a 4.0 scale in order to transfer with a junior status. Courses may also transfer through bilateral agreements between institutions.

General Education Courses (Total of 45 SHC):**UNIVERSAL GENERAL EDUCATION TRANSFER COMPONENT**

(All Universal General Education Transfer Component courses will transfer for equivalency credit.)

English Composition (6 SHC)

- ENG 111 - Writing and Inquiry Credit Hours: 3
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3

Humanities/Fine Arts/Communications (9 SHC):

Select three (3) courses from the following list from two (2) different disciplines:

Communications:

- COM 120 - Intro Interpersonal Com Credit Hours: 3
- OR
- COM 231 - Public Speaking Credit Hours: 3

Humanities/Fine Arts:

- ART 111 - Art Appreciation Credit Hours: 3
- ART 114 - Art History Survey I Credit Hours: 3
- ART 115 - Art History Survey II Credit Hours: 3
- DRA 111 - Theatre Appreciation Credit Hours: 3
- ENG 231 - American Literature I Credit Hours: 3
- ENG 232 - American Literature II Credit Hours: 3
- ENG 241 - British Literature I Credit Hours: 3
- ENG 242 - British Literature II Credit Hours: 3
- MUS 110 - Music Appreciation Credit Hours: 3
- MUS 112 - Introduction to Jazz Credit Hours: 3
- PHI 215 - Philosophical Issues Credit Hours: 3
- PHI 240 - Introduction to Ethics Credit Hours: 3

Social/Behavioral Sciences (6 SHC):

Students must select two (2) courses from at least two different disciplines:

- ECO 251 - Prin of Microeconomics Credit Hours: 3
- ECO 252 - Prin of Macroeconomics Credit Hours: 3
- HIS 111 - World Civilizations I Credit Hours: 3
- HIS 112 - World Civilizations II Credit Hours: 3
- HIS 131 - American History I Credit Hours: 3
- HIS 132 - American History II Credit Hours: 3
- POL 120 - American Government Credit Hours: 3
- PSY 150 - General Psychology Credit Hours: 3
- SOC 210 - Introduction to Sociology Credit Hours: 3

Mathematics (3-4 SHC):

Select one (1) courses from the following list:

- MAT 143 - Quantitative Literacy Credit Hours: 3
- MAT 152 - Statistical Methods I Credit Hours: 4
- MAT 171 - Precalculus Algebra Credit Hours: 4

Natural/Physical Sciences (4 SHC):

Select four (4) SHC from the following list:

- AST 151 - General Astronomy I Credit Hours: 3
- AND
- AST 151A - General Astronomy I Lab Credit Hours: 1

- BIO 111 - General Biology I Credit Hours: 4
- CHM 151 - General Chemistry I Credit Hours: 4
- GEL 111 - Geology Credit Hours: 4

- PHY 110 - Conceptual Physics Credit Hours: 3

AND

- PHY 110A - Conceptual Physics Lab Credit Hours: 1

Additional General Education Hours (17/18 SHC):

Other General Education (3 SHC):

- SOC 225 - Social Diversity Credit Hours: 3

An additional 14-15 SHC of courses should be selected from the following lists:

- An additional 14-15 SHC of courses should be selected from courses classified as General Education within the Comprehensive Articulation Agreement below. Students should select these courses based on their intended major and transfer university.
Students must meet the receiving university's foreign language and/or health and physical education requirements, if applicable, prior to or after transfer to the senior institution.

Other Required Hours (Total of 15 SHC):

Education (14 SHC)

- EDU 187 - Teaching and Learning for All Credit Hours: 4 *
- EDU 216 - Foundations of Education Credit Hours: 3
- EDU 279 - Literacy Develop and Instruct Credit Hours: 4
- EDU 250 - Teacher Licensure Preparation Credit Hours: 3

*Students who have completed *Teacher Cadet or Teaching as a Profession courses in high school with a B or better may substitute that course for EDU 187 Teaching and Learning for All.*

Academic Transition (1 SHC)

- ACA 122 - College Transfer Success Credit Hours: 1

Total Semester Hours Credit (SHC) in Program: 60/61

One semester hour of credit may be included in a 61 SHC Associate in Science program of study. The transfer of this hour is not guaranteed.

Students must meet the receiving university's foreign language and/or health and physical education requirements, if applicable, prior to or after transfer to the senior institution.

Developmental Course Requirements:

Developmental coursework (both prerequisite and corequisite) will be required of students whose placement test measures indicate a need for greater proficiency in the areas of English and/or mathematics. Please refer to the Course Description section for prerequisite and corequisite course information.

- ENG 002 - Transition English Credit Hours: 3
- ENG 011 - Writing and Inquiry Support Credit Hours: 2

Students who elect to take MAT 143 from above:

- MAT 003 - Transition Math Credit Hours: 3
- MAT 043 - Quantitative Literacy Support Credit Hours: 2

Students who elect to take MAT 152 from above:

- MAT 003 - Transition Math Credit Hours: 3
- MAT 052 - Statistical Methods I Support Credit Hours: 2

Students who elect to take MAT 171 from above:

- MAT 003 - Transition Math Credit Hours: 3
- MAT 071 - Precalculus Algebra Support Credit Hours: 2

Associate in Engineering (A10500)

The Associate in Engineering (AE) degree shall be granted for a planned program of study consisting of a minimum of 60 semester hours of credit (SHC) of courses. Within the degree program, the institution shall include opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and basic computer use.

The degree plan includes required general education and prerequisite courses that are acceptable to all state funded Bachelor of Engineering programs. Students who follow the degree progression plan will meet the entrance requirements at all of the North Carolina public Bachelor of Science Engineering programs. Associate in Engineering graduates may then apply to any of these programs without taking additional and sometimes duplicative courses. *Admission to Engineering programs is highly competitive and admission is not guaranteed.*

To be eligible for the transfer of credits under the AE to the Bachelor of Science in Engineering Articulation Agreement, community college graduates must obtain a grade of "C" or better in each course and an overall GPA of at least 2.5 on a 4.0 scale.

General Education Courses (Total of 45-46 SHC):

GENERAL EDUCATION

The general education common course pathway includes study in areas of English composition; humanities and fine arts; social and behavioral sciences; natural sciences, and mathematics.

It is highly suggested to consult with an engineering advisor before making elective course selections.

UNIVERSAL GENERAL EDUCATION TRANSFER COMPONENT

(Universal General Education Transfer Component (UGETC) courses will transfer for equivalency credit to all UNC institutions)

• *Exceptions (i.e. courses which are not classified as UGETC) are noted with an * to the right of the course.*

English Composition (6 SHC):

- ENG 111 - Writing and Inquiry Credit Hours: 3
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3

Humanities/Fine Arts/Communications (6 SHC):

Students must select (1) course from **each category** for a total of 6 SHC:

Humanities:

- ENG 231 - American Literature I Credit Hours: 3
- ENG 232 - American Literature II Credit Hours: 3
- ENG 241 - British Literature I Credit Hours: 3
- ENG 242 - British Literature II Credit Hours: 3
- PHI 215 - Philosophical Issues Credit Hours: 3
- PHI 240 - Introduction to Ethics Credit Hours: 3
- REL 110 - World Religions Credit Hours: 3 *

(*REL 110 will transfer for equivalency credit to the engineering programs at all five UNC institutions that offer undergraduate engineering programs. It may not transfer with equivalency to other programs.)

Fine Arts and Communications:

Students must take one (1) of the following courses:

- COM 231 - Public Speaking Credit Hours: 3
- ART 111 - Art Appreciation Credit Hours: 3
- ART 114 - Art History Survey I Credit Hours: 3
- ART 115 - Art History Survey II Credit Hours: 3
- MUS 110 - Music Appreciation Credit Hours: 3
- MUS 112 - Introduction to Jazz Credit Hours: 3

Preferred Fine Arts and Communication Courses:

- COM 231 and PHI 240 are preferred.

Social/Behavioral Sciences (6 SHC):

Students must take the following required course:

- ECO 251 - Prin of Microeconomics Credit Hours: 3

Students must select one (1) additional course from the following courses:

- HIS 111 - World Civilizations I Credit Hours: 3
- HIS 112 - World Civilizations II Credit Hours: 3
- HIS 131 - American History I Credit Hours: 3
- HIS 132 - American History II Credit Hours: 3
- POL 120 - American Government Credit Hours: 3
- PSY 150 - General Psychology Credit Hours: 3
- SOC 210 - Introduction to Sociology Credit Hours: 3

Mathematics (12 SHC):

Calculus I is the lowest level math course that will be accepted by the engineering programs for transfer as a math credit. Students who are not calculus-ready will need to take additional math courses.

Students must take the following three (3) courses:

- MAT 271 - Calculus I Credit Hours: 4
- MAT 272 - Calculus II Credit Hours: 4
- * MAT 273 - Calculus III Credit Hours: 4

*Courses which are not classified as Universal General Education Transfer Component (UGETC) courses.

Natural Sciences (12 SHC):

Students must take the following three (3) courses:

- CHM 151 - General Chemistry I Credit Hours: 4
- PHY 251 - General Physics I Credit Hours: 4
- PHY 252 - General Physics II Credit Hours: 4

Other General Education (3-4 SHC):

Students must select one of the following courses:

- BIO 111 - General Biology I Credit Hours: 4
- CHM 152 - General Chemistry II Credit Hours: 4
- COM 110 - Introduction to Communication Credit Hours: 3
- COM 231 - Public Speaking Credit Hours: 3
- ECO 252 - Prin of Macroeconomics Credit Hours: 3
- GEL 111 - Geology Credit Hours: 4
- HUM 110 - Technology and Society Credit Hours: 3
- PHI 240 - Introduction to Ethics Credit Hours: 3

Total General Education Hours Required: 45-46**Other Required Hours (Total of 14-15 SHC):****Academic Transition:**

Student must take the following required course:

- ACA 122 - College Transfer Success Credit Hours: 1

Students must complete ACA 122 within the first 30 hours of enrollment.

Pre-Major Elective:

Students must take the following required course:

- EGR 150 - Intro to Engineering Credit Hours: 2

Students should plan to take this course during the first semester of the enrollment in the program.

Other General Education and Pre-Major Elective Hours (11-12 SHC)

Other General Education and Pre-major Elective Hours (11-12 SHC) Students must choose 11-12 SHC from the following courses classified as pre-major, elective, or general education courses within the Comprehensive Articulation Agreement. *(Students must meet the receiving university's foreign language and/or health and physical education requirements, if applicable, prior to or after transfer to the senior institution.)*

Students should choose courses appropriate to the specific university and engineering major requirements. Please see an engineering advisor.

- BIO 111 - General Biology I Credit Hours: 4

- CHM 152 - General Chemistry II Credit Hours: 4
- CHM 251 - Organic Chemistry I Credit Hours: 4
- CHM 252 - Organic Chemistry II Credit Hours: 4
- COM 110 - Introduction to Communication Credit Hours: 3

Associate in General Education (A10300)

The Associate in General Education curriculum is designed for the academic enrichment of students who wish to broaden their education, with emphasis on personal interest, growth and development. Coursework includes study in the areas of humanities and fine arts, social and behavioral sciences, natural sciences and mathematics, and English composition. Opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and the basic use of computers will be provided. Through these skills, students will have a sound base for lifelong learning. Graduates are prepared for advancements within their field of interest and become better qualified for a wide range of employment opportunities.

*All courses in the program are college-level courses. Many of the courses are equivalent to college transfer courses; however, the program is not principally designed for college transfer.

General Education Core (15 SHC):

The general education core includes study in the areas of humanities and fine arts, social and behavioral sciences, natural sciences and mathematics, and English composition. Within the core, colleges must include

opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and the basic use of computers (SACS Criteria, 4.2.2).

English Composition (6 SHC)

Humanities/Fine Arts (3 SHC):

Select courses from the following discipline areas: music, art, drama, dance, foreign languages, interdisciplinary humanities, literature, philosophy and religion.

Social/Behavioral Sciences (3 SHC):

Select courses from the following discipline areas: anthropology, economics, geography, history, political science, psychology, and sociology.

Natural Sciences/Mathematics (3 SHC):

Mathematics:

Select courses from the following discipline areas: quantitative literacy, trigonometry, calculus, computer science, and statistics.

OR

Natural Sciences:

Select courses from the following discipline areas: astronomy, biology, chemistry, earth sciences, physics, and/or general science.

Other Required Hours (49-50 SHC):

Other required hours include additional general education and professional courses. A maximum of 7 SHC in health, physical education, college orientation, and/or study skills may be included as other required hours.

Total Semester Hours Credit (SHC) in Program: 64-65

Developmental Course Requirements:

Developmental coursework (both prerequisite and corequisite) will be required of students whose placement test measures indicate a need for greater proficiency in the areas of English and/or mathematics. Please refer to the Course Description section for prerequisite and corequisite course information.

- ENG 002 - Transition English Credit Hours: 3
- ENG 011 - Writing and Inquiry Support Credit Hours: 2

Associate in General Education - Nursing (A1030N)

The Associate in General Education (AGE)-Nursing is designed for students who wish to begin their study toward the Associate in Nursing degree and a Baccalaureate degree in Nursing as based on Blocks 1 through 3 of the Uniform Articulation Agreement between the University of North Carolina's Registered Nurse (RN) to Bachelor of Science in Nursing (BSN) programs and the North Carolina Community College Associate Degree Nursing Programs which was approved by the State Board of Community Colleges and the UNC Board of Governors in February 2015. The AGE-Nursing shall be granted for a planned program of study consisting of a minimum of 60 semester hours of credit (SHC) of courses.

A student who completes an Associate in Applied Science (AAS) in Nursing with a GPA of at least 2.0 and a grade of C or better in the AGE-Nursing courses listed below and who holds a current unrestricted license as a Registered Nurse in North Carolina will have fulfilled the UNC institutions lower-division general education requirements as well as nursing program entry requirements. However, because nursing program admissions are competitive, no student is guaranteed admission to the program of his or her choice.

General Education Courses:

English Composition

- ENG 111 - Writing and Inquiry Credit Hours: 3
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3

Humanities/Fine Arts

Select six (6) hours from the following:

- ART 111 - Art Appreciation Credit Hours: 3
- HUM 115 - Critical Thinking Credit Hours: 3
- MUS 110 - Music Appreciation Credit Hours: 3
- PHI 240 - Introduction to Ethics Credit Hours: 3

Select three (3) hours from the following:

- ENG 231 - American Literature I Credit Hours: 3
- ENG 232 - American Literature II Credit Hours: 3

Social/Behavioral Sciences

Students are required to take the following courses:

- PSY 150 - General Psychology Credit Hours: 3
- PSY 241 - Developmental Psych Credit Hours: 3
- SOC 210 - Introduction to Sociology Credit Hours: 3

Select three (3) hours from the following:

- SOC 213 - Sociology of the Family Credit Hours: 3
- SOC 220 - Social Problems Credit Hours: 3
- SOC 225 - Social Diversity Credit Hours: 3
- SOC 230 - Race and Ethnic Relations Credit Hours: 3

Select three (3) hours from the following:

- HIS 111 - World Civilizations I Credit Hours: 3
- HIS 112 - World Civilizations II Credit Hours: 3

- HIS 131 - American History I Credit Hours: 3
- HIS 132 - American History II Credit Hours: 3

Natural Sciences

- BIO 168 - Anatomy and Physiology I Credit Hours: 4
- BIO 169 - Anatomy and Physiology II Credit Hours: 4
- BIO 275 - Microbiology Credit Hours: 4
- CHM 131 - Introduction to Chemistry Credit Hours: 3
- CHM 131A - Intro to Chemistry Lab Credit Hours: 1

Mathematics

The following course is required:

- MAT 152 - Statistical Methods I Credit Hours: 4

Select a minimum of three (3) hours from the following:

- MAT 143 - Quantitative Literacy Credit Hours: 3
- MAT 171 - Precalculus Algebra Credit Hours: 4

Other Required Hours

Academic Transition

- ACA 122 - College Transfer Success Credit Hours: 1

Social/Behavioral Science Elective

Select six (6) hours from the following:

- ECO 251 - Prin of Microeconomics Credit Hours: 3
- ECO 252 - Prin of Macroeconomics Credit Hours: 3
- POL 120 - American Government Credit Hours: 3

Total Credit Hours Required: 60/61

Developmental Course Requirements:

Developmental coursework (both prerequisite and corequisite) will be required of students whose placement test measures indicate a need for greater proficiency in the areas of English and/or mathematics. Please refer to the Course Description section for prerequisite and corequisite course information.

- ENG 002 - Transition English Credit Hours: 3
- ENG 011 - Writing and Inquiry Support Credit Hours: 2

Students who elect to take MAT 143 from above:

- MAT 003 - Transition Math Credit Hours: 3
- MAT 043 - Quantitative Literacy Support Credit Hours: 2

Students who elect to take MAT 152 from above:

- MAT 003 - Transition Math Credit Hours: 3
- MAT 052 - Statistical Methods I Support Credit Hours: 2

Students who elect to take MAT 171 from above:

- MAT 003 - Transition Math Credit Hours: 3
- MAT 071 - Precalculus Algebra Support Credit Hours: 2

Associate in Fine Arts in Music (A10700)

The Associate in Fine Arts in Music degree shall be granted for a planned program of study consisting of a minimum of 60-61 semester hours of college transfer courses. Within the degree program, the institution shall include opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and basic computer use.

The Associate in Fine Arts in Music degree is designed for students who wish to work as professional musicians or transfer into baccalaureate degree programs to complete a Bachelor in Fine Arts (BFA) or a Bachelor of Arts (BA) with a major in Music. Courses are approved for transfer through the Comprehensive Articulation Agreement (CAA).

The Music Program at CVCC provides students with a number of opportunities to engage in music making and cultivate an appreciation of music. Creative performance options such as Chorus and Ensemble are available as electives, as well as history-based Music Appreciation and Introduction to Jazz courses. Music faculty enthusiastically bring their performing experiences into the classroom from a variety of disciplines, including vocal and choral performance, guitar, piano, and instrumental performance.

Universal General Education Transfer Component (22-23 SHC)

All Universal General Education Transfer Component (UGETC) courses will transfer for equivalency credit.

English Composition (6 SHC)

- ENG 111 - Writing and Inquiry Credit Hours: 3
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3

Communications and Humanities/Fine Arts (3 SHC)

Select one course from the following disciplines:

- ART 111 - Art Appreciation Credit Hours: 3
- COM 120 - Intro Interpersonal Com Credit Hours: 3
- COM 231 - Public Speaking Credit Hours: 3
- DRA 111 - Theatre Appreciation Credit Hours: 3
- ENG 231 - American Literature I Credit Hours: 3
- ENG 232 - American Literature II Credit Hours: 3
- ENG 241 - British Literature I Credit Hours: 3
- ENG 242 - British Literature II Credit Hours: 3
- MUS 110 - Music Appreciation Credit Hours: 3
- MUS 112 - Introduction to Jazz Credit Hours: 3
- PHI 215 - Philosophical Issues Credit Hours: 3
- PHI 240 - Introduction to Ethics Credit Hours: 3

Social/Behavioral Sciences (6 SHC)

Select two courses from two different disciplines.

- ECO 251 - Prin of Microeconomics Credit Hours: 3
- ECO 252 - Prin of Macroeconomics Credit Hours: 3
- HIS 111 - World Civilizations I Credit Hours: 3

- HIS 112 - World Civilizations II Credit Hours: 3
- HIS 131 - American History I Credit Hours: 3
- HIS 132 - American History II Credit Hours: 3
- POL 120 - American Government Credit Hours: 3
- PSY 150 - General Psychology Credit Hours: 3
- SOC 210 - Introduction to Sociology Credit Hours: 3

Mathematics (3-4 SHC)

Select one course from the following:

- MAT 143 - Quantitative Literacy Credit Hours: 3
- MAT 171 - Precalculus Algebra Credit Hours: 4

Natural Sciences (4 SHC)

Select 4 SHC from the following:

- AST 151 - General Astronomy I Credit Hours: 3
- **AND**
- AST 151A - General Astronomy I Lab Credit Hours: 1
- BIO 111 - General Biology I Credit Hours: 4
- CHM 151 - General Chemistry I Credit Hours: 4
- GEL 111 - Geology Credit Hours: 4
- PHY 110 - Conceptual Physics Credit Hours: 3
- **AND**
- PHY 110A - Conceptual Physics Lab Credit Hours: 1

Additional General Education (3 SHC)

Select one course from the following discipline areas: All courses listed below are classified as UGETC with the exception of foreign language.

- ART 111 - Art Appreciation Credit Hours: 3
- ART 114 - Art History Survey I Credit Hours: 3
- ART 115 - Art History Survey II Credit Hours: 3
- COM 231 - Public Speaking Credit Hours: 3
- ENG 231 - American Literature I Credit Hours: 3
- ENG 232 - American Literature II Credit Hours: 3
- ENG 241 - British Literature I Credit Hours: 3
- ENG 242 - British Literature II Credit Hours: 3
- MUS 110 - Music Appreciation Credit Hours: 3
- MUS 112 - Introduction to Jazz Credit Hours: 3
- PHI 215 - Philosophical Issues Credit Hours: 3
- PHI 240 - Introduction to Ethics Credit Hours: 3

Other Required Hours (34-36 SHC)**Academic Transition (1 SHC)**

The following course is required:

- ACA 122 - College Transfer Success Credit Hours: 1

Music Theory (8 SHC)

The following courses are required:

- MUS 121 - Music Theory I Credit Hours: 3
- MUS 122 - Music Theory II Credit Hours: 3
- MUS 125 - Aural Skills I Credit Hours: 1
- MUS 126 - Aural Skills II Credit Hours: 1

Applied Music (4 SHC)

The following courses are required:

- MUS 161 - Applied Music I Credit Hours: 2
- MUS 162 - Applied Music II Credit Hours: 2

Class Music (2 SHC)

The following courses are required:

- MUS 151 - Class Music I Credit Hours: 1
- MUS 152 - Class Music II Credit Hours: 1

Ensemble (2-4 SHC)

Select 2-4 SHC from the following courses:

- MUS 131 - Chorus I Credit Hours: 1
- MUS 132 - Chorus II Credit Hours: 1
- MUS 135 - Jazz Ensemble I Credit Hours: 1
- MUS 136 - Jazz Ensemble II Credit Hours: 1
- MUS 141 - Ensemble I Credit Hours: 1
- MUS 142 - Ensemble II Credit Hours: 1
- MUS 133 - Band I Credit Hours: 1
- MUS 134 - Band II Credit Hours: 1
- MUS 181 - Show Choir I Credit Hours: 4
- MUS 231 - Chorus III Credit Hours: 1
- MUS 232 - Chorus IV Credit Hours: 1
- MUS 233 - Band III Credit Hours: 1
- MUS 234 - Band IV Credit Hours: 1
- MUS 235 - Jazz Ensemble III Credit Hours: 1
- MUS 236 - Jazz Ensemble IV Credit Hours: 1
- MUS 241 - Ensemble III Credit Hours: 1
- MUS 242 - Ensemble IV Credit Hours: 1

Additional Other Required Hours (15-19 SHC)

An additional 15-19 SHC (depending on selection of math and ensemble courses) of courses should be selected from the one of the following lists:

- from the UGETC courses the student did not select for the first 22-23 hours of General Education requirements above
- from the list of courses classified as pre-major/elective courses identified in the Comprehensive Articulation Agreement.

- ACC 120 - Prin of Financial Accounting Credit Hours: 4
- ACC 121 - Prin of Managerial Accounting Credit Hours: 4
- ARA 111 - Elementary Arabic I Credit Hours: 3
- ARA 112 - Elementary Arabic II Credit Hours: 3
- ART 113 - Art Methods and Materials Credit Hours: 3
- ART 117 - Non-Western Art History Credit Hours: 3
- ART 118 - Art by Women Credit Hours: 3
- ART 121 - Two-Dimensional Design Credit Hours: 3
- ART 122 - Three-Dimensional Design Credit Hours: 3
- ART 130 - Basic Drawing Credit Hours: 2
- ART 131 - Drawing I Credit Hours: 3
- ART 132 - Drawing II Credit Hours: 3

Comprehensive Articulation Agreement Pre-Major/Elective Course Listing (cont.)

- ART 140 - Basic Painting Credit Hours: 2
- ART 171 - Digital Design I Credit Hours: 3
- ART 212 - Gallery Assistantship I Credit Hours: 3
- ART 214 - Portfolio and Resume Credit Hours: 1
- ART 215 - Visual Art Portfolio Credit Hours: 3
- ART 222 - Wood Design I Credit Hours: 3
- ART 231 - Printmaking I Credit Hours: 3
- ART 232 - Printmaking II Credit Hours: 3
- ART 240 - Painting I Credit Hours: 3
- ART 241 - Painting II Credit Hours: 3
- ART 264 - Digital Photography I Credit Hours: 3

Students should select these courses based on their intended major and transfer institution.

Total Semester Hours Credit (SHC) in Program: 60-61*

*One semester hour of credit may be included in a 61 SHC Associate in Fine Arts in Music program of study. The transfer of this hour is not guaranteed.

Developmental Course Requirements:

Developmental coursework (both prerequisite and corequisite) will be required of students whose placement test measures indicate a need for greater proficiency in the areas of English and/or mathematics. Please refer to the Course Description section for prerequisite and corequisite course information.

- ENG 002 - Transition English Credit Hours: 3
 - ENG 011 - Writing and Inquiry Support Credit Hours: 2
- Students who elect to take MAT 143 from above:**
- MAT 003 - Transition Math Credit Hours: 3
 - MAT 043 - Quantitative Literacy Support Credit Hours: 2

Students who elect to take MAT 171 from above:

- MAT 003 - Transition Math Credit Hours: 3
- MAT 071 - Precalculus Algebra Support Credit Hours: 2

Suggested Program Sequence:**Fail - 1st year:**

- MUS 111 - Fundamentals of Music Credit Hours: 3
- MUS 161 - Applied Music I Credit Hours: 2
- MUS 151P - Class Music I-Piano Credit Hours: 1
- MUS 131 - Chorus I Credit Hours: 1

- MUS 141 - Ensemble I Credit Hours: 1
- OR
- MUS 135 - Jazz Ensemble I Credit Hours: 1

- ENG 111 - Writing and Inquiry Credit Hours: 3
- Communications and Humanities/Fine Arts Elective Credit Hours: 3
- ACA 122 - College Transfer Success Credit Hours: 1

Total Hours: Class 10 | Lab 10 | Clin/Wk Exp 0 | Credit 15

Note: It is strongly recommended for each student to take MUS 151V Class Music I - Voice in addition to the classes listed in the suggested program sequence. Please consult a MUS Advisor for specific recommendations.

Spring - 1st year:

- MUS 121 - Music Theory I Credit Hours: 3
- MUS 125 - Aural Skills I Credit Hours: 1
- MUS 162 - Applied Music II Credit Hours: 2
- MUS 152P - Class Music II - Piano Credit Hours: 1
- MUS 132 - Chorus II Credit Hours: 1

- MUS 142 - Ensemble II Credit Hours: 1
OR
- MUS 136 - Jazz Ensemble II Credit Hours: 1
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3
- MAT 143 - Quantitative Literacy Credit Hours: 3
OR
- MAT 171 - Precalculus Algebra Credit Hours: 4

Total Hours: Class 9/10 | Lab 12 | Clin/Wk Exp 0 | Credit 15/16

Note: It is strongly recommended for each student to take MUS 152V Class Music II - Voice in addition to the classes listed in the suggested program sequence. Please consult a MUS Advisor for specific recommendations.

Fall - 2nd year:

- MUS 122 - Music Theory II Credit Hours: 3
- MUS 126 - Aural Skills II Credit Hours: 1
- MUS 261 - Applied Music III Credit Hours: 2
- MUS 251P - Class Music III-Piano Credit Hours: 1

- MUS 241 - Ensemble III Credit Hours: 1
OR
- MUS 235 - Jazz Ensemble III Credit Hours: 1

- Social/Behavior Sciences Elective Credit Hours: 3
- Natural Sciences Elective Credit Hours: 4

Total Hours: Class 10 | Lab 10/11 | Clin/Wk Exp 0 | Credit 15

Note: It is strongly recommended for each student to take MUS 251V Class Music III - Voice in addition to the classes listed in the suggested program sequence. Please consult a MUS Advisor for specific recommendations.

Spring - 2nd year:

- MUS 217 - Elementary Conducting Credit Hours: 2
- MUS 221 - Music Theory III Credit Hours: 3
- MUS 225 - Aural Skills III Credit Hours: 1
- MUS 262 - Applied Music IV Credit Hours: 2
- MUS 252P - Class Music IV - Piano Credit Hours: 1

- MUS 242 - Ensemble IV Credit Hours: 1
OR
- MUS 236 - Jazz Ensemble IV Credit Hours: 1

- Social/Behavior Sciences Elective Credit Hours: 3
- Additional General Education Elective Credit Hours: 3

Total Hours: Class 11 | Lab 10 | Clin/Wk Exp 0 | Credit 16

Note: It is strongly recommended for each student to take MUS 252V Class Music IV - Voice in addition to the classes listed in the suggested program sequence. Please consult a MUS Advisor for specific recommendations.

Grand Total Hours: Class 40/41 | Lab 42/43 | Clin/WkExp 0 | Credit 61/62

Associate in Fine Arts in Theatre (A10800)

The Associate in Fine Arts in Theatre degree shall be granted for a planned program of study consisting of a minimum of 60 semester hours of college transfer courses. Within the degree program, the institution shall include opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and basic computer use.

The Associate in Fine Arts in Theatre program prepares students to move towards professional practice or the pursuit of a bachelor's degree at a four-year college or university. The program is grounded in the hands-on practice of both performance and technical theatre. Students may choose between an acting track and a technical theatre track. There is also the possibility of fitting both tracks into a two-year plan.

The A.F.A. in Theatre Program at CVCC offers courses such as play production, acting and stagecraft in the field of Theatre. Students study performance on stage and before the camera and develop skills for behind the scenes. Students have opportunities to perform on stage in a variety of performance venues. Students have opportunities to work with other actors, designers, directors and technicians in an intensive production processes and play production.

Universal General Education Transfer Component (31-32 SHC)

All Universal General Education Transfer Component (UGETC) courses will transfer for equivalency credit.

English Composition (6 SHC)

The following two English composition courses are required.

- ENG 111 - Writing and Inquiry Credit Hours: 3
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3

Communications and Humanities/Fine Arts (9 SHC)

Select three courses from at least two different disciplines.

- ART 111 - Art Appreciation Credit Hours: 3
- ART 114 - Art History Survey I Credit Hours: 3
- ART 115 - Art History Survey II Credit Hours: 3
- COM 120 - Intro Interpersonal Com Credit Hours: 3
- COM 231 - Public Speaking Credit Hours: 3
- DRA 111 - Theatre Appreciation Credit Hours: 3

- ENG 231 - American Literature I Credit Hours: 3
- ENG 232 - American Literature II Credit Hours: 3
- ENG 241 - British Literature I Credit Hours: 3
- ENG 242 - British Literature II Credit Hours: 3
- MUS 110 - Music Appreciation Credit Hours: 3
- MUS 112 - Introduction to Jazz Credit Hours: 3
- PHI 215 - Philosophical Issues Credit Hours: 3
- PHI 240 - Introduction to Ethics Credit Hours: 3

Social/Behavioral Sciences (9 SHC)

Select three courses from at least two different disciplines.

- ECO 251 - Prin of Microeconomics Credit Hours: 3
- ECO 252 - Prin of Macroeconomics Credit Hours: 3
- HIS 111 - World Civilizations I Credit Hours: 3
- HIS 112 - World Civilizations II Credit Hours: 3
- HIS 131 - American History I Credit Hours: 3
- HIS 132 - American History II Credit Hours: 3
- POL 120 - American Government Credit Hours: 3
- PSY 150 - General Psychology Credit Hours: 3
- SOC 210 - Introduction to Sociology Credit Hours: 3

Mathematics (3-4 SHC)

Select one course from the following:

- MAT 143 - Quantitative Literacy Credit Hours: 3
- MAT 152 - Statistical Methods I Credit Hours: 4
- MAT 171 - Precalculus Algebra Credit Hours: 4
- MAT 271 - Calculus I Credit Hours: 4

Natural Sciences (4 SHC)

Select 4 SHC from the following:

- AST 151 - General Astronomy I Credit Hours: 3
AND
- AST 151A - General Astronomy I Lab Credit Hours: 1
- BIO 111 - General Biology I Credit Hours: 4
- CHM 151 - General Chemistry I Credit Hours: 4
- GEL 111 - Geology Credit Hours: 4
- PHY 110 - Conceptual Physics Credit Hours: 3
AND
- PHY 110A - Conceptual Physics Lab Credit Hours: 1

Other Required Hours (16 SHC)

Theatre (15 SHC)

- DRA 211 - Theatre History I Credit Hours: 3
- DRA 212 - Theatre History II Credit Hours: 3

Choose one track:

Acting Track

- DRA 130 - Acting I Credit Hours: 3
- DRA 135 - Acting for the Camera I Credit Hours: 3
- DRA 170 - Play Production I Credit Hours: 3

Technical Track

- DRA 140 - Stagecraft I Credit Hours: 3
- DRA 141 - Stagecraft II Credit Hours: 3
- DRA 170 - Play Production I Credit Hours: 3

Academic Transition (1 SHC)

The following course is required:

- ACA 122 - College Transfer Success Credit Hours: 1

Additional General Education Hours (12-14 SHC):

An additional 12-14 SHC of courses should be selected from one of the following lists:

- from the UGETC courses the student did not select for the first 34 hours of General Education requirements listed above
- from the list of pre-major/elective courses identified in the Comprehensive Articulation Agreement.

- ACC 120 - Prin of Financial Accounting Credit Hours: 4
- ACC 121 - Prin of Managerial Accounting Credit Hours: 4
- ARA 111 - Elementary Arabic I Credit Hours: 3
- ARA 112 - Elementary Arabic II Credit Hours: 3
- ART 113 - Art Methods and Materials Credit Hours: 3
- ART 117 - Non-Western Art History Credit Hours: 3
- ART 118 - Art by Women Credit Hours: 3
- ART 121 - Two-Dimensional Design Credit Hours: 3
- ART 122 - Three-Dimensional Design Credit Hours: 3
- ART 130 - Basic Drawing Credit Hours: 2
- ART 131 - Drawing I Credit Hours: 3
- ART 132 - Drawing II Credit Hours: 3
- ART 140 - Basic Painting Credit Hours: 2
- ART 171 - Digital Design I Credit Hours: 3
- ART 212 - Gallery Assistantship I Credit Hours: 3
- ART 214 - Portfolio and Resume Credit Hours: 1
- ART 215 - Visual Art Portfolio Credit Hours: 3
- ART 222 - Wood Design I Credit Hours: 3
- ART 231 - Printmaking I Credit Hours: 3
- ART 232 - Printmaking II Credit Hours: 3
- ART 240 - Painting I Credit Hours: 3
- ART 241 - Painting II Credit Hours: 3
- ART 264 - Digital Photography I Credit Hours: 3
- ART 271 - Digital Design II Credit Hours: 3
- ART 281 - Sculpture I Credit Hours: 3
- ART 282 - Sculpture II Credit Hours: 3
- ART 283 - Ceramics I Credit Hours: 3
- ART 284 - Ceramics II Credit Hours: 3

Associate in Fine Arts in Visual Arts (A10600)

The Associate in Fine Arts in Visual Arts degree shall be granted for a planned program of study consisting of a minimum of 60 semester hours of college transfer courses. Within the degree program, the institution shall include opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and basic computer use.

The Associate in Fine Arts in Visual Arts curriculum helps students strengthen and expand their creativity as well as their technical knowledge of the history and practice of creating art and design. The coursework and studio experiences build students' skills in concept development, visual observation, personal expression, critical thinking, and problem solving - skills essential for prospering in the professional practice of art and design. The program is grounded in the traditions of hands-on practice in drawing, painting, sculpting, ceramics, and printmaking while also connecting fully to the rich opportunities in digital and other emerging technologies.

The Visual Arts Program teaches students appreciation of the arts and visual culture while building the critical thinking skills necessary for becoming innovators and problem-solvers. Courses in art appreciation and art history - as well as studio classes in painting, drawing, printmaking, sculpture, and more - help students learn about the purpose and value of visual art and design as well as teaching skill and technique.

Universal General Education Transfer Component (30-31 SHC)

All Universal General Education Transfer Component (UGETC) courses will transfer for equivalency credit.

English Composition (6 SHC)

- ENG 111 - Writing and Inquiry Credit Hours: 3
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3

Communications and Humanities/Fine Arts (6 SHC)

Select two courses from two different disciplines.

- ART 122 - Three-Dimensional Design Credit Hours: 3
- ART 131 - Drawing I Credit Hours: 3

Other Required Hours (Total of 18-20 SHC)**An additional 18-20 SHC of courses should be selected from the following****lists:**

- from the UGETC courses the student did not select for the first 30-31 hours of General Education requirements listed above
- from the list of pre-major/elective courses identified in the Comprehensive Articulation Agreement.

- ACC 120 - Prin of Financial Accounting Credit Hours: 4
- ACC 121 - Prin of Managerial Accounting Credit Hours: 4
- ARA 111 - Elementary Arabic I Credit Hours: 3
- ARA 112 - Elementary Arabic II Credit Hours: 3
- ART 113 - Art Methods and Materials Credit Hours: 3
- ART 117 - Non-Western Art History Credit Hours: 3
- ART 118 - Art by Women Credit Hours: 3
- ART 121 - Two-Dimensional Design Credit Hours: 3
- ART 122 - Three-Dimensional Design Credit Hours: 3
- ART 130 - Basic Drawing Credit Hours: 2
- ART 131 - Drawing I Credit Hours: 3
- ART 132 - Drawing II Credit Hours: 3
- ART 140 - Basic Painting Credit Hours: 2
- ART 171 - Digital Design I Credit Hours: 3
- ART 212 - Gallery Assistantship I Credit Hours: 3
- ART 214 - Portfolio and Resume Credit Hours: 1
- ART 215 - Visual Art Portfolio Credit Hours: 3
- ART 222 - Wood Design I Credit Hours: 3
- ART 231 - Printmaking I Credit Hours: 3
- ART 232 - Printmaking II Credit Hours: 3
- ART 240 - Painting I Credit Hours: 3
- ART 241 - Painting II Credit Hours: 3
- ART 264 - Digital Photography I Credit Hours: 3
- ART 271 - Digital Design II Credit Hours: 3
- ART 281 - Sculpture I Credit Hours: 3
- ART 282 - Sculpture II Credit Hours: 3
- ART 283 - Ceramics I Credit Hours: 3
- ART 284 - Ceramics II Credit Hours: 3
- ASL 111 - Elementary ASL I Credit Hours: 3
- ASL 112 - Elementary ASL II Credit Hours: 3
- BIO 143 - Field Biology Minicourse Credit Hours: 2
- BIO 145 - Ecology Credit Hours: 4
- BIO 146 - Regional Natural History Credit Hours: 4
- BIO 155 - Nutrition Credit Hours: 3
- BIO 163 - Basic Anat & Physiology Credit Hours: 5
- BIO 168 - Anatomy and Physiology I Credit Hours: 4
- BIO 169 - Anatomy and Physiology II Credit Hours: 4
- BIO 175 - General Microbiology Credit Hours: 3
- BIO 224 - Local Flora Spring Credit Hours: 2
- BIO 230 - Entomology Credit Hours: 4
- BIO 250 - Genetics Credit Hours: 4
- BIO 275 - Microbiology Credit Hours: 4
- BIO 280 - Biotechnology Credit Hours: 3
- BUS 110 - Introduction to Business Credit Hours: 3
- BUS 115 - Business Law I Credit Hours: 3
- BUS 137 - Principles of Management Credit Hours: 3
- CHI 111 - Elementary Chinese I Credit Hours: 3
- CHI 112 - Elementary Chinese II Credit Hours: 3

 SPA 221 - Spanish Conversation Credit Hours: 3
 WBL 110 - World of Work Credit Hours: 1
 WBL 111A-Z - Work-Based Learning I Credit Hours: 1

Students should select these courses based on their intended major and transfer university.

Academic Transition (1 SHC)

- ACA 122 - College Transfer Success Credit Hours: 1

Total Semester Hours Credit (SHC) in Program: 60/61*

*One semester hour of credit may be included in a 61 SHC Associate in Fine Arts in Visual Arts program of study. The transfer of this hour is not guaranteed.

Developmental Course Requirements:

Developmental coursework (both prerequisite and corequisite) will be required of students whose placement test measures indicate a need for greater proficiency in the areas of English and/or mathematics. Please refer to the Course Description section for prerequisite and corequisite course information.

- ENG 002 - Transition English Credit Hours: 3
- ENG 011 - Writing and Inquiry Support Credit Hours: 2

Students who elect to take MAT 143 from above:

- MAT 003 - Transition Math Credit Hours: 3
- MAT 043 - Quantitative Literacy Support Credit Hours: 2

Students who elect to take MAT 152 from above:

- MAT 003 - Transition Math Credit Hours: 3
- MAT 052 - Statistical Methods I Support Credit Hours: 2

Students who elect to take MAT 171 from above:

- MAT 003 - Transition Math Credit Hours: 3
- MAT 071 - Precalculus Algebra Support Credit Hours: 2

Suggested Program Sequence:**Fall - 1st year:**

- ART 131 - Drawing I Credit Hours: 3
- ART 121 - Two-Dimensional Design Credit Hours: 3
- ART 114 - Art History Survey I Credit Hours: 3
- ENG 111 - Writing and Inquiry Credit Hours: 3
- ACA 122 - College Transfer Success Credit Hours: 1

Total Hours: Class 6 | Lab 14 | Clin/Wk Exp 0 | Credit 13

Spring - 1st year:

- ART 115 - Art History Survey II Credit Hours: 3
- ART 122 - Three-Dimensional Design Credit Hours: 3

- Art Elective (Choose one from list below) Credit Hours: 3

- ART 231 - Printmaking I
- ART 240 - Painting I
- ART 264 - Digital Photography I
- ART 171 - Digital Design I
- ART 281 - Sculpture I
- ART 283 - Ceramics I
- ART 132 - Drawing II
- ART 232 - Printmaking II
- ART 241 - Painting II
- ART 271 - Digital Design II
- ART 282 - Sculpture II
- ART 284 - Ceramics II

- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3

Total Hours: Class 6 | Lab 12 | Clin/Wk Exp 0 | Credit 12

Summer - 1st year:

- Math Elective Credit Hours: 3/4
- Communications and Humanities/Fine Arts Elective Credit Hours: 3
- Social/Behavioral Sciences Elective Credit Hours: 3

Total Hours: Class 8/9 | Lab 2 | Clin/Wk Exp 0 | Credit 9/10

Fall - 2nd year*:

- Art Elective (Choose one from the list below) Credit hours: 3

- ART 231 - Printmaking I
- ART 240 - Painting I
- ART 264 - Digital Photography I
- ART 171 - Digital Design I
- ART 281 - Sculpture I
- ART 283 - Ceramics I
- ART 132 - Drawing II
- ART 232 - Printmaking II
- ART 241 - Painting II
- ART 271 - Digital Design II
- ART 282 - Sculpture II
- ART 284 - Ceramics II

- Art Elective (Choose one from the list below) Credit hours: 3

- ART 231 - Printmaking I
- ART 240 - Painting I
- ART 264 - Digital Photography I

- ART 171 - Digital Design I
- ART 281 - Sculpture I
- ART 283 - Ceramics I
- ART 132 - Drawing II
- ART 232 - Printmaking II
- ART 241 - Painting II
- ART 271 - Digital Design II
- ART 282 - Sculpture II
- ART 284 - Ceramics II
- Communications and Humanities/Fine Arts Elective Credit hours: 3
- Natural Sciences Elective Credit hours: 4

Total Hours: Class 6 | Lab 14/15 | Clin/Wk Exp 0 | Credit 13

Spring - 2nd year*:

- Art Elective (Choose one from the list below) Credit hours: 3
 - ART 231 - Printmaking I
 - ART 240 - Painting I
 - ART 264 - Digital Photography I
 - ART 171 - Digital Design I
 - ART 281 - Sculpture I
 - ART 283 - Ceramics I
 - ART 132 - Drawing II
 - ART 232 - Printmaking II
 - ART 241 - Painting II
 - ART 271 - Digital Design II
 - ART 282 - Sculpture II
 - ART 284 - Ceramics II
 - Art Elective Credit hours: 4
- Social/Behavior Science Elective Credit hours: 3
- ART 215 - Visual Art Portfolio Credit Hours: 3

Total Hours: Class 6 | Lab 12 | Clin/Wk Exp 0 | Credit 13

Grand Total Hours: Class 32/33 | Lab 54/55 | Clin/WkExp 0 | Credit 60/61

***Note:** It is strongly recommended for each student to take ART Elective credit in studio practicum classes for college transfer. Please consult an ART Advisor for specific recommendations.

Associate in Science (A10400)

The Associate in Science degree shall be granted for a planned program of study consisting of a minimum of 60 semester hours of credit (SHC) of college transfer courses. Within the degree program, the institution shall include opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and the basic computer use.

The Comprehensive Articulation Agreement (CAA) and the Independent Comprehensive Articulation Agreement (ICAA) enables North Carolina community college graduates of two-year associate in science programs who are admitted to constituent institutions of The University of North Carolina and to Signatory Institutions of North Carolina Independent Colleges and Universities to transfer with junior status.

Community college graduates must obtain a grade of "C" or better in each course and an overall GPA of at least 2.0 on a 4.0 scale in order to transfer with a junior status. Courses may also transfer through bilateral agreements between institutions.

General Education Courses (Total of 45 SHC):

Universal General Education Transfer Component (UGETC)

Students will select the first 34 hours of the 45-hour General Education Requirement from the classes listed below. All of these courses are classified by the Comprehensive Articulation Agreement as Universal General Education Transfer Component courses (UGETC), and they will transfer to UNC institutions for equivalency credit.

English Composition (6 SHC):

- ENG 111 - Writing and Inquiry Credit Hours: 3
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3

Humanities/Fine Arts/Communications (6 SHC):

Select two (2) courses from the following list from two (2) different disciplines:

Communications:

- COM 120 - Intro Interpersonal Com Credit Hours: 3
- COM 231 - Public Speaking Credit Hours: 3

Humanities/Fine Arts:

- ART 111 - Art Appreciation Credit Hours: 3
- ART 114 - Art History Survey I Credit Hours: 3
- ART 115 - Art History Survey II Credit Hours: 3
- DRA 111 - Theatre Appreciation Credit Hours: 3
- ENG 231 - American Literature I Credit Hours: 3
- ENG 232 - American Literature II Credit Hours: 3
- ENG 241 - British Literature I Credit Hours: 3
- ENG 242 - British Literature II Credit Hours: 3
- MUS 110 - Music Appreciation Credit Hours: 3
- MUS 112 - Introduction to Jazz Credit Hours: 3

Social/Behavioral Sciences (6 SHC):

Select two (2) courses from the following list from two (2) different disciplines:

- ECO 251 - Prin of Microeconomics Credit Hours: 3
- ECO 252 - Prin of Macroeconomics Credit Hours: 3
- HIS 111 - World Civilizations I Credit Hours: 3
- HIS 112 - World Civilizations II Credit Hours: 3
- HIS 131 - American History I Credit Hours: 3

- HIS 132 - American History II Credit Hours: 3
- POL 120 - American Government Credit Hours: 3
- PSY 150 - General Psychology Credit Hours: 3
- SOC 210 - Introduction to Sociology Credit Hours: 3

Mathematics (8 SHC):

Select two (2) courses from the following list:

- MAT 171 - Precalculus Algebra Credit Hours: 4
- MAT 172 - Precalculus Trigonometry Credit Hours: 4
- MAT 263 - Brief Calculus Credit Hours: 4
- MAT 271 - Calculus I Credit Hours: 4
- MAT 272 - Calculus II Credit Hours: 4

Natural/Physical Sciences (8 SHC):

Select two (2) courses with labs to total eight (8) SHC from the following list:

- AST 151 - General Astronomy I Credit Hours: 3
- AND**
- AST 151A - General Astronomy I Lab Credit Hours: 1
- BIO 111 - General Biology I Credit Hours: 4
- AND**
- BIO 112 - General Biology II Credit Hours: 4
- CHM 151 - General Chemistry I Credit Hours: 4
- AND**
- CHM 152 - General Chemistry II Credit Hours: 4
- GEL 111 - Geology Credit Hours: 4
- PHY 110 - Conceptual Physics Credit Hours: 3
- AND**
- PHY 110A - Conceptual Physics Lab Credit Hours: 1

- PHY 151 - College Physics I Credit Hours: 4

AND

- PHY 152 - College Physics II Credit Hours: 4

- PHY 251 - General Physics I Credit Hours: 4

AND

- PHY 252 - General Physics II Credit Hours: 4

Additional General Education Hours (11 SHC):

An additional 11 SHC of courses should be selected from one of the following lists:

- from the UGETC courses the student did not select for the first 34 hours of General Education requirements above.
- from the list of courses classified as General Education within the Comprehensive Articulation Agreement below:

- ANT 220 - Cultural Anthropology Credit Hours: 3
- ANT 221 - Comparative Cultures Credit Hours: 3
- ARA 111 - Elementary Arabic I Credit Hours: 3
- ARA 112 - Elementary Arabic II Credit Hours: 3
- ASL 111 - Elementary ASL I Credit Hours: 3
- ASL 112 - Elementary ASL II Credit Hours: 3
- AST 152 - General Astronomy II Credit Hours: 3
- AST 152A - General Astronomy II Lab Credit Hours: 1
- BIO 112 - General Biology II Credit Hours: 4
- BIO 120 - Introductory Botany Credit Hours: 4
- BIO 130 - Introductory Zoology Credit Hours: 4
- BIO 140 - Environmental Biology Credit Hours: 3
- BIO 140A - Environmental Biology Lab Credit Hours: 1
- CHI 111 - Elementary Chinese I Credit Hours: 3
- CHI 112 - Elementary Chinese II Credit Hours: 3
- CHM 131 - Introduction to Chemistry Credit Hours: 3
- CHM 131A - Intro to Chemistry Lab Credit Hours: 1
- CHM 132 - Organic and Biochemistry Credit Hours: 4
- CHM 152 - General Chemistry II Credit Hours: 4
- CIS 110 - Introduction to Computers Credit Hours: 3
- CIS 115 - Intro to Prog & Logic Credit Hours: 3
- COM 110 - Introduction to Communication Credit Hours: 3
- DAN 110 - Dance Appreciation Credit Hours: 3
- DRA 112 - Literature of the Theatre Credit Hours: 3
- DRA 115 - Theatre Criticism Credit Hours: 3
- DRA 122 - Oral Interpretation Credit Hours: 3
- DRA 126 - Storytelling Credit Hours: 3
- DRA 211 - Theatre History I Credit Hours: 3
- DRA 212 - Theatre History II Credit Hours: 3
- ENG 113 - Literature-Based Research Credit Hours: 3
- ENG 114 - Prof Research & Reporting Credit Hours: 3
- ENG 131 - Introduction to Literature Credit Hours: 3
- ENG 134 - Introduction to Poetry Credit Hours: 3
- ENG 251 - Western World Literature I Credit Hours: 3
- ENG 252 - Western World Literature II Credit Hours: 3
- ENG 272 - Southern Literature Credit Hours: 3
- ENG 274 - Literature by Women Credit Hours: 3
- FRE 111 - Elementary French I Credit Hours: 3
- FRE 112 - Elementary French II Credit Hours: 3
- FRE 211 - Intermediate French I Credit Hours: 3
- FRE 212 - Intermediate French II Credit Hours: 3
- GEL 113 - Historical Geology Credit Hours: 4
- GEL 120 - Physical Geology Credit Hours: 4
- GEL 230 - Environmental Geology Credit Hours: 4
- GEO 111 - World Regional Geography Credit Hours: 3
- GEO 112 - Cultural Geography Credit Hours: 3
- GEO 130 - General Physical Geography Credit Hours: 3
- GER 111 - Elementary German I Credit Hours: 3
- GER 112 - Elementary German II Credit Hours: 3
- HIS 121 - Western Civilization I Credit Hours: 3
- HIS 122 - Western Civilization II Credit Hours: 3

Total Semester Hours Credit (SHC) in Program: 60-61

One semester hour of credit may be included in a 61 SHC Associate in Science program of study. The transfer of this hour is not guaranteed.

Students must meet the receiving university's foreign language and/or health and physical education requirements, if applicable, prior to or after transfer to the senior institution.

Developmental Course Requirements:

Developmental coursework (both prerequisite and corequisite) will be required of students whose placement test measures indicate a need for greater proficiency in the areas of English and/or mathematics. Please refer to the Course Description section for prerequisite and corequisite course information.

- ENG 002 - Transition English Credit Hours: 3
- ENG 011 - Writing and Inquiry Support Credit Hours: 2

Students who elect to take MAT 171 from above:

- MAT 003 - Transition Math Credit Hours: 3
- MAT 071 - Precalculus Algebra Support Credit Hours: 2

Associate in Science in Teacher Preparation (A1040T)

The Associate in Science degree shall be granted for a planned program of study consisting of a minimum of 60 semester hours of credit (SHC) of college transfer courses. Within the degree program, the institution shall include opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and the basic computer use.

The Comprehensive Articulation Agreement (CAA) and the Independent Comprehensive Articulation Agreement (ICAA) enables North Carolina community college graduates of two-year associate in science programs who are admitted to constituent institutions of The University of North Carolina and to Signatory Institutions of North Carolina Independent Colleges and Universities to transfer with junior status.

Community college graduates must obtain a grade of "C" or better in each course and an overall GPA of at least 2.0 on a 4.0 scale in order to transfer with a junior status. Courses may also transfer through bilateral agreements between institutions.

General Education Courses (Total of 45 SHC):**Universal General Education Transfer Component (UGETC)**

(All Universal General Education Transfer Component courses will transfer for equivalency credit.)

English Composition (6 SHC):

- ENG 111 - Writing and Inquiry Credit Hours: 3
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3

Humanities/Fine Arts/Communications (6 SHC):

Select two (2) courses from the following list from two (2) different disciplines:

Communications:

- COM 120 - Intro Interpersonal Com Credit Hours: 3
- OR
- COM 231 - Public Speaking Credit Hours: 3

Humanities/Fine Arts:

- ART 111 - Art Appreciation Credit Hours: 3
- ART 114 - Art History Survey I Credit Hours: 3
- ART 115 - Art History Survey II Credit Hours: 3
- DRA 111 - Theatre Appreciation Credit Hours: 3

Accounting and Finance: Accounting, A.A.S. (A25800A)

Courses required to meet graduation requirements in this curriculum are offered during day and evening hours. Minimum time for completion: Day – four semesters full-time attendance. The Associate in Applied Science degree is awarded graduates of this curriculum.

The Accounting and Finance curriculum is designed to provide students with the knowledge and the skills necessary for employment and growth in the accounting and finance profession. Accountants and finance professionals assemble and analyze, process, and communicate essential information about financial operations.

Course work may include accounting, finance, ethics, business law, computer applications, financial planning, insurance, marketing, real estate, selling, and taxation. Related skills are developed through the study of communications, computer applications, financial analysis, critical thinking skills, and ethics.

Graduates should qualify for entry-level accounting and finance positions in many types of organizations including accounting firms, small businesses, manufacturing firms, banks, hospitals, school systems, and governmental agencies.

General Education Courses:

Accounting and Finance: Financial Services A.A.S. (A25800B)

Courses required to meet graduation requirements in this curriculum are offered during day hours and evening classes are offered on demand. Minimum time for completion: Day – four semesters full-time attendance. The Associate in Applied Science degree is awarded graduates of this curriculum.

The Accounting and Finance curriculum is designed to provide students with the knowledge and the skills necessary for employment and growth in the accounting and finance profession. Accountants and finance professionals assemble and analyze, process, and communicate essential information about financial operations.

Course work may include accounting, finance, ethics, business law, computer applications, financial planning, insurance, marketing, real estate, selling, and taxation. Related skills are developed through the study of communications, computer applications, financial analysis, critical thinking skills, and ethics.

Graduates should qualify for entry-level accounting and finance positions in many types of organizations including accounting firms, small businesses, manufacturing firms, banks, hospitals, school systems, and governmental agencies.

Advertising and Graphic Design, A.A.S. (A30100)

Courses required to meet graduation requirements in this curriculum are offered during day hours only. Minimum time for completion: five semesters full-time attendance. The Associate in Applied Science degree is awarded graduates of this curriculum.

The Advertising and Graphic Design curriculum is designed to provide students with knowledge and skills necessary for employment in the graphic design profession which emphasizes design, advertising, illustration, and digital and multimedia preparation of printed and electronic promotional materials.

Students will be trained in the development of concept and design for promotional materials such as newspaper and magazine advertisements,

posters, folders, letterheads, corporate symbols, brochures, booklets, preparation of art for printing, lettering and typography, photography, and electronic media.

Graduates should qualify for employment opportunities with graphic design studios, advertising agencies, printing companies, department stores, a wide variety of manufacturing industries, newspapers, and businesses with in-house graphics operations.

Advertising and Graphic Design students learn to think critically and creatively about strategies and concepts in the design process. The Advertising and Graphic Design program uses industry standard research methods, and student projects foster unique and solid student solutions. Students are exposed to in-depth studies on the elements and principles of design, and receive training in typography, drawing fundamentals, illustration, and the ideation process. Using analog and digital lab environments, students are exposed to the latest technology trends for web design, UX Design, and multimedia design.

Air Conditioning, Heating, and Refrigeration Technology A.A.S. (A35100)

Courses required to meet graduation requirements in this curriculum are offered during daytime hours and evening hours on demand. The Associate of Applied Science degree or Diploma is awarded to graduates of this curriculum. Minimum time for completion Day four semester attendance for the Diploma, five semesters full-time attendance for the Associate in Applied Science.

The Air Conditioning, Heating, and Refrigeration Technology curriculum provides the basic knowledge to develop skills necessary to work with residential and light commercial systems.

Topics include mechanical refrigeration, heating and cooling theory, electricity, controls, and safety. The diploma program covers air conditioning, furnaces, heat pumps, tools and instruments. In addition, the AAS degree covers residential building codes, residential system sizing, and advanced comfort systems.

Graduates should be able to assist in the start up, preventive maintenance, service, repair, and/or installation of residential and light commercial systems.

Courses required to meet graduation requirements in this curriculum are offered during daytime hours and evening hours on demand. The Associate of Applied Science degree or Diploma is awarded to graduates of this curriculum. Minimum time for completion Day four semester attendance for the Diploma, five semesters full-time attendance for the Associate in Applied Science.

The Air Conditioning, Heating, and Refrigeration Technology curriculum provides the basic knowledge to develop skills necessary to work with residential and light commercial systems.

Topics include mechanical refrigeration, heating and cooling theory, electricity, controls, and safety. The diploma program covers air conditioning, furnaces, heat pumps, tools and instruments. In addition, the AAS degree covers residential building codes, residential system sizing, and advanced comfort systems.

Graduates should be able to assist in the start up, preventive maintenance, service, repair, and/or installation of residential and light commercial systems.

General Education Courses:**English/Communications:**

Associate Degree Nursing, A.A.S. (A45110)

Courses required to meet graduation requirements in this curriculum are offered during day hours only. Minimum time for completion: five semesters full-time attendance. The Associate in Applied Science degree is awarded to graduates of this curriculum.

The Associate Degree Nursing curriculum provides knowledge, skills, and strategies to integrate safety and quality into nursing care, to practice in a dynamic environment, and to meet individual needs which impact health, quality of life, and achievement of potential.

Coursework includes and builds upon the domains of healthcare, nursing practice, and the holistic individual. Content emphasizes the nurse as a member of the interdisciplinary team providing safe, individualized care while employing evidence-based practice, quality improvement, and informatics.

Graduates of this program are eligible to apply to take the National Council Licensure Examination (NCLEX-RN). Employment opportunities are vast within the global health care system and may include positions within acute, chronic, extended, industrial, and community health care facilities.

General Education Courses:**English/Communications:**

- ENG 111 - Writing and Inquiry Credit Hours: 3
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3
- OR
- ENG 114 - Prof Research & Reporting Credit Hours: 3

Nursing Humanities/Fine Arts Elective

Students must select one course from the following:

- ART 111 - Art Appreciation Credit Hours: 3
- ART 114 - Art History Survey I Credit Hours: 3
- ART 115 - Art History Survey II Credit Hours: 3
- HUM 115 - Critical Thinking Credit Hours: 3
- MUS 110 - Music Appreciation Credit Hours: 3
- MUS 112 - Introduction to Jazz Credit Hours: 3
- PHI 215 - Philosophical Issues Credit Hours: 3
- PHI 240 - Introduction to Ethics Credit Hours: 3

Note: The courses listed in CVCC's Associate Degree Nursing Program have a Uniform Articulation Agreement between the University of North Carolina Registered Nurse to Bachelor of Science in Nursing (RN to BSN) Programs. Students who transfer to senior institutions outside of the University of North Carolina system should contact each college directly for transfer information.

Natural Sciences/Mathematics:

Associate Degree Nursing LPN to RN Bridge (A45110LP)

The Associate Degree Nursing curriculum provides knowledge, skills, and strategies to integrate safety and quality into nursing care, to practice in a dynamic environment, and to meet individual needs which impact health, quality of life, and achievement of potential.

Course work includes and builds upon the domains of healthcare, nursing practice, and the holistic individual. Content emphasizes the nurse as a member of the interdisciplinary team providing safe, individualized care while employing evidence-based practice, quality improvement, and informatics.

Graduates of this program are eligible to apply to take the National Council Licensure Examination (NCLEX-RN). Employment opportunities are vast within the global health care system and may include positions within acute, chronic, extended, industrial, and community health care facilities.

The following courses in the NUR curriculum will be granted AP credit at CVCC: NUR 111 (Intro to Health Concepts), NUR 112 (Health- Illness Concepts), NUR 113 (Family Health Concepts), NUR 114 (Holistic Health Concepts) and NUR 211(Healthcare Concepts). Competency objectives were met by earning the LPN credential from a regionally accredited institution which includes NUR 101, 102, and 103 and the possession of current LPN licensure issued by the NC Board of Nursing.

Prerequisite Courses

These courses must be completed prior to application submission.

- BIO 168 - Anatomy and Physiology I Credit Hours: 4
- BIO 169 - Anatomy and Physiology II Credit Hours: 4
- ENG 111 - Writing and Inquiry Credit Hours: 3
- NUR 111 - Intro to Health Concepts Credit Hours: 8
- NUR 112 - Health-Illness Concepts Credit Hours: 5
- NUR 113 - Family Health Concepts Credit Hours: 5
- NUR 114 - Holistic Health Concepts Credit Hours: 5
- NUR 211 - Health Care Concepts Credit Hours: 5
- PSY 150 - General Psychology Credit Hours: 3

Total Credit Hours: 42

Credit for the above course(s) will be given once prerequisites and/or admission requirements are met.

LPN to RN Bridge Program Admission Requirements:

- An online CVCC application for admission.
- Official high school transcripts or equivalencies.
- Official transcripts from all colleges attended.
- A PN Program transcript.
- Proof of graduation from approved PN education program by diploma or transcript
- Graduated from an approved Practical Nurse Education program within the last year with current employment as an LPN or
- Have one year documented work experience as an LPN within the last two years.
- Current unencumbered LPN license.
- Must have 2.8 GPA.
- Attend Information Session (attendance required every year a student applies to the program).
- Take ATI LPN Comprehensive Predictor Exam.
- Letter from employer or supervisor stating current employment as LPN.

General Education Courses:**English/Communications:**

- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3
- OR
- ENG 114 - Prof Research & Reporting Credit Hours: 3

Nursing Humanities/Fine Arts Elective:

Select one (1) course from the following:

- ART 111 - Art Appreciation Credit Hours: 3
- ART 114 - Art History Survey I Credit Hours: 3
- ART 115 - Art History Survey II Credit Hours: 3
- HUM 115 - Critical Thinking Credit Hours: 3

Associate Degree Nursing, Hickory RIBN Articulation Agreement, A.A.S. (A45110RB)

Associate Degree Nursing and Lenoir-Rhyne University Bachelor of Science Degree with a Major in Nursing

This articulation agreement between Catawba Valley Community College (CVCC) and Lenoir-Rhyne University (LRU) allows graduates of Hickory RIBN to earn both an Associate degree in Nursing from CVCC and a Bachelor of Science degree with a Major in Nursing from LRU in 10 semesters through dual admission and continued enrollment. Courses required to meet graduation requirements in this curriculum are offered during day hours only. Minimum time for completion of the A.A.S. portion is seven semesters full-time attendance. During this time students will be dually enrolled in CVCC and LRU. The Associate in Applied Science degree is awarded to graduates of this curriculum, after which students will be eligible to take the NCLEX. The remaining three semesters will be taken at Lenoir-Rhyne University for a total of 10 program semesters.

Non-nursing courses completed at CVCC for the first three years will, as designated, satisfy course requirements towards the Bachelor of Science degree. All courses designated by (LRU/BS) shown in the CVCC sequence will be completed at LRU for the first three years of Hickory RIBN. A total of 128 semester hours are required for students to complete their bachelors of science degree with a major in Nursing.

All courses designated by (BS) will be taken on CVCC's campus, and will be credited toward the Bachelor of Science degree. Nursing students will enroll in NUR 420, Transition to Professional Nursing (3 SHC), during the eighth semester. Successful completion of this course results in the awarding of a 39 semester hour block of credit.

General Education Courses:**English/Communications:**

Automotive Systems Technology, A.A.S. (A60160)

Courses required to meet graduation requirements are offered during day and evening hours. Minimum time for completion: Day - six semesters full-time attendance; Evening - will vary according to semester load of student (usually seven to nine semesters). The Associate of Applied Science degree or Diploma is awarded to graduates in this curriculum.

Curriculums in the Mobile Equipment Maintenance and Repair pathway prepare individuals for employment as entry level transportation service technicians. The program provides an introduction to transportation industry careers and increases student awareness of the diverse technologies associated with this dynamic and challenging field.

Course work may include transportation systems theory, braking systems, climate control, design parameters, drive trains, electrical/electronic systems, engine repair, engine performance, environmental regulations, materials, product finish, safety, steering/suspension, transmission/transaxles, and sustainable transportation, depending on the program major area chosen.

Graduates of this pathway should be prepared to take professional licensure exams, which correspond to certain programs of study, and to enter careers as entry-level technicians in the transportation industry.

Automotive Systems Technology: A program that prepares individuals to apply technical knowledge and skills to repair, service, and maintain all types of automobiles. Includes instruction in brake systems, electrical systems, engine performance, engine repair, suspension and steering, automatic and manual transmissions and drive trains, and heating and air condition systems.

Basic Law Enforcement Training Certificate (C55120)

This course is designed, developed, monitored, and constantly updated by the Criminal Justice Training and Standards Division of the North Carolina Department of Justice. Minimum time for completion is approximately six months. Classes meet during evening hours and on Saturdays.

Basic Law Enforcement Training (BLET) is designed to give students essential skills required for entry-level employment as law enforcement officers with state, county, or municipal governments, or with private enterprise.

This program utilizes State commission-mandated topics and methods of instruction. General subjects include, but are not limited to, criminal, juvenile, civil, traffic, and alcohol beverage laws; investigative, patrol, custody, and court procedures; emergency responses; and ethics and community relations.

Students must successfully complete and pass all units of study mandated by the North Carolina Criminal Justice Education and Training Standards Commission and the North Carolina Sheriffs' Education and Training Standards Commission to receive a certificate.

Contact the Law Enforcement Training Director at 828-327-7000, extension 4583 for further information on the application process and to receive an application packet.

Major Courses:

- CJC 110 - Basic Law Enforcement BLET Credit Hours: 20

Total Credit Hours Required: 20

Business Administration, A.A.S. (A25120)

Courses required to meet graduation requirements in this curriculum are offered during day hours and evening courses are offered on demand. Minimum time for completion: Day – four semesters full-time attendance; Evening – will vary according to semester load of student. The Associate in Applied Science degree is awarded graduates of this curriculum.

The Business Administration curriculum is designed to introduce students to the various aspects of the free enterprise system. Students will be provided with a fundamental knowledge of business functions, processes, and an understanding of business organizations in today's global economy.

Course work includes business concepts such as accounting, business law, economics, management, and marketing. Skills related to the application of these concepts are developed through the study of computer applications, communication, team building, and decision making. Through these skills, students will have a sound business education base for lifelong learning.

Graduates are prepared for employment opportunities in government agencies, financial institutions, and large to small business or industry.

- CIS 110 - Introduction to Computers Credit Hours: 3

Total Credit Hours Required: 15

Developmental Course Requirements:

Developmental coursework (both prerequisite and corequisite) will be required of students whose placement test measures indicate a need for greater proficiency in the areas of English and/or mathematics. Please refer to the Course Description section for prerequisite and corequisite course information.

- ENG 002 - Transition English Credit Hours: 3
- ENG 011 - Writing and Inquiry Support Credit Hours: 2

Suggested Sequence:**Fall - 1st Year:**

- BUS 110 - Introduction to Business Credit Hours: 3
- COM 120 - Intro Interpersonal Com Credit Hours: 3
- ENG 111 - Writing and Inquiry Credit Hours: 3

Total Hours: Class 9 | Lab 0 | Clin/Wk Exp 0 | Credit 9

Spring - 1st year:

- CIS 110 - Introduction to Computers Credit Hours: 3
- ENG 114 - Prof Research & Reporting Credit Hours: 3

Total Hours: Class 5 | Lab 2 | Clin/Wk Exp 0 | Credit 6

Computer Engineering Technology, A.A.S. (A40160)

Courses required to meet graduation requirements in this curriculum are offered during daytime hours and evening classes are offered on demand. Minimum time for completion: five semesters full-time attendance. The Associate in Applied Science degree is awarded graduates of this curriculum.

These curriculums are designed to prepare students through the study and application of principles from mathematics, natural sciences, and technology and applied processes based on these subjects.

Course work includes mathematics, natural sciences, engineering sciences and technology.

Graduates should qualify to obtain occupations such as technical service providers, materials and technologies testing services, process improvement technicians, engineering technicians, construction technicians and managers, industrial and technology managers, or research technicians.

Computer Engineering Technology: A course of study that prepares the students to use basic engineering principles and technical skills for installing, servicing, and maintaining computers, peripherals, networks, and microprocessor and computer controlled equipment. Includes instruction in mathematics, computer electronics and programming, prototype development and testing, systems installation and testing, solid state and microminiature circuitry, peripheral equipment, and report preparation. Graduates should qualify for employment opportunities in electronics technology, computer service, computer networks, server maintenance, programming, and other areas requiring knowledge of electronic and computer systems. Graduates may also qualify for certification in electronics, computers, or networks.

General Education Courses:**English/Communications:**

- COM 231 - Public Speaking Credit Hours: 3
- OR
- COM 120 - Intro Interpersonal Com Credit Hours: 3

- ENG 111 - Writing and Inquiry Credit Hours: 3

- PHY 151 - College Physics I Credit Hours: 4

OR

- PHY 131 - Physics-Mechanics Credit Hours: 4

Students are required to take 3-4 SHC from the following groups:

- WBL 120 - Career Read/Explore/Employ (3 SHC)
OR
- WBL 110-World of Work (1 SHC) and WBL XXX-Work Based Learning (2 SHC)
OR
- WBL 110 - World of Work (1 SHC) and one of the following courses:
 - CET 211 - Computer Upgrade/Repair II (3 SHC)
 - CSC 139 - Visual BASIC Programming (3 SHC)
 - CSC 151 - JAVA Programming (3 SHC)
 - CTI 110 - Web, Pgm, & Db Foundation (3 SHC)
 - CTI 120 - Network & Sec Foundation (3 SHC)
 - DBA 110 - Database Concepts (3 SHC)
 - NET 125 - Introduction to Networks (3 SHC)
 - NET 126 - Routing Basics (3 SHC)
 - NOS 120 - Linux/UNIX Single User (3 SHC)
 - NOS 130 - Windows Single User (3 SHC)
 - SEC 110 - Security Concepts (3 SHC)

CET Electives:

Students are required to take a minimum of 3 SHC from the following:

- CET 211 - Computer Upgrade/Repair II Credit Hours: 3
- CSC 139 - Visual BASIC Programming Credit Hours: 3
- CSC 151 - JAVA Programming Credit Hours: 3
- CTI 110 - Web, Pgm, & Db Foundation Credit Hours: 3
- CTI 120 - Network & Sec Foundation Credit Hours: 3
- DBA 110 - Database Concepts Credit Hours: 3
- NET 125 - Introduction to Networks Credit Hours: 3
- NET 126 - Routing Basics Credit Hours: 3
- NOS 120 - Linux/UNIX Single User Credit Hours: 3
- NOS 130 - Windows Single User Credit Hours: 3
- SEC 110 - Security Concepts Credit Hours: 3

Math/Physics Note: Students planning to transfer to a 4-year college should consider taking MAT 171, MAT 172, and PHY 151. Please see your Computer Engineering Technology advisor.

Total Credit Hours Required: 70/73

Developmental Course Requirements:

Developmental coursework (both prerequisite and corequisite) will be required of students whose placement test measures indicate a need for greater proficiency in the areas of English and/or mathematics. Please refer to the Course Description section for prerequisite and corequisite course information.

- ENG 002 - Transition English Credit Hours: 3

Computer-Integrated Machining Technology, A.A.S. (A50210)

Courses required to meet graduation requirements in this curriculum are offered during day and evening hours. The Associate in Applied Science degree is awarded graduates of this curriculum.

The Computer-Integrated Machining curriculum prepares students with the analytical, creative and innovative skills necessary to take a production idea from an initial concept through design, development and production, resulting in a finished product.

Coursework may include manual machining, computer applications, engineering design, computer-aided drafting (CAD), computer-aided machining (CAM), blueprint interpretation, advanced computerized numeric control (CNC) equipment, basic and advanced machining operations, precision measurement and high-speed multi-axis machining.

Graduates should qualify for employment as machining technicians in high-tech manufacturing, rapid prototyping and rapid-manufacturing industries, specialty machine shops, fabrication industries, and high-tech or emerging industries such as aerospace, aviation, medical, and renewable energy, and to sit for machining certification examinations.

Cosmetology Diploma (D55140)

Courses required to meet graduation requirements in this curriculum are offered during daytime hours. All courses, state hours, and state performances must be completed before graduation. Minimum time for completion: four semesters full-time attendance; nine semesters part-time attendance. The Diploma is awarded graduates of this curriculum.

The Cosmetology curriculum is designed to provide competency-based knowledge, scientific/artistic principles, and hands-on fundamentals associated with the cosmetology industry. The curriculum provides a simulated salon environment which enables students to develop manipulative skills.

Course work includes instruction in all phases of professional imaging, hair design, chemical processes, skin care, nail care, multi-cultural practices, business/computer principles, product knowledge, and other selected topics.

Graduates should qualify to sit for the State Board of Cosmetic Arts examination. Upon successfully passing the State Board exam, graduates will be issued a license. Employment is available in beauty salons and related businesses.

Criminal Justice Technology, A.A.S. (A55180)

Courses required to meet graduation requirements in this curriculum are offered during day and evening hours. Minimum time for completion: Day – five semesters full-time attendance; Evening – ten semesters part-time attendance. The Associate in Applied Science Degree is awarded graduates of this curriculum.

The Criminal Justice Technology curriculum is designed to provide knowledge of criminal justice systems and operations. Study will focus on local, state, and federal law enforcement, judicial processes, corrections, and security services. The criminal justice system's role within society will be explored.

Emphasis is on criminal justice systems, criminology, juvenile justice, criminal and constitutional law, investigative principles, ethics, and community relations. Additional study may include issues and concepts of government, counseling, communications, computers, and technology.

Employment opportunities exist in a variety of local, state, and federal law enforcement, corrections, and security fields. Examples include police officer, deputy sheriff, county detention officer, state trooper, intensive probation/parole surveillance officer, correctional officer, and loss prevention specialist.

Program Elective:

Students are required to take a minimum of 3 SHC from the following:

- CJC 115 - Crime Scene Photography Credit Hours: 3
- CJC 222 - Criminalistics Credit Hours: 3
- HIS 111 - World Civilizations I Credit Hours: 3
- HIS 112 - World Civilizations II Credit Hours: 3
- HIS 121 - Western Civilization I Credit Hours: 3
- HIS 122 - Western Civilization II Credit Hours: 3
- POL 120 - American Government Credit Hours: 3
- POL 130 - State & Local Government Credit Hours: 3
- PSY 231 - Forensic Psychology Credit Hours: 3
- PSY 241 - Developmental Psych Credit Hours: 3
- PSY 281 - Abnormal Psychology Credit Hours: 3
- SOC 220 - Social Problems Credit Hours: 3
- WBL XXX Work-Based Learning Credit Hours: 1-3

Work-Based Learning Option:

Qualified students may elect to take 1-3 credit hours of Work-Based Learning.

Credits applied for prior completion of B.L.E.T.

Total Credit Hours Required: 67

Developmental Course Requirements

Developmental coursework (both prerequisite and corequisite) will be required of students whose placement test measures indicate a need for greater proficiency in the areas of English and/or mathematics. Please refer to the Course Description section for prerequisite and corequisite course information.

- ENG 002 - Transition English Credit Hours: 3
- ENG 011 - Writing and Inquiry Support Credit Hours: 2

Students who elect to take MAT 110 from above:

- MAT 003 - Transition Math Credit Hours: 3
- MAT 010 - Math Measurement & Literacy Su Credit Hours: 1

Students who elect to take MAT 143 from above:

- MAT 003 - Transition Math Credit Hours: 3
- MAT 043 - Quantitative Literacy Support Credit Hours: 2

Suggested Program Sequence:**Fall – 1st year:**

- CJC 111 - Intro to Criminal Justice Credit Hours: 3
- CJC 131 - Criminal Law Credit Hours: 3
- CJC 132 - Court Procedure & Evidence Credit Hours: 3
- CJC 160 - Terrorism: Underlying Issues Credit Hours: 3
- ENG 111 - Writing and Inquiry Credit Hours: 3

Total Hours: Class 15 | Lab 0 | Clin/Wk Exp 0 | Credit 15

Spring – 1st year:

- CJC 112 - Criminology Credit Hours: 3
- CJC 121 - Law Enforcement Operations Credit Hours: 3
- CJC 221 - Investigative Principles Credit Hours: 4
- CIS 110 - Introduction to Computers Credit Hours: 3

Total Hours: Class 11 | Lab 4 | Clin/Wk Exp 0 | Credit 13

Summer – 1st year:

- ENG 113 - Literature-Based Research Credit Hours: 3
- OR
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3

Criminal Justice Technology: Forensic Science Concentration, A.A.S. (A5518C)

Courses required to meet graduation requirements in this curriculum are offered during day and evening hours. Minimum time for completion: Day – five semesters full-time attendance; Evening – ten semesters part-time attendance. The Associate in Applied Science degree is awarded graduates of this curriculum.

Forensic Science is a concentration under the curriculum of Criminal Justice Technology, which focuses on the application of the physical, biomedical, and social sciences to the analysis and evaluation of physical evidence, human testimony and criminal suspects. Study will focus on local, state, and federal law enforcement, evidence processing and procedures.

Students will learn both theory and hands-on analysis of latent evidence. They will learn fingerprint classification, identification, and chemical development. Students will record, cast, and recognize footwear and tire tracks; and process crime scenes. Issues and concepts of communications and the use of computers and computer assisted design programs in crime scene technology will be discussed.

Graduates should qualify for employment in a variety of criminal justice organizations especially in local, state, and federal law enforcement, and correctional agencies.

Dental Hygiene, A.A.S. (A45260)

Courses required to meet graduation requirements in this curriculum are offered during day hours only. Some general education courses are offered at night. Minimum time for completion: seven semesters. The Associate in Applied Science degree is awarded graduates of this curriculum.

The Dental Hygiene curriculum provides individuals with the knowledge and skills to assess, plan, implement, and evaluate dental hygiene care for the individual and the community.

Students will learn to prepare the operator, take patient histories, note abnormalities, plan care, teach oral hygiene, clean teeth, take x-rays, apply preventive agents, complete necessary chart entries, and perform other procedures related to dental hygiene care.

Graduates of this program may be eligible to take national and state/regional examinations for licensure which are required to practice dental hygiene. Employment opportunities include dental offices, clinics, schools, public health agencies, industry, and professional education.

Background Check - A criminal background check is required for students to participate in some external rotations and for North Carolina Dental Hygiene Licensure.

General Education Courses:

English/Communications:

- COM 110 - Introduction to Communication Credit Hours: 3
- ENG 111 - Writing and Inquiry Credit Hours: 3
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3
- OR
- ENG 114 - Prof Research & Reporting Credit Hours: 3

Humanities/Fine Arts:

- Humanities/Fine Arts Elective Credit Hours: 3
- *HUM 115 - Critical Thinking preferred.

Natural Sciences/Mathematics:

- CHM 130 - Gen, Org, & Biochemistry Credit Hours: 3
- CHM 130A - Gen, Org, & Biochem Lab Credit Hours: 1

Social/Behavioral Sciences:

- PSY 150 - General Psychology Credit Hours: 3

Note: General Education Course Requirements-- Applicants must have completed the following courses required for the program, prior to the Dental Hygiene Program application deadline. Students must complete BIO 163, BIO 175, CHM 130 & CHM 130A, COM 110, ENG 111, ENG 114, Humanities/Fine Arts Elective, and PSY 150. Grades lower than "C" will not be accepted. Students must also be accepted into the Dental Hygiene program prior to taking DEN courses.

Early Childhood Education--Career Entry, A.A.S. (A55220C)

Courses required to meet graduation requirements in this curriculum are offered during day and evening hours. Minimum time for completion: Day – five semesters full-time attendance;

An Associate in Applied Science degree is awarded graduates of the Early Childhood Education degree curriculum. A Diploma is awarded students

completing the diploma curriculum. A Certificate is awarded students completing the certificate curriculum.

The Early Childhood Education curriculum prepares individuals to work with children from birth through eight in diverse learning environments. Students will combine learned theories with practice in actual settings with young children under the supervision of qualified teachers.

Course work includes child growth and development; physical/nutritional needs of children; care and guidance of children; and communication skills with families and children. Students will foster the cognitive/language, physical/motor, social/emotional, and creative development of young children.

Graduates are prepared to plan and implement developmentally appropriate programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Head Start Programs, and school-age programs.

Early Childhood Education: A program that prepares individuals to promote child development and learning, work with diverse families and children, observe, document and assess to support young children and families, use content knowledge to build meaningful curriculum, and use developmentally effective approaches in collaboration with other early childhood professionals. Potential course work includes instruction in all areas of child development such as emotional/social/health/physical/language/communication, approaches to play and learning, working with diverse families, and related observations/student teaching experiences.

Special Admissions Requirements for Early Childhood Education Programs: In addition to the general procedures to apply for admission to a curriculum program of study, applicants for the Early Childhood Education program must complete other procedures. CVCC's Early Childhood Education program requires completion of educational experiences in childcare facilities and/or public school settings. These settings require students to undergo criminal background checks and/or health assessments. If a student is excluded from an educational setting as a result of one of these requirements, the student may be asked to withdraw from the program. Some settings may also require additional vaccinations and/or health examinations. Completion of CVCC's Early Childhood Education program may be contingent upon receipt of a CVCC medical form documenting that the applicant possesses satisfactory physical and mental health. Facilities for providing health care services are not available on campus.

Program Graduation Requirements: The standards for students are rigorous and require students to perform at a minimum competency level. Due to the minimum competency level expected for graduates, the Education Department requires a grade of C or higher on all required Education Courses for graduation with a certificate, diploma, or degree.

General Education Courses:

English/Communications:

- COM 110 - Introduction to Communication Credit Hours: 3
- OR
- COM 231 - Public Speaking Credit Hours: 3
- ENG 111 - Writing and Inquiry Credit Hours: 3
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3

Early Childhood Education--Birth to Kindergarten (B-K), A.A.S. (A55220L)

Courses required to meet graduation requirements in this curriculum are offered during day and evening hours. Minimum time for completion: Day – five semesters full-time attendance;

An Associate in Applied Science degree is awarded graduates of the Early Childhood Education degree curriculum. A Diploma is awarded students completing the diploma curriculum. A Certificate is awarded students completing the certificate curriculum.

The Early Childhood Education curriculum prepares individuals to work with children from birth through eight in diverse learning environments. Students will combine learned theories with practice in actual settings with young children under the supervision of qualified teachers.

Course work includes child growth and development; physical/nutritional needs of children; care and guidance of children; and communication skills with families and children. Students will foster the cognitive/language, physical/motor, social/emotional, and creative development of young children.

Graduates are prepared to plan and implement developmentally appropriate programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Head Start Programs, and school-age programs.

Early Childhood Education: A program that prepares individuals to promote child development and learning, work with diverse families and children, observe, document and assess to support young children and families, use content knowledge to build meaningful curriculum, and use developmentally effective approaches in collaboration with other early childhood professionals. Potential course work includes instruction in all areas of child development such as emotional/social/health/physical/language/communication, approaches to play and learning, working with diverse families, and related observations/student teaching experiences.

Special Admissions Requirements for Early Childhood Education Programs:

In addition to the general procedures to apply for admission to a curriculum program of study, applicants for the Early Childhood Education program must complete other procedures. CVCC's Early Childhood Education program requires completion of educational experiences in childcare facilities and/or public school settings. These settings require students to undergo criminal background checks and/or health assessments. If a student is excluded from an educational setting as a result of one of these requirements, the student may be asked to withdraw from the program. Some settings may also require additional vaccinations and/or health examinations. Completion of CVCC's Early Childhood Education program may be contingent upon receipt of a CVCC medical form documenting that the applicant possesses satisfactory physical and mental health. Facilities for providing health care services are not available on campus.

Program Graduation Requirements: The standards for students are rigorous and require students to perform at a minimum competency level. Due to the minimum competency level expected for graduates, the Education Department requires a grade of C or higher on all required Education Courses for graduation with a certificate, diploma, or degree.

General Education Courses:

Courses required to meet graduation requirements in this curriculum are offered during daytime hours and evening courses are offered on demand. Minimum time for completion: Daytime – two semesters full-time attendance. The Diploma is awarded graduates of this curriculum.

This curriculum is designed to provide training for persons interested in the installation and maintenance of electrical systems found in residential, commercial, and industrial facilities.

Coursework, most of which is hands-on, will include such topics as AC/DC theory, basic wiring practices, programmable logic controllers, industrial

motor controls, applications of the National Electric Code, and other subjects as local needs require.

Graduates should qualify for a variety of jobs in the electrical field as an on-the-job trainee or apprentice assisting in the layout, installation, and maintenance of electrical systems.

Electroneurodiagnostic Technology, A.A.S. (A45320)

Courses required to meet graduation requirements in this curriculum are offered during day hours only. Some general education courses are offered at night. Minimum time for completion: four semesters. The Associate in Applied Science degree is awarded graduates of this curriculum.

The Electroneurodiagnostic Technology curriculum is designed to provide students with the knowledge and skills to obtain recordings of patients' nervous system function through the use of electroencephalographic equipment and other electrophysiological devices.

Course work includes communication skills with patients and healthcare personnel, taking appropriate patient histories, electrode application, documentation of patients' clinical status, electrical waveform recognition, management of medical emergencies, and preparation of descriptive reports for the physician.

Graduates should qualify for the ABRET (American Board of Registration of EEG and EP Technologists) Exam and, working under the supervision of a qualified physician, may be employed by hospitals or private offices of neurologists and neurosurgeons.

General Education Courses:

English/Communications:

- ENG 111 - Writing and Inquiry Credit Hours: 3
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3

Students who elect to take MAT 143 from above:

- MAT 003 - Transition Math Credit Hours: 3
- MAT 043 - Quantitative Literacy Support Credit Hours: 2

Suggested Program Sequence:

Program Pre-Admission Requirements:

- BIO 168 - Anatomy and Physiology I Credit Hours: 4

Total Hours: Class 3 | Lab 3 | Clin/Wk Exp 0 | Credit 4

Fall – 1st year:

- EDT 110 - Neuroscience/Pathol Cond Credit Hours: 4
- EDT 111 - Laboratory Management Credit Hours: 1
- EDT 111A - EDT Laboratory Basics Credit Hours: 1
- ELC 111 - Intro to Electricity Credit Hours: 3
- ENG 111 - Writing and Inquiry Credit Hours: 3
- MED 121 - Medical Terminology I Credit Hours: 3
- PSY 150 - General Psychology Credit Hours: 3

Total Hours: Class 17 | Lab 2 | Clin/Wk Exp 0 | Credit 18

Spring – 1st year:

- BIO 169 - Anatomy and Physiology II Credit Hours: 4
- CIS 110 - Introduction to Computers Credit Hours: 3
- EDT 112 - Instrument/Record Methods Credit Hours: 3
- EDT 113 - Clinical Correlates Credit Hours: 2
- EDT 115 - EDT Laboratory Practice Credit Hours: 2

- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3
OR
- ENG 113 - Literature-Based Research Credit Hours: 3
OR
- ENG 114 - Prof Research & Reporting Credit Hours: 3

Total Hours: Class 13 | Lab 11 | Clin/Wk Exp 0 | Credit 17

Fall – 2nd year:

- EDT 114 - Special Procedures Credit Hours: 3
- EDT 118 - EDT Laboratory Practice II Credit Hours: 3

- MAT 143 - Quantitative Literacy Credit Hours: 3
OR
- MAT 152 - Statistical Methods I Credit Hours: 4

- MED 118 - Medical Law and Ethics Credit Hours: 2
- MED 122 - Medical Terminology II Credit Hours: 3
- Humanities/Fine Arts Elective Credit Hours: 3

Total Hours: Class 13/14 | Lab 11 | Clin/Wk Exp 0 | Credit 17/18

Spring – 2nd year:

- EDT 116 - EDT Clinical Experience Credit Hours: 12

Total Hours: Class 0 | Lab 0 | Clin/WK Exp 36 | Credit 12

Grand Total Hours: Class 46/47 | Lab 27 | Clin/Wk Exp 36 | Credit 68/69

Electroneurodiagnostic Technology Bridge Program (A4532009)

This special program was developed to offer technologists who are ABRET registered in EEG and are currently working in the neurodiagnostic field a pathway to obtain an Associate in Applied Science degree. The length of the course will vary depending on the student's prior education and advanced placement success. Applicants will be eligible for admission after having met the following admissions standards:

- The applicant must apply for and meet CVCC's institutional requirements for admission as a student.
- The applicant must be currently employed as a neurodiagnostic technologist.
- The applicant must hold the credentials of R.EEG.T. through ABRET. Credentials must be current and in good standing.
- The applicant must provide two letters of reference: one from an immediate supervisor and one from the Medical Director of the neurodiagnostic facility with which the applicant is employed. These letters should attest to the individual's competence as a neurodiagnostic technologist.
- Once admitted to the program, students will receive Advanced Placement in the following courses based on their ABRET credentials and letters of reference:

- EDT 111A
- EDT 115
- EDT 118
- EDT 116
- EDT 112
- EDT 114
- EDT 111

Advanced Placement Exams

Students will also be offered Advanced Placement Exams in the following courses. **If the written exam is passed with a grade of 80 or higher, advanced placement will be given:**

- EDT 110 - Neuroscience/Pathol Cond Credit Hours: 4
- EDT 113 - Clinical Correlates Credit Hours: 2

Required Courses:

Students are required to complete the following courses, and maintain a 2.0 GPA, in order to successfully complete the program requirements.

- BIO 168 - Anatomy and Physiology I Credit Hours: 4
- BIO 169 - Anatomy and Physiology II Credit Hours: 4
- CIS 110 - Introduction to Computers Credit Hours: 3
- ELC 111 - Intro to Electricity Credit Hours: 3
- ENG 111 - Writing and Inquiry Credit Hours: 3
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3
- OR
- ENG 113 - Literature-Based Research Credit Hours: 3
- OR
- ENG 114 - Prof Research & Reporting Credit Hours: 3
- MAT 143 - Quantitative Literacy Credit Hours: 3
- OR
- MAT 152 - Statistical Methods I Credit Hours: 4
- MED 118 - Medical Law and Ethics Credit Hours: 2
- MED 121 - Medical Terminology I Credit Hours: 3
- MED 122 - Medical Terminology II Credit Hours: 3
- PSY 150 - General Psychology Credit Hours: 3
- Humanities/Fine Arts Elective Credit Hours: 3

Total Credit Hours: 37/38

The student may transfer or advance place up to sixty-five percent of the required course hours. The duration and timing of this program will vary between individuals depending on their prior college credits and success with advanced placement testing.

Grading, transcript evaluation, transfer policies, curriculum and graduation requirements will follow current CVCC policy. Program completion will vary according to progression of required classes for each student accepted.

Developmental Course Requirements:

Developmental coursework (both prerequisite and corequisite) will be required of students whose placement test measures indicate a need for greater proficiency in the areas of English and/or mathematics. Please refer to the Course Description section for prerequisite and corequisite course information.

- ENG 002 - Transition English Credit Hours: 3
- ENG 011 - Writing and Inquiry Support Credit Hours: 2

Students who elect to take MAT 143 from above:

- MAT 003 - Transition Math Credit Hours: 3
- MAT 043 - Quantitative Literacy Support Credit Hours: 2

Electronics Engineering Technology, A.A.S. (A40200)

Courses required to meet graduation requirements in this curriculum are offered during daytime hours and evening courses are offered on demand. Minimum time for completion: Day – five semesters full-time attendance. The Associate in Applied Science degree is awarded graduates of this curriculum.

These curriculums are designed to prepare students through the study and application of principles from mathematics, natural sciences, and technology and applied processes based on these subjects.

Course work includes mathematics, natural sciences, engineering sciences and technology.

Graduates should qualify to obtain occupations such as technical service providers, materials and technologies testing services, process improvement technicians, engineering technicians, construction technicians and managers, industrial and technology managers, or research technicians

Electronics Engineering Technology: A course of study that prepares the students to apply basic engineering principles and technical skills to become technicians who design, build, install, test, troubleshoot, repair, and modify developmental and production electronic components, equipment, and systems such as industrial/computer controls, manufacturing systems, communication systems, and power electronic systems. Includes instruction in mathematics, basic electricity, solid-state fundamentals, digital concepts, and microprocessors or programmable logic controllers. Graduates should qualify for employment as electronics engineering technician, field service technician, instrumentation technician, maintenance technician, electronic tester, electronic systems integrator, bench technician, and production control technician.

General Education Courses:**English/Communications:**

- ENG 111 - Writing and Inquiry Credit Hours: 3

- COM 231 - Public Speaking Credit Hours: 3

OR

- COM 120 - Intro Interpersonal Com Credit Hours: 3

Humanities/Fine Arts:

- Humanities/Fine Arts Elective Credit Hours: 3

Emergency Management A.A.S. (A55460)

The Emergency Management curriculum is designed to provide students with a foundation of technical and professional knowledge needed for emergency services delivery in local and state government agencies. Study involves both management and technical aspects of law enforcement, fire protection, emergency medical services, and emergency planning.

Course work includes classroom and laboratory exercises to introduce the student to various aspects of emergency preparedness, protection, and enforcement. Students will learn technical and administrative skills such as investigative principles, hazardous materials, codes, standards, emergency agency operations, and finance.

Employment opportunities include ambulance services, fire/rescue agencies, law enforcement agencies, fire marshal offices, industrial firms, educational institutions, emergency management offices, and other government agencies. Employed persons should have opportunities for skilled and supervisory-level positions.

General Education Courses:

English Composition

- ENG 111 - Writing and Inquiry Credit Hours: 3
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3
- OR
- ENG 114 - Prof Research & Reporting Credit Hours: 3

Humanities/Fine Arts

- Humanities/Fine Arts Elective Credit Hours: 3

Social/Behavioral Sciences

Take 3 credits from the following:

- PSY 150 - General Psychology Credit Hours: 3
- SOC 210 - Introduction to Sociology Credit Hours: 3

Mathematics

- MAT 143 - Quantitative Literacy Credit Hours: 3

OR

- MAT 110 - Math Measurement & Literacy Credit Hours: 3

Major Courses

- EPT 120 - Sociology of Disaster Credit Hours: 3

Emergency Medical Science, A.A.S. (A45340)

The paramedic program of Catawba Valley Community College is Accredited by the Commission on Accreditation of Allied Health Education Programs, (www.ccahep.org) upon the recommendation of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP).

The Emergency Medical Science curriculum provides individuals with the knowledge, skills and attributes to provide advanced emergency medical care as a paramedic for critical and emergent patients who access the emergency medical system and prepares graduates to enter the workforce.

Students will gain complex knowledge, competency, and experience while employing evidence based practice under medical oversight, and serve as a link from the scene into the healthcare system.

Graduates of this program may be eligible to take state and/or national certification examinations. Employment opportunities include providers of emergency medical services, fire departments, rescue agencies, hospital specialty areas, industry, educational and government agencies.

Note: Students must successfully complete EMS 110 EMT prior to admission into the program.

Emergency Medical Science Bridge Program (A4534009)

This special track was developed to facilitate a North Carolina or Nationally Registered certified paramedic in returning to school to obtain an Associate in Applied Science degree. The length of this course varies depending on the individual's experience and prior education. In order to enable the most rapid completion of the CPA Program the following prerequisites and/or admission requirements will be used:

Prerequisites and/or Admission Requirements:

1. Meet CVCC's institutional requirements for admissions as an EMS student.
2. Letter from EMS director confirming 1000 hours or more of direct patient care.
3. Valid North Carolina or National Registry Paramedic Certification.
4. Letter of reference from service's Medical Director attesting to the individual's competence in basic and advanced life support skills.
5. Once the criterion above has been met, the student will then be offered credit by credential for experience/credential in the following courses so as to facilitate his or her movement through the program.
 - EMS 110 - EMT Credit Hours: 9
 - EMS 130 - Pharmacology Credit Hours: 4
 - EMS 131 - Advanced Airway Management Credit Hours: 2
 - EMS 140 - Rescue Scene Management Credit Hours: 2
 - EMS 160 - Cardiology I Credit Hours: 3
 - EMS 220 - Cardiology II Credit Hours: 3
 - EMS 240 - Patients W/ Special Challenges Credit Hours: 2
 - EMS 250 - Medical Emergencies Credit Hours: 4
 - EMS 260 - Trauma Emergencies Credit Hours: 2
 - EMS 270 - Life Span Emergencies Credit Hours: 4
 - EMS 285 - EMS Capstone Credit Hours: 2
 - EMS 122 - EMS Clinical Practicum I Credit Hours: 1
 - EMS 221 - EMS Clinical Practicum II Credit Hours: 2
 - EMS 231 - EMS Clinical Pract III Credit Hours: 3
 - EMS 241 - EMS Clinical Practicum IV Credit Hours: 4

Note: Credit for the above EMS course(s) will be given if prerequisites and/or admission requirements 1-4 are met.

Required Courses:

Students are required to complete the following courses, and maintain a 2.0 GPA, in order to successfully complete the program requirements.

The student may transfer and/or advance place up to sixty-five percent of the required course hours. This track will be highly individualized depending on any prior college credits by the student.

Emergency Medical Science Health Science: Therapeutic and Diagnostic Service Diploma (D45910)

This curriculum is designed to prepare students for careers in the Health Sciences.

Students will complete general education courses that provide a foundation for success in nursing and allied health curricula. Students may select a career pathway that will prepare them for an entry level position in health

care. Courses may also provide foundational knowledge needed in the pursuit of advanced health science degrees or programs.

Graduates should qualify for an entry-level job associated with the program major such as Emergency Medical Technician (EMT) or Advanced Emergency Medical Technician (AEMT).

Emergency Medical Science: A program that prepares graduates to enter the workforce as Emergency Medical Technicians or Advanced Emergency Medical Technicians. The course of study provides the student an opportunity to acquire basic life support knowledge and skills by utilizing classroom instruction, practical laboratory sessions, and hospital/field internships. Students progressing through the program may be eligible to apply for both state and national certification exams. Employment opportunities include ambulance services, fire and rescue agencies, air medical services, specialty areas of hospitals, industry, educational institutions, and government agencies.

General Education Courses:

English/Communication:

- ENG 111 - Writing and Inquiry Credit Hours: 3
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3

Humanities/Fine Arts:

- PHI 240 - Introduction to Ethics Credit Hours: 3

Entrepreneurship, A.A.S. (A25490)

The Entrepreneurship curriculum is designed to provide students with the knowledge and the skills necessary for employment and growth as self-employed business owners.

Course work includes developing a student's ability to make informed decisions as future business owners. Courses include entrepreneurial concepts learned in innovation and creativity, business funding, and marketing. Additional course work includes computers and economics.

Through these skills, students will have a sound education base in entrepreneurship for lifelong learning. Graduates are prepared to be self-employed and open their own businesses.

Fire Protection Technology, A.A.S. (A55240)

The Fire Protection Technology curriculum is designed to provide students with knowledge and skills in the technical, managerial, and leadership areas necessary for advancement within the fire protection community and related firefighting industries, and to provide currently employed firefighters with knowledge and skills often required for promotional consideration.

Course work includes diverse fire protection subject areas, including fire prevention and safety, public education, building construction, fire ground strategies and tactics, and local government finance and laws, as they apply to emergency services management. Emphasis includes understanding fire characteristics and the structural consequences of fire; risk assessment and management; and relevant research, communications, and leadership methodologies.

Employment opportunities exist with fire departments, governmental agencies, industrial firms, insurance rating organizations, and educational organizations.

Due to the minimum competency level expected for graduates, the department requires a grade of "C" or higher on all required Fire Protection Technology courses for graduation with a certificate or degree.

General Occupational Technology, A.A.S. (A55280)

The General Occupational Technology (GOT) curriculum provides individuals with an opportunity to upgrade their skills and earn an associate degree, diploma, or certificate by taking courses that offer specific job knowledge and skills.

The curriculum content will be individualized for students according to their occupational interests and needs. A program of study for each student will be developed from any non-developmental level courses from approved curriculum programs of study offered by the College.

Graduates will become more effective workers, better qualified for advancements within their field of employment, and better qualified for a wide range of entry-level employment opportunities.

All courses included in the GOT must be taken from CVCC's approved Associate of Applied Science (A.A.S.), diploma or certificate programs.

General Education (15 SHC):

Associate Degree programs must contain a minimum of 15 semester hours of general education coursework. The general education hours must include a minimum of 6 semester hours in communications and at least one course from each of the following areas: humanities/fine arts, social/behavioral sciences, and natural sciences/mathematics. Diploma programs must contain a minimum of 6 semester hours of general education, 3 semester hours of which must be in communications. General education is optional in certificate programs.

Major Courses (49 SHC):

Program Courses

The General Occupational Technology Associate in Applied Science (A.A.S.), diploma, and certificate programs must include courses which offer specific job knowledge and skills. The student must select and complete a minimum of 49 SHC from a combination of major courses for curriculums approved to be offered by the college. Work experience, including cooperative education, practicums, and internships, may be included in a degree program up to a maximum of 8 semester hours of credit, in a diploma up to a maximum of 4 semester hours credit, and in a certificate program up to a maximum of 2 semester hours of credit.

Other Required Hours (0-7 SHC):

Local employer requirements, as well as college designated graduation requirements, may be accommodated in "other required hours." Up to a maximum of 7 semester hours of credit in other required hours may be included in an A.A.S. degree program, 4 semester hours of credit in a diploma program, and 1 semester hour of credit in other required hours may be included in a certificate program. Any course in the Combined Course

Library that is educationally relevant to the student's career objective may be used in other required hours, as long as it is not a restricted or unique course.

Total SHC: 64-76

The total number of semester hour credit must include a minimum of 64 hours and a maximum of 76 hours.

Health and Fitness Science, A.A.S. (A45630)

Courses required to meet graduation requirements in this curriculum are offered during daytime hours. Minimum time for completion: five semesters full-time attendance. The Associate of Applied Science degree is awarded graduates of this curriculum.

The Health and Fitness Science program is designed to provide students with the knowledge and skills necessary for employment in the fitness and exercise industry.

Students will be trained in exercise science and be able to administer basic fitness tests and health risk appraisals, teach specific exercise and fitness classes and provide instruction in the proper use of exercise equipment and facilities.

Graduates should qualify for employment opportunities in commercial fitness clubs, YMCA's/YWCA's, wellness programs in business and industry, Parks & Recreation Departments and other organizations implementing exercise & fitness programs.

Grand Total Hours: Class 12 | Lab 8 | Clin/Wk Exp 0 | Credit 16**Health Information Technology, A.A.S. (A45360)**

Courses required to meet graduation requirements in this curriculum are offered during daytime hours with selected courses offered on demand during evening hours. Minimum time for completion: five semesters fulltime attendance. The Associate of Applied Science degree is awarded graduates of this curriculum.

The Health Information Technology curriculum is accredited by the Commission on Accreditation for Health Informatics and Information Management Education.

The Health Information Technology curriculum provides individuals with the knowledge and skills to process, analyze, abstract, compile, maintain, manage, and report health information.

Students will supervise departmental functions; classify, code, and index diagnoses and procedures; coordinate information for cost control, quality management, statistics, marketing, and planning; monitor governmental and non-governmental standards; facilitate research; and design system controls to monitor patient information security.

Graduates of this program may be eligible to write the national certification examination to become a Registered Health Information Technician (RHIT). Employment opportunities include hospitals, rehabilitation facilities, nursing homes, health insurance organizations, outpatient clinics, physicians' offices, hospice, and mental health facilities.

Healthcare Management Technology, A.A.S. (A25200)

Core courses, those specific to Healthcare Management Technology, are offered during daytime hours, as well as via distance learning opportunities. Most other courses required to meet graduation requirements are offered by the above methods. Minimum time for completion: five semesters full-time attendance. The Associate in Applied Science degree is awarded graduates of this curriculum.

The Healthcare Management Technology curriculum prepares individuals for employment in healthcare business and financial operations in areas such as general healthcare management, entrepreneurship, and long-term care.

Course work includes medical office management, financial management, legal aspects of healthcare, medical insurance and billing analysis, and other topics depending on the subject area selected within this curriculum.

Graduates should qualify for employment opportunities in a variety of healthcare settings including hospitals, medical offices, outpatient clinics, long-term care facilities, and insurance companies. Industry recognized certifications may be available for graduates with work experience.

Horticulture Technology, A.A.S. (A15240)

Most courses required to meet graduation requirements in this curriculum are offered during daytime hours. Selected courses may be offered each semester via the Internet. Minimum time for completion: five semesters full-time attendance. The Associate in Applied Science degree is awarded graduates of this curriculum.

Special University Articulation Agreement with North Carolina State University: NCSU may accept up to 15 semester credit hours in Horticulture from CVCC toward the Bachelor of Science in Horticulture degree. A course grade of C or higher, for each course, is required.

CVCC has a 2 + 2 Articulation Agreement with NC Agricultural and Technological State University in Horticulture.

These curricula are designed to prepare individuals for various careers in horticulture. Classroom instruction and practical laboratory applications of horticultural principles and practices are included in the program of study.

Course work includes plant identification, pest management, plant science and soil science. Also included are courses in sustainable plant production and management, landscaping, and the operation of horticulture businesses.

Graduates should qualify for employment in a variety of positions associated with nurseries, garden centers, greenhouses, landscape operations, governmental agencies/parks, golf courses, sports complexes, highway vegetation, turf maintenance companies, and private and public gardens. Graduates should also be prepared to take the North Carolina Pesticide Applicator's Examination and/or the North Carolina Certified Plant Professional Examination.

Horticulture Technology: A program that focuses on the general production and management of cultivated plants, shrubs, flowers, foliage, trees, groundcovers, and related plant materials; the management of technical and business operations connected with horticultural services; and the basic scientific principles needed to understand plants and their management and care.

Human Services Technology, A.A.S (A45380)

The Human Services Technology curriculum prepares students for entry-level positions in institutions and agencies which provide social, community, and educational services. Along with core courses, students take courses which prepare them for specialization in specific human service areas.

Students will take courses from a variety of disciplines. Emphasis in core courses is placed on development of relevant knowledge, skills, and attitudes

in human services. Fieldwork experience will provide opportunities for application of knowledge and skills learned in the classroom.

Graduates should qualify for positions in mental health, child care, family services, social services, rehabilitation, correction, and educational agencies. Graduates choosing to continue their education may select from a variety of transfer programs at senior public and private institutions.

The Human Service Technology Department at Catawba Valley Community College believes in teaching students the necessary skills to provide a Service to Society, particularly in times of crisis. We practice the principles of empathy, social justice, cultural competence, and ethical integrity as we transform aspiring Human Services technicians into quality effective professionals who enrich our community by challenging social injustice and working for social change on behalf of vulnerable and oppressed people.

Industrial Systems Technology, A.A.S. (A50240)

Courses required to meet graduation requirements in this curriculum are offered during daytime hours and evening classes are offered on demand. Minimum time for completion: Daytime – four semesters full-time attendance. The Associate in Applied Science Degree is awarded graduates of this curriculum.

The Industrial Systems Technology curriculum is designed to prepare or upgrade individuals to safely service, maintain, repair, or install equipment. Instruction includes theory and skill training needed for inspecting, testing, troubleshooting, and diagnosing industrial systems.

Students will learn multi-craft technical skills in print reading, mechanical systems maintenance, electricity, hydraulics/pneumatics, welding, machining or fabrication, and includes various diagnostic and repair procedures. Practical application in these industrial systems will be emphasized and additional advanced course work may be offered.

Upon completion of this curriculum, graduates should be able to individually, or with a team, safely install, inspect, diagnose, repair, and maintain industrial process and support equipment. Students will also be encouraged to develop their skills as life-long learners.

General Education Courses:

English/Communications:

Evening -- Courses Are Offered on Demand

(See your Industrial Systems Technology advisor)

Infant/Toddler Care Certificate (C55290)

Courses required to meet graduation requirements in this curriculum are offered during daytime and evening hours. The Certificate is awarded graduates of this curriculum.

The curriculum prepares individuals to work with children from infancy to three years of age in diverse learning environments. Students will combine learned theories, competency-based knowledge, and practice in actual settings with infants and toddlers.

Course work includes infant/toddler growth and development; physical/nutritional needs of infants and toddlers; safety issues in the care of infants and toddlers; care and guidance; communication skills with families and children; design an implementation of appropriate curriculum; and other related topics.

Graduates should be prepared to plan and implement developmentally appropriate infant/toddler programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Early Head Start Programs, and other infant/toddler programs.

Major Courses:

- EDU 119 - Intro to Early Child Educ Credit Hours: 4
- EDU 131 - Child, Family, and Community Credit Hours: 3
- EDU 153 - Health, Safety and Nutrition Credit Hours: 3
- EDU 234 - Infants, Toddlers, and Twos Credit Hours: 3

Child Development Elective:

Select a course from the following:

- EDU 144 - Child Development I Credit Hours: 3
- PSY 244 - Child Development I Credit Hours: 3

Total Credit Hours Required: 16

Suggested Program Sequence:**Fall – 1st year:**

- EDU 119 - Intro to Early Child Educ Credit Hours: 4
- EDU 234 - Infants, Toddlers, and Twos Credit Hours: 3
- Child Development Elective Credit Hours: 3

Total Hours: Class 10 | Lab 0 | Clin/Wk Exp 0 | Credit 10

Spring – 1st year:

- EDU 131 - Child, Family, and Community Credit Hours: 3
- EDU 153 - Health, Safety and Nutrition Credit Hours: 3

Total Hours: Class 6 | Lab 0 | Clin/Wk Exp 0 | Credit 6

Grand Total Hours: Class 16 | Lab 0 | Clin/Wk Exp 0 | Credit 16

Information Technology -- IT Concepts Certificate (C2559001)

The IT Concepts Certificate provides a foundation in internet technologies. Students will learn: Basic fundamentals associated with Networking and Security, Web, Programming, and Databases, and Information Business Systems.

Upon completion graduates will be able to assist in the technical support of Databases, Business Systems, and Web Programming.

Technical Core:

- CIS 110 - Introduction to Computers Credit Hours: 3
- CTI 110 - Web, Pgm, & Db Foundation Credit Hours: 3
- CTI 120 - Network & Sec Foundation Credit Hours: 3
- CTS 115 - Info Sys Business Concept Credit Hours: 3

Other Major Hours

- CIS 115 - Intro to Prog & Logic Credit Hours: 3
- WBL 110 - World of Work Credit Hours: 1

Total Credit Hours Required: 16

Developmental Course Requirements

Developmental coursework (both prerequisite and corequisite) will be required of students whose placement test measures indicate a need for greater proficiency in the areas of English and/or mathematics. Please refer to the Course Description section for prerequisite and corequisite course information.

- ENG 002 - Transition English Credit Hours: 3

Information Technology: Information Systems (A25590B)

The Information Technology (IT) curriculum prepares graduates for employment in the technology sector as designers, testers, support technicians, system administrators, developers, or programmers who use computer software and/or hardware to design, process, implement and manage information systems in specialties such as database services,

security, business intelligence, healthcare informatics and others depending on the technical path selected within this curriculum.

Course work includes development of a student's ability to create, store, communicate, exchange and use information to solve technical issues related to information support and services, interactive media, network systems, programming and software development, information security and other emerging technologies based on the selected area of study.

Graduates should qualify for employment in entry-level positions with businesses, educational systems, and governmental agencies which rely on computer systems to design and manage information. The program will incorporate the competencies of industry-recognized certification exams.

The Information Technology: Information Systems program is designed to prepare graduates for employment with organizations that use computers to process, manage, and communicate information. Course work will develop a student's ability to communicate complex technical issues related to computer hardware, software, and networks in a manner that computer users can understand. Classes cover computer operations and terminology, operating systems, database, networking, security, and technical support. Students graduating from the Information Technology: Information Systems program should qualify for employment in entry-level positions with businesses, educational systems, and governmental agencies which rely on computer systems to manage information; and should be prepared to sit for industry-recognized certification exams.

Information Technology: Information Systems -- Help Desk Support Certificate (C25590B1)

The Help Desk Support Certificate provides a foundation in the support of internet technologies. Students will learn: Basic fundamentals associated with computer hardware and software, Networking, and Windows Network Administration. Upon completion graduates will be able to assist in the technical support of hardware, software, and Windows based networks.

This certificate includes preparation for the following industry certifications: current entry level Windows Server.

Technical Core

- CIS 110 - Introduction to Computers Credit Hours: 3
- CTS 115 - Info Sys Business Concept Credit Hours: 3

Other Major Hours

- CTS 120 - Hardware/Software Support Credit Hours: 3
- NET 125 - Introduction to Networks Credit Hours: 3
- NOS 230 - Windows Administration I Credit Hours: 3
- WBL 110 - World of Work Credit Hours: 1

Total Credit Hours Required: 16

Developmental Course Requirements

Developmental coursework (both prerequisite and corequisite) will be required of students whose placement test measures indicate a need for greater proficiency in the areas of English and/or mathematics. Please refer to the Course Description section for prerequisite and corequisite course information.

- ENG 002 - Transition English Credit Hours: 3

Information Technology: Information Systems -- Database Applications Certificate (C25590B2)

The Database Applications Certificate provides a foundation in database concepts. Students will learn: Basic fundamentals associated with Computers, Databases, and Business Systems Technologies. Upon completion graduates will be able to assist in the technical support of Databases.

This certificate includes preparation for the following industry certifications: Access Expert and Excel Expert.

Technical Core

- CIS 110 - Introduction to Computers Credit Hours: 3
- CTI 110 - Web, Pgm, & Db Foundation Credit Hours: 3
- CTS 115 - Info Sys Business Concept Credit Hours: 3

Other Major Hours

- CTS 130 - Spreadsheet Credit Hours: 3
- DBA 110 - Database Concepts Credit Hours: 3
- DBA 115 - Database Applications Credit Hours: 3

Total Credit Hours Required: 18

Information Technology: Programming and App Development (A25590G)

The Information Technology (IT) curriculum prepares graduates for employment in the technology sector as designers, testers, support technicians, system administrators, developers, or programmers who use computer software and/or hardware to design, process, implement and manage information systems in specialties such as database services, security, business intelligence, healthcare informatics and others depending on the technical path selected within this curriculum.

Course work includes development of a student's ability to create, store, communicate, exchange and use information to solve technical issues related to information support and services, interactive media, network systems, programming and software development, information security and other emerging technologies based on the selected area of study.

Graduates should qualify for employment in entry-level positions with businesses, educational systems, and governmental agencies which rely on computer systems to design and manage information. The program will incorporate the competencies of industry-recognized certification exams.

The Information Technology: Programming and App Development program prepares individuals for employment as computer programmers and related positions through study and applications in computer concepts, logic, programming procedures, languages, generators, operating systems, networking, data management, and business operations. Students will solve business computer problems through programming techniques and procedures, using appropriate languages and software. The primary emphasis of the curriculum is hands-on training in programming and related computer areas that provide the ability to adapt as systems evolve.

Students graduating should qualify for employment in business, industry, and government organizations as programmers, programmer trainees, programmer/analysts, computer operators, systems technicians, database specialists or in the design and development of mobile applications.

Information Technology: CyberSecurity (A25590H)

The Information Technology (IT) curriculum prepares graduates for employment in the technology sector as designers, testers, support technicians, system administrators, developers, or programmers who use computer software and/or hardware to design, process, implement and manage information systems in specialties such as database services, security, business intelligence, healthcare informatics and others depending on the technical path selected within this curriculum.

Course work includes development of a student's ability to create, store, communicate, exchange and use information to solve technical issues related to information support and services, interactive media, network systems, programming and software development, information security and other emerging technologies based on the selected area of study.

Graduates should qualify for employment in entry-level positions with businesses, educational systems, and governmental agencies which rely on computer systems to design and manage information. The program will incorporate the competencies of industry-recognized certification exams.

The Information Technology: CyberSecurity program covers a broad expanse of technology concepts. This program provides students with the skills required to implement effective and comprehensive information security controls and the management of network infrastructure technologies including switches and routers. Course work will include networking technologies, operating systems administration, information policy, intrusion detection, security administration, and industry best practices to protect data communications. Students graduating from the Information Technology: CyberSecurity program should be prepared for employment as security administrators or in entry-level jobs such as local area network managers, network operators, security analyst, network analysts, network technicians, and junior penetration tester. Additionally, they will acquire the skills that allow them to pursue security certifications and various network industry certifications.

Information Technology: CyberSecurity - Operating Systems Security Certificate (C25590H1)

The Operating Systems Security Certificate provides a foundation in securing Linux and Windows operating systems. Students will learn: Fundamentals associated with installing, configuring, and securing Windows, Linux, and Windows Server operating systems. Upon completion graduates will be able to deploy, administer, and secure Linux and Windows computers. This certificate includes preparation for the following industry certifications: Security+, Certified Ethical Hacker (CEH), Linux Essentials, and current Windows Desktop certification.

Major Courses:

- NOS 120 - Linux/UNIX Single User Credit Hours: 3
- NOS 130 - Windows Single User Credit Hours: 3
- NOS 230 - Windows Administration I Credit Hours: 3
- SEC 110 - Security Concepts Credit Hours: 3
- SEC 150 - Secure Communications Credit Hours: 3

Total Credit Hours Required: 15

Suggested Program Sequence:

Spring - 1st Year:

- NOS 120 - Linux/UNIX Single User Credit Hours: 3
- NOS 130 - Windows Single User Credit Hours: 3
- NOS 230 - Windows Administration I Credit Hours: 3
- SEC 110 - Security Concepts Credit Hours: 3
- SEC 150 - Secure Communications Credit Hours: 3

Grand Total Hours: Class 10 | Lab 10 | Clin/Wk Exp 0 | Credit 15

Information Technology: CyberSecurity - Networking Certificate (C25590H2)

The Networking Certificate provides a foundation in networking technologies. Students will learn: Basic fundamentals associated with network communication, routing, switching, WAN, and firewall technologies. Upon completion graduates will be able to assist in the design, implementation, and administration of computer networks. This certificate includes preparation for the following industry certifications: Cisco Certified Network Associate (CCNA) and Palo Alto Networks Certified Network Security Administrator (PCNSA).

Major Courses:

- NET 125 - Introduction to Networks Credit Hours: 3
- NET 126 - Routing Basics Credit Hours: 3
- NET 225 - Routing & Switching I Credit Hours: 3
- SEC 210 - Intrusion Detection Credit Hours: 3

Total Credit Hours Required: 12

Suggested Program Sequence:**Fall - 1st Year:**

- NET 125 - Introduction to Networks Credit Hours: 3
- NET 126 - Routing Basics Credit Hours: 3
- NET 225 - Routing & Switching I Credit Hours: 3
- SEC 210 - Intrusion Detection Credit Hours: 3

Grand Total Hours: Class 5 | Lab 14 | Clin/Wk Exp 0 | Credit 12

Information Technology: CyberSecurity - CyberSecurity Certificate (C25590H3)

The CyberSecurity Certificate provides a foundation in networking technologies and securing networks. Students will learn: Intermediate fundamentals associated with networking, firewalls, and information security. Upon completion graduates will be able to assist in the design, implementation, and administration of computer networks as well as securing networks. This certificate includes preparation for the following industry certifications: Cisco Certified Network Associate (CCNA), CCNA Security, and Palo Alto Networks Certified Network Security Administrator (PCNSA).

Major Courses:

- NET 125 - Introduction to Networks Credit Hours: 3
- NET 126 - Routing Basics Credit Hours: 3
- NET 225 - Routing & Switching I Credit Hours: 3
- SEC 160 - Security Administration I Credit Hours: 3
- SEC 210 - Intrusion Detection Credit Hours: 3

Total Credit Hours Required: 15

Suggested Program Sequence:**Fall - 1st Year:**

- NET 125 - Introduction to Networks Credit Hours: 3
- NET 126 - Routing Basics Credit Hours: 3
- NET 225 - Routing & Switching I Credit Hours: 3
- SEC 160 - Security Administration I Credit Hours: 3
- SEC 210 - Intrusion Detection Credit Hours: 3

Grand Total Hours: Class 7 | Lab 16 | Clin/Wk Exp 0 | Credit 15

Mechanical Engineering Technology, A.A.S. (A40320)

Courses required to meet graduation requirements in this curriculum are offered during daytime hours and evening classes offered on demand. Minimum time for completion: five semesters full-time attendance. The Associate in Applied Science degree is awarded graduates of this curriculum.

These curriculums are designed to prepare students through the study and application of principles from mathematics, natural sciences, and technology and applied processes based on these subjects.

Course work includes mathematics, natural sciences, engineering sciences and technology.

Graduates should qualify to obtain occupations such as technical service providers, materials and technologies testing services, process improvement technicians, engineering technicians, industrial and technology managers, or research technicians.

Mechanical Engineering Technology: A course of study that prepares the students to use basic engineering principles and technical skills to design, develop, test, and troubleshoot projects involving mechanical systems. Includes instruction in principles of mechanics, applications to specific engineering systems, design testing procedures, prototype and operational testing and inspection procedures, manufacturing system-testing procedures, test equipment operation and maintenance, computer applications, critical thinking, planning and problem solving, and oral and written communications. Graduates of the curriculum will find employment opportunities in the manufacturing or service sectors of engineering technology. Engineering technicians may obtain professional certification by application to organizations such as ASQC, SME, and NICET.

General Education Courses:**English/Communications:**

- COM 231 - Public Speaking Credit Hours: 3
- OR
- COM 120 - Intro Interpersonal Com Credit Hours: 3
- ENG 111 - Writing and Inquiry Credit Hours: 3

Humanities/Fine Arts:

- Humanities/Fine Arts Elective Credit Hours: 3

Natural Sciences/Mathematics:

- MAT 171 - Precalculus Algebra Credit Hours: 4
- OR
- MAT 121 - Algebra/Trigonometry I Credit Hours: 3

Social/Behavioral Sciences:

- Social/Behavioral Sciences Elective Credit Hours: 3

Major Courses:

- ATR 112 - Intro to Automation Credit Hours: 3
- CSC 134 - C++ Programming Credit Hours: 3
- DFT 151 - CAD I Credit Hours: 3
- DFT 153 - CAD III Credit Hours: 3
- DFT 170 - Engineering Graphics Credit Hours: 3

- EGR 110 - Intro to Engineering Tech Credit Hours: 2
- EGR 251 - Statics Credit Hours: 3
- EGR 252 - Strength of Materials Credit Hours: 3
- EGR 285 - Design Project Credit Hours: 2
- ELC 131 - Circuit Analysis I Credit Hours: 4
- MAC 141 - Machining Applications I Credit Hours: 4

- MAT 172 - Precalculus Trigonometry Credit Hours: 4
- OR
- MAT 122 - Algebra/Trigonometry II Credit Hours: 3

- MEC 130 - Mechanisms Credit Hours: 3
- MEC 145 - Mfg Materials I Credit Hours: 3
- MEC 231 - Comp-Aided Manufact I Credit Hours: 3
- MEC 265 - Fluid Mechanics Credit Hours: 3

- PHY 151 - College Physics I Credit Hours: 4
- OR
- PHY 131 - Physics-Mechanics Credit Hours: 4

- WLD 112 - Basic Welding Processes Credit Hours: 2

Work-Based Learning Elective List:

Students are required to take 3 SHC from the following groups:

- WBL 120 - Career Read/Explore/Employ (3 SHC)
- OR
- WBL 110 - World of Work (1 SHC) and WBL XXX - Work Based Learning (2 SHC)
- OR
- WBL 110 - World of Work (1 SHC) and at minimum 2 SCH from:
 - ATR 212 - Industrial Robots (3 SHC)
 - ISC 132 - Mfg Quality Control (3 SHC)
 - ISC 212 - Metrology (2 SHC)
 - PLA 120 - Injection Molding (3 SHC)
 - TDP 110 - Introduction to 3D Printing (3 SHC)

Math/Physics Note: Students planning to transfer to a 4 year college should consider taking MAT 171, MAT 172, and PHY 151. Please see you Mechanical Engineering Technology advisor.

Total Credit Hours Required: 72/74

Developmental Course Requirements:

Developmental coursework (both prerequisite and corequisite) will be required of students whose placement test measures indicate a need for greater proficiency in the areas of English and/or mathematics. Please refer to the Course Description section for prerequisite and corequisite course information.

- ENG 002 - Transition English Credit Hours: 3
- ENG 011 - Writing and Inquiry Support Credit Hours: 2

Students who elect to take MAT 121 from above:

- MAT 003 - Transition Math Credit Hours: 3
- MAT 021 - Algebra/Trigonometry I Support Credit Hours: 2

Students who elect to take MAT 171 from above:

- MAT 003 - Transition Math Credit Hours: 3
- MAT 071 - Precalculus Algebra Support Credit Hours: 2

Suggested Program Sequence:**Fall - 1st year:**

- DFT 151 - CAD I Credit Hours: 3

Medical Office Administration A.A.S. (A25310)

The Medical Office Administration curriculum prepares individuals for employment as medical administrative personnel in the areas of medical office, medical billing and coding, dental office, patient services, and medical documents.

Course work includes medical terminology, computer applications, medical office management, medical coding, medical insurance and billing, medical legal and ethical issues, oral and written communication, and other topics depending on the subject area selected within this curriculum.

Graduates should qualify for employment opportunities in a variety of medical office positions in medical and dental offices, hospitals, insurance companies, laboratories, medical supply companies, and other healthcare related organizations. Upon graduation, students may be eligible to sit for industry recognized certification exams.

General Education Courses:

Office Administration, A.A.S. (A25370)

Courses required to meet graduation requirements in this curriculum are offered during daytime hours and via the Internet. The Associate in Applied Science degree is awarded graduates of this curriculum.

The Office Administration curriculum prepares individuals for employment as administrative office personnel who use skills in the areas of office management, office finance, legal office, virtual office, customer service, and office software.

Course work includes computer applications, oral and written communication, analysis and coordination of office tasks and procedures, records management, and other topics depending on the subject area selected within this curriculum.

Graduates should qualify for employment opportunities in a variety of office positions in business, government, and industry. Upon graduation, students may be eligible to sit for industry recognized certification exams.

Photographic Technology, A.A.S. (A30280)

Courses required to meet graduation requirements in this curriculum are offered during daytime hours. Minimum time for completion: five semesters full-time attendance. The Associate in Applied Science degree is awarded graduates of this curriculum.

The Photographic Technology curriculum offers training in photographic techniques and their application in professional photographic disciplines. Students will receive comprehensive course work in one of the following subject areas: Photographic Technology, Biocommunications Photography, Photojournalism, Commercial Photography, or Portrait Studio Management.

Course work includes developing skills in the following areas: fundamentals of camera systems, lighting, photographic process, digital imaging, design, multimedia and business practices.

Graduates should qualify for entry-level jobs in the photographic industry. Employment opportunities exist in the following areas: commercial photography, photojournalism, biomedical photography, portrait photography, equipment sales, photographic laboratories, and imagining technologies depending upon courses offered and completed.

Polysomnography, A.A.S. (A45670)

Courses required to meet graduation requirements in this curriculum are offered during daytime hours with clinicals in the evenings. Minimum time for completion: four semesters full-time attendance. The Associate of Applied Science degree is awarded graduates of this curriculum.

The Polysomnography curriculum prepares individuals, working in conjunction with a physician, to perform and interpret sleep studies and to provide comprehensive clinical evaluations that are required for the diagnosis of sleep related disorders.

Students should acquire the knowledge and skills necessary to perform sleep studies, including recording and interpreting events observed during sleep. Treatment of sleep related disorders and patient education focused on healthy sleep habits will also be discussed. Graduates of accredited programs may be eligible to apply to take the examination offered by the Board of Registered Polysomnographic Technologists. Employment opportunities may be found in hospitals and freestanding sleep centers.

Polysomnography Associate Degree Bridge Program (A4567009)

This will be an ongoing program to offer an Associate in Applied Science to individuals who already hold the national registry credential offered by the Board of Registered Polysomnography Technologists (BRPT) and are currently in good standing with the Board at the time of acceptance. Good standing with the BRPT will be a requirement throughout the duration of the program. These individuals will have to meet the following criteria prior to acceptance:

- Meet all College requirements regarding basic admission and receipt of prior scholarly transcripts
- Provide official documentation of current Basic Life Support certification
- Provide a letter from current employer stating they are actively working in the field of Polysomnography for at least one year.

Student services and the Director of Polysomnography Technology will confirm admission requirements have been met prior to acceptance into the program. After being accepted to the program, these individuals will be required to:

- Maintain current working status in the field of Polysomnography and provide documentation to the Director of the program as requested
- Adhere to the rules of the Polysomnography Technology program, Catawba Valley Community College, and the BRPT standards of conduct
- Complete all required general education requirements of the Polysomnography Technology curriculum
- Register and complete PSG 112 PSG Fundamentals, PSG 212 Infant/Pediatric PSG, BIO 163 Basic Anat & Physiology or BIO 168 Anatomy and Physiology I and BIO 169 Anatomy and Physiology II, CIS 110 Intro to Computers, ELC 111 Intro to Electricity, MED 118 Medical Law and Ethics, MED 121 Medical Terminology I, AND MED 122 Medical Terminology II classes.
- Students accepted will receive AP credit for the following PSG curriculum classes because competency objectives have been met by possession of current registry status with the Board of Registered Polysomnographic Technologists: PSG 110 Intro to Polysomnography; PSG 111 Neuro/CP A & P; PSG 210 Polysomnography I; PSG 211 Polysomnography II; PSG 213 Exam Review/Case Studies.

All classes will be provided in a distant education online format for convenience of these individuals. Grading, transcript evaluation, transfer policies, curriculum and graduation requirements will follow current CVCC policy. Program completion will vary according to progression of required classes for each student accepted.

Polysomnography Diploma (D45670)

Courses required to meet graduation requirements in this curriculum are offered during daytime hours with clinicals in the evenings. Minimum time for completion: four semesters part-time attendance. A Diploma is awarded students completing the diploma curriculum.

The Polysomnography curriculum prepares individuals, working in conjunction with a physician, to perform and interpret sleep studies and to provide comprehensive clinical evaluations that are required for the diagnosis of sleep related disorders.

Students should acquire the knowledge and skills necessary to perform sleep studies, including recording and interpreting events observed during sleep. Treatment of sleep related disorders and patient education focused on healthy sleep habits will also be discussed.

Graduates of accredited programs may be eligible to apply to take the examination offered by the Board of Registered Polysomnographic Technologists. Employment opportunities may be found in hospitals and freestanding sleep centers.

Note: Students must complete BIO 163 - Basic Anat & Physiology (with a grade of "C" or higher) prior to Spring admission into the program.

General Education Courses:

English/Communications:

- ENG 111 - Writing and Inquiry Credit Hours: 3
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3
- OR
- ENG 113 - Literature-Based Research Credit Hours: 3
- OR
- ENG 114 - Prof Research & Reporting Credit Hours: 3

Major Courses:

- BIO 163 - Basic Anat & Physiology Credit Hours: 5
- CIS 110 - Introduction to Computers Credit Hours: 3
- ELC 111 - Intro to Electricity Credit Hours: 3
- PSG 110 - Intro to Polysomnography Credit Hours: 4
- PSG 111 - Neuro/Cardiopulmonary A&P Credit Hours: 4

- PSG 210 - Polysomnography I Credit Hours: 7
- PSG 211 - Polysomnography II Credit Hours: 7
- PSG 212 - Infant/Pediatric PSG Credit Hours: 4
- PSG 213 - Case Study/Exam Review Credit Hours: 1

Other Major Courses:

- PSG 112 - PSG Fundamentals Credit Hours: 3

Note: General Education Course Requirements– Applicants must complete BIO 163 before admission to the Polysomnography Program. A grade lower than "C" will not be accepted.

Total Credit Hours Required: 47

Suggested Program Sequence:

Program Pre-Admission Requirements:

- BIO 163 - Basic Anat & Physiology Credit Hours: 5

Total Hours: Class 4 | Lab 2 | Clin/Wk Exp 0 | Credit 5

Fall - 1st year:

- CIS 110 - Introduction to Computers Credit Hours: 3
- ENG 111 - Writing and Inquiry Credit Hours: 3

Total Hours: Class 5 | Lab 2 | Clin/WkExp 0 | Credit 6

Spring - 1st year:

- PSG 210 - Polysomnography I Credit Hours: 7
- PSG 212 - Infant/Pediatric PSG Credit Hours: 4

Total Hours: Class 11 | Lab 6 | Clin/WkExp 9 | Credit 17

Spring - 2nd year:

- PSG 211 - Polysomnography II Credit Hours: 7
- PSG 213 - Case Study/Exam Review Credit Hours: 1

Total Hours: Class 2 | Lab 9 | Clin/WkExp 9 | Credit 8

Grand Total Hours: Class 32 | Lab 21 | Clin/WkExp 18 | Credit 47

Polysomnography Certificate (C45650)

Courses required to meet graduation requirements in this curriculum are offered during daytime hours and clinicals are offered in the evening hours. Minimum time for completion: three semesters part-time attendance. A certificate is awarded graduates of this curriculum.

The Polysomnography curriculum prepares individuals, working in conjunction with a physician, to perform and interpret sleep studies and to provide comprehensive clinical evaluations that are required for the diagnosis of sleep related disorders. Individuals entering the certificate curriculum must possess a minimum of an associate degree or higher.

Students will acquire the knowledge and skills necessary to perform sleep studies, including recording and interpreting events observed during sleep. Treatment of sleep related disorders and patient education focused on healthy sleep habits will also be discussed.

Graduates of accredited programs may be eligible to take the registry examination given by the Board of Registered Polysomnographic Technologists. Employment opportunities may be found in hospitals and freestanding sleep centers.

Major Courses:

- PSG 189 - PSG Transition Credit Hours: 3 *
- PSG 210 - Polysomnography I Credit Hours: 7
- PSG 211 - Polysomnography II Credit Hours: 7

Total Credit Hours Required: 17

Suggested Program Sequence:

Spring - 1st year:

- PSG 189 - PSG Transition Credit Hours: 3 *

Total Hours: Class 1 | Lab 3 | Clin/WkExp 3 | Credit 3

Fall - 1st year:

- PSG 210 - Polysomnography I Credit Hours: 7

Total Hours: Class 3 | Lab 2 | Clin/WkExp 9 | Credit 7

Spring - 2nd year:

- PSG 211 - Polysomnography II Credit Hours: 7

Total Hours: Class 2 | Lab 6 | Clin/WkExp 9 | Credit 7

Grand Total Hours: Class 6 | Lab 11 | Clin/WkExp 21 | Credit 17

Note: *Credit for course may be earned by successfully completing the Polysomnography Entrance Test.

Radiography, A.A.S. (A45700)

Courses required to meet graduation requirements in this curriculum are offered during daytime hours. Minimum time for completion: five semesters full-time attendance. The Associate in Applied Science degree is awarded graduates of this curriculum.

The Radiography curriculum prepares the graduate to be a radiographer, a skilled health care professional who uses radiation to produce images of the human body.

Course work includes clinical rotations to area health care facilities, radiographic exposure, image processing, radiographic procedures, physics, pathology, patient care and management, radiation protection, quality assurance, anatomy and physiology, and radiobiology.

Graduates of accredited programs are eligible to apply to take the American Registry of Radiologic Technologists' national examination for certification and registration as medical radiographers. Graduates may be employed in hospitals, clinics, physicians' offices, medical laboratories, government agencies, and industry.

Respiratory Therapy, A.A.S. (A45720)

Courses required to meet graduation requirements in this curriculum are offered during daytime hours. Minimum time for completion: five semesters full-time attendance. The Associate of Applied Science degree is awarded graduates of this curriculum.

The Respiratory Therapy curriculum prepares individuals to function as respiratory therapists through demonstrated competence in the cognitive, psychomotor, and affective learning domains of respiratory care practice. Graduates perform diagnostic and therapeutic procedures with exposure to current and emerging practice settings.

The curriculum prepares graduates to operate within inter-professional teams and effectively communicate with clients/patients of various ages, ethnicities, and cultures. Application of problem solving strategies, applying ethical decision making, and understanding professional responsibilities are emphasized.

Graduates are eligible to complete the credentialing process through the National Board for Respiratory Care, which will qualify them for a license to practice in a variety of healthcare settings with responsibilities for assessment, treatment, management and education of patients with cardiopulmonary diseases.

The Respiratory Therapy curriculum prepares individuals to function as respiratory graduates with demonstrated competence in the cognitive (knowledge), psychomotor (skills), and affective (behavior), learning domains of respiratory care practice as performed by Registered Respiratory Therapists (RRT).

Note: Students must complete college level chemistry (CHM 100 or greater), 4 credit hours, prior to admission into the Respiratory Therapy program.

Surgical Technology, A.A.S. (A45740)

Courses required to meet graduation requirements in this curriculum are offered during daytime hours. Minimum time for completion: five semesters full-time attendance. The Associate of Applied Science degree is awarded graduates of this curriculum.

The Surgical Technology curriculum prepares individuals to assist in the care of the surgical patient in the operating room and to function as a member of the surgical team.

Students will apply theoretical knowledge to the care of patients undergoing surgery and develop skills necessary to prepare supplies, equipment, and instruments; maintain aseptic conditions; prepare patients for surgery; and assist surgeons during operations.

Employment opportunities include labor/delivery/emergency departments, inpatient/outpatient surgery centers, dialysis units/facilities, physicians' offices, and central supply processing units.

Students of Commission on Accreditation of Allied Health Education Programs (CAAHEP) accredited programs are required to take the national certification exam administered by the National Board of Surgical Technology and Surgical Assisting (NBSTSA) within a four week period prior to or after graduation.

Note: Students must complete BIO 168 Anatomy and Physiology I (with a grade of "C" or higher) and ACA 111 College Student Success prior to admission into the program.

Surgical Technology Bridge Program (A4574009)

The Surgical Technology Bridge program was developed to allow currently certified non-degree surgical technologists to earn an Associate in Applied Science (A.A.S.) degree in Surgical Technology. Surgical Technologists enrolled in the bridge program must have completed their Surgical Technology certificate or diploma at a Commission on Accreditation for Allied Health Education Programs (CAAHEP) accredited surgical technology program. All major courses along with all related and general education course requirements must be met for the Surgical Technology Associate in Applied Science Degree.

Prerequisites and/or Admission Requirements:

1. General college admission requirements.
 - Complete application for admission.
 - Successfully complete college placement test if applicable
 - Official transcript of any prior college credit on file with admissions office.
 - Diploma or certificate in Surgical Technology from a CAAHEP-accredited program.
2. Current American Heart Association (AHA) Basic Life Support (BLS) for Healthcare Providers certification is a prerequisite to admission and must be maintained throughout the program.
3. Final admission to the Surgical Technology program shall be contingent upon documentation of physical and emotional health that would provide evidence that is indicative of the applicant's ability to provide safe care to the public, which includes signed and completed Medical Health form. Students will also need to have satisfactory completed all required immunizations, drug screens and background checks prior to admission to clinical sites.
4. Current certification of Surgical Technology (CST) through the National Board of Surgical Technology and Surgical Assisting (NBSTSA).

Copies of diploma or certification in Surgical Technology from a CAAHEP-accredited program as well as items 2-4 must be on file with Student Services.

The CST and Surgical Technology certificate or diploma will provide curriculum credit for the following courses toward the A.A.S. degree.

- SUR 110- Intro to Surgical Tech Credit Hours: 3
- SUR 111- Periop. Patient Care Credit Hours: 7
- SUR 122- Surgical Procedures I Credit Hours: 6
- SUR 123- Clinical Practice I Credit Hours: 7
- SUR 134- Surgical Procedures II Credit Hours: 5
- SUR 135- Clinical Practice II Credit Hours: 4
- SUR 137- Prof. Success Prep. Credit Hours: 1

Total Credit Hours: 33

General education courses can be completed at the student's own pace. Surgical Technology classes must be completed in the course sequence as described in the A.A.S. program. It is the understanding that most students are employed full time during their A.A.S. pursuit. Surgical Technology course placement is contingent upon seat availability.

Turfgrass Management Technology, A.A.S. (A15420)

Most courses required to meet graduation requirements in this curriculum are offered during day hours only. Selected courses may be offered via the Internet. Minimum time for completion: five semesters full-time attendance. The Associate in Applied Science Degree is awarded graduates of this curriculum.

CVCC has a 2 + 2 Articulation Agreement with NC Agricultural and Technological State University in Horticulture. CVCC has a 2+2 Online Articulation Agreement with Pennsylvania State University for the B.S. Degree in Turfgrass Management.

These curricula are designed to prepare individuals for various careers in horticulture. Classroom instruction and practical laboratory applications of horticultural principles and practices are included in the program of study.

Course work includes plant identification, pest management, plant science and soil science. Also included are courses in sustainable plant production and management, landscaping, and the operation of horticulture businesses.

Graduates should qualify for employment in a variety of positions associated with nurseries, garden centers, greenhouses, landscape operations, governmental agencies/parks, golf courses, sports complexes, highway vegetation, turf maintenance companies, and private and public gardens. Graduates should also be prepared to take the North Carolina Pesticide

Applicator's Examination and/or the North Carolina Certified Plant Professional Examination.

Turfgrass Management Technology: A program that focuses on turfgrasses and related groundcover plants and prepares individuals to develop ornamental or recreational grasses and related products; plant, transplant, and manage grassed areas; and to produce and store turf used for transplantation. Potential course work includes instruction in applicable plant sciences, genetics of grasses, turf science, use analysis, turf management, and related economics

Welding Technology, A.A.S. (A50420)

Courses required to meet graduation requirements in this curriculum are offered during daytime and evening hours. Students may begin any semester. The Associate in Applied Science degree, is awarded graduates of this curriculum. A Diploma is awarded graduates who complete the diploma option and the Certificate is awarded students who complete the certificate option.

The Welding Technology curriculum provides students with a sound understanding of the science, technology, and applications essential for successful employment in the welding and metalworking industry.

Instruction includes consumable and non-consumable electrode welding and cutting processes. Courses may include math, print reading, metallurgy, welding inspection, and destructive and non-destructive testing providing the student with industry-standard skills developed through classroom training and practical application.

Graduates of the Welding Technology curriculum may be employed as entry-level technicians in welding and metalworking industries. Career opportunities also exist in construction, manufacturing, fabrication, sales, quality control, supervision, and welding-related self-employment.

Career and College Promise

Career and College Promise

Admission and registration information for Career and College Promise pathway opportunities may be found at cvcc.edu/ccp.

College Transfer Pathway

- The Career and College Promise Pathway requires the completion of a transfer pathway approved by the State Board of Community Colleges including transfer courses in English and mathematics and ACA 122 College Transfer Success.
- To be eligible for enrollment, a high school student must meet the following criteria:
 - Be a high school junior or senior;
 - Have unweighted GPA of 2.8 on high school courses; or
 - Demonstrate college readiness on an approved assessment or placement test (See attachment A for college readiness scores).
- To maintain eligibility for continued enrollment, a student must
 - Continue to make progress toward high school graduation, and
 - Maintain a 2.0 GPA in college coursework after completing two courses.
 - A student who falls below a 2.0 GPA after completing two college courses will be subject to the college's policy for satisfactory academic progress.
- Students who are successfully progressing towards high school graduation have access to the College Transfer Pathway for up to two years - one year as a junior and one year as a senior.
- Colleges may request a graduation plan verifying what high school courses remain and the anticipated graduation date.
- A student may only enroll in one College Transfer Pathway and may not substitute courses in one program for courses in another.
- A student may change his or her program of study major with approval of the high school principal or his/her designee and the college's chief academic officer or chief student development administrator. The college's chief academic officer or chief student development administrator shall approve a change in pathway based on verification provided by the student that the program change allows the student to meet their newly chosen career path. Verification could include (but is not limited to) a bachelor degree plan published by the university, a career pathway plan, career information published in the Occupational Outlook Handbook and/or information published in the North Carolina Career Cluster Guide, etc.
- With approval of the high school principal or his/her designee and the college's chief academic officer or chief student development administrator, a student who completes a College Transfer Pathway, while still enrolled in high school, may continue to earn college transfer credits leading to the completion of the Associate in Arts, Science, Engineering, AGE-Nursing, AFA-Music, AFA-Theater, or AFA-Visual Arts.
- A student who completes a transfer pathway and continues on (with the required permissions outlined above) will keep their P code until the student a) graduates from high school/exits CCP or b) completes the full associate degree while still enrolled in high school.
- Students pursuing credits beyond the initial transfer associate degree must provide documentation of justification based upon career pathway needs or transfer program requirements (i.e. bachelor degree plan published by the University of North Carolina). The high school principal or the high school principal's designee and the college's chief student development administrator or the college's chief academic officer must approve prior to enrollment in credits beyond the initial transfer program of study. Approval is contingent upon documentation of justification based upon career pathway needs or transfer

program requirements (i.e. bachelor degree plan published by the University of North Carolina).

- The AA/AS/AE/AGE-Nursing/ AFA-Music/AFA-Theater/AFA-Visual Arts degree may be awarded prior to high school graduation verification.
- Colleges should follow the same graduation process for CCP students as is followed for traditional college students.
- With approval of the high school principal or his/her designee and the college's chief academic officer or chief student development administrator, a student may concurrently enroll in:
 - One College Transfer Pathway and one Career Technical Education Pathway or
 - One College Transfer Pathway and one Workforce Continuing Education Pathway
- CCP students may not enroll in developmental courses.
- CCP students may enroll in supplemental courses.
- CCP students may enroll in curriculum transition courses, but may not enroll in non- curriculum transition courses.
- CCP students may not audit courses.
- CCP Students may not be enrolled in the Associate in General Education or General Occupational Technology programs.
- Students enrolled in Adult High School, Adult Basic Education, or Adult Secondary Education are not eligible for Career and College Promise.

Career Technical Education Pathways

Curriculum: Juniors and Seniors

- The Career and College Promise Career Technical Education Pathway for juniors and seniors leads to a certificate or diploma aligned with a high school Career Cluster.
- To be eligible for enrollment in a Career and Technical Education pathway, a high school student must meet the following criteria:
 - Be a high school junior or senior;
 - Have an unweighted GPA of 2.8 on high school courses; or
 - Demonstrate college readiness in English, reading and mathematics on an assessment (See Attachment A for college readiness scores.); or
 - Have the recommendation of the high school principal or his/her designee and his/her rationale for recommendation in place of GPA requirement (assessment scores should be considered) and have the recommendation of the college's Chief Academic Officer or Chief Student Development Administrator; and
- Recommendation will not be allowed for CTE pathways that include UGETC (Universal General Education Transfer Component) course(s) included in the pathways.
- If a CTE pathway contains a UGETC (Universal General Education Component) course(s), the student must meet the same eligibility criteria as a transfer pathway student.
- High school counselors should consider students' assessment scores in making pathway recommendations.
- College Career Technical Education courses may be used to provide partial or full fulfillment of a four-unit career cluster. Where possible, students should be granted articulated credit based on the local or state North Carolina High School to Community College articulation agreement.
- To maintain eligibility for continued enrollment, a student must
 - Continue to make progress toward high school graduation and
 - Maintain a 2.0 in college coursework after completing two courses.
 - A student who falls below a 2.0 GPA after completing two college courses will be subject to the college's policy for satisfactory academic progress.

8. Students who are successfully progressing towards high school graduation have access to the Career and Technical Education (CTE) Pathway for up to two years - one year as a junior and one year as a senior.
9. Colleges may request a graduation plan verifying what high school courses remain and the anticipated graduation date.
10. A student may be awarded a certificate, diploma, or AAS degree prior to high school graduation
11. Colleges should follow the same graduation process for CCP students as is followed for traditional college students.
12. A student may only enroll in one pathway and may not substitute courses in one program for courses in another.
13. The student may change his or her pathway major with approval of the high school principal or his/her designee and the college's chief academic officer or chief student development administrator. The college's chief academic officer or chief student development administrator shall approve a change in pathway based on verification provided by the student that the program change allows the student to meet their newly chosen career path. Verification could include (but is not limited to) a bachelor degree plan published by the university, a career pathway plan, career information published in the Occupational Outlook Handbook and/or information published in the North Carolina Career Cluster Guide, etc.
14. With approval of the high school principal or his/her designee and the college's chief academic officer or chief student development administrator, a student may concurrently enroll in:
 - a. One College Transfer Pathway and one Career Technical Education Pathway
 - or
 - b. Two Career Technical Education Pathways
 - or
 - c. One Career Technical Education Pathway and one Workforce Continuing Education Pathway
15. A student who completes the CTE certificate or diploma may continue in the same traditional AAS program of study as long as they are still eligible for CCP. In order to continue, the program code should be changed to reflect the traditional AAS program code. The student type will remain CCPP and their student code will remain CTE.
16. Colleges are responsible for adhering to external agency guidelines that may restrict CCP students from enrolling in specific programs.
17. CCP students may not enroll in developmental courses.
18. CCP students may enroll in supplemental courses.
19. CCP students may enroll in curriculum transition courses, but may not enroll in non- curriculum transition courses.
20. CCP students may not audit courses.
21. Students enrolled in Adult High School, Adult Basic Education, or Adult Secondary Education are not eligible for Career and College Promise.
 - ii. Have the recommendation of the college's Chief Academic Officer or Chief Student Development Administrator; and
 - iii. Passed Math I with a grade of C or better; and
 - iv. Scored a 3, 4, or 5 on the End of Course assessment (EOC) for Math I; and
 - v. Scored a 3, 4, or 5 on the 8th grade End of Grade ELA assessment.
- b. Be a high school freshman or sophomore;
 - i. Have the recommendation of the high school principal or his/her designee (assessment scores should be considered) and rationale for recommendation; and
 - ii. Have the recommendation of the college's Chief Academic Officer or Chief Student Development Administrator; and
 - iii. Demonstrate college readiness in English, reading and mathematics on an assessment (See Attachment A for college readiness scores.).
4. Freshmen and Sophomores may not enroll in any CTE pathways that contain UGETC (Universal General Education Transfer Component) courses.
5. College Career Technical Education courses may be used to provide partial or full fulfillment of a four-unit career cluster. Where possible, students should be granted articulated credit based on the local or state North Carolina High School to Community College articulation agreement.
6. To maintain eligibility for continued enrollment, a student must
 - a. Continue to make progress toward high school graduation, and
 - b. Maintain a 2.0 in college coursework after completing two courses.
 - c. A student who falls below a 2.0 GPA after completing two college courses will be subject to the college's policy for satisfactory academic progress.
7. Eligible freshmen or sophomores who enter one of the four identified CCP Career and Technical Education (CTE) Pathways listed in G.S. §115D-20 and ID SBCCC 400.11 and who are successfully progressing towards high school graduation have access to the CCP program for up to four years - one year as a freshman, one year as a sophomore, one year as a junior and one year as a senior.
8. Colleges may request a graduation plan verifying what high school courses remain and the anticipated graduation date.
9. A student may be awarded a certificate, diploma, or AAS degree prior to high school graduation.
10. Colleges should follow the same graduation process for CCP students as is followed for traditional college students.
11. A student may only enroll in one program of study and may not substitute courses in one program for courses in another.
12. The student may change his or her program of study major to another industrial or engineering program of study with approval of the high school principal or his/her designee and the college's chief academic officer or chief student development administrator. The college's chief academic officer or chief student development administrator shall approve a change in pathway based on verification provided by the student that the program change allows the student to meet their newly chosen career path. Verification could include (but is not limited to) a bachelor degree plan published by the university, a career pathway plan, career information published in the Occupational Outlook Handbook and/or information publishes in the North Carolina Career Cluster Guide, etc.
13. With approval of the high school principal or his/her designee and the college's chief academic officer or chief student development administrator, a student may concurrently enroll in two Career Technical Education Pathways available to 9th and 10th graders.
14. A student who completes the CTE certificate or diploma may continue in the same traditional AAS program as long as he or

Career Technical Education Pathways

Curriculum: Freshmen and Sophomores

1. The Career and College Promise Career Technical Education Pathway for freshmen and sophomores leads to an industrial or engineering certificate or diploma aligned with a high school Career Cluster.
2. The college may enroll high school freshmen and sophomores only in industrial technologies (program code 50xxx), engineering technologies (program code 40xxx), agriculture and natural resources (program code 15xxx), and transportation (program code 60xxx) certificate and diploma programs.
3. To be eligible for enrollment, a high school student must meet the following criteria:
 - a. Be a high school freshman or sophomore;
 - i. Have the recommendation of the high school principal or his/her designee (assessment scores should be considered) and rationale for recommendation; and

she is still eligible for CCP. In order to continue, the program code should be changed to reflect the traditional AAS program code. The student type will remain CCPP and the student code will remain CTE.

15. Colleges are responsible for adhering to external agency guidelines that may restrict CCP students from enrolling in specific programs.
16. CCP students may not enroll in developmental courses.
17. CCP students may enroll in supplemental courses.
18. CCP students may enroll in curriculum transition courses, but may not enroll in non- curriculum transition courses.
19. CCP students may not audit courses.
20. Students enrolled in Adult High School, Adult Basic Education, or Adult Secondary Education are not eligible for Career and College Promise.

Career Technical Education Pathways

Workforce Continuing Education Pathway: (Juniors and Seniors)

1. The Workforce Continuing Education Pathway for juniors and seniors leads to a State or industry-recognized credential aligned with a high school Career Cluster.
2. To be eligible for enrollment a high school student must meet the following criteria:
 - a. Be a high school junior or senior;
 - i. Have an unweighted GPA of 2.8 on high school courses; or
 - ii. Demonstrate college readiness in English, reading and mathematics on an assessment (See Attachment A for college readiness scores.); or
 - b. Be a high school junior or senior;
 - i. Have the recommendation of the high school principal or his/her designee and have the high school principal or his/her designee's rationale for recommendation in place of GPA requirement; and
 - ii. Have the recommendation of the college's Chief Academic Officer or Chief Student Development Administrator
3. High school counselors should consider students' assessment scores in making pathway recommendations.
4. Where possible, students should be granted articulated credit based on the colleges' CE to CU articulation agreement or alternate 'credit for prior learning' options.
5. To maintain eligibility for continued enrollment, a student must:
 - a. Continue to make progress toward high school graduation,
 - b. Continue to make progress toward successful completion of the Workforce Continuing Education pathway as defined with the pathway syllabus
 - c. A student who doesn't meet these criteria will be subject to the college's policy for satisfactory progress.
6. A student may be awarded a WCE certificate of completion prior to high school graduation.
7. Colleges should follow the same process to award CCP students a credential as is followed for traditional college students.
8. CCP students may enroll in supplemental courses.
9. CCP students may not enroll in developmental courses.
10. CCP students may enroll in curriculum transition courses, but may not enroll in non- curriculum transition courses.
11. CCP students may not audit courses.
12. With approval of the high school principal or his/her designee and the college's chief academic officer or chief student development administrator, a student may concurrently enroll in:
 - a. Two Workforce Continuing Education Pathways or
 - b. One College Transfer Pathway and one Workforce Continuing Education Pathway or

- c. One Career Technical Education Pathway and one Workforce Continuing Education Pathway

11. Colleges are responsible for adhering to external agency guidelines that may restrict CCP students from enrolling in specific WCE pathways.
12. Students who are successfully progressing towards high school graduation have access to the Career and Technical Education (CTE) Pathway for up to two years - one year as a junior and one year as a senior.
13. Colleges may request a graduation plan verifying what high school courses remain and the anticipated graduation date.

NOTE: Preceding information obtained from the Career & College Promise webpage on the NC Community Colleges' website under "CCP Operating Procedures."

Career and College Promise Pathways

Career and College Promise Associate Degree Nursing (ADN) Pathway (P1032C)

Career and College Promise (for qualified high school students only).

The Career and College Promise (CCP) ADN Pathway is designed for high school juniors and seniors who wish to begin their educational studies toward the Associate in Nursing degree and a Baccalaureate degree in Nursing. The Pathway is based on Block 1 of the Uniform Articulation Agreement between the University of North Carolina's Registered Nurse to Bachelor of Science in Nursing programs and the North Carolina Community College Associate Degree Nursing Programs which was approved by the State Board of Community Colleges and the UNC Board of Governors in February 2015.

A student who completes an Associate in Applied Science (AAS) in Nursing, which includes the courses listed below, with a GPA of at least 2.0 and a grade of C or better and completes the courses in Blocks 2-3 of the Uniform Articulation Agreement between the University of North Carolina's Registered Nurse to Bachelor of Science in Nursing programs and the North Carolina Community College Associate Degree Nursing Programs with a GPA of at least 2.0 and a grade of C or better, and who holds a current unrestricted license as a Registered Nurse in North Carolina will have fulfilled the UNC institutions lower-division general education requirements as well as nursing program entry requirements. However, because nursing program admissions are competitive, no student is guaranteed admission to the program of his or her choice.

General Education:

English Composition

- ENG 111 - Writing and Inquiry Credit Hours: 3
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3

- ART 111 - Art Appreciation Credit Hours: 3

Social/Behavioral Sciences

- PSY 150 - General Psychology Credit Hours: 3
- PSY 241 - Developmental Psych Credit Hours: 3

Natural Sciences

- BIO 168 - Anatomy and Physiology I Credit Hours: 4
- BIO 169 - Anatomy and Physiology II Credit Hours: 4

Other Required Hours

- ACA 122 - College Transfer Success Credit Hours: 1

Total Credit Hours Required: 24

Career and College Promise College Transfer Pathway Leading to the Associate in Arts in Teacher Preparation (P1012T)

The CCP College Transfer Pathway Leading to the Associate in Arts in Teacher Preparation is designed for high school students who wish to begin study toward the Associate in Arts in Teacher Preparation degree and a baccalaureate degree in teaching in a non-STEM major.

General Education Courses (Total of 31/32 SHC):

English Composition (6 SHC):

- ENG 111 - Writing and Inquiry Credit Hours: 3
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3

Humanities/Fine Arts/Communications (9 SHC):

Select three (3) courses from the following list from two (2) different disciplines:

Communications:

- COM 120 - Intro Interpersonal Com Credit Hours: 3
- OR
- COM 231 - Public Speaking Credit Hours: 3

Humanities/Fine Arts:

- ART 111 - Art Appreciation Credit Hours: 3
- ART 114 - Art History Survey I Credit Hours: 3
- ART 115 - Art History Survey II Credit Hours: 3
- DRA 111 - Theatre Appreciation Credit Hours: 3
- ENG 231 - American Literature I Credit Hours: 3
- ENG 232 - American Literature II Credit Hours: 3
- ENG 241 - British Literature I Credit Hours: 3
- ENG 242 - British Literature II Credit Hours: 3
- MUS 110 - Music Appreciation Credit Hours: 3
- MUS 112 - Introduction to Jazz Credit Hours: 3
- PHI 215 - Philosophical Issues Credit Hours: 3
- PHI 240 - Introduction to Ethics Credit Hours: 3

Social/Behavioral Sciences (6 SHC):

Select two (2) courses from the following list from two (2) different disciplines:

- ECO 251 - Prin of Microeconomics Credit Hours: 3
- ECO 252 - Prin of Macroeconomics Credit Hours: 3
- HIS 111 - World Civilizations I Credit Hours: 3
- HIS 112 - World Civilizations II Credit Hours: 3
- HIS 131 - American History I Credit Hours: 3
- HIS 132 - American History II Credit Hours: 3
- POL 120 - American Government Credit Hours: 3
- PSY 150 - General Psychology Credit Hours: 3
- SOC 210 - Introduction to Sociology Credit Hours: 3

Mathematics (3-4 SHC):

Select one (1) course from the following list:

- MAT 143 - Quantitative Literacy Credit Hours: 3
- MAT 152 - Statistical Methods I Credit Hours: 4
- MAT 171 - Precalculus Algebra Credit Hours: 4

Natural/Physical Sciences (4 SHC):

Select four (4) SHC from the following list:

- AST 151 - General Astronomy I Credit Hours: 3
- AND
- AST 151A - General Astronomy I Lab Credit Hours: 1
- BIO 111 - General Biology I Credit Hours: 4
- CHM 151 - General Chemistry I Credit Hours: 4
- GEL 111 - Geology Credit Hours: 4
- PHY 110 - Conceptual Physics Credit Hours: 3
- AND
- PHY 110A - Conceptual Physics Lab Credit Hours: 1

Other Required General Education (3 SHC):

- SOC 225 - Social Diversity Credit Hours: 3

Other Required Hours (Total of 8 SHC):**Education (7 SHC):**

- EDU 187 - Teaching and Learning for All Credit Hours: 4 *
- EDU 216 - Foundations of Education Credit Hours: 3

**Students who have completed Teacher Cadet or Teaching as a Profession courses in high school with a B or better may substitute that course for EDU 187 Teaching and Learning for All.*

Academic Transition (1 SHC):

- ACA 122 - College Transfer Success Credit Hours: 1

Optional General Education Hours (0/8 SHC)

A student may take up to 8 SHC of foreign language courses and accompanying labs, in a single language, designated as General Education in the CAA as a part of this pathway. These courses are not a part of the Universal General Education Transfer Component. Students who complete these courses with a grade of "C" or better will receive transfer credit. The receiving university will determine whether the courses will count as general education, pre-major, or elective credit.

Total Semester Hours Credit (SHC) in Program: 39/48

Developmental Course Requirements:

Developmental coursework (both prerequisite and corequisite) will be required of students whose placement test measures indicate a need for greater proficiency in the areas of English and/or mathematics. Please refer to the Course Description section for prerequisite and corequisite course information.

- ENG 002 - Transition English Credit Hours: 3
- ENG 011 - Writing and Inquiry Support Credit Hours: 2

Students who elect to take MAT 143 from above:

- MAT 003 - Transition Math Credit Hours: 3
- MAT 043 - Quantitative Literacy Support Credit Hours: 2

Students who elect to take MAT 152 from above:

- MAT 003 - Transition Math Credit Hours: 3
- MAT 052 - Statistical Methods I Support Credit Hours: 2

Students who elect to take MAT 171 from above:

- MAT 003 - Transition Math Credit Hours: 3
- MAT 071 - Precalculus Algebra Support Credit Hours: 2

Career and College Promise College Transfer Pathway Leading to the Associate in Science in Teacher Preparation (P1042T)

The CCP College Transfer Pathway Leading to the Associate in Science in Teacher Preparation is designed for high school students who wish to begin study toward the Associate in Science in Teacher Preparation degree and a baccalaureate degree in teaching in a STEM or technical major.

General Education Courses (Total of 34 SHC):

UNIVERSAL GENERAL EDUCATION TRANSFER COMPONENT (UGETC)

The general education requirement includes study in courses selected from the Universal General Education Transfer Component (UGETC).

English Composition (6 SHC):

- ENG 111 - Writing and Inquiry Credit Hours: 3
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3

- MUS 112 - Introduction to Jazz Credit Hours: 3
- PHI 215 - Philosophical Issues Credit Hours: 3
- PHI 240 - Introduction to Ethics Credit Hours: 3

Social/Behavioral Sciences

Select three courses from the following from at least two different disciplines:

- ECO 251 - Prin of Microeconomics Credit Hours: 3
- ECO 252 - Prin of Macroeconomics Credit Hours: 3
- HIS 111 - World Civilizations I Credit Hours: 3
- HIS 112 - World Civilizations II Credit Hours: 3
- HIS 131 - American History I Credit Hours: 3
- HIS 132 - American History II Credit Hours: 3
- POL 120 - American Government Credit Hours: 3
- PSY 150 - General Psychology Credit Hours: 3
- SOC 210 - Introduction to Sociology Credit Hours: 3

Math

Select one course from the following:

- MAT 143 - Quantitative Literacy Credit Hours: 3
- MAT 152 - Statistical Methods I Credit Hours: 4
- MAT 171 - Precalculus Algebra Credit Hours: 4

Natural Sciences

Select 4 SHC from the following course(s):

- AST 151 - General Astronomy I Credit Hours: 3
- AST 151A - General Astronomy I Lab Credit Hours: 1
- BIO 111 - General Biology I Credit Hours: 4
- CHM 151 - General Chemistry I Credit Hours: 4

- GEL 111 - Geology Credit Hours: 4
- PHY 110 - Conceptual Physics Credit Hours: 3
- PHY 110A - Conceptual Physics Lab Credit Hours: 1

Academic Transition

- ACA 122 - College Transfer Success Credit Hours: 1

Optional General Education Hours

A student may take up to 8 SHC of foreign language courses and accompanying labs, in a single language, designated as General Education in the CAA as a part of this pathway. These courses are not a part of the Universal General Education Transfer Component. Students who complete these courses with a grade of C or better will receive transfer credit. The receiving university will determine whether the courses will count as general education, pre-major, or elective credit.

Total Credit Hours Required: 32-41

High school students in the CCP College Transfer Pathway leading to the Associate in Arts must complete the entire pathway before taking additional courses in the Associate in Arts degree.

College Transfer Pathway Leading to the Associate in Engineering (P1052C)**Career and College Promise (for qualified high school students only).**

The College Transfer Pathway (CCP) leading to the Associate in Engineering is designed for high school juniors and seniors who wish to begin study toward the Associate in Engineering degree and a baccalaureate degree in a STEM or technical major.

General Education:

The general education requirement includes study in courses selected from the Universal General Education Transfer Component (UGETC).

English Composition

The following two English composition courses are required.

- ENG 111 - Writing and Inquiry Credit Hours: 3
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3

Humanities/Fine Arts

Select one course from the following (3 SHC):

- ART 111 - Art Appreciation Credit Hours: 3
- ART 114 - Art History Survey I Credit Hours: 3
- ART 115 - Art History Survey II Credit Hours: 3
- COM 231 - Public Speaking Credit Hours: 3
- ENG 231 - American Literature I Credit Hours: 3
- ENG 232 - American Literature II Credit Hours: 3
- ENG 241 - British Literature I Credit Hours: 3
- ENG 242 - British Literature II Credit Hours: 3
- MUS 110 - Music Appreciation Credit Hours: 3
- MUS 112 - Introduction to Jazz Credit Hours: 3
- PHI 215 - Philosophical Issues Credit Hours: 3
- PHI 240 - Introduction to Ethics Credit Hours: 3

Social/Behavioral Sciences

The following course is required:

- ECO 251 - Prin of Microeconomics Credit Hours: 3

Mathematics

The following courses are required (8 SHC): *Calculus I is the lowest level math course that will be accepted by the engineering programs for transfer as a math credit. Students who are not calculus-ready will need to take additional math courses.**

- MAT 271 - Calculus I Credit Hours: 4
- MAT 272 - Calculus II Credit Hours: 4

MAT 271 Placement Criteria: High school students in the CCP College Transfer Pathway Leading to the Associate in Engineering must complete the entire pathway before taking additional courses in the Associate in Engineering degree with the following exception: Students may take additional math courses beyond MAT 272 that are required for the Associate in Engineering degree.

Please see CC16-025 at

<https://www.nccommunitycolleges.edu/sites/default/files/numbered-memos/cc16-025.pdf>

Natural Sciences

Select 8 SHC from the following course(s):

- CHM 151 - General Chemistry I Credit Hours: 4
- PHY 251 - General Physics I Credit Hours: 4
- PHY 252 - General Physics II Credit Hours: 4

Other Required Hours**Academic Transition**

The following course is required:

- ACA 122 - College Transfer Success Credit Hours: 1

Engineering

The following courses are required:

- DFT 170 - Engineering Graphics Credit Hours: 3
- EGR 150 - Intro to Engineering Credit Hours: 2

***Prerequisite General Education Hours**

Students who do not place directly into MAT 271 must complete MAT 171 and MAT 172 prior to enrolling in MAT 271 Calculus I.

Optional General Education Hours

A student may take up to 8 SHC of foreign language courses and accompanying labs, in a single language, designated as General Education in the CAA as a part of this pathway. These courses are not a part of the Universal General Education Transfer Component. Students who complete these courses with a grade of C or better will receive transfer credit. The receiving university will determine whether the courses will count as general education, pre-major, or elective credit.

Total Credit Hours Required: 34-50

College Transfer Pathway Leading to the Associate in Fine Arts in Music (P1072C)

Career and College Promise (for qualified high school students only).

The College Transfer Pathway (CCP) leading to the Associate in Fine Arts in Music is designed for high school juniors and seniors who wish to begin study toward the Associate in Fine Arts in Music degree and a baccalaureate degree in Fine Arts in Music.

GENERAL EDUCATION (25-26 SHC)

The general education requirement includes study in courses selected from the Universal General Education Transfer Component (UGETC).

English Composition (6 SHC)

The following two English composition courses are required:

- ENG 111 - Writing and Inquiry Credit Hours: 3
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3

Communications and Humanities/Fine Arts (6 SCH)

Select two courses from two different disciplines.

Communications

- COM 120 - Intro Interpersonal Com Credit Hours: 3
- OR**
- COM 231 - Public Speaking Credit Hours: 3

Humanities/Fine Arts

- ART 111 - Art Appreciation Credit Hours: 3
- ART 114 - Art History Survey I Credit Hours: 3
- ART 115 - Art History Survey II Credit Hours: 3
- DRA 111 - Theatre Appreciation Credit Hours: 3
- ENG 231 - American Literature I Credit Hours: 3
- ENG 232 - American Literature II Credit Hours: 3
- ENG 241 - British Literature I Credit Hours: 3
- ENG 242 - British Literature II Credit Hours: 3
- MUS 110 - Music Appreciation Credit Hours: 3
- MUS 112 - Introduction to Jazz Credit Hours: 3
- PHI 215 - Philosophical Issues Credit Hours: 3
- PHI 240 - Introduction to Ethics Credit Hours: 3

Social/Behavioral Sciences (6 SHC)

Select two courses from two different disciplines.

- ECO 251 - Prin of Microeconomics Credit Hours: 3
- ECO 252 - Prin of Macroeconomics Credit Hours: 3
- HIS 111 - World Civilizations I Credit Hours: 3
- HIS 112 - World Civilizations II Credit Hours: 3
- HIS 131 - American History I Credit Hours: 3
- HIS 132 - American History II Credit Hours: 3
- POL 120 - American Government Credit Hours: 3
- PSY 150 - General Psychology Credit Hours: 3
- SOC 210 - Introduction to Sociology Credit Hours: 3

Mathematics (3-4 SHC)

Select one course from the following:

- MAT 143 - Quantitative Literacy Credit Hours: 3
- MAT 152 - Statistical Methods I Credit Hours: 4
- MAT 171 - Precalculus Algebra Credit Hours: 4
- MAT 271 - Calculus I Credit Hours: 4

Natural Sciences (4 SHC)

Select 4 SHC from the following:

- AST 151 - General Astronomy I Credit Hours: 3
- AND**
- AST 151A - General Astronomy I Lab Credit Hours: 1
- BIO 111 - General Biology I Credit Hours: 4
- CHM 151 - General Chemistry I Credit Hours: 4
- GEL 111 - Geology Credit Hours: 4
- PHY 110 - Conceptual Physics Credit Hours: 3
- AND**
- PHY 110A - Conceptual Physics Lab Credit Hours: 1

Other Required Hours (7 SHC)**Music (4 SHC)**

The following two courses are required.

- MUS 111 - Fundamentals of Music Credit Hours: 3
- MUS 151 - Class Music I Credit Hours: 1

Ensemble (2 SHC)

Select 2 SHC from the following:

- MUS 131 - Chorus I Credit Hours: 1
- MUS 132 - Chorus II Credit Hours: 1
- MUS 133 - Band I Credit Hours: 1
- MUS 134 - Band II Credit Hours: 1
- MUS 135 - Jazz Ensemble I Credit Hours: 1
- MUS 136 - Jazz Ensemble II Credit Hours: 1
- MUS 137 - Orchestra I Credit Hours: 1
- MUS 138 - Orchestra II Credit Hours: 1
- MUS 141 - Ensemble I Credit Hours: 1
- MUS 142 - Ensemble II Credit Hours: 1

Academic Transition (1 SHC)

The following course is required:

- ACA 122 - College Transfer Success Credit Hours: 1

Optional General Education Hours (0-8 SHC)

Foreign Language: A student may take up to 8 SHC of foreign language courses and accompanying labs, in a single language, designated as general education in the Comprehensive Articulation Agreement as a part of this pathway. These courses are not a part of the Universal General Education Transfer Component. Students who complete these courses with a grade of "C" or better will receive transfer credit. The receiving university will determine whether the courses will count as general education, pre-major, or elective credit.

Total Credit Hours Required: 32-41

College Transfer Pathway Leading to the Associate in Fine Arts in Theater (P1082C)

Career and College Promise (for qualified high school students only).

The College Transfer Pathway (CCP) leading to the Associate in Fine Arts in Theater is designed for high school juniors and seniors who wish to begin study toward the Associate in Fine Arts in Theater degree and a baccalaureate degree in Fine Arts in Theater.

GENERAL EDUCATION (25-26 SHC)

The general education requirement includes study in courses selected from the Universal General Education Transfer Component (UGETC).

English Composition (6 SHC)

The following two English composition courses are required.

- ENG 111 - Writing and Inquiry Credit Hours: 3
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3

Communications and Humanities/Fine Arts (6 SCH)

Select two courses from two different disciplines.

Communications

- COM 120 - Intro Interpersonal Com Credit Hours: 3
- OR**
- COM 231 - Public Speaking Credit Hours: 3

Humanities/Fine Arts

- ART 111 - Art Appreciation Credit Hours: 3
- ART 114 - Art History Survey I Credit Hours: 3
- ART 115 - Art History Survey II Credit Hours: 3
- DRA 111 - Theatre Appreciation Credit Hours: 3
- ENG 231 - American Literature I Credit Hours: 3
- ENG 232 - American Literature II Credit Hours: 3
- ENG 241 - British Literature I Credit Hours: 3
- ENG 242 - British Literature II Credit Hours: 3
- MUS 110 - Music Appreciation Credit Hours: 3
- MUS 112 - Introduction to Jazz Credit Hours: 3
- PHI 215 - Philosophical Issues Credit Hours: 3
- PHI 240 - Introduction to Ethics Credit Hours: 3

Social/Behavioral Sciences (6 SHC)

Select two courses from two different disciplines.

- ECO 251 - Prin of Microeconomics Credit Hours: 3
- ECO 252 - Prin of Macroeconomics Credit Hours: 3
- HIS 111 - World Civilizations I Credit Hours: 3
- HIS 112 - World Civilizations II Credit Hours: 3
- HIS 131 - American History I Credit Hours: 3
- HIS 132 - American History II Credit Hours: 3
- POL 120 - American Government Credit Hours: 3
- PSY 150 - General Psychology Credit Hours: 3
- SOC 210 - Introduction to Sociology Credit Hours: 3

Mathematics (3-4 SHC)

Select one course from the following:

- MAT 143 - Quantitative Literacy Credit Hours: 3
- MAT 152 - Statistical Methods I Credit Hours: 4
- MAT 171 - Precalculus Algebra Credit Hours: 4
- MAT 271 - Calculus I Credit Hours: 4

Natural Sciences (4 SHC)

Select 4 SHC from the following:

- AST 151 - General Astronomy I Credit Hours: 3
- AND**
- AST 151A - General Astronomy I Lab Credit Hours: 1
- BIO 111 - General Biology I Credit Hours: 4
- CHM 151 - General Chemistry I Credit Hours: 4
- GEL 111 - Geology Credit Hours: 4
- PHY 110 - Conceptual Physics Credit Hours: 3
- AND**
- PHY 110A - Conceptual Physics Lab Credit Hours: 1

Other Required Hours (7 SHC)**Theater (6 SHC)**

Two courses are required (choose one track):

Acting Track

- DRA 130 - Acting I Credit Hours: 3
- DRA 170 - Play Production I Credit Hours: 3

Technical Track

- DRA 140 - Stagecraft I Credit Hours: 3
- DRA 170 - Play Production I Credit Hours: 3

Academic Transition (1 SHC)

The following course is required.

- ACA 122 - College Transfer Success Credit Hours: 1

Optional General Education Hours (0-8 SHC)

Foreign Language: A student may take up to 8 SHC of foreign language courses and accompanying labs, in a single language, designated as general education in the Comprehensive Articulation Agreement as a part of this pathway. These courses are not a part of the Universal General Education Transfer Component. Students who complete these courses with a grade of "C" or better will receive transfer credit. The receiving university will determine whether the courses will count as general education, pre-major, or elective credit.

Total Credit Hours Required: 32-41

College Transfer Pathway Leading to the Associate in Fine Arts in Visual Arts (P1062C)

The CCP College Transfer Pathway Leading to the Associate in Fine Arts in Visual Arts is designed for high school juniors and seniors who wish to begin study toward the Associate in Fine Arts in Visual Arts and a baccalaureate degree in Fine Arts-Visual Arts.

GENERAL EDUCATION (25-26 SHC)

The general education requirement includes study in courses selected from the Universal General Education Transfer Component (UGETC).

English Composition (6 SHC):

The following two English composition courses are required.

- ENG 111 - Writing and Inquiry Credit Hours: 3
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3

Communications and Humanities/Fine Arts (6 SCH)

Select two courses from two different disciplines.

- ART 111 - Art Appreciation Credit Hours: 3
- COM 120 - Intro Interpersonal Com Credit Hours: 3
- COM 231 - Public Speaking Credit Hours: 3
- DRA 111 - Theatre Appreciation Credit Hours: 3
- ENG 231 - American Literature I Credit Hours: 3
- ENG 232 - American Literature II Credit Hours: 3
- ENG 241 - British Literature I Credit Hours: 3
- ENG 242 - British Literature II Credit Hours: 3
- MUS 110 - Music Appreciation Credit Hours: 3
- MUS 112 - Introduction to Jazz Credit Hours: 3
- PHI 215 - Philosophical Issues Credit Hours: 3
- PHI 240 - Introduction to Ethics Credit Hours: 3

Social/Behavioral Sciences (6 SHC)

Select two courses from two different disciplines.

- ECO 251 - Prin of Microeconomics Credit Hours: 3
- ECO 252 - Prin of Macroeconomics Credit Hours: 3
- HIS 111 - World Civilizations I Credit Hours: 3
- HIS 112 - World Civilizations II Credit Hours: 3
- HIS 131 - American History I Credit Hours: 3
- HIS 132 - American History II Credit Hours: 3
- POL 120 - American Government Credit Hours: 3
- PSY 150 - General Psychology Credit Hours: 3
- SOC 210 - Introduction to Sociology Credit Hours: 3

Mathematics (3-4 SHC)

- MAT 143 - Quantitative Literacy Credit Hours: 3
- MAT 152 - Statistical Methods I Credit Hours: 4
- MAT 171 - Precalculus Algebra Credit Hours: 4
- MAT 271 - Calculus I Credit Hours: 4

Natural Sciences (4 SHC)

Select 4 SHC from the following:

- AST 151 - General Astronomy I Credit Hours: 3
- AND**
- AST 151A - General Astronomy I Lab Credit Hours: 1
- BIO 111 - General Biology I Credit Hours: 4
- CHM 151 - General Chemistry I Credit Hours: 4
- GEL 111 - Geology Credit Hours: 4
- PHY 110 - Conceptual Physics Credit Hours: 3
- AND**
- PHY 110A - Conceptual Physics Lab Credit Hours: 1

Other Required Hours (7 SHC)**Art (6 SHC)**

The following two courses are required.

- ART 121 - Two-Dimensional Design Credit Hours: 3
- ART 131 - Drawing I Credit Hours: 3

Academic Transition (1 SHC)

The following course is required.

- ACA 122 - College Transfer Success Credit Hours: 1

Optional General Education Hours (0-8 SHC):

Foreign Language: A student may take up to 8 SHC of foreign language courses and accompanying labs, in a single language, designated as general education in the Comprehensive Articulation Agreement as a part of this pathway. These courses are not a part of the Universal General Education Transfer Component. Students who complete these courses with a grade of "C" or better will receive transfer credit. The receiving university will determine whether the courses will count as general education, pre-major, or elective credit.

**Students must meet the receiving university's foreign language and/or health and physical education requirements, if applicable, prior to or after transfer to the senior institution.*

Total Credit Hours Required: 32-41*

College Transfer Pathway Leading to the Associate in Science (P1042C)**Career and College Promise (for qualified high school students only).**

The CCP College Transfer Pathway leading to the Associate in Science is designed for high school juniors and seniors who wish to begin study toward the Associate in Science degree and a baccalaureate degree in a STEM or technical major.

General Education:

The general education requirement includes study in courses selected from the Universal General Education Transfer Component (UGETC).

English Composition

The following two English composition courses are required.

- ENG 111 - Writing and Inquiry Credit Hours: 3
- ENG 112 - Writing/Research in the Disciplines Credit Hours: 3

Communications and Humanities/Fine Arts (6 SCH)

Select two courses from two different disciplines.

Communications

- COM 120 - Intro Interpersonal Com Credit Hours: 3
- COM 231 - Public Speaking Credit Hours: 3

Humanities/Fine Arts

- ART 111 - Art Appreciation Credit Hours: 3
- ART 114 - Art History Survey I Credit Hours: 3
- ART 115 - Art History Survey II Credit Hours: 3
- DRA 111 - Theatre Appreciation Credit Hours: 3
- ENG 231 - American Literature I Credit Hours: 3
- ENG 232 - American Literature II Credit Hours: 3
- ENG 241 - British Literature I Credit Hours: 3
- ENG 242 - British Literature II Credit Hours: 3
- MUS 110 - Music Appreciation Credit Hours: 3
- MUS 112 - Introduction to Jazz Credit Hours: 3
- PHI 215 - Philosophical Issues Credit Hours: 3
- PHI 240 - Introduction to Ethics Credit Hours: 3

Social/Behavioral Sciences

Select two courses from the following from at least two different disciplines:

- ECO 251 - Prin of Microeconomics Credit Hours: 3
- ECO 252 - Prin of Macroeconomics Credit Hours: 3
- HIS 111 - World Civilizations I Credit Hours: 3
- HIS 112 - World Civilizations II Credit Hours: 3
- HIS 131 - American History I Credit Hours: 3
- HIS 132 - American History II Credit Hours: 3
- POL 120 - American Government Credit Hours: 3
- PSY 150 - General Psychology Credit Hours: 3
- SOC 210 - Introduction to Sociology Credit Hours: 3

Mathematics

Select two courses from the following:

- MAT 171 - Precalculus Algebra Credit Hours: 4
- MAT 172 - Precalculus Trigonometry Credit Hours: 4
- MAT 263 - Brief Calculus Credit Hours: 4
- MAT 271 - Calculus I Credit Hours: 4
- MAT 272 - Calculus II Credit Hours: 4

Natural Sciences

Select 8 SHC from the following course(s):

- AST 151 - General Astronomy I Credit Hours: 3
- AST 151A - General Astronomy I Lab Credit Hours: 1
- BIO 111 - General Biology I Credit Hours: 4
- BIO 112 - General Biology II Credit Hours: 4
- CHM 151 - General Chemistry I Credit Hours: 4
- CHM 152 - General Chemistry II Credit Hours: 4
- GEL 111 - Geology Credit Hours: 4
- PHY 110 - Conceptual Physics Credit Hours: 3
- PHY 110A - Conceptual Physics Lab Credit Hours: 1
- PHY 151 - College Physics I Credit Hours: 4
- PHY 152 - College Physics II Credit Hours: 4
- PHY 251 - General Physics I Credit Hours: 4
- PHY 252 - General Physics II Credit Hours: 4

Academic Transition

The following course is required:

- ACA 122 - College Transfer Success Credit Hours: 1

Optional General Education Hours

A student may take up to 8 SHC of foreign language courses and accompanying labs, in a single language, designated as General Education in the CAA as a part of this pathway. These courses are not a part of the Universal General Education Transfer Component. Students who complete

these courses with a grade of C or better will receive transfer credit. The receiving university will determine whether the courses will count as general education, pre-major, or elective credit.

Total Credit Hours Required: 35-43

High school students in the CCP College Transfer Pathway Leading to the Associate in Science must complete the entire pathway before taking additional courses in the Associate in Science degree.

Accounting and Finance: Accounting Pathway (C25800AP)

Career and College Promise (for qualified high school students only).

Core Courses

- ACC 120 - Prin of Financial Accounting Credit Hours: 4
- ACC 121 - Prin of Managerial Accounting Credit Hours: 4
- ACC 129 - Individual Income Taxes Credit Hours: 3

Other Major Courses

- ACC 140 - Payroll Accounting Credit Hours: 2
- WBL 120 - Career Read/Explore/Employ Credit Hours: 3

Total Credit Hours Required: 16

Advertising and Graphic Design H.S. Pathway (C30100P)

Career and College Promise (for qualified high school students only).

Core Courses

- GRD 110 - Typography I Credit Hours: 3
- GRD 141 - Graphic Design I Credit Hours: 4
- GRD 151 - Computer Design Basics Credit Hours: 3
- GRD 152 - Computer Design Tech I Credit Hours: 3
- WBL 120 - Career Read/Explore/Employ Credit Hours: 3

Total Credit Hours Required: 16

Air Conditioning, Heating, and Refrigeration Technology Pathway (C35100P)

Career and College Promise (for qualified high school students only).

Core Courses

- AHR 110 - Intro to Refrigeration Credit Hours: 5
- AHR 111 - HVACR Electricity Credit Hours: 3
- AHR 112 - Heating Technology Credit Hours: 4

Other Major Courses

- AHR 160 - Refrigerant Certification Credit Hours: 1

Total Credit Hours Required: 13

Automotive Systems Technology: Under Car Services Pathway (C60160P)

Career and College Promise (for qualified high school students only).

Core Courses

- AUT 141 - Suspension & Steering Sys Credit Hours: 3
- AUT 151 - Brake Systems Credit Hours: 3
- TRN 110 - Intro to Transport Tech Credit Hours: 2
- TRN 120 - Basic Transp Electricity Credit Hours: 5

Other Major Courses

- AUT 141A - Suspension & Steering Lab Credit Hours: 1
- AUT 151A - Brake Systems Lab Credit Hours: 1

Total Credit Hours Required: 15

Automotive Systems Technology: Under Car Services Pathway #2 (C60160P2)

(High School Location Only)

Career and College Promise (for qualified high school students only).

Core Courses:

- AUT 141 - Suspension & Steering Sys Credit Hours: 3
- AUT 151 - Brake Systems Credit Hours: 3
- AUT 212 - Auto Shop Management Credit Hours: 3
- TRN 110 - Intro to Transport Tech Credit Hours: 2
- TRN 120 - Basic Transp Electricity Credit Hours: 5

Other Major Courses:

- AUT 141A - Suspension & Steering Lab Credit Hours: 1
- AUT 151A - Brake Systems Lab Credit Hours: 1

Total Credit Hours Required: 18

Business Administration Advanced Certificate #1 Pathway (C25120P)

Career and College Promise (for qualified high school students only).

Core Courses

- ACC 120 - Prin of Financial Accounting Credit Hours: 4
- BUS 110 - Introduction to Business Credit Hours: 3
- BUS 115 - Business Law I Credit Hours: 3
- BUS 137 - Principles of Management Credit Hours: 3

Other Major Courses

- WBL 120 - Career Read/Explore/Employ Credit Hours: 3

Total Credit Hours Required: 16

Computer Engineering Technology Pathway #1 (C40160P1)

Career and College Promise (for qualified high school students only).

Core Courses

- ELC 131 - Circuit Analysis I Credit Hours: 4

Other Major Courses

- DFT 151 - CAD I Credit Hours: 3
- EGR 110 - Intro to Engineering Tech Credit Hours: 2
- MEC 130 - Mechanisms Credit Hours: 3

Total Credit Hours Required: 12

Computer-Integrated Machining Technology Pathway (C50210P)

Career and College Promise (for qualified high school students only).

Core Courses

- MAC 122 - CNC Turning Credit Hours: 2
- MAC 131 - Blueprint Reading/Mach I Credit Hours: 2
- MAC 141 - Machining Applications I Credit Hours: 4

Other Major Courses

- MAC 124 - CNC Milling Credit Hours: 2
- MAC 151 - Machining Calculations Credit Hours: 2
- MEC 110 - Intro to CAD/CAM Credit Hours: 2

Total Credit Hours Required: 14

Cosmetology Pathway (D55140P)

Career and College Promise (for qualified high school students only).

General Education Courses:

- ENG 111 - Writing and Inquiry Credit Hours: 3
- PSY 150 - General Psychology Credit Hours: 3

Core Courses

- COS 111 - Cosmetology Concepts I Credit Hours: 4
- OR
- COS 111AB - Cosmetology Concepts I-AB Credit Hours: 2
- COS 111BB - Cosmetology Concepts I-BB Credit Hours: 2

- COS 112 - Salon I Credit Hours: 8

OR

- COS 112AB - Salon I-AB Credit Hours: 4
- COS 112BB - Salon I-BB Credit Hours: 4

- COS 113 - Cosmetology Concepts II Credit Hours: 4

OR

- COS 113AB - Cosmetology Concepts II-AB Credit Hours: 2
- COS 113BB - Cosmetology Concepts II-BB Credit Hours: 2

- COS 114 - Salon II Credit Hours: 8

OR

- COS 114AB - Salon II-AB Credit Hours: 4
- COS 114BB - Salon II-BB Credit Hours: 4

- COS 115 - Cosmetology Concepts III Credit Hours: 4

OR

- COS 115AB - Cosmetology Concepts III-AB Credit Hours: 2
- COS 115BB - Cosmetology Concepts III-BB Credit Hours: 2

- COS 116 - Salon III Credit Hours: 4

OR

- COS 116AB - Salon III-AB Credit Hours: 2
- COS 116BB - Salon III-BB Credit Hours: 2

Other Major Courses

- COS 117 - Cosmetology Concepts IV Credit Hours: 2
- OR
- COS 117AB - Cosmetology Concepts IV-AB Credit Hours: 1
- COS 117BB - Cosmetology Concepts IV-BB Credit Hours: 1

- COS 118 - Salon IV Credit Hours: 7

OR

- COS 118AB - Salon IV-AB Credit Hours: 4
- COS 118BB - Salon IV-BB Credit Hours: 3

- WBL 110 - World of Work Credit Hours: 1

Total Credit Hours Required: 48

Developmental Course Requirements:

Developmental coursework (both prerequisite and corequisite) will be required of students whose placement test measures indicate a need for greater proficiency in the areas of English and/or mathematics. Please refer to the Course Description section for prerequisite and corequisite course information.

- ENG 002 - Transition English Credit Hours: 3
- ENG 011 - Writing and Inquiry Support Credit Hours: 2

Criminal Justice Technology: Forensic Science Concentration Crime Scene H. S. Pathway (C5518CP)

Career and College Promise (for qualified high school students only).

Core Courses

- CJC 111 - Intro to Criminal Justice Credit Hours: 3
- CJC 144 - Crime Scene Processing Credit Hours: 3
- CJC 221 - Investigative Principles Credit Hours: 4
- CJC 245 - Friction Ridge Analysis Credit Hours: 3

Other Required Courses

- CJC 115 - Crime Scene Photography Credit Hours: 3

Total Credit Hours Required: 16

Criminal Justice Technology: Law Enforcement H. S. Pathway (C55180P)

Career and College Promise (for qualified high school students only).

Core Courses

- CJC 111 - Intro to Criminal Justice Credit Hours: 3
- CJC 131 - Criminal Law Credit Hours: 3
- CJC 212 - Ethics & Comm Relations Credit Hours: 3

Other Required Courses

- CJC 121 - Law Enforcement Operations Credit Hours: 3
- CJC 132 - Court Procedure & Evidence Credit Hours: 3

Total Credit Hours Required: 15

Early Childhood Education - Birth to Kindergarten (B-K) Pre-Teaching Certificate Pathway (C55220LP)

Career and College Promise (for qualified high school students only).

General Education Courses:

English/Communications:

- ENG 111 - Writing and Inquiry Credit Hours: 3

Major Courses:

- EDU 144 - Child Development I Credit Hours: 3
- EDU 145 - Child Development II Credit Hours: 3
- EDU 216 - Foundations of Education Credit Hours: 3
- EDU 221 - Children with Exceptionalities Credit Hours: 3

Other Major Courses:

- PSY 150 - General Psychology Credit Hours: 3

Total Credit Hours Required: 18

Electrical Systems Technology Pathway (C35130P1)

Career and College Promise (for qualified high school students only).

Core Courses

- ELC 113 - Residential Wiring Credit Hours: 4

Other Major Courses

- ELC 114 - Commercial Wiring Credit Hours: 4
- ELC 118 - National Electrical Code Credit Hours: 2
- ISC 121 - Envir Health & Safety Credit Hours: 3

Total Credit Hours Required: 13

Electronics Engineering Technology Pathway #1 (C40200P1)

Career and College Promise (for qualified high school students only).

Core Courses

- ELC 131 - Circuit Analysis I Credit Hours: 4

Other Major Courses

- DFT 151 - CAD I Credit Hours: 3
- EGR 110 - Intro to Engineering Tech Credit Hours: 2
- MEC 130 - Mechanisms Credit Hours: 3

Total Credit Hours Required: 12

Emergency Management Pathway (C55460P1)

Career and College Promise (for qualified high school students only).

Core Courses:

- EPT 120 - Sociology of Disaster Credit Hours: 3
- EPT 130 - Mitigation & Preparedness Credit Hours: 3
- EPT 140 - Emergency Management Credit Hours: 3
- EPT 150 - Incident Management Credit Hours: 3

Total Credit Hours Required: 12

Emergency Medical Science - Certificate Pathway (C45340P3)

Career and College Promise (for qualified high school students only).

Core Courses:

- EMS 110 - EMT Credit Hours: 9

Other Major Courses:

- MED 121 - Medical Terminology I Credit Hours: 3
- MED 122 - Medical Terminology II Credit Hours: 3

Total Credit Hours Required: 15

Fire Protection Technology Fire Protection Management H.S. Pathway (C55240P)

Career and College Promise (for qualified high school students only).

Core Courses

- FIP 120 - Intro to Fire Protection Credit Hours: 3
- FIP 124 - Fire Prevention & Public Ed Credit Hours: 3
- FIP 132 - Building Construction Credit Hours: 3
- FIP 152 - Fire Protection Law Credit Hours: 3

Total Credit Hours Required: 12

Health Information Technology H. S. Pathway (C45360P)

Career and College Promise (for qualified high school students only).

Core Courses

- HIT 110 - Intro to Healthcare & Him Credit Hours: 3
- HIT 112 - Health Law and Ethics Credit Hours: 3
- MED 121 - Medical Terminology I Credit Hours: 3
- MED 122 - Medical Terminology II Credit Hours: 3

Total Credit Hours Required: 12

Healthcare Management Technology: Receptionist Pathway (C25200P)

Career and College Promise (for qualified high school students only).

Core Courses

- HMT 110 - Intro to Healthcare Mgt Credit Hours: 3
- MED 121 - Medical Terminology I Credit Hours: 3
- MED 122 - Medical Terminology II Credit Hours: 3
- OST 149 - Medical Legal Issues Credit Hours: 3

Total Credit Hours Required: 12

Horticulture Technology Pathway Certificate (C15240P2)

Career and College Promise (for qualified high school students only).

Core Courses

- HOR 134 - Greenhouse Operations Credit Hours: 3
- HOR 160 - Plant Materials I Credit Hours: 3
- HOR 166 - Soils & Fertilizers Credit Hours: 3
- HOR 168 - Plant Propagation Credit Hours: 3

Total Credit Hours Required: 12

Infant/Toddler Care Certificate Pathway (C55290P)

Career and College Promise (for qualified high school students only).

Core Courses

- EDU 119 - Intro to Early Child Educ Credit Hours: 4
- EDU 131 - Child, Family, and Community Credit Hours: 3
- EDU 144 - Child Development I Credit Hours: 3
- EDU 153 - Health, Safety and Nutrition Credit Hours: 3
- EDU 234 - Infants, Toddlers, and Twos Credit Hours: 3

Total Credit Hours Required: 16

Information Technology -- IT Concepts Certificate Pathway (C25590P)

Career and College Promise (for qualified high school students only).

The IT Concepts Certificate provides a foundation in internet technologies. Students will learn: Basic fundamentals associated with Networking and Security, Web, Programming, and Databases, and Information Business Systems.

Upon completion graduates will be able to assist in the technical support of Databases, Business Systems, and Web Programming.

Technical Core:

- CIS 110 - Introduction to Computers Credit Hours: 3
- CTI 110 - Web, Pgm, & Db Foundation Credit Hours: 3
- CTI 120 - Network & Sec Foundation Credit Hours: 3
- CTS 115 - Info Sys Business Concept Credit Hours: 3

Total Credit Hours Required: 12

Mechanical Engineering Technology Pathway #1 (C40320P1)

Career and College Promise (for qualified high school students only).

Core Courses

- DFT 151 - CAD I Credit Hours: 3
- MEC 130 - Mechanisms Credit Hours: 3

Other Major Courses

- EGR 110 - Intro to Engineering Tech Credit Hours: 2
- ELC 131 - Circuit Analysis I Credit Hours: 4

Total Credit Hours Required: 12

Mechatronics Engineering Technology H. S. Certificate Pathway #2 (C40350P2)

Career and College Promise (for qualified high school students only).

Core Courses

- DFT 151 - CAD I Credit Hours: 3
- ELC 131 - Circuit Analysis I Credit Hours: 4

Other Major Courses

- EGR 110 - Intro to Engineering Tech Credit Hours: 2
- MEC 130 - Mechanisms Credit Hours: 3

Total Credit Hours Required: 12

Mechatronics Engineering Technology: Apprenticeship Certificate Pathway #4 (C40350P4)

Career and College Promise (for qualified high school students only).

Core Courses:

- CIS 110 - Introduction to Computers Credit Hours: 3
- ELC 131 - Circuit Analysis I Credit Hours: 4
- ISC 112 - Industrial Safety Credit Hours: 2
- MEC 130 - Mechanisms Credit Hours: 3

Other Major Courses:

- EGR 110 - Intro to Engineering Tech Credit Hours: 2
- WBL 120 - Career Read/Explore/Employ Credit Hours: 3

Total Credit Hours Required: 17

Medical Office Administration Certificate Pathway (C25310P)

Career and College Promise (for qualified high school students only).

Major Courses

- HMT 110 - Intro to Healthcare Mgt Credit Hours: 3
- MED 121 - Medical Terminology I Credit Hours: 3
- MED 122 - Medical Terminology II Credit Hours: 3
- OST 148 - Med Ins & Billing Credit Hours: 3
- OST 149 - Medical Legal Issues Credit Hours: 3

Total Credit Hours Required: 15

Office Administration: General Office Certificate Pathway (C25370P)

Career and College Promise (for qualified high school students only).

Core Courses

- OST 136 - Word Processing Credit Hours: 3
- OST 164 - Office Editing Credit Hours: 3
- OST 181 - Office Procedures Credit Hours: 3
- OST 184 - Records Management Credit Hours: 3

Other Major Courses:

- WBL 120 - Career Read/Explore/Employ Credit Hours: 3

Total Credit Hours Required: 15

Photographic Technology H.S. Pathway #1 (C30280P)

Career and College Promise (for qualified high school students only).

Core Courses

- PHO 110 - Fund of Photography Credit Hours: 5
- PHO 115 - Basic Studio Lighting Credit Hours: 4
- PHO 139 - Intro to Digital Imaging Credit Hours: 3

Total Credit Hours Required: 12

Turfgrass Management H.S. Pathway (C15420P1)

Career and College Promise (for qualified high school students only).

Core Courses

- HOR 166 - Soils & Fertilizers Credit Hours: 3
- TRF 110 - Intro Turfgrass Cult & ID Credit Hours: 4
- TRF 120 - Turfgrass Irrigat & Design Credit Hours: 4
- TRF 240 - Turfgrass Pest Control Credit Hours: 3

Total Credit Hours Required: 14

Welding Technology H.S. Diploma Pathway (D50420P)

Career and College Promise (for qualified high school students only).

General Education Courses:

English/Communications:

- ENG 102 - Applied Communications II Credit Hours: 3

Natural Sciences/Mathematics

- MAT 110 - Math Measurement & Literacy Credit Hours: 3

Core Courses:

- WLD 110 - Cutting Processes Credit Hours: 2
- WLD 115 - SMAW (Stick) Plate Credit Hours: 5
- WLD 121 - GMAW (MIG) FCAW/Plate Credit Hours: 4
- WLD 131 - GTAW (TIG) Plate Credit Hours: 4
- WLD 141 - Symbols & Specifications Credit Hours: 3

Other Major Courses:

- WBL 120 - Career Read/Explore/Employ Credit Hours: 3
- WLD 116 - SMAW (Stick) Plate/Pipe Credit Hours: 4
- WLD 122 - GMAW (MIG) Plate/Pipe Credit Hours: 3
- WLD 132 - GTAW (TIG) Plate/Pipe Credit Hours: 3

Total Credit Hours Required: 37

Developmental Course Requirements:

Developmental coursework (both prerequisite and corequisite) will be required of students whose placement measures indicate a need for greater proficiency in the areas of English and/or mathematics. Please refer to the Course Descriptions section for prerequisite and corequisite course information.

Students who elect to take MAT 110 from above:

- MAT 003 - Transition Math Credit Hours: 3
- MAT 010 - Math Measurement & Literacy Su Credit Hours: 1

Welding Technology Certificate Pathway (C50420P)

Career and College Promise (for qualified high school students only).

Core Courses

- WLD 110 - Cutting Processes Credit Hours: 2
- WLD 115 - SMAW (Stick) Plate Credit Hours: 5
- **OR**
- WLD 115AB - SMAW (Stick) Plate-AB Credit Hours: 3

- WLD 115BB - SMAW (Stick) Plate-BB Credit Hours: 2
- WLD 121 - GMAW (MIG) FCAW/Plate Credit Hours: 4
- WLD 131 - GTAW (TIG) Plate Credit Hours: 4
- WLD 141 - Symbols & Specifications Credit Hours: 3

Total Credit Hours Required: 18

Welding Technology: Fabrication Certificate H.S. Pathway (C50420P2)

Career and College Promise (for qualified high school students only).

Core Courses (9 SHC)

- WLD 110 - Cutting Processes Credit Hours: 2
- WLD 121 - GMAW (MIG) FCAW/Plate Credit Hours: 4
- WLD 141 - Symbols & Specifications Credit Hours: 3

Other Major Courses (7 SHC)

- WLD 151 - Fabrication I Credit Hours: 4
- WLD 251 - Fabrication II Credit Hours: 3

Total Credit Hours Required: 16

Course Descriptions

The following legend identifies the college transfer designations of courses included in the Comprehensive Articulation Agreement:

(UGETC) = Universal General Education Transfer Component Course
 (GENED) = General Education Course
 (PM-ELEC) = Pre-Major Elective Course
 (AA/AS-REQD) = AA/AS Required Course
 (AATP/ASTP) = AA/AS in Teacher Preparation Required Course

Academic Success

ACA 111 - College Student Success

Hours--Class: 1 Lab: 0 Clinic/Work Exp: 0 Credit: 1

This course introduces the college's physical, academic, and social environment and promotes the personal development essential for success. Topics include campus facilities and resources; policies, procedures, and programs; study skills; and life management issues such as health, self esteem, motivation, goal-setting, diversity, and communication. Upon completion, students should be able to function effectively within the college environment to meet their educational objectives.

Prerequisites: None. Corequisites: None.
 When Offered: (F, S, SU)

ACA 122 - College Transfer Success (AA/AS-REQ)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course provides information and strategies necessary to develop clear academic and professional goals beyond the community college experience. Topics include the CAA, college policies and culture, career exploration, gathering information on senior institutions, strategic planning, critical thinking, and communications skills for a successful academic transition. Upon completion, students should be able to develop an academic plan to transition successfully to senior institutions.

Prerequisites: None. Corequisites: None.
 When Offered: (F, S, SU)

Accounting

ACC 120 - Prin of Financial Accounting (PM-ELEC)

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course introduces business decision-making using accounting information systems. Emphasis is placed on analyzing, summarizing, reporting, and interpreting financial information. Upon completion, students should be able to prepare financial statements, understand the role of financial information in decision-making, and address ethical considerations.

Prerequisites: None. Corequisites: None.
 When Offered: (F, S)

ACC 121 - Prin of Managerial Accounting (PM-ELEC)

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course includes a greater emphasis on managerial and cost accounting skills. Emphasis is placed on managerial accounting concepts for external and internal analysis, reporting, and decision-making. Upon completion, students should be able to analyze and interpret transactions relating to managerial concepts including product-costing systems.

Prerequisites: ACC 120. Corequisites: None.
 When Offered: (S)

ACC 129 - Individual Income Taxes

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces the relevant laws governing individual income taxation. Topics include tax law, electronic research and methodologies, and the use of technology for preparation of individual income tax returns. Upon completion, students should be able to analyze basic tax scenarios, research applicable tax law, and complete various individual tax forms.

Prerequisites: None. Corequisites: None.
 When Offered: (F)

ACC 130 - Business Income Taxes

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces the relevant laws governing business and fiduciary income taxes. Topics include tax law relating to business organizations, electronic research and methodologies, and the use of technology for the preparation of business tax returns. Upon completion, students should be

able to analyze basic tax scenarios, research applicable tax law, and complete various business tax forms.

Prerequisites: None. Corequisites: None.

ACC 140 - Payroll Accounting

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course covers federal and state laws pertaining to wages, payroll taxes, payroll tax forms, and journal and general ledger transactions. Emphasis is placed on computing wages; calculating social security, income, and unemployment taxes; preparing appropriate payroll tax forms; and journalizing/posting transactions. Upon completion, students should be able to analyze data, make appropriate computations, complete forms, and prepare accounting entries using appropriate technology.

Prerequisites: ACC 120. Corequisites: None.
 When Offered: (S)

ACC 150 - Accounting Software Appl

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course introduces microcomputer applications related to accounting systems. Topics include general ledger, accounts receivable, accounts payable, inventory, payroll, and correcting, adjusting, and closing entries. Upon completion, students should be able to use a computer accounting package to accurately solve accounting problems. This class is offered only in a distant format (Internet).

Prerequisites: ACC 120. Corequisites: None.
 When Offered: (S)

ACC 210 - Enterprise Risk Management

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces enterprise risk management as it applies to accounting and finance. Topics include risk recognition, assessment, risk analysis, internal controls, and risk management plans. Upon completion, students should be able to demonstrate the daily managerial and organizational requirements of enterprise risk management in written and oral format.

Prerequisites: ACC 120. Corequisites: None.
 When Offered: (S)

ACC 220 - Intermediate Accounting I

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course is a continuation of the study of accounting principles with in-depth coverage of theoretical concepts and financial statements. Topics include generally accepted accounting principles and extensive analysis of balance sheet components. Upon completion, students should be able to demonstrate competence in the conceptual framework underlying financial accounting, including the application of financial standards.

Prerequisites: ACC 120. Corequisites: None.
 When Offered: (F)

ACC 221 - Intermediate Acct II

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course is a continuation of ACC 220. Emphasis is placed on special problems which may include leases, bonds, investments, ratio analyses, present value applications, accounting changes, and corrections. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered.

Prerequisites: ACC 220. Corequisites: None.
 When Offered: (S)

ACC 225 - Cost Accounting

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the nature and purposes of cost accounting as an information system for planning and control. Topics include direct materials, direct labor, factory overhead, process, job order, and standard cost systems. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered.

Prerequisites: ACC 121. Corequisites: None.
 When Offered: (F)

ACC 240 - Gov & Not-for-Profit Acct

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces principles and procedures applicable to governmental and not-for-profit organizations. Emphasis is placed on various budgetary accounting procedures and fund accounting. Upon

completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered.

Prerequisites: ACC 121. Corequisites: None.

When Offered: (S)

AHR 110 - Intro to Refrigeration

Hours--Class: 2 Lab: 6 Clinic/Work Exp: 0 Credit: 5

This course introduces the basic refrigeration process used in mechanical refrigeration and air conditioning systems. Topics include terminology, safety, and identification and function of components; refrigeration cycle; and tools and instrumentation used in mechanical refrigeration systems. Upon completion, students should be able to identify refrigeration systems and components, explain the refrigeration process, and use the tools and instrumentation of the trade.

Prerequisites: None. Corequisites: None.

When Offered: (F, On Demand)

Air Conditioning, Heating & Refrigeration

AHR 111 - HVACR Electricity

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces electricity as it applies to HVACR equipment. Emphasis is placed on power sources, interaction of electrical components, wiring of simple circuits, and the use of electrical test equipment. Upon completion, students should be able to demonstrate good wiring practices and the ability to read simple wiring diagrams.

Prerequisites: None. Corequisites: None.

When Offered: (F, On Demand)

AHR 112 - Heating Technology

Hours--Class: 2 Lab: 4 Clinic/Work Exp: 0 Credit: 4

This course covers the fundamentals of heating including oil, gas, and electric heating systems. Topics include safety, tools and instrumentation, system operating characteristics, installation techniques, efficiency testing, electrical power, and control systems. Upon completion, students should be able to explain the basic oil, gas, and electrical heating systems and describe the major components of a heating system.

Prerequisites: None. Corequisites: None.

When Offered: (S)

AHR 113 - Comfort Cooling

Hours--Class: 2 Lab: 4 Clinic/Work Exp: 0 Credit: 4

This course covers the installation procedures, system operations, and maintenance of residential and light commercial comfort cooling systems. Topics include terminology, component operation, and testing and repair of equipment used to control and produce assured comfort levels. Upon completion, students should be able to use psychometrics, manufacturer specifications, and test instruments to determine proper system operation.

Prerequisites: None. Corequisites: None.

When Offered: (S)

AHR 114 - Heat Pump Technology

Hours--Class: 2 Lab: 4 Clinic/Work Exp: 0 Credit: 4

This course covers the principles of air source and water source heat pumps. Emphasis is placed on safety, modes of operation, defrost systems, refrigerant charging, and system performance. Upon completion, students should be able to understand and analyze system performance and perform routine service procedures.

Prerequisites: AHR 110 or AHR 113. Corequisites: None.

When Offered: (S)

AHR 115 - Refrigeration Systems

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course introduces refrigeration systems and applications. Topics include defrost methods, safety and operational control, refrigerant piping, refrigerant recovery and charging, and leak testing. Upon completion, students should be able to assist in installing and testing refrigeration systems and perform simple repairs.

Prerequisites: AHR 110. Corequisites: None.

When Offered: (On demand)

AHR 130 - HVAC Controls

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course covers the types of controls found in residential and commercial comfort systems. Topics include electrical and electronic controls, control schematics and diagrams, test instruments, and analysis and troubleshooting of electrical systems. Upon completion, students should be

able to diagnose and repair common residential and commercial comfort system controls.

Prerequisites: AHR 111 or ELC 112. Corequisites: None.

When Offered: (Su)

AHR 160 - Refrigerant Certification

Hours--Class: 1 Lab: 0 Clinic/Work Exp: 0 Credit: 1

This course covers the requirements for the EPA certification examinations. Topics include small appliances, high pressure systems, and low pressure systems. Upon completion, students should be able to demonstrate knowledge of refrigerants and be prepared for the EPA certification examinations.

Prerequisites: None. Corequisites: None.

When Offered: (F, S, On Demand)

AHR 180 - HVACR Customer Relations

Hours--Class: 1 Lab: 0 Clinic/Work Exp: 0 Credit: 1

This course introduces common business and customer relation practices that may be encountered in HVACR. Topics include business practices, appearance of self and vehicle, ways of handling customer complaints, invoices, telephone communications, and warranties. Upon completion, students should be able to present themselves to customers in a professional manner, understand how the business operates, complete invoices, and handle complaints.

Prerequisites: None. Corequisites: None.

When Offered: (S)

AHR 211 - Residential System Design

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces the principles and concepts of conventional residential heating and cooling system design. Topics include heating and cooling load estimating, basic psychometrics, equipment selection, duct system selection, and system design. Upon completion, students should be able to design a basic residential heating and cooling system.

Prerequisites: None. Corequisites: None.

When Offered: (Su)

AHR 212 - Advanced Comfort Systems

Hours--Class: 2 Lab: 6 Clinic/Work Exp: 0 Credit: 4

This course covers water-cooled comfort systems, water-source/geothermal heat pumps, and high efficiency heat pump systems including variable speed drives and controls. Emphasis is placed on the application, installation, and servicing of water-source systems and the mechanical and electronic control components of advanced comfort systems. Upon completion, students should be able to test, analyze, and troubleshoot water-cooled comfort systems, water-source/geothermal heat pumps, and high efficiency heat pumps.

Prerequisites: AHR 114. Corequisites: None.

When Offered: (F)

AHR 213 - HVACR Building Code

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course covers the North Carolina codes that are applicable to the design and installation of HVACR systems. Topics include current North Carolina codes as applied to HVACR design, service, and installation. Upon completion, students should be able to demonstrate the correct usage of North Carolina codes that apply to specific areas of the HVACR trade.

Prerequisites: None. Corequisites: None.

When Offered: (F)

Anthropology

ANT 220 - Cultural Anthropology

(GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the nature of human culture. Emphasis is placed on cultural theory, methods of fieldwork, and cross-cultural comparisons in the areas of ethnology, language, and the cultural past. Upon completion, students should be able to demonstrate an understanding of basic cultural processes and how cultural data are collected and analyzed.

Prerequisites: ENG 002. Corequisites: None.

When Offered: (F,S,On demand)

ANT 221 - Comparative Cultures

(GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides an ethnographic survey of societies around the world covering their distinctive cultural characteristics and how these relate to cultural change. Emphasis is placed on the similarities and differences in social institutions such as family, economics, politics, education, and religion.

Upon completion, students should be able to demonstrate knowledge of a variety of cultural adaptive strategies.

Prerequisites: ENG 002. Corequisites: None

When Offered: (On demand)

ANT 230 - Physical Anthropology (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the scientific study of human evolution and adaptation. Emphasis is placed on evolutionary theory, population genetics, biocultural adaptation and human variation, as well as non-human primate evolution, morphology, and behavior. Upon completion, students should be able to demonstrate an understanding of the biological and cultural processes which have resulted in the formation of the human species.

Prerequisites: ENG 002. Corequisites: None.

When Offered: (On demand)

Arabic

ARA 111 - Elementary Arabic I (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the fundamental elements of the modern standard Arabic language within the cultural context of Arabic-speaking people. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Arabic and demonstrate cultural awareness. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

ARA 112 - Elementary Arabic II (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course includes the basic fundamental elements of the modern standard Arabic language within the cultural context of Arabic-speaking people. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Arabic and demonstrate further cultural awareness. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement.

Prerequisites: ARA 111 must pass with a grade of C or higher.

Corequisites: None.

When Offered: (On demand)

Art

ART 111 - Art Appreciation (UGETC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the origins and historical development of art. Emphasis is placed on the relationship of design principles to various art forms, including but not limited to, sculpture, painting, and architecture. Upon completion, students should be able to identify and analyze a variety of artistic styles, periods, and media.

Prerequisites: None. Corequisites: None.

When Offered: (F, S, Su)

ART 113 - Art Methods and Materials (PM-ELEC)

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3

This course provides an overview of media and techniques. Emphasis is placed on exploration and manipulation of materials. Upon completion, students should be able to demonstrate familiarity

with a variety of methods, materials, and processes.

Prerequisites: None. Corequisites: None.

When Offered: (F,S)

ART 114 - Art History Survey I (UGETC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the development of art forms from ancient times to the Renaissance. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

ART 115 - Art History Survey II (UGETC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the development of art forms from the Renaissance to the present. Emphasis is placed on content, terminology, design, and style. Upon

completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development.

Prerequisites : None. Corequisites: None.

When Offered: (On demand)

ART 117 - Non-Western Art History (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces non-Western cultural perspectives. Emphasis is placed on, but not limited to, African, Oriental, and Oceanic art forms throughout history. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of non-Western social and cultural development.

Prerequisites: None. Corequisites: None.

When Offered: (F,S)

ART 118 - Art by Women (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides an analytical study of the works of representative female artists. Emphasis is placed on the historical and cultural contexts, themes, and aesthetic features of individual works. Upon completion, students should be able to interpret, analyze, and discuss selected works.

Prerequisites: None. Corequisites: None.

When Offered: (On Demand)

ART 121 - Two-Dimensional Design (PM-ELEC)

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3

This course introduces the elements and principles of design as applied to two-dimensional art. Emphasis is placed on the structural elements, the principles of visual organization, and the theories of color mixing and interaction. Upon completion, students should be able to understand and use critical and analytical approaches as they apply to two-dimensional visual art.

Prerequisites: None. Corequisites: None.

When Offered: (F,S)

ART 122 - Three-Dimensional Design (PM-ELEC)

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3

This course introduces basic studio problems in three-dimensional visual design. Emphasis is placed on the structural elements and organizational principles as applied to mass and space. Upon completion, students should be able to apply three-dimensional design concepts.

Prerequisites: None. Corequisites: None.

When Offered: (F,S)

ART 130 - Basic Drawing (PM-ELEC)

Hours--Class: 0 Lab: 4 Clinic/Work Exp: 0 Credit: 2

This course introduces basic drawing techniques and is designed to increase observation skills. Emphasis is placed on the fundamentals of drawing. Upon completion, students should be able to demonstrate various methods and their application to representational imagery.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

ART 131 - Drawing I (PM-ELEC)

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3

This course introduces the language of drawing and the use of various drawing materials. Emphasis is placed on drawing techniques, media, and graphic principles. Upon completion, students should be able to demonstrate competence in the use of graphic form and various drawing processes.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

ART 132 - Drawing II (PM-ELEC)

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3

This course continues instruction in the language of drawing and the use of various materials. Emphasis is placed on experimentation in the use of drawing techniques, media, and graphic materials. Upon completion, students should be able to demonstrate increased competence in the expressive use of graphic form and techniques.

Prerequisites: ART 131. Corequisites: None.

When Offered: (On demand)

ART 140 - Basic Painting**(PM-ELEC)**

Hours--Class: 0 Lab: 4 Clinic/Work Exp: 0 Credit: 2
 This course introduces the mechanics of painting. Emphasis is placed on the exploration of painting media through fundamental techniques. Upon completion, students should be able to demonstrate a basic understanding and application of painting.

Prerequisites: None. Corequisites: None.
 When Offered: (On demand)

ART 171 - Digital Design I**(PM-ELEC)**

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3
 This course is designed to introduce students to the elements and principles of design through the use of digital software. Emphasis is placed on developing composition and design skills using vector, raster, and time-based media. Upon completion, students should be able to identify and use tools in digital software, understand and utilize digital and artistic vocabulary, and employ the principles and elements of design to create artwork using digital means.

Prerequisites: None. Corequisites: None.
 When Offered: (On demand)

ART 212 - Gallery Assistantship I**(PM-ELEC)**

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3
 This course covers the practical application of display techniques. Emphasis is placed on preparation of artwork for installation, hardware systems, and exhibition graphics. Upon completion, students should be able to demonstrate basic gallery exhibition skills.

Prerequisites: None. Corequisites: None.
 When Offered: (F,S)

ART 214 - Portfolio and Resume**(PM-ELEC)**

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1
 This course covers resume writing, interview skills, and the preparation and presentation of an art portfolio. Emphasis is placed on the preparation of a portfolio of original artwork, the preparation of a photographic portfolio, approaches to resume writing, and interview techniques. Upon completion, students should be able to mount original art for portfolio presentation, photograph and display a professional slide portfolio, and write an effective resume.

Prerequisites: None. Corequisites: None.
 When Offered: (F,S)

ART 215 - Visual Art Portfolio**(PM-ELEC)**

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3
 This course covers the organization of a comprehensive body of work designed to showcase the visual artist's competencies in selected media and is intended for college transfer or professional advancement. Emphasis includes preparation for gallery exhibition, creation of a digital portfolio, and development of materials associated with best practices for showcasing artistic works, skills, and experience. Upon completion, students should be able to display a professional arrangement of work designed for entry into an advanced visual arts program, application for employment, or presentation to juried gallery exhibitions.

Prerequisites: None. Corequisites: None.
 When Offered: (S)

ART 222 - Wood Design I**(PM-ELEC)**

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3
 This course introduces the historical and contemporary design concepts and their application to the construction of functional and sculptural wood forms. Emphasis is placed on the mastery of hand and power tools. Upon completion, students should be able to demonstrate appropriate use of tools to create unique designs.

Prerequisites: None. Corequisites: None.
 When Offered: (F,S)

ART 231 - Printmaking I**(PM-ELEC)**

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3
 This course introduces printmaking: its history, development techniques, and processes. Emphasis is placed on basic applications with investigation into image source and development. Upon completion, students should be able to produce printed images utilizing a variety of methods.

Prerequisites: None. Corequisites: None.
 When Offered: (On demand)

ART 232 - Printmaking II**(PM-ELEC)**

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3
 This course includes additional methods and printmaking processes. Emphasis is placed on the printed image as related to method, source, and concept. Upon completion, students should be able to produce expressive images utilizing both traditional and innovative methods.

Prerequisites: ART 231. Corequisites: None.
 When Offered: (On demand)

ART 240 - Painting I**(PM-ELEC)**

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3
 This course introduces the language of painting and the use of various painting materials. Emphasis is placed on the understanding and use of various painting techniques, media, and color principles. Upon completion, students should be able to demonstrate competence in the use of creative processes directed toward the development of expressive form.

Prerequisites: None. Corequisites: None.
 When Offered: (On demand)

ART 241 - Painting II**(PM-ELEC)**

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3
 This course provides a continuing investigation of the materials, processes, and techniques of painting. Emphasis is placed on the exploration of expressive content using a variety of creative processes. Upon completion, students should be able to demonstrate competence in the expanded use of form and variety.

Prerequisites: ART 240. Corequisites: None.
 When Offered: (On demand)

ART 264 - Digital Photography I**(PM-ELEC)**

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3
 This course introduces digital photographic equipment, theory and processes. Emphasis is placed on camera operation, composition, computer photo manipulation and creative expression. Upon completion, students should be able to successfully expose, digitally manipulate, and print a well-conceived composition.

Prerequisites: None. Corequisites: None.
 When Offered: (Su)

ART 271 - Digital Design II**(PM-ELEC)**

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3
 This course includes advanced digital techniques in raster, vector, and time based media. Emphasis is based on creative application and integration of digital technologies. Upon completion, students should be able to demonstrate command of various digital systems to express their personal vision.

Prerequisites: ART 171. Corequisites: None.
 When Offered: (On demand)

ART 281 - Sculpture I**(PM-ELEC)**

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3
 This course provides an exploration of the creative and technical methods of sculpture with focus on the traditional processes. Emphasis is placed on developing basic skills as they pertain to three-dimensional expression in various media. Upon completion, students should be able to show competence in a variety of sculptural approaches.

Prerequisites: None. Corequisites: None.
 When Offered: (On demand)

ART 282 - Sculpture II**(PM-ELEC)**

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3
 This course builds on the visual and technical skills learned in ART 281. Emphasis is placed on developing original solutions to sculptural problems in a variety of media. Upon completion, students should be able to express individual ideas using the techniques and materials of sculpture.

Prerequisites: ART 281. Corequisites: None.
 When Offered: (On demand)

ART 283 - Ceramics I**(PM-ELEC)**

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3
 This course provides an introduction to three-dimensional design principles using the medium of clay. Emphasis is placed on fundamentals of forming, surface design, glaze application, and firing. Upon completion, students should be able to demonstrate skills in slab and coil construction, simple wheel forms, glaze technique, and creative expression.

Prerequisites: None. Corequisites: None.
 When Offered: (On demand)

ART 284 - Ceramics II**(PM-ELEC)**

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3

This course covers advanced hand building and wheel techniques. Emphasis is placed on creative expression, surface design, sculptural quality, and glaze effect. Upon completion, students should be able to demonstrate a high level of technical competence in forming and glazing with a development of three-dimensional awareness.

Prerequisites: ART 283. Corequisites: None.

When Offered: (On demand)

American Sign Language**ASL 111 - Elementary ASL I****(GENED)**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the fundamental elements of American Sign Language within a cultural context. Emphasis is placed on the development of basic expressive and receptive skills. Upon completion, students will be able to comprehend and respond with grammatical accuracy to expressive American Sign Language and demonstrate cultural awareness.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

ASL 112 - Elementary ASL II**(GENED)**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is a continuation of ASL 111 focusing on the fundamental elements of American Sign Language in a cultural context. Emphasis is placed on the progressive development of expressive and receptive skills. Upon completion, the students should be able to comprehend and respond with increasing accuracy to expressive American Sign Language and demonstrate cultural awareness.

Prerequisites: ASL 111. Corequisites: None.

When Offered: (On demand)

Astronomy**AST 151 - General Astronomy I****(UGETC)**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the science of modern astronomy with a concentration on the solar system. Emphasis is placed on the history and physics of astronomy and an introduction to the solar system, including the planets, comets, and meteors. Upon completion, students should be able to demonstrate a general understanding of the solar system. As astronomy is a branch of physics, an emphasis will be placed on the physics concepts underlying topics covered in this course.

Prerequisites: ENG 002, MAT 003. Corequisites: AST 151A.

When Offered: (F, S)

AST 151A - General Astronomy I Lab**(UGETC)**

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

The course is a laboratory to accompany AST 151. Emphasis is placed on laboratory experiences which enhance the materials presented in AST 151 and which provide practical experience. Upon completion, students should be able to demonstrate a general understanding of the solar system. Some day and evening observations will be required.

Prerequisites: None. Corequisites: AST 151.

When Offered: (F, S)

AST 152 - General Astronomy II**(GENED)**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is a continuation of AST 151 with primary emphasis beyond the solar system. Topics include the sun, stars, galaxies, and the larger universe, including cosmology. Upon completion, students should be able to demonstrate a working knowledge of astronomy. As astronomy is a branch of physics, an emphasis will be placed on the physics concepts underlying topics covered in this course.

Prerequisites: AST 151 must pass with a grade of C or higher.

Corequisites: AST 152A.

When Offered: (On demand)

AST 152A - General Astronomy II Lab**(GENED)**

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

The course is a laboratory to accompany AST 152. Emphasis is placed on laboratory experiences which enhance the materials presented in AST 152 and which provide practical experience. Upon completion, students should be able to demonstrate a working knowledge of astronomy. Some day and evening observations will be required.

Prerequisites: AST 151 must pass with a grade of C or higher.

Corequisites: AST 152.

When Offered: (On demand)

Automation**ATR 112 - Intro to Automation**

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course introduces the basic principles of automated systems and describes the tasks that technicians perform on the job. Topics include the history, development, and current applications of robots and automated systems including their configuration, operation, components, and controls. Upon completion, students should be able to understand the basic concepts of automation and robotic systems.

Prerequisites: MAT 003. Corequisites: ELC 112 or ELC 131.

When Offered: (S, on demand)

ATR 212 - Industrial Robots

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course covers the operation of industrial robots. Topics include the classification of robots, activators, grippers, work envelopes, computer interfaces, overlapping work envelopes, installation, and programming. Upon completion, students should be able to install, program, and troubleshoot industrial robots.

Prerequisites: None. Corequisites: None.

When Offered: (SU, On Demand)

Automotive**AUT 113 - Automotive Servicing I**

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 2

This course is a lab used as an alternative to co-op placement. Emphasis is placed on shop operations, troubleshooting, testing, adjusting, repairing, and replacing components using appropriate test equipment and service information. Upon completion, students should be able to perform a variety of automotive repairs using proper service procedures and to operate appropriate equipment.

Prerequisites: TRN 110, TRN 120. Corequisites: None.

When Offered: (SU)

AUT 116 - Engine Repair

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course covers the theory, construction, inspection, diagnosis, and repair of internal combustion engines and related systems. Topics include fundamental operating principles of engines and diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis, measurement, and repair of automotive engines using appropriate tools, equipment, procedures, and service information.

Prerequisites: TRN 110, TRN 120. Corequisites: AUT 116A.

When Offered: (F)

AUT 116A - Engine Repair Lab

Hours--Class: 0 Lab: 3 Clinic/Work Exp: 0 Credit: 1

This course is an optional lab to be used as an alternative to co-op placement in meeting the ASE Education Foundation standards for total hours. Topics include diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis, measurement, and repair of automotive engines using appropriate tools, equipment, procedures, and service information.

Prerequisites: None. Corequisites: AUT 116.

When Offered: (F)

AUT 141 - Suspension & Steering Sys

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course covers principles of operation, types, and diagnosis/repair of suspension and steering systems to include steering geometry. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students should be able to service and repair steering and suspension components, check and adjust alignment angles, repair tires, and balance wheels.

Prerequisites: TRN 110, TRN 120. Corequisites: AUT 141A.

When Offered: (S, SU)

AUT 141A - Suspension & Steering Lab

Hours--Class: 0 Lab: 3 Clinic/Work Exp: 0 Credit: 1

This course is an optional lab to be used as an alternative to co-op placement in meeting the ASE Education Foundation standards for total hours. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students

should be able to service and repair steering and suspension components, check and adjust alignment angles, repair tires, and balance wheels.

Prerequisites: None. Corequisites: AUT 141.

When Offered: (S, SU)

AUT 151 - Brake Systems

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course covers principles of operation and types, diagnosis, service, and repair of brake systems. Topics include drum and disc brakes involving hydraulic, vacuum boost, hydro-boost, electrically powered boost, and anti-lock and parking brake systems. Upon completion, students should be able to diagnose, service, and repair various automotive braking systems.

Prerequisites: TRN 110, TRN 120. Corequisites: AUT 151A.

When Offered: (S)

AUT 151A - Brake Systems Lab

Hours--Class: 0 Lab: 3 Clinic/Work Exp: 0 Credit: 1

This course is an optional lab to be used as an alternative to co-op placement in meeting the ASE Education Foundation standards for total hours. Topics include drum and disc brakes involving hydraulic, vacuum-boost, hydro-boost, electrically powered boost, and anti-lock, parking brake systems and emerging brake systems technologies. Upon completion, students should be able to diagnose, service, and repair various automotive braking systems.

Prerequisites: None. Corequisites: AUT 151.

When Offered: (S)

AUT 163 - Adv Auto Electricity

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course covers electronic theory, wiring diagrams, test equipment, and diagnosis, repair, and replacement of electronics, lighting, gauges, horn, wiper, accessories, and body modules. Topics include networking and module communication, circuit construction, wiring diagrams, circuit testing, and troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair wiring, lighting, gauges, accessories, modules, and electronic concerns.

Prerequisites: TRN 120. Corequisites: None.

When Offered: (S)

AUT 163A - Adv Auto Electricity Lab

Hours--Class: 0 Lab: 3 Clinic/Work Exp: 0 Credit: 1

This course is an optional lab to be used as an alternative to co-op placement in meeting the ASE Education Foundation standards for total hours. Topics include networking and module communication, circuit construction, wiring diagrams, circuit testing, troubleshooting and emerging electrical/electronic systems technologies. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair wiring, lighting, gauges, accessories, modules, and electronic concerns.

Prerequisites: None. Corequisites: AUT 163.

When Offered: (S)

AUT 181 - Engine Performance 1

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course covers the introduction, theory of operation, and basic diagnostic procedures required to restore engine performance to vehicles equipped with complex engine control systems. Topics include an overview of engine operation, ignition components and systems, fuel delivery, injection components and systems and emission control devices. Upon completion, students should be able to describe operation and diagnose/repair basic ignition, fuel and emission related driveability problems using appropriate test equipment/ service information.

Prerequisites: TRN 110, TRN 120. Corequisites: AUT 181A.

When Offered: (F)

AUT 181A - Engine Performance 1 Lab

Hours--Class: 0 Lab: 3 Clinic/Work Exp: 0 Credit: 1

This course is an optional lab to be used as an alternative to co-op placement in meeting the ASE Education Foundation standards for total hours. Topics include overviews of engine operation, ignition components and systems, fuel delivery, injection components and systems and emission control devices and emerging engine performance technologies. Upon completion, students should be able to describe operation and diagnose/repair basic ignition, fuel and emission related driveability problems using appropriate test equipment/service information.

Prerequisites: None. Corequisites: AUT 181.

When Offered: (F)

AUT 183 - Engine Performance 2

Hours--Class: 2 Lab: 6 Clinic/Work Exp: 0 Credit: 4

This course covers study of the electronic engine control systems, the diagnostic process used to locate engine performance concerns and procedures used to restore normal operation. Topics will include currently used fuels and fuel systems, exhaust gas analysis, emission control components and systems, OBD II (on-board diagnostics) and inter-related electrical/electronic systems. Upon completion, students should be able to diagnose and repair complex engine performance concerns using appropriate test equipment and service information.

Prerequisites: AUT 181. Corequisites: None.

When Offered: (S)

AUT 212 - Auto Shop Management

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the principles of management essential to decision-making, communication, authority, and leadership. Topics include shop supervision, shop organization, customer relations, cost effectiveness and work place ethics. Upon completion, students should be able to describe basic automotive shop operation from a management standpoint.

Prerequisites: None. Corequisites: None.

When Offered: (F)

AUT 221 - Auto Transm/Transaxles

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course covers operation, diagnosis, service, and repair of automatic transmissions/transaxles. Topics include hydraulic, pneumatic, mechanical, and electrical/electronic operation of automatic drive trains and the use of appropriate service tools and equipment. Upon completion, students should be able to explain operational theory, diagnose and repair automatic drive trains.

Prerequisites: TRN 110, TRN 120. Corequisites: AUT 221A.

When Offered: (S)

AUT 221A - Auto Transm/Transax Lab

Hours--Class: 0 Lab: 3 Clinic/Work Exp: 0 Credit: 1

This course is an optional lab to be used as an alternative to co-op placement in meeting the ASE Education Foundation standards for total hours. Topics include hydraulic, pneumatic, mechanical, and electrical/electronic operation of automatic drive trains and the use of appropriate service tools and equipment. Upon completion, students should be able to diagnose and repair automatic drive trains.

Prerequisites: None. Corequisites: AUT 221.

When Offered: (S)

AUT 231 - Man Trans/Axles/Drtrains

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course covers the operation, diagnosis, and repair of manual transmissions/transaxles, clutches, driveshafts, axles, and final drives. Topics include theory of torque, power flow, and manual drive train service and repair using appropriate service information, tools, and equipment. Upon completion, students should be able to explain operational theory, diagnose and repair manual drive trains.

Prerequisites: TRN 110. Corequisites: AUT 231A.

When Offered: (S)

AUT 231A - Man Trans/Ax/Drtrains Lab

Hours--Class: 0 Lab: 3 Clinic/Work Exp: 0 Credit: 1

This course is an optional lab for the program that needs to meet ASE Education Foundation hour standards but does not have a co-op component in the program. Topics include manual drive train diagnosis, service and repair using appropriate service information, tools, and equipment. Upon completion, students should be able to diagnose and repair manual drive trains.

Prerequisites: None. Corequisites: AUT 231.

When Offered: (S)

AUT 281 - Adv Engine Performance

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course utilizes service information and specialized test equipment to diagnose and repair power train control systems. Topics include computerized ignition, fuel and emission systems, related diagnostic tools and equipment, data communication networks, and service information. Upon completion, students should be able to perform diagnosis and repair.

Prerequisites: AUT 183. Corequisites: None.

When Offered: (Su)

Banking and Finance**BAF 143 - Financial Planning**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the perspectives, principles, and practices of financial planning. Topics include investment, retirement, tax, and estate planning. Upon completion, students should be able to understand the process that looks at a customer's financial picture and recommend strategies to achieve the customer's objectives.

Prerequisite: None. Corequisite: None.
When Offered: (S)

Biology**BIO 111 - General Biology I (UGETC)**

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course introduces the principles and concepts of biology. Emphasis is placed on basic biological chemistry, molecular and cellular biology, metabolism and energy transformation, genetics, evolution, and other related topics. Upon completion, students should be able to demonstrate understanding of life at the molecular and cellular levels.

Prerequisites: ENG 002. Corequisites: None.
When Offered: (F, S, On demand)

BIO 112 - General Biology II (UGETC)

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course is a continuation of BIO 111. Emphasis is placed on organisms, evolution, biodiversity, plant and animal systems, ecology, and other related topics. Upon completion, students should be able to demonstrate comprehension of life at the organismal and ecological levels.

Prerequisites: BIO 111, must pass with a grade of C or higher.
Corequisites: None.
When Offered: (F, S, On demand)

BIO 120 - Introductory Botany (GENED)

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course provides an introduction to the classification, relationships, structure, and function of plants. Topics include reproduction and development of seed and non-seed plants, levels of organization, form and function of systems, and a survey of major taxa. Upon completion, students should be able to demonstrate comprehension of plant form and function, including selected taxa of both seed and non-seed plants.

Prerequisites: BIO 111 (must pass with a grade of C or higher).
Corequisites: None.
When Offered: (S)

BIO 130 - Introductory Zoology (GENED)

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course provides an introduction to the classification, relationships, structure, and function of major animal phyla. Emphasis is placed on levels of organization, reproduction and development, comparative systems, and a survey of selected phyla. Upon completion, students should be able to demonstrate comprehension of animal form and function including comparative systems of selected groups.

Prerequisites: BIO 111 (must pass with a grade of C or higher).
Corequisites: None.
When Offered: (F)

BIO 140 - Environmental Biology (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces environmental processes and the influence of human activities upon them. Topics include ecological concepts, population growth, natural resources, and a focus on current environmental problems from scientific, social, political, and economic perspectives. Upon completion, students should be able to demonstrate an understanding of environmental interrelationships and of contemporary environmental issues.

Prerequisites: BIO 111 must pass with a grade of C or higher.
Corequisites: BIO 140A.
When Offered: (On demand)

BIO 140A - Environmental Biology Lab (GENED)

Hours--Class: 0 Lab: 3 Clinic/Work Exp: 0 Credit: 1

This course provides a laboratory component to complement BIO 140. Emphasis is placed on laboratory and field experience. Upon completion, students should be able to demonstrate a practical understanding of environmental interrelationships and of contemporary environmental issues.

Prerequisites: None. Corequisites: BIO 140.
When Offered: (On demand)

BIO 143 - Field Biology Minicourse (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course introduces the biological and physical components of a field environment. Emphasis is placed on a local field environment with extended field trips to other areas. Upon completion, students should be able to demonstrate an understanding of the biological and physical components of the specific biological environment.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

BIO 145 - Ecology (PM-ELEC)

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course provides an introduction to ecological concepts using an ecosystems approach. Topics include energy flow, nutrient cycling, succession, population dynamics, community structure, and other related topics. Upon completion, students should be able to demonstrate comprehension of basic ecosystem structure and dynamics.

Prerequisites: Take BIO 111. Corequisites: None.
When Offered: (On demand)

BIO 146 - Regional Natural History (PM-ELEC)

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course is an interdisciplinary and historical analysis of the natural resources of the region. Emphasis is placed on geology, climate, forest systems, watersheds, water resources, and fish and wildlife resources of the region. Upon completion, students should be able to demonstrate comprehension of the natural history and the integration of the natural resources of the region.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

BIO 155 - Nutrition (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the biochemistry of foods and nutrients with consideration of the physiological effects of specialized diets for specific biological needs. Topics include cultural, religious, and economic factors that influence a person's acceptance of food, as well as nutrient requirements of the various life stages. Upon completion, students should be able to identify the functions and sources of nutrients, the mechanisms of digestion, and the nutritional requirements of all age groups.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

BIO 163 - Basic Anat & Physiology (PM-ELEC)

Hours--Class: 4 Lab: 2 Clinic/Work Exp: 0 Credit: 5

This course provides a basic study of the structure and function of the human body. Topics include a basic study of the body systems as well as an introduction to homeostasis, cells, tissues, nutrition, acid-base balance, and electrolytes. Upon completion, students should be able to demonstrate a basic understanding of the fundamental principles of anatomy and physiology and their interrelationships.

Prerequisites: ENG 002. Corequisites: None.
When Offered: (F, S, On demand)

BIO 168 - Anatomy and Physiology I (PM-ELEC)

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course provides a comprehensive study of the anatomy and physiology of the human body. Topics include body organization, homeostasis, cytology, histology, and the integumentary, skeletal, muscular, and nervous systems and special senses. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. Successful completion of high school chemistry (C), or a higher level chemistry course is recommended prior to taking BIO 168.

Prerequisites: ENG 002. Corequisites: None.
When Offered: (F, S, On demand)

BIO 169 - Anatomy and Physiology II (PM-ELEC)

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course provides a continuation of the comprehensive study of the anatomy and physiology of the human body. Topics include the endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems as well as metabolism, nutrition, acid-base balance, and fluid and electrolyte balance. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships.

Prerequisites: BIO 168 must pass with a grade of C or higher.
Corequisites: None.
When Offered: (F, S, On demand)

BIO 175 - General Microbiology (PM-ELEC)

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course covers principles of microbiology with emphasis on microorganisms and human disease. Topics include an overview of microbiology and aspects of medical microbiology, identification and control of pathogens, disease transmission, host resistance, and immunity. Upon completion, students should be able to demonstrate knowledge of microorganisms and the disease process as well as aseptic and sterile techniques.

Prerequisites: BIO 111 or BIO 163 or BIO 168 (must pass with a grade of C or higher). Corequisites: None.

When Offered: (F, S, On demand)

BIO 224 - Local Flora Spring (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course provides an introduction to the identification of native plants. Emphasis is placed on spring wild flowers. Upon completion, students should be able to identify a variety of spring wild flowers and native plants.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

BIO 230 – Entomology (PM-ELEC)

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course covers the biology of insects. Topics include harmful and beneficial insects, their identification, classification, life cycles, behavior, distribution, economic importance, and the methods involved in collection and preservation. Upon completion, students should be able to identify common insects and describe their biology and ecology.

Prerequisites: BIO 112 must pass with a grade of C or higher. Corequisites: None.

When Offered: (On demand)

BIO 250 – Genetics (PM-ELEC)

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course covers principles of prokaryotic and eukaryotic cell genetics. Emphasis is placed on the molecular basis of heredity, chromosome structure, patterns of Mendelian and non-Mendelian inheritance, evolution, and biotechnological applications. Upon completion, students should be able to recognize and describe genetic phenomena and demonstrate knowledge of important genetic principles.

Prerequisites: BIO 112. Corequisites: None.

When Offered: (On demand)

BIO 275 – Microbiology (PM-ELEC)

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course covers principles of microbiology and the impact these organisms have on man and the environment. Topics include the various groups of microorganisms, their structure, physiology, genetics, microbial pathogenicity, infectious diseases, immunology, and selected practical applications. Upon completion, students should be able to demonstrate knowledge and skills including microscopy, aseptic technique, staining, culture methods, and identification of microorganisms.

Prerequisites: BIO 112 or BIO 163 or BIO 168 (must pass with a grade of C or higher). Corequisites: None.

When Offered: (F, S, On demand)

BIO 280 – Biotechnology (PM-ELEC)

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course provides experience in selected laboratory procedures. Topics include proper laboratory techniques in biology and chemistry. Upon completion, students should be able to identify laboratory techniques and instrumentation in basic biotechnology.

Prerequisites: BIO 111 or CHM 151 (must pass with a grade of C or higher).

Corequisites: None.

When Offered: (On demand)

Blueprint Reading**BPR 111 - Print Reading**

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course introduces the basic principles of print reading. Topics include line types, orthographic projections, dimensioning methods, and notes. Upon completion, students should be able to interpret basic prints and visualize the features of a part or system.

Prerequisites: None. Corequisites: None.

When Offered: (F,S, On Demand)

Business**BUS 110 - Introduction to Business (PM-ELEC)**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides a survey of the business world. Topics include the basic principles and practices of contemporary business. Upon completion, students should be able to demonstrate an understanding of business concepts as a foundation for studying other business subjects.

Prerequisites: None. Corequisites: None.

When Offered: (F)

BUS 115 - Business Law I (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the student to the legal and ethical framework of business. Contracts, negotiable instruments, the law of sales, torts, crimes, constitutional law, the Uniform Commercial Code, and the court systems are examined. Upon completion the student should be able to identify legal and ethical issues that arise in business decisions and the laws that apply to them.

Prerequisites: None. Corequisites: None.

When Offered: (S)

BUS 116 - Business Law II

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course includes the study of the legal and ethical framework of business. Business Organizations, property law, intellectual property law, agency and employment law, consumer law, secured transactions, and bankruptcy are examined. Upon completion, the student should be able to identify legal and ethical issues that arise in business decisions and the laws that apply to them.

Prerequisites: BUS 115. Corequisites: None.

When Offered: (On demand)

BUS 125 - Personal Finance

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides a study of individual and family financial decisions. Emphasis is placed on building useful skills in buying, managing finances, increasing resources, and coping with current economic conditions. Upon completion, students should be able to develop a personal financial plan.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

BUS 137 - Principles of Management (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is designed to be an overview of the major functions of management. Emphasis is placed on planning, organizing, controlling, directing, and communicating. Upon completion, students should be able to work as contributing members of a team utilizing these functions of management.

Prerequisites: None. Corequisites: None.

When Offered: (F)

BUS 139 - Entrepreneurship I

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides an introduction to the principles of entrepreneurship. Topics include self-analysis of entrepreneurship readiness, the role of entrepreneur in economic development, legal problems, organizational structure, sources of financing, budgeting, and cash flow. Upon completion, students should have an understanding of the entrepreneurial process and issues faced by entrepreneurs.

Prerequisites: None. Corequisites: None.

When Offered: (F)

BUS 153 - Human Resource Management

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the functions of personnel/human resource management within an organization. Topics include equal opportunity and the legal environment, recruitment and selection, performance appraisal, employee development, compensation planning, and employee relations. Upon completion, students should be able to anticipate and resolve human resource concerns.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

BUS 217 - Employment Law and Regs

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the principle laws and regulations affecting public and private organizations and their employees or prospective employees. Topics include fair employment practices, EEO, affirmative action, and employee rights and protections. Upon completion, students should be able

to evaluate organization policy for compliance and assure that decisions are not contrary to law.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

BUS 225 - Business Finance

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course provides an overview of business financial management. Emphasis is placed on financial statement analysis, time value of money, management of cash flow, risk and return, and sources of financing. Upon completion, students should be able to interpret and apply the principles of financial management.

Prerequisite(s): ACC 120. Corequisite(s): None.

When Offered: (S)

BUS 230 - Small Business Management

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the challenges of entrepreneurship including the startup and operation of a small business. Topics include market research techniques, feasibility studies, site analysis, financing alternatives, and managerial decision making. Upon completion, students should be able to develop a small business plan.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

BUS 240 - Business Ethics

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces contemporary and controversial ethical issues that face the business community. Topics include moral reasoning, moral dilemmas, law and morality, equity, justice and fairness, ethical standards, and moral development. Upon completion, students should be able to demonstrate an understanding of their moral responsibilities and obligations as members of the workforce and society.

Prerequisites: None. Corequisites: None.

When Offered: (S)

BUS 245 - Entrepreneurship II

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is designed to allow the student to develop a business plan. Topics include the need for a business plan, sections of the plan, writing the plan, and how to find assistance in preparing the plan. Upon completion, students should be able to design and implement a business plan based on sound entrepreneurship principles.

Prerequisites: BUS 139. Corequisites: None.

When Offered: (S)

BUS 253 - Leadership and Mgt Skills

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course includes a study of the qualities, behaviors, and personal styles exhibited by leaders. Emphasis is placed on coaching, counseling, team building, and employee involvement. Upon completion, students should be able to identify and exhibit the behaviors needed for organizational effectiveness.

Prerequisites: None. Corequisites: None.

When Offered: (S)

BUS 285 - Business Management Issues

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course covers contemporary issues that affect successful businesses and their managers and employees. Emphasis is placed on using case studies and exercises to develop analytical and problem-solving skills, ethics, quality management concepts, team skills, and effective communication. Upon completion, students should be able to apply the specific knowledge and skills covered to become more effective managers and employees.

Prerequisites: BUS 137. Corequisites: None.

When Offered: (S)

Cyber Crime Technology

CCT 240 - Data Recovery Techniques

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course introduces the unique skills and methodologies necessary to assist in the investigation and prosecution of cyber crimes. Topics include hardware and software issues, recovering erased files, overcoming encryption, advanced imaging, transient data, Internet issues and testimony considerations. Upon completion, students should be able to recover digital

evidence, extract information for criminal investigation and legally seize criminal evidence.

Prerequisites: SEC 110. Corequisites: None.

When Offered: (S)

Computer Engineering

CET 211 - Computer Upgrade/Repair II

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course covers concepts of repair, service, and upgrade of computers and peripherals in preparation for industry certification. Topics may include resolving resource conflicts and system bus specifications, configuration and troubleshooting peripherals, operating system configuration and optimization, and other related topics. Upon completion, students should be able to identify and resolve system conflicts and optimize system performance.

Prerequisites: CTS 120 must pass with a grade of C or higher.

Corequisites: None.

When Offered: (On demand)

Chinese

CHI 111 - Elementary Chinese I

(GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the fundamental elements of the Chinese language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Chinese and demonstrate cultural awareness.

Prerequisites: None. Corequisites: None.

When Offered: (F)

CHI 112 - Elementary Chinese II

(GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course includes the basic fundamentals of the Chinese language within a cultural context of the Chinese people and its history. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Chinese and demonstrate further cultural awareness.

Prerequisites: CHI 111 must pass with a grade of C or higher.

Corequisites: None.

When Offered: (S)

Chemistry

CHM 130 - Gen, Org, & Biochemistry

(PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides a survey of basic facts and principles of general, organic, and biochemistry. Topics include measurement, molecular structure, nuclear chemistry, solutions, acid-base chemistry, gas laws, and the structure, properties, and reactions of major organic and biological groups. Upon completion, students should be able to demonstrate an understanding of fundamental chemical concepts.

Prerequisites: ENG 002, MAT 003. Corequisites: CHM 130A.

When Offered: (F, S, On demand)

CHM 130A - Gen, Org, & Biochem Lab

(PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is a laboratory for CHM 130. Emphasis is placed on laboratory experiences that enhance materials presented in CHM 130. Upon completion, students should be able to utilize basic laboratory procedures and apply them to chemical principles presented in CHM 130.

Prerequisites: None. Corequisites: CHM 130.

When Offered: (F, S, On demand)

CHM 131 - Introduction to Chemistry

(GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the fundamental concepts of inorganic chemistry. Topics include measurement, matter and energy, atomic and molecular structure, nuclear chemistry, stoichiometry, chemical formulas and reactions, chemical bonding, gas laws, solutions, and acids and bases. Upon completion, students should be able to demonstrate a basic understanding of chemistry as it applies to other fields.

Prerequisites: ENG 002, MAT 003. Corequisites: CHM 131A.

When Offered: (F, S, On demand)

CHM 131A - Intro to Chemistry Lab**(GENED)**

Hours--Class: 0 Lab: 3 Clinic/Work Exp: 0 Credit: 1

This course is a laboratory to accompany CHM 131. Emphasis is placed on laboratory experiences that enhance materials presented in CHM 131. Upon completion, students should be able to utilize basic laboratory procedures and apply them to chemical principles presented in CHM 131.

Prerequisites: None. Corequisites: CHM 131.
When Offered: (F, S, On demand)

CHM 132 - Organic and Biochemistry**(GENED)**

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course provides a survey of major functional classes of compounds in organic and biochemistry. Topics include structure, properties, and reactions of the major organic and biological molecules and basic principles of metabolism. Upon completion, students should be able to demonstrate an understanding of fundamental chemical concepts needed to pursue studies in related professional fields.

Prerequisites: CHM 131 and CHM 131A must pass with a grade of C or higher; or CHM 151 must pass with a grade of C or higher. Corequisites: None.
When Offered: (On demand)

CHM 151 - General Chemistry I**(UGETC)**

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course covers fundamental principles and laws of chemistry. Topics include measurement, atomic and molecular structure, periodicity, chemical reactions, chemical bonding, stoichiometry, thermochemistry, gas laws, and solutions. Upon completion, students should be able to demonstrate an understanding of fundamental chemical laws and concepts as needed in CHM 152. Successful completion of high school chemistry (C), or a higher level chemistry course is recommended prior to taking CHM 151.

Prerequisites: ENG 002, MAT 003. Corequisites: None.
When Offered: (F, S, On demand)

CHM 152 - General Chemistry II**(UGETC)**

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course provides a continuation of the study of the fundamental principles and laws of chemistry. Topics include kinetics, equilibrium, ionic and redox equations, acid-base theory, electrochemistry, thermodynamics, introduction to nuclear and organic chemistry, and complex ions. Upon completion, students should be able to demonstrate an understanding of chemical concepts as needed to pursue further study in chemistry and related professional fields.

Prerequisites: CHM 151 must pass with a grade of C or higher. Corequisites: None.
When Offered: (S, On demand)

CHM 251 - Organic Chemistry I**(PM-ELEC)**

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course provides a systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of hydrocarbons, alkyl halides, alcohols, and ethers; further topics include isomerization, stereochemistry, and spectroscopy. Upon completion, students should be able to demonstrate an understanding of the fundamental concepts of covered organic topics as needed in CHM 252.

Prerequisites: CHM 152 must pass with a grade of C or higher. Corequisites: None.
When Offered: (F)

CHM 252 - Organic Chemistry II**(PM-ELEC)**

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course provides continuation of the systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of aromatics, aldehydes, ketones, carboxylic acids and derivatives, amines and heterocyclics; multi-step synthesis will be emphasized. Upon completion, students should be able to demonstrate an understanding of organic concepts as needed to pursue further study in chemistry and related professional fields.

Prerequisites: CHM 251 must pass with a grade of C or higher. Corequisites: None.
When Offered: (S)

Computer Information Systems**CIS 110 - Introduction to Computers****(GENED)**

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces computer concepts, including fundamental functions and operations of the computer. Topics include identification of hardware components, basic computer operations, security issues, and use of software applications. Upon completion, students should be able to demonstrate an understanding of the role and function of computers and use the computer to solve problems.

Prerequisites: None Corequisites: None.
When Offered: (F, S, SU)

CIS 111 - Basic PC Literacy

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course provides an overview of computer concepts. Emphasis is placed on the use of personal computers and software applications for personal and fundamental workplace use. Upon completion, students should be able to demonstrate basic personal computer skills.

Prerequisites: None. Corequisites: None.
When Offered: (F, S)

CIS 115 - Intro to Prog & Logic**(GENED)**

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course introduces computer programming and problem solving in a structured program logic environment. Topics include language syntax, data types, program organization, problem solving methods, algorithm design, and logic control structures. Upon completion, students should be able to use top-down algorithm design and implement algorithmic solutions in a programming language.

Prerequisites: MAT 003. Corequisites: None.
When Offered: (F)

Criminal Justice**CJC 110 - Basic Law Enforcement BLET**

Hours--Class: 10 Lab: 30 Clinic/Work Exp: 0 Credit: 20

This course covers the basic skills and knowledge needed for entry-level employment as a law enforcement officer in North Carolina. Topics include those mandated by North Carolina Administration Code as essential for functioning in law enforcement. Upon completion, the student should be able to demonstrate competence in the topics required for the state comprehensive certification examination.

Prerequisites: Completion of admission process for BLET. Corequisites: None.
When Offered: (F,S)

CJC 111 - Intro to Criminal Justice**(PM-ELEC)**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the components and processes of the criminal justice system. Topics include history, structure, functions, and philosophy of the criminal justice system and their relationship to life in our society. Upon completion, students should be able to define and describe the major system components and their interrelationships and evaluate career options.

Prerequisites: None. Corequisites: None
When Offered: (F)

CJC 112 - Criminology

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces deviant behavior as it relates to criminal activity. Topics include theories of crime causation; statistical analysis of criminal behavior; past, present, and future social control initiatives; and other related topics. Upon completion, students should be able to explain and discuss various theories of crime causation and societal response.

Prerequisites: None. Corequisites: None.
When Offered: (S)

CJC 113 - Juvenile Justice**(PM-ELEC)**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the juvenile justice system and related juvenile issues. Topics include an overview of the juvenile justice system, treatment and prevention programs, special areas and laws unique to juveniles, and other related topics. Upon completion, students should be able to identify/discuss juvenile court structure/procedures, function and jurisdiction of juvenile agencies, processing/ detention of juveniles, and case disposition.

Prerequisites: None. Corequisites: None.
When Offered: (F)

CJC 115 - Crime Scene Photography

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course covers methodologies for photographing crime scenes including their application to forensic sciences, the legal system, and the proper use of digital cameras and accessories. Topics include digital cameras, operational functions required to properly photograph physical evidence and crime scenes, factors affecting admissibility of crime scene photographs, and methods and techniques specific to photographing crime scenes. Upon completion, students should be able to operate digital cameras using appropriate settings to control exposure and depth of field, properly compose various types of crime scene photographs, and use specialized techniques to properly photograph key items of evidence.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

CJC 121 - Law Enforcement Operations (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces fundamental law enforcement operations. Topics include the contemporary evolution of law enforcement operations and related issues. Upon completion, students should be able to explain theories, practices, and issues related to law enforcement operations.

Prerequisites: None. Corequisites: None.
When Offered: (S)

CJC 131 - Criminal Law

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the history/evolution/principles and contemporary applications of criminal law. Topics include sources of substantive law, classification of crimes, parties to crime, elements of crimes, matters of criminal responsibility, and other related topics. Upon completion, students should be able to discuss the sources of law and identify, interpret, and apply the appropriate statutes/elements.

Prerequisites: None. Corequisites: None.
When Offered: (F)

CJC 132 - Court Procedure & Evidence

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers judicial structure/process/procedure from incident to disposition, kinds and degrees of evidence, and the rules governing admissibility of evidence in court. Topics include consideration of state and federal courts, arrest, search and seizure laws, exclusionary and statutory rules of evidence, and other related issues. Upon completion, students should be able to identify and discuss procedures necessary to establish a lawful arrest/search, proper judicial procedures, and the admissibility of evidence.

Prerequisites: None. Corequisites: None.
When Offered: (F)

CJC 141 - Corrections (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the history, major philosophies, components, and current practices and problems of the field of corrections. Topics include historical evolution, functions of the various components, alternatives to incarceration, treatment programs, inmate control, and other related topics. Upon completion, students should be able to explain the various components, processes, and functions of the correctional system.

Prerequisites: None. Corequisites: None.
When Offered: (S)

CJC 144 - Crime Scene Processing

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course introduces the theories and practices of crime scene processing and investigating. Topics include legal considerations at the crime scene, processing indoor and outdoor scenes, recording, note taking, collection and preservation of evidence and submission to the crime laboratory. Upon completion, the student should be able to evaluate and search various crime scenes and demonstrate the appropriate techniques.

Prerequisites: None. Corequisites: None.
When Offered: (S)

CJC 146 - Trace Evidence

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course provides a study of trace evidence as it relates to forensic science. Topics include collection, packaging, and preservation of trace evidence from crime scenes such as bombings, fires and other scenes. Upon completion, students should be able to demonstrate the fundamental concepts of trace evidence collection, preservation and submission to the crime laboratory.

Prerequisites: None. Corequisites: None.
When Offered: (F)

CJC 151 - Intro to Loss Prevention

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the concepts and methods related to commercial and private security systems. Topics include the historical, philosophical, and legal basis of security, with emphasis on security surveys, risk analysis, and associated functions. Upon completion, students should be able to demonstrate and understand security systems, risk management, and the laws relative to loss prevention.

Prerequisites: None. Corequisites: None.
When Offered: (S)

CJC 160 - Terrorism: Underlying Issues

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course identifies the fundamental reasons why America is a target for terrorists, covering various domestic/international terrorist groups and ideologies from a historical aspect. Emphasis is placed upon recognition of terrorist crime scene; weapons of mass destruction; chemical, biological, and nuclear terrorism; and planning consideration involving threat assessments. Upon completion, the student should be able to identify and discuss the methods used in terrorists' activities and complete a threat assessment for terrorists' incidents.

Prerequisites: None. Corequisites: None.
When Offered: (F)

CJC 212 - Ethics & Comm Relations (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers ethical considerations and accepted standards applicable to criminal justice organizations and professionals. Topics include ethical systems; social change, values, and norms; cultural diversity; citizen involvement in criminal justice issues; and other related topics. Upon completion, students should be able to apply ethical considerations to the decision-making process in identifiable criminal justice situations.

Prerequisites: None. Corequisites: None.
When Offered: (S)

CJC 215 - Organization & Administration

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the components and functions of organization and administration as it applies to the agencies of the criminal justice system. Topics include operations/functions of organizations; recruiting, training, and retention of personnel; funding and budgeting; communications; span of control and discretion; and other related topics. Upon completion, students should be able to identify and discuss the basic components and functions of a criminal justice organization and its administrative operations.

Prerequisites: None. Corequisites: None.
When Offered: (F)

CJC 221 - Investigative Principles

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course introduces the theories and fundamentals of the investigative process. Topics include crime scene/incident processing, information gathering techniques, collection/preservation of evidence, preparation of appropriate reports, court presentations, and other related topics. Upon completion, students should be able to identify, explain, and demonstrate the techniques of the investigative process, report preparation, and courtroom presentation.

Prerequisites: None. Corequisites: None.
When Offered: (S)

CJC 222 - Criminalistics

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the functions of the forensic laboratory and its relationship to successful criminal investigations and prosecutions. Topics include advanced crime scene processing, investigative techniques, current forensic technologies, and other related topics. Upon completion, students should be able to identify and collect relevant evidence at simulated crime scenes and request appropriate laboratory analysis of submitted evidence.

Prerequisites: None. Corequisites: None.
When Offered: (S)

CJC 225 - Crisis Intervention

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces critical incident intervention and management techniques as they apply to operational criminal justice practitioners. Emphasis is placed on the victim/offender situation as well as job-related high stress, dangerous, or problem-solving citizen contacts. Upon completion, students should be able to provide insightful analysis of

emotional, violent, drug induced, and other critical and/or stressful incidents that require field analysis and/or resolution.

Prerequisites: None. Corequisites: None.
When Offered: (S)

CJC 231 - Constitutional Law

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

The course covers the impact of the Constitution of the United States and its amendments on the criminal justice system. Topics include the structure of the Constitution and its amendments, court decisions pertinent to contemporary criminal justice issues, and other related topics. Upon completion, students should be able to identify/discuss the basic structure of the United States Constitution and the rights/procedures as interpreted by the courts.

Prerequisites: None. Corequisites: None.
When Offered: (F)

CJC 245 - Friction Ridge Analysis

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course introduces the basic elements of fingerprint technology and techniques applicable to the criminal justice field. Topics include the history and meaning of fingerprints, pattern types and classification, filing sequence, searching and referencing. Upon completion, students should be able to discuss and demonstrate the fundamental techniques of basic fingerprint technology.

Prerequisites: None. Corequisites: None.
When Offered: (F)

CJC 246 - Adv. Friction Ridge Analy

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course introduces the theories and processes of advanced friction ridge analysis. Topics include evaluation of friction ridges, chart preparation, comparative analysis for valued determination rendering proper identification, chemical enhancement and AFIS preparation and usage. Upon completion, students must show an understanding of proper procedures for friction ridge analysis through written testing and practical exercises.

Prerequisites: CJC 245. Corequisites: None.
When Offered: (S)

CJC 250 - Forensic Biology I

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course covers important biological principles that are applied in the crime laboratory. Topics include forensic toxicology, forensic serology, microscopy, and DNA typing analysis, with an overview of organic and inorganic analysis. Upon completion, students should be able to articulate how a crime laboratory processes physical evidence submitted by law enforcement agencies.

Prerequisites: None. Corequisites: None.
When Offered: (S)

CJC 251 - Forensic Chemistry I

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course provides a study of the fundamental concepts of chemistry as it relates to forensic science. Topics include physical and chemical properties of substances, metric measurements, chemical changes, elements, compounds, gases, and atomic structure. Upon completion, students should be able to demonstrate an understanding of the fundamental concepts of forensic chemistry.

Prerequisites: None. Corequisites: None.
When Offered: (S)

Communication

COM 110 - Introduction to Communication (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides an overview of the basic concepts of communication and the skills necessary to communicate in various contexts. Emphasis is placed on communication theories and techniques used in interpersonal group, public, intercultural, and mass communication situations. Upon completion, students should be able to explain and illustrate the forms and purposes of human communication in a variety of contexts.

Prerequisites: None. Corequisites: ENG 111.
When Offered: (F, S, SU)

COM 120 - Intro Interpersonal Com (UGETC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the practices and principles of interpersonal communication in both dyadic and group settings. Emphasis is placed on the

communication process, perception, listening, self-disclosure, speech apprehension, ethics, nonverbal communication, conflict, power, and dysfunctional communication relationships. Upon completion, students should be able to demonstrate interpersonal communication skills, apply basic principles of group discussion, and manage conflict in interpersonal communication situations.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

COM 231 - Public Speaking (UGETC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides instruction and experience in preparation and delivery of speeches within a public setting and group discussion. Emphasis is placed on research, preparation, delivery, and evaluation of informative, persuasive, and special occasion public speaking. Upon completion, students should be able to prepare and deliver well-organized speeches and participate in group discussion with appropriate audiovisual support.

Prerequisites: None. Corequisites: ENG 111.
When Offered: (F, S, SU)

COM 251 - Debate I (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the principles of debate. Emphasis is placed on argument, refutation, research, and logic. Upon completion, students should be able to use research skills and logic in the presentation of ideas within the context of formal debate.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

Cosmetology

COS 111 - Cosmetology Concepts I

Hours--Class: 4 Lab: 0 Clinic/Work Exp: 0 Credit: 4

This course introduces basic cosmetology concepts. Topics include safety, first aid, sanitation, bacteriology, anatomy, diseases and disorders, hygiene, product knowledge, chemistry, ethics, manicures, and other related topics. Upon completion, students should be able to safely and competently apply cosmetology concepts in the salon setting.

Prerequisite: None. Corequisite: COS 112.
When Offered: (F,S)

COS 111AB - Cosmetology Concepts I-AB

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course introduces basic cosmetology concepts. Topics include safety, first aid, sanitation, bacteriology, anatomy, diseases and disorders, hygiene, product knowledge, chemistry, ethics, manicures, and other related topics. Upon completion, students should be able to safely and competently apply cosmetology concepts in the salon setting.

Prerequisite: None. Corequisite: COS 112AB.
When Offered: (F)

COS 111BB - Cosmetology Concepts I-BB

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course introduces basic cosmetology concepts. Topics include safety, first aid, sanitation, bacteriology, anatomy, diseases and disorders, hygiene, product knowledge, chemistry, ethics, manicures, and other related topics. Upon completion, students should be able to safely and competently apply cosmetology concepts in the salon setting.

Prerequisites: None. Corequisites: COS 112BB.
When Offered: (S)

COS 112 - Salon I

Hours--Class: 0 Lab: 24 Clinic/Work Exp: 0 Credit: 8

This course introduces basic salon services. Topics include scalp treatments, shampooing, rinsing, hair color, design, haircutting, permanent waving, pressing, relaxing, wigs, and other related topics. Upon completion, students should be able to safely and competently demonstrate salon services.

Prerequisites: None. Corequisites: COS 111.
When Offered: (F,S)

COS 112AB - Salon I-AB

Hours--Class: 0 Lab: 12 Clinic/Work Exp: 0 Credit: 4

This course introduces basic salon services. Topics include scalp treatments, shampooing, rinsing, hair color, design, haircutting, permanent waving, pressing, relaxing, wigs, and other related topics. Upon completion, students should be able to safely and competently demonstrate salon services.

Prerequisites: None. Corequisites: COS 111AB.
When Offered: (F)

COS 112BB - Salon I-BB

Hours--Class: 0 Lab: 12 Clinic/Work Exp: 0 Credit: 4

This course introduces basic salon services. Topics include scalp treatments, shampooing, rinsing, hair color, design, haircutting, permanent waving, pressing, relaxing, wigs, and other related topics. Upon completion, students should be able to safely and competently demonstrate salon services.

Prerequisites: None. Corequisites: COS 111BB.
When Offered: (S)

COS 113 - Cosmetology Concepts II

Hours--Class: 4 Lab: 0 Clinic/Work Exp: 0 Credit: 4

This course covers more comprehensive cosmetology concepts. Topics include safety, product knowledge, chemistry, manicuring, chemical restructuring, and hair coloring. Upon completion, students should be able to safely and competently apply these cosmetology concepts in the salon setting.

Prerequisites: COS 111 and COS 112, must pass with a grade of C or higher.
Corequisites: COS 114, ENG 111.
When Offered: (S)

COS 113AB - Cosmetology Concepts II-AB

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course covers more comprehensive cosmetology concepts. Topics include safety, product knowledge, chemistry, manicuring, chemical restructuring, and hair coloring. Upon completion, students should be able to safely and competently apply these cosmetology concepts in the salon setting.

Prerequisites: COS 111AB and COS 112AB, must pass with a grade of C or higher.
Corequisites: COS 114AB, ENG 111.
When Offered: (F,SU)

COS 113BB - Cosmetology Concepts II-BB

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course covers more comprehensive cosmetology concepts. Topics include safety, product knowledge, chemistry, manicuring, chemical restructuring, and hair coloring. Upon completion, students should be able to safely and competently apply these cosmetology concepts in the salon setting.

Prerequisites: COS 111BB and COS 112BB, must pass with a grade of C or higher.
Corequisites: COS 114BB, ENG 111.
When Offered: (F,S)

COS 114 - Salon II

Hours--Class: 0 Lab: 24 Clinic/Work Exp: 0 Credit: 8

This course provides experience in a simulated salon setting. Topics include basic skin care, manicuring, nail application, scalp treatments, shampooing, rinsing, hair color, design, haircutting, chemical restructuring, pressing, wigs, and other related topics. Upon completion, students should be able to safely and competently demonstrate these salon services.

Prerequisites: COS 111 and COS 112, must pass with a grade of C or higher.
Corequisites: COS 113.
When Offered: (S)

COS 114AB - Salon II-AB

Hours--Class: 0 Lab: 12 Clinic/Work Exp: 0 Credit: 4

This course provides experience in a simulated salon setting. Topics include basic skin care, manicuring, nail application, scalp treatments, shampooing, rinsing, hair color, design, haircutting, chemical restructuring, pressing, wigs, and other related topics. Upon completion, students should be able to safely and competently demonstrate these salon services.

Prerequisites: COS 111AB and COS 112AB, must pass with a grade of C or higher.
Corequisites: COS 113AB.
When Offered: (F,S)

COS 114BB - Salon II-BB

Hours--Class: 0 Lab: 12 Clinic/Work Exp: 0 Credit: 4

This course provides experience in a simulated salon setting. Topics include basic skin care, manicuring, nail application, scalp treatments, shampooing, rinsing, hair color, design, haircutting, chemical restructuring, pressing, wigs, and other related topics. Upon completion, students should be able to safely and competently demonstrate these salon services.

Prerequisites: COS 111BB and COS 112BB, must pass with a grade of C or higher.
Corequisites: COS 113BB.
When Offered: (F,S)

COS 115 - Cosmetology Concepts III

Hours--Class: 4 Lab: 0 Clinic/Work Exp: 0 Credit: 4

This course covers more comprehensive cosmetology concepts. Topics include safety, product knowledge, salon management, salesmanship, skin

care, electricity/light therapy, wigs, thermal hair styling, lash and brow tinting, superfluous hair removal, and other related topics. Upon completion, students should be able to safely and competently apply these cosmetology concepts in the salon setting.

Prerequisites: COS 111 and COS 112, must pass with a grade of C or higher.
Corequisites: COS 116.
When Offered: (SU)

COS 115AB - Cosmetology Concepts III-AB

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course covers more comprehensive cosmetology concepts. Topics include safety, product knowledge, salon management, salesmanship, skin care, electricity/light therapy, wigs, thermal hair styling, lash and brow tinting, superfluous hair removal, and other related topics. Upon completion, students should be able to safely and competently apply these cosmetology concepts in the salon setting.

Prerequisites: COS 111 and COS 112, must pass with a grade of C or higher.
Corequisites: COS 116AB.
When Offered: (F)

COS 115BB - Cosmetology Concepts III-BB

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course covers more comprehensive cosmetology concepts. Topics include safety, product knowledge, salon management, salesmanship, skin care, electricity/light therapy, wigs, thermal hair styling, lash and brow tinting, superfluous hair removal, and other related topics. Upon completion, students should be able to safely and competently apply these cosmetology concepts in the salon setting.

Prerequisites: COS 111 and COS 112, must pass with a grade of C or higher.
Corequisites: COS 116BB.
When Offered: (S)

COS 116 - Salon III

Hours--Class: 0 Lab: 12 Clinic/Work Exp: 0 Credit: 4

This course provides comprehensive experience in a simulated salon setting. Emphasis is placed on intermediate-level of skin care, manicuring, scalp treatments, shampooing, hair color, design, haircutting, chemical restructuring, pressing, and other related topics. Upon completion, students should be able to safely and competently demonstrate these salon services.

Prerequisites: COS 111 and COS 112, must pass with a grade of C or higher.
Corequisites: COS 115.
When Offered: (SU)

COS 116AB - Salon III-AB

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 2

This course provides comprehensive experience in a simulated salon setting. Emphasis is placed on intermediate-level of skin care, manicuring, scalp treatments, shampooing, hair color, design, haircutting, chemical restructuring, pressing, and other related topics. Upon completion, students should be able to safely and competently demonstrate these salon services.

Prerequisites: COS 111 and COS 112, must pass with a grade of C or higher.
Corequisites: COS 115AB.
When Offered: (F)

COS 116BB - Salon III-BB

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 2

This course provides comprehensive experience in a simulated salon setting. Emphasis is placed on intermediate-level of skin care, manicuring, scalp treatments, shampooing, hair color, design, haircutting, chemical restructuring, pressing, and other related topics. Upon completion, students should be able to safely and competently demonstrate these salon services.

Prerequisites: COS 111 and COS 112, must pass with a grade of C or higher.
Corequisites: COS 115BB.
When Offered: (S)

COS 117 - Cosmetology Concepts IV

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course covers advanced cosmetology concepts. Topics include chemistry and hair structure, advanced cutting and design, and an overview of all cosmetology concepts in preparation for the licensing examination. Upon completion, students should be able to demonstrate an understanding of these cosmetology concepts and meet program completion requirements.

Prerequisites: COS 111 and COS 112, must pass with a grade of C or higher.
Corequisites: COS 118, PSY 150, and WBL 110.
When Offered: (F)

COS 117AB - Cosmetology Concepts IV-AB

Hours--Class: 1 Lab: 0 Clinic/Work Exp: 0 Credit: 1
 This course covers advanced cosmetology concepts. Topics include chemistry and hair structure, advanced cutting and design, and an overview of all cosmetology concepts in preparation for the licensing examination. Upon completion, students should be able to demonstrate an understanding of these cosmetology concepts and meet program completion requirements.
 Prerequisites: COS 111 and COS 112, must pass with a grade of C or higher.
 Corequisites: COS 118AB.
 When Offered: (S)

COS 117BB - Cosmetology Concepts IV-BB

Hours--Class: 1 Lab: 0 Clinic/Work Exp: 0 Credit: 1
 This course covers advanced cosmetology concepts. Topics include chemistry and hair structure, advanced cutting and design, and an overview of all cosmetology concepts in preparation for the licensing examination. Upon completion, students should be able to demonstrate an understanding of these cosmetology concepts and meet program completion requirements.
 Prerequisites: COS 111 and COS 112, must pass with a grade of C or higher.
 Corequisites: COS 118BB, PSY 150, and WBL 110.
 When Offered: (SU)

COS 118 - Salon IV

Hours--Class: 0 Lab: 21 Clinic/Work Exp: 0 Credit: 7
 This course provides advanced experience in a simulated salon setting. Emphasis is placed on efficient and competent delivery of all salon services in preparation for the licensing examination and employment. Upon completion, students should be able to demonstrate competence in program requirements and the areas covered on the Cosmetology Licensing Examination and meet entry-level employment requirements.
 Prerequisites: COS 111 and COS 112, must pass with a grade of C or higher.
 Corequisites: COS 117.
 When Offered: (F)

COS 118AB - Salon IV-AB

Hours--Class: 0 Lab: 12 Clinic/Work Exp: 0 Credit: 4
 This course provides advanced experience in a simulated salon setting. Emphasis is placed on efficient and competent delivery of all salon services in preparation for the licensing examination and employment. Upon completion, students should be able to demonstrate competence in program requirements and the areas covered on the Cosmetology Licensing Examination and meet entry-level employment requirements.
 Prerequisites: COS 111 and COS 112, must pass with a grade of C or higher.
 Corequisites: COS 117AB.
 When Offered: (S)

COS 118BB - Salon IV-BB

Hours--Class: 0 Lab: 9 Clinic/Work Exp: 0 Credit: 3
 This course provides advanced experience in a simulated salon setting. Emphasis is placed on efficient and competent delivery of all salon services in preparation for the licensing examination and employment. Upon completion, students should be able to demonstrate competence in program requirements and the areas covered on the Cosmetology Licensing Examination and meet entry-level employment requirements.
 Prerequisites: COS 111 and COS 112, must pass with a grade of C or higher.
 Corequisites: COS 117BB.
 When Offered: (SU)

Computer Science**CSC 118 - Swift Programming I**

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3
 This course introduces the development of iOS applications and Apple applications using Swift programming language. Emphasis is placed on syntax, object-oriented principles, memory management, and functional concepts of Swift programming. Upon completion, students should be able to develop fully functional iOS and Apple applications using Swift programming language.
 Prerequisites: None. Corequisites: None.
 When Offered: (S)

CSC 134 - C++ Programming (PM-ELEC)

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3
 This course introduces computer programming using the C++ programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the

class debugger. Upon completion, students should be able to design, code, test and debug at a beginning level.

Prerequisites: None. Corequisites: None.
 When Offered: (F,S,SU)

CSC 139 - Visual BASIC Programming (PM-ELEC)

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3
 This course introduces computer programming using the Visual BASIC programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test and debug at a beginning level.

Prerequisites: None. Corequisites: None.
 When Offered: (F)

CSC 151 - JAVA Programming (PM-ELEC)

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3
 This course introduces computer programming using the JAVA programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion students should be able to design, code, test, debug JAVA language programs.

Prerequisites: None. Corequisites: None.
 When Offered: (S)

CSC 251 - Advanced JAVA Programming (PM-ELEC)

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3
 This course is a continuation of CSC 151 using the JAVA programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment.

Prerequisites: CSC 151. Corequisites: None.
 When Offered: (F)

CSC 289 - Programming Capstone Project

Hours--Class: 1 Lab: 4 Clinic/Work Exp: 0 Credit: 3
 This course provides an opportunity to complete a significant programming project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, testing, presentation, and implementation. Upon completion, students should be able to complete a project from the definition phase through implementation.

Prerequisites: CTI 110, CTI 120, CTS 115, CTS 285, CSC 118, CSC 139, and CSC 251. Corequisites: None.
 When Offered: (S)

Computer Tech Integration**CTI 110 - Web, Pgm, & Db Foundation**

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3
 This course covers the introduction of the tools and resources available to students in programming, mark-up language and services on the Internet. Topics include standard mark-up language Internet services, creating web pages, using search engines, file transfer programs; and database design and creation with DBMS products. Upon completion students should be able to demonstrate knowledge of programming tools, deploy a web-site with mark-up tools, and create a simple database table.

Prerequisites: None. Corequisites: None.
 When Offered: (F,S)

CTI 120 - Network & Sec Foundation

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3
 This course introduces students to the Network concepts, including networking terminology and protocols, local and wide area networks, and network standards. Emphasis is placed on securing information systems and the various implementation policies. Upon completion, students should be able to perform basic tasks related to networking mathematics, terminology, media and protocols.

Prerequisites: None. Corequisites: None.
 When Offered: (F,S)

Computer Information Technology**CTS 115 - Info Sys Business Concept (PM-ELEC)**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the role of IT in managing business processes and the need for business process and IT alignment. Emphasis is placed on industry need for understanding business challenges and developing/managing information systems to contribute to the decision making process based on these challenges. Upon completion, students should be able to demonstrate knowledge of the 'hybrid business manager' and the potential offered by new technology and systems.

Prerequisites: None. Corequisites: None.

When Offered: (F)

CTS 120 - Hardware/Software Support

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course covers the basic hardware of a personal computer, including installation, operations and interactions with software. Topics include component identification, memory-system, peripheral installation and configuration, preventive maintenance, hardware diagnostics/repair, installation and optimization of system software, commercial programs, system configuration, and device-drivers. Upon completion, students should be able to select appropriate computer equipment and software, upgrade/maintain existing equipment and software, and troubleshoot/repair non-functioning personal computers.

Prerequisites: None. Corequisites: CIS 110 or CIS 111.

When Offered: (F, S)

CTS 125 - Presentation Graphics

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course provides hands-on experience with a graphics presentation package. Topics include terminology, effective chart usage, design and layout, integrating hardware components, and enhancing presentations with text, graphics, audio and video. Upon completion, students should be able to design and demonstrate an effective presentation.

Prerequisites: None. Corequisites: None.

When Offered: (S)

CTS 130 - Spreadsheet

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces basic spreadsheet design and development. Topics include writing formulas, using functions, enhancing spreadsheets, creating charts, and printing. Upon completion, students should be able to design and print basic spreadsheets and charts.

Prerequisites: None. Corequisites: None.

When Offered: (F,S,SU)

CTS 240 - Project Management

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces computerized project management software. Topics include identifying critical paths, cost management, and problem solving. Upon completion, students should be able to plan a complete project and project time and costs accurately.

Prerequisites: None. Corequisites: None.

When Offered: F

CTS 285 - Systems Analysis & Design

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces established and evolving methodologies for the analysis, design, and development of an information system. Emphasis is placed on system characteristics, managing projects, prototyping, CASE/OOM tools, and systems development life cycle phases. Upon completion, students should be able to analyze a problem and design an appropriate solution using a combination of tools and techniques.

Prerequisites: None. Corequisites: None.

When Offered: (F)

CTS 289 - System Support Project

Hours--Class: 1 Lab: 4 Clinic/Work Exp: 0 Credit: 3

This course provides an opportunity to complete a significant support project with minimal instructor assistance. Emphasis is placed on written and oral communication skills, project definition, documentation, installation, testing, presentation, and user training. Upon completion, students should be able to complete a project from the definition phase through implementation.

Prerequisites: CTI 110, CTI 120, CTS 115, and CTS 285. Corequisites: None.

When Offered: (S)

Dance**DAN 110 - Dance Appreciation (GENED)**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course for non-dance majors surveys diverse dance forms and the religious and cultural values that shape them. Topics include dances from Europe, Africa, Asia, and America. Upon completion, students should be able to demonstrate an understanding of the diverse forms and values that dance embraces.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

Database Management Technology**DBA 110 - Database Concepts**

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course introduces database design and creation using a DBMS product. Emphasis is placed on data dictionaries, normalization, data integrity, data modeling, and creation of simple tables, queries, reports, and forms. Upon completion, students should be able to design and implement normalized database structures by creating simple database tables, queries, reports, and forms.

Prerequisites: None. Corequisites: None.

When Offered: (S)

DBA 115 - Database Applications

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course applies concepts learned in DBA 110 to a specific DBMS. Topics include manipulating multiple tables, advanced queries, screens and reports, linking, and command files. Upon completion, students should be able to create multiple table systems that demonstrate updates, screens, and reports representative of industry requirements.

Prerequisites: DBA 110. Corequisites: None.

When Offered: (F)

Dental**DEN 110 - Orofacial Anatomy**

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces the structures of the head, neck, and oral cavity. Topics include tooth morphology, head and neck anatomy, histology, and embryology. Upon completion, students should be able to relate the identification of normal structures and development to the practice of dental assisting and dental hygiene.

Prerequisites: Enrollment in the Dental Hygiene program. Corequisites:

None.

When Offered: (F)

DEN 111 - Infection/Hazard Control

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course introduces the infection and hazard control procedures necessary for the safe practice of dentistry. Topics include microbiology, practical infection control, sterilization and monitoring, chemical disinfectants, aseptic technique, infectious diseases, OSHA standards, and applicable North Carolina laws. Upon completion, students should be able to understand infectious diseases, disease transmission, infection control procedures, biohazard management, OSHA standards, and applicable North Carolina laws.

Prerequisites: Enrollment in the Dental Hygiene program. Corequisites:

None.

When Offered: (F)

DEN 112 - Dental Radiography

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course provides a comprehensive view of the principles and procedures of radiology as they apply to dentistry. Topics include techniques in exposing, processing, and evaluating radiographs, as well as radiation safety, quality assurance, and legal issues. Upon completion, students should be able to demonstrate proficiency in the production of diagnostically acceptable radiographs using appropriate safety precautions.

Prerequisites: DEN 110. Corequisites: None.

When Offered: (S)

DEN 120 - Dental Hyg Preclinic Lec

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course introduces preoperative and clinical dental hygiene concepts. Emphasis is placed on the assessment phase of patient care as well as the theory of basic dental hygiene instrumentation. Upon completion, students

should be able to collect and evaluate patient data at a basic level and demonstrate knowledge of dental hygiene instrumentation.

Prerequisites: Enrollment in the Dental Hygiene program.

Corequisites: DEN 121.

When Offered: (F)

DEN 121 - Dental Hygiene Precl Lab

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 2

This course provides the opportunity to perform clinical dental hygiene procedures discussed in DEN 120. Emphasis is placed on clinical skills in patient assessment and instrumentation techniques. Upon completion, students should be able to demonstrate the ability to perform specific preclinical procedures.

Prerequisites: Enrollment in the Dental Hygiene program.

Corequisites: DEN 120.

When Offered: (F)

DEN 123 - Nutrition/Dental Health

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course introduces basic principles of nutrition with emphasis on nutritional requirements and their application to individual patient needs. Topics include the study of Federal Nutritional Guidelines, nutrient functions, Recommended Daily Allowances, Adequate Intake, Tolerable Upper Intake Level, Estimated Average Requirement, and related psychological principles. Upon completion, students should be able to recommend and counsel individuals on their food intake as related to their dental health.

Prerequisites: Enrollment in the Dental Hygiene program.

Corequisites: None.

When Offered: (SU)

DEN 124 - Periodontology

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course provides an in-depth study of the periodontium, periodontal pathology, periodontal monitoring, and the principles of periodontal therapy. Topics include periodontal anatomy and a study of the etiology, classification, and treatment modalities of periodontal diseases. Upon completion, students should be able to describe, compare, and contrast techniques involved in periodontal/maintenance therapy, as well as patient care management.

Prerequisites: DEN 110. Corequisites: None.

When Offered: (S)

DEN 130 - Dental Hygiene Theory I

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course is a continuation of the didactic dental hygiene concepts necessary for providing an oral prophylaxis. Topics include deposits/removal, instrument sharpening, patient education, fluorides, planning for dental hygiene treatment, charting, and clinical records and procedures. Upon completion, students should be able to demonstrate knowledge needed to complete a thorough oral prophylaxis.

Prerequisites: DEN 120. Corequisites: DEN 131.

When Offered: (S)

DEN 131 - Dental Hygiene Clinic I

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 9 Credit: 3

This course continues skill development in providing an oral prophylaxis. Emphasis is placed on treatment of the recall patients with gingivitis or light deposits. Upon completion, students should be able to assess these patients' needs and complete the necessary dental hygiene treatment.

Prerequisites: DEN 121. Corequisites: DEN 130.

When Offered: (S)

DEN 140 - Dental Hygiene Theory II

Hours--Class: 1 Lab: 0 Clinic/Work Exp: 0 Credit: 1

This course introduces principles in treatment modification. Topics include modification of treatment for pain management and advanced radiographic interpretation. Upon completion, students should be able to differentiate necessary treatment modifications and radiographic abnormalities.

Prerequisites: DEN 130. Corequisites: DEN 141.

When Offered: (SU)

DEN 141 - Dental Hygiene Clinic II

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 6 Credit: 2

This course continues skill development in providing an oral prophylaxis. Emphasis is placed on treatment of patients with early periodontal disease and subgingival deposits. Upon completion, students should be able to

assess these patients' needs and complete the necessary dental hygiene treatment.

Prerequisites: DEN 131. Corequisites: DEN 140.

When Offered: (SU)

DEN 220 - Dental Hygiene Theory III

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course introduces advanced principles of patient care. Topics include advanced periodontal debridement, subgingival irrigation, air polishing, special needs and case presentations. Upon completion, students should be able to demonstrate knowledge of methods of treatment and management of periodontally compromised and special needs patients.

Prerequisites: DEN 140. Corequisites: DEN 221.

When Offered: (F)

DEN 221 - Dental Hygiene Clinic III

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 12 Credit: 4

This course continues skill development in providing an oral prophylaxis. Emphasis is placed on treatment of patients with moderate to advanced periodontal involvement and moderate deposits. Upon completion, students should be able to assess these patients' needs and complete the necessary dental hygiene treatment.

Prerequisites: DEN 141. Corequisites: DEN 220.

When Offered: (F)

DEN 222 - General & Oral Pathology

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course provides a general knowledge of oral pathological manifestations associated with selected systemic and oral diseases. Topics include developmental and degenerative diseases, selected microbial diseases, specific and nonspecific immune and inflammatory responses with emphasis on recognizing abnormalities. Upon completion, students should be able to differentiate between normal and abnormal tissues and refer unusual findings to the dentist for diagnosis.

Prerequisites: BIO 163 or BIO 168. Corequisites: None.

When Offered: (S)

DEN 223 - Dental Pharmacology

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course provides basic drug terminology, general principles of drug actions, dosages, routes of administration, adverse reactions, and basic principles of anesthesiology. Emphasis is placed on knowledge of drugs in overall understanding of patient histories and health status. Upon completion, students should be able to recognize that each patient's general health or drug usage may require modification of the treatment procedures.

Prerequisites: Enrollment in the Dental Hygiene program.

Corequisites: BIO 163 or BIO 168.

When Offered: (F)

DEN 224 - Materials and Procedures

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course introduces the physical properties of materials and related procedures used in dentistry. Topics include restorative and preventive materials, fabrication of casts and appliances, and chairside functions of the dental hygienist. Upon completion, students should be able to demonstrate proficiency in the laboratory and/or clinical application of routinely used dental materials and chairside functions.

Prerequisites: DEN 111. Corequisites: None.

When Offered: (S)

DEN 230 - Dental Hygiene Theory IV

Hours--Class: 1 Lab: 0 Clinic/Work Exp: 0 Credit: 1

This course provides an opportunity to increase knowledge of the profession. Emphasis is placed on dental specialties, technological advances, and completion of a case study presentation. Upon completion, students should be able to demonstrate knowledge of various disciplines of dentistry, technological advances and principles of case presentations.

Prerequisites: DEN 220. Corequisites: DEN 231.

When Offered: (S)

DEN 231 - Dental Hygiene Clinic IV

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 12 Credit: 4

This course continues skill development in providing an oral prophylaxis. Emphasis is placed on periodontal maintenance and on treating patients with moderate to advanced/refractory periodontal disease. Upon completion, students should be able to assess these patients' needs and complete the necessary dental hygiene treatment.

Prerequisites: DEN 221. Corequisites: DEN 230.

When Offered: (S)

DEN 232 - Community Dental Health

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course provides a study of the principles and methods used in assessing, planning, implementing, and evaluating community dental health programs. Topics include epidemiology, research methodology, biostatistics, preventive dental care, dental health education, program planning, and financing and utilization of dental services. Upon completion, students should be able to assess, plan, implement, and evaluate a community dental health program

Prerequisites: None. Corequisites: None.
When Offered: (F)

DEN 233 - Professional Development

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course includes professional development, ethics, and jurisprudence with applications to practice management. Topics include conflict management, state laws, resumes, interviews, and legal liabilities as health care professionals. Upon completion, students should be able to demonstrate the ability to practice dental hygiene within established ethical standards and state laws.

Prerequisites: Enrollment in the Dental Hygiene program.
Corequisites: None.
When Offered: (S)

Drafting**DFT 117 - Technical Drafting**

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course introduces basic drafting practices for non-drafting majors. Emphasis is placed on instrument use and care, shape and size description, sketching, and pictorials. Upon completion, students should be able to produce drawings of assigned parts.

Prerequisites: DFT 151 with a grade of C or higher. Corequisites: None.
When Offered: (S)

DFT 151 - CAD I

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course introduces CAD software as a drawing tool. Topics include drawing, editing, file management, and plotting. Upon completion, students should be able to produce and plot a CAD drawing.

Prerequisites: None. Corequisites: None.
When Offered: (F,S,On demand)

DFT 153 - CAD III

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course introduces advanced CAD applications. Emphasis is placed upon advanced applications of CAD skills. Upon completion, students should be able to use advanced CAD applications to generate and manage data

Prerequisites: DFT 170. Corequisites: None.
When Offered: (F)

DFT 170 - Engineering Graphics (PM-ELEC)

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces basic engineering graphics skills and applications. Topics include sketching, selection and use of current methods and tools, and the use of engineering graphics applications. Upon completion, students should be able to demonstrate an understanding of basic engineering graphics principles and practices.

Prerequisites: None. Corequisites: None.
When Offered: (S, On Demand)

Drama**DRA 111 - Theatre Appreciation (UGETC)**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides a study of the art, craft, and business of the theatre. Emphasis is placed on the audience's appreciation of the work of the playwright, director, actor, designer, producer, and critic. Upon completion, students should be able to demonstrate a vocabulary of theatre terms and to recognize the contributions of various theatre artists.

Prerequisites: None. Corequisites: None.
When Offered: (F, S, SU)

DRA 112 - Literature of the Theatre (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides a survey of dramatic works from the classical Greek through the present. Emphasis is placed on the language of drama, critical theory, and background as well as on play reading and analysis. Upon

completion, students should be able to articulate, orally and in writing, their appreciation and understanding of dramatic works.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

DRA 115 - Theatre Criticism (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is designed to develop a critical appreciation of the theatre from the viewpoint of the audience/consumer. Emphasis is placed on viewing, discussing, and evaluating selected theatre performance, either live or on film/video. Upon completion, students should be able to express their critical judgments both orally and in writing.

Prerequisites: DRA 111. Corequisites: None.
When Offered: (On demand)

DRA 120 - Voice for Performance (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides guided practice in the proper production of speech for the theatre. Emphasis is placed on improving speech, including breathing, articulation, pronunciation, and other vocal variables. Upon completion, students should be able to demonstrate effective theatrical speech.

Prerequisites: None. Corequisites: None.
When Offered: (On Demand)

DRA 122 - Oral Interpretation (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the dramatic study of literature through performance. Emphasis is placed on analysis and performance of poetry, drama, and prose fiction. Upon completion, students should be able to embody and discuss critically the speakers inherent in literature.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

DRA 124 - Readers Theatre (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides a theoretical and applied introduction to the medium of readers theatre. Emphasis is placed on the group performance considerations posed by various genres of literature. Upon completion, students should be able to adapt and present a literary script following the conventions of readers theatre.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

DRA 126 - Storytelling (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the art of storytelling and the oral traditions of folk literature. Topics include the history of storytelling, its value and purpose, techniques of the storyteller, and methods of collecting verbal art. Upon completion, students should be able to present and discuss critically stories from the world's repertory of traditional lore.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

DRA 128 - Children's Theatre (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the philosophy and practice involved in producing plays for young audiences. Topics include the selection of age-appropriate scripts and the special demands placed on directors, actors, designers, and educators in meeting the needs of young audiences. Upon completion, students should be able to present and critically discuss productions for children.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

DRA 130 - Acting I (PM-ELEC)

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3

This course provides an applied study of the actor's craft. Topics include role analysis, training the voice, and body concentration, discipline, and self-evaluation. Upon completion, students should be able to explore their creativity in an acting ensemble.

Prerequisites: None. Corequisites: None.
When Offered: (F)

DRA 131 - Acting II (PM-ELEC)

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3

This course provides additional hands-on practice in the actor's craft. Emphasis is placed on further analysis, characterization, growth, and training for acting competence. Upon completion, students should be able to explore their creativity in an acting ensemble.

Prerequisites: DRA 130. Corequisites: None.
When Offered: (On Demand)

DRA 132 - Stage Movement (PM-ELEC)

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course provides an applied study of selected principles of stage movement for actors. Topics include improvisation, mime, stage combat, clowning, choreography, and masks. Upon completion, students should be able to focus properly on stage, to create characters, and to improvise scenes, perform mimes, fight, clown, juggle, and waltz.

Prerequisites: None. Corequisites: DRA 111.
When Offered: (On demand)

DRA 135 - Acting for the Camera I (PM-ELEC)

Hours--Class: 1 Lab: 4 Clinic/Work Exp: 0 Credit: 3

This course provides an applied study of the camera actor's craft. Topics include commercial, dramatic, and print performance styles. Upon completion, students should be able to explore their creativity in on-camera performance.

Prerequisites: None. Corequisites: None.
When Offered: (S)

DRA 136 - Acting for the Camera II (PM-ELEC)

Hours--Class: 1 Lab: 4 Clinic/Work Exp: 0 Credit: 3

This course provides additional hands-on study of the camera actor's craft. Emphasis is placed on more advanced camera acting theories, auditioning techniques, daytime drama, feature film, and print advertisement performance styles. Upon completion, students should be able to explore their creativity in on-camera performance.

Prerequisites: DRA 135. Corequisites: None.
When Offered: (On demand)

DRA 140 - Stagecraft I (PM-ELEC)

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3

This course introduces the theory and basic construction of stage scenery and properties. Topics include stage carpentry, scene painting, stage electrics, properties, and backstage organization. Upon completion, students should be able to pursue vocational and avocational roles in technical theatre.

Prerequisites: None. Corequisites: None.
When Offered: (F)

DRA 141 - Stagecraft II (PM-ELEC)

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3

This course provides additional hands-on practice in the elements of stagecraft. Emphasis is placed on the design and implementation of the arts and crafts of technical theatre. Upon completion, students should be able to pursue vocational or avocational roles in technical theatre.

Prerequisites: DRA 140. Corequisites: None.
When Offered: (S)

DRA 142 - Costuming (PM-ELEC)

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course covers the techniques of costume construction and crafts processes. Emphasis is placed on learning costuming techniques, using equipment and materials, and finishing production-appropriate costumes. Upon completion, students should be able to demonstrate an understanding of pattern drafting, construction techniques, and costume fitting procedures.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

DRA 145 - Stage Make-up (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course covers the research, design, selection of materials, and application of stage make-up, prosthetics, wigs, and hairpieces. Emphasis is placed on the development of techniques, style, and presentation of the finished make-up. Upon completion, students should be able to create and apply make-up, prosthetics, and hairpieces.

Prerequisites: None. Corequisites: None.
When Offered: (On Demand)

DRA 170 - Play Production I (PM-ELEC)

Hours--Class: 0 Lab: 9 Clinic/Work Exp: 0 Credit: 3

This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production.

Prerequisites: None. Corequisites: None.
When Offered: (F, S)

DRA 171 - Play Production II (PM-ELEC)

Hours--Class: 0 Lab: 9 Clinic/Work Exp: 0 Credit: 3

This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production.

Prerequisites: DRA 170. Corequisites: None.
When Offered: (F, S)

DRA 211 - Theatre History I (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the development of theatre from its origin to the closing of the British theatre in 1642. Topics include the history, aesthetics, and representative dramatic literature of the period. Upon completion, students should be able to trace the evolution of theatre and recognize the styles and types of world drama.

Prerequisites: None. Corequisites: None.
When Offered: (F)

DRA 212 - Theatre History II (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the development of theatre from 1660 through the diverse influences which shaped the theatre of the twentieth century. Topics include the history, aesthetics, and representative dramatic literature of the period. Upon completion, students should be able to trace the evolution of theatre and recognize the styles and types of world drama.

Prerequisites: None. Corequisites: None.
When Offered: (S)

DRA 240 - Lighting for the Theatre (PM-ELEC)

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course is an applied study of theatre lighting and is designed to train theatre technicians. Emphasis is placed on lighting technology including the mechanics of lighting and light control equipment by practical work with lighting equipment. Upon completion, students should be able to demonstrate competence with lighting equipment.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

DRA 260 - Directing (PM-ELEC)

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3

This course provides an analysis and application of the techniques of theatrical directing. Topics include script selection, analysis, casting, rehearsal planning, blocking, stage business, tempo, and technical considerations. Upon completion, students should be able to plan, execute, and critically discuss a student-directed production.

Prerequisites: DRA 130. Corequisites: DRA 140.
When Offered: (On Demand)

DRA 270 - Play Production III (PM-ELEC)

Hours--Class: 0 Lab: 9 Clinic/Work Exp: 0 Credit: 3

This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production.

Prerequisites: DRA 171. Corequisites: None.
When Offered: (F, S)

DRA 271 - Play Production IV (PM-ELEC)

Hours--Class: 0 Lab: 9 Clinic/Work Exp: 0 Credit: 3

This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and

styles. Upon completion, students should be able to participate in an assigned position with a college theatre production.

Prerequisites: DRA 270. Corequisites: None.

When Offered: (F, S)

Economics

ECO 251 - Prin of Microeconomics (UGETC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces economic analysis of individual, business, and industry in the market economy. Topics include the price mechanism, supply and demand, optimizing economic behavior, costs and revenue, market structures, factor markets, income distribution, market failure, and government intervention. Upon completion, students should be able to identify and evaluate consumer and business alternatives in order to efficiently achieve economic objectives.

Prerequisites: None. Corequisites: None.

When Offered: (F,S)

ECO 252 - Prin of Macroeconomics (UGETC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces economic analysis of aggregate employment, income, and prices. Topics include major schools of economic thought; aggregate supply and demand; economic measures, fluctuations, and growth; money and banking; stabilization techniques; and international trade. Upon completion, students should be able to evaluate national economic components, conditions, and alternatives for achieving socioeconomic goals.

Prerequisites: None. Corequisites: None.

When Offered: (F,S)

Electroneurodiagnostic Tech

EDT 110 - Neuroscience/Pathol Cond

Hours--Class: 4 Lab: 0 Clinic/Work Exp: 0 Credit: 4

This course covers the anatomy and physiology of the nervous system as well as those disease processes which affect nervous system components. Topics include anatomy, physiology, and pathology of the neuron, brain, spinal cord, peripheral nerves, and the special senses. Upon completion, students should be able to understand the structure and function of the nervous system and how this structure/function is affected by specific diseases.

Prerequisites: None. Corequisites: None.

When Offered: (F)

EDT 111 - Laboratory Management

Hours--Class: 1 Lab: 0 Clinic/Work Exp: 0 Credit: 1

This course provides the skills and knowledge necessary to effectively manage and/or function as a team player in an electroneurodiagnostics department. Topics include the role of an effective manager, the role of a team player, techniques for scheduling, record keeping/storage, and creation/implementation of department policies. Upon completion, students should be able to understand those skills necessary to manage an electroneurodiagnostics department, both independently and as a team worker.

Prerequisites: None. Corequisites: None.

When Offered: (F)

EDT 111A - EDT Laboratory Basics

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is designed to be offered as a supplemental lab for the EDT 111 course. Emphasis is placed on interview skills, system of electrode placement, and the role of effective communication in the EDT department. Upon completion, students should be able to demonstrate basic competencies in preparation for performing electroneurodiagnostic testing.

Prerequisites: None. Corequisites: EDT 111.

When Offered: (F)

EDT 112 - Instrument/Record Methods

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers theories of electrode placement, various instrumentation components used in neurological testing, and optimal recording techniques based on patient status. Topics include the International 10-20 System of electrode placement, electrode types/applications, electronics applicable to neurological testing, instrument controls, montages, and polarity/localization. Upon completion, students should be able to understand the theories underlying optimal utilization of electrodes and instrumentation for neurological testing.

Prerequisites: None. Corequisites: None.

When Offered: (S)

EDT 113 - Clinical Correlates

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course covers normal and abnormal neurological test findings associated with the anatomy/physiology/pathology covered in EDT 110. Topics include normal and abnormal neurological test results, artifacts, and activation procedures utilizing teaching records from affiliated laboratories. Upon completion, students should be able to identify patterns and artifacts on neurological tests in order that optimal recording strategies may be utilized.

Prerequisites: None. Corequisites: None.

When Offered: (S)

EDT 114 - Special Procedures

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides a basic understanding of special testing procedures used in neurological diagnosis. Topics include foundations of evoked potentials, nerve conduction studies, operating room monitoring, ambulatory EEGs, long-term video monitoring, polysomnography, and various radiological procedures. Upon completion, students should be able to demonstrate an understanding of the principles of various special procedures used in neurological diagnosis.

Prerequisites: EDT 112. Corequisites: None.

When Offered: (F)

EDT 115 - EDT Laboratory Practice

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 2

This course provides a practical application of theories covered in previous EDT courses. Emphasis is placed on practical skill development in neurological testing, appropriate patient rapport, infection control, and electrical safety guidelines, using mock situations. Upon completion, students should be able to conduct optimal neurological testing in mock situations.

Prerequisites: None. Corequisites: None.

When Offered: (S)

EDT 116 - EDT Clinical Experience

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 36 Credit: 12

This course provides clinical experience in a hospital, outpatient clinic or physician's office setting, under the supervision of a qualified technologist or qualified physician. Emphasis is placed on qualified interaction between patients/family and hospital personnel and optimal skill level development in electroneurodiagnostic procedures. Upon completion, students should be able to conduct themselves professionally in a clinical setting and conduct optimal electroneurodiagnostic procedures as ordered by physicians.

Prerequisites: EDT 118. Corequisites: None.

When Offered: (S)

EDT 118 - EDT Laboratory Practice II

Hours--Class: 0 Lab: 9 Clinic/Work Exp: 0 Credit: 3

This course is a continuation of EDT 115. Emphasis is placed on practical skills developed in neurological testing, to include the basic EEG along with special testing procedures. Upon completion, students should be able to conduct neurological testing in mock situations.

Prerequisites: EDT 115. Corequisites: EDT 114.

When Offered: (F)

Education

EDU 119 - Intro to Early Child Educ

Hours--Class: 4 Lab: 0 Clinic/Work Exp: 0 Credit: 4

This course introduces the foundations of early childhood education, the diverse educational settings for young children, professionalism and planning intentional developmentally appropriate experiences for each child. Topics include theoretical foundations, national early learning standards, NC Foundations for Early Learning and Development, state regulations, program types, career options, professionalism, ethical conduct, quality inclusive environments, and curriculum responsive to the needs of each child/family. Upon completion, students should be able to design a career/professional development plan, appropriate environments, schedules, and activity plans.

Prerequisites: None. Corequisites: None.

When Offered: (F, S)

EDU 131 - Child, Family, and Community (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the development of partnerships between culturally, linguistically and ability diverse families, children, schools and communities through the use of evidence-based strategies. Emphasis is placed on developing skills and identifying benefits for establishing, supporting, and maintaining respectful, collaborative relationships between diverse families,

programs/schools, and community agencies/resources reflective of the NAEYC Code of Ethical Conduct. Upon completion, students should be able to identify appropriate relationship building strategies between diverse families, children, schools, and communities and demonstrate a variety of communication skills including appropriate use of technology to support every child.

Prerequisites: None. Corequisites: None.
When Offered: (S)

EDU 144 - Child Development I (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course includes the theories of child development, observation and assessment, milestones, and factors that influence development, from conception through approximately 36 months. Emphasis is placed on knowledge, observation and assessment of developmental sequences in approaches to play/learning, emotional/social, health/physical, language/communication and cognitive domains. Upon completion, students should be able to compare/contrast typical/atypical developmental characteristics, explain biological and environmental factors that impact development, and identify evidence-based strategies for enhancing development for children that are culturally, linguistically, and ability diverse.

Prerequisites: None. Corequisites: None.
When Offered: (F)

EDU 145 - Child Development II (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course includes the theories of child development, observation and assessment, milestones, and factors that influence development, from preschool through middle childhood. Emphasis is placed on knowledge, observation and assessment of developmental sequences in approaches to play/learning, emotional/social, health/physical, language/communication and cognitive domains. Upon completion, students should be able to compare/contrast typical/atypical developmental characteristics, explain biological and environmental factors that impact development, and identify evidence-based strategies for enhancing development for children that are culturally, linguistically, and ability diverse.

Prerequisites: None. Corequisites: None.
When Offered: (S)

EDU 146 - Child Guidance

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces evidence-based strategies to build nurturing relationships with each child by applying principles and practical techniques to facilitate developmentally appropriate guidance. Topics include designing responsive/supportive learning environments, cultural, linguistic and socio-economic influences on behavior, appropriate expectations, the importance of communication with children/families including using technology and the use of formative assessments in establishing intentional strategies for children with unique needs. Upon completion, students should be able to demonstrate direct/indirect strategies to encourage social skills, self-regulation, emotional expression and positive behaviors while recognizing the relationship between children's social, emotional and cognitive development.

Prerequisites: None. Corequisites: None.
When Offered: (S)

EDU 151 - Creative Activities

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces developmentally supportive creative learning environments with attention to divergent thinking, creative problem-solving, evidence-based teaching practices, and open-ended learning materials while applying NC Foundations for Early Learning and Development. Emphasis is placed on observation of process driven learning experiences in art, music, creative movement, dance, and dramatics for every young child age birth through eight, integrated through all domains and academic content. Upon completion, students should be able to examine, create, and adapt developmentally creative learning materials, experiences, and environments for children that are culturally, linguistically, and ability diverse.

Prerequisites: None. Corequisites: None.
When Offered: (F)

EDU 153 - Health, Safety and Nutrition

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers promoting and maintaining the health and well-being of every child. Topics include health and nutritional guidelines, common childhood illnesses, maintaining safe and healthy learning environments, health benefits of active play, recognition and reporting of abuse/neglect, and state regulations. Upon completion, students should be able to apply

knowledge of NC Foundations for Early Learning and Development for health, safety, nutritional needs and safe learning environments.

Prerequisites: None. Corequisites: None.
When Offered: (S)

EDU 187 - Teaching and Learning for All (AATP/ASTP)

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course introduces students to knowledge, concepts, and best practices needed to provide developmentally appropriate, effective, inclusive, and culturally responsive educational experiences in the classroom. Topics include growth and development, learning theory, student motivation, teaching diverse learners, classroom management, inclusive environments, student-centered practices, instructional strategies, teaching methodologies, observation/assessment techniques, educational planning, reflective practice, collaboration, cultural competence, ethics, professionalism, and leadership. Upon completion, students should be able to identify the knowledge, skills, roles, and responsibilities of an effective educator as defined by state and national professional teaching standards.

Prerequisites: None. Corequisites: None.
When Offered: (F)

EDU 216 - Foundations of Education (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the examination of the American educational systems and the teaching profession. Topics include the historical and philosophical influences on education, various perspectives on educational issues, and experiences in birth through grade 12 classrooms. Upon completion, students should be able to reflect on classroom observations, analyze the different educational approaches, including classical/traditional and progressive, and have knowledge of the various roles of educational systems at the federal, state and local level.

Prerequisites: None. Corequisites: None.
When Offered: (F)

EDU 221 - Children with Exceptionalities (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers atypical patterns of child development, inclusive/diverse settings, evidenced-based educational/family plans, differentiated instruction, adaptive materials, and assistive technology. Emphasis is placed on the characteristics of exceptionalities and delays, early intervention/special education, transitions, observation, developmental screening, formative assessment of children, and collaborating with families and community partners. Upon completion, students should be able to recognize diverse abilities, describe the referral process, identify community resources, explain the importance of collaboration with families/professionals, and develop appropriate strategies/adaptations to support children in all environments with best practices as defined by laws, policies and the NC Foundations for Early Learning and Development.

Prerequisites: EDU 144 and EDU 145, or PSY 244 and PSY 245.
Corequisites: None.
When Offered: (F)

EDU 234 - Infants, Toddlers, and Twos

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the development of high-quality, individualized, responsive/engaging relationships and experiences for infants, toddlers, and twos. Emphasis is placed on typical and atypical child development, positive early learning experiences, supporting and engaging diverse families, providing safe, warm and nurturing interactions, and the application of the NC Foundations for Early Learning and Development. Upon completion, students should be able to demonstrate responsive planning, respectful relationships and exposure to a variety of developmentally appropriate experiences/materials that support a foundation for healthy development and growth of culturally, linguistically and ability diverse children birth to 36 months.

Prerequisites: EDU 119. Corequisites: None.
When Offered: (F)

EDU 250 - Teacher Licensure Preparation (AATP/ASTP)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides information and strategies necessary for transfer to a teacher licensure program at a senior institution. Topics include entry level teacher licensure exam preparation, performance based assessment systems, requirements for entry into teacher education programs, the process to become a licensed teacher in North Carolina, and professionalism including expectations within the field of education. Upon completion, students should be able to utilize educational terminology and demonstrate knowledge of teacher licensure processes including exam preparation,

technology based portfolio assessment, and secondary admissions processes to the school of education at a senior institution.

Prerequisites: ENG 111; and MAT 143, or MAT 152, or MAT 171.

Corequisites: None.

When Offered: (S)

EDU 251 - Exploration Activities

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers fundamental concepts in the content areas of science, technology, engineering, math and social studies through investigative experiences. Emphasis is placed on exploring fundamental concepts, developmentally appropriate scope and sequence, and teaching strategies to engage each child in the discovery approach. Upon completion, students should be able to understand major concepts in each content area and implement appropriate experiences for young children.

Prerequisites: None. Corequisites: None.

When Offered: (S)

EDU 259 - Curriculum Planning

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is designed to focus on using content knowledge to build developmentally effective approaches for culturally/linguistically/ability diverse young children. Topics include components of curriculum, a variety of curriculum models, authentic observation and assessment, and planning developmentally appropriate experiences aligned with the NC Foundations for Early Learning and Development. Upon completion, students should be able to understand, evaluate, and use curriculum to plan for individual/group needs

Prerequisites: EDU 119. Corequisites: None.

When Offered: (F)

EDU 261 - Early Childhood Admin I

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces principles and practices essential to preparing and supporting child care administrators. Topics include program philosophy, policies and procedures, NC Child Care Law and Rules, business planning, personnel and fiscal management, and NAEYC Code of Ethical Conduct Supplement for Early Childhood Program Administration. Upon completion, students should be able to articulate a developmentally appropriate program philosophy, locate current state licensing regulations, analyze a business plan and examine comprehensive program policies and procedures.

Prerequisites: None. Corequisites: EDU 119.

When Offered: (Su)

EDU 262 - Early Childhood Admin II

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course focuses on advocacy/leadership, public relations/community outreach and program quality/evaluation for diverse early childhood programs. Topics include program evaluation/accreditation, involvement in early childhood professional organizations, leadership/mentoring, family, volunteer and community involvement and early childhood advocacy. Upon completion, students should be able to define and evaluate all components of early childhood programs, develop strategies for advocacy and integrate community into programs.

Prerequisites: EDU 119 and EDU 261. Corequisites: None.

When Offered: (Su)

EDU 271 - Educational Technology

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces the ethical use of technology to enhance teaching and learning in all educational settings. Emphasis is placed on technology concepts, ethical issues, digital citizenship, instructional strategies, assistive technology, and the use of technology for professional development and communication. Upon completion, students should be able to discuss technology concepts, ethically use a variety of technology resources, demonstrate appropriate technology skills in educational environments, and identify assistive technology.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

EDU 275 - Effective Teach Train

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course provides specialized training using an experienced-based approach to learning. Topics include instructional preparation and presentation, student interaction, time management, learning expectations, evaluation, and curriculum principles and planning. Upon completion,

students should be able to prepare and present a six-step lesson plan and demonstrate ways to improve students' time-on-task.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

EDU 279 - Literacy Develop and Instruct (AATP/ASTP)

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course is designed to provide students with concepts and skills of literacy development, instructional methods/materials and assessment techniques needed to provide scientifically-based, systematic reading and writing instruction into educational practice. Topics include literacy concepts, reading and writing development, developmentally appropriate pedagogy, culturally-responsive instruction, standards-based outcomes, lesson planning, formative/summative assessment, recognizing reading difficulties, research-based interventions, authentic learning experiences, classroom implementation, and reflective practice. Upon completion, students should be able to plan, implement, assess, evaluate, and demonstrate developmentally appropriate literacy instruction aligned to the NC Standard Course of Study and other state and national standards.

Prerequisites: None. Corequisites: None.

When Offered: (S)

EDU 280 - Language/Literacy Experiences

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides evidence-based strategies for enhancing language and literacy experiences that align with NC Foundations for Early Learning and Development. Topics include developmental sequences for children's emergent receptive and expressive language, print concepts, appropriate observations/assessments, literacy enriched environments, quality selection of diverse literature, interactive media, and inclusive practices. Upon completion, students should be able to select, plan, implement and evaluate developmentally appropriate language and literacy experiences for children who are culturally, linguistically and ability diverse.

Prerequisites: None. Corequisites: None.

When Offered: (S)

EDU 284 - Early Child Capstone Prac

Hours--Class: 1 Lab: 9 Clinic/Work Exp: 0 Credit: 4

This course is designed to allow students to demonstrate acquired skills in a three star (minimum) or NAEYC accredited or equivalent, quality early childhood environment. Emphasis is placed on designing, implementing and evaluating developmentally appropriate activities and environments for all children; supporting/engaging families; and modeling reflective and professional practices based on national and state guidelines. Upon completion, students should be able to apply NC Foundations for Early Learning and Development to demonstrate developmentally appropriate plans/assessments, appropriate guidance techniques and ethical/professional behaviors, including the use of appropriate technology, as indicated by assignments and onsite faculty assessments.

Prerequisites: EDU 119, EDU 144, EDU 145, EDU 146, EDU 151.

Corequisites: None.

When Offered: (S)

Engineering

EGR 110 - Intro to Engineering Tech

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course introduces general topics relevant to engineering technology. Topics include career assessment, professional ethics, critical thinking and problem solving, usage of college resources for study and research, and using tools for engineering computations. Upon completion, students should be able to choose a career option in engineering technology and utilize college resources to meet their educational goals.

Prerequisites: None. Corequisites: None.

When Offered: (F, on demand)

EGR 150 - Intro to Engineering (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course is an overview of the engineering profession. Topics include goal setting and career assessment, ethics, public safety, the engineering method and design process, written and oral communication, interpersonal skills and team building, and computer applications. Upon completion, students should be able to understand the engineering process, the engineering profession, and utilize college resources to meet their educational goals.

Prerequisites: None. Corequisites: None.

When Offered: (F, on demand)

EGR 220 - Engineering Statics (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the concepts of engineering based on forces in equilibrium. Topics include concentrated forces, distributed forces, forces due to friction, and inertia as they apply to machines, structures, and systems. Upon completion, students should be able to solve problems which require the ability to analyze systems of forces in static equilibrium.

Prerequisites: PHY 251. Corequisites: MAT 272.

When Offered: (On demand)

EGR 251 - Statics

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course covers the concepts and principles of statics. Topics include systems of forces and moments on structures in two- and three-dimensions in equilibrium. Upon completion, students should be able to analyze forces and moments on structures.

Prerequisites: MAT 121 or MAT 171, must pass with grade of C or higher.

Corequisites: None.

When Offered: (F)

EGR 252 - Strength of Materials

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course covers the principles and concepts of stress analysis. Topics include centroids, moments of inertia, shear/moment diagrams, and stress and strain. Upon completion, students should be able to perform a stress and strain analysis on structural components.

Prerequisites: EGR 251. Corequisites: None.

When Offered: (F)

EGR 285 - Design Project

Hours--Class: 0 Lab: 4 Clinic/Work Exp: 0 Credit: 2

This course provides the opportunity to design an instructor-approved project using previously acquired skills. Emphasis is placed on selection, proposal, design, testing, and documentation of the approved project. Upon completion, students should be able to present and demonstrate projects.

Prerequisites: DFT 153, MEC 130, and MEC 145 OR ELC 130 and ELC 128 OR ELN 132 and ELN 133. Corequisites: None.

When Offered: (S)

Electricity**ELC 111 - Intro to Electricity**

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces the fundamental concepts of electricity and test equipment to non-electrical/electronics majors. Topics include basic DC and AC principles (voltage, resistance, current, impedance); components (resistors, inductors, and capacitors); power; and operation of test equipment. Upon completion, students should be able to construct and analyze simple DC and AC circuits using electrical test equipment.

Prerequisites: MAT 003. Corequisites: None.

When Offered: (F)

ELC 112 - DC/AC Electricity

Hours--Class: 3 Lab: 6 Clinic/Work Exp: 0 Credit: 5

This course introduces the fundamental concepts of and computations related to DC/AC electricity. Emphasis is placed on DC/AC circuits, components, operation of test equipment; and other related topics. Upon completion, students should be able to construct, verify, and analyze simple DC/AC circuits.

Prerequisites: None. Corequisites: MAT 003.

When Offered: (F, On Demand)

ELC 113 - Residential Wiring

Hours--Class: 2 Lab: 6 Clinic/Work Exp: 0 Credit: 4

This course introduces the care/usage of tools and materials used in residential electrical installations and the requirements of the National Electrical Code. Topics include NEC, electrical safety, and electrical print reading; planning, layout; and installation of electrical distribution equipment; lighting; overcurrent protection; conductors; branch circuits; and conduits. Upon completion, students should be able to properly install conduits, wiring, and electrical distribution equipment associated with residential electrical installations.

Prerequisites: None. Corequisites: None.

When Offered: (F, On Demand)

ELC 114 - Commercial Wiring

Hours--Class: 2 Lab: 6 Clinic/Work Exp: 0 Credit: 4

This course provides instruction in the application of electrical tools, materials, and test equipment associated with commercial electrical installations. Topics include the NEC; safety; electrical blueprints; planning, layout, and installation of equipment and conduits; and wiring devices such as panels and overcurrent devices. Upon completion, students should be able to properly install equipment and conduit associated with commercial electrical installations.

Prerequisites: ELC 113 must pass with a grade of C or higher.

Corequisites: None.

When Offered: (S, On demand)

ELC 115 - Industrial Wiring

Hours--Class: 2 Lab: 6 Clinic/Work Exp: 0 Credit: 4

This course covers layout, planning, and installation of wiring systems in industrial facilities. Emphasis is placed on industrial wiring methods and materials. Upon completion, students should be able to install industrial systems and equipment.

Prerequisites: ELC 113 must pass with a grade of C or higher. Corequisites: None.

When Offered: (On Demand)

ELC 117 - Motors and Controls

Hours--Class: 2 Lab: 6 Clinic/Work Exp: 0 Credit: 4

This course introduces the fundamental concepts of motors and motor controls. Topics include ladder diagrams, pilot devices, contractors, motor starters, motors, and other control devices. Upon completion, students should be able to properly select, connect, and troubleshoot motors and control circuits.

Prerequisites: ELC 112 or ELC 131 must pass with a grade of C or higher.

Corequisites: BPR 111.

When Offered: (S)

ELC 118 - National Electrical Code

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course covers the use of the current National Electrical Code. Topics include the NEC history, wiring methods, overcurrent protection, materials, and other related topics. Upon completion, students should be able to effectively use the NEC.

Prerequisites: None. Corequisites: None.

When Offered: (F, On Demand)

ELC 119 - NEC Calculations

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course covers branch circuit, feeder, and service calculations. Emphasis is placed on sections of the National Electrical Code related to calculations. Upon completion, students should be able to use appropriate code sections to size wire, conduit, and overcurrent devices for branch circuits, feeders, and service.

Prerequisites: None. Corequisites: ELC 118.

When Offered: (F,S, On Demand)

ELC 128 - Intro to PLC

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course introduces the programmable logic controller (PLC) and its associated applications. Topics include ladder logic diagrams, input/output modules, power supplies, surge protection, selection/installation of controllers, and interfacing of controllers with equipment. Upon completion, students should be able to understand basic PLC systems and create simple programs.

Prerequisites: ATR 112 or ELC 112. Corequisites: ELC 117 or ELC 131.

When Offered: (F, S)

ELC 130 - Advanced Motors/Controls

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course covers motors concepts, construction and characteristics and provides a foundation in motor controls. Topics include motor control ladder logic, starters, timers, overload protection, braking, reduced voltage starting, SCR control, AC/DC drives, system and component level troubleshooting. Upon completion, students should be able to specify, connect, control, troubleshoot, and maintain motors and motor control systems.

Prerequisites: ATR 112, ELC 135; and ELC 112 or ELC 131. Corequisites: None.

When Offered: (F)

ELC 131 - Circuit Analysis I

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course introduces DC and AC electricity with an emphasis on circuit analysis, measurements, and operation of test equipment. Topics include DC and AC principles, circuit analysis laws and theorems, components, test equipment operation, circuit simulation, and other related topics. Upon completion, students should be able to interpret circuit schematics; design, construct, verify, and analyze DC/AC circuits; and properly use test equipment.

Prerequisites: MAT 003. Corequisites: None.
When Offered: (F, on demand)

ELC 131A - Circuit Analysis I Lab

Hours--Class: 0 Lab: 3 Clinic/Work Exp: 0 Credit: 1

This course provides laboratory assignments as applied to fundamental principles of DC/AC electricity. Emphasis is placed on measurements and evaluation of electrical components, devices and circuits. Upon completion, the students will gain hands-on experience by measuring voltage, current, and opposition to current flow utilizing various meters and test equipment.

Prerequisites: None. Corequisite(s): ELC 131; and MAT 172 or MAT 122.
When Offered: (S)

ELC 135 - Electrical Machines

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course covers magnetic circuits, transformers, DC/AC machines, and the three-phase circuit fundamentals including power factor. Topics include magnetic terms and calculations, transformer calculations based on primary or secondary equivalent circuits, and regulation and efficiency calculations. Upon completion, students should be able to perform regulation and efficiency calculations for DC/AC machine circuits.

Prerequisites: ELC 112 or ELC 131 must pass with a grade of C or higher.
Corequisites: MAT 121 or MAT 171 or MAT 271.
When Offered: (S)

ELC 213 - Instrumentation

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course covers the fundamentals of instrumentation used in industry. Emphasis is placed on electric, electronic, and other instruments. Upon completion, students should be able to install, maintain, and calibrate instrumentation.

Prerequisites: ATR 112, and ELC 112 or ELC 131; must pass with a grade of C or higher. Corequisites: None.
When Offered: (S)

Electronics**ELN 131 - Analog Electronics I**

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course introduces the characteristics and applications of semiconductor devices and circuits. Emphasis is placed on analysis, selection, biasing, and applications. Upon completion, students should be able to construct, analyze, verify, and troubleshoot analog circuits using appropriate techniques and test equipment.

Prerequisites: ELC 131, and MAT 171 or MAT 121; must pass with a grade of C or higher. Corequisites: ELC 131A.
When Offered: (S)

ELN 132 - Analog Electronics II

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course covers additional applications of analog electronic circuits with an emphasis on analog and mixed signal integrated circuits (IC). Topics include amplification, filtering, oscillation, voltage regulation, and other analog circuits. Upon completion, students should be able to construct, analyze, verify, and troubleshoot analog electronic circuits using appropriate techniques and test equipment.

Prerequisites: ELN 131 must pass with a grade of C or higher. Corequisites: None.
When Offered: (F)

ELN 133 - Digital Electronics

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course covers combinational and sequential logic circuits. Topics include number systems, Boolean algebra, logic families, medium scale integration (MSI) and large scale integration (LSI) circuits, analog to digital (A/D), and digital to analog (D/A) conversion, and other related topics. Upon completion, students should be able to construct, analyze, verify, and

troubleshoot digital circuits using appropriate techniques and test equipment.

Prerequisites: ELC 131 and MAT 121 or MAT 171 must pass with a grade of C or higher. Corequisites: None.
When Offered: (F)

ELN 229 - Industrial Electronics

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course covers semiconductor devices used in industrial applications. Topics include the basic theory, application, and operating characteristics of semiconductor devices. Upon completion, students should be able to construct and/or troubleshoot these devices for proper operation in an industrial electronic circuit.

Prerequisites: ELC 112 or ELC 131 must pass with a grade of C or higher.
Corequisites: None.
When Offered: (F, S)

ELN 232 - Intro to Microprocessors

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course introduces microprocessor architecture and microcomputer systems including memory and input/output interfacing. Topics include low-level language programming, bus architecture, I/O systems, memory systems, interrupts, and other related topics. Upon completion, students should be able to interpret, analyze, verify, and troubleshoot fundamental microprocessor circuits and programs using appropriate techniques and test equipment.

Prerequisites: ELN 133, CSC 134 must pass with a grade of C or higher.
Corequisites: None.
When Offered: (S)

ELN 234 - Communication Systems

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course introduces the fundamentals of electronic communication systems. Topics include the frequency spectrum, electrical noise, modulation techniques, characteristics of transmitters and receivers, and digital communications. Upon completion, students should be able to interpret analog and digital communication circuit diagrams, analyze transmitter and receiver circuits, and use appropriate communication test equipment.

Prerequisites: ELN 132 must pass with a grade of C or higher. Corequisites: None.
When Offered: (S)

ELN 260 - Prog Logic Controllers

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course provides a detailed study of PLC applications, with a focus on design of industrial controls using the PLC. Topics include PLC components, memory organization, math instructions, documentation, input/output devices, and applying PLCs in industrial control systems. Upon completion, students should be able to select and program a PLC system to perform a wide variety of industrial control functions.

Prerequisites: ELN 133 or ELC 128, must pass with a grade of C or higher.
Corequisites: None.
When Offered: (S)

Emergency Medical Science**EMS 110 - EMT**

Hours--Class: 6 Lab: 6 Clinic/Work Exp: 3 Credit: 9

This course introduces basic emergency medical care. Topics include preparatory, airway, patient assessment, medical emergencies, trauma, infants and children, and operations. Upon completion, students should be able to demonstrate the knowledge and skills necessary to achieve North Carolina State or National Registry EMT certification.

Prerequisites: None. Corequisites: None.
When Offered: (F)

EMS 120 - Advanced EMT

Hours--Class: 4 Lab: 6 Clinic/Work Exp: 0 Credit: 6

This course is designed to provide the essential information on interventions/treatments appropriate to the Advanced EMT and is required for Advanced EMT certification. Topics include airway management, automatic external defibrillation, cardiac electrophysiology, vascular access, acid-base balance, pharmacology, medical emergencies, traumatic injuries, and fluids and electrolytes. Upon completion, students should be able to properly obtain vascular access, manage medical and trauma patients, utilize simple and advanced airways, and correctly interpret arterial blood gases.

Prerequisites: EMS 110. Corequisites: EMS 121.

EMS 121 - AEMT Clinical Practicum

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 6 Credit: 2

This course provides the hospital and field internship/clinical experiences required in preparation for the Advanced EMT certification. Emphasis is placed on performing patient assessments, treatments, and interactions appropriate at the Advanced EMT level of care. Upon completion, students should be able to demonstrate competence at the Advanced EMT skill level.

Prerequisites: EMS 110. Corequisites: EMS 120

EMS 122 - EMS Clinical Practicum I

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 3 Credit: 1

This course provides the introductory hospital clinical experience for the paramedic student. Emphasis is placed on mastering fundamental paramedic skills. Upon completion, students should be able to demonstrate competence with fundamental paramedic level skills.

Prerequisites: EMS 110. Corequisites: EMS 130.

When Offered: (S)

EMS 125 - EMS Instructor Methodology

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course covers the information needed to develop and instruct EMS courses. Topics include instructional methods, lesson plan development, time management skills, and theories of adult learning. Upon completion, students should be able to teach EMS courses and meet the North Carolina EMS requirements for instructor methodology.

Prerequisites: None. Corequisites: None.

EMS 130 - Pharmacology

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course introduces the fundamental principles of pharmacology and medication administration and is required for paramedic certification. Topics include medical terminology, pharmacological concepts, weights, measures, drug calculations, vascular access for fluids and medication administration and legislation. Upon completion, students should be able to accurately calculate drug dosages, properly administer medications, and demonstrate general knowledge of pharmacology.

Prerequisites: EMS 110, MAT 003. Corequisites: EMS 122.

When Offered: (S)

EMS 131 - Advanced Airway Management

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course is designed to provide advanced airway management techniques and is required for paramedic certification. Topics include respiratory anatomy and physiology, airway/ventilation, adjuncts, surgical intervention, and rapid sequence intubation. Upon completion, students should be able to properly utilize all airway adjuncts and pharmacology associated with airway control and maintenance.

Prerequisites: EMS 110. Corequisites: None.

When Offered: (S)

EMS 140 - Rescue Scene Management

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course introduces rescue scene management. Topics include response to hazardous material conditions, incident command, and extrication of patients from a variety of situations. Upon completion, students should be able to recognize and manage rescue operations based upon initial and follow-up scene assessment. Students are expected to participate in hands-on training and simulated incidents.

Prerequisites: Enrollment in EMS program. Corequisites: None.

When Offered: (SU)

EMS 160 - Cardiology I

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course introduces the study of cardiovascular emergencies and is required for paramedic certification. Topics include anatomy and physiology, pathophysiology, electrophysiology, and rhythm interpretation. Upon completion, students should be able to recognize and interpret rhythms.

Prerequisites: EMS 110, and Enrollment in EMS program. Corequisites:

None.

When Offered: (S)

EMS 220 - Cardiology II

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course provides an in-depth study of cardiovascular emergencies and is required for paramedic certification. Topics include assessment and treatment of cardiac emergencies, application and interpretation of advanced electrocardiography utilizing the twelve-lead ECG, cardiac

pharmacology, and patient care. Upon completion, students should be able to assess and treat patients utilizing American Heart Association guidelines.

Prerequisites: EMS 122, EMS 130, EMS 160. Corequisites: None.

When Offered: (SU)

EMS 221 - EMS Clinical Practicum II

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 6 Credit: 2

This course provides clinical experiences in the hospital and/or field. Emphasis is placed on increasing the proficiency of students' skills and abilities in patient assessments and the delivery of care. Upon completion, students should be able to demonstrate continued progress in advanced-level patient care.

Prerequisites: EMS 122, EMS 130. Corequisites: None.

When Offered: (SU)

EMS 231 - EMS Clinical Pract III

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 9 Credit: 3

This course provides clinical experiences in the hospital and/or field. Emphasis is placed on enhancing the students' skills and abilities in providing advanced level care. Upon completion, students should be able to demonstrate continued progress in advanced-level patient care.

Prerequisites: EMS 130, EMS 221. Corequisites: None.

When Offered: (F)

EMS 235 - EMS Management

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course stresses the principles of managing a modern emergency medical service system. Topics include structure and function of municipal governments, EMS grantsmanship, finance, regulatory agencies, system management, legal issues, and other topics relevant to the EMS manager.

Upon completion, students should be able to understand the principles of managing emergency medical service delivery systems.

Prerequisites: Enrollment in EMS program. Corequisites: None.

When Offered: (F)

EMS 240 - Patients W/ Special Challenges

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course includes concepts of crisis intervention and techniques of interacting with patients with special challenges and is required for paramedic certification. Topics include appropriate intervention and interaction for neglected, abused, terminally ill, chronically ill, technology assisted, bariatric, physically challenged, mentally challenged, or assaulted patients as well as behavioral emergencies. Upon completion, students should be able to recognize and manage the care of patients with special challenges.

Prerequisites: EMS 122, EMS 130. Corequisites: None.

When Offered: (SU)

EMS 241 - EMS Clinical Practicum IV

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 12 Credit: 4

This course provides clinical experiences in the hospital and/or field. Emphasis is placed on mastering the skills/competencies required of the paramedic providing advanced-level care. Upon completion, students should be able to provide advanced-level patient care as an entry-level paramedic.

Prerequisites: EMS 130, EMS 231. Corequisites: EMS 285.

When Offered: (S)

EMS 250 - Medical Emergencies

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course provides an in-depth study of medical conditions frequently encountered in the prehospital setting and is required for paramedic certification. Topics include appropriate interventions/treatments for disorders/ diseases/injuries affecting the following systems: respiratory, neurological, abdominal/gastrointestinal, endocrine, genitourinary, musculoskeletal, and immunological as well as toxicology, infectious diseases and diseases of the eyes, ears, nose and throat. Upon completion, students should be able to recognize, assess and manage the care of frequently encountered medical conditions based upon initial patient assessment.

Prerequisites: EMS 122, EMS 130. Corequisites: None.

When Offered: (F)

EMS 260 - Trauma Emergencies

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course provides in-depth study of trauma including pharmacological interventions for conditions frequently encountered in the prehospital setting and is required for paramedic certification. Topics include an overview of thoracic, abdominal, genitourinary, orthopedic, neurological, and multi-

system trauma, soft tissue trauma of the head, neck, and face as well as environmental emergencies. Upon completion, students should be able to recognize and manage trauma situations based upon patient assessment and should adhere to standards of care.

Prerequisites: EMS 122, EMS 130. Corequisites: None.

When Offered: (SU)

EMS 270 - Life Span Emergencies

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course covers medical/ethical/legal issues and the spectrum of age-specific emergencies from conception through death required for paramedic certification. Topics include gynecological, obstetrical, neonatal, pediatric, and geriatric emergencies and pharmacological therapeutics. Upon completion, students should be able to recognize and treat age-specific emergencies.

Prerequisites: EMS 122, EMS 130. Corequisites: None.

When Offered: (F)

EMS 280 - EMS Bridging Course

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course is designed to provide currently credentialed state or national Paramedic students with the most current education trends in Paramedic Practice. Emphasis is placed on transitions in healthcare. Upon completion, students should be able to integrate emerging trends in pre-hospital care.

Prerequisites: None. Corequisites: None.

EMS 285 - EMS Capstone

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course provides an opportunity to demonstrate problem-solving skills as a team leader in simulated patient scenarios and is required for paramedic certification. Emphasis is placed on critical thinking, integration of didactic and psychomotor skills, and effective performance in simulated emergency situations. Upon completion, students should be able to recognize and appropriately respond to a variety of EMS-related events. Students will be challenged to perform under adverse conditions which may include but are not limited to inclement weather, faulty equipment, non-cooperative patients and insufficient help.

Prerequisites: EMS 220, EMS 250, EMS 260. Corequisites: None.

When Offered: (S)

English

ENG 002 - Transition English

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3

This course provides an opportunity to customize foundational English content in specific areas and will include developing a growth mindset. Topics include developing the academic habits, learning strategies, social skills, and growth mindset necessary to be successful in college-level English. Upon completion, students should be able to build a stronger foundation for success in their gateway level English courses by obtaining skills through a variety of instructional strategies with emphasis placed on the most essential prerequisite knowledge.

Prerequisite: None. Corequisite: None.

When Offered: (F,S,SU)

ENG 011 - Writing and Inquiry Support

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course is designed to support students in the development of skills necessary for success in ENG 111 by complementing, supporting, and reinforcing ENG 111 Student Learning Outcomes. Emphasis is placed on developing a growth mindset, expanding skills for use in active reading and writing processes, recognizing organizational relationships within texts from a variety of genres and formats, and employing appropriate technology when reading and composing texts. Upon completion, students should be able to apply active reading strategies to college-level texts and produce unified, well-developed writing using standard written English.

Prerequisite: None. Corequisite: None.

When Offered: (F,S,SU)

ENG 102 - Applied Communications II

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is designed to enhance writing and speaking skills for the workplace. Emphasis is placed on generating short writings such as job application documents, memoranda, and reports and developing interpersonal communication skills with employees and the public. Upon completion, students should be able to prepare effective, short, and job-related written and oral communications.

Prerequisites: None. Corequisites: None.

When Offered: (On Demand)

ENG 111 - Writing and Inquiry

(UGETC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is designed to develop the ability to produce clear writing in a variety of genres and formats using a recursive process. Emphasis includes inquiry, analysis, effective use of rhetorical strategies, thesis development, audience awareness, and revision. Upon completion, students should be able to produce unified, coherent, well-developed essays using standard written English.

Prerequisites: ENG 002. Corequisites: ENG 011 may be required. Consult the Advising Center for more information.

When Offered: (F, S, SU)

ENG 112 - Writing/Research in the Disciplines

(UGETC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course, the second in a series of two, introduces research techniques, documentation styles, and writing strategies. Emphasis is placed on analyzing information and ideas and incorporating research findings into documented writing and research projects. Upon completion, students should be able to evaluate and synthesize information from primary and secondary sources using documentation appropriate to various disciplines.

Prerequisites: ENG 111 must pass with a grade of C or higher.

Corequisites: None.

When Offered: (F, S, SU)

ENG 113 - Literature-Based Research

(GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course, the second in a series of two, expands the concepts developed in ENG 111 by focusing on writing that involves literature-based research and documentation. Emphasis is placed on critical reading and thinking and the analysis and interpretation of prose, poetry, and drama: plot, characterization, theme, cultural context, etc. Upon completion, students should be able to construct mechanically-sound, documented essays and research papers that analyze and respond to literary works.

Prerequisites: ENG 111 must pass with a grade of C or higher. Corequisites: None.

When Offered: (F, S, SU)

ENG 114 - Prof Research & Reporting

(GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course, the second in a series of two, is designed to teach professional communication skills. Emphasis is placed on research, listening, critical reading and thinking, analysis, interpretation, and design used in oral and written presentations. Upon completion, students should be able to work individually and collaboratively to produce well-designed business and professional written and oral presentations.

Prerequisites: ENG 111 must pass with a grade of C or higher. Corequisites: None.

When Offered: (F, S, SU)

ENG 125 - Creative Writing I

(PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is designed to provide students with the opportunity to practice the art of creative writing. Emphasis is placed on writing, fiction, poetry, and sketches. Upon completion, students should be able to craft and critique their own writing and critique the writing of others.

Prerequisites: ENG 111 must pass with a grade of C or higher. Corequisites: None.

When Offered: (F, S)

ENG 126 - Creative Writing II

(PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is designed as a workshop approach for advancing imaginative and literary skills. Emphasis is placed on the discussion of style, techniques, and challenges for first publications. Upon completion, students should be able to submit a piece of their writing for publication.

Prerequisites: ENG 125 must pass with a grade of C or higher. Corequisites: None.

When Offered: (F, S)

ENG 131 - Introduction to Literature

(GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the principal genres of literature. Emphasis is placed on literary terminology, devices, structure, and interpretation. Upon completion, students should be able to analyze and respond to literature.

Prerequisites: ENG 111. Corequisites: ENG 112 or ENG 113 or ENG 114.

When Offered: (F, S)

ENG 134 - Introduction to Poetry (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides intensive study of the poem as a literary form, based on close reading of representative texts. Emphasis is placed on the development and analysis of poetry. Upon completion, students should be able to interpret, analyze, and discuss the distinguishing features of poetry.

Prerequisites: ENG 111. Corequisites: ENG 112, ENG 113, or ENG 114.
When Offered: (On demand)

ENG 231 - American Literature I (UGETC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers selected works in American literature from its beginnings to 1865. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to analyze and interpret literary works in their historical and cultural contexts.

Prerequisites: ENG 112 or ENG 113 or ENG 114 must pass with a grade of C or higher. Corequisites: None.
When Offered: (F, S, SU)

ENG 232 - American Literature II (UGETC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers selected works in American literature from 1865 to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to analyze and interpret literary works in their historical and cultural contexts.

Prerequisites: ENG 112 or ENG 113 or ENG 114 must pass with a grade of C or higher. Corequisites: None.
When Offered: (F, S, SU)

ENG 235 - Survey of Film as Lit (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides a study of the medium of film with a focus on the historical impact and the various literary genres of movies. Emphasis is placed on an appreciation of film as a form of literature which demonstrates various elements of fiction (character, setting, theme, etc.). Upon completion, students should be able to analyze film critically in various literary contexts.

Prerequisites: ENG 113 must pass with a grade of C or higher.
Corequisites: None.
When Offered: (S)

ENG 241 - British Literature I (UGETC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers selected works in British literature from its beginnings to the Romantic Period. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts.

Prerequisites: ENG 112 or ENG 113 or ENG 114 must pass with a grade of C or higher. Corequisites: None.
When Offered: (F, S, SU)

ENG 242 - British Literature II (UGETC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers selected works in British literature from the Romantic Period to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts.

Prerequisites: ENG 112 or ENG 113 or ENG 114 must pass with a grade of C or higher. Corequisites: None.
When Offered: (F, S, SU)

ENG 251 - Western World Literature I (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides a survey of selected European works from the Classical period through the Renaissance. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works.

Prerequisites: ENG 112 or ENG 113 or ENG 114 must pass with a grade of C or higher. Corequisites: None.
When Offered: (F)

ENG 252 - Western World Literature II (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides a survey of selected European works from the Neoclassical period to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works.

Prerequisites: ENG 112 or ENG 113 or ENG 114 must pass with a grade of C or higher. Corequisites: None.
When Offered: (S)

ENG 272 - Southern Literature (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides an analytical study of the works of several Southern authors. Emphasis is placed on the historical and cultural contexts, themes, aesthetic features of individual works, and biographical backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and discuss selected works.

Prerequisites: ENG 112, ENG 113, or ENG 114 . Corequisites: None.
When Offered: (On demand)

ENG 273 - African-American Literature (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides a survey of the development of African-American literature from its beginnings to the present. Emphasis is placed on historical and cultural context, themes, literary traditions, and backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and respond to selected texts.

Prerequisites: ENG 112 or ENG 113 or ENG 114 must pass with a grade of C or higher. Corequisites: None.
When Offered: (F)

ENG 274 - Literature by Women (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides an analytical study of the works of several women authors. Emphasis is placed on the historical and cultural contexts, themes and aesthetic features of individual works, and biographical backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and discuss selected works.

Prerequisites: ENG 112 or ENG 113 or ENG 114. Corequisites: None.
When Offered: (On demand)

ENG 275 - Science Fiction (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the relationships between science and literature through analysis of short stories and novels. Emphasis is placed on scientific discoveries that shaped Western culture and our changing view of the universe as reflected in science fiction literature. Upon completion, students should be able to trace major themes and ideas and illustrate relationships between science, world view, and science fiction literature.

Prerequisites: ENG 112 or ENG 113 or ENG 114 must pass with a grade of C or higher. Corequisites: None.
When Offered: (S)

Emergency Preparedness**EPT 120 - Sociology of Disaster**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is designed to overview sociological disaster research, disaster systems, and alternative research approaches. Topics include human and organizational behaviors, long disaster impact on communities, disaster warning, and evacuation considerations. Upon completion, students should be able to assess and predict the impact of disaster-related human behavior.

Prerequisites: None. Corequisites: None.
When Offered: (F)

EPT 124 - EM Services Law & Ethics

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers federal and state laws that affect emergency service personnel in the event of a natural disaster or terrorist incident. Topics include initial response and long-term management strategies, with an emphasis on legal and ethical considerations and coordination between local, state, and federal agencies. Upon completion, students should have an understanding of the role of private industry, government agencies, public policies, and federal/state declarations of disasters in emergency situations.

Prerequisites: None. Corequisites: None.
When Offered: (S)

EPT 130 - Mitigation & Preparedness

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the mitigation and preparation techniques and methods necessary to minimize the impact of natural, technological, and man-made disasters. Topics include hazard identification and mapping, design and construction applications, financial incentives, insurance, structural controls, preparation, planning, assessment, implementation, and exercises. Upon completion students should be able to develop a mitigation and preparedness plan.

Prerequisites: None. Corequisites: None.
When Offered: (S)

EPT 140 - Emergency Management

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the four phases of emergency management: mitigation, preparedness, response, and recovery. Topics include organizing for emergency management, coordinating for community resources, public sector liability, and the roles of government agencies at all levels. Upon completion, students should be able to demonstrate an understanding of comprehensive emergency management and the integrated emergency management system.

Prerequisites: None. Corequisites: None.
When Offered: (S)

EPT 150 - Incident Management

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the National Incident Management System (NIMS). Topics include integrating command and control systems, maintaining communication within command and control systems, and using NIMS procedures. Upon completion, students should be able to demonstrate knowledge of key concepts necessary for operating within the National Incident Management System.

Prerequisite: None. Corequisite: None.
When Offered: (F)

EPT 210 - Response & Recovery

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the basic concepts, operational procedures, and authorities involved in response and recovery efforts to major disasters. Topics include federal, state, and local roles and responsibilities in major disaster, response, and recovery work, with an emphasis on governmental coordination. Upon completion, students should be able to implement a disaster response plan and assess the needs of those involved in a major disaster.

Prerequisite: None. Corequisite: None.
When Offered: (F)

EPT 220 - Terrorism and Emer. Mgt.

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers preparing for, responding to, and safely mitigating terrorism incidents. Topics include the history of terrorism, scene hazards, evidence preservation, risk assessment, roles and responsibilities, explosive recognition, and terrorism planning. Upon completion, students should be able to recognize the threat of terrorism and operate within the emergency management framework at a terrorism incident.

Prerequisite: None. Corequisite: None.
When Offered: (F)

EPT 225 - Haz Analysis/Risk Assess

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the probability and frequency of hazards, level of hazard exposure, and the effect or cost, both direct and indirect, of this exposure. Topics include identifying and characterizing hazards, evaluating hazard severity and frequency, estimating risks, and determining potential societal and economic effects. Upon completion, students should be able to identify the potential hazards and risks within a community.

Prerequisite: None. Corequisite: None.
When Offered: (On Demand)

EPT 230 - Emergency Planning

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the rationale for and methods related to a comprehensive approach to emergency planning. Topics include the emergency planning process, command arrangement, coordination, budgetary issues, environmental contamination issues, and public policy concerns. Upon completion, students should be able to develop an emergency plan for a community.

Prerequisite: None. Corequisite: None.
When Offered: (On Demand)

EPT 260 - Business Continuity

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers emergency preparedness techniques necessary to maintain business continuity. Topics include critical processes, planning, risk assessment, impact analysis, mitigation strategies, response, recovery and resumption activities. Upon completion, students should be able to demonstrate a working knowledge of the partnership between business and emergency response.

Prerequisite: None. Corequisites: None.
When Offered: (On Demand)

EPT 275 - Emergency Ops Center Mgt

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides students with the knowledge and skills to effectively manage and operate an emergency operations center (EOC) during crisis situations. Topics include properly locating and designing an EOC, staffing, training and briefing EOC personnel, and how to operate an EOC. Upon completion, students should be able to demonstrate how to set up and operate an effective emergency operations center.

Prerequisite: None. Corequisite: None.
When Offered: (S)

EPT 280 - Building Resilient Comm

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers concepts needed to design and implement strategies in protecting communities from disasters, including decreasing community vulnerability and increasing community resiliency. Topics include disclosure of hazards, lifeline systems, evacuation planning, infrastructure location, analysis of building codes, public policy, natural environmental proactive systems, and educational programs. Upon completion, students should be able to develop a basic disaster-resilient community plan.

Prerequisite: None. Corequisite: None.
When Offered: (On Demand)

Entrepreneurship**ETR 215 - Law for Entrepreneurs**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces students to basic legal concepts specifically relevant to a business start-up venture. Topics include bailments and documents of title, nature and form of sales, risk and property rights, obligations and performance, business organizations, and agency and employment. Upon completion, students should be able to assess the legal responsibilities of a business start-up.

Prerequisites: None. Corequisites: None.
When Offered: (S)

ETR 220 - Innovation and Creativity

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides a study of developing and enhancing individual and organizational creativity and innovation. Topics include that innovation needs to be applied to products, services, and processes to increase competitive advantages and add value to businesses. Upon completion, students should be able to apply innovation and creativity principles in the work place.

Prerequisites: None. Corequisites: None.
When Offered: (F)

ETR 230 - Entrepreneur Marketing

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the techniques to correctly research and define the target market to increase sales for start-up businesses or to expand current businesses. Topics include how to target market and meet customers' needs with a limited budget in the early stages of the life of a start-up business. Upon completion, students should be able to demonstrate an understanding of how to correctly target market for a start-up business with limited resources.

Prerequisites: None. Corequisites: None.
When Offered: (F)

ETR 240 - Funding for Entrepreneurs

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides a focus on the financial issues and needs confronting entrepreneurs attempting to grow their businesses by attracting start-up and growth capital. Topics include sources of funding including: angel investors, venture capital, IPO's, private placement, banks, suppliers, buyers, partners, and the government. Upon completion, students should be able to

demonstrate an understanding of how to effectively finance a business venture.

Prerequisites: ACC 120. Corequisites: None.

When Offered: (S)

ETR 270 - Entrepreneurship Issues

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces current and emerging entrepreneurship issues and opportunities. Topics include franchising, import/export, small business taxes, legal structures, negotiations, contract management, and time management. Upon completion, students should be able to apply a variety of analytical and decision-making requirements to start a new business.

Prerequisites: None. Corequisites: None.

When Offered: (S)

Fire Protection

FIP 120 - Intro to Fire Protection

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides an overview of the history, development, methods, systems, and regulations that apply to the fire protection field. Topics include history, evolution, statistics, suppression, organizations, careers, curriculum, and other related topics. Upon completion, students should be able to demonstrate a broad understanding of the fire protection field.

Prerequisites: None. Corequisites: None.

When Offered: (F)

FIP 124 - Fire Prevention & Public Ed

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces fire prevention concepts as they relate to community and industrial operations referenced in NFPA standard 101. Topics include the development and maintenance of fire prevention programs, educational programs, and inspection programs. Upon completion, students should be able to research, develop, and present a fire safety program to a citizens or industrial group.

Prerequisites: None. Corequisites: None.

When Offered: (F)

FIP 128 - Detection & Investigation

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers procedures for determining the origin and cause of accidental and incendiary fires referenced in NFPA standard 921. Topics include collection and preservation of evidence, detection and determination of accelerants, courtroom procedure and testimony, and documentation of the fire scene. Upon completion, students should be able to conduct a competent fire investigation and present those findings to appropriate officials or equivalent.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

FIP 132 - Building Construction

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the principles and practices referenced in NFPA standard 220 related to various types of building construction, including residential and commercial, as impacted by fire conditions. Topics include types of construction and related elements, fire resistive aspects of construction materials, building codes, collapse, and other related topics. Upon completion, students should be able to understand and recognize various types of construction as related to fire conditions.

Prerequisites: None. Corequisites: None.

When Offered: (F)

FIP 136 - Inspections & Codes

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the fundamentals of fire and building codes and procedures to conduct an inspection referenced in NFPA standard 1730. Topics include review of fire and building codes, writing inspection reports, identifying hazards, plan reviews, site sketches, and other related topics. Upon completion, students should be able to conduct a fire code compliance inspection and produce a written report.

Prerequisites: None. Corequisites: None.

When Offered: (S)

FIP 140 - Industrial Fire Protection

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers fire protection systems in industrial facilities referenced in NFPA standard 1. Topics include applicable health and safety standards, insurance carrier regulations, other regulatory agencies, hazards of local industries, fire brigade operation, and loss prevention programs. Upon

completion, students should be able to plan and evaluate an industrial facility's fire protection program.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

FIP 146 - Fire Protection Systems

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course introduces various types of automatic sprinklers, standpipes, fire alarm systems, and fixed and portable extinguishing systems referenced in NFPA standard 25, including their operation, installation, and maintenance. Topics include wet and dry systems, testing and maintenance, water supply requirements, fire detection and alarm systems, including application, testing, and maintenance of Halon, carbon dioxide, dry chemical, and special extinguishing agents utilized in fixed and portable systems. Upon completion, students should be able to demonstrate a working knowledge of sprinkler and alarm systems, both fixed and portable, including appropriate application, operation, inspection, and maintenance requirements.

Prerequisites: None. Corequisites: None.

When Offered: (F)

FIP 152 - Fire Protection Law

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers fire protection law as referenced in NFPA standard 1. Topics include torts, legal terms, contracts, liability, review of case histories, and other related topics. Upon completion, students should be able to discuss laws, codes, and ordinances as they relate to fire protection.

Prerequisites: None. Corequisites: None.

When Offered: (S)

FIP 164 - OSHA Standards

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers public and private sector OSHA work site requirements referenced in NFPA standard 1250. Emphasis is placed on accident prevention and reporting, personal safety, machine operations, and hazardous material handling. Upon completion, students should be able to analyze and interpret specific OSHA regulations and write workplace policies designed to achieve compliance.

Prerequisites: None. Corequisites: None.

When Offered: (S)

FIP 220 - Fire Fighting Strategies

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides preparation for command of initial incident operations involving emergencies within both the public and private sector referenced in NFPA standards 1561, 1710, and 1720. Topics include incident management, fire-ground tactics and strategies, incident safety, and command/control of emergency operations. Upon completion, students should be able to describe the initial incident system as it relates to operations involving various emergencies in fire and non-fire situations.

Prerequisites: None. Corequisites: None.

When Offered: (F)

FIP 221 - Adv Fire Fighting Strat

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers command-level operations for multi-company/agency operations involving fire and non-fire emergencies. Topics include advanced use of the Incident Command System (ICS), advanced incident analysis, command-level fire operations, and control of both man-made and natural major disasters. Upon completion, students should be able to describe proper and accepted systems for the mitigation of emergencies at the level of overall scene command.

Prerequisites: FIP 220. Corequisites: None.

When Offered: (On demand)

FIP 224 - Fire Instructor I & II

Hours--Class: 4 Lab: 0 Clinic/Work Exp: 0 Credit: 4

This course covers the knowledge, skills, and abilities needed to train others in fire service operations. Topics include planning, presenting, and evaluating lesson plans, learning styles, use of media, communication, and other related topics. Upon completion, students should be able to meet all requirements of the Fire Instructor I and II objectives from National Fire Protection Association (NFPA) 1041.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

FIP 226 - Fire Officer I & II

Hours--Class: 4 Lab: 0 Clinic/Work Exp: 0 Credit: 4

This course covers the knowledge, skills, and requirements referenced in the National Fire Protection Association (NFPA) Standard 1021 for Fire Officer I

and II training. Topics include officer roles and responsibilities, budgets, fire cause determination, inspections, education, leadership, management, public relations, and other requirements included in the NFPA standard. Upon completion, students should be able to demonstrate an understanding of relevant NFPA standards as required for state Fire Officer I and II certification.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

FIP 228 - Local Govt Finance

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces local governmental financial principles and practices. Topics include budget preparation and justification, revenue policies, statutory requirements, taxation, audits, and the economic climate. Upon completion, students should be able to comprehend the importance of finance as it applies to the operation of a department.

Prerequisites: None. Corequisites: None.
When Offered: (S)

FIP 229 - Fire Dynamics and Combust

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the theories and fundamentals of how and why fires start and spread, and how they are safely controlled referenced in NFPA standard 1001. Topics include components of fire, fire sources, fire behavior, properties of combustible solids, classification of hazards, and the use of fire extinguishing agents. Upon completion, students should be able to describe the properties of matter and dynamics of fire, identify fuel sources, and compare suppressants and extinguishment techniques.

Prerequisites: None. Corequisites: None.
When Offered: (F)

FIP 230 - Chem of Hazardous Mat I

Hours--Class: 5 Lab: 0 Clinic/Work Exp: 0 Credit: 5

This course covers the evaluation of hazardous materials referenced in NFPA standard 1072. Topics include use of the periodic table, hydrocarbon derivatives, placards and labels, parameters of combustion, and spill and leak mitigation. Upon completion, students should be able to demonstrate knowledge of the chemical behavior of hazardous materials.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

FIP 240 - Fire Service Supervision

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers supervisory skills and practices in the fire protection field. Topics include the supervisor's job, supervision skills, the changing work environment, managing change, organizing for results, discipline and grievances, and safety. Upon completion, students should be able to demonstrate an understanding of the roles and responsibilities of effective fire service supervision, meeting elements of NFPA 1021.

Prerequisites: None. Corequisites: None.
When Offered: (F)

FIP 248 - Fire Svc Personnel Adm

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the basics of setting up and administering the personnel functions of fire protection organizations referenced in NFPA standard 1021. Emphasis is placed on human resource planning, classification and job analysis, equal opportunity employment, affirmative action, recruitment, retention, development, performance evaluation, and assessment centers. Upon completion, students should be able to demonstrate knowledge of the personnel function as it relates to managing fire protection.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

FIP 276 - Managing Fire Services

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides an overview of fire department operative services referenced in NFPA standard 1021. Topics include finance, staffing, equipment, code enforcement, management information, specialized services, legal issues, planning, and other related topics. Upon completion, students should be able to understand concepts and apply fire department management and operations principles.

Prerequisites: None. Corequisites: None.
When Offered: (S)

French

FRE 111 - Elementary French I (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the fundamental elements of the French language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written French and demonstrate cultural awareness.

Prerequisites: None. Corequisites: None.
When Offered: (F)

FRE 112 - Elementary French II (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is a continuation of FRE 111 focusing on the fundamental elements of the French language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written French and demonstrate further cultural awareness.

Prerequisites: FRE 111 must pass with a grade of C or higher. Corequisites: None.
When Offered: (S)

FRE 211 - Intermediate French I (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides a review and expansion of the essential skills of the French language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future.

Prerequisites: FRE 112 must pass with a grade of C or higher. Corequisites: None.
When Offered: (On demand)

FRE 212 - Intermediate French II (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is a continuation of FRE 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication.

Prerequisites: FRE 211 must pass with a grade of C or higher. Corequisites: None.
When Offered: (On demand)

Geology

GEL 111 - Geology (UGETC)

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course introduces basic landforms and geological processes. Topics include rocks, minerals, volcanoes, fluvial processes, geological history, plate tectonics, glaciers, and coastal dynamics. Upon completion, students should be able to describe basic geological processes that shape the earth.

Prerequisites: MAT 003. Corequisites: ENG 002.
When Offered: (F, S, On demand)

GEL 113 - Historical Geology (GENED)

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course covers the geological history of the earth and its life forms. Emphasis is placed on the study of rock strata, fossil groups, and geological time. Upon completion, students should be able to identify major fossil groups and associated rock strata and approximate ages of geological formations.

Prerequisites: GEL 111 or GEL 120 must pass with a grade of C or higher. Corequisites: None.
When Offered: (On demand)

GEL 120 - Physical Geology (GENED)

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course provides a study of the structure and composition of the earth's crust. Emphasis is placed on weathering, erosional and depositional processes, mountain building forces, rocks and minerals, and structural changes. Upon completion, students should be able to explain the structure, composition, and formation of the earth's crust.

Prerequisites: ENG 002, MAT 003. Corequisites: None.
When Offered: (On Demand)

GEL 230 - Environmental Geology (GENED)

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course provides insights into geologic forces that cause environmental changes influencing man's activities. Emphasis is placed on natural hazards and disasters caused by geologic forces. Upon completion, students should be able to relate major hazards and disasters to the geologic forces responsible for their occurrence.

Prerequisites: GEL 111 or GEL 120 or PHS 130 must pass with a grade of C or higher; ENG 002. Corequisites: None.
When Offered: (On demand)

Geography**GEO 111 - World Regional Geography (GENED)**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the regional concept which emphasizes the spatial association of people and their environment. Emphasis is placed on the physical, cultural, and economic systems that interact to produce the distinct regions of the earth. Upon completion, students should be able to describe variations in physical and cultural features of a region and demonstrate an understanding of their functional relationships.

Prerequisites: ENG 002. Corequisites: None.
When Offered: (On demand)

GEO 112 - Cultural Geography (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is designed to explore the diversity of human cultures and to describe their shared characteristics. Emphasis is placed on the characteristics, distribution, and complexity of earth's cultural patterns. Upon completion, students should be able to demonstrate an understanding of the differences and similarities in human cultural groups.

Prerequisites: ENG 002. Corequisites: None.
When Offered: (On demand)

GEO 130 - General Physical Geography (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces both the basic physical components that help shape the earth and the study of minerals, rocks, and evolution of landforms. Emphasis is placed on the geographic grid, cartography, weather, climate, mineral composition, fluvial processes, and erosion and deposition. Upon completion, students should be able to identify these components and processes and explain how they interact.

Prerequisites: ENG 002. Corequisites: None.
When Offered: (On demand)

German**GER 111 - Elementary German I (GENED)**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the fundamental elements of the German language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written German and demonstrate cultural awareness.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

GER 112 - Elementary German II (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is a continuation of GER 111 focusing on the fundamental elements of the German language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written German and demonstrate further cultural awareness.

Prerequisites: GER 111 must pass with a grade of C or higher.
Corequisites: None.
When Offered: (On demand)

Graphic Arts**GRA 121 - Graphic Arts I**

Hours--Class: 2 Lab: 4 Clinic/Work Exp: 0 Credit: 4

This course introduces terminology, tools and materials, procedures, and equipment used in graphic arts production. Topics include copy preparation and pre-press production relative to printing. Upon completion, students should be able to demonstrate an understanding of graphic arts production.

Prerequisites: None. Corequisites: None.
When Offered: (F)

GRA 151 - Computer Graphics I

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course introduces the use of hardware and software for production and design in graphic arts. Topics include graphical user interface and current industry uses such as design, layout, typography, illustration, and imaging for production. Upon completion, students should be able to understand and use the computer as a fundamental design and production tool.

Prerequisites: None. Corequisites: None.
When Offered: (F)

GRA 152 - Computer Graphics II

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course covers advanced design and layout concepts utilizing illustration, page layout, and imaging software in graphic arts. Emphasis is placed on enhancing and developing the skills that were introduced in GRA 151. Upon completion, students should be able to select and utilize appropriate software for design and layout solutions.

Prerequisites: GRA 151, GRD 110, GRD 121, GRD 141. Corequisites: None.
When Offered: (S)

GRA 153 - Computer Graphics III

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course is a continuation of GRA 152. Emphasis is placed on advanced computer graphics hardware and software applications. Upon completion, students should be able to demonstrate competence in selection and utilization of appropriate software for specialized applications.

Prerequisites: GRA 152. Corequisites: None.
When Offered: (F)

GRA 255 - Image Manipulation I

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course covers applications associated with electronic image manipulation, including color correction, color separation, special effects, and image conversion. Topics include image-capturing hardware, image-processing software, and output options. Upon completion, students should be able to utilize hardware and software to acquire, manipulate, and output images to satisfy design and production.

Prerequisites: GRA 151, GRD 110, GRD 121, GRD 141. Corequisites: None.
When Offered: (S)

GRD 110 - Typography I

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces the history and mechanics of type and its application to layout and design. Topics include typographic fundamentals, anatomy, measurements, composition, identification, and terminology. Upon completion, students should be able to demonstrate proficiency in design application, analysis, specification, and creation of typographic elements.

Prerequisites: None. Corequisites: None.
When Offered: (F)

GRD 111 - Typography II

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course is a continuation of GRD 110. Emphasis is placed on solving challenging typographic problems. Upon completion, students should be able to understand and demonstrate advanced typographic applications.

Prerequisites: GRD 110. Corequisites: None.
When Offered: (On demand)

GRD 113 - History of Graphic Design

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the history of graphic design and visual communications. Topics include major trends, developments, influences, and directions. Upon completion, students should be able to understand, recognize, and analyze important historical and world-wide cultural influences found in today's marketing of ideas and products.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

GRD 117 - Design Career Exploration

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course covers opportunities in the graphic design field and employment requirements. Topics include evaluation of career choices, operations, structure of advertising and graphic design businesses, and related business issues. Upon completion, students should be able to demonstrate an understanding of the graphic design field and consider an appropriate personal direction of career specialization.

Prerequisites: None. Corequisites: None.

GRD 121 - Drawing Fundamentals I

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course increases observation skills using basic drawing techniques and media in graphic design. Emphasis is placed on developing the use of graphic design principles, media applications, spatial considerations, drawing styles, and approaches. Upon completion, students should be able to show competence and proficiency in finished works.

Prerequisites: None. Corequisites: None.

When Offered: (F)

GRD 131 - Illustration I

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course introduces the application of rendering techniques to create illustrations. Emphasis is placed on controlling various media, methods, surfaces, design problems, and the appropriate media selection process. Upon completion, students should be able to produce quality illustrations from conception through finished artwork. The course will concentrate on technique, and subject matter will include product, architecture and fashion.

Prerequisites: ART 131 or GRD 121. Corequisites: None.

When Offered: (S)

GRD 141 - Graphic Design I

Hours--Class: 2 Lab: 4 Clinic/Work Exp: 0 Credit: 4

This course introduces the conceptualization process used in visual problem solving. Emphasis is placed on learning the principles of design and on the manipulation and organization of elements. Upon completion, students should be able to apply design principles and visual elements to projects.

Prerequisites: None. Corequisites: None.

When Offered: (F)

GRD 142 - Graphic Design II

Hours--Class: 2 Lab: 4 Clinic/Work Exp: 0 Credit: 4

This course covers the application of visual elements and design principles in advertising and graphic design. Topics include creation of various designs, such as logos, advertisements, posters, outdoor advertising, and publication design. Upon completion, students should be able to effectively apply design principles and visual elements to projects.

Prerequisites: GRD 141. Corequisites: None.

When Offered: (S)

GRD 151 - Computer Design Basics

Hours--Class: 1 Lab: 4 Clinic/Work Exp: 0 Credit: 3

This course covers designing and drawing with various types of software applications for advertising and graphic design. Emphasis is placed on creative and imaginative use of space, shapes, value, texture, color, and typography to provide effective solutions to advertising and graphic design problems. Upon completion, students should be able to use the computer as a creative tool.

Prerequisites: None. Corequisites: None.

When Offered: (S)

GRD 152 - Computer Design Tech I

Hours--Class: 1 Lab: 4 Clinic/Work Exp: 0 Credit: 3

This course covers complex design problems utilizing various design and drawing software applications. Topics include the expressive use of typography, image, and organization to communicate a message. Upon completion, students should be able to use appropriate computer software to professionally present their work.

Prerequisites: GRD 151. Corequisites: None.

When Offered: (On demand)

GRD 167 - Photographic Imaging I

Hours--Class: 1 Lab: 4 Clinic/Work Exp: 0 Credit: 3

This course introduces basic camera operations and photographic production. Topics include subject composition, depth of field, shutter control, light control, color, photo-finishing, and digital imaging, correction and output. Upon completion, students should be able to produce traditional and/or digital photographic prints with acceptable technical and compositional quality.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

GRD 168 - Photographic Imaging II

Hours--Class: 1 Lab: 4 Clinic/Work Exp: 0 Credit: 3

This course introduces advanced camera operations and photographic production. Topics include lighting, specialized equipment, digital image correction and output, and other methods and materials. Upon completion,

students should be able to demonstrate proficiency in producing high quality photographic prints.

Prerequisites: GRD 167. Corequisites: None.

When Offered: (On demand)

GRD 180 - Interactive Design

Hours--Class: 1 Lab: 4 Clinic/Work Exp: 0 Credit: 3

This course covers skills and techniques used in designing interactive presentations. Emphasis is placed on design, including interface design, color, illustration, scripting, audio, typography, and animated elements. Upon completion, students should be able to design and produce interactive presentations.

Prerequisites: GRA 151. Corequisites: None.

When Offered: (S)

GRD 188 - Graphic Design for Web I

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course introduces the application of graphic design principles to web sites and graphics for web/mobile device delivery. Emphasis is placed on visual communication and presentation principles applied to web sites, including page layout, typography, color theory, navigation, responsive design, and image optimization. Upon completion, students should be able to apply the principles of design in the creation of full and mobile websites.

Prerequisites: GRD 141. Corequisites: None.

When Offered: (On demand)

GRD 240 - User Interface/User Experience

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course introduces a design-centric approach to user interface and user experience design, and offers practical, skill-based instruction centered around a visual communications perspective. Emphasis is placed on demonstrating the stages of the UI/UX development process, including user research and analysis, choosing methodologies, defining a project's strategy, scope, and information architecture, developing sitemaps and wireframes, performing user testing, and producing prototypes. Upon completion, students should be able to demonstrate current best practices and conventions in UX design and apply them to create effective and compelling digital screen-based experiences.

Prerequisites: None. Corequisites: None.

GRD 241 - Graphic Design III

Hours--Class: 2 Lab: 4 Clinic/Work Exp: 0 Credit: 4

This course is an advanced exploration of various techniques and media for advertising and graphic design. Emphasis is placed on advanced concepts and solutions to complex and challenging graphic design problems. Upon completion, students should be able to demonstrate competence and professionalism in visual problem solving.

Prerequisites: GRD 142. Corequisites: None.

When Offered: (F)

GRD 242 - Graphic Design IV

Hours--Class: 2 Lab: 4 Clinic/Work Exp: 0 Credit: 4

This course is a continuation of GRD 241. Emphasis is placed on using advanced media techniques, concepts, strategies, and professionalism in all aspects of design. Upon completion, students should be able to conceptualize, create, and produce designs for reproduction.

Prerequisites: GRD 241. Corequisites: None.

When Offered: (On demand)

GRD 249 - Advanced Design Practice

Hours--Class: 1 Lab: 9 Clinic/Work Exp: 0 Credit: 4

This course covers advanced techniques used in graphic design. Emphasis is placed on providing solutions to complex design problems. Upon completion, students should be able to demonstrate advanced levels of competence and professionalism in visual problem solving.

Prerequisites: GRD 241. Corequisites: None.

When Offered: (S)

GRD 263 - Illustrative Imaging

Hours--Class: 1 Lab: 4 Clinic/Work Exp: 0 Credit: 3

This course covers the creative manipulation of images utilizing digital techniques of masking, layering, airbrushing, and painting. Topics include the aesthetic analysis of visual imagery as well as the legalities of manipulating images. Upon completion, students should be able to utilize software applications to creatively manipulate and illustratively build digital images which accomplish design objectives.

Prerequisites: GRD 151 or GRA 151. Corequisites: None.

When Offered: (On demand)

GRD 265 - Digital Print Production

Hours--Class: 1 Lab: 4 Clinic/Work Exp: 0 Credit: 3

This course covers preparation of digital files for output and reproduction. Emphasis is placed on output options, separations, color proofing, and cost and design considerations. Upon completion, students should be able to prepare files and select appropriate output methods for design solutions.

Prerequisites: GRA 151, GRA 152. Corequisites: None.
When Offered: (F)

GRD 271 - Multimedia Design I

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course introduces the fundamentals of multimedia design and production for computer-related presentations. Topics include interface design, typography, storyboarding, scripting, simple animation, graphics, digital audiovideo, and copyright issues. Upon completion, students should be able to design and produce multimedia presentations.

Prerequisites: GRA 151. Corequisites: None.
When Offered: (F)

GRD 273 - New Media Design Communication

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course is designed to cover new media visual design communication, as well as computer-related interactivity production for implementation and presentation. Topics include graphic design for user interactivity, data visualization and motion graphics, social media, digital imaging for user content, mobile devices, and global information services, and creative direction for imaging, 2D and 3D modeling media design solutions. Upon completion, students should be able to design and produce various complex media with computer software imaging technologies that enable digital interactivity as well as motion graphics for global information services.

Prerequisites: GRD 142 and GRD 271. Corequisites: None.
When Offered: (On demand)

GRD 280 - Portfolio Design

Hours--Class: 2 Lab: 4 Clinic/Work Exp: 0 Credit: 4

This course covers the organization and presentation of a design/advertising or graphic art portfolio and appropriate related materials. Emphasis is placed on development and evaluation of the portfolio, design and production of a resume and self-promotional materials, and interview techniques. Upon completion, students should be able to prepare and professionally present an effective portfolio and related self-promotional materials.

Prerequisites: GRA 152, GRD 142, and permission of instructor.
Corequisites: None.
When Offered: (S)

GRD 285 - Client/Media Relations

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course introduces media pricing, scheduling, and business ethics. Emphasis is placed on communication with clients and determination of clients' advertising needs. Upon completion, students should be able to use professional communication skills to effectively orchestrate client/media relationships.

Prerequisites: Take One Set: Set 1: GRD 142 and GRA 121; Set 2: GRD 142 and GRA 152; Set 3: GRD 142 and GRD 152. Corequisites: None.
When Offered: (On demand)

GRD 288 - Graphic Design for Web II

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course covers the advanced use of graphic design principles in front-end design for the multi-page websites. Emphasis is placed on online branding, responsive design, project management, UI/UX, web design using current web standards, and designing for content management systems. Upon completion, students should be able to employ the principles of design in the creation of websites across multiple platforms and devices.

Prerequisites: GRD 188. Corequisites: None.
When Offered: (On demand)

Gerontology**GRO 120 - Gerontology**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the psychological, social, and physical aspects of aging. Emphasis is placed on the factors that promote mental and physical well-being. Upon completion, students should be able to recognize the aging process and its psychological, social, and physical aspects.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

GRO 240 - Gerontology Care Managing

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers community resources; discusses care management, including assessment, care-planning, evaluation, issues of family, high-risk and self-care. Topics include funding, eligibility for community and health resources, care management protocols, care plan development, identification of major resources and barriers to self-care. Upon completion, students will be able to develop a care plan for older adults at various levels of needs, including community and health resources.

Prerequisites: GRO 120. Corequisites: None.
When Offered: (On demand)

Health**HEA 110 - Personal Health/Wellness (PM-ELEC)**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides an introduction to basic personal health and wellness. Emphasis is placed on current health issues such as nutrition, mental health, and fitness. Upon completion, students should be able to demonstrate an understanding of the factors necessary to the maintenance of health and wellness.

Prerequisites: None. Corequisites: None.
When Offered: (F, S)

HEA 112 - First Aid & CPR (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course introduces the basics of emergency first aid treatment. Topics include rescue breathing, CPR, first aid for choking and bleeding, and other first aid procedures. Upon completion, students should be able to demonstrate skills in providing emergency care for the sick and injured until medical help can be obtained.

Prerequisites: None. Corequisites: None.
When Offered: (F, On demand)

HEA 120 - Community Health (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides information about contemporary community health and school hygiene issues. Topics include health education and current information about health trends. Upon completion, students should be able to recognize and devise strategies to prevent today's community health problems.

Prerequisites: None. Corequisites: None.
When Offered: (F, S)

Health and Fitness Science**HFS 110 - Exercise Science**

Hours--Class: 4 Lab: 0 Clinic/Work Exp: 0 Credit: 4

This course is a survey of scientific principles, methodologies, and research as applied to exercise and physical adaptations to exercise. Topics include the basic elements of kinesiology, biomechanics, and motor learning. Upon completion, students should be able to identify and describe physiological responses and adaptations to exercise.

Prerequisites: None. Corequisites: None.
When Offered: (F)

HFS 111 - Fitness & Exer Testing I

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course introduces the student to graded exercise testing. Topics include various exercise testing protocols with methods for prescribing exercise programs based on exercise tolerance tests and the use of various equipment and protocols. Upon completion, students should be able to conduct specific exercise tests and the use of various equipment.

Prerequisites: None. Corequisites: None.
When Offered: (S)

HFS 114 - Phys Fit Theory & Instr

Hours--Class: 4 Lab: 0 Clinic/Work Exp: 0 Credit: 4

This course provides information about related components of fitness and general information about the industry. Topics include the study of the components of fitness, theories of exercise and fitness, and information about the industry. Upon completion, students should be able to identify fitness components and demonstrate these in an exercise setting.

Prerequisites: HFS 110. Corequisites: None.
When Offered: (S)

HFS 116 - Pvnt & Care Exer Injuries

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course provides information about the care and prevention of exercise injuries. Topics include proper procedures, prevention techniques, and on-site care of injuries. Upon completion, students should be able to demonstrate the knowledge and skills necessary to prevent and care for exercise related injuries.

Prerequisites: None. Corequisites: None.
When Offered: (F)

HFS 118 - Fitness Facility Mgmt

Hours--Class: 4 Lab: 0 Clinic/Work Exp: 0 Credit: 4

This course provides information about the management and operation of health and fitness facilities and programs. Topics include human resources, sales and marketing, member retention, financial management, facility design and maintenance, and risk management. Upon completion, students should be able to demonstrate the knowledge and skills necessary to effectively manage a fitness facility.

Prerequisites: None. Corequisites: None.
When Offered: (S)

HFS 120 - Group Exer Instruction

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces the concepts and guidelines of instructing exercise classes. Topics include program designs, working with special populations, and principles of teaching and monitoring physical activity. Upon completion, students should be able to demonstrate basic skills in instructing an exercise class and monitoring workout intensity.

Prerequisites: HFS 110. Corequisites: None.
When Offered: (F)

HFS 210 - Personal Training

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces the student to the aspects of personal (one-on one) training. Topics include training systems, marketing, and program development. Upon completion, students should be able to demonstrate personal training techniques and competencies of same.

Prerequisites: HFS 110, HFS 111. Corequisites: None.
When Offered: (S)

HFS 212 - Exercise Programming

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course provides information about organizing, scheduling, and implementation of physical fitness programs. Topics include programming for various age groups, competitive activities and special events, and evaluating programs. Upon completion, students should be able to organize and implement exercise activities in a competent manner.

Prerequisites: HFS 110. Corequisites: None.
When Offered: (S)

HFS 218 - Lifestyle Chng & Wellness

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course introduces health risk appraisals and their application to lifestyle changes. Topics include nutrition, weight control, stress management, and the principles of exercise. Upon completion, students should be able to conduct health risk appraisals and apply behavior modification techniques in a fitness setting.

Prerequisites: None. Corequisites: None.
When Offered: (S)

History**HIS 111 - World Civilizations I (UGETC)**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces world history from the dawn of civilization to the early modern era. Topics include Eurasian, African, American, and Greco-Roman civilizations and Christian, Islamic and Byzantine cultures. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in pre-modern world civilizations.

Prerequisites: ENG 002. Corequisites: None.
When Offered: (F, S, SU)

HIS 112 - World Civilizations II (UGETC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces world history from the early modern era to the present. Topics include the cultures of Africa, Europe, India, China, Japan, and the Americas. Upon completion, students should be able to analyze significant

political, socioeconomic, and cultural developments in modern world civilizations.

Prerequisites: ENG 002. Corequisites: None.
When Offered: (F, S, SU)

HIS 121 - Western Civilization I (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces western civilization from pre-history to the early modern era. Topics include ancient Greece, Rome, and Christian institutions of the Middle Ages and the emergence of national monarchies in western Europe. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in early western civilization.

Prerequisites: ENG 002. Corequisites: None.
When Offered: (On demand)

HIS 122 - Western Civilization II (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces western civilization from the early modern era to the present. Topics include the religious wars, the Industrial Revolution, World Wars I and II, and the Cold War. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in modern western civilization.

Prerequisites: ENG 002. Corequisites: None.
When Offered: (On demand)

HIS 131 - American History I (UGETC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is a survey of American history from pre-history through the Civil War era. Topics include the migrations to the Americas, the colonial and revolutionary periods, the development of the Republic, and the Civil War. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in early American history.

Prerequisites: ENG 002. Corequisites: None.
When Offered: (F, S, SU)

HIS 132 - American History II (UGETC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is a survey of American history from the Civil War era to the present. Topics include industrialization, immigration, the Great Depression, the major American wars, the Cold War, and social conflict. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in American history since the Civil War.

Prerequisites: ENG 002. Corequisites: None.
When Offered: (F, S, SU)

HIS 141 - Genealogy & Local History (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course explores the role of the local or family historian. Emphasis is placed on historical or genealogical research techniques including a survey of local, state, and national archival resources. Upon completion, students should be able to conduct genealogical research and do a major research project on local or family history.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

HIS 145 - The Second World War (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the period of the Second World War from 1919 to 1945. Topics include the Treaty of Versailles, the rise of totalitarian regimes, the origins of the war, the major military campaigns in Europe and the Pacific, and the aftermath. Upon completion, students should be able to analyze significant political, military, socioeconomic, and cultural developments that influenced the Second World War.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

HIS 151 - Hispanic Civilization (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course surveys the cultural history of Spain and its impact on the New World. Topics include Spanish and Latin American culture, literature, religion, and the arts. Upon completion, students should be able to analyze the cultural history of Spain and Latin America.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

HIS 162 - Women and History (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course surveys the experience of women in historical perspective. Topics include the experiences and contributions of women in culture, politics, economics, science, and religion. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural contributions of women in history.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

HIS 211 - Ancient History (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course traces the development of the cultural, intellectual, and political foundations of western civilization. Topics include the civilizations of the Near East, the classical Greek and Hellenistic eras, the Roman world, Judaism, and Christianity. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in the ancient world.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

HIS 221 - African-American History (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers African-American history from the Colonial period to the present. Topics include African origins, the slave trade, the Civil War, Reconstruction, the Jim Crow era, the civil rights movement, and contributions of African Americans. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in the history of African Americans.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

HIS 226 - The Civil War (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course examines the social, political, economic, and ideological forces that led to the Civil War and Reconstruction. Topics include regional conflicts and sectionalism, dissolution of the Union, military campaigns, and the War's socioeconomic impact, aftermath, and consequences. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in the United States during the era of the Civil War.

Prerequisites: None. Corequisites: None.

When Offered: (S)

HIS 227 - Native American History (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course surveys the history and cultures of Native Americans from prehistory to the present. Topics include Native American civilizations, relations with Europeans, and the continuing evolution of Native American cultures. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments among Native Americans.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

HIS 228 - History of the South (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the origin and development of the South as a distinct region of the United States. Emphasis is placed on Southern identity and its basis in cultural, social, economic, and political developments during the 19th and 20th centuries. Upon completion, students should be able to identify and analyze the major cultural, social, economic, and political developments in the South.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

HIS 236 - North Carolina History (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is a study of geographical, political, economic, and social conditions existing in North Carolina from America's discovery to the present. Topics include native and immigrant backgrounds; colonial, antebellum, and Reconstruction periods; party politics; race relations; and the transition from an agrarian to an industrial economy. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in North Carolina.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

HIS 261 - East Asian History (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course surveys the history of China and Japan from the development of civilization in Asia to the present. Emphasis is placed on the evaluation of social, political, economic, and governmental structures in China and Japan. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in east Asia.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

Health Information Technology**HIT 110 - Intro to Healthcare & Him**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces healthcare settings and the Health Information Management (HIM) professional's role in healthcare delivery systems. Topics include health information management operations in compliance with standards, regulations and accrediting body initiatives; healthcare providers and disciplines; and electronic health records (EHRs). Upon completion, student should be able to demonstrate an understanding of health information management and healthcare organizations, professions and trends.

Prerequisites: None. Corequisites: None.

When Offered: (F)

HIT 112 - Health Law and Ethics

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the study of the judicial, legislative, and regulatory standards applicable to health care and health information processes. Topics include legal terminology, Confidentiality, privacy, security, access and disclosure of health information, ethical implications, data stewardship, and the integrity of the legal health record. Upon Completion, students should be able to apply policies, procedures and ethical standards in compliance with external forces.

Prerequisites: None. Corequisites: None.

When Offered: (S)

HIT 114 - Health Data Sys/Standards

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course covers concepts and techniques for managing and maintaining all health record formats including electronic health records (EHR). Topics include structure and use of health information including data collection and analysis, data sources/sets, archival systems, as well as quality and integrity of healthcare data. Upon completion, students should be able to determine compliance of health record content and governance standards within the health organization.

Prerequisites: None. Corequisites: None.

When Offered: (S)

HIT 122 - Prof Practice Exp I

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 3 Credit: 1

This course provides supervised and/or simulated health information technology clinical experience in healthcare settings. Emphasis is placed on practical application of HIM functions and core curriculum concepts. Upon completion, students should be able to apply health information theory to healthcare facility practice.

Prerequisites: HIT 112, HIT 114. Corequisites: None.

When Offered: (SU)

HIT 124 - Prof Practice Exp II

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 3 Credit: 1

This course provides supervised clinical experience in healthcare settings. Emphasis is placed on practical application of curriculum concepts to the healthcare setting. Upon completion, students should be able to apply health information theory to healthcare facility practices.

Prerequisites: None. Corequisites: None.

When Offered: S

HIT 211 - Diagnosis Coding & Reporting

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course covers diagnostic coding and sequencing utilizing the current version of the ICD code set for inpatient, outpatient and ambulatory care settings. Emphasis is placed on the rules and conventions of the ICD official coding guidelines in relation to anatomy, physiology and disease processes. Upon completion, students should be able to accurately assign and sequence diagnosis codes in compliance with the ICD official coding guidelines for

reporting statistical data, patient outcomes and reimbursement methodologies.

Prerequisites: BIO 168, BIO 169, MED 121, MED 122. Corequisites: None.
When Offered: (F)

HIT 213 - Inpt Proc Coding & Reporting

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course covers the application of coding guidelines as applied to the reporting of inpatient procedures. Emphasis is placed on the rules and conventions of the ICD-PCS code set utilizing the index and tables, in relation to anatomy and physiology, to assign principal and secondary procedure codes in hospital inpatient settings. Upon completion, students should be able to accurately assign procedural codes according to the official ICD-PCS coding guidelines and evaluate compliance with regulatory requirements and reimbursement methodologies.

Prerequisites: None. Corequisites: None
When Offered: (F)

HIT 214 - Op Procedure Coding/Reporting

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course covers application of coding and reporting standards as they apply to Current Procedural Terminology (CPT) guidelines and principles. Emphasis is placed on application of the coding guidelines, in relation to anatomy and physiology, for ambulatory healthcare settings. Upon completion, students should be able to assign CPT/HCPCS procedural codes according to official guidelines and evaluate compliance with regulatory requirements and reimbursement methodologies.

Prerequisites: HIT 211. Corequisites: None.
When Offered: (S)

HIT 215 - Revenue Cycle Management

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course covers the revenue cycle management process used in all healthcare settings as they relate to national billing, compliance, and reporting requirements. Topics include clinical documentation improvement, prospective payment systems, billing processes and procedures, chargemaster maintenance, regulatory guidelines, fraud and abuse, reimbursement monitoring, compliance strategies and reporting. Upon completion, students should be able to perform data quality reviews to validate code assignment and comply with reimbursement and reporting requirements.

Prerequisites: HIT 211. Corequisites: None.
When Offered: (S)

HIT 217 - Quality & Data Analysis

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course covers the principles of quality assessment and improvement, including data analysis and decision making in healthcare. Topics include healthcare statistics, continuous quality improvement, data analysis and reporting techniques, quality and outcome metric monitoring. Upon completion, students should be able to compute healthcare statistics, abstract, analyze and report clinical data for organization-wide quality and performance improvement programs for compliance purposes.

Prerequisites: MAT 152. Corequisites: None.
When Offered: (S)

HIT 218 - Mgmt Principles in HIT

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers organizational management concepts as applied to healthcare settings. Topics include leadership skills, managing organizational change, best practices, decision-making, financial management, cultural diversity, ethics, consumer engagement, and workforce training. Upon completion, students should be able to apply management, leadership, and supervisory concepts to various healthcare settings.

Prerequisites: None. Corequisites: None.
When Offered: (S)

HIT 220 - Electronic Health Records

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course covers EHR systems, design, implementation and application. Topics include EHR, Informatics, information governance, health information exchange (HIE), speech & imaging technology, information/network security & integrity, data dictionaries, modeling and warehousing. Upon completion, students should be able to facilitate usage of electronic health record systems and other technologies.

Prerequisites: HIT 114; CIS 110 or CIS 111. Corequisites: None.
When Offered: (F)

HIT 226 - Pathophysiology & Pharmacology

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course covers principles of disease and the associated pharmacological treatments. Emphasis is placed on physical signs and symptoms, prognoses, common complications and therapeutic options. Upon completion, students should be able to relate disease processes to physical signs and symptoms, prognosis, common complications and their management.

Prerequisites: BIO 169. Corequisites: None.
When Offered: (F)

HIT 280 - HIM Capstone

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course integrates application of knowledge and skills learned in prior HIT courses and is designed to prepare students for professional roles in HIM and promote ethical standards of practice. Emphasis is placed on AHIMA domains and professional competencies, career services and preparation for the National Certification exam. Upon completion, students should be able to demonstrate competency in the entry-level domains and subdomains of health information management.

Prerequisites: HIT 211. Corequisites: HIT 214.
When Offered: (S)

Healthcare Management

HMT 110 - Intro to Healthcare Mgt

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the functions, practices, organizational structures, and professional issues in healthcare management. Emphasis is placed on planning, controlling, directing, and communicating within health and human services organizations. Upon completion, students should be able to apply the concepts of management within a healthcare service environment.

Prerequisites: None. Corequisites: None.
When Offered: (F, S)

HMT 211 - Long-Term Care Admin

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the administration of long-term care facilities and services. Emphasis is placed on nursing home care, home health care, hospice, skilled nursing facilities, and other long-term care services. Upon completion, students should be able to distinguish between the different long-term care offerings, criteria for use, and benefits of the patient, resident, and participant.

Prerequisites: HMT 110 must pass with a grade of C or higher.
Corequisites: None.
When Offered: (F)

HMT 212 - Mgt of Healthcare Org

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course examines current issues affecting the management of healthcare delivery systems. Topics include current problems, changes, and challenges in the healthcare environment. Upon completion, students should be able to identify current healthcare issues and their impact on healthcare management.

Prerequisites: HMT 110 must pass with a grade of C or higher.
Corequisites: None.
When Offered: (S)

HMT 220 - Healthcare Financial Mgmt

Hours--Class: 4 Lab: 0 Clinic/Work Exp: 0 Credit: 4

This course covers the methods and techniques utilized in the financial management of healthcare programs. Topics include cost determination, pricing of services, financial statement analysis, forecasting/projections, third-party billing, reimbursement, Medicare, Medicaid, and budgeting. Upon completion, students should be able to interpret and apply the principles of financial management in a healthcare environment.

Prerequisites: HMT 110 must pass with a grade of C or higher and ACC 120.
Corequisites: None.
When Offered: (S)

Horticulture

HOR 112 - Landscape Design I

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course covers landscape principles and practices for residential and commercial sites. Emphasis is placed on drafting, site analysis, and common elements of good design, plant material selection, and proper plant utilization (encouraged use of native plants and discouraged use of invasive

species). Upon completion, students should be able to read plans and draft a landscape design according to sustainable practices.

Prerequisites: None. Corequisites: None.

When Offered: (SU)

HOR 114 - Landscape Construction

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces the design and fabrication of landscape structures/features. Emphasis is placed on safety, tool identification and use, material selection, construction techniques, and fabrication. Upon completion, students should be able to design and construct common landscape structures/features.

Prerequisites: None. Corequisites: None.

When Offered: (SU)

HOR 134 - Greenhouse Operations

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course covers the principles and procedures involved in the operation and maintenance of greenhouse facilities. Emphasis is placed on the operation of greenhouse systems, including the environmental control, record keeping, scheduling, and production practices. Upon completion, students should be able to demonstrate the ability to operate greenhouse systems and facilities to produce greenhouse crops.

Prerequisites: None. Corequisites: None.

When Offered: (F)

HOR 160 - Plant Materials I

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course covers identification, culture, characteristics, and use of plants in a sustainable landscape. Emphasis is placed on nomenclature, identification, growth requirements, cultural requirements, soil preferences, and landscape applications. Upon completion, students should be able to demonstrate knowledge of the proper selection and utilization of plant materials, including natives and invasive plants.

Prerequisites: None. Corequisites: None.

When Offered: (S)

HOR 162 - Applied Plant Science

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces the basic concepts of botany as they apply to horticulture. Topics include nomenclature, physiology, morphology, and anatomy as they apply to plant culture. Upon completion, students should be able to apply the basic principles of botany to horticulture.

Prerequisites: None. Corequisites: None.

When Offered: (F)

HOR 164 - Hort Pest Management

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course covers the identification and management of plant pests including insects, diseases, and weeds. Topics include pest identification and beneficial organisms, pesticide application safety and use of least toxic methods of management. Upon completion, students should be able to manage common landscape pests using least toxic methods of control and be prepared to sit for North Carolina Commercial Pesticide Ground Applicators license.

Prerequisites: None. Corequisites: None.

When Offered: (S, SU)

HOR 166 - Soils & Fertilizers

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course covers the physical and chemical properties of soils and soil fertility and management. Topics include soil formation; classification; physical, chemical, and biological properties (including microorganisms); testing; and fertilizer application. Upon completion, students should be able to analyze, evaluate, and properly amend soils/media according to sustainable practices.

Prerequisites: None. Corequisites: None.

When Offered: (F)

HOR 168 - Plant Propagation

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course is a study of sexual and asexual reproduction of plants. Emphasis is placed on seed propagation, grafting, stem and root propagation, micro-propagation, and other propagation techniques. Upon completion, students should be able to successfully propagate ornamental plants.

Prerequisites: None. Corequisites: None.

When Offered: (S)

HOR 170 - Hort Computer Apps

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course introduces computer programs as they apply to the horticulture industry. Emphasis is placed on applications of software for plant identification, design, and irrigation. Upon completion, students should be able to use computer programs in horticultural situations.

Prerequisites: None. Corequisites: None.

When Offered: (F)

HOR 213 - Landscape Design II

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course covers residential and commercial landscape design, cost analysis, and installation. Emphasis is placed on job cost estimates, installation of the landscape design, and maintenance techniques. Upon completion, students should be able to read landscape design blueprints, develop cost estimates, and implement the design.

Prerequisites: HOR 112. Corequisites: None.

When Offered: (F)

HOR 265 - Advanced Plant Materials

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course covers important landscape plants. Emphasis is placed on identification, plant nomenclature, growth characteristics, cultural requirements, and landscape uses. Upon completion, students should be able to correctly select plants for specific landscape uses.

Prerequisites: None. Corequisites: None.

When Offered: (S)

HOR 273 - Hor Mgmt & Marketing

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the steps involved in starting or managing a horticultural business. Topics include financing, regulations, market analysis, employer/employee relations, formulation of business plans, and operational procedures in a horticultural business. Upon completion, students should be able to assume ownership or management of a horticultural business.

Prerequisites: None. Corequisites: None.

When Offered: (F)

HRM Hotel & Restaurant Management

HRM 110 - Intro to Hosp & Tourism

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the growth and progress of the hospitality industry. Topics include tourism, lodging, resorts, gaming, restaurants, foodservice and clubs. Upon completion, students should be able to demonstrate an understanding of the background, context, and career opportunities that exist within the hospitality industry.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

HRM 140 - Legal Issues-Hospitality

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the rights and responsibilities that the law grants to or imposes upon the hospitality industry. Topics include federal and state regulations, historical and current practices, safety and security, risk management, loss prevention, relevant torts, and contracts. Upon completion, students should be able to demonstrate an understanding of the legal system and the concepts necessary to prevent or minimize organizational liability.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

HRM 220 - Cost Control-Food & Bev

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces controls and accounting procedures as applied to costs in the hospitality industry. Topics include reports, cost control, planning and forecasting, control systems, financial statements, operational efficiencies, labor controls and scheduling. Upon completion, students should be able to demonstrate an understanding of food, beverage, and labor cost control systems for operational troubleshooting and problem solving.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

HRM 220A - Cost Control-Food & Bev Lab

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course provides a laboratory experience for enhancing student skills in controls and purchasing procedures as applied to costs in the hospitality industry. Emphasis is placed on practical applications of reports, cost control,

planning and forecasting, control systems, financial statements, operational efficiencies, labor controls and scheduling. Upon completion, students should be able to demonstrate proficiency in computer-based control applications.

Prerequisites: None. Corequisites: HRM 220.

When Offered: (On demand)

Health Sciences

HSC 110 - Orientation to Health Careers

Hours--Class: 1 Lab: 0 Clinic/Work Exp: 0 Credit: 1

This course is a survey of health care professions. Topics include professional duties and responsibilities, working environments, and career choices. Upon completion, students should be able to demonstrate an understanding of the health care professions and be prepared to make informed career choices.

Prerequisite: None. Corequisite: None.

When Offered: (F)

Human Services

HSE 110 - Intro to Human Services

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces the human services field, including the history, agencies, roles, and careers. Topics include personal/professional characteristics, diverse populations, community resources, disciplines in the field, systems, ethical standards, and major theoretical and treatment approaches. Upon completion, students should be able to identify the knowledge, skills, and roles of the human services worker.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

HSE 112 - Group Process I

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course introduces interpersonal concepts and group dynamics. Emphasis is placed on self-awareness facilitated by experiential learning in small groups with analysis of personal experiences and the behavior of others. Upon completion, students should be able to show competence in identifying and explaining how people are influenced by their interactions in group settings.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

HSE 123 - Interviewing Techniques

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course covers the purpose, structure, focus, and techniques employed in effective interviewing. Emphasis is placed on observing, attending, listening, responding, recording, and summarizing of personal histories with instructor supervision. Upon completion, students should be able to perform the basic interviewing skills needed to function in the helping relationship.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

HSE 125 - Counseling

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course covers the major approaches to psychotherapy and counseling, including theory, characteristics, and techniques. Emphasis is placed on facilitation of self-exploration, problem solving, decision making, and personal growth. Upon completion, students should be able to understand various theories of counseling and demonstrate counseling techniques.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

HSE 210 - Human Services Issues

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course covers current issues and trends in the field of human services. Emphasis is placed on contemporary topics with relevance to special issues in a multi-faceted field. Upon completion, students should be able to integrate the knowledge, skills, and experiences gained in classroom and clinical experiences with emerging trends in the field.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

HSE 225 - Crisis Intervention

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the basic theories and principles of crisis intervention. Emphasis is placed on identifying and demonstrating appropriate and differential techniques for intervening in various crisis situations. Upon

completion, students should be able to assess crisis situations and respond appropriately.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

Humanities

HUM 110 - Technology and Society

(GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course considers technological change from historical, artistic, and philosophical perspectives and its effect on human needs and concerns. Emphasis is placed on the causes and consequences of technological change. Upon completion, students should be able to critically evaluate the implications of technology.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

HUM 115 - Critical Thinking

(GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the use of critical thinking skills in the context of human conflict. Emphasis is placed on evaluating information, problem solving, approaching cross-cultural perspectives, and resolving controversies and dilemmas. Upon completion, students should be able to demonstrate orally and in writing the use of critical thinking skills in the analysis of appropriate texts.

Prerequisite: ENG 002. Corequisite: None.

When Offered: (F)

HUM 120 - Cultural Studies

(GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the distinctive features of a particular culture. Topics include art, history, music, literature, politics, philosophy, and religion. Upon completion, students should be able to appreciate the unique character of the study culture.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

HUM 150 - American Women's Studies

(GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides an inter-disciplinary study of the history, literature, and social roles of American women from Colonial times to the present. Emphasis is placed on women's roles as reflected in American language usage, education, law, the workplace, and mainstream culture. Upon completion, students should be able to identify and analyze the roles of women as reflected in various cultural forms.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

HUM 170 - The Holocaust

(PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides a survey of the destruction of European Jewry by the Nazis during World War II. Topics include the anti-Semitic ideology, bureaucratic structures, and varying conditions of European occupation and domination under the Third Reich. Upon completion, students should be able to demonstrate an understanding of the historical, social, religious, political, and economic factors which cumulatively resulted in the Holocaust.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

HUM 211 - Humanities I

(GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the humanities as a record in literature, music, art, history, religion, and philosophy of humankind's answers to the fundamental questions of existence. Emphasis is placed on the interconnectedness of various aspects of cultures from ancient through early modern times. Upon completion, students should be able to identify significant figures and cultural contributions of the periods studied.

Prerequisites: ENG 111. Corequisites: None.

When Offered: (S)

HUM 220 - Human Values and Meaning

(GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course presents some major dimensions of human experience as reflected in art, music, literature, philosophy, and history. Topics include the search for identity, the quest for knowledge, the need for love, the individual and society, and the meaning of life. Upon completion, students should be able to recognize interdisciplinary connections and distinguish between

open and closed questions and between narrative and scientific models of understanding.

Prerequisites: ENG 111. Corequisites: None.

When Offered: (On demand)

HUM 230 - Leadership Development (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course explores the theories and techniques of leadership and group process. Emphasis is placed on leadership styles, theories of group dynamics, and the moral and ethical responsibilities of leadership. Upon completion, students should be able to identify and analyze a personal philosophy and style of leadership and integrate these concepts in various practical situations.

Prerequisites: ENG 111. Corequisites: None.

When Offered: (On demand)

Hydraulics

HYD 110 - Hydraulics/Pneumatics I

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course introduces the basic components and functions of hydraulic and pneumatic systems. Topics include standard symbols, pumps, control valves, control assemblies, actuators, FRL, maintenance procedures, and switching and control devices. Upon completion, students should be able to understand the operation of a fluid power system, including design, application, and troubleshooting.

Prerequisites: None. Corequisites: None.

When Offered: (S, on demand)

International Business

INT 110 - International Business

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides an overview of the environment, concepts, and basic differences involved in international business. Topics include forms of foreign involvement, international trade theory, governmental influences on trade and strategies, international organizations, multinational corporations, personnel management, and international marketing. Upon completion, students should be able to describe the foundation of international business.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

Industrial Science

ISC 112 - Industrial Safety

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course introduces the principles of industrial safety. Emphasis is placed on industrial safety, and OSHA regulations. Upon completion, students should be able to demonstrate knowledge of a safe working environment and OSHA compliance.

Prerequisites: None. Corequisites: None.

When Offered: (F, S)

ISC 121 - Envir Health & Safety

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers workplace environmental, health, and safety concepts. Emphasis is placed on managing the implementation and enforcement of environmental health and safety regulations and on preventing accidents, injuries, and illnesses. Upon completion, students should be able to demonstrate an understanding of basic concepts of environmental health and safety.

Prerequisites: None. Corequisites: None.

When Offered: (F, On Demand)

ISC 132 - Mfg Quality Control

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course introduces quality concepts and techniques used in industry. Topics include elementary statistics and probability, process control, process capability, and quality improvement tools. Upon completion, students should be able to demonstrate an understanding of the concepts and principles of quality and apply them to the work environment.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

ISC 212 - Metrology

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course covers the principles and techniques of modern practical metrology and inspection methods. Topics include precision, accuracy,

standards, and calibration. Upon completion, students should be able to perform various roles within a metrology system.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

Journalism

JOU 110 - Intro to Journalism (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course presents a study of journalistic news, feature, and sports writing. Emphasis is placed on basic news writing techniques and on related legal and ethical issues. Upon completion, students should be able to gather, write, and edit news, feature, and sports articles.

Prerequisites: ENG 111. Corequisites: None.

When Offered: (On demand)

LDD Light Duty Diesel

LDD 181 - Ldd Fuel Systems

Hours--Class: 2 Lab: 6 Clinic/Work Exp: 0 Credit: 4

This course covers the light-duty diesel fuel delivery systems in on-road applications including hydraulic electronically controlled unit injectors, common-rail, mechanical pumps, and emerging technologies. Topics include diesel combustion theory, fuel system components, electronic and mechanical controls, and fuel types and chemistries that are common to the light-duty diesel engines. Upon completion, students should be able to demonstrate skills necessary to inspect, test, and replace fuel delivery components using appropriate service information and tools.

Prerequisites: TRN 110, TRN 120. Corequisites: None.

When Offered: (On demand)

LDD 183 - Air, Exh, Emissions

Hours--Class: 2 Lab: 6 Clinic/Work Exp: 0 Credit: 4

This course covers terminology, theory and operation of air induction and boost technologies, exhaust, and emission controls used in light-duty diesel engines. Topics include component identification, operation, diagnosis and repair of air delivery systems including turbochargers, diesel particulate filters and other exhaust catalysts. Upon completion, students should be able to demonstrate skills necessary to research service information, and inspect, test, and repair induction, boost, and after-treatment components.

Prerequisites: TRN 110, TRN 120. Corequisites: None.

When Offered: (On demand)

Machining

MAC 122 - CNC Turning

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course introduces the programming, setup, and operation of CNC turning centers. Topics include programming formats, control functions, program editing, part production, and inspection. Upon completion, students should be able to manufacture simple parts using CNC turning centers.

Prerequisites: MAC 141. Corequisites: None.

When Offered: (S)

MAC 124 - CNC Milling

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course introduces the manual programming, setup, and operation of CNC machining centers. Topics include programming formats, control functions, program editing, part production, and inspection. Upon completion, students should be able to manufacture simple parts using CNC machining centers.

Prerequisites: MAC 141. Corequisites: None.

When Offered: (S)

MAC 131 - Blueprint Reading/Mach I

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course covers the basic principles of blueprint reading and sketching. Topics include multi-view drawings; interpretation of conventional lines; and dimensions, notes, and thread notations. Upon completion, students should be able to interpret basic drawings, visualize parts, and make pictorial sketches.

Prerequisites: None. Corequisites: None.

When Offered: (F)

MAC 132 - Blueprint Reading/Mach II

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course introduces more complex industrial blueprints. Emphasis is placed on auxiliary views, section views, violations of true project, special views, applications of GD & T, and interpretation of complex parts. Upon

completion, students should be able to read and interpret complex industrial blueprints.

Prerequisites: MAC 131. Corequisites: None.

When Offered: (S)

MAC 141 - Machining Applications I

Hours--Class: 2 Lab: 6 Clinic/Work Exp: 0 Credit: 4

This course provides an introduction to a variety of material-working processes that are common to the machining industry. Topics include safety, process-specific machining equipment, measurement devices, set-up and layout instruments, and common shop practices. Upon completion, students should be able to safely demonstrate basic machining operations, accurately measure components, and effectively use layout instruments.

Prerequisites: None. Corequisites: None.

MAC 142 - Machining Applications II

Hours--Class: 2 Lab: 6 Clinic/Work Exp: 0 Credit: 4

This course provides instruction in the wide variety of processes associated with machining. Topics include safety, equipment set-up, holding fixtures, tooling, cutting speeds and depths, metal properties, and proper finishes. Upon completion, students should be able to safely demonstrate advanced machining operations, accurately measure components, and produce accurate components with a proper finish.

Prerequisites: MAC 141. Corequisites: None.

MAC 143 - Machining Appl III

Hours--Class: 2 Lab: 6 Clinic/Work Exp: 0 Credit: 4

This course provides instruction in the field of advanced machining. Emphasis is placed on creating complex components, close-tolerance machining, precise measurement, and proper equipment usage. Upon completion, students should be able to demonstrate the ability to produce an accurately machined component with a quality finish using the proper machining process.

Prerequisites: MAC 142. Corequisites: None.

MAC 151 - Machining Calculations

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course introduces basic calculations as they relate to machining occupations. Emphasis is placed on basic calculations and their applications in the machine shop. Upon completion, students should be able to perform basic shop calculations.

Prerequisites: None. Corequisites: None

MAC 222 - Advanced CNC Turning

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course covers advanced methods in setup and operation of CNC turning centers. Emphasis is placed on programming and production of complex parts. Upon completion, students should be able to demonstrate skills in programming, operations, and setup of CNC turning centers.

Prerequisites: MAC 122. Corequisites: None.

When Offered: (S)

MAC 224 - Advanced CNC Milling

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course covers advanced methods in setup and operation of CNC machining centers. Emphasis is placed on programming and production of complex parts. Upon completion, students should be able to demonstrate skills in programming, operations, and setup of CNC machining centers.

Prerequisites: MAC 124. Corequisites: None.

When Offered: (S)

MAC 231 - CAM: CNC Turning

Hours--Class: 1 Lab: 4 Clinic/Work Exp: 0 Credit: 3

This course introduces Computer Numerical Control graphics programming and concepts for turning center applications. Emphasis is placed on the interaction of menus to develop a shape file in a graphics CAM system and to develop tool path geometry and part geometry. Upon completion, students should be able to develop a job plan using CAM software, including machine selection, tool selection, operational sequence, speed, feed, and cutting depth.

Prerequisites: MEC 110. Corequisites: None.

When Offered: (F)

MAC 232 - CAM: CNC Milling

Hours--Class: 1 Lab: 4 Clinic/Work Exp: 0 Credit: 3

This course introduces Computer Numerical Control graphics programming and concepts for machining center applications. Emphasis is placed on developing a shape file in a graphics CAM system and transferring coded information from CAM graphics to the CNC milling center. Upon completion,

students should be able to develop a complete job plan using CAM software to create a multi-axis CNC program.

Prerequisites: MEC 110. Corequisites: None.

When Offered: (F)

MAC 234 - Adv Multi-Axis Machin

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course includes multi-axis machining using machining centers with multi-axis capabilities. Emphasis is placed on generation of machining center input with a CAM system and setup of pallet changer and rotary system for multi-axis machining fixtures. Upon completion, students should be able to convert CAD to output for multi-axis machining centers, including tooling, setup, and debugging processes.

Prerequisites: MAC 222, MAC 224. Corequisites: None.

When Offered: (S)

MAC 241 - Jigs & Fixtures I

Hours--Class: 2 Lab: 6 Clinic/Work Exp: 0 Credit: 4

This course introduces the application and use of jigs and fixtures. Emphasis is placed on design and manufacture of simple jigs and fixtures. Upon completion, students should be able to design and build simple jigs and fixtures.

Prerequisites: MAC 142, MAC 222, MAC 224. Corequisites: None.

When Offered: (F)

MAC 242 - Jigs & Fixtures II

Hours--Class: 1 Lab: 9 Clinic/Work Exp: 0 Credit: 4

This course provides continued study in the application of jigs and fixtures. Emphasis is placed on design and manufacture of complex jigs and fixtures. Upon completion, students should be able to design and build complex jigs and fixtures.

Prerequisites: MAC 241. Corequisites: None.

When Offered: (S)

MAC 245 - Mold Construction I

Hours--Class: 2 Lab: 6 Clinic/Work Exp: 0 Credit: 4

This course introduces the principles of mold making. Topics include types, construction, and application of molds. Upon completion, students should be able to design and build simple molds.

Prerequisites: None. Corequisites: None.

When Offered: (SU)

Mathematics

MAT 003 - Transition Math

Hours--Class: 0 Lab: 6 Clinic/Work Exp: 0 Credit: 3

This course provides an opportunity to customize foundational math content in specific math areas and will include developing a growth mindset. Topics include developing the academic habits, learning strategies, social skills, and growth mindset necessary to be successful in mathematics. Upon completion, students should be able to build a stronger foundation for success in their gateway level math courses by obtaining skills through a variety of instructional strategies with emphasis placed on the most essential prerequisite knowledge.

Prerequisites: None. Corequisite: None.

When Offered: (F,S,SU)

MAT 010 - Math Measurement & Literacy Su

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course provides an opportunity to customize foundational math content specific to Math Measurement & Literacy. Topics include developing the academic habits, learning strategies, social skills, and growth mindset necessary to be successful in mathematics. Upon completion, students should be able to build a stronger foundation for success in Math Measurement & Literacy by obtaining skills through a variety of instructional strategies with emphasis placed on the most essential prerequisite knowledge.

Prerequisite: None. Corequisite: None.

When Offered: (F,S,SU)

MAT 021 - Algebra/Trigonometry I Support

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course provides an opportunity to customize foundational math content specific to Algebra and Trigonometry I. Topics include developing the academic habits, learning strategies, social skills, and growth mindset necessary to be successful in mathematics. Upon completion, students should be able to build a stronger foundation for success in Algebra/Trigonometry I

by obtaining skills through a variety of instructional strategies with emphasis placed on the most essential prerequisite knowledge.

Prerequisite: None. Corequisite: None.
When Offered: (F,S,SU)

MAT 043 - Quantitative Literacy Support

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course provides an opportunity to customize foundational math content specific to Quantitative Literacy. Topics include developing the academic habits, learning strategies, social skills, and growth mindset necessary to be successful in mathematics. Upon completion, students should be able to build a stronger foundation for success in Quantitative Literacy by obtaining skills through a variety of instructional strategies with emphasis placed on the most essential prerequisite knowledge.

Prerequisite: None. Corequisite: None.
When Offered: (F,S,SU)

MAT 052 - Statistical Methods I Support

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course provides an opportunity to customize foundational math content specific to Statistical Methods I. Topics include developing the academic habits, learning strategies, social skills, and growth mindset necessary to be successful in mathematics. Upon completion, students should be able to build a stronger foundation for success in Statistical Methods I by obtaining skills through a variety of instructional strategies with emphasis placed on the most essential prerequisite knowledge.

Prerequisite: None. Corequisite: None.
When Offered: (F,S,SU)

MAT 071 - Precalculus Algebra Support

Hours--Class: 0 Lab: 4 Clinic/Work Exp: 0 Credit: 2

This course provides an opportunity to customize foundational math content specific to Precalculus Algebra. Topics include developing the academic habits, learning strategies, social skills, and growth mindset necessary to be successful in mathematics. Upon completion, students should be able to build a stronger foundation for success in Precalculus Algebra by obtaining skills through a variety of instructional strategies with emphasis placed on the most essential prerequisite knowledge.

Prerequisite: None. Corequisite: None.
When Offered: (F,S,SU)

MAT 110 - Math Measurement & Literacy

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course provides an activity-based approach that develops measurement skills and mathematical literacy using technology to solve problems for non-math intensive programs. Topics include unit conversions and estimation within a variety of measurement systems; ratio and proportion; basic geometric concepts; financial literacy; and statistics including measures of central tendency, dispersion, and charting of data. Upon completion, students should be able to demonstrate the use of mathematics and technology to solve practical problems, and to analyze and communicate results.

Prerequisites: MAT 003. Corequisites: MAT 010 may be required. Consult the Advising Center for more information.
When Offered: (F, S)

MAT 121 - Algebra/Trigonometry I

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course provides an integrated approach to technology and the skills required to manipulate, display, and interpret mathematical functions and formulas used in problem solving. Topics include the properties of plane and solid geometry, area and volume, and basic proportion applications; simplification, evaluation, and solving of algebraic equations and inequalities and radical functions; complex numbers; right triangle trigonometry; and systems of equations. Upon completion, students will be able to demonstrate the ability to use mathematics and technology for problem-solving, analyzing and communicating results.

Prerequisites: MAT 003. Corequisites: MAT 021 may be required. Consult the Advising Center for more information.
When Offered: (F, S)

MAT 122 - Algebra/Trigonometry II

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course is designed to cover concepts in algebra, function analysis, and trigonometry. Topics include exponential and logarithmic functions, transformations of functions, Law of Sines, Law of Cosines, vectors, and statistics. Upon completion, students should be able to demonstrate the ability to use mathematics and technology for problem-solving, analyzing and communicating results.

Prerequisites: MAT 121, must pass with a grade of C or higher.

Corequisites: None.

When Offered: (S)

MAT 143 - Quantitative Literacy

(UGETC)

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course is designed to engage students in complex and realistic situations involving the mathematical phenomena of quantity, change and relationship, and uncertainty through project- and activity-based assessment. Emphasis is placed on authentic contexts which will introduce the concepts of numeracy, proportional reasoning, dimensional analysis, rates of growth, personal finance, consumer statistics, practical probabilities, and mathematics for citizenship. Upon completion, students should be able to utilize quantitative information as consumers and to make personal, professional, and civic decisions by decoding, interpreting, using, and communicating quantitative information found in modern media and encountered in everyday life.

Prerequisites: ENG 002, MAT 003. Corequisites: MAT 043 may be required. Consult the Advising Center for more information..
When Offered: (F, S, SU)

MAT 152 - Statistical Methods I

(UGETC)

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course provides a project-based approach to introductory statistics with an emphasis on using real-world data and statistical literacy. Topics include descriptive statistics, correlation and regression, basic probability, discrete and continuous probability distributions, confidence intervals and hypothesis testing. Upon completion, students will be able to use appropriate technology to describe important characteristics of a data set, draw inferences about a population from sample data, and interpret and communicate results.

Prerequisites: ENG 002, MAT 003. Corequisites: MAT 052 may be required. Consult the Advising Center for more information..
When Offered: (F, S, SU)

MAT 171 - Precalculus Algebra

(UGETC)

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course is designed to develop topics which are fundamental to the study of Calculus. Emphasis is placed on solving equations and inequalities, solving systems of equations and inequalities, and analysis of functions (absolute value, radical, polynomial, rational, exponential, and logarithmic) in multiple representations. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to algebra-related problems with and without technology.

Prerequisites: MAT 003 or MAT 121. Corequisites: MAT 071 may be required. Consult the Advising Center for more information.
When Offered: (F, S, SU)

MAT 172 - Precalculus Trigonometry

(UGETC)

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course is designed to develop an understanding of topics which are fundamental to the study of Calculus. Emphasis is placed on the analysis of trigonometric functions in multiple representations, right and oblique triangles, vectors, polar coordinates, conic sections, and parametric equations. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to trigonometry-related problems with and without technology.

Prerequisites: MAT 171 must pass with a grade of C or higher. Corequisites: None.
When Offered: (F, S)

MAT 263 - Brief Calculus

(UGETC)

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course is designed to introduce concepts of differentiation and integration and their applications to solving problems. Topics include graphing, differentiation, and integration with emphasis on applications drawn from business, economics, and biological and behavioral sciences. Upon completion, students should be able to demonstrate an understanding of the use of basic calculus and technology to solve problems and to analyze and communicate results.

Prerequisites: MAT 171 must pass with a grade of C or higher. Corequisites: None.
When Offered: (S)

MAT 271 - Calculus I

(UGETC)

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course is designed to develop the topics of differential and integral calculus. Emphasis is placed on limits, continuity, derivatives and integrals of algebraic and transcendental functions of one variable. Upon completion, students should be able to select and use appropriate models and techniques

for finding solutions to derivative-related problems with and without technology.

Prerequisites: MAT 172 must pass with a grade of C or higher.

Corequisites: None.

When Offered: (F, S, SU)

MAT 272 - Calculus II (UGETC)

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course is designed to develop advanced topics of differential and integral calculus. Emphasis is placed on the applications of definite integrals, techniques of integration, indeterminate forms, improper integrals, infinite series, conic sections, parametric equations, polar coordinates, and differential equations. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to integral-related problems with and without technology.

Prerequisites: MAT 271 must pass with a grade of C or higher.

Corequisites: None.

When Offered: (F, S)

MAT 273 - Calculus III (GENED)

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course is designed to develop the topics of multivariate calculus. Emphasis is placed on multivariate functions, partial derivatives, multiple integration, solid analytical geometry, vector valued functions, and line and surface integrals. Upon completion, students should be able to select and use appropriate models and techniques for finding the solution to multivariate-related problems with and without technology.

Prerequisites: MAT 272 must pass with a grade of C or higher. Corequisites: None.

When Offered: (F,S)

MAT 280 - Linear Algebra (PM-ELEC)

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course provides an introduction to linear algebra topics. Emphasis is placed on the development of abstract concepts and applications for vectors, systems of equations, matrices, determinants, vector spaces, multi-dimensional linear transformations, eigenvectors, eigenvalues, diagonalization and orthogonality. Upon completion, students should be able to demonstrate understanding of the theoretical concepts and select and use appropriate models and techniques for finding solutions to linear algebra-related problems with and without technology.

Prerequisites: MAT 271. Corequisites: None.

When Offered: (F)

MAT 285 - Differential Equations (PM-ELEC)

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course provides an introduction to topics involving ordinary differential equations. Emphasis is placed on the development of abstract concepts and applications for first-order and linear higher-order differential equations, systems of differential equations, numerical methods, series solutions, eigenvalues and eigenvectors, and Laplace transforms. Upon completion, students should be able to demonstrate understanding of the theoretical concepts and select and use appropriate models and techniques for finding solutions to differential equations-related problems with and without technology.

Prerequisites: MAT 272 must pass with a grade of C or higher.

Corequisites: None.

When Offered: (S)

Mechanical

MEC 110 - Intro to CAD/CAM

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course introduces CAD/CAM. Emphasis is placed on transferring part geometry from CAD to CAM for the development of a CNC-ready program. Upon completion, students should be able to use CAD/CAM software to produce a CNC program.

Prerequisites: None Corequisites: MAC 122, MAC 124.

When Offered: (SU)

MEC 130 - Mechanisms

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces the purpose and action of various mechanical devices. Topics include cams, cables, gear trains, differentials, screws, belts, pulleys, shafts, levers, lubricants, and other devices. Upon completion, students should be able to analyze, maintain, and troubleshoot the components of mechanical systems.

Prerequisites: MAT 003. Corequisites: None.

When Offered: (F, On Demand)

MEC 142 - Physical Metallurgy

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course covers the heat treating of metals. Emphasis is placed on the effects of hardening, tempering, and annealing on the structure and physical properties of metals. Upon completion, students should be able to heat treat materials.

Prerequisites: None. Corequisites: None.

When Offered: (S)

MEC 145 - Mfg Materials I

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course introduces a variety of manufacturing materials and common processing techniques. Emphasis is placed on the processing, testing, and application of materials such as wood, metals, plastics, ceramics, and composites. Upon completion, students should be able to demonstrate an understanding of fundamental engineering applications for a variety of materials, including their process capabilities and limitations.

Prerequisites: None. Corequisites: None.

When Offered: (S, On Demand)

MEC 180 - Engineering Materials

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course introduces the physical and mechanical properties of materials. Topics include materials testing, pre- and post-manufacturing processes, and material selection of ferrous and non-ferrous metals, plastics, composites, and non-conventional materials. Upon completion, students should be able to utilize basic material property tests and select appropriate materials for applications.

Prerequisites: None. Corequisites: None.

When Offered: (On Demand)

MEC 231 - Comp-Aided Manufact I

Hours--Class: 1 Lab: 4 Clinic/Work Exp: 0 Credit: 3

This course introduces computer-aided design/manufacturing (CAD/CAM) applications and concepts. Topics include software, programming, data transfer and verification, and equipment setup. Upon completion, students should be able to produce parts using CAD/CAM applications.

Prerequisites: MAC 141 must pass with grade of C or higher.

When Offered: (S)

MEC 265 - Fluid Mechanics

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course covers the physical behavior of fluids and fluid systems. Topics include fluid statics and dynamics, laminar and turbulent flow, Bernoulli's Equation, components, applications, and other related topics. Upon completion, students should be able to apply fluid power principles to practical applications.

Prerequisites: None. Corequisites: PHY 131 or PHY 151.

When Offered: (S)

Medical Assisting

MED 118 - Medical Law and Ethics

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course covers legal relationships of physicians and patients, contractual agreements, professional liability, malpractice, medical practice acts, informed consent, and bioethical issues. Emphasis is placed on legal terms, professional attitudes, and the principles and basic concepts of ethics and laws involved in providing medical services. Upon completion, students should be able to meet the legal and ethical responsibilities of a multi-skilled health professional.

Prerequisites: None. Corequisites: None.

When Offered: (F, SU)

MED 121 - Medical Terminology I

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces prefixes, suffixes, and word roots used in the language of medicine. Topics include medical vocabulary and the terms that relate to the anatomy, physiology, pathological conditions, and treatment of selected systems. Upon completion, students should be able to pronounce, spell, and define medical terms as related to selected body systems and their pathological disorders.

Prerequisites: None. Corequisites: None.

When Offered: (F, S)

MED 122 - Medical Terminology II

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is the second in a series of medical terminology courses. Topics include medical vocabulary and the terms that relate to the anatomy, physiology, pathological conditions, and treatment of selected systems. Upon completion, students should be able to pronounce, spell, and define medical terms as related to selected body systems and their pathological disorders.

Prerequisites: MED 121 must pass with a grade of C or higher.

Corequisites: None.

When Offered: (F, S)

Marketing**MKT 120 - Principles of Marketing**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces principles and problems of marketing goods and services. Topics include promotion, placement, and pricing strategies for products. Upon completion, students should be able to apply marketing principles in organizational decision making.

Prerequisites: None. Corequisites: None.

When Offered: (S)

MKT 123 - Fundamentals of Selling

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is designed to emphasize the necessity of selling skills in a modern business environment. Emphasis is placed on sales techniques involved in various types of selling situations. Upon completion, students should be able to demonstrate an understanding of the techniques covered.

Prerequisites: None. Corequisites: None.

When Offered: (F)

MKT 220 - Advertising and Sales Promotion

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the elements of advertising and sales promotion in the business environment. Topics include advertising and sales promotion appeals, selection of media, use of advertising and sales promotion as a marketing tool, and means of testing effectiveness. Upon completion, students should be able to demonstrate an understanding of the concepts covered through application.

Prerequisites: None. Corequisites: None.

When Offered: (S)

MKT 221 - Consumer Behavior

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is designed to describe consumer behavior as applied to the exchange processes involved in acquiring, consuming, and disposing of goods and services. Topics include an analysis of basic and environmental determinants of consumer behavior with emphasis on the decision-making process. Upon completion, students should be able to analyze concepts related to the study of the individual consumer.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

MKT 223 - Customer Service

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course stresses the importance of customer relations in the business world. Emphasis is placed on learning how to respond to complex customer requirements and to efficiently handle stressful situations. Upon completion, students should be able to demonstrate the ability to handle customer relations.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

MKT 226 - Retail Applications

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is designed to develop occupational competence through participation in case studies, group work, and simulations. Emphasis is placed on all aspects of store ownership and operation, including securing financial backing and a sufficient market share. Upon completion, students should be able to demonstrate an understanding of concepts covered through application.

Prerequisite(s): None. Corequisite(s): None.

When Offered: (On Demand)

Maintenance**MNT 110 - Intro to Maint Procedures**

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course covers basic maintenance fundamentals for power transmission equipment. Topics include equipment inspection, lubrication, alignment, and other scheduled maintenance procedures. Upon completion, students should be able to demonstrate knowledge of accepted maintenance procedures and practices according to current industry standards.

Prerequisites: None. Corequisites: None.

When Offered: (F)

Music**MUS 110 - Music Appreciation****(UGETC)**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is a basic survey of the music of the Western world. Emphasis is placed on the elements of music, terminology, composers, form, and style within a historical perspective. Upon completion, students should be able to demonstrate skills in basic listening and understanding of the art of music.

Prerequisites: None. Corequisites: None.

When Offered: (F, S, SU)

MUS 111 - Fundamentals of Music**(PM-ELEC)**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is an introductory course for students with little or no music background. Emphasis is placed on music notation, rhythmic patterns, scales, key signatures, intervals, and chords. Upon completion, students should be able to demonstrate an understanding of the rudiments of music.

Prerequisites: None. Corequisites: None.

When Offered: (F)

MUS 112 - Introduction to Jazz**(UGETC)**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the origins and musical components of jazz and the contributions of its major artists. Emphasis is placed on the development of discriminating listening habits, as well as the investigation of the styles and structural forms of the jazz idiom. Upon completion, students should be able to demonstrate skills in listening and understanding this form of American music.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

MUS 113 - American Music**(GENED)**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces various musical styles, influences, and composers of the United States from pre-Colonial times to the present. Emphasis is placed on the broad variety of music particular to American culture. Upon completion, students should be able to demonstrate skills in basic listening and understanding of American music.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

MUS 121 - Music Theory I**(PM-ELEC)**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides an introduction to the musical elements of melody, rhythm, and harmony. Emphasis is placed upon the interaction of these elements through fundamental analysis and an introduction to part writing. Upon completion, students should be able to demonstrate understanding of melodic voice leading, rhythmic functions within simple and compound meters, and simple harmonic progressions.

Prerequisites: MUS 111. Corequisites: None.

When Offered: (F)

MUS 122 - Music Theory II**(PM-ELEC)**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides a comprehensive study of diatonic harmony. Emphasis is placed on voice leading tasks, part writing, and analysis using various labeling systems. Upon completion, students should be able to demonstrate harmonic principles through four-voice part writing, recognize and label non-harmonic tones, analyze chords using Roman numerals, figured bass, and lead sheet symbols, and classify small-scale phrase structure and cadence types.

Prerequisites: MUS 121. Corequisites: None.

When Offered: (S)

MUS 123 - Music Composition (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course provides a study of elementary forms and traditional approaches to the organization of melody, harmony, rhythm, etc. in musical composition. Emphasis is placed on using musical notation to create new musical works.

Prerequisites: MUS 111 or MUS 121

When Offered: (F,S)

MUS 125 - Aural Skills I (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course provides an introduction to the fundamentals in aural skills. Emphasis is placed on the study of basic melodies, harmonies, and rhythms through sight singing and ear training. Upon completion, students should be able to identify diatonic intervals, scales, and chords and perform and dictate simple melodies and rhythmic patterns.

Prerequisites: None. Corequisites: None.

When Offered: (F)

MUS 126 - Aural Skills II (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course provides a foundation in aural skills. Emphasis is placed on the development of sight singing and ear training skills in diatonic melody, diatonic harmonic progression, and rhythmic patterns. Upon completion, students should be able to fluently read music in treble and bass clefs; utilize any solmization system while sight singing simple diatonic melodies; identify elementary diatonic chord progressions; perform rhythms in simple and compound meters; and dictate diatonic melodic, diatonic harmonic, and advanced rhythmic patterns.

Prerequisites: MUS 125. Corequisites: None.

When Offered: (S)

MUS 131 - Chorus I (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course provides an opportunity to gain experience singing in a chorus. Emphasis is placed on vocal techniques and the study and performance of a variety of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance. This course includes a performance choir that will prepare a Christmas Music Presentation in conjunction with a neighborhood church choir; rehearsals at both locations (on campus and church site) will be required.

Prerequisites: Appropriate vocal proficiency. Corequisites: None.

When Offered: (On demand)

MUS 132 - Chorus II (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course provides a continuation of studies begun in MUS 131. Emphasis is placed on vocal techniques and the study and performance of a variety of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance.

Prerequisites: MUS 131. Corequisites: None.

When Offered: (On demand)

MUS 133 - Band I (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course provides an opportunity for those who play a band instrument to gain experience playing in an ensemble. Emphasis is placed on band techniques and the study and performance of a variety of styles and periods of band literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance.

Prerequisites: Audition. Corequisites: None.

When Offered: (F, On demand)

MUS 134 - Band II (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is a continuation of MUS 133. Emphasis is placed on band techniques and the study and performance of a variety of styles and periods of band literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance.

Prerequisites: MUS 133. Corequisites: None.

When Offered: (S, On demand)

MUS 135 - Jazz Ensemble I (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course provides an opportunity for those who play an appropriate instrument to gain experience playing in a jazz ensemble. Emphasis is placed on jazz ensemble techniques and the study and performance of a

variety of styles of jazz literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

MUS 136 - Jazz Ensemble II (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is a continuation of MUS 135. Emphasis is placed on jazz ensemble techniques and the study and performance of a variety of styles and periods of jazz literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance.

Prerequisites: MUS 135. Corequisites: None.

When Offered: (On demand)

MUS 137 - Orchestra I (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course provides an opportunity for those who play an orchestral instrument to gain experience playing in an ensemble. Emphasis is placed on orchestral techniques and the study and performance of a variety of styles and periods of orchestral and string ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance.

Prerequisites: None. Corequisites: None.

When Offered: (F,S)

MUS 138 - Orchestra II (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is a continuation of MUS 137. Emphasis is placed on orchestral techniques and the study and performance of a variety of styles and periods of orchestral and string ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance.

Prerequisites: MUS 137. Corequisites: None.

When Offered: (F,S)

MUS 141 - Ensemble I (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course provides an opportunity to perform in any combination of instrumental, vocal, or keyboard groups of two or more. Emphasis is placed on the development of performance skills and the study of a variety of styles and periods of ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance.

Prerequisites: Audition. Corequisites: None.

When Offered: (F)

MUS 142 - Ensemble II (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is a continuation of MUS 141. Emphasis is placed on the development of performance skills and the study of a variety of styles and periods of ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance.

Prerequisites: MUS 141. Corequisites: None.

When Offered: (S)

MUS 151 - Class Music I (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course provides group instruction in skills and techniques of the particular instrument or voice for those with little or no previous experience. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: None. Corequisites: None.

When Offered: (F)

MUS 151G - Class Music I-Guitar (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course provides group instruction in skills and techniques of the particular instrument or voice for those with little or no previous experience. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: None. Corequisites: None.

When Offered: (F)

MUS 162G - Applied Music II – Guitar (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course is a continuation of MUS 161G. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: MUS 161. Corequisites: None.
When Offered: (F, S)

MUS 162P - Applied Music II – Piano (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course is a continuation of MUS 161P. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: MUS 161. Corequisites: None.
When Offered: (F, S)

MUS 162V - Applied Music II-Voice (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course is a continuation of MUS 161V. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: MUS 161. Corequisites: None.
When Offered: (F, S)

MUS 162W - Applied Music II-Woodwinds (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course is a continuation of MUS 161W. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: MUS 161. Corequisites: None.
When Offered: (F, S)

MUS 173 - Opera Production I (PM-ELEC)

Hours--Class: 0 Lab: 9 Clinic/Work Exp: 0 Credit: 3

This course provides an applied laboratory study of the processes involved in the production of an opera. Topics include fundamental practices, principles, and techniques associated with producing operas of various musical periods with an emphasis on vocal technique. Upon completion, students should be able to participate in an assigned position in a college opera production.

Prerequisites: None. Corequisites: None.
When Offered: (F,S)

MUS 174 - Opera Production II (PM-ELEC)

Hours--Class: 0 Lab: 9 Clinic/Work Exp: 0 Credit: 3

This course provides an applied laboratory study of the processes involved in the production of an opera. Topics include fundamental practices, principles, and techniques associated with producing operas of various musical periods with an emphasis on musical/language production. Upon completion, students should be able to participate in an assigned position in a college opera production.

Prerequisites: MUS 173. Corequisites: None.
When Offered: (F,S)

MUS 181 - Show Choir I (PM-ELEC)

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course provides students the initial training in basic competencies of dance/voice-based performances and to the nuances of preparation for such pop/jazz/theatre performances. Emphasis is placed on the introduction to, and subsequent development of, basic performance skills necessary for choreographed performance. Upon completion, students should be able to demonstrate the foundation competencies necessary to perform the assigned literature in various venues and under various professional conditions.

Prerequisites: None. Corequisites: None.
When Offered: (F, S)

MUS 182 - Show Choir II (PM-ELEC)

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course provides intermediate training in dance/voice-based performances and in the nuances of preparation for such pop/jazz/theatre performances. Emphasis is placed on continued development of skills necessary for professional group choral preparation and performance, as well as effective social interaction with a performance troupe. Upon completion, students should be able to demonstrate the intermediate

competencies necessary to perform the assigned literature in various venues and under various professional conditions.

Prerequisites: MUS 181. Corequisites: None.
When Offered: (F, S)

MUS 210 - History of Rock Music (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is a survey of Rock music from the early 1950's to the present. Emphasis is placed on musical groups, soloists, and styles related to the evolution of this idiom and on related historical and social events. Upon completion, students should be able to identify specific styles and to explain the influence of selected performers within their respective eras.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

MUS 211 - History of Country Music (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the varied origins of country music and the commercialization of this art form. Emphasis is placed on historical, sociocultural, and stylistic factors related to country music and musicians. Upon completion, students should be able to identify specific styles and explain the influence of pop culture on the development of country music.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

MUS 212 - American Musical Theatre (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the origins and development of the musical from Show Boat to the present. Emphasis is placed on the investigation of the structure of the musical and its components through listening and analysis. Upon completion, students should be able to demonstrate skills in listening and understanding this form of American music.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

MUS 213 - Opera and Musical Theatre (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the origins and development of opera and musical theatre from the works of Claudio Monteverdi to the present. Emphasis is placed on how the structure and components of opera and musicals effect dramaturgy through listening examples and analysis. Upon completion, students should be able to demonstrate analytical and listening skills in understanding both opera and the musical.

Prerequisites: None. Corequisites: None.
When Offered: (S)

MUS 214 - Electronic Music I (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course provides an opportunity to study and explore various electronic instruments and devices. Emphasis is placed on fundamental MIDI applications and implementation, features and application of sequences, sound modules, and digital keyboards. Upon completion, students should be able to demonstrate proficiency by creation of appropriate musical projects using the equipment and techniques covered.

Prerequisites: MUS 111. Corequisites: None.
When Offered: (On demand)

MUS 215 - Electronic Music II (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course is a continuation of MUS 214. Emphasis is placed on advanced MIDI applications and implementation and continued work with sequencers, sound modules, and digital keyboards. Upon completion, students should be able to demonstrate proficiency by creation of appropriate musical projects using the equipment and techniques covered.

Prerequisites: MUS 214. Corequisites: None.
When Offered: (On demand)

MUS 217 - Elementary Conducting (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course introduces the basic patterns and skills for conducting instrumental and vocal groups. Emphasis is placed on conducting beat patterns, expressive gestures, fermatas, accents, tempos, and rehearsal techniques. Upon completion, students should be able to demonstrate the above skills by conducting vocal and/or instrumental groups.

Prerequisites: MUS 111. Corequisites: None.
When Offered: (S)

MUS 221 - Music Theory III**(PM-ELEC)**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides a comprehensive study of chromatic harmony. Emphasis is placed on advanced voice leading tasks, part writing, and analysis of chord progressions, modulations, and large-scale forms. Upon completion, students should be able to identify, notate, and analyze an array of chromatic chords, recognize the function and movement of chromatic harmonies, identify modulatory procedures, analyze formal structures including, but not limited to, binary, ternary, sonata, and rondo.

Prerequisites: MUS 122. Corequisites: None.
When Offered: (S)

MUS 222 - Music Theory IV**(PM-ELEC)**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides an advanced study of chromatic harmony, scale systems, and an introduction to twentieth-century music. Emphasis is placed on advanced part writing and analysis of chromatic harmony and basic twentieth-century compositional and analytical techniques. Upon completion, students should be able to analyze complex chord progressions, advanced modulations, and elemental serial procedures; build an array of synthetic scales; and identify characteristics of twentieth-century topics including, but not limited to, atonality, serialism, minimalism, indeterminacy, and electronic music.

Prerequisites: MUS 221. Corequisites: None.
When Offered: (S)

MUS 225 - Aural Skills III**(PM-ELEC)**

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course provides advanced aural skills training in diatonicism and basic aural skills training in chromaticism. Emphasis is placed on the development of sight singing and ear training skills in complex rhythmic patterns, diatonic melodies and harmonies, and basic chromaticism. Upon completion, students should be able to utilize any solmization system while sight singing diatonic melodies with functional and non-functional chromaticism, fluently read music in multiple clefs in addition to treble and bass, identify modulations, perform complex rhythmic patterns in various meters, and dictate tonal melodies and harmonies including chromaticism.

Prerequisites: MUS 126. Corequisites: None.
When Offered: (F)

MUS 226 - Aural Skills IV**(PM-ELEC)**

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course provides advanced aural skills training in diatonicism and chromaticism. Emphasis is placed on the development of sight singing and ear training skills in chromatic melodies, chromatic harmonies, and complex rhythmic patterns. Upon completion, students should be able to utilize any solmization system while sight singing melodies containing significant chromaticism; fluently read music in multiple clefs, including treble, bass, alto, and tenor; perform and dictate rhythmic patterns in irregular and changing meters; and dictate diatonic and chromatic melodies and harmonic progressions.

Prerequisite: MUS 225. Corequisites: None.
When Offered: (S)

MUS 231 - Chorus III**(PM-ELEC)**

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is a continuation of MUS 132. Emphasis is placed on vocal techniques and the study and performance of a variety of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance.

Prerequisites: MUS 132. Corequisites: None.
When Offered: (S, On demand)

MUS 232 - Chorus IV**(PM-ELEC)**

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is a continuation of MUS 231. Emphasis is placed on vocal techniques and the study of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance.

Prerequisites: MUS 231. Corequisites: None.
When Offered: (On demand)

MUS 233 - Band III**(PM-ELEC)**

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is a continuation of MUS 134. Emphasis is placed on band techniques and the study and performance of a variety of styles and periods of band literature. Upon completion, students should be able to demonstrate

skills needed to participate in ensemble playing leading to performance.

Prerequisites: MUS 134. Corequisites: None.
When Offered: (On demand)

MUS 234 - Band IV**(PM-ELEC)**

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is a continuation of MUS 233. Emphasis is placed on band techniques and the study and performance of a variety of styles and periods of band literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance.

Prerequisites: MUS 233. Corequisites: None.
When Offered: (On demand)

MUS 235 - Jazz Ensemble III**(PM-ELEC)**

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is a continuation of MUS 136. Emphasis is placed on jazz ensemble techniques and the study and performance of a variety of styles and periods of jazz literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance.

Prerequisites: MUS 136. Corequisites: None.
When Offered: (On demand)

MUS 236 - Jazz Ensemble IV**(PM-ELEC)**

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is a continuation of MUS 235. Emphasis is placed on jazz ensemble techniques and the study and performance of a variety of styles and periods of jazz literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance.

Prerequisites: MUS 235. Corequisites: None.
When Offered: (On demand)

MUS 237 - Orchestra III**(PM-ELEC)**

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is a continuation of MUS 138. Emphasis is placed on orchestral techniques and the study and performance of a variety of styles and periods of orchestral and string ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance.

Prerequisites: MUS 138. Corequisites: None.
When Offered: (F,S)

MUS 238 - Orchestra IV**(PM-ELEC)**

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is a continuation of MUS 237. Emphasis is placed on orchestral techniques and the study and performance of a variety of styles and periods of orchestral and string ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance.

Prerequisites: MUS 237. Corequisites: None.
When Offered: (F,S)

MUS 241 - Ensemble III**(PM-ELEC)**

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is a continuation of MUS 142. Emphasis is placed on the development of performance skills and the study of a variety of styles and periods of ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance.

Prerequisites: MUS 142. Corequisites: None.
When Offered: (F, S)

MUS 242 - Ensemble IV**(PM-ELEC)**

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is a continuation of MUS 241. Emphasis is placed on the development of performance skills and the study of styles of ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance.

Prerequisites: MUS 241. Corequisites: None.
When Offered: (On demand)

MUS 251 - Class Music III**(PM-ELEC)**

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is a continuation of MUS 152. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon

completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: MUS 152. Corequisites: None.

When Offered: (On demand)

MUS 251G - Class Music III – Guitar (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is a continuation of MUS 152G. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: MUS 152. Corequisites: None.

When Offered: (On demand)

MUS 251P - Class Music III-Piano (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is a continuation of MUS 152P. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: MUS 152. Corequisites: None.

When Offered: (On demand)

MUS 251V - Class Music III-Voice (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is a continuation of MUS 152V. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: MUS 152. Corequisites: None.

When Offered: (On demand)

MUS 252 - Class Music IV (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is a continuation of MUS 251. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: MUS 251. Corequisites: None.

When Offered: (On demand)

MUS 252G - Class Music IV – Guitar (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is a continuation of MUS 251G. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: MUS 251. Corequisites: None.

When Offered: (On demand)

MUS 252P - Class Music IV – Piano (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is a continuation of MUS 251P. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: MUS 251. Corequisites: None.

When Offered: (On demand)

MUS 252V - Class Music IV – Voice (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is a continuation of MUS 251V. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: MUS 251. Corequisites: None.

When Offered: (On demand)

MUS 253 - Big Band (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course includes the Big Band instrumentation of five saxes, four trumpets, four trombones, and four-piece rhythm section (bass, piano, drums, and guitar). Emphasis is placed on learning the repertoire specifically written for Big Band instrumentation. Upon completion, students should be able to demonstrate skills needed to participate in performance of Big Band music.

Prerequisites: None. Corequisites: None.

When Offered: (F,S)

MUS 261 - Applied Music III (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course is a continuation of MUS 162. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: MUS 162. Corequisites: None.

When Offered: (S)

MUS 261B - Applied Music III-Brass (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course is a continuation of MUS 162B. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: MUS 162. Corequisites: None.

When Offered: (S)

MUS 261D - Applied Music III-Percussion (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course is a continuation of MUS 162D. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: MUS 162. Corequisites: None.

When Offered: (S)

MUS 261G - Applied Music III-Guitar (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course is a continuation of MUS 162G. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: MUS 162. Corequisites: None.

When Offered: (S)

MUS 261P - Applied Music III-Piano (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course is a continuation of MUS 162P. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: MUS 162. Corequisites: None.

When Offered: (S)

MUS 261V - Applied Music III-Voice (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course is a continuation of MUS 162V. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: MUS 162. Corequisites: None.

When Offered: (S)

MUS 261W - Applied Music III-Woodwinds (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course is a continuation of MUS 162W. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: MUS 162. Corequisites: None.

When Offered: (S)

MUS 262 - Applied Music IV (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course is a continuation of MUS 261. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: MUS 261. Corequisites: None.

When Offered: (S)

MUS 262B - Applied Music IV-Brass (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course is a continuation of MUS 261B. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon

completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: MUS 261. Corequisites: None.

When Offered: (S)

MUS 262G - Applied Music IV-Guitar (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course is a continuation of MUS 261G. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: MUS 261. Corequisites: None.

When Offered: (S)

MUS 262P - Applied Music IV-Piano (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course is a continuation of MUS 261P. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: MUS 261. Corequisites: None.

When Offered: (S)

MUS 262V - Applied Music IV – Voice (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course is a continuation of MUS 261V. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: MUS 261. Corequisites: None.

When Offered: (S)

MUS 262W - Applied Music IV – Woodwinds (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course is a continuation of MUS 261W. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance.

Prerequisites: MUS 261. Corequisites: None.

When Offered: (S)

MUS 273 - Opera Production III (PM-ELEC)

Hours--Class: 0 Lab: 9 Clinic/Work Exp: 0 Credit: 3

This course provides an applied laboratory study of the processes involved in the production of an opera. Topics include fundamental practices, principles, and techniques associated with producing operas of various musical periods with an emphasis on stagecraft. Upon completion, students should be able to participate in an assigned position in a college opera production. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Prerequisite: MUS 174. Corequisite: None.

When Offered: (F,S)

MUS 274 - Opera Production IV (PM-ELEC)

Hours--Class: 0 Lab: 9 Clinic/Work Exp: 0 Credit: 3

This course provides an applied laboratory study of the processes involved in the production of an opera. Topics include fundamental practices, principles, and techniques associated with producing operas of various musical periods with an emphasis on rehearsal and performance techniques. Upon completion, students should be able to participate in an assigned position in a college opera production.

Prerequisites: MUS 273. Corequisites: None.

When Offered: (F,S)

MUS 281 - Show Choir III (PM-ELEC)

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course provides advanced training in dance/voice-based performance and in the nuances of preparation for such pop/jazz/theatre performances. Emphasis is placed on development of advanced skills necessary for professional group choral performance and the technical skills necessary for the execution of such performances. Upon completion, students should be able to demonstrate the advanced competencies necessary to perform the assigned literature in various venues and under various professional conditions.

Prerequisites: MUS 182. Corequisites: None.

When Offered: (F, S)

MUS 282 - Show Choir IV (PM-ELEC)

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course provides advanced training in dance/voice-based pop/jazz/theatre performances and is the capstone course in a four-semester series. Emphasis is placed on refinement of advanced skills necessary for professional group choral performance and the technical skills necessary for the execution of such performances. Upon completion, students should be able to demonstrate a mastery of the skills necessary to plan and perform the assigned literature in various venues and under various professional conditions.

Prerequisites: MUS 281. Corequisites: None.

When Offered: (F, S)

MUS 283 - Varied Cultures/Musical Perf (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course provides an opportunity for music students to experience various musical cultures and to perform in public venues for audiences in these cultures. Emphasis is placed on the development of performance skills and on the musically historical information that characterizes the specific culture. Upon completion, students should be able to identify new culturally-based musical concepts and will have experiences in working with other cultures and in culturally-reflective environments.

Prerequisites: None.

Corequisites: MUS 181 or MUS 182 or MUS 281 or MUS 282.

When Offered: (S - Invitation only)

Networking Technology

NET 125 - Introduction to Networks

Hours--Class: 1 Lab: 4 Clinic/Work Exp: 0 Credit: 3

This course introduces the architecture, structure, functions, components, and models of the Internet and computer networks. Topics include introduction to the principles of IP addressing and fundamentals of Ethernet concepts, media, and operations. Upon completion, students should be able to build simple LANs, perform basic configurations for routers and switches, and implement IP addressing schemes.

Prerequisites: None. Corequisites: None.

When Offered: (F, S)

NET 126 - Routing Basics

Hours--Class: 1 Lab: 4 Clinic/Work Exp: 0 Credit: 3

This course focuses on initial router configuration, router software management, routing protocol configuration, TCP/IP, and access control lists (ACLs). Emphasis will be placed on the fundamentals of router configuration, managing router software, routing protocol, and access lists. Upon completion, students should have an understanding of routers and their role in WANs, router configuration, routing protocols, TCP/IP, troubleshooting, and ACLs.

Prerequisites: NET 125. Corequisites: None.

When Offered: (F)

NET 225 - Routing & Switching I

Hours--Class: 1 Lab: 4 Clinic/Work Exp: 0 Credit: 3

This course focuses on advanced IP addressing techniques, intermediate routing protocols, command-line interface configuration of switches, Ethernet switching, VLANs, STP, and VTP. Emphasis will be placed on application and demonstration of skills acquired in pre-requisite courses. Upon completion, students should be able to perform tasks related to VLSM, routing protocols, switching concepts and configuration, STP, VLANs, and VTP.

Prerequisites: NET 126. Corequisites: None.

When Offered: (F)

Network Operating Systems

NOS 120 - Linux/UNIX Single User

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course develops the necessary skills for students to develop both GUI and command line skills for using and customizing a Linux workstation. Topics include Linux file system and access permissions, GNOME Interface, VI editor, X Window System expression pattern matching, I/O redirection, network and printing utilities. Upon completion, students should be able to customize and use Linux systems for command line requirements and desktop productivity roles.

Prerequisites: None. Corequisites: None.

When Offered: (S)

NOS 130 - Windows Single User

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces operating system concepts for single-user systems. Topics include hardware management, file and memory management, system configuration/optimization, and utilities. Upon completion, students should be able to perform operating systems functions at the support level in a single-user environment.

Prerequisites: None. Corequisites: None.
When Offered: (S)

NOS 230 - Windows Administration I

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course covers the installation and configuration of a Windows Server operating system. Emphasis is placed on the basic configuration of core network services, Active Directory and group policies. Upon completion, students should be able to install and configure a Windows Server operating system.

Prerequisites: None. Corequisites: None.
When Offered: (S)

Nursing**NUR 111 - Intro to Health Concepts**

Hours--Class: 4 Lab: 6 Clinic/Work Exp: 6 Credit: 8

This course introduces the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts within each domain including medication administration, assessment, nutrition, ethics, interdisciplinary teams, informatics, evidence-based practice, individual-centered care, and quality improvement. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

Prerequisites: None. Corequisites: BIO 168.
When Offered: (On demand)

NUR 112 - Health-Illness Concepts

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 6 Credit: 5

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of acid-base, metabolism, cellular regulation, oxygenation, infection, stress/coping, health-wellness-illness, communication, caring interventions, managing care, safety, quality improvement, and informatics. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

Prerequisites: BIO 168, NUR 111, PSY 150. Corequisites: BIO 169.
When Offered: (On demand)

NUR 113 - Family Health Concepts

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 6 Credit: 5

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of oxygenation, sexuality, reproduction, grief/loss, mood/affect, behaviors, development, family, health-wellness-illness, communication, caring interventions, managing care, safety, and advocacy. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

Prerequisites: BIO 168, BIO 169, ENG 111, NUR 111, NUR 112, NUR 114, PSY 150. Corequisites: BIO 275.
When Offered: (On demand)

NUR 114 - Holistic Health Concepts

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 6 Credit: 5

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of cellular regulation, perfusion, inflammation, sensory perception, stress/coping, mood/affect, cognition, self, violence, health-wellness-illness, professional behaviors, caring interventions, and safety. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

Prerequisites: BIO 168, NUR 111, NUR 112, PSY 150.
Corequisites: BIO 169.
When Offered: (On demand)

NUR 211 - Health Care Concepts

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 6 Credit: 5

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of cellular regulation, perfusion, infection, immunity, mobility, comfort, behaviors, health-wellness-illness, clinical decision-making, caring interventions, managing care, and safety. Upon completion, students should

be able to provide safe nursing care incorporating the concepts identified in this course.

Prerequisites: BIO 168, BIO 169, NUR 111, NUR 112, NUR 114, PSY 150.

Corequisites: ENG 111.

When Offered: (On demand)

NUR 212 - Health System Concepts

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 6 Credit: 5

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of grief/loss, violence, health-wellness-illness, collaboration, managing care, safety, advocacy, legal issues, policy, healthcare systems, ethics, accountability, and evidence-based practice. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

Prerequisites: BIO 168, BIO 169, NUR 111, NUR 112, NUR 114, PSY 150.

Corequisites: ENG 111.

When Offered: (On demand)

NUR 213 - Complex Health Concepts

Hours--Class: 4 Lab: 3 Clinic/Work Exp: 15 Credit: 10

This course is designed to assimilate the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of fluid/electrolytes, metabolism, perfusion, mobility, stress/coping, violence, health-wellness-illness, professional behaviors, caring interventions, managing care, healthcare systems, and quality improvement. Upon completion, students should be able to demonstrate the knowledge, skills, and attitudes necessary to provide quality, individualized, entry level nursing care.

Prerequisites: BIO 168, BIO 169, BIO 275, ENG 111, NUR 111, NUR 112, NUR 113, NUR 114, NUR 211, NUR 212, PSY 150.

Corequisites: ENG 112 or ENG 114.

NUR 214 - Nsg Transition Concepts

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 3 Credit: 4

This course is designed to introduce concepts within the three domains of the individual, healthcare, and nursing as the LPN transitions to the ADN role. Emphasis is placed on the concepts within each domain including evidenced-based practice, quality improvement, communication, safety, interdisciplinary team, clinical decision-making, informatics, assessment, caring, and health-wellness-illness. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

Prerequisites: None. Corequisites: None.

When Offered: (F)

NUR 221 - LPN to ADN Concepts I

Hours--Class: 6 Lab: 0 Clinic/Work Exp: 9 Credit: 9

This course is designed for the LPN to ADN student to explore the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of safety, perfusion, inflammation, oxygenation, mood/affect, behavior, development, family, health-wellness-illness, sensory perception, stress/coping, cognition, self, violence, and professional behaviors. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

Prerequisites: None. Corequisites: None.

When Offered: (F)

NUR 223 - LPN to ADN Concepts II

Hours--Class: 6 Lab: 0 Clinic/Work Exp: 9 Credit: 9

This course is designed for the LPN to ADN student to assimilate the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of fluid/electrolytes, metabolism, thermoregulation, oxygenation, tissue integrity, infection, perfusion, mobility, reproduction, sexuality, health-wellness-illness, professional behaviors, accountability, advocacy, and collaboration. Upon completion, students should be able to demonstrate the knowledge, skills, and attitudes necessary to provide quality, individualized, entry-level nursing care.

Prerequisites: NUR 221. Corequisites: None.

When Offered: (S)

Office Systems Technology**OST 131 - Keyboarding**

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course covers basic keyboarding skills. Emphasis is placed on the touch system, correct techniques, and development of speed and accuracy. Upon

completion, students should be able to key at an acceptable speed and accuracy level using the touch system.

Prerequisites: None. Corequisites: None.

When Offered: (F,S)

OST 132 - Keyboard Skill Building

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course is designed to increase speed and improve accuracy in keyboarding. Emphasis is placed on diagnostic tests to identify accuracy and speed deficiencies followed by corrective drills. Upon completion, students should be able to keyboard rhythmically with greater accuracy and speed.

Prerequisites: None. Corequisites: None.

When Offered: (F)

OST 136 - Word Processing

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course is designed to introduce word processing concepts and applications. Topics include preparation of a variety of documents and mastery of specialized software functions. Upon completion, students should be able to work effectively in a computerized word processing environment.

Prerequisites: None. Corequisites: None.

When Offered: (F)

OST 140 - Internet Comm/Research

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course provides a working knowledge of Internet usage and research for the modern office. Emphasis is placed on using search engines, email, Web sites, Web servers, communication services, and e-business to obtain information vital to the current office environment. Upon completion, students would be able to use the Internet to research any office topics required for employment.

Prerequisites: HMT 110, must pass with a grade of C or higher. Corequisites: None.

When Offered: (S)

OST 148 - Med Ins & Billing

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces fundamentals of medical insurance and billing. Emphasis is placed on the medical billing cycle to include third party payers, coding concepts, and form preparation. Upon completion, students should be able to explain the life cycle of and accurately complete a medical insurance claim.

Prerequisites: HMT 110, must pass with a grade of C or higher.

Corequisites: None.

When Offered: (F, S)

OST 149 - Medical Legal Issues

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the complex legal, moral, and ethical issues involved in providing health-care services. Emphasis is placed on the legal requirements of medical practices; the relationship of physician, patient, and office personnel; professional liabilities; and medical practice liability. Upon completion, students should be able to demonstrate a working knowledge of current medical law and accepted ethical behavior.

Prerequisites: None. Corequisites: None.

When Offered: (F, S, SU)

OST 164 - Office Editing

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides a comprehensive study of editing skills needed in the workplace. Emphasis is placed on grammar, punctuation, sentence structure, proofreading, and editing. Upon completion, students should be able to use reference materials to compose and edit text.

Prerequisites: None. Corequisites: None.

When Offered: (F)

OST 181 - Office Procedures

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces the skills and procedures needed in today's office. Topics include effectively interacting with co-workers and the public, processing simple financial and informational documents, and performing functions typical of today's offices. Upon completion, students should be able to display skills and decision-making abilities essential for functioning in the total office context.

Prerequisites: None. Corequisites: None.

When Offered: (S)

OST 184 - Records Management

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course includes the creation, maintenance, protection, security, and disposition of records stored in a variety of media forms. Topics include alphabetic, geographic, subject, and numeric filing methods. Upon completion, students should be able to set up and maintain a records management system.

Prerequisites: None. Corequisites: None.

When Offered: (S)

OST 243 - Med Office Simulation

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces medical systems used to process information in the automated office. Topics include traditional and electronic information resources, storing and retrieving information, and the billing cycle. Upon completion, students should be able to use the computer accurately to schedule, bill, update, and make corrections.

Prerequisites: OST 148 and OST 280 - must pass both prerequisites with a grade of C or higher. Corequisites: None.

When Offered: (F, Su)

OST 247 - Procedure Coding

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course provides in-depth coverage of procedural coding. Emphasis is placed on CPT and HCPCS coding systems. Upon completion, students should be able to properly code procedures and services performed in a medical facility.

Prerequisites: MED 121 and MED 122, must pass with a grade of C or higher.

Corequisites: None.

When Offered: (F, S)

OST 248 - Diagnostic Coding

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course provides an in-depth study of diagnostic coding. Emphasis is placed on ICD coding system. Upon completion, students should be able to properly code diagnoses in a medical facility.

Prerequisites: MED 121 and MED 122, must pass with a grade of C or higher.

Corequisites: None.

When Offered: (F, S)

OST 249 - Med Coding Certification Prep

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course provides instruction that will prepare students to sit for a national coding certification exam. Topics include diagnostic and procedural coding. Upon completion, students should be able to sit for various medical coding certification exams.

Prerequisites: OST 247 and OST 248, must pass with a grade of C or higher.

Corequisites: None.

When Offered: (S)

OST 263 - Healthcare Customer Relations

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides the soft skills necessary for effective communication and maintaining customer satisfaction in healthcare. Emphasis is placed on the importance of positive attitudes, techniques for handling difficult/angry customers, rephrasing blunt communication for better results, and the communication skills required to discuss topics such as insurance and billing issues with the patient and other medical personnel. Upon completion, students should be able to communicate information in a professional manner.

Prerequisites: OST 148, must pass with a grade of C or higher.

Corequisite: None.

When Offered: (S,Su)

OST 280 - Electronic Health Records

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course focuses on the use of electronic health records in medical documentation and patient management. Emphasis is placed on creating and maintaining patient medical information, scheduling patient appointments, documenting patient encounters, and billing/insurance claim processing. Upon completion, students should be able to perform the required software tasks following a patient visit from start to finish.

Prerequisites: CIS 110, CIS 111, or OST 137. Corequisites: None.

When Offered: (F,S)

OST 286 - Professional Development

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the personal competencies and qualities needed to project a professional image in the office. Topics include interpersonal skills, health lifestyles, appearance, attitude, personal and professional growth, multicultural awareness, and professional etiquette. Upon completion, students should be able to demonstrate these attributes in the classroom, office, and society.

Prerequisites: None. Corequisites: None.
When Offered: (F)

OST 288 - Medical Office Admin Capstone

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course is designed to be a capstone course for the medical office professional and provides a working knowledge of medical office procedures. Emphasis is placed on written and oral communication skills, practice management, electronic health records, medical office procedures, ethics, and professional development. Upon completion, students should be able to demonstrate the skills necessary to manage a medical office.

Prerequisites: OST 148 with a grade of C or higher. Corequisites: None.
When Offered: (S)

Physical Education**PED 110 - Fit and Well for Life (PM-ELEC)**

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course is designed to investigate and apply the basic concepts and principles of lifetime physical fitness and other health related factors. Emphasis is placed on wellness through the study of nutrition, weight control, stress management, and consumer facts on exercise and fitness. Upon completion, students should be able to plan a personal, lifelong fitness program based on individual needs, abilities, and interests.

Prerequisites: None. Corequisites: None.
When Offered: (S, On demand)

PED 113 - Aerobics I (PM-ELEC)

Hours--Class: 0 Lab: 3 Clinic/Work Exp: 0 Credit: 1

This course introduces a program of cardiovascular fitness involving continuous, rhythmic exercise. Emphasis is placed on developing cardiovascular efficiency, strength, and flexibility and on safety precautions. Upon completion, students should be able to select and implement a rhythmic aerobic exercise program.

Prerequisites: None. Corequisites: None.
When Offered: (F, S, On demand)

PED 114 - Aerobics II (PM-ELEC)

Hours--Class: 0 Lab: 3 Clinic/Work Exp: 0 Credit: 1

This course provides a continuation of a program of cardiovascular fitness involving rhythmic exercise. Emphasis is placed on a wide variety of aerobic activities which include cardiovascular efficiency, strength, and flexibility. Upon completion, students should be able to participate in and design a rhythmic aerobic exercise routine.

Prerequisites: PED 113 or equivalent training or experience.
Corequisites: None.
When Offered: (On demand)

PED 117 - Weight Training I (PM-ELEC)

Hours--Class: 0 Lab: 3 Clinic/Work Exp: 0 Credit: 1

This course introduces the basics of weight training. Emphasis is placed on developing muscular strength, muscular endurance, and muscle tone. Upon completion, students should be able to establish and implement a personal weight training program.

Prerequisites: None. Corequisites: None.
When Offered: (F, S, On demand)

PED 118 - Weight Training II (PM-ELEC)

Hours--Class: 0 Lab: 3 Clinic/Work Exp: 0 Credit: 1

This course covers advanced levels of weight training. Emphasis is placed on meeting individual training goals and addressing weight training needs and interests. Upon completion, students should be able to establish and implement an individualized advanced weight training program.

Prerequisites: PED 117 or equivalent training or experience. Corequisites: None.
When Offered: (F, S, On demand)

PED 120 - Walking for Fitness (PM-ELEC)

Hours--Class: 0 Lab: 3 Clinic/Work Exp: 0 Credit: 1

This course introduces fitness through walking. Emphasis is placed on stretching, conditioning exercises, proper clothing, fluid needs, and injury prevention. Upon completion, students should be able to participate in a recreational walking program.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

PED 121 - Walk, Jog, Run (PM-ELEC)

Hours--Class: 0 Lab: 3 Clinic/Work Exp: 0 Credit: 1

This course covers the basic concepts involved in safely and effectively improving cardiovascular fitness. Emphasis is placed on walking, jogging, or running as a means of achieving fitness. Upon completion, students should be able to understand and appreciate the benefits derived from these activities.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

PED 122 - Yoga I (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course introduces the basic discipline of yoga. Topics include proper breathing, relaxation techniques, and correct body positions. Upon completion, students should be able to demonstrate the procedures of yoga.

Prerequisites: None. Corequisites: None.
When Offered: (F, S, On demand)

PED 123 - Yoga II (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course introduces more detailed aspects of the discipline of yoga. Topics include breathing and physical postures, relaxation, and mental concentration. Upon completion, students should be able to demonstrate advanced procedures of yoga.

Prerequisites: PED 122. Corequisites: None.
When Offered: (On demand)

PED 124 - Run, Swim, Cycle (PM-ELEC)

Hours--Class: 0 Lab: 3 Clinic/Work Exp: 0 Credit: 1

This course introduces the sport of the triathlon. Topics include the rules, equipment, and skills necessary for the triathlon. Upon completion, students should be able to participate in a triathlon competition.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

PED 125 - Self-Defense-Beginning (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is designed to aid students in developing rudimentary skills in self-defense. Emphasis is placed on stances, blocks, punches, and kicks as well as non-physical means of self-defense. Upon completion, students should be able to demonstrate basic self-defense techniques of a physical and non-physical nature.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

PED 128 - Golf-Beginning (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course emphasizes the fundamentals of golf. Topics include the proper grips, stance, alignment, swings for the short and long game, putting, and the rules and etiquette of golf. Upon completion, students should be able to perform the basic golf shots and demonstrate a knowledge of the rules and etiquette of golf.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

PED 129 - Golf-Intermediate (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course covers the more advanced phases of golf. Emphasis is placed on refining the fundamental skills and learning more advanced phases of the games such as club selection, trouble shots, and course management. Upon completion, students should be able to demonstrate the knowledge and ability to play a recreational round of golf.

Prerequisites: PED 128 or equivalent training or experience.
Corequisites: None.
When Offered: (On demand)

PED 130 - Tennis-Beginning (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1
 This course emphasizes the fundamentals of tennis. Topics include basic strokes, rules, etiquette, and court play. Upon completion, students should be able to play recreational tennis.

Prerequisites: None. Corequisites: None.
 When Offered: (F, SU, On demand)

PED 131 - Tennis-Intermediate (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1
 This course emphasizes the refinement of playing skills. Topics include continuing the development of fundamentals, learning advanced serves, and strokes and pace and strategies in singles and doubles play. Upon completion, students should be able to play competitive tennis.

Prerequisites: PED 130 or equivalent training or experience.
 Corequisites: None.
 When Offered: (On demand)

PED 137 – Badminton (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1
 This course covers the fundamentals of badminton. Emphasis is placed on the basics of serving, clears, drops, drives, smashes, and the rules and strategies of singles and doubles. Upon completion, students should be able to apply these skills in playing situations.

Prerequisites: None. Corequisites: None.
 When Offered: (On demand)

PED 138 – Archery (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1
 This course introduces basic archery safety and skills. Topics include proper techniques of stance, bracing, drawing, and releasing as well as terminology and scoring. Upon completion, students should be able to participate safely in target archery.

Prerequisites: None. Corequisites: None.
 When Offered: (On demand)

PED 139 - Bowling-Beginning (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1
 This course introduces the fundamentals of bowling. Emphasis is placed on ball selection, grips, stance, and delivery along with rules and etiquette. Upon completion, students should be able to participate in recreational bowling.

Prerequisites: None. Corequisites: None.
 When Offered: (On demand)

PED 142 - Lifetime Sports (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1
 This course is designed to give an overview of a variety of sports activities. Emphasis is placed on the skills and rules necessary to participate in a variety of lifetime sports. Upon completion, students should be able to demonstrate an awareness of the importance of participating in lifetime sports activities.

Prerequisites: None. Corequisites: None.
 When Offered: (On demand)

PED 143 - Volleyball-Beginning (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1
 This course covers the fundamentals of volleyball. Emphasis is placed on the basics of serving, passing, setting, spiking, blocking, and the rules and etiquette of volleyball. Upon completion, students should be able to participate in recreational volleyball.

Prerequisites: None. Corequisites: None.
 When Offered: (On demand)

PED 144 - Volleyball-Intermediate (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1
 This course covers more advanced volleyball techniques. Emphasis is placed on refining skills and developing more advanced strategies and techniques. Upon completion, students should be able to participate in competitive volleyball.

Prerequisites: PED 143. Corequisites: None.
 When Offered: (On demand)

PED 145 - Basketball-Beginning (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1
 This course covers the fundamentals of basketball. Emphasis is placed on skill development, knowledge of the rules, and basic game strategy. Upon

completion, students should be able to participate in recreational basketball.

Prerequisites: None. Corequisites: None.
 When Offered: (On demand)

PED 146 - Basketball-Intermediate (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1
 This course covers more advanced basketball techniques. Emphasis is placed on refining skills and developing more advanced strategies and techniques. Upon completion, students should be able to play basketball at a competitive level.

Prerequisites: PED 145. Corequisites: None.
 When Offered: (On demand)

PED 147 – Soccer (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1
 This course introduces the basics of soccer. Emphasis is placed on rules, strategies, and fundamental skills. Upon completion, students should be able to participate in recreational soccer.

Prerequisites: None. Corequisites: None.
 When Offered: (On demand)

PED 148 – Softball (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1
 This course introduces the fundamental skills and rules of softball. Emphasis is placed on proper techniques and strategies for playing softball. Upon completion, students should be able to participate in recreational softball.

Prerequisites: None. Corequisites: None.
 When Offered: (On demand)

PED 150 - Baseball – Beginning (PM-ELEC)

Hours--Class: 0 Lab: 3 Clinic/Work Exp: 0 Credit: 1
 This course covers the fundamentals of baseball. Emphasis is placed on skill development, knowledge of the rules, and basic game strategy. Upon completion, students should be able to participate in recreational baseball.

Prerequisites: None. Corequisites: None.
 When Offered: (On demand)

PED 152 - Swimming-Beginning (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1
 This course is designed for non-swimmers and beginners. Emphasis is placed on developing confidence in the water, learning water safety, acquiring skills in floating, and learning elementary strokes. Upon completion, students should be able to demonstrate safety skills and be able to tread water, back float, and use the crawl stroke for 20 yards.

Prerequisites: None. Corequisites: None.
 When Offered: (On demand)

PED 153 - Swimming-Intermediate (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1
 This course is designed for those who have mastered basic swimming skills. Emphasis is placed on refining basic skills and learning new swim strokes. Upon completion, students should be able to demonstrate the four basic strokes, the scissors kick, the underwater swim, and other related skills.

Prerequisites: PED 152 or proficiency in swimming. Corequisites: None.
 When Offered: (On demand)

PED 154 - Swimming for Fitness (PM-ELEC)

Hours--Class: 0 Lab: 3 Clinic/Work Exp: 0 Credit: 1
 This course introduces lap swimming, aquacises, water activities, and games. Emphasis is placed on increasing cardiovascular efficiency through aquatic exercise. Upon completion, students should be able to develop an individualized aquatic fitness program.

Prerequisites: PED 152. Corequisites: None.
 When Offered: (On demand)

PED 160 - Canoeing-Basic (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1
 This course provides basic instruction for the beginning canoeist. Emphasis is placed on safe and correct handling of the canoe and rescue skills. Upon completion, students should be able to demonstrate basic canoeing, safe-handling, and self-rescue skills.

Prerequisites: None. Corequisites: None.
 When Offered: (On demand)

PED 161 - Canoeing-Rivers (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1
 This course provides practice in the basic skills of river and whitewater canoeing. Emphasis is placed on river running, safety, and care of

equipment. Upon completion, students should be able to demonstrate navigation in a moving current, canoe safety, and self-rescue skills.

Prerequisites: PED 160. Corequisites: None.

When Offered: (On demand)

PED 163 - Kayaking-Basic (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is designed to teach the basic skills of kayaking. Topics include forward and reverse strokes, sweeps, Eskimo roll, and self-rescue skills. Upon completion, students should be able to maneuver and demonstrate safe kayaking practices.

Prerequisites: PED 152. Corequisites: None.

When Offered: (On demand)

PED 171 - Nature Hiking (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course provides instruction on how to equip and care for oneself on the trail. Topics include clothing, hygiene, trail ethics, and necessary equipment. Upon completion, students should be able to successfully participate in nature trail hikes. Much of this course involves travel to and participation on nearby mountain trails.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

PED 181 - Snow Skiing-Beginning (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course introduces the fundamentals of snow skiing. Topics include basic techniques, safety, and equipment involved in snow skiing. Upon completion, students should be able to ski a down slope, enter and exit a ski lift, and perform basic maneuvers on skis.

Prerequisites: None. Corequisites: None.

When Offered: (S, On demand)

PED 212 - Snowboarding-Beginning (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is designed to develop the basic knowledge and skills of snowboarding. Topics include equipment, conditioning exercises, terminology, safety, rules, fundamental skills, and the use of lifts. Upon completion, students should be able to snowboard downhill, enter and exit a ski lift, and perform basic maneuvers on a snowboard.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

PED 217 - Pilates I (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course provides an introduction to the pilates method of body conditioning exercise. Topics include instruction in beginning and intermediate pilates exercises using a mat or equipment, history of pilates method, and relevant anatomy and physiology. Upon completion, students should be able to perform beginning and intermediate exercises, and possess an understanding of the benefits of conditioning the body's core muscles.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

PED 218 - Pilates II (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course provides continued instruction to the pilates method of body conditioning exercise. Topics include instruction in intermediate and advanced pilates exercises using a mat or equipment, relevant anatomy and physiology, and further discussion of related concepts. Upon completion, students should be able to perform intermediate and advanced exercises, and possess the autonomy to maintain their own personal pilates practice.

Prerequisites: PED 217. Corequisites: None.

When Offered: (On demand)

PED 220 - Exer for Phys Challenged (PM-ELEC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is designed to improve physical strength, endurance, and range of motion while focusing on individual needs. Emphasis is placed on exercises which are designed and adapted to serve those with special needs. Upon completion, students should be able to show improved physical fitness, body awareness, and an appreciation for their physical well-being.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

PED 252 - Officiating/Bsball/Sfball (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course introduces the rules and techniques for sports officiating in baseball and softball. Emphasis is placed on officiating fundamentals and responsibilities. Upon completion, students should be able to demonstrate proper mechanics and knowledge of officiating procedures in baseball and softball.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

PED 254 - Coaching Basketball (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course introduces the theory and methods of coaching basketball. Emphasis is placed on rules, game strategies, and selected techniques of coaching basketball. Upon completion, students should be able to demonstrate competent coaching skills in basketball.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

PED 256 - Coaching Baseball (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course introduces the theory and methods of coaching baseball. Emphasis is placed on rules, game strategies, and selected techniques of coaching baseball. Upon completion, students should be able to demonstrate competent coaching skills in baseball.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

PED 259 - Prev & Care Ath Injuries (PM-ELEC)

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course provides information on the prevention and care of athletic injuries. Topics include safety devices, taping, therapeutic techniques, and conditioning exercises. Upon completion, students should be able to demonstrate proper preventive measures and skills in caring for athletic injuries.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

Philosophy

PHI 210 - History of Philosophy (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces fundamental philosophical issues through an historical perspective. Emphasis is placed on such figures as Plato, Aristotle, Lao-Tzu, Confucius, Augustine, Aquinas, Descartes, Locke, Kant, Wollstonecraft, Nietzsche, and Sartre. Upon completion, students should be able to identify and distinguish among the key positions of the philosophers studied. Primary sources are examined to understand the key philosophical ideas that have shaped the way we think.

Prerequisites: ENG 111. Corequisites: None.

When Offered: (On demand)

PHI 215 - Philosophical Issues (UGETC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces fundamental issues in philosophy considering the views of classical and contemporary philosophers. Emphasis is placed on knowledge and belief, appearance and reality, determinism and free will, faith and reason, and justice and inequality. Upon completion, students should be able to identify, analyze, and critically evaluate the philosophical components of an issue.

Prerequisite: ENG 111. Corequisites: None.

When Offered: (On demand)

PHI 240 - Introduction to Ethics (UGETC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces theories about the nature and foundations of moral judgments and applications to contemporary moral issues. Emphasis is placed on moral theories such as consequentialism, deontology, and virtue ethics. Upon completion, students should be able to apply various ethical theories to moral issues such as abortion, capital punishment, poverty, war, terrorism, the treatment of animals, and issues arising from new technologies. Primary sources are examined to better understand the background of ethical theories.

Prerequisites: ENG 111. Corequisites: None.

When Offered: (F,S)

Photography

PHO 110 - Fund of Photography

Hours--Class: 3 Lab: 6 Clinic/Work Exp: 0 Credit: 5
 This course covers the basic technical aspects of photography, including camera controls, light and optics, flash, exposure, and processing. Emphasis is placed on principles of camera design and the relationship between subject and photographic image, with hands-on experience. Upon completion, students should be able to consistently produce technically excellent images.

Prerequisites: None. Corequisites: None.
 When Offered: (F)

PHO 113 - History of Photography

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3
 This course introduces the history of photography from its inception through contemporary times. Emphasis is placed on technical and aesthetical developments in artistic and commercial photography. Upon completion, students should be able to identify significant photographers and procedures, trace the development of the medium, and discuss current trends in photography.

Prerequisites: None. Corequisites: None.
 When Offered: (F)

PHO 115 - Basic Studio Lighting

Hours--Class: 2 Lab: 6 Clinic/Work Exp: 0 Credit: 4
 This course covers the basic principles of studio lighting. Topics include basic lighting techniques and application of lighting ratios to product illustration/portraiture using tungsten/electronic strobe sources, with emphasis on equipment maintenance and safety. Upon completion, students should be able to select and set up the best lights and lighting applications for a wide variety of photographic subjects.

Prerequisites: PHO 110. Corequisites: None.
 When Offered: (S)

PHO 120 - Intermediate Photography

Hours--Class: 2 Lab: 4 Clinic/Work Exp: 0 Credit: 4
 This course expands the coverage of photographic materials and provides an opportunity to experiment. Emphasis is placed on additional techniques and processes, including solarization, multiple-imaging, infrared toning, and other non-traditional uses of photography. Upon completion, students should be able to demonstrate how the choice of technique enhances the photographic subject and influences content.

Prerequisites: PHO 110 and PHO 139. Corequisites: None.
 When Offered: (S)

PHO 131 - View Camera

Hours--Class: 2 Lab: 4 Clinic/Work Exp: 0 Credit: 4
 This course is a comprehensive hands-on study of the large-format camera, including capabilities, movements, and applications in studio and architectural photography. Topics include camera systems, camera controls, perspective correction, plane of sharp focus, depth-of-field, image shape modification, and sheet film handling and processing. Upon completion, students should be able to demonstrate competence in using the view camera and its various controls.

Prerequisites: PHO 110 and PHO 115. Corequisites: None.
 When Offered: (On demand)

PHO 139 - Intro to Digital Imaging

Hours--Class: 1 Lab: 4 Clinic/Work Exp: 0 Credit: 3
 This course introduces digital images by exploring the effect hardware and software have on the reproduction process. Topics include basic imaging tools and vocabulary, calibration, density, contrast, and color. Upon completion, students should be able to demonstrate a basic understanding of the digital imaging process and be able to capture and output images.

Prerequisites: None. Corequisites: None.
 When Offered: (F)

PHO 150 - Portfolio Development I

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4
 This course provides an opportunity to develop a thematically related portfolio of photographic images that are consistent in print quality. Emphasis is placed on subject/content development, choice of materials, and archival processing controls; organizing and sequencing images; editing; print finishing; and portfolio presentation. Upon completion, students should be able to edit and exhibit a consistent body of photographic prints in a portfolio presentation.

Prerequisites: PHO 120. Corequisites: None.
 When Offered: (F)

PHO 180 - Creative Problem Solving

Hours--Class: 1 Lab: 4 Clinic/Work Exp: 0 Credit: 3
 This course encourages the development of innovative photographic solutions to instructor-assigned tasks. Emphasis is placed on identifying components necessary to complete the task and applying creative solutions. Upon completion, students should be able to solve problems in a variety of photographic areas, combining media where needed to achieve the desired results.

Prerequisites: PHO 110 and permission of instructor. Corequisites: None.
 When Offered: (On demand)

PHO 216 - Documentary Photography

Hours--Class: 2 Lab: 4 Clinic/Work Exp: 0 Credit: 4
 This course introduces the practical, historical, and contemporary applications of documentary photography. Emphasis is placed on understanding the various approaches to creating a photographic documentary and how a documentary project can affect society. Upon completion, students should be able to produce a documentary project on a topic of interest to them.

Prerequisites: PHO 110 and PHO 139. Corequisites: None.
 When Offered: (S)

PHO 217 - Photojournalism I

Hours--Class: 1 Lab: 6 Clinic/Work Exp: 0 Credit: 4
 This course covers logistics and techniques used in current professional newspaper photography. Topics include detailed study of spot and general news, sports, and feature photography along with basic newspaper layout, advanced photographic techniques, and legal issues. Upon completion, students should be able to demonstrate an understanding of basic aspects of news, sports, and feature photography.

Prerequisites: PHO 110 and PHO 139. Corequisites: None.
 When Offered: (F)

PHO 219 - Digital Applications

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2
 This course provides additional experience in digital photography including input/output and computer manipulation of images. Topics include legal and ethical issues and commonly used hardware and software packages, including their basic controls and imaging tools. Upon completion, students should be able to input/output images and manipulate images.

Prerequisites: PHO 139. Corequisites: None.
 When Offered: (S)

PHO 220 - Business of Photography

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3
 This course covers the business practices of photography with emphasis on freelance photography. Topics include copyright, payment fees, client relations, licenses, insurance, assignments, stock sales, and usage rates. Upon completion, students should be able to demonstrate an understanding of the photographic business, including billing, clients, copyright protection, and obtaining assignments.

Prerequisites: None. Corequisites: None.
 When Offered: (S)

PHO 224 - Multimedia Production

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3
 This course covers various aspects of computer based multimedia production. Topics include sound recording and editing techniques and software, multimedia software, control of image and continuity and pacing, script writing, copyright laws and ethics. Upon completion, students should be able to use computer hardware and software for multimedia production.

Prerequisites: None. Corequisites: None.
 When Offered: (S)

PHO 226 - Portraiture

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4
 This course covers the techniques of contemporary studio and location portraiture. Topics include lighting techniques, lighting ratios, available light to multiple light setups, posing techniques, and styles of glamour, fashion, corporate, and public relations portraiture. Upon completion, students should be able to choose the appropriate lighting, accessories, and posing style to produce a successful portrait. Formal and candid wedding photography will also be a part of the course of study.

Prerequisites: PHO 115. Corequisites: None.
 When Offered: (F)

PHO 235 - Commercial Photography

Hours--Class: 2 Lab: 4 Clinic/Work Exp: 0 Credit: 4

This course covers the techniques of advertising photography used in the print media. Emphasis is placed on the conception, lighting, and creation of photographic illustration used for food, fashion, and product photography. Upon completion, students should be able to produce advertising photographs for professional photographic illustration.

Prerequisites: PHO 115. Corequisites: None.

When Offered: (F)

PHO 250 - Portfolio Development II

Hours--Class: 2 Lab: 4 Clinic/Work Exp: 0 Credit: 4

This course provides an opportunity to develop a diversified professional portfolio of photographs. Emphasis is placed on the development of a portfolio exhibiting technical excellence, consistency of vision, and professional presentation. Upon completion, students should be able to present a diversified portfolio of professional quality photographs to potential employers.

Prerequisites: PHO 217, PHO 226, PHO 235. Corequisites: None.

When Offered: (S)

PHO 275 - Travel/Outdoor Photo

Hours--Class: 1 Lab: 6 Clinic/Work Exp: 0 Credit: 3

This course explores the growing market for travel and outdoor photography. Emphasis is placed on photography in foreign environments, including travel arrangements and restrictions; protection of cameras, accessories, and filters; and identification of markets for travel photography. Upon completion, students should be able to photograph people in cross-cultural situations, photograph outdoor environments, and market travel photography.

Prerequisites: PHO 110. Corequisites: None.

Physical Science**PHS 130 - Earth Science (PM-ELEC)**

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course is a survey of the forces that impact the earth. Topics include geology, oceanography, and meteorology. Upon completion, students should be able to explain and identify the forces within, on, and around the earth as they influence the earth's dynamics.

Prerequisites: ENG 002. Corequisites: None.

When Offered: (On demand)

Physics**PHY 110 - Conceptual Physics (UGETC)**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides a conceptually-based exposure to the fundamental principles and processes of the physical world. Topics include basic concepts of motion, forces, energy, heat, electricity, magnetism, and the structure of matter and the universe. Upon completion, students should be able to describe examples and applications of the principles studied.

Prerequisites: ENG 002, MAT 003. Corequisites: PHY 110A.

When Offered: (F, S, On demand)

PHY 110A - Conceptual Physics Lab (UGETC)

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course is a laboratory for PHY 110. Emphasis is placed on laboratory experiences that enhance materials presented in PHY 110. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in PHY 110.

Prerequisites: None. Corequisites: PHY 110.

When Offered: (F, S, On demand)

PHY 131 - Physics-Mechanics

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This algebra/trigonometry-based course introduces fundamental physical concepts as applied to engineering technology fields. Topics include systems of units, problem-solving methods, graphical analysis, vectors, motion, forces, Newton's laws of motion, work, energy, power, momentum, and properties of matter. Upon completion, students should be able to apply the principles studied to applications in engineering technology fields. MAT 122 or MAT 172 is recommended prior to or concurrently with this course.

Prerequisites: MAT 121 or MAT 171 or MAT 271 must pass with a grade of C or higher; ENG 002. Corequisites: None.

When Offered: (F, On demand)

PHY 151 - College Physics I (UGETC)

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course uses algebra- and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vectors, linear kinematics and dynamics, energy, power, momentum, fluid mechanics, and heat. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. MAT 172 is recommended prior to or concurrently with this course.

Prerequisites: MAT 171 or MAT 271 must pass with a grade of C or higher;

ENG 002. Corequisites: None.

When Offered: (F, S, On demand)

PHY 152 - College Physics II (UGETC)

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course uses algebra- and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, magnetostatic forces, magnetic fields, electromagnetic induction, alternating current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered.

Prerequisites: PHY 151 must pass with a grade of C or higher.

Corequisites: None.

When Offered: (S)

PHY 251 - General Physics I (UGETC)

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vector operations, linear kinematics and dynamics, energy, power, momentum, rotational mechanics, periodic motion, fluid mechanics, and heat. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered.

Prerequisites: MAT 271 must pass with a grade of C or higher; ENG 002.

Corequisites: MAT 272.

When Offered: (S)

PHY 252 - General Physics II (UGETC)

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, magnetostatic forces, magnetic fields, electromagnetic induction, alternating current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered.

Prerequisites: MAT 272, PHY 251 must pass with a grade of C or higher.

Corequisites: None.

When Offered: (F)

Plastics**PLA 120 - Injection Molding**

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course provides theory and processing experience with the injection molding process. Topics include machine type, molds, controls, machine-polymer part relationship, molding factors, troubleshooting, and molding problems/solutions. Upon completion, students should be able to demonstrate an understanding of machine setup and operation and be able to optimize common injection molding machines.

Prerequisites: None. Corequisites: None.

When Offered: (On Demand)

Political Science**POL 110 - Intro Political Science (GENED)**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces basic political concepts used by governments and addresses a wide range of political issues. Topics include political theory, ideologies, legitimacy, and sovereignty in democratic and non-democratic systems. Upon completion, students should be able to discuss a variety of issues inherent in all political systems and draw logical conclusions in evaluating these systems.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

POL 120 - American Government

(UGETC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is a study of the origins, development, structure, and functions of American government. Topics include the constitutional framework, federalism, the three branches of government including the bureaucracy, civil rights and liberties, political participation and behavior, and policy process. Upon completion, students should be able to demonstrate an understanding of the basic concepts and participatory processes of the American political system.

Prerequisites: None. Corequisites: None.

When Offered: (F, S)

POL 130 - State & Local Government

(PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course includes state and local political institutions and practices in the context of American federalism. Emphasis is placed on procedural and policy differences as well as political issues in state, regional, and local governments of North Carolina. Upon completion, students should be able to identify and discuss various problems associated with intergovernmental politics and their effect on the community and the individual.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

Printing**PRN 155 - Screen Printing I**

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course covers screen printing techniques and materials. Topics include methods, materials, design, and image and stencil preparation techniques. Upon completion, students should be able to produce single- or multi-color projects.

Prerequisites: None. Corequisites: None.

When Offered: (S)

PRN 156 - Screen Printing II

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course is a continuation of PRN 155. Emphasis is placed on advanced techniques and current industry practices. Upon completion, students should be able to produce multi-color projects utilizing various photographic stencil methods and substrates.

Prerequisites: PRN 155. Corequisites: None

Polysomnography**PSG 110 - Intro to Polysomnography**

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course introduces the polysomnography profession. Topics include the history of the profession and role of the polysomnographic technologist, communication, time management, infection control, basic patient assessment, and medical gas therapy. Upon completion, students should be able to demonstrate competence in concepts through written and laboratory evaluations.

Prerequisites: None. Corequisites: None.

When Offered: (S)

PSG 111 - Neuro/Cardiopulmonary A&P

Hours--Class: 4 Lab: 0 Clinic/Work Exp: 0 Credit: 4

This course provides a concentrated study of anatomy and physiology essential to the practice of polysomnography. Emphasis is placed on the physiology of the nervous, cardiovascular, and pulmonary systems and basic pharmacological principles. Upon completion, students should be able to demonstrate competence in concepts through written evaluation.

Prerequisites: BIO 163; or BIO 168 and BIO 169. Corequisites: None.

When Offered: (S)

PSG 112 - PSG Fundamentals

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides the knowledge and skills necessary to manage/function in a polysomnographic laboratory. Topics include recordkeeping, scheduling techniques, creation/implementation of departmental policies, reimbursement, the technologist's role as sleep advocate, and case management/ patient education. Upon completion, students should be able to demonstrate competence in concepts through written evaluation.

Prerequisites: None. Corequisites: None.

When Offered: (F)

PSG 189 - PSG Transition

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 3 Credit: 3

This course introduces the basic fundamentals for polysomnography. Emphasis is placed on cardiopulmonary assessment and monitoring, medical gas therapy, principles of case management, wellness promotion, recordkeeping, reimbursement, and exposure to the clinical setting. Upon completion, students should be prepared to apply the above concepts to the field of polysomnography.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

PSG 210 - Polysomnography I

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 9 Credit: 7

This course provides entry-level didactic, laboratory, and clinical training in polysomnography. Emphasis is placed on medical terminology, instrumentation setup and calibration, recording and monitoring techniques, and patient technologist interactions. Upon completion, students should be able to demonstrate competence in concepts and procedures through written, laboratory and clinical evaluations.

Prerequisites: PSG 111 or PSG 189. Corequisites: None.

When Offered: (F)

PSG 211 - Polysomnography II

Hours--Class: 2 Lab: 6 Clinic/Work Exp: 9 Credit: 7

This course provides advanced-level didactic, laboratory, and clinical training in polysomnography. Emphasis is placed on the knowledge and skills necessary to obtain and evaluate high quality sleep recordings. Upon completion, students should be able to demonstrate competence in concepts and procedures through written, laboratory and clinical evaluations

Prerequisites: PSG 210. Corequisites: None.

When Offered: (S)

PSG 212 - Infant/Pediatric PSG

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course provides the knowledge and skills to perform and score polysomnographic procedures on infants and pediatric patients. Emphasis is placed on infant/pediatric assessment, monitoring, and sleep disorders. Upon completion, students should be able to demonstrate competence in concepts through written and laboratory evaluations.

Prerequisites: None. Corequisites: None.

When Offered: (F)

PSG 213 - Case Study/Exam Review

Hours--Class: 0 Lab: 3 Clinic/Work Exp: 0 Credit: 1

This course provides an opportunity to review clinical cases and prepare for the polysomnography credentialing exam. Emphasis is placed on case management and review for the Registered Polysomnographic Technologist Exam. Upon completion, students should be able to successfully complete practice exams.

Prerequisites: None. Corequisites: None.

When Offered: (S)

PSG 214 - PSG Clinical Apps I

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course provides practical application of theories covered in previous PSG courses. Emphasis is placed on polysomnography testing and procedures. Upon completion, students should be able to demonstrate competence through laboratory evaluation.

Prerequisites: None. Corequisites: None.

When Offered: (F)

Psychology**PSY 110 - Life Span Development**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides an introduction to the study of human growth and development. Emphasis is placed on the physical, cognitive, and psychosocial aspects of development from conception to death. Upon completion, students should be able to demonstrate knowledge of development across the life span and apply this knowledge to their specific field of study.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

PSY 150 - General Psychology

(UGETC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides an overview of the scientific study of human behavior. Topics include history, methodology, biopsychology, sensation, perception, learning, motivation, cognition, abnormal behavior, personality theory,

social psychology, and other relevant topics. Upon completion, students should be able to demonstrate a basic knowledge of the science of psychology.

Prerequisites: None. Corequisites: None.
When Offered: (F, S, SU)

PSY 211 - Psychology of Adjustment (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the study of the adjustment process focusing on contemporary challenges individuals must deal with in everyday life. Topics include theories of behavior, career choices, self-understanding, coping mechanisms, human relationships, intimacy, sociocultural factors influencing healthy personal adjustment, and other related topics. Upon completion, students should be able to demonstrate an awareness of the processes of adjustment.

Prerequisites: PSY 150 must pass with a grade of C or higher.
Corequisites: None.
When Offered: (On demand)

PSY 231 - Forensic Psychology (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces students to concepts which unite psychology and the legal system. Topics include defining competency, insanity, involuntary commitment as well as introducing forensic assessment techniques, such as interviewing process, specialized assessments, and collecting collateral information. Upon completion, students should be able to demonstrate knowledge in areas of forensic psychology: risk assessment, criminal competencies, insanity, psychopathology, and mentally disordered offenders.

Prerequisites: PSY 150 must pass with a grade of C or higher. Corequisites: None.
When Offered: (On demand)

PSY 237 - Social Psychology (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the study of individual behavior within social contexts. Topics include affiliation, attitude formation and change, conformity, altruism, aggression, attribution, interpersonal attraction, and group behavior. Upon completion, students should be able to demonstrate an understanding of the basic principles of social influences on behavior.

Prerequisites: PSY 150 must pass with a grade of C or higher.
Corequisites: None.
When Offered: (F, S)

PSY 239 - Psychology of Personality (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers major personality theories and personality research methods. Topics include psychoanalytic, behavioristic, social learning, cognitive, humanistic, and trait theories including supporting research. Upon completion, students should be able to compare and contrast traditional and contemporary approaches to the understanding of individual differences in human behavior.

Prerequisites: PSY 150 must pass with a grade of C or higher. Corequisites: None.
When Offered: (On demand)

PSY 241 - Developmental Psych (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is a study of human growth and development. Emphasis is placed on major theories and perspectives as they relate to the physical, cognitive, and psychosocial aspects of development from conception to death. Upon completion, students should be able to demonstrate knowledge of development across the life span.

Prerequisites: PSY 150 must pass with a grade of C or higher. Corequisites: None.
When Offered: (F, S, On demand)

PSY 243 - Child Psychology (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides an overview of physical, cognitive, and psychosocial development from conception through adolescence. Topics include theories and research, interaction of biological and environmental factors, language development, learning and cognitive processes, social relations, and moral development. Upon completion, students should be able to identify typical and atypical childhood behavior patterns as well as appropriate strategies for interacting with children.

Prerequisites: PSY 150 must pass with a grade of C or higher. Corequisites: None.
When Offered: (On demand)

PSY 244 - Child Development I

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides an introduction to the study of child development and examines the growth and development of children from conception through early childhood. Topics include historical and theoretical perspectives, terminology, research and observation techniques as well as physical, cognitive, and psychosocial growth and change. Upon completion, students should be able to demonstrate an understanding of the early stages of child development.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

PSY 245 - Child Development II

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course examines the growth and development of children during early and middle childhood. Emphasis is placed on factors influencing physical, cognitive, and psychosocial growth and change. Upon completion, students should be able to demonstrate an understanding of early and middle child development.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

PSY 246 - Adolescent Psychology (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides an overview of the behavior patterns, life changes, and social issues that accompany the developmental stage of adolescence. Topics include developmental theories; physical, cognitive and psychosocial growth; transitions to young adulthood; and sociocultural factors that influence adolescent roles in home, school and community. Upon completion, students should be able to identify typical and atypical adolescent behavior patterns as well as appropriate strategies for interacting with adolescents.

Prerequisites: PSY 150 must pass with a grade of C or higher. Corequisites: None.
When Offered: (On demand)

PSY 263 - Educational Psychology (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course examines the application of psychological theories and principles to the educational process and setting. Topics include learning and cognitive theories, achievement motivation, teaching and learning styles, teacher and learner roles, assessment, and developmental issues. Upon completion, students should be able to demonstrate an understanding of the application of psychological theory to educational practice.

Prerequisites: PSY 150 must pass with a grade of C or higher. Corequisites: None.
When Offered: (On demand)

PSY 275 - Health Psychology (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the biopsychosocial dynamics of stress and the maintenance of good health. Topics include enhancing health and well-being, stress management, lifestyle choices and attitudes, the mind-body relationship, nutrition, exercise, and fitness. Upon completion, students should be able to demonstrate an understanding of the psychological factors related to health and well-being.

Prerequisite: PSY 150 must pass with a grade of C or higher. Corequisite: None.
When Offered: (On demand)

PSY 281 - Abnormal Psychology (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides an examination of the various psychological disorders, as well as theoretical, clinical, and experimental perspectives of the study of psychopathology. Emphasis is placed on terminology, classification, etiology, assessment, and treatment of the major disorders. Upon completion, students should be able to distinguish between normal and abnormal behavior patterns as well as demonstrate knowledge of etiology, symptoms, and therapeutic techniques.

Prerequisites: PSY 150 must pass with a grade of C or higher.
Corequisites: None.
When Offered: (F, S)

Radiography

RAD 110 - Rad Intro & Patient Care

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course provides an overview of the radiography profession and student responsibilities. Emphasis is placed on basic principles of patient care,

radiation protection, technical factors, and medical terminology. Upon completion, students should be able to demonstrate basic skills in these areas.

Prerequisites: Admission to Radiography program.

Corequisites: RAD 111 and RAD 151.

When Offered: (F)

RAD 111 - RAD Procedures I

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course provides the knowledge and skills necessary to perform standard radiographic procedures. Emphasis is placed on radiography of the chest, abdomen, extremities, bony thorax and pelvis. Upon completion, students should be able to demonstrate competence in these areas.

Prerequisites: Admission to Radiography program.

Corequisites: RAD 110 and RAD 151.

When Offered: (F)

RAD 112 - RAD Procedures II

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course provides the knowledge and skills necessary to perform standard radiographic procedures. Emphasis is placed on radiography of the skull, spine, and gastrointestinal, biliary, and urinary systems. Upon completion, students should be able to demonstrate competence in these areas.

Prerequisites: RAD 110, RAD 111, and RAD 151.

Corequisites: RAD 121, RAD 161.

When Offered: (S)

RAD 121 - Image Production I

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course provides the basic principles of radiographic image production. Emphasis is placed on image production, x-ray equipment, receptor exposure, and basic imaging quality factors. Upon completion, students should be able to demonstrate an understanding of basic principles of radiographic image production.

Prerequisites: RAD 110, RAD 111, and RAD 151.

Corequisites: RAD 112, RAD 161.

When Offered: (S)

RAD 122 - Image Production II

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course is designed to continue to develop the concepts and principles in the field of radiologic technology. Emphasis is placed on advanced digital principles and production. Upon completion, students should be able to demonstrate an understanding of advanced principles of digital imaging production.

Prerequisites: RAD 112, RAD 121, RAD 161. Corequisites: RAD 141, RAD 171.

When Offered: (SU)

RAD 141 - Radiation Safety

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course covers the principles of radiation protection and radiobiology. Topics include the effects of ionizing radiation on body tissues, protective measures for limiting exposure to the patient and personnel, and radiation monitoring devices. Upon completion, students should be able to demonstrate an understanding of the effects and uses of radiation in diagnostic radiology.

Prerequisites: RAD 112, RAD 121, RAD 161. Corequisites: None.

When Offered: (SU)

RAD 151 - RAD Clinical Ed I

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 6 Credit: 2

This course introduces patient management and basic radiographic procedures in the clinical setting. Emphasis is placed on mastering positioning of the chest and extremities, manipulating equipment, and applying principles of ALARA. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

Prerequisites: Admission to Radiography program.

Corequisites: RAD 110 and RAD 111.

When Offered: (F)

RAD 161 - RAD Clinical Ed II

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 15 Credit: 5

This course provides additional experience in patient management and in more complex radiographic procedures. Emphasis is placed on mastering positioning of the spine, pelvis, head and neck, and thorax and adapting procedures to meet patient variations. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

Prerequisites: RAD 110, RAD 111, RAD 151. Corequisites: RAD 112, RAD 121.

When Offered: (S)

RAD 171 - RAD Clinical Ed III

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 9 Credit: 3

This course provides experience in patient management specific to advanced radiographic procedures. Emphasis is placed on applying appropriate technical factors to all studies and transitioning to mastering positioning of advanced studies. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

Prerequisites: RAD 112, RAD 121, RAD 161. Corequisites: RAD 122.

When Offered: (SU)

RAD 211 - RAD Procedures III

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course provides the knowledge and skills necessary to perform standard and specialty radiographic procedures. Emphasis is placed on radiographic specialty procedures, advanced imaging, radiographic pathology and image analysis. Upon completion, students should be able to demonstrate an understanding of these areas.

Prerequisites: RAD 122, RAD 141, RAD 171. Corequisites: RAD 231, RAD 251.

When Offered: (F)

RAD 231 - Image Production III

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course is designed to continue to develop the concepts and principles in the field of radiologic technology. Emphasis is placed on complex imaging production and principles, quality control and quality assurance in the imaging sciences. Upon completion, students should be able to demonstrate an understanding of advanced radiographic equipment and quality control programs.

Prerequisites: RAD 122, RAD 141, RAD 171. Corequisites: RAD 211, RAD 251.

When Offered: (F)

RAD 251 - RAD Clinical Ed IV

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 21 Credit: 7

This course provides the opportunity to continue mastering all basic radiographic procedures and to attain experience in advanced areas. Emphasis is placed on equipment operation, pathological recognition, pediatric and geriatric variations, and a further awareness of radiation protection requirements. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

Prerequisites: RAD 122, RAD 171. Corequisites: RAD 211, RAD 231.

When Offered: (F)

RAD 261 - RAD Clinical Ed V

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 21 Credit: 7

This course is designed to enhance expertise in all radiographic procedures, patient management, radiation protection, and image production and evaluation. Emphasis is placed on developing an autonomous approach to the diversity of clinical situations and successfully adapting to those procedures. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

Prerequisites: RAD 251. Corequisites: RAD 271.

When Offered: (S)

RAD 271 - Radiography Capstone

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course provides an opportunity to exhibit problem-solving skills required for certification. Emphasis is placed on critical thinking and integration of didactic and clinical components. Upon completion, students should be able to demonstrate the knowledge required of an entry-level radiographer.

Prerequisites: RAD 211, RAD 231, RAD 251. Corequisites: RAD 261.

When Offered: (S)

Respiratory Care

RCP 110 - Intro to Respiratory Care

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course introduces the role of the respiratory care practitioner within interprofessional teams and interacting with diverse populations. Topics include medical gas administration, basic patient assessment, infection control, and medical terminology using proper written and oral communication methods to prepare students for clinical practice. Upon completion, students should be able to demonstrate competence in respiratory therapy concepts and procedures through written and laboratory evaluations.

Prerequisites: Enrollment in the Respiratory Therapy program.

Corequisites: None.

When Offered: (F)

RCP 111 - Therapeutics/Diagnostics

Hours--Class: 4 Lab: 3 Clinic/Work Exp: 0 Credit: 5

This course provides emphasis on therapeutic and diagnostic procedures. Topics include applying problem solving strategies in the patient care setting, applying ethical principles in decision making, and practicing professional responsibilities, which will prepare students for clinical practice. Upon completion, students should be able to demonstrate competence in respiratory therapy concepts and procedures through written and laboratory evaluations.

Prerequisites: RCP 110. Corequisites: None.
When Offered: (S)

RCP 113 - RCP Pharmacology

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course covers the drugs used in the treatment of cardiopulmonary diseases. Emphasis is placed on the uses, actions, indications, administration, and hazards of pharmacological agents. Upon completion, students should be able to demonstrate competence through written evaluations. This course includes in-depth study of the following drug classifications: bronchodilators, surface active agents, corticosteroids, antibiotics, CNS agents, cardiovascular drugs, and neonatal/pediatric drugs.

Prerequisites: Enrollment in the Respiratory Therapy program.
Corequisites: None.
When Offered: (F)

RCP 114 - C-P Anatomy & Physiology

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides a concentrated study of cardiopulmonary anatomy and physiology essential to the practice of respiratory care. Emphasis is placed on cardiovascular and pulmonary physiology, acid/base balance, and blood gas interpretation. Upon completion, students should be able to demonstrate competence in these concepts through written evaluation. This course includes an overview of the effects of renal failure, aging, exercise, high-altitude and high-pressure environments on the cardiopulmonary system.

Prerequisites: None. Corequisites: None.
When Offered: (F)

RCP 115 - C-P Pathophysiology

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course introduces the etiology, pathophysiology, clinical signs and symptoms, diagnoses, prognoses, complications, and management of cardiopulmonary diseases. Emphasis is placed on developing, evaluating, and modifying respiratory care plans based on evidence-based medicine protocols and clinical practice guidelines. Upon completion, students should be able to demonstrate competence in cardio-pulmonary disease concepts through written evaluations.

Prerequisites: None. Corequisites: None.
When Offered: (S)

RCP 122 - Special Practice Lab

Hours--Class: 0 Lab: 2 Clinic/Work Exp: 0 Credit: 1

This course provides additional laboratory learning opportunities in respiratory care. Emphasis is placed on therapeutic procedures and equipment management. Upon completion, students should be able to demonstrate competence in concepts and procedures through laboratory evaluations.

Prerequisites: None. Corequisites: None.
When Offered: (F)

RCP 123 - Special Practice Lab

Hours--Class: 0 Lab: 3 Clinic/Work Exp: 0 Credit: 1

This course provides additional laboratory learning opportunities in respiratory care. Emphasis is placed on therapeutic procedures and equipment management. Upon completion, students should be able to demonstrate competence in concepts and procedures through laboratory evaluations.

Prerequisites: None. Corequisites: None.
When Offered: (SU)

RCP 145 - RCP Clinical Practice II

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 15 Credit: 5

This course provides entry-level clinical experience. Emphasis is placed on therapeutic and diagnostic patient care. Upon completion, students should be able to demonstrate clinical competence in required performance evaluations.

Prerequisites: RCP 110. Corequisites: RCP 111.
When Offered: (S)

RCP 152 - RCP Clinical Practice III

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 6 Credit: 2

This course provides entry-level clinical experience. Emphasis is placed on therapeutic and diagnostic patient care. Upon completion, students should be able to demonstrate clinical competence in required performance evaluations.

Prerequisites: RCP 111. Corequisites: None.
When Offered: (SU)

RCP 210 - Critical Care Concepts

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course provides further refinement of acute patient care and underlying pathophysiology. Topics include a continuation in the application and management of mechanical ventilation, assessment underlying pathophysiology, and introduction of critical care monitoring. Upon completion, students should be able to demonstrate competence in respiratory therapy concepts and procedures through written, laboratory and/or clinical simulation evaluations.

Prerequisites: None. Corequisites: None.
When Offered: (F)

RCP 211 - Adv Monitoring/Procedures

Hours--Class: 3 Lab: 3 Clinic/Work Exp: 0 Credit: 4

This course includes advanced information gathering and decision making for the respiratory care professional using evidence-based respiratory care protocols. Topics include advanced cardiac monitoring, special procedures, respiratory care protocols, and disease management. Upon completion, students should be able to assess, recommend, and independently modify respiratory care protocols through written, laboratory and/or clinical simulation evaluations.

Prerequisites: RCP 210. Corequisites: None.
When Offered: (S)

RCP 214 - Neonatal/Peds RC

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course provides comprehensive coverage of the concepts of neonatal and pediatric respiratory care. Emphasis is placed on pathophysiology, patient assessment and special therapeutic needs of neonates and children based on evidence-based medicine protocols and clinical practice guidelines. Upon completion, students should be able to demonstrate competence in the neonatal and pediatric respiratory care concepts through written, laboratory and/or clinical simulation evaluations.

Prerequisites: RCP 111. Corequisites: None.
When Offered: (F)

RCP 215 - Career Preparation

Hours--Class: 0 Lab: 3 Clinic/Work Exp: 0 Credit: 1

This course provides an overview of respiratory therapy concepts in preparation for credentialing exam. Emphasis is placed on registry preparation. Upon completion, students should be able to demonstrate a comprehensive knowledge of respiratory therapy and be prepared for successful completion of the credentialing process.

Prerequisites: None. Corequisites: None.
When Offered: (S)

RCP 236 - RCP Clinical Practice IV

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 18 Credit: 6

This course provides advanced practitioner clinical experience. Emphasis is placed on therapeutic and diagnostic patient care. Upon completion, students should be able to demonstrate clinical competence in required performance evaluations.

Prerequisites: RCP 111. Corequisites: RCP 210.
When Offered: (F)

RCP 246 - RCP Clinical Practice V

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 18 Credit: 6

This course provides advanced practitioner clinical experience. Emphasis is placed on therapeutic and diagnostic patient care. Upon completion, students should be able to demonstrate clinical competence in required performance evaluations.

Prerequisites: RCP 210. Corequisites: RCP 211.
When Offered: (S)

Refrigeration

REF 117 - Refrigeration Controls

Hours--Class: 2 Lab: 6 Clinic/Work Exp: 0 Credit: 4

This course covers the design, operation, function, and schematics of basic control systems used in the refrigeration industry. Topics include proper control application, selection, and use of test instruments; simple control wiring; and the use of schematics as a troubleshooting tool. Upon completion, students should be able to identify, diagnose, and repair electrical and mechanical malfunctioning components.

Prerequisites: Take One Course: AHR 110, AHR 111, or ELC 111.

Corequisites: None.

When Offered: (Su)

Religion

REL 110 - World Religions

(GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the world's major religious traditions. Topics include Primal religions, Hinduism, Buddhism, Islam, Judaism, and Christianity. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. Attention will also be given to current practices and historical influences.

Prerequisites: None. Corequisites: None.

When Offered: (F, S, SU)

REL 211 - Intro to Old Testament

(GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is a survey of the literature of the Hebrews with readings from the law, prophets, and other writings. Emphasis is placed on the use of literary, historical, archeological, and cultural analysis. Upon completion, students should be able to use the tools of critical analysis to read and understand Old Testament literature.

Prerequisites: None. Corequisites: None.

When Offered: (F, S)

REL 212 - Intro to New Testament

(GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is a survey of the literature of first-century Christianity with readings from the gospels, Acts, and the Pauline and pastoral letters. Topics include the literary structure, audience, and religious perspective of the writings, as well as the historical and cultural context of the early Christian community. Upon completion, students should be able to use the tools of critical analysis to read and understand New Testament literature.

Prerequisites: None. Corequisites: None.

When Offered: (F, S)

REL 221 - Religion in America

(GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is an examination of religious beliefs and practice in the United States. Emphasis is placed on mainstream religious traditions and non-traditional religious movements from the Colonial period to the present. Upon completion, students should be able to recognize and appreciate the diversity of religious traditions in America. Some attention will be given to religious beliefs and practices in the South.

Prerequisites: None. Corequisites: None.

When Offered: (F, S, SU)

Substance Abuse

SAB 110 - Substance Abuse Overview

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides an overview of the core concepts in substance abuse and dependence. Topics include the history of drug use/abuse, effects on societal members, treatment of addiction, and preventive measures. Upon completion, students should be able to demonstrate knowledge of the etiology of drug abuse, addiction, prevention, and treatment.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

SAB 130 - Addictive Behaviors

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course surveys and investigates addiction patterns and various methods of treatment. Emphasis is placed on sociocultural, psychological, and physiological theories of substance abuse and treatment. Upon completion, students should be able to demonstrate an understanding of theories of substance abuse and treatment.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

Information Systems Security

SEC 110 - Security Concepts

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces the concepts and issues related to securing information systems and the development of policies to implement information security controls. Topics include the historical view of networking and security, security issues, trends, security resources, and the role of policy, people, and processes in information security. Upon completion, students should be able to identify information security risks, create an information security policy, and identify processes to implement and enforce policy.

Prerequisites: None. Corequisites: None.

When Offered: (S)

SEC 150 - Secure Communications

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course provides an overview of current technologies used to provide secure transport of information across networks. Topics include data integrity through encryption, Virtual Private Networks, SSL, SSH, and IPsec. Upon completion, students should be able to implement secure data transmission technologies.

Prerequisites: None. Corequisites: None.

When Offered: (S)

SEC 160 - Security Administration I

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course provides an overview of security administration and fundamentals of designing security architectures. Topics include networking technologies, TCP/IP concepts, protocols, network traffic analysis, monitoring, and security best practices. Upon completion, students should be able to identify normal network traffic using network analysis tools and design basic security defenses.

Prerequisites: NET 125. Corequisites: None.

When Offered: (F)

SEC 180 - Info Assurance Principles

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces students to the concepts of layered and comprehensive Information Assurance best practices. Topics include user defensive measures, edge defensive measures, along with confidentiality, integrity and availability of enterprise data with the business continuity concepts of: redundancy, disaster recovery, incident handling, compliance and auditing. Upon completion, students should be able to plan effective information assurance strategies.

Prerequisites: None. Corequisites: None.

When Offered: (S)

SEC 210 - Intrusion Detection

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces the student to intrusion detection methods in use today. Topics include the types of intrusion detection products, traffic analysis, and planning and placement of intrusion detection solutions. Upon completion, students should be able to plan and implement intrusion detection solution for networks and host-based systems.

Prerequisites: None. Corequisites: None.

When Offered: (F)

SEC 285 - Systems Security Project

Hours--Class: 1 Lab: 4 Clinic/Work Exp: 0 Credit: 3

This course provides the student the opportunity to apply the skills and competencies acquired in the program that focus on systems security. Emphasis is placed on security policy, process planning, procedure definition, business continuity, compliance, auditing, testing procedures and systems security architecture. Upon completion, students should be able to design and implement comprehensive information security architecture from the planning and design phase through implementation.

Prerequisites: CTI 110, CTI 120, CTS 115, SEC 210, and SEC 160.

Corequisites: None.

When Offered: (S)

Sociology

SOC 210 - Introduction to Sociology

(UGETC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the scientific study of human society, culture, and social interactions. Topics include socialization, research methods, diversity and inequality, cooperation and conflict, social change, social institutions, and organizations. Upon completion, students should be able to demonstrate

knowledge of sociological concepts as they apply to the interplay among individuals, groups, and societies.

Prerequisites: None. Corequisites: None.
When Offered: (F, S, SU)

SOC 213 - Sociology of the Family (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course covers the institution of the family and other intimate relationships. Emphasis is placed on mate selection, gender roles, sexuality, communication, power and conflict, parenthood, diverse lifestyles, divorce and remarriage, and economic issues. Upon completion, students should be able to analyze the family as a social institution and the social forces which influence its development and change.

Prerequisites: None. Corequisites: None.
When Offered: (F, S, SU)

SOC 215 - Group Processes (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces group processes and dynamics. Emphasis is placed on small group experiences, roles and relationships within groups, communication, cooperation and conflict resolution, and managing diversity within and among groups. Upon completion, students should be able to demonstrate the knowledge and skills essential to analyze group interaction and to work effectively in a group context.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

SOC 220 - Social Problems (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides an in-depth study of current social problems. Emphasis is placed on causes, consequences, and possible solutions to problems associated with families, schools, workplaces, communities, and the environment. Upon completion, students should be able to recognize, define, analyze, and propose solutions to these problems.

Prerequisites: None. Corequisites: None.
When Offered: (F, S)

SOC 225 - Social Diversity (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides a comparison of diverse roles, interests, opportunities, contributions, and experiences in social life. Topics include race, ethnicity, gender, sexual orientation, class, and religion. Upon completion, students should be able to analyze how cultural and ethnic differences evolve and how they affect personality development, values, and tolerance.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

SOC 230 - Race and Ethnic Relations (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course includes an examination of the various aspects of race and ethnicity and how these lead to different experiences, opportunities, problems, and contributions. Topics include prejudice, discrimination, perceptions, myths, stereotypes, and intergroup relationships. Upon completion, students should be able to identify and analyze relationships among racial and ethnic groups within the larger society.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

SOC 234 - Sociology of Gender (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course examines contemporary roles in society with special emphasis on recent changes. Topics include sex role socialization, myths and stereotypes, gender issues related to family, work, and power. Upon completion, students should be able to analyze modern relationships between men and women.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

SOC 242 - Sociology of Deviance (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides an overview of deviant behavior and the processes involved in its definition, causation, prevention, control, and treatment. Topics include theories of causation, social control, delinquency, victimization, criminality, the criminal justice system, punishment, rehabilitation, and restitution. Upon completion, students should be able to identify and analyze issues surrounding the nature and development of social responses to deviance.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

SOC 244 - Soc of Death & Dying (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course presents sociological perspectives on death and dying. Emphasis is placed on analyzing the different death rates among various groups, races, and societies, as well as various types of death. Upon completion, students should be able to discuss the rituals of death, both cultural and religious, and examine current issues relating to death and dying.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

SOC 250 - Sociology of Religion (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course examines religion from a sociological perspective as part and product of human society. Topics include the origins, development, and functions of belief systems; religious organizations; conversion; and interactions with politics, the economy, science, and the class system. Upon completion, students should be able to describe and analyze religious systems.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

SOC 254 - Rural and Urban Sociology (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course applies sociological concepts to a comparative study of major social issues facing contemporary rural and urban America. Emphasis is placed on growth and development patterns, ecological factors, social organizations, social controls, and processes of change. Upon completion, students should be able to illustrate the differences and similarities that exist between urban and rural environments as they resolve contemporary issues.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

Spanish

SPA 111 - Elementary Spanish I (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course introduces the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Spanish and demonstrate cultural awareness.

Prerequisites: None. Corequisites: None.
When Offered: (F, S, SU)

SPA 112 - Elementary Spanish II (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course is a continuation of SPA 111 focusing on the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Spanish and demonstrate further cultural awareness.

Prerequisites: SPA 111 must pass with a grade of C or higher.
Corequisites: None.
When Offered: (F, S, SU)

SPA 120 - Spanish for the Workplace

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course offers applied Spanish for the workplace to facilitate basic communication with people whose native language is Spanish. Emphasis is placed on oral communication and career-specific vocabulary that targets health, business, and/or public service professions. Upon completion, students should be able to communicate at a functional level with native speakers and demonstrate cultural sensitivity.

Prerequisites: None. Corequisites: None.
When Offered: (S)

SPA 141 - Culture and Civilization (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides an opportunity to explore issues related to the Hispanic world. Topics include historical and current events, geography, and customs. Upon completion, students should be able to identify and discuss selected topics and cultural differences related to the Hispanic world.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

SPA 161 - Cultural Immersion (PM-ELEC)

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course explores Hispanic culture through intensive study on campus and field experience in a host country or comparable area within the United States. Topics include an overview of linguistic, historical, geographical, sociopolitical, economic, and/or artistic concerns of the area visited. Upon completion, students should be able to exhibit first-hand knowledge of issues pertinent to the host area and demonstrate understanding of cultural differences.

Prerequisites: SPA 111. Corequisites: None.
When Offered: (On demand)

SPA 211 - Intermediate Spanish I (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides a review and expansion of the essential skills of the Spanish language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future.

Prerequisites: SPA 112 must pass with a grade of C or higher.
Corequisites: None.
When Offered: (F)

SPA 212 - Intermediate Spanish II (GENED)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides a continuation of SPA 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication.

Prerequisites: SPA 211 must pass with a grade of C or higher.
Corequisites: None.
When Offered: (S)

SPA 221 - Spanish Conversation (PM-ELEC)

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides an opportunity for intensive communication in spoken Spanish. Emphasis is placed on vocabulary acquisition and interactive communication through the discussion of media materials and authentic texts. Upon completion, students should be able to discuss selected topics, express ideas and opinions clearly, and engage in formal and informal conversations.

Prerequisites: SPA 212. Corequisites: None.
When Offered: (On demand)

Surgery**SUR 110 - Intro to Surg Tech**

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course provides a comprehensive study of peri-operative care, patient care concepts, and professional practice concepts within the profession of surgical technology. Topics include: introductory concepts, organizational structure and relationships, legal, ethical and moral issues, medical terminology, pharmacology, anesthesia, wound healing management concepts, and the technological sciences. Upon completion, students should be able to apply theoretical knowledge of the course topics to the practice of surgical technology.

Prerequisites: Enrollment in the Surgical Technology program.
Corequisites: SUR 111.
When Offered: (F)

SUR 111 - Periop Patient Care

Hours--Class: 5 Lab: 6 Clinic/Work Exp: 0 Credit: 7

This course provides the surgical technology student the theoretical knowledge required to function in the pre-operative, intra-operative, and post-operative role. Topics include asepsis, disinfection and sterilization, physical environment, instrumentation, equipment, peri-operative patient care, and peri-operative case management. Upon completion, students should be able to apply the principles and practice of the peri-operative team member to the operative environment.

Prerequisites: Enrollment in the Surgical Technology program.
Corequisites: SUR 110.
When Offered: (F)

SUR 122 - Surgical Procedures I

Hours--Class: 5 Lab: 3 Clinic/Work Exp: 0 Credit: 6

This course provides an introduction to selected basic and intermediate surgical specialties that students are exposed to the first clinical rotation. Emphasis is placed on related surgical anatomy, pathology, and procedures that enhance theoretical knowledge of patient care, instrumentation,

supplies, and equipment. Upon completion, students should be able to correlate, integrate, and apply theoretical knowledge of the course topics to the clinical operative environment.

Prerequisites: SUR 110, SUR 111. Corequisites: SUR 123.
When Offered: (S)

SUR 123 - SUR Clinical Practice I

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 21 Credit: 7

This course provides clinical experience with a variety of perioperative assignments to build upon skills learned in SUR 111. Emphasis is placed on the scrub and circulating roles of the surgical technologist including aseptic technique and basic case preparation for selected surgical procedures. Upon completion, students should be able to prepare, assist with, and dismantle basic surgical cases in both the scrub and circulating roles.

Prerequisites: SUR 110, SUR 111. Corequisites: SUR 122.
When Offered: (S)

SUR 134 - Surgical Procedures II

Hours--Class: 5 Lab: 0 Clinic/Work Exp: 0 Credit: 5

This course provides a comprehensive study of intermediate and advanced surgical specialties that students are exposed to in the second clinical rotation. Emphasis is placed on related surgical anatomy, pathology, and procedures that enhance theoretical knowledge of patient care, instrumentation, supplies, and equipment. Upon completion, students should be able to correlate, integrate, and apply theoretical knowledge of the course topics to the clinical operative environment.

Prerequisites: SUR 123. Corequisites: None.
When Offered: (SU)

SUR 135 - SUR Clinical Practice II

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 12 Credit: 4

This course provides clinical experience with a variety of perioperative assignments to build skills required for complex perioperative patient care. Emphasis is placed on greater technical skills, critical thinking, speed, efficiency, and autonomy in the operative setting. Upon completion, students should be able to function in the role of an entry-level surgical technologist.

Prerequisites: SUR 123. Corequisites: SUR 134.
When Offered: (SU)

SUR 137 - Professional Success Prep

Hours--Class: 1 Lab: 0 Clinic/Work Exp: 0 Credit: 1

This course provides employability skills and an overview of theoretical knowledge in preparation for certification. Topics include test-taking strategies, resume preparation, interviewing strategies, communication skills, and teamwork concepts. Upon completion, students should be able to prepare a resume, demonstrate appropriate interview techniques, and identify strengths and weaknesses in preparation for certification.

Prerequisites: None. Corequisites: None.
When Offered: (S)

SUR 210 - Adv SUR Clinical Practice

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 6 Credit: 2

This course is designed to provide individualized experience in advanced practice, education, circulating, and managerial skills. Emphasis is placed on developing and demonstrating proficiency in skills necessary for advanced practice. Upon completion, students should be able to assume leadership roles in a chosen specialty area.

Prerequisites: SUR 211, SUR 212. Corequisites: SUR 137.
When Offered: (S)

SUR 211 - Adv Theoretical Concepts

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course covers theoretical knowledge required for extension of the surgical technologist role. Emphasis is placed on advanced practice in complex surgical specialties, educational methodologies, and managerial skills. Upon completion, students should be able to assume leadership roles in a chosen specialty area.

Prerequisites: None. Corequisites: SUR 212.
When Offered: (On demand)

SUR 212 - SUR Clinical Supplement

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 12 Credit: 4

This course provides the opportunity to continue mastering the continuity of care in the peri-operative assignment. Emphasis is placed on maintaining and enhancing acquired clinical skills in the peri-operative setting. Upon completion, students should be able to demonstrate mastery of surgical techniques in the role of the entry level surgical technologist.

Prerequisites: None. Corequisites: SUR 211.
When Offered: (F)

Social Work

SWK 110 - Intro to Social Work

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course examines the historical development, values, orientation, and professional standards of social work and focuses on the terminology and broader systems of social welfare. Emphasis is placed on the various fields of practice including those agencies whose primary function is financial assistance, corrections, mental health, and protective services. Upon completion, students should be able to demonstrate an understanding of the knowledge, values, and skills of the social work professional.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

SWK 113 - Working With Diversity

Hours--Class: 3 Lab: 0 Clinic/Work Exp: 0 Credit: 3

This course examines and promotes understanding, sensitivity, awareness, and knowledge of human diversity. Emphasis is placed on professional responsibilities, duties, and skills critical to multicultural human services practice. Upon completion, students should be able to integrate and expand knowledge, skills, and cultural awareness relevant to diverse populations.

Prerequisites: None. Corequisites: None.
When Offered: (On demand)

Three Dimension Printing

TDP 110 - Introduction to 3D Printing

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course covers the historical, social and ethical issues, as well as the basic techniques surrounding 3D Printing. Topics include current and historical events, social impact of the technology and basic model creation and manipulation techniques. Upon completion, students should be able to demonstrate an understanding of the major advantages and disadvantages of 3D Printing technology as well as demonstrate an ability to create and print a simple project.

Prerequisites: DFT 170. Corequisites: None.
When Offered: (On demand)

Turfgrass Management

TRF 110 - Intro Turfgrass Cult & ID

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course covers the principles of reproduction, growth development, species characteristics, establishment and maintenance of golf courses and sports fields, and lawns. Topics include principles of reproduction, growth development, species characteristics, establishment and maintenance of golf courses and sports fields, and lawn applications. Upon completion, students should be able to identify turfgrass species and develop an establishment and maintenance plan for high quality turf areas in accordance with sustainable practices.

Prerequisites: None. Corequisites: None.
When Offered: (F, SU)

TRF 120 - Turfgrass Irrigat & Design

Hours--Class: 2 Lab: 4 Clinic/Work Exp: 0 Credit: 4

This course covers the basic techniques involved in the design, layout, installation, and use of water-wise turfgrass irrigation systems. Topics include types of irrigation systems, components of the systems, materials available for use, and economic considerations. Upon completion, students should be able to complete a functional design for a turfgrass irrigation system according to sustainable practices.

Prerequisites: None. Corequisites: None.
When Offered: (F,S)

TRF 130 - Native Flora ID

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course covers identification of selected native ground covers and woodland trees by summer and/or winter characteristics. Emphasis is placed on mature age, fall colors, site adaptability, and habit of growth for special turf-related areas. Upon completion, students should be able to identify native plants by size and leaf, bud, twig, and limb formation.

Prerequisites: None. Corequisites: None.
When Offered: (F)

TRF 140 - Turfgrass Mgmt Safety

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces the dangers and problems that may be faced in the turfgrass management profession. Emphasis is placed on the possible prevention and treatment that may be necessary as well as basic first aid

treatment. Upon completion, students should be able to demonstrate effective leadership skills in various professional emergency scenarios.

Prerequisites: None. Corequisites: None.
When Offered: (F)

TRF 150 - Landscape Drafting

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course introduces the equipment, software, and skills involved in landscape drafting. Emphasis is placed on creating geometrical constructions and visualizing and drawing scaled profile views of various turfgrass-related sites. Upon completion, students should be able to produce competent landscape drawings.

Prerequisites: None. Corequisites: None.
When Offered: (F)

TRF 152 - Landscape Maintenance

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces the tasks of landscape maintenance. Emphasis is placed on lawns, shrubs, trees, flowers, and ground covers. Upon completion, students should be able to maintain a landscape area on a year-round schedule.

Prerequisites: None. Corequisites: None.
When Offered: (F)

TRF 210 - Turfgrass Eqmt Mgmt

Hours--Class: 1 Lab: 4 Clinic/Work Exp: 0 Credit: 3

This course covers the operation and maintenance of specialized turfgrass management equipment. Topics include small engine use and repair; operation, maintenance, and repair of turfgrass management equipment; organization of shop areas; and safety considerations. Upon completion, students should be able to operate and maintain turfgrass management equipment.

Prerequisites: None. Corequisites: None.
When Offered: (S)

TRF 220 - Turfgrass Calculations

Hours--Class: 2 Lab: 0 Clinic/Work Exp: 0 Credit: 2

This course introduces the specific math concepts and calculations necessary in the turfgrass industry. Emphasis is placed on calibration of equipment used in the application of fertilizers and pesticides and calculation of solid materials used in construction. Upon completion, students should be able to correctly perform basic calculations and calibrations and estimate materials needed in specific professional turfgrass management situations.

Prerequisites: None. Corequisites: None.
When Offered: (S)

TRF 230 - Turfgrass Mgmt Apps

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course introduces specific sports field design, installation, and maintenance. Topics include natural grass croquet courts and baseball, soccer, and football fields. Upon completion, students should be able to perform specific tasks in layout, field marking, and preparing for tournament play.

Prerequisites: None. Corequisites: None.
When Offered: (S)

TRF 240 - Turfgrass Pest Control

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course covers detection and identification of turfgrass pests with emphasis on methods of sustainable management. Topics include pest identification with an understanding of pesticides used, application procedures, and costs involved in sustainable management programs. Upon completion, students should be able to identify turfgrass pests, select the proper pesticide, develop pest management programs, and/or use integrated pest management.

Prerequisites: None. Corequisites: None.
When Offered: (F,S)

TRF 250 - Golf /Sport Field Const

Hours--Class: 2 Lab: 4 Clinic/Work Exp: 0 Credit: 4

This course provides information for layout, materials, and construction of special recreational applications. Emphasis is placed on site selection, equipment, safety regulations, drainage, turfgrass species, and irrigation needs. Upon completion, students should be able to locate construction reference sites and develop drainage and irrigation plans from their own blueprints and topo map designs.

Prerequisites: None. Corequisites: None.
When Offered: (S)

TRF 260 - Adv Turfgrass Mgmt

Hours--Class: 3 Lab: 2 Clinic/Work Exp: 0 Credit: 4

This course covers the principles and practices involved in turfgrass management. Topics include choosing the best management practice in mowing, pest control, fertilization, irrigation, traffic control, air control, budgeting, and materials procurement. Upon completion, students should be able to demonstrate knowledge of the principles covered and select and apply the best practices in turfgrass management.

Prerequisites: TRF 110. Corequisites: None.
When Offered: (S)

Transportation Technology**TRN 110 - Intro to Transport Tech**

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course covers workplace safety, hazardous materials, environmental regulations, hand tools, service information, basic concepts, vehicle systems, and common transportation industry terminology. Topics include familiarization with major vehicle systems, proper use of various hand and power tools, material safety data sheets, and personal protective equipment. Upon completion, students should be able to demonstrate appropriate safety procedures, identify and use basic shop tools, and describe government regulations regarding transportation repair facilities.

Prerequisites: None. Corequisites: None.
When Offered: (F, S)

TRN 120 - Basic Transp Electricity

Hours--Class: 4 Lab: 3 Clinic/Work Exp: 0 Credit: 5

This course covers basic electrical theory, wiring diagrams, test equipment, and diagnosis, repair and replacement of batteries, starters, and alternators. Topics include Ohm's Law, circuit construction, wiring diagrams, circuit testing, and basic troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair basic wiring, battery, starting, charging, and electrical concerns.

Prerequisites: None. Corequisites: TRN 110.
When Offered: (F)

TRN 140 - Transp Climate Control

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course covers the theory of refrigeration and heating, electrical/electronic/pneumatic controls, and diagnosis and repair of climate control systems. Topics include diagnosis and repair of climate control components and systems, recovery/recycling of refrigerants, and safety and environmental regulations. Upon completion, students should be able to diagnose and repair vehicle climate control systems.

Prerequisites: TRN 110, TRN 120. Corequisites: TRN 140A.
When Offered: (F)

TRN 140A - Transp Climate Cont Lab

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course provides experiences for enhancing student skills in the diagnosis and repair of transportation climate control systems. Emphasis is placed on reclaiming, recovery, recharging, leak detection, climate control components, diagnosis, air conditioning equipment, tools and safety. Upon completion, students should be able to describe the operation, diagnose, and safely service climate control systems using appropriate tools, equipment, and service information.

Prerequisites: None. Corequisites: TRN 140.
When Offered: (F)

Work-Based Learning**WBL 110 - World of Work**

Hours--Class: 1 Lab: 0 Clinic/Work Exp: 0 Credit: 1

This course covers basic knowledge necessary for gaining and maintaining employment. Topics include job search skills, work ethic, meeting employer expectations, workplace safety, and human relations. Upon completion, students should be able to successfully make the transition from school to work.

Prerequisites: None. Corequisites: None.
When Offered: (On Demand)

WBL 111A-Z - Work-Based Learning I

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 10 Credit: 1

This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career

selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

Prerequisites: None. Corequisites: None.
When Offered: (F, S, SU)

WBL 112A-Z - Work-Based Learning I

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 20 Credit: 2

This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

Prerequisites: None. Corequisites: None.
When Offered: (F, S, SU)

WBL 115 - Work-Based Learning Seminar I

Hours--Class: 1 Lab: 0 Clinic/Work Exp: 0 Credit: 1

This course provides information for career development through emphasis on self-exploration and awareness of the world of work. Upon completion, students are capable of career decision making and planning.

Prerequisites: None. Corequisites: WBL 111A-Z or WBL 112A-Z.
When Offered: (On Demand)

WBL 120 - Career Read/Explore/Employ

Hours--Class: 2 Lab: 3 Clinic/Work Exp: 0 Credit: 3

This course is designed to familiarize individuals with fundamental skill sets that are critical for successful employment including locating and using workplace information, conveying professionalism, communicating effectively, promoting teamwork, thinking critically, and providing individuals with career exploration experiences. Topics include career readiness credential preparation, career exploration, and employability skillsets. Upon completion, students should be able to demonstrate the ability to locate and use information, interpret graphic information, apply mathematics to work-related situations, use key employability skills, and match education with careers in business and industry.

Prerequisites: None. Corequisites: None.
When Offered: (F,S)

WBL 121A-Z - Work-Based Learning II

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 10 Credit: 1

This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

Prerequisites: WBL 111A-Z or WBL 112A-Z. Corequisites: None.
When Offered: (F, S, SU)

WBL 122A-Z - Work-Based Learning II

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 20 Credit: 2

This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

Prerequisites: WBL 111A-Z or WBL 112A-Z. Corequisites: None.
When Offered: (F, S, SU)

WBL 125 - Work-Based Learning Seminar II

Hours--Class: 1 Lab: 0 Clinic/Work Exp: 0 Credit: 1

This course provides information for career development through emphasis on self-exploration and awareness of the world of work. Upon completion, students are capable of career decision making and planning.

Prerequisites: WBL 115. Corequisites: WBL 121A-Z or WBL 122A-Z.
When Offered: (On Demand)

WBL 131A-Z - Work-Based Learning III

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 10 Credit: 1

This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career

selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

Prerequisites: Select one (1) required course from WBL 111A-Z, WBL 112A-Z; and Select one (1) required course from WBL 121A-Z. Corequisites: None. When Offered: (F, S, SU)

WBL 132A-Z - Work-Based Learning III

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 20 Credit: 2

This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

Prerequisites: Select one (1) required course from WBL 111A-Z, WBL 112A-Z; and Select one (1) required course from WBL 121A-Z. Corequisites: None. When Offered: (F, S, SU)

WBL 135 - Work-Based Learning Seminar III

Hours--Class: 1 Lab: 0 Clinic/Work Exp: 0 Credit: 1

This course provides information for career development through emphasis on self-exploration and awareness of the world of work. Upon completion, students are capable of career decision making and planning.

Prerequisites: WBL 115, WBL 125. Corequisites: WBL 131A-Z or WBL 132A-Z. When Offered: (On Demand)

WBL 211A-Z - Work-Based Learning IV

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 10 Credit: 1

This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

Prerequisites: Select one (1) required course from WBL 111A-Z or WBL 112A-Z; and Select one (1) required course from WBL 121A-Z, WBL 122A-Z; and Select one (1) required course from WBL 131A-Z, WBL 132A-Z. Corequisites: None. When Offered: (F, S, SU)

WBL 212A-Z - Work-Based Learning IV

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 20 Credit: 2

This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

Prerequisites: Select one (1) required course from WBL 111A-Z, WBL 112A-Z; and Select one (1) required course from WBL 121A-Z, WBL 122A-Z; and Select one (1) required course from WBL 131A-Z, WBL 132A-Z. Corequisites: None. When Offered: (F, S, SU)

WBL 221A-Z - Work-Based Learning V

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 10 Credit: 1

This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

Prerequisites: Select one (1) required course from WBL 111, WBL 112; and Select one (1) required course from WBL 121, WBL 122; and Select one (1) required course from WBL 131, WBL 132; and Select one (1) required course from WBL 211A-Z, WBL 212A-Z. Corequisites: None. When Offered: (F, S, SU)

WBL 222A-Z - Work-Based Learning V

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 20 Credit: 2

This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career

selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

Prerequisites: Select one (1) required course from WBL 111A-Z, WBL 112A-Z; and Select one (1) required course from WBL 121A-Z, WBL 122A-Z; and Select one (1) required course from WBL 131A-Z, WBL 132A-Z, and Select one (1) required course from WBL 211A-Z, WBL 212A-Z. Corequisites: None. When Offered: (F, S, SU)

WBL 231A-Z - Work-Based Learning VI

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 10 Credit: 1

This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

Prerequisites: Select one (1) required course from WBL 111A-Z, WBL 112A-Z; and Select one (1) required course from WBL 121A-Z, WBL 122A-Z; and Select one (1) required course from WBL 131A-Z, WBL 132A-Z; and Select one (1) required course from WBL 211A-Z, WBL 212A-Z; and Select one (1) required course from WBL 221A-Z, WBL 222A-Z. Corequisites: None. When Offered: (F, S, SU)

WBL 232A-Z - Work-Based Learning VI

Hours--Class: 0 Lab: 0 Clinic/Work Exp: 20 Credit: 2

This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

Prerequisites: Select one (1) required course from WBL 111A-Z, WBL 112A-Z; and Select one (1) required course from WBL 121A-Z, WBL 122A-Z; and Select one (1) required course from WBL 131A-Z, WBL 132A-Z; and Select one (1) required course from WBL 211A-Z, WBL 212A-Z; and Select one (1) required course from WBL 221A-Z, WBL 222A-Z. Corequisites: None. When Offered: (F, S, SU)

Web Technologies

WEB 151 - Mobile Application Dev I

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces students to programming technologies, design and development related to mobile applications. Topics include accessing device capabilities, industry standards, operating systems, and programming for mobile applications using an OS Software Development Kit (SDK). Upon completion, students should be able to create basic applications for mobile devices.

Prerequisites: None. Corequisites: None. When Offered: (F)

Welding

WLD 110 - Cutting Processes

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course introduces oxy-fuel and plasma-arc cutting systems. Topics include safety, proper equipment setup, and operation of oxy-fuel and plasma-arc cutting equipment with emphasis on straight line, curve and bevel cutting. Upon completion, students should be able to oxy-fuel and plasma-arc cut metals of varying thickness.

Prerequisites: None. Corequisites: None. When Offered: (F, S)

WLD 112 - Basic Welding Processes

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course introduces basic welding and cutting. Emphasis is placed on beads applied with gases, mild steel fillers, and electrodes and the capillary action of solder. Upon completion, students should be able to set up welding and oxy-fuel equipment and perform welding, brazing, and soldering processes.

Prerequisites: None. Corequisites: None. When Offered: (F, S)

WLD 115 - SMAW (Stick) Plate

Hours--Class: 2 Lab: 9 Clinic/Work Exp: 0 Credit: 5

This course introduces the shielded metal arc (stick) welding process. Emphasis is placed on padding, fillet, and groove welds in various positions with SMAW electrodes. Upon completion, students should be able to perform

SMAW fillet and groove welds on carbon plate with prescribed electrodes.

Prerequisites: None. Corequisites: WLD 110 or WLD 112.

When Offered: (F, S)

WLD 115AB - SMAW (Stick) Plate-AB

Hours--Class: 2 Lab: 4 Clinic/Work Exp: 0 Credit: 3

This course introduces the shielded metal arc (stick) welding process. Emphasis is placed on padding, fillet, and groove welds in the flat and horizontal positions with SMAW electrodes. Upon completion, students should be able to perform groove welds on carbon plate with prescribed electrodes.

Prerequisites: None. Corequisites: WLD 110 or WLD 112.

When Offered: (F, S)

WLD 115BB - SMAW (Stick) Plate-BB

Hours--Class: 0 Lab: 5 Clinic/Work Exp: 0 Credit: 2

This course is a continuation of WLD 115AB, the shielded metal arc (stick) welding process. Emphasis is placed on padding, fillet, and groove welds in the vertical and overhead positions with SMAW electrodes. Upon completion, students should be able to perform groove welds on carbon plate with prescribed electrodes.

Prerequisites: None. Corequisites: WLD 110 or WLD 112, WLD 115AB.

When Offered: (F, S)

WLD 116 - SMAW (Stick) Plate/Pipe

Hours--Class: 1 Lab: 9 Clinic/Work Exp: 0 Credit: 4

This course is designed to enhance skills with the shielded metal arc (stick) welding process. Emphasis is placed on advancing manipulative skills with SMAW electrodes on varying joint geometry. Upon completion, students should be able to perform groove welds on carbon steel with prescribed electrodes in the flat, horizontal, vertical, and overhead positions.

Prerequisites: WLD 115. Corequisites: None.

When Offered: (F, S)

WLD 116AB - SMAW (Stick) Plate/Pipe-AB

Hours--Class: 1 Lab: 4 Clinic/Work Exp: 0 Credit: 2

This course is designed to enhance skills with the shielded metal arc (stick) welding process. Emphasis is placed on advancing manipulative skills with SMAW electrodes on varying joint geometry. Upon completion, students should be able to perform groove welds on carbon steel with prescribed electrodes in the flat, and horizontal positions.

Prerequisites: WLD 115. Corequisites: None.

When Offered: (F, S)

WLD 116BB - SMAW (Stick)Plate/Pipe-BB

Hours--Class: 0 Lab: 5 Clinic/Work Exp: 0 Credit: 2

This course is a continuation of WLD 116AB, the shielded metal arc (stick) welding process. Emphasis is placed on advancing manipulative skills with SMAW electrodes on varying joint geometry. Upon completion, students should be able to perform groove welds on carbon steel with prescribed electrodes in the flat, horizontal, vertical and overhead positions without backing plates.

Prerequisites: WLD 115. Corequisites: WLD 116AB.

When Offered: (F, S)

WLD 121 - GMAW (MIG) FCAW/Plate

Hours--Class: 2 Lab: 6 Clinic/Work Exp: 0 Credit: 4

This course introduces metal arc welding and flux core arc welding processes. Topics include equipment setup and fillet and groove welds with emphasis on application of GMAW and FCAW electrodes on carbon steel plate. Upon completion, students should be able to perform fillet welds on carbon steel with prescribed electrodes in the flat, horizontal, and overhead positions.

Prerequisites: None. Corequisites: WLD 110 or WLD 112.

When Offered: (F, S)

WLD 122 - GMAW (MIG) Plate/Pipe

Hours--Class: 1 Lab: 6 Clinic/Work Exp: 0 Credit: 3

This course is designed to enhance skills with the gas metal arc (MIG) welding process. Emphasis is placed on advancing skills with the GMAW process making groove welds on carbon steel plate and pipe in various positions. Upon completion, students should be able to perform groove welds with prescribed electrodes on various joint geometry.

Prerequisites: WLD 121. Corequisites: None.

When Offered: (On demand)

WLD 131 - GTAW (TIG) Plate

Hours--Class: 2 Lab: 6 Clinic/Work Exp: 0 Credit: 4

This course introduces the gas tungsten arc (TIG) welding process. Topics include correct selection of tungsten, polarity, gas, and proper filler rod with emphasis placed on safety, equipment setup, and welding techniques. Upon completion, students should be able to perform GTAW fillet and groove welds with various electrodes and filler materials.

Prerequisites: None. Corequisites: WLD 110 or WLD 112.

When Offered: (F, S)

WLD 132 - GTAW (TIG) Plate/Pipe

Hours--Class: 1 Lab: 6 Clinic/Work Exp: 0 Credit: 3

This course is designed to enhance skills with the gas tungsten arc (TIG) welding process. Topics include setup, joint preparation, and electrode selection with emphasis on manipulative skills in all welding positions on plate and pipe. Upon completion, students should be able to perform GTAW welds with prescribed electrodes and filler materials on various joint geometry.

Prerequisites: WLD 131. Corequisites: None.

When Offered: (On demand)

WLD 141 - Symbols & Specifications

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces the basic symbols and specifications used in welding. Emphasis is placed on interpretation of lines, notes, welding symbols, and specifications. Upon completion, students should be able to read and interpret symbols and specifications commonly used in welding.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

WLD 143 - Welding Metallurgy

Hours--Class: 1 Lab: 2 Clinic/Work Exp: 0 Credit: 2

This course introduces the concepts of welding metallurgy. Emphasis is placed on basic metallurgy, effects of welding on various metals, and metal classification and identification. Upon completion, students should be able to understand basic metallurgy, materials designation, and classification systems used in welding.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

WLD 151 - Fabrication I

Hours--Class: 2 Lab: 6 Clinic/Work Exp: 0 Credit: 4

This course introduces the basic principles of fabrication. Emphasis is placed on safety, measurement, layout techniques, cutting, joining techniques, and the use of fabrication tools and equipment. Upon completion, students should be able to perform layout activities and operate various fabrication and material handling equipment.

Prerequisites: None. Corequisites: WLD 110, WLD 121.

When Offered: On Demand

WLD 215 - SMAW (Stick) Pipe

Hours--Class: 1 Lab: 9 Clinic/Work Exp: 0 Credit: 4

This course covers the knowledge and skills that apply to welding pipe. Topics include pipe positions, joint geometry, and preparation with emphasis placed on bead application, profile, and discontinuities. Upon completion, students should be able to perform SMAW welds to applicable codes on carbon steel pipe with prescribed electrodes in various positions.

Prerequisites: WLD 115 and WLD 116. Corequisite: None.

When Offered: (F, S)

WLD 215AB - SMAW (Stick) Pipe-AB

Hours--Class: 1 Lab: 4 Clinic/Work Exp: 0 Credit: 2

This course covers the knowledge and skills that apply to welding pipe. Topics include pipe positions, joint geometry, and preparation with emphasis placed on bead application, profile, and discontinuities. Upon completion, students should be able to perform SMAW welds to applicable codes on carbon steel pipe with prescribed electrodes in the 2G and 5G positions.

Prerequisites: WLD 115 and WLD 116. Corequisites: None.

When Offered: (F)

WLD 215BB - SMAW (Stick) Pipe-BB

Hours--Class: 0 Lab: 5 Clinic/Work Exp: 0 Credit: 2

This course is a continuation of WLD 215AB. Topics include pipe positions, joint geometry, and preparation with emphasis on making welds in the 2G and 5G positions without backing, and testing in the 6G position with carbon steel electrodes and making pipe welds with stainless steel electrodes. Upon

completion, students should be able to perform SMAW welds to applicable codes on carbon steel pipe with carbon steel electrodes in various positions.

Prerequisites: WLD 115 and WLD 116. Corequisites: WLD 215AB.

When Offered: (F, S)

WLD 221 - GMAW (MIG) Pipe

Hours--Class: 1 Lab: 6 Clinic/Work Exp: 0 Credit: 3

This course covers the knowledge and skills that apply to welding pipe. Topics include pipe positions, joint geometry, and preparation with emphasis placed on bead application, profile, and discontinuities. Upon completion, students should be able to perform GMAW welds to applicable codes on pipe with prescribed electrodes in various positions.

Prerequisites: WLD 122 . Corequisites: None.

When Offered: (F,S)

WLD 231 - GTAW (TIG) Pipe

Hours--Class: 1 Lab: 6 Clinic/Work Exp: 0 Credit: 3

This course covers gas tungsten arc welding on pipe. Topics include joint preparation and fit up with emphasis placed on safety, GTAW welding technique, bead application, and joint geometry. Upon completion, students should be able to perform GTAW welds to applicable codes on pipe with prescribed electrodes and filler materials in various pipe positions.

Prerequisites: WLD 132. Corequisites: None.

When Offered: (F,S)

WLD 251 - Fabrication II

Hours--Class: 1 Lab: 6 Clinic/Work Exp: 0 Credit: 3

This course covers advanced fabrication skills. Topics include advanced layout and assembly methods with emphasis on the safe and correct use of fabrication tools and equipment. Upon completion, students should be able to fabricate projects from working drawings.

Prerequisites: WLD 151. Corequisites: WLD 141.

When Offered: (F,S)

WLD 261 - Certification Practices

Hours--Class: 1 Lab: 3 Clinic/Work Exp: 0 Credit: 2

This course covers certification requirements for industrial welding processes. Topics include techniques and certification requirements for prequalified joint geometry. Upon completion, students should be able to perform welds on carbon steel plate and/or pipe according to applicable codes.

Prerequisites: WLD 115, WLD 116, WLD 121, WLD 131. Corequisites: WLD 122, WLD 132.

When Offered: (On demand)

WLD 262 - Inspection & Testing

Hours--Class: 2 Lab: 2 Clinic/Work Exp: 0 Credit: 3

This course introduces destructive and non-destructive testing methods. Emphasis is placed on safety, types and methods of testing, and the use of testing equipment and materials. Upon completion, students should be able to understand and/or perform a variety of destructive and non-destructive testing processes.

Prerequisites: None. Corequisites: None.

When Offered: (On demand)

WLD 265 - Automated Welding/Cutting

Hours--Class: 2 Lab: 6 Clinic/Work Exp: 0 Credit: 4

This course introduces automated welding equipment and processes. Topics include setup, programming, and operation of automated welding and cutting equipment. Upon completion, students should be able to set up, program, and operate automated welding and cutting equipment.

Prerequisites: WLD 110 and WLD 121. Corequisites: ATR 212.

When Offered: (On demand)

Board of Trustees

(2021-2022)

Mr. Vance Dalton, Chair

Mr. Clement Geitner, Vice-Chair

Mr. David Boone

Mr. Steve Boyd

Mr. John Bray

Ms. Sherry Butler

Mr. Jeremy Fortner

Ms. Kimberly George

Mrs. Linda Greenwell

Dr. Trisha Johnson

Mr. Tom Lundy

Mr. Robert A. Mullinax

Mrs. DeAnna Taylor

Mr. John Watts

Hope Cable, CVCC Student Government President, 2020-2021

Dr. Garrett Hinshaw, College President

Mrs. Jennifer Jones, Board Secretary

Trustees for Catawba Valley Community College are selected for four-year terms, four each by the Catawba County Board of Commissioners, the Governor of North Carolina, the three Boards of Education in Catawba County, and two by the Alexander County Board of Commissioners. Under state law, the duly-elected President of the CVCC Student Government Association is a non-voting trustee for a term of one year. New appointments occur in July each year and at other times if there are resignations, etc. For a current listing, please contact the Office of the President.

CVCC President

Hinshaw, Garrett D.

President

B.S., M.A., Appalachian State University; Ed.D., North Carolina State University.

E-mail: ghinshaw@cvcc.edu

Telephone extension: 4210

Jones, Jennifer

Special Assistant to the President

B.A. Appalachian State University

E-mail: jjones555@cvcc.edu

Telephone extension: 4135

Faculty and Staff

Acree, Deborah L.

Administrative Assistant, School of Academics and Educational Opportunities
Catawba Valley Community College.

E-mail: dacree@cvcc.edu

Telephone extension: 4398

Adams, Crystal

Department Head, Dental Hygiene
Diploma, Wilkes Community College; A.A.S., Central Piedmont Community College; B.S., Mountain State University; M.A., Appalachian State University.

E-mail: cadams@cvcc.edu

Telephone extension: 4158

Alderman, Lesley

Administrative Assistant, School of Health & Public Services

E-mail: lalderman@cvcc.edu

Telephone extension: 4350

Ahlgrim, Nathan

Psychology Faculty

B.S. University of North Carolina, PhD Emory University

E-mail: nahlgrim483@cvcc.edu

Telephone extension: 4742

Anderson, Ron

Furniture Instructor, Alexander Central High School

Andrews, Cynthia J

Administrative Assistant, School of Workforce Development and the Arts

A.A.S., Durham Technical Community College.

E-mail: candrews@cvcc.edu

Telephone extension: 4197

Annas, Randy

Maintenance/HVAC Technician

Telephone extension: 4236

Archer, Jennifer

Financial Aid Technician, Student Services

A.A.S., Catawba Valley Community College.

E-mail: jarcher@cvcc.edu

Telephone extension: 4220

Armstrong, Kris

OnBase & Informer Administrator/Technical Analyst

A.A.S. Catawba Valley Community College

E-mail: karmstrong@cvcc.edu

Telephone extension: 4563

Austin, Debbie

Director, Center for Student Excellence and Leadership

B.S., Gardner-Webb University; M.A. University of North Carolina at Greensboro.

E-mail: daustin@cvcc.edu

Telephone extension: 4572

Badgley, Paul (Nimon)

Associate Dean, Health & Public Service Innovation Center

B.S., M.S. Western Carolina University

E-mail: pbadgley@cvcc.edu

Telephone extension: 4331

Baker, Scott

Admissions Counselor, Student Services
B.S., M.P.A., Appalachian State University.
E-mail: sbaker@cvcc.edu
Telephone extension: 4266

Barkley, Dedee

Assistant Controller, Business Office
A.A.S., Catawba Valley Community College.
E-mail: dbarkley@cvcc.edu
Telephone extension: 4304

Barnes, Daniel

Welding Instructor
A.A.S. Welding Technology, Catawba Valley Community College
E-mail: dbarnes295@cvcc.edu

Barnes, Ricky A

Program Director, Information Security & Networking
A.A.S., Catawba Valley Community College; B.I.T., M.I.T.,
American Intercontinental University. Certifications: Cisco
Certified Network Associate; Cisco Certified Academy
Instructor, EC-Council Network Security Administration.
E-mail: rbarnes@cvcc.edu
Telephone extension: 4312

Baucom, Susan

Student Records Technician, Student Services
B.S., Gardner-Webb University.
E-mail: sbaucom@cvcc.edu
Telephone extension: 4085

Beard, Benita R.

Department Head, Nursing
A.A.S., Gardner-Webb University; B.S.N., Lenoir-Rhyne
University; M.S.N., University of North Carolina at Greensboro.
E-mail: bbeard@cvcc.edu
Telephone extension: 4336

Beatty, Barbara

Health Information Technology Faculty
A.A.S., Catawba Valley Community College; B.S., University
of Cincinnati.
E-mail: bbeatty@cvcc.edu
Telephone extension: 4104

Benge, Jessalyn

EMS Clinical Coordinator
A.A.S. Catawba Valley Community College, B.A. University of
North Carolina - Charlotte
E-mail: jbenge587@cvcc.edu
Telephone extension: 4347

Biehler, Jacob

Welding Instructor
Certificate, Diploma, Catawba Valley Community College.
E-mail: jbiehler145@cvcc.edu
Telephone extension: 4735

Biggs, Teresa W.

Executive Director, CVCC Foundation, Inc.
B.S., M.B.A., Gardner-Webb University.
E-mail: tbiggs@cvcc.edu
Telephone extension: 4288

Black, Carla

Administrative Assistant, Public Services Innovation Center
A.A., Catawba Valley Community College.
E-mail: cblack@cvcc.edu
Telephone extension: 4306

Blackwelder, Jerry Bryan

Automotive Instructor
A.A.S., Catawba Valley Community College.
E-Mail: bblackwelder899@cvcc.edu
Telephone extension: 4348

Blake, Susan

Director, Business/Technology Training/Workforce
Development Innovation Center
A.A.S., Catawba Valley Community College; B.A., Lenoir-
Rhyne University.
E-mail: sblake@cvcc.edu
Telephone extension: 4330

Blanchard, Susannah

English Faculty
B.A., M.A., University of North Carolina at Wilmington.
E-mail: sblanchard@cvcc.edu
Telephone extension: 4233

Boone, Michael A.

Department Head, Astronomy, Math and Physics
B.S., Clemson University; M.A., Ed.S., Appalachian State
University.
E-mail: mboone@cvcc.edu
Telephone extension: 4537

Box, Jessy

Welding Faculty
Diploma, Catawba Valley Community College
E-mail: jbox564@cvcc.edu
Telephone extension:

Brandon, Carolyn D.

Director, Scholarships and Financial Aid/Student Services
A.A.S., Catawba Valley Community College. B.S., Gardner-
Webb University.
E-mail: cbrandon@cvcc.edu
Telephone extension: 4244

Braun, Elizabeth

English Faculty
B.S., Western Illinois; M.S., Augusta State University, Ed. D.,
Gardner Webb University
E-mail: ebraun@cvcc.edu
Telephone extension: 4007

Brittain, Laura

Facility Offices Service Technician
Catawba Valley Community College.
E-mail: lbrittain@cvcc.edu
Telephone extension: 4236

Brittain, Teresa

Backup System Administrator & Technical Analyst/Data
Services
A.A.S., Catawba Valley Community College.
E-mail: tbrittain@cvcc.edu
Telephone extension: 4289

Brooks, Brittanie
ERP System Applications Specialist
A.A.S., Catawba Valley Community College.
E-mail: bbrooks@cvcc.edu
Telephone extension: 4035

Brooks, Tom
Computer Technician, Information Technology
Catawba Valley Community College.
E-mail: tbrooks@cvcc.edu
Telephone extension: 4496

Brooks-Livingston, Ethan
History Instructor
B.A., Judson College; M.A. University of Alabama; M.A.
Appalachian State University.
E-mail: ebrookslivingston386@cvcc.edu
Telephone Extension: 4458

Brotherton, Carla
Academics and Facilities Scheduling Specialist
A.A.S., Catawba Valley Community College.
E-mail: cbrotherton@cvcc.edu
Telephone extension: 4077

Brown, Amy
Cosmetology Faculty
The Paul Mitchell School
E-mail: abrown963@cvcc.edu
Telephone extension:

Brown, Ashley K.
Sociology/Political Science Faculty
A.A., Catawba Valley Community College; B.A., Lenoir-
Rhyne University; M.P.A., Appalachian State University.
E-mail: abrown@cvcc.edu
